STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BARRASSO (for himself, Mr. TESTER, and Ms. MURKOWSKI):

S. 286. A bill to amend the Indian Self-Determination and Education Assistance Act to provide further self-governance by Indian tribes, and for other purposes; to the Committee on Indian Affairs.

Mr. BARRASSO. Mr. President, I rise today to introduce legislation that would further advance the goals of Indian self-governance and self-determination. The legislation is entitled, the Department of the Interior Self-

Governance Act of 2015. I thank my colleagues who have joined me as original cosponsors of this legislation, including Indian Affairs Committee Vice Chairman Senator TESTER and Senator MURKOWSKI.

One of the cornerstones of Federal Indian policy is the concept of tribal self-determination and self-governance. In 1975, Congress passed the Indian Self-Determination and Education Assistance Act. The Act, Public Law No. 93-638 authorizes Indian tribes to carry out certain Federal Indian programs, activities, and functions within the Department of the Interior and the Department of the Health and Human Services.

Self-governance is both a policy and procedure whereby, pursuant to the Indian Self-Determination and Education Assistance Act, Indian tribes administer Federal programs for Indians. Tribal administration of these programs promotes local control and decision-making for these important programs that affect the local tribal community.

Tribal administration through these processes also serves to reduce Federal bureaucracy. This legislation promotes accountability by maintaining requirements that Indian tribes must demonstrate a higher level of responsible governance and administration. Good governance is vital for continuing this policy.

The act gives authority to the Secretaries of the Interior and Health and Human Services to enter into 638 contracts and self-governance compacts with Indian tribes. Each 638 contact or self-governance compact identifies functions and activities to be carried out by the tribe, as well as any administrative, reporting, or other requirements that must be followed.

Despite the increased flexibility in the tribal self-governance program, Indian tribes have stated to Congress that the Department of the Interior has, for many years, resisted the efforts by tribes to carry out Interior programs. Without additional reforms, the success of the Indian Self-Determination and Education Assistance Act cannot reach its full potential.

The bill intends to clarify and expand the provisions of the Indian Self-Determination and Education Assistance Act. This legislation will give tribes a better opportunity to advance the policy of tribal self-governance by authorizing the Secretary of the Interior to select up to 50 new Indian tribes to participate in the tribal self-governance program. In addition, the bill clarifies that provisions of water settlements and their authorizing legislation will not be affected by the self-governance amendments. Furthermore, nothing in this will expand or limit programs eligible for self-governance compacts beyond those already authorized under current law.

This bipartisan bill is supported by Indian tribes across the country. I urge my colleagues to support this legislation.

By Mr. DURBIN (for himself, Mrs. FEINSTEIN, Mrs. GILLI-
BRAND, and Mr. BLUMENTHAL):

SEC. 2. FINDINGS; PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the safety of the food supply of the United States is vital to the public health, to public confidence in the food supply, and to the success of the food sector of the Nation's economy;

(2) lapses in the protection of the food supply and loss of public confidence in food safety are damaging to consumers and the food industry, and place a burden on interstate commerce;

(3) the safety and security of the food supply requires an integrated, systemwide approach to preventing foodborne illness, a thorough and broad-based approach to basic and applied research, and intensive, effective, and efficient management of the Nation's food safety program;

(4) the task of preserving the safety of the food supply of the United States faces tremendous pressures with regard to—

(A) emerging pathogens and other contaminants and the ability to detect all forms of contamination;

(B) an aging and immune-compromised population, with a growing number of people at high risk for foodborne illnesses, including infants and children;

(C) a concern regarding food fraud for economic gain, especially with mislabeling and intentionally misleading claims;

(D) an increasing volume of imported food, without adequate monitoring and inspection; and

(E) maintenance of rigorous inspection of the domestic food processing and food service industries;

(5) Federal food safety standard setting, inspection, enforcement, and research efforts should be based on the best available science and public health considerations and food safety resources should be systematically deployed in ways that most effectively prevent foodborne illness;

(6) the Federal food safety system is fragmented, with at least 15 Federal agencies sharing responsibility for food safety, and operates under laws that do not reflect current conditions in the food system or current scientific knowledge about the cause and prevention of foodborne illness;

(7) the fragmented Federal food safety system and outdated laws preclude an integrated, systemwide approach to preventing foodborne illness, to the effective and efficient operation of the Nation's food safety program, and to the most beneficial deployment of food safety resources;

(8) the National Academy of Sciences recommended in the report “Ensuring Safe Food from Production to Consumption” that Congress establish by statute a unified and central framework for managing Federal food safety programs, and recommended modifying Federal statutes so that inspection, enforcement, and research efforts are based on scientifically supportable assessments of risks to public health; and

(9) the lack of a single focal point for food safety leadership in the United States undercuts the ability of the United States to exert food safety leadership internationally, which is detrimental to the public health and the international trade interests of the United States.

(b) PURPOSES.—The purposes of this Act are—

(1) to establish a single agency to be known as the “Food Safety Administration” to—

(A) regulate food safety and related labeling to strengthen the protection of the public health;

(B) ensure that food facilities fulfill their responsibility to produce food in a manner that protects the public health of all people in the United States;

(C) lead an integrated, systemwide approach to food safety and to make more effective and efficient use of resources to prevent foodborne illness;

(D) provide a single focal point for food safety leadership, both nationally and internationally; and

(E) provide an integrated food safety research capability, utilizing internally-generated, scientifically and statistically valid studies, in cooperation with academic institutions and other scientific entities of the Federal and State governments, to achieve the continuous improvement of research on foodborne illness and contaminants;

(2) to transfer to the Food Safety Administration the food safety, labeling, inspection, and enforcement functions that, as of the day before the effective date of this Act, are performed by other Federal agencies; and

(3) to modernize and strengthen the Federal food safety laws to achieve more effective application and efficient management of the laws for the protection and improvement of public health.

(b) ENFORCEMENT.—

(1) IN GENERAL.—Not later than 1 year after the promulgation of a performance standard under this section, the Administrator shall implement a statistically significant sampling program to determine whether food facilities are complying with the standards promulgated under this section.

(2) ACTIONS.—If the Administrator determines that a food facility fails to meet a standard promulgated under this section, and such facility fails to take appropriate corrective action as determined by the Administrator, the Administrator shall, as appropriate—

This Act and the amendments made by this Act take effect on the date of enactment of this Act.

By Mr. ALEXANDER (for himself, Mr. MCCONNELL, Mr. ENZI, Mr. ISAKSON, Mr. RUBIO, and Mr. SCOTT):

S. 288. A bill to amend the National Labor Relations Act to reform the National Labor Relations Board, the Office of the General Counsel, and the process for appellate review, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. ALEXANDER. Mr. President, today I am reintroducing the NLRB Reform Act with Senator MCCONNELL.

Our legislation will change the National Labor Relations Board from an advocate to an umpire.

The board was created 80 years ago to act as an impartial umpire in labor disputes that threaten the free flow of commerce.

The board's decisions affect about 85 million private-sector workers and 5.7 million private-sector employers.

But over time, the board has become an advocate for one interest group over the other—changing positions with each new administration.

There are three significant problems the board faces today:

First, the biggest problem is partisan advocacy. Today, the majority of the 5-member board is made up of appointees who follow the president's political leanings. President Obama has appointed 3 labor union lawyers to the board.

Second, the board has a freewheeling advocate for a general counsel. The board's most recent general counsels have been exceeding their statutory authority and bringing questionable cases that threaten American jobs.

Third, it is too slow to resolve disputes. Right now, 145 cases, that is 32 percent of the board's caseload, have been pending for more than a year.

Our bill provides three fixes.

First, it ends partisan advocacy. A 6-member board of 3 Republicans and 3 Democrats and a majority of 4 will require both sides to find a middle ground.

Second, it reins in the general counsel. Businesses and unions would be able to challenge complaints filed by the General Counsel in Federal district court, and they will have greater transparency about the basis and legal reasoning of charges brought by the General Counsel.

Third, it encourages timely decisions in two ways. First, either party in a case before the board may appeal to a Federal Court of Appeals if the board fails to reach a decision in their case within one year.

Second, funding for the entire NLRB would be reduced by 20 percent if the board is not able to decide 90 percent of its cases within one year over the first 2-year period post-reform.

Our bill would offer these solutions without taking away rights or remedies for any employee, business, or union.

While the increasing partisanship at the board has occurred in Republican administrations as well as Democrat administrations, it has reached a climax in this administration.

Three of President Obama's recent nominees came to the board from a major labor union's leadership.

One labor law professor at a major university recently said that she can't even use the most recent textbook, instead she has to resort to handing out NLRB decisions. The decisions are coming out so rapidly and this NLRB is venturing into new territory with efforts at rulemaking.

This is no way to maintain a national labor law policy.

S. 295. A bill to amend section 2259 of title 18, United States Code, and for other purposes; to the Committee on the Judiciary.

Mr. HATCH. Mr. President, today I am introducing legislation to help victims of child pornography, one of society's most heinous crimes. I am joined by 34 Senators on both sides of the aisle. I hope this legislation will soon become law.

Sexually exploiting a child distorts her life and leaves scars long after the abuse itself ends and the abuser has been prosecuted. For this reason, the Violence Against Women Act includes a provision requiring that in such cases a defendant must pay restitution to cover all of the victim's losses. Those losses can include future lost income as well as medical care, mental health counseling, and therapy.

Child pornography isn't merely the record of a child's sexual abuse, it is itself an instance of abuse. The ongoing trafficking and those images pile harm upon harm. As a result, it becomes even more difficult for a victim to put together a life that was shattered before it had barely begun.

As the Supreme Court has recognized, “every viewing of child pornography is a repetition of the victim's abuse.” The current restitution statute was enacted in 1994, before the Internet became prime real estate for trafficking of child pornography.

It puts victims in an impossible bind. In a case decided last spring, the Supreme Court said the current restitution statute requires the victim to prove how much of her losses were specifically caused by a single defendant's possession of her images. With a burden like that, it is no wonder that under this statute victims receive no restitution at all in more than three-quarters of child pornography cases.

The cruel irony today is that the more individuals who participate in harming a victim, the less any of them is financially responsible, and the less timely help the victim will receive. Perpetrators are easily lost in a crowd.

The bill I introduce today will amend the restitution statute so that it works for child pornography victims. It is named for Amy and Vicky, brave women who are the victims of two of the most widely viewed child pornography series in the world. Amy's case went before the Supreme Court last year, and my staff worked with the legal team for these women in developing this bill.

I want to mention in particular James Marsh, whose legal practice in New York focuses exclusively on helping victims; Professor Paul Cassell at the University of Utah, who argued Amy's case before the Supreme Court; and Carol Hepburn, who practices law in Seattle on behalf of Vicky and many other victims.

This bill changes the current restitution statute in three important ways so that it works for child pornography victims. First, it gives judges options for determining a victim's losses and calculating restitution. Second, it gives judges the ability to impose restitution on defendants in different kinds of cases to ensure that victims actually receive meaningful restitution. Third, it shifts the burden of chasing defendants all over the country from victims to defendants who can share the restitution costs with other defendants.

Both Amy and Vicky personally support this bill. I am also pleased that many national victim advocacy groups support this bill, including the National Center for Missing and Exploited Children, the National Organization for Victim Assistance, the National Crime Victim Law Institute, the National Center for Victims of Crime, and the National Task Force to End Sexual and Domestic Violence Against Women.

Last October I received a letter endorsing this bill signed by the attorneys general of 43 States, 22 Republicans and 21 Democrats.

I want to share with my colleagues the story of a young man, a Utah resident, who uses the name Andy.

Between the ages of 7 and 12, he was sexually abused by a trusted adult and family friend. Dr. David Corwin, the University of Utah child psychologist who examined him, said that based on 30 years of experience with child sexual abuse victims, the images and videos of Andy's abuse were the most disturbing he had ever seen.

According to the FBI, the images and videos created from Andy's abuse are one of the most widely distributed boy series in the country. The FBI says that as of last month Andy is a named victim in 726 cases. He has been granted restitution in 24 of the 101 cases in which he requested it and has collected anything at all in only 2 cases.

Andy wrote to support the bill I am introducing today. He addresses letters to the Members of the Congress, which means that he is writing to each Member of this body. Andy says this legislation will prevent him from having to spend decades trying to recover minus-

cule amounts of restitution from hundreds, if not thousands of defendants all over the country. I want my colleagues to hear his words:

My images may never be taken off the Internet and may always be circulating around the country. At least with this congressional change, I can start to heal, learn how to handle my circumstances, and rebuild my life.

There are many more Amys, Vickys, and Andys than any of us want to admit, and they need our help. In our system of government, we have the responsibility to pass or change legislation to address issues and problems Americans face. All the courts could do was confirm that the current restitution statute is no longer suited to help child pornography victims. It is now up to us to do our duty and enact a statute that will. Amy, Vicky, and Andy are counting on us, and we must not let them down.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 43—EXPRESSING THE SENSE OF THE SENATE THAT CHILDREN TRAFFICKED IN THE UNITED STATES SHOULD BE TREATED AS VICTIMS, AND NOT CRIMINALS, ESPECIALLY DURING THE UPCOMING SUPER BOWL, AN EVENT AROUND WHICH MANY CHILDREN ARE AT RISK FOR BEING TRAFFICKED FOR SEX

Mr. PORTMAN (for himself and Mr. BLUMENTHAL) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 43

Whereas according to the Department of Justice, there are currently an estimated 293,000 children in the United States at risk of commercial sexual exploitation;

Whereas the victims of child sex trafficking are often hidden in plain view, and may be found standing around bus stops, staying in runaway youth shelters, or advertised for commercial sex online;

Whereas the average age of entry into sex trafficking is between just 12 and 14 years old;

Whereas child victims of trafficking are often abducted or lured into running away by traffickers and then routinely raped, drugged, and beaten into submission, and sometimes even branded;

Whereas it is widely recognized that the beloved American tradition of the Super Bowl, an event that draws tens of thousands of fans to the host city, like other major sporting events, leads to a surge in the sex trafficking of underage girls and boys in the host city; and

Whereas traffickers aggressively advertise and sell sex trafficking victims on sites like Backpage.com during the Super Bowl in order to meet the increased demand from those flocking to the host city: Now, therefore, be it

Resolved, That the Senate agrees that—

(1) law enforcement, the juvenile justice system, and social services should treat all children trafficked for sex as victims; and

(2) Federal and State law enforcement agencies should make every effort to arrest and prosecute both traffickers and buyers of

children for sex, in accordance with the Trafficking Victims Protection Act and State child protection laws against abuse and statutory rape, and should take all necessary measures to protect the children of the United States from harm.
