

Lanka and landed at Saint Michael's. She started working in the Office of Academic Affairs, ultimately becoming the director of government and community relations and the secretary of the board of trustees, the position from which she will retire. Marilyn's passion for connecting the academic community of Saint Michael's with surrounding Vermont communities and communities across the country and abroad has made her a valued mentor to students and faculty alike. St. Mike's could not have had a more effective ambassador, champion, and problem-solver than Marilyn has been in this crucial role. Her energy is only matched by her creativity and her clear, sharp focus on what matters.

Marilyn's considerable talents also benefited the Vermont Council on World Affairs, an organization headquartered at Saint Michael's College. As a member of the board of directors, Marilyn has connected students with cross-cultural opportunities throughout Vermont and across the globe. In 2012, Marilyn helped to organize a delegation of representatives visiting the French city of Honfleur. It was a treat for both Marcelle and me to be a part of that special visit.

Over the years, I have crossed paths with many people connected to Saint Michael's, from public figures in the Nation's Capital, Vermont and across the country, to visitors in my office, to members of my own staff. One constant in each of these encounters is the praise they have for Marilyn for her work in helping so many students achieve their goals. She has empowered students to become leaders in their communities. I know these are commitments that will continue, even as Marilyn prepares for this exciting next chapter in her life.

Saint Michael's is a special place that many visit and come to call home. So it has been for Marilyn Cormier. Marcelle and I wish our dear friend all the very best.

NAACP LEGAL DEFENSE AND EDUCATIONAL FUND, INC., 75TH ANNIVERSARY

Mr. LEAHY. Mr. President, this year marks the 75th anniversary of the NAACP Legal Defense and Educational Fund, Inc., one of the great civil rights organizations in the Nation's history. Seventy-five years ago, Thurgood Marshall established LDF or the "Inc. Fund"—as it was commonly known then—as a separate legal entity. The efforts of the men and women of this organization throughout the years have transformed our Nation for the better. I am grateful for the leaders who have dedicated their lives to the perennial effort to move this country toward a more perfect union. I would extend a special thanks to Sherrilyn Ifill, the current president and director-counsel of LDF; Leslie Proff, the director of the Washington, DC, office; and Debo Adegbile, the former acting

director-counsel of LDF. Their dedication is emblematic of the hard-working staff of the Legal Defense Fund.

Most of us know about LDF's work to dismantle segregation in the historic *Brown v. Board of Education* case, but the organization's advocacy for civil rights extends far beyond litigating groundbreaking cases. The grass roots leaders of LDF have also helped achieve greater racial justice through its legislative efforts, including working with members from both sides of the aisle in Congress. The Legal Defense Fund has contributed its knowledge and expertise on issues such as voting rights, equal employment access, fair housing, education and criminal justice, and their efforts have resulted in legislation and policies that have improved the lives of millions of Americans.

This year, as we celebrate the 50th anniversary of the march from Selma as well as the 75th anniversary of LDF, I once again urge my fellow Senators to join our effort to restore the protections of the Voting Rights Act that were gutted by the Supreme Court's narrow majority in *Shelby County v. Holder*. The best way to honor civil rights heroes such as Thurgood Marshall, and all the men and women of LDF, is to enact real and meaningful legislative reforms that advance the principles of equality for which those individuals dedicated their lives.

RECOGNIZING MOUNT SNOW'S 60TH ANNIVERSARY

• Mr. LEAHY. Mr. President, it is a pleasure to point out that we are completing another brisk ski season at one of Vermont's fabled slopes, Mount Snow. This year marks the 60th anniversary of winter sports at Mount Snow, and while the temperatures dropped well below zero for many weeks, outdoor enthusiasts of Vermont and from far beyond have descended on Dover, VT, to embrace Mother Nature's challenge, and they have enthusiastically embraced the joys and challenges of our gorgeous mountainous terrain.

Mount Snow was born in the 1950s as Alpine skiing solidified itself as a popular American sport. It has been a vital contributor to the economies of Vermont and New England ever since. Since its birth as one of Vermont's go-to ski slopes, Mount Snow has been an innovator and a pioneer, staying ahead of the industry and adding features to the resort that are now commonplace at ski areas throughout our country and the world.

As Mount Snow enters a new phase in its development, its future will include state-of-the-art advancements with a new ski lodge to meet skier needs and an expanded snowmaking infrastructure to ensure snowmaking is available across the mountain. As the closest mountain to Boston and New York City, these improvements will only encourage more people to choose Vermont as their primary destination for skiing and riding.

I want to congratulate the entire team at Mount Snow for 60 years of great and vibrant winter activity, and I look forward to all they have planned for the future. I ask unanimous consent that an article from the *Manchester Journal* sketching Mount Snow's history and planned growth be printed in the RECORD. •

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the *Manchester Journal*, Nov. 22, 2014]

MOUNT SNOW TO MAKE MAJOR IMPROVEMENTS

(By Brandon Canevari)

DOVER.—Mount Snow—which is celebrating its 60th anniversary this year—is about to undergo some significant changes.

The resort has had a master plan in place for a while now, which is now in motion.

"We're seeking financing for a couple of major capital projects," said Mount Snow Communications Director Dave Meeker. "Thus far it's been very successful and we're well on our way to reaching our goal. It's a total investment of about \$52 million dollars."

One of the two major projects that resort is looking to begin is the construction of a 20 million gallon snowmaking water reservoir called West Lake.

"That is really going to be the biggest step towards our goal of having 100 percent snowmaking coverage on the mountain," said Meeker.

Once they begin the project, Meeker said that it will probably take about two years to complete.

"It will take a couple years to get it completed because it's not just excavating the pond. It's installing the new pipes, installing the new facilities to push the water to the mountain," said Meeker. "There are just a lot of other components that go along with constructing a reservoir that size and with all the machinery and stuff that goes along with it."

The other components to the project are installing snowmaking pipes, pump houses, booster houses and the other components that are needed for snowmaking.

The other major component to the first phase of the plan is the construction of a 36,000 square foot base lodge at Carinthia Parks at Mount Snow.

"It'll have skier services, food and beverage, retail, all sorts of stuff. So, it will be a great improvement over to the base area at Carinthia," said Meeker.

Depending on how financing goes, Meeker said that the resort could break ground on West Lake as early as next summer. When they will be able to build the base lodge and make some of the other improvements that they are planning though is still uncertain.

"The timeline really depends on financing," said Meeker. "Our planning director, they've been globe-trotting basically, going out and seeking investors and we've been very successful so far. So . . . if we had all of the investors today we'd be making plans to break ground as soon as possible. So, it really hinges upon when we are able to get enough investors to secure the financing to begin these projects."

The mountain installed 645 new low-energy snowmaking guns this year as part of their master plan as well.

"That would have been a big component to the improvements that we would be making in future after building West Lake, but we had the opportunity to take advantage of a program that was offered by Efficiency Vermont this year to upgrade our snowmaking system to all low-energy guns,"
