

Mr. TAKANO. Mr. Speaker, I rise today to pay tribute to Dorella Alexis Anderson, a resident of Riverside, California, who passed away last month.

For more than 40 years, Dorella worked at the Riverside Community Settlement Association, which provided a number of services for residents in the Eastside area of Riverside.

A lifetime member of the Riverside African American Historical Society, Dorella worked to preserve the rich African American history in Riverside. She worked on numerous charitable endeavors in Riverside, including Toys for Tots, and gave back to the community in countless ways.

Dorella was a wife, a mother, a grandmother, a great-grandmother, a sister, an aunt, and a friend. Her dedication toward our community cements her legacy as one of our greatest residents. She will be missed.

CARRY-ON FREEDOM ACT

(Mr. COHEN asked and was given permission to address the House for 1 minute.)

Mr. COHEN. Mr. Speaker, last week the International Air Transport Association recommended a new guideline that would reduce the size of carry-on luggage. The new carry-on size limit is 21 percent smaller than the size currently permitted by most major domestic airlines.

Eight major international carriers have already adopted the new size limits, and the trade association is suggesting more airlines will be adopting it soon. If implemented by our domestic carriers, this will force consumers to spend more on checked baggage fees and/or purchase new luggage to meet this new guideline.

Enough is enough. Airline passengers are tired of getting squeezed by airlines, both physically and fiscally. The seats are smaller, the legroom is less, the prices are more, and the profits are more.

That is why I introduced the Carry-on Freedom Act. The bill would prohibit airlines who charge for checked baggage from reducing the size of carry-on baggage from the current size standards and would protect consumers from even more cost to travel. I urge my colleagues to stand up for consumers and pass the Carry-on Freedom Act.

PROSTATE CANCER IS A NATIONAL EPIDEMIC

(Mr. BUTTERFIELD asked and was given permission to address the House for 1 minute.)

Mr. BUTTERFIELD. Mr. Speaker, prostate cancer is a national epidemic, the most common cancer in men. One in seven men will be diagnosed, with more than 220,000 new cases each year, and 28,000 men will die from prostate cancer this year. Prostate cancer, Mr. Speaker, disproportionately impacts African American men, who have the

highest prostate cancer rates of any racial or ethnic group. Black men are twice as likely to be diagnosed with prostate cancer, nearly 2½ times as likely to die from that disease.

Last week, I introduced the National Prostate Cancer Plan Act along with Congressmen MIKE MCCAUL, ELIJAH CUMMINGS, and WALTER JONES. The bill would establish the National Prostate Cancer Council and direct them to develop and implement a national strategic plan to accelerate the innovation of diagnostic tools to improve early detection and reduce unnecessary treatment.

Prostate cancer can strike anyone. Many of us have either been personally affected by this disease or have lost a loved one. Enactment of this bill would be a giant step forward in our battle to combat this treatable disease so that men can live longer and healthier.

My bill, Mr. Speaker, has been endorsed by the American Urological Association, American Medical Association, Prostate Cancer Foundation, ZERO, and PCRI.

Mr. Speaker, I urge my colleagues to join me in this effort by cosponsoring H.R. 2730.

WOMAN ON THE TWENTY ACT

(Mrs. BEATTY asked and was given permission to address the House for 1 minute.)

Mrs. BEATTY. Mr. Speaker, the American people have spoken. I join over 1 million Americans who voted in an online poll conducted by Women on 20s, a nonprofit grassroots organization, to put a woman on the \$20 bill.

To celebrate the amazing achievements of women throughout our history, I introduced the legislation to Put a Woman on the Twenty Act, H.R. 2147, which would empower the Secretary of Treasury to put a woman on the face of a \$20 bill as soon as possible.

Since the first general circulation of paper currency in this country, no woman has ever held the honor of being featured on paper money, and I would say to Secretary Lew that you need look no further than the people's choice winner, Harriet Tubman, for inspiration. In her words, "Every great dream begins with a dreamer." In her dreams, she always had a vision. More than ever, my vision is a redesign of the \$20 bill.

Mr. Speaker, I ask my colleagues to join me and support putting a woman on the \$20 bill.

CONGRATULATIONS TO THE GUAM MEN'S NATIONAL SOCCER TEAM

(Ms. BORDALLO asked and was given permission to address the House for 1 minute.)

Ms. BORDALLO. Mr. Speaker, I rise today to congratulate the Guam men's national soccer team, Team Matao, as they lead group D in the second round of the FIFA World Cup Asian qualifiers. It was a David versus Goliath mo-

ment yesterday when Team Matao defeated India with a 2-1 victory. This follows Team Matao's 1-0 victory over Turkmenistan last week.

I congratulate Guam Football Association President Richard Lai, coach Gary White, and all of Team Matao on their great victory. Biba Guam.

HONORING DR. DENNIS GALLON ON HIS RETIREMENT

(Mr. DEUTCH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DEUTCH. Mr. Speaker, I rise today for myself and on behalf of my colleague Congresswoman LOIS FRANKEL to honor one of south Florida's most respected leaders in higher education.

After 18 years of service, our friend Dr. Dennis Gallon is retiring as president of Palm Beach State College. Under his watch, Palm Beach State College has become the eighth-largest producer of associate degree graduates in America. From expanding STEM education programs coveted by local employers to creating an honors college for high-achieving students, Palm Beach State College flourished under Dr. Gallon's leadership.

Just last year, the United States Department of Education reported that Palm Beach State College offers the sixth-lowest tuition rates nationwide. Dr. Dennis Gallon's commitment to high-quality, affordable higher education is truly admirable, and his tenure as president of Palm Beach State College deserves our praise and gratitude.

Congresswoman FRANKEL, and I am sure Congressman HASTINGS, and I proudly thank him for his remarkable service.

RENEW THE EXPORT-IMPORT BANK

(Mrs. CAROLYN B. MALONEY of New York asked and was given permission to address the House for 1 minute.)

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, there are just 6 more working days before the Ex-Im Bank expires, and given the critical importance of this program, I thought it would be useful to provide a quick index of hard numbers showing what this would mean to the United States economy:

Sixty—the number 60. That is the approximate number of Ex-Im credit agencies that are competing with us around the world that are waiting for our Bank to expire so they can grab that American export business.

3,340. That is the number of small businesses that are supported right now by the Ex-Im Bank, helping them to export their goods and provide jobs.

164,000. That is the number of American jobs that are provided right now this year by the Ex-Im Bank that we would lose immediately.
