

Captain Benson served on the technical rescue team, a highly specialized crew responsible for conducting swift water, extrication, and rope rescues. She has been a reliable leader in the department who initiated numerous peer fitness programs and also served as a member of the Tucson Fire Honor Guard. She has been highly involved in Camp Fury and the cadet program, serving as a mentor to Tucson youth and opening doors to nontraditional careers, such as firefighting, for girls.

No doubt, Captain Benson's positive impact on the department and legacy of excellence lasting over two decades will be lasting. I wish her all the best in her upcoming retirement.

OFFICE OF PERSONNEL  
MANAGEMENT DATA BREACH

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Madam Speaker, in the past 2 weeks, we have learned that the data millions of Americans entrusted to the Office of Personnel Management have been taken as a result of a cybersecurity breach.

It did not have to happen this way. Since 2007, OPM's inspector general has documented repeated deficiencies in information security practices. Yet OPM's response has been glacial, and its systems remain antiquated. It was only after a security breach last year that OPM finally, in its 2016 budget request, asked for additional funds for the Office of Chief Information Officer. Well, it is about time.

The question we need to ask, though, is: Why did OPM underinvest in cybersecurity before that breach happened? While I would hope that we find a definitive answer during oversight hearings, there is one thing that certainly contributed to the problem. There was no one in charge of cybersecurity with both policy and budgetary authorities to compel action.

Even as we rely on agencies to be primarily responsible for protecting their networks, we lack a Federal cyber coordinator with budgetary authority to review agency spending and security plans. My Executive Cyberspace Coordination Act would remedy this by providing for a Senate-confirmed independent officer with the power to compel agency action.

Let's get this done.

CONGRATS TO CHANHASSEN HIGH  
SCHOOL BASEBALL

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Madam Speaker, I rise today to congratulate the Chanhassen High School baseball team on winning the Minnesota State title last week with a 2-0 championship game victory.

The Storm rode the arm of Jack Schnettler in the finals as the senior tossed a complete game shutout to clinch the second State athletic title in the school's short history.

Chanhassen's two runs came courtesy of a Ty Denzer single in the third inning. In addition, fine work with the glove behind the Storm ace helped hold their opponents from Lakeville North at bay.

Madam Speaker, baseball is a game of skill and mental toughness, and it is clear that the players from Chanhassen have both. In addition to the time spent on the practice field, student athletes have to balance their work in the classroom and any family responsibilities they have as well. Their dedication and commitment is commendable.

Congratulations to the Chanhassen baseball team on their State title.

WORLD WAR II HONOR FLIGHT

(Ms. MICHELLE LUJAN GRISHAM of New Mexico asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. MICHELLE LUJAN GRISHAM of New Mexico. Madam Speaker, I rise to acknowledge and honor a group of World War II veterans from New Mexico who visited Washington, D.C., last week. They came to visit the memorials, their memorials, that are dedicated to honor their service and sacrifices.

We have about 5,000 World War II veterans in New Mexico, and I appreciate the efforts of the Williamson Foundation in supporting the veterans by organizing this week's Honor Flight.

While I am sure each veteran appreciated the opportunity to visit the memorials, I know many of them were just as impressed with the gratitude expressed by their fellow New Mexicans for their service. Huge crowds greeted them at the airport in Albuquerque. One veteran said he had never received a thank you before this trip.

New Mexicans played pivotal roles and sacrificed a lot during the war in Europe, north Africa, and the Pacific.

We must never forget what these and all veterans have done for our great Nation. I thank them for their service.

---

ACKNOWLEDGING THIRD ANNIVERSARY OF 2012 DEFERRED ACTION FOR CHILDHOOD ARRIVALS PROGRAM

(Mr. VEASEY asked and was given permission to address the House for 1 minute.)

Mr. VEASEY. Madam Speaker, I rise today to acknowledge the third anniversary of President Obama's 2012 Deferred Action for Childhood Arrivals program, commonly known as DACA.

While the Nation desperately waits for House Republicans to move forward

on immigration reform, the DACA program has provided temporary relief for hundreds of thousands of families to continue their studies and contribute to our economy. Since its enactment, more than 750,000 young people, including 88,000 Texans, have successfully applied for DACA.

Although I am disappointed with the recent court actions delaying President Obama's expansion of the DACA program, I remain hopeful that millions more immigrant families will one day be able to fully contribute to the prosperity of our country.

That is why, in my home district in the Dallas-Fort Worth metroplex, I will host a DACA-DAPA informational forum with Congressman LUIS GUTIÉRREZ on July 18 to help TX-33 residents prepare for immigration relief.

While President Obama's efforts to expand DACA and initiate DAPA programs are temporarily stalled in the courts, I am committed to fighting for immigrant families nationwide, so they can come out of the shadows and live the American Dream.

BETTER FUNDING AND SUPPORT FOR ALZHEIMER'S RESEARCH

(Mrs. LAWRENCE asked and was given permission to address the House for 1 minute.)

Mrs. LAWRENCE. Madam Speaker, I stand here today to join my colleagues in a bipartisan call for action for better funding and support for Alzheimer's research. The Alzheimer's Association of Greater Michigan, which is headquartered in my district, the 14th Congressional District of Michigan, supports more than 140,000 people and their families.

According to the Banner Alzheimer Institute, those numbers are going to increase unless treatments or cures are developed. The institute estimates the number of people 65 and older with Alzheimer's will nearly triple to 13.8 million, and the U.S. healthcare costs for Alzheimer's will skyrocket to \$1.1 trillion per year, with more than \$700 million coming out of Medicare and Medicaid.

It is time to treat Alzheimer's as the healthcare disaster that it has become. It is time to take this epidemic seriously. It is time to guard against the threat it poses to our families, our districts, healthcare system, and our Nation.

CHICAGO BLACKHAWKS STANLEY CUP DYNASTY

(Mr. LIPINSKI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LIPINSKI. Madam Speaker, last night, I wore my number 35 Tony Esposito Chicago Blackhawks jersey from the 1970s, and I watched what I could never have imagined in those days, a Chicago Blackhawks Stanley

Cup dynasty; but thanks to the leadership of owner, Rocky Wirtz, and an amazing team put together by Stan Bowman and led by Coach Q, the Hawks won their third Stanley Cup in 6 years.

The core of Toews, Keith, Kane, Hossa, Seabrook, Hjalmarsson, and Sharp have been there for all three. This year, Duncan Keith was awarded the Conn Smythe MVP trophy, but this was truly a team effort.

Chicagoland thanks everyone in the organization for once again making us proud and bringing the Stanley Cup back to Chicago.

I can't wait for the parade. I can't wait to see the Stanley Cup again.

#### CONGRESS AND AMERICA OPPOSE FAST TRACK

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Madam Speaker, this afternoon, House Republican leaders used a trick to pass a new rule to revote the job-outsourcing, unfair, fast-track Trans-Pacific Partnership trade deal. They buried the revote in the intelligence authorization.

Well, the Republican leadership wants to buy itself another month to make deals, trading favors and funding pet projects in this district or that district, in exchange for a vote against the best interests of the American people, jobs in America with good wages.

Imagine Congress fast-tracking a bill to repair our roads, bridges, and harbors all across this country. Imagine a bill to be fast-tracked to renew the powers of the Export-Import Bank that actually increases exports and jobs in this country.

Instead, fast track is being rammed through Congress with House Republican leaders bending the rules and breaking regular order. Intelligence authorization bills should not be another name for secret fast-track life support.

No more delays. It is overtime for Congress to move on from fast track to a real fair trade deal that creates jobs and good wages in America for a change.

#### A TALE OF TWO ECONOMIES

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the gentleman from Colorado (Mr. TIPTON) is recognized for 60 minutes as the designee of the majority leader.

Mr. TIPTON. Madam Speaker, across our country, we are seeing a tale of two economies, to where there are pockets of prosperity, but unfortunately, through many of our rural communities, we continue to see challenges.

For the first time since we have been keeping records, we are seeing more small businesses shut down than there are now business startups. Businesses across this country are suffering under

the burden of \$2 trillion—\$2 trillion—in regulatory costs.

Why is this important? It is because we are seeing now the cost of a loaf of bread, the clothes that we buy for our children to be able to go back to school, and that gallon of milk costs more via taxation by regulation that is impacting our ability to create jobs.

When we move into my district in Colorado, composed of rural communities, 29 counties of Colorado's 64, 54,000 miles of the State of Colorado, many of our counties are still suffering in double-digit unemployment when it comes down to the real number.

Two counties that I would like to be able to address specifically this evening are being specifically challenged, Moffat County and Rio Blanco County, on the west slope of Colorado, one of the most beautiful places that anyone can visit.

Residing there and creating jobs is something called the Colowyo Mine, a coal mine. We encourage people to be able to come and see a coal mine with good technology, providing affordable electricity, providing jobs, and providing also clear blue skies with that technology. Those are currently being challenged.

There was a court ruling recently that came out, one that was in response to a suit that was brought by an extreme environmental group that challenged the 2007 issuance of the Office of Surface Mining permit for the Colowyo Mine to be able to operate.

That is challenging now 200 jobs because the court has ruled that a new NEPA process, a supplemental process, must be performed within 120 days, an extremely short period of time.

Those 200 families, 200 families that are relying on that job to be able to provide for their children, to be able to support that community, are now feeling threatened by policies not only in terms of the NEPA process, but now by the ruling of the Court as well in response to a suit filed by this extreme environmental group.

Here is the real challenge that we face. We need the Secretary of the Interior to respond. These families' jobs cannot wait. Being able to put food on the table for their children cannot wait for this process to be able to play out.

We encourage the Secretary to deploy all necessary resources to be able to respond to that emergency NEPA process, to be able to get it done in that 120-day period of time, or to be able to also look at the propriety of challenging that ruling by going in and filing an appeal.

Are jobs and the economy important? They certainly are in my district. Those families that are relying on good-paying coal jobs, families that love where they live, love their environment, and support their community are now seeing their livelihoods, their future being challenged.

We encourage the Secretary, on behalf of American families, families in my district that are struggling to be

able to succeed or to just be able to provide for themselves, to be able to respond in a timely manner, to be able to address this so that we can secure those jobs and secure affordable electricity as well.

Coal is often maligned, but we see that it can be done right—Craig, Colorado, blue skies and a coal-fired power plant. There is an opportunity for us to be able to create a win-win.

If you care about senior citizens that are on fixed incomes, if you care about young families right now that are struggling to be able to pay the bills and to be able to provide for their young children, we are seeing that taxation via regulation coming out of policy.

I think it is very important that we preserve the jobs. Let's work with all of the above. That has been embraced in my district. We have seen the opportunity to be able to create hydroelectric power, wind, solar, geothermal, also to responsibly develop oil, gas, oil shale, and coal.

Right now, the problem for the people in the Third District, specifically in Rio Blanco and Moffat Counties, is urgent. They are families that I have talked to. I have looked in their eyes. They will do it responsibly. They want to be able to do it well, not only for the community, but for their families as well.

It is very important that we are also mindful that those jobs impact others. These are the families that support the local grocery store, the local hardware store; these are the families that provide for the health of that community.

Madam Speaker, we would call upon the Secretary of the Interior to respond to American families whose jobs are currently being threatened, deploy the necessary resources to be able to carry out that supplemental NEPA, get the job done in time to protect those jobs.

If that isn't possible, then go ahead and explore that proprietary notion of filing an appeal, to make sure that we get a stay and keep those jobs moving, because the message that my folks out of Craig, out of Rio Blanco County want to be able to communicate is their bills won't stop. Their children's needs will not be met unless we see a response out of the Department of the Interior to be able to stand up for good-paying coal jobs in western Colorado.

Madam Speaker, I yield back the balance of my time.

#### ALZHEIMER'S AND BRAIN AWARENESS MONTH

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the gentleman from California (Mr. GARAMENDI) is recognized for 60 minutes as the designee of the minority leader.

Mr. GARAMENDI. Madam Speaker, for the next hour, we will be talking about an issue that really confronts every American family, an issue that
