 NOT VOTING—34

□ 1916

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

Mr. AMASH changed his vote from “nay” to “yea.”

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

#### PERSONAL EXPLANATION

Mr. GUTIÉRREZ. Mr. Speaker, I was unavoidably absent in the House Chamber for votes on Tuesday, June 23, 2015. I would like the record to show that, had I been present, I would have voted “nay” on rollcall vote 376, “yea” on rollcall vote 377, and “yea” on rollcall vote 378.

**REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2822, DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2016; PROVIDING FOR CONSIDERATION OF H.R. 2042, RATEPAYER PROTECTION ACT OF 2015; AND PROVIDING FOR PROCEEDINGS DURING THE PERIOD FROM JUNE 26, 2015, THROUGH JULY 6, 2015**

Mr. BURGESS, from the Committee on Rules, submitted a privileged report (Rept. No. 114-177) on the resolution (H. Res. 333) providing for consideration of the bill (H.R. 2822) making appropriations for the Department of the Interior, Environment, and related agencies for the fiscal year ending September 30, 2016, and for other purposes; providing for consideration of the bill (H.R. 2042) to allow for judicial review of any final rule addressing carbon dioxide emissions from existing fossil fuel-fired electric utility generating units before requiring compliance with such rule, and to allow States to protect households and businesses from significant adverse effects on electricity ratepayers or reliability; and providing for proceedings during the period from June 26, 2015, through July 6, 2015, which was referred to the House Calendar and ordered to be printed.

#### RECOGNIZING OUR MILITARY FAMILIES

(Mr. PAULSEN asked and was given permission to address the House for 1 minute.)

Mr. PAULSEN. Mr. Speaker, behind every man and woman in uniform serving our country are family members: husbands, wives, mothers, fathers, brothers, sisters, sons, daughters, and other family members who make sacrifices as members of military families.

Recently, I attended the dedication of a new Minnesota military family tribute that is now part of the Capitol Mall area in St. Paul at our State Capitol. It was built entirely with private donations. It commemorates the military Gold Star families, Blue Star families, and families of our veterans. This memorial is the first of its kind in the country, and it recognizes the military family members that do so much to support our servicemen and -women and our veterans.

Being a member of a military family comes with many sacrifices. It means many sleepless nights during deployment. It means unexpected moves around the country and serving as the frontline resource when our soldiers transition into a new life. Every military family does this proudly.

Mr. Speaker, I commend Bill and Teri Popp and everyone who has worked so hard to make this tribute recognizing our military families possible.

#### REAUTHORIZE THE EXPORT-IMPORT BANK

(Mr. JOHNSON of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. JOHNSON of Georgia. Mr. Speaker, I rise in support of reauthorization of the Export-Import Bank before its charter expires on June 30.

In fiscal year 2014 alone, the Ex-Im Bank supported \$27.4 billion worth of U.S. exports, with \$10.7 billion of that total representing exports from small businesses. Additionally, 90 percent of all Ex-Im transactions directly supported small business and more than 163,000 American jobs. That is why 180 Democrats signed a discharge petition to force a vote on this important issue.

Despite this data, some Republicans wrongly think the Ex-Im Bank represents crony capitalism that should be ended. For those Members, I will leave you with this: Men lie, women lie, but numbers don't lie. Reauthorize the Ex-Im Bank.

#### NATURAL GAS VEHICLES SHOULDN'T BE PENALIZED IN THE TAX CODE

(Mr. YOUNG of Indiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YOUNG of Indiana. Mr. Speaker, I rise today to discuss the importance

of a simple modification to our Tax Code that will greatly support the consumer-driven growth of natural gas in the transportation sector.

Today's abundant and domestically produced natural gas is an increasingly important fuel to our transportation sector, from small passenger vehicles in my home State of Indiana, to container ships that transport goods from America's heartland to overseas markets.

Now, our Tax Code is still taxing cars and trucks that run on natural gas at a higher rate than their diesel equivalent because the tax was instituted years ago when our energy picture looked vastly different. We need to correct this disparity. It is a simple fix and just one example of how Congress can create a more level playing field while diversifying our energy mix.

I urge my colleagues to work with me on this matter.

#### CLIMATE CHANGE IS REAL

(Mr. TONKO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TONKO. Mr. Speaker, last week Pope Francis echoed the chorus of 97 percent of climate scientists whose findings prove that climate change is real and is manmade, and climate change has the potential to destroy the only planet that we have. Let me say that again. Climate change is real, it is manmade, and it can reverse all the progress we have made as a nation.

Pope Francis frames the reality of climate change in a way that we must consider if we are to protect our environment as directed by our Creator for future generations, future economic development, and future progress. The leader of the Catholic Church accurately points out that it is a moral imperative to act on climate change; it is a moral imperative to act as a good steward of the environment and the gifts we have been given.

I thank Pope Francis, and I hope the words he shared last week will ring true with all of us, including those who continue to deny climate change, both in this body and around the world. I hope the Pope's encyclical will encourage deniers to work with us to find creative ways to clean up our environment, help create jobs, and make our world just a little bit better for our kids and grandkids.

#### RELIGIOUS CLEANSING

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the Roman Empire was notorious in its massacre of Christians 2,000 years ago. Now Christians are once again facing deadly persecution. Barbaric terrorist groups like ISIS are stalking and attacking Christians wherever they find them. Christians are disappearing, and

some are fleeing countries like Syria and Iraq, home to Christians since the days of early Christianity.

ISIS boasts of brutally killing and enslaving thousands of Christians. There are more and more reports of ISIS sex-trafficking young girls that are stolen away from their Christian parents. ISIS even posts videos online of their barbaric beheading of Christians.

Why the hate, kidnapping, and murder? Because Christians will not renounce their Christian faith. The world, and the United States in particular, needs to denounce the murder of people based on their religious beliefs, whether Christians, Jews, or Muslims.

We cannot accept nor tolerate ISIS' genocide of Christians. Justice demands ISIS be held accountable for their crimes of religious cleansing.

And that is just the way it is.

#### JUNE IS NATIONAL DAIRY MONTH

(Mr. VALADAO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VALADAO. Mr. Speaker, many of my colleagues on the House floor today may not know that June is National Dairy Month. As a dairy farmer myself, I believe this month is a perfect opportunity to recognize how important the dairy industry is to the Central Valley.

Not only are there dairy farms in all 50 States, but dairy is the number one agriculture business in 10 States, including Idaho, New York, and Wisconsin. However, my home State of California is the biggest dairy producer in the country and is responsible for 21.3 percent of the U.S. milk supply. My own district, California 21, produces the most dairy of any congressional district in the Nation.

However, dairy isn't just important to farmers. Not only do Americans consume at least two cups of dairy products each and every day, but America's dairy industry is important to our Nation's agriculture market and our entire economy.

Dairy farms across the country improve our national economy. The U.S. dairy industry creates an estimated \$140 billion in economic output, \$29 billion in household earnings, and is responsible for creating more than 900,000 jobs.

So this summer when you stop for ice cream on a hot night or a bowl of cereal on a rushed morning, remember the hard-working Americans who brought dairy to your grocery store.

#### CONGRATULATING INGERSOLL RAND

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, last month, Ingersoll Rand, a global leader in products that enhance energy efficiency, productivity, and operations for its customers, celebrated the 50th anniversary of its Mocksville, North Carolina, plant.

Opened in 1965, the Mocksville plant began machining rotary components for air compressors. Throughout the years, the workers in Mocksville have manufactured assemblies and components for a number of products within Ingersoll Rand's portfolio.

Within the last 6 years, the plant has experienced tremendous growth as select assembly operations for Trane and Thermo King equipment were moved to the plant. During difficult economic times, these jobs have strengthened the local economy.

The company's major investment in Davie County is a tribute to the area's skilled workforce, men and women who are dedicated to producing the best products in the world.

Congratulations to everyone at Ingersoll Rand in Mocksville as you celebrate this significant milestone.

#### CONFEDERATE FLAG

(Mr. PITTENGER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTENGER. Mr. Speaker, I rise today in full support of South Carolina Governor Nikki Haley's call to remove the Confederate battle flag from the South Carolina statehouse grounds, and North Carolina Governor Pat McCrory's call to discontinue State-issued Confederate flag license plates.

As one who grew up in the South, Mr. Speaker, and a proud North Carolinian, I fully understand that to many the Confederate flag represents history and heritage of their forefathers who fought for self-governance of the States. However, I cannot ignore that this same flag has also been used as a symbol of hate, and therefore causes immense pain for many of our citizens—yes, our brothers and sisters.

In Romans, chapter 14, the Apostle Paul writes, "Let us therefore make every effort to do what leads to peace and to mutual edification. Do not destroy the work of God for the sake of food"—or, might I add, a flag.

Let us be proud of our heritage, and let us give our descendants reason to be proud of our proper and thoughtful works today.

#### CELEBRATING THE LIFE OF MICHAEL JAMES SULLIVAN

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, it is with a heavy heart that I rise today to celebrate the life of Michael James Sullivan and offer my condolences to his friends and family.
