

taxpayers a good return on investment at MISD.

While overseeing the 46-campus MISD, Dr. Henrie has somehow found time to be involved in other professional groups and organizations. The Texas Association of School Administrators, Mesquite Education Association, Texas Staff Development Council, Texas ASCD, UIL Legislative Council, and the National Federation of State High School Associations and Equity Center have all benefited from Dr. Henrie's wisdom and leadership.

During her tenure, MISD was a recognized district in 2010 and 2011, received the Texas Award for Performance Excellence from Quality Texas, gained membership in the Controller's Gold Leadership Circle, and was a large-district finalist in the H-E-B Excellence in Education Awards for three consecutive years. MISD is also one of only 11 public school districts to earn the highest rating of five stars on the Financial Allocation Study for Texas (FAST) for three consecutive years.

Dr. Henrie received personal recognition as the recipient of Mesquite Social Services' Women in Service and Enterprise Award, Texas ASCD's Brownlee Leadership Award, the ATPE's 2011 Administrator Educator of the Year honor, and City of Mesquite Pillar of the Community Award.

This year Dr. Henrie will retire. Though her time as an educator has come to an end, the results of her hard work will no doubt continue to be seen for generations to come. While she may be giving up the title of superintendent, I have no doubt her role as one of MISD's biggest fans will continue.

Mr. Speaker, on behalf of the Fifth District of Texas, I am honored to recognize Dr. Linda Henrie for her devotion to education and for helping to shape a brighter future for our community and our country.

ALZHEIMER'S AWARENESS MONTH

HON. JOHN ABNEY CULBERSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2015

Mr. CULBERSON. Mr. Speaker, June is Alzheimer's & Brain Awareness Month, an opportunity to raise awareness and continue a national conversation about this debilitating disease, which is the nation's sixth leading cause of death.

Worldwide, there are 47 million people living with Alzheimer's and other dementias, and without a change, these numbers are expected to grow to 76 million by 2030. Not only will this affect individuals and families with an unmeasurable toll of physical and emotional pain, it will also cost our entire economy and health care system billions. Just this year alone, the disease is estimated to cost us \$226 billion.

Even more concerning, Mr. Speaker, is the fact that Alzheimer's disease is not treatable and its progression cannot be slowed down. However, I am encouraged by the important work that researchers are doing at the National Institute of Health regarding this deadly disease. Furthermore, I am glad that my colleagues and I in the House came together in a responsible and bi-partisan manner to not only increase funding to \$31.2 billion for the NIH (\$1.1 billion above fiscal year 2015 and

\$100 million above the President's request); but within that allocation provided \$886 million for the Alzheimer's disease research initiative, a \$300 million increase. I am hopeful that these research dollars will go a long way to treating, and ultimately curing this disease.

IN RECOGNITION OF THE HONEY POT VOLUNTEER ACTIVE FIRE DEPARTMENT'S 50TH ANNIVERSARY

HON. LOU BARLETTA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2015

Mr. BARLETTA. Mr. Speaker, it is my honor to help commemorate the 50th anniversary of the establishment of The Honey Pot Volunteer Active Fire Department in Honey Pot, Pennsylvania, which continually works to ensure public safety within my congressional district. Out of seven fire departments in the City of Nanticoke, it is the only independent station supported solely from fundraisers and the State fire grant.

After a devastating fire consumed three houses, a group of Honey Pot residents chartered the department in April of 1965. Under the leadership of the department's first chief, Theodore Zdiarski, the organization raised sufficient funds to purchase a \$32,000 1965 FWD pumper through the sale of rags, metals, and other miscellaneous items; an impressive feat in and of itself.

Throughout the years, the department has responded to calls in neighboring municipalities such as Nanticoke, Wilkes Barre, Plymouth, Plymouth Township, Shickshinny, and Dupont; service that has greatly enhanced public safety across Northeastern Pennsylvania. In 1992, the company created a junior firefighter program. In doing so, the company not only successfully increased their membership, but also engaged with local youths.

In addition to their stellar record of public service, the company has repeatedly used fundraising efforts as a way to positively influence the community. For example, when the department needed to replace its aged pumper truck in 2000, the members organized a "cabbage roll," a fundraiser where participants compete in rolling heads of cabbage down a hill. The cabbage roll made local headlines across Northeastern Pennsylvania, and such an event is testament to the integral role the company plays in the local community outside of the fire station.

Mr. Speaker, it is my pleasure to recognize The Honey Pot Volunteer Active Fire Department as it celebrates its 50th anniversary. On behalf of a grateful community, I wish to thank the department and its members for their tireless service and unwavering commitment to increasing public safety.

RECOGNIZING THE RETIREMENT OF DR. DUANE M. FORD

HON. RON KIND

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2015

Mr. KIND. Mr. Speaker, today I rise in honor of the career of Dr. Duane M. Ford, President

of Southwest Wisconsin Technical College. He served as the fifth president of the College for the past four years.

Dr. Ford grew up on a family farm outside of Tonica, Illinois. He spent much of his childhood doing chores and helping out with the farm work. He eventually went on to University of Illinois at Urbana-Champaign, where he received a Bachelor of Science in Agronomy with Highest and University Honors in 1977. After farming with his father and brother for two years, he studied at Iowa State University, where he received an M.S. and a Ph.D. He then served as a Post-Doctorate Fellow in the Department of Biological Sciences at the University of Illinois at Chicago.

In 1986, he began his career in teaching and academic leadership at Truman State University in Kirksville, Missouri, where he first discovered his passion for teaching. While at Truman State, he served as Convener of the Agricultural Science Discipline, as Associate Division Head for the Division of Science, received a fellowship in the W.K. Kellogg National Leadership Program (1991–1994), and studied for a sabbatical year at the Center for Biotechnology Policy and Ethics at Texas A&M University (1993–1994). In 1996, Dr. Ford became the Chairperson of the Department of Agriculture at Southeast Missouri State University in Cape Girardeau, Missouri. From 1999–2011 he was Dean of the College of Business, Industry, Life Science and Agriculture at the University of Wisconsin-Platteville, where he also served as Interim Provost and Vice Chancellor before becoming President of Southwest Tech in 2011.

Under President Ford's leadership, Southwest Tech has become a premiere place for high-quality, affordable education and training. Dr. Ford has a strong relationship with businesses in the area, and he has adapted the curriculum to reflect the needs of the nearly 12,000 students per year attending Southwest Tech. Throughout his career, he has stayed true to his Midwest roots. He was a creative thinker and tireless advocate for education. I personally have enjoyed working with Duane, first at UW-Platteville, then as President of Southwest Tech, where his pursuit of quality educational opportunities for his students was inspirational. He will be missed.

Duane and his wife Sheri currently live in Platteville, Wisconsin. They have two adult children, Hollie and Simon, a grandson, Matt, and a cat named Dusty. In his retirement, Duane looks forward to pursuing his hobbies of running, bicycling, baking and disc golf. Dr. Ford will continue to serve on the Board of Directors for Southwest Health Center.

IN HONOR OF HUGO TOTTINO

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2015

Mr. FARR. Mr. Speaker, I rise today to honor the agricultural and public service career of a great American. Mr. Hugo Tottino is being honored this month by the Grower Shipper Association of Central California with the E.E. Gene Harden Award for Lifetime Achievement in Central Coast Agriculture. Known to many as the "Artichoke King" and to his friends and family at Ocean Mist Farms as
