

During his lifelong pursuit of knowledge, Mr. Packer strove to impart this knowledge upon his students. In 1948, he began his career as an educator at Choctaw County High School in Butler, Alabama. Mr. Packer later became principal of Blount High School in Anniston, Alabama and then of Chickasaw Terrace School in Prichard, Alabama. In 1964, Mr. Packer moved to Farmville, Virginia to teach at R.R. Moton High School, now a historic landmark of the Civil Rights Movement.

Mr. Packer then went on to serve Saint Paul's College in Lawrenceville, Virginia for 27 years, first as an instructor, then as a Dean, before retiring as Vice President for Student Affairs. His dedication to Saint Paul's College was evident in the number of students he recruited, many from his home state of Alabama, which led to his being deemed "The Alabama Dean."

After retiring from education in 1991, he continued to contribute to the community by helping numerous friends and neighbors in Brunswick County. Mr. Packer served in countless leadership roles with organizations such as the Alberta Family Health Service, Brunswick Chamber of Commerce, Lawrenceville Rotary Club, and the Lawrenceville Town Council.

George Washington Carver once said, "No individual has any right to come into the world and go out of it without leaving behind distinct and legitimate reasons for having passed through it." We are all so blessed that Mr. Woodrow Packer passed this way and during his life's journey did so much for so many for so long. He leaves behind a great legacy in education to the thousands of students, teachers, and administrators whose lives he touched and brightened.

On a personal note, Mr. Packer and his family were close personal friends of my family, as well as a role model and mentor to me. I have truly been blessed by his friendship, counsel and inspiration throughout the years.

Mr. Speaker, I ask my colleagues to join me and my wife, Vivian, in paying tribute to Mr. Woodrow R. Packer, Sr. for his dedication to educating young people, his passion for his country, and his deep commitment to his family and his community. We extend our deepest sympathies to Mr. Packer's family and friends during this very difficult time. May they be consoled and comforted by their abiding faith and the Holy Spirit in the days, weeks and months ahead.

RECOGNIZING MICHAEL F. COLLEY

HON. STEVE STIVERS

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2015

Mr. STIVERS. Mr. Speaker, I rise today to recognize my mentor and friend Michael F. Colley, who passed away at the age of 78 on June 20, 2015.

Michael Colley was born in Youngstown, Ohio and grew up in Columbus, Ohio. After graduating from St. Charles Preparatory School, Michael attended the Ohio State University where he served as President of his fraternity, Kappa Sigma, and was a member of the baseball team. Michael continued his education at Ohio State after graduation in law school, where he earned his Juris Doctoral degree in 1961.

Following his graduation from law school, Michael served in the Ohio National Guard and as an Assistant Prosecutor in the Columbus City Attorney's Office. Soon after, he went into private practice where he had an extremely successful career for his clients in personal injury, medical malpractice and product liability. Throughout his career, Michael served as president of state and national legal organizations: Ohio Academy of Trial Lawyers, the Franklin County Trial Lawyers Association, the Association of Trial Lawyers of America, and the American Board of Trial Advocates. Michael is distinguished as the only person to serve as president of both the Association of Trial Lawyers of America and the American Board of Trial Advocates.

Outside of the courtroom, Michael remained involved in his community and his alma mater. In 1968, Michael helped form the Direction for Youth and Families to help struggling youth and families in central Ohio. In 1991, Michael was appointed to the Board of Trustees for Ohio State and later served as Chairman of the Board. Michael rarely missed a Buckeye football or basketball game throughout his lifetime.

Michael showed an incredible dedication to his community and public service throughout his life.

HOMETOWN BASKETBALL STARS

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2015

Mr. OLSON. Mr. Speaker, I rise today to recognize the Harrison twins from Richmond, TX in Fort Bend County for their outstanding performance and success in their young basketball careers.

Together, they won a basketball state championship for Travis High School, competed in two NCAA Final Fours and were prospects in the 2015 NBA draft. Andrew Harrison was selected by the Phoenix Suns to play in the NBA before being traded to the Memphis Grizzlies. Aaron Harrison has the opportunity to play in the NBA summer league for the Charlotte Hornets. These young men have made their parents, coaches, and the rest of Fort Bend County proud.

On behalf of the Twenty-Second Congressional District of Texas, congratulations to the Harrison twins on all of their achievements. We look forward to hearing more about their continued success on and off the court.

HONORING THE LIFE OF JONATHAN ROSADO

HON. BRENDAN F. BOYLE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2015

Mr. BRENDAN F. BOYLE of Pennsylvania. Mr. Speaker, Jonathan Rosado, senselessly murdered in the Cayuga section of Philadelphia, Pennsylvania late last year, was a model citizen who generously shared his strong character and kind spirit through the act of teaching tennis to disadvantaged children. Jonathan's commitment to his students was moti-

vated by far more than the perfection of the game's technique, though; he was deeply committed to serving as a thoroughly positive role model for his pupils. Jonathan fostered the Legacy Youth Tennis program's presence in the Hunting Park community, a groundbreaking addition to youth programming for this North Philadelphia neighborhood.

Jonathan's ingenuity and steadfast commitment to community service has served as a tremendous benefit to the many lives he has touched. Jonathan's sense of responsibility and dedication was instilled in him by his own childhood participation in the Legacy Youth Tennis program, and he chose to contribute those attributes right back into the program as he ascended into adulthood. His selflessness helped to cultivate the potential of the children in his community, who will in turn grow up to follow Jonathan's constructive example.

Although he is sorely missed by all, Jonathan's bright spirit will continue to be felt in Hunting Park long into the future. I submit this statement so that Jonathan's example can be more widely witnessed across the nation and across time.

IN HONOR OF THE 70TH ANNIVERSARY OF TRINITY TEST

HON. BEN RAY LUJÁN

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2015

Mr. BEN RAY LUJÁN of New Mexico. Mr. Speaker, I rise today to honor the memory of those who have fallen ill or passed on due to radiation exposure from the Trinity test. On this day 70 years ago, rural New Mexico became ground zero for the detonation of the first nuclear bomb. While it would usher in the start of the atomic age, it also marked the beginning of sickness and suffering for generations of people who lived and grew up in the Tularosa Basin and other areas downwind of the test site.

Today, we remember those who continue to bear the costs of nuclear testing decades later and recommit to seeking recognition and compensation for the men and women who have been gravely impacted. As a nation we have a responsibility to act and acknowledge the pain that so many New Mexicans and other downwinders have experienced following the Trinity Test. The legacy of that moment in our nation's history is still alive and continues to be felt to this very day by all those battling cancer and other diseases as a result of radiation exposure.

It is long past time for Congress to take action and pass legislation expanding the Radiation Expose Compensation Act so that these individuals are no longer left behind, and so that we can come to terms with the full impact of the nuclear age.

Though we can never fully compensate these Americans for what they have lost, they deserve to be recognized and receive just compensation that will help generations of families who have gotten sick because of uranium mining or nuclear testing. The men and women who have suffered from radiation exposure must not be forgotten.

IN OPPOSITION TO THE RULE ON
H.R. 5021

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2015

Mr. BLUMENAUER. Mr. Speaker, I would like to submit the following statement I made last year on the Rule on H.R. 5021:

I listened carefully to what you said, and you are right—this closed rule is a disaster. My respected friend from Florida, I think, is just wrong.

Mr. Speaker, this is not a solution, and it is not a deliberate, thoughtful process. We have not had a single hearing on transportation finance in the Ways and Means Committee all year. We didn't have one the year before that. We haven't had a hearing in the 43 months that Republicans have been in charge.

This is a perfectly predictable problem that was created by the halfhearted bill that they passed last Congress. We knew this was coming for months. Now we are here.

With all due respect, I, too, am disappointed that we have a rule that does not make in order broad discussion and amendment. We have been unable in this Congress to deal meaningfully with the looming transportation crisis.

The gentleman is on the Transportation Committee. He doesn't have a bill. We are almost through this Congress, and we don't have a bill. America is falling apart. America is falling behind. We have failed to give America's communities the resources and a robust 6-year reauthorization plan.

We have done it before under the chairmanship of Bud Shuster and Ranking Member Jim Oberstar, and I was happy to have played a small role. That bill made a difference.

If we fail to come to grips with the funding level and, instead, in approving this rule and the underlying bill, this Congress is giving itself a ticket out of town to adjourn and pass it on to not just the next Congress but to the Congress after that. Make no mistake. In May 2015, you are not going to be in any different a place. It is going to be May 2017.

Congress has legitimate policy differences. I appreciate my friend from New Jersey. Some people think that the Federal Government should get out of the partnership that we have had and reduce or eliminate the Federal gas tax.

They are willing to give up on the successful partnership and let each State decide what to do, when it wants to do it, or what it is able or not able to do. They would abandon all sense of a national vision and the ability to shape transportation policies. That is rejected by the mayors, rejected by county commissioners, rejected by State transportation officials. They want that partnership.

Frankly, there are some people who feel the gas tax ought to be adjusted to deal with inflation and increased fuel economy as well as the demands of a growing Nation with an aging infrastructure.

Some people are comfortable with the Republican budget, which will have no new projects for 15 months and will doom us to a 30 percent reduction over the next 10 years.

Those are legitimate policy differences, but we are not dealing with them here on the floor. We are shrugging our shoulders, passing them on to the next Congress and, frankly, to the Congress after that.

I agree with the people who build and maintain and use our transportation infrastructure. We should address this infrastruc-

ture question head on. American infrastructure used to be the best in the world and a point of pride, bringing Americans together. It is now a source of embarrassment and deep concern as we fall further and further behind global leaders.

We ought to reject this rule. We ought to allow full debate and, by all means, resolve the funding question now so we can go forward. America deserves no less.

IN RECOGNITION OF THE INTRODUCTION OF THE COMMISSION ON AMERICANS LIVING ABROAD ACT OF 2015

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2015

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, there are an estimated 6–8 million constituents scattered across the world who promote our culture and values while strengthening our nation's global influence as they live and work abroad. For years I have worked to ensure that overseas Americans can fully exercise their rights as U.S. citizens by having their voices heard loud and clear by Congress. Eight years ago, I formed the Congressional Americans Abroad Caucus because I wanted to bring awareness and focus to the concerns of those residing abroad. U.S. citizens remain just that, citizens, regardless of where they choose to live and should not be ignored by virtue of residence.

Our constituents living and working abroad have consistently voiced concerns about the impact federal policies have on the issues directly affecting them like voting, immigration, access to financial institutions, and taxation. The time has come to take a look at the importance of federal policies for our overseas community rather than continuing to ignore the calls from our abroad constituents. That is why today I am introducing the Commission on Americans Living Abroad Act, which creates an Executive Commission with the main purpose of examining those concerns. The Commission creates a 10 member panel to examine the impact of federal policymaking on U.S. citizens abroad. The resulting study would then be used by Congress and the Executive Branch when considering the best steps we can take to engage the abroad community and ensure their voices are heard. This process will ensure clearer awareness of the federal issues impacting Americans abroad and will open a path for coordination with those communities towards more robust representation.

We must take a real and comprehensive look at how we, as Members of Congress, respond to U.S. citizens living abroad. Each of our constituents has a right to have their interests represented and to have a role in the political process. The Commission on Americans Living Abroad would establish a foundation from which we can work to better serve the needs of our global constituents. I welcome and urge my colleagues to lend their support to this bill.

HONORING THE LIFE OF NORMAN
BUCHERT

HON. TED LIEU

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2015

Mr. TED LIEU of California. Mr. Speaker. I rise today to honor the life and legacy of Mr. Norman Buchert, a loving family man and successful engineer. Upon graduating from the University of Florida, Norman began working in a nascent aerospace industry at the Kennedy Space Center, contributing to the development of the Apollo 11 launch and other space shuttle launches. Throughout his life he loved to tell stories about his time working in the space program.

While Norman's career as an engineer is remarkable, his role as a loving family man is what he will be remembered for most. I have had the privilege of working closely with his daughter, Genelle, who truly embodies his caring spirit. He has left a positive mark on our world and that his legacy will live on through his family.

Mr. Speaker, I know that my colleagues will join with me in honoring the life of this special man. We should all be so fortunate to live such a full life. I submit his obituary:

Norman Charles Buchert was born in Cincinnati, Ohio on May 13, 1942. He graduated from Port St. Joe High School, Port St. Joe, Florida; and from the University of Florida with a BS and MS in Electrical Engineering.

His career began at Kennedy Space Center on January 27th, 1967 with North American Aviation (NAA) as an RF and Telemetry Engineer working on the Apollo/Saturn Launch Vehicle second stage. He then worked on the Saturn V moon launches including the Apollo II launch to the moon (and back) and worked in the Saturn V Launch Control Center Firing room at the RF and Telemetry console. He later transferred to the Apollo Command and Service Module (CSM) organization to work on the experiments that the CSM carried to the moon and the Lunar Sounder experiment searching for water on the moon. Their first daughter, Genelle, was born shortly after man's first walk on the moon. Twenty two months later their second daughter, Charisse, was born.

In 1972, he began work as a Space Shuttle design integration engineer in Downey, California for NAA. In 1975, their third daughter, Felicia, was born. That same year he transferred back to KSC to help design, manufacture and install the Orbiter Processing Facility Communications and Tracking checkout station. In 1984, they welcomed their youngest daughter, April. Promoted to Supervisor of the NAA Communications and Tracking group, he supervised the checkout of the first Shuttle launch Orbiter Communications and NavAids Systems eventually becoming the Director of Advanced Programs and Business Development for Rockwell (formerly NAA) at KSC. After Boeing purchased the Space Division portion of Rockwell in 1996, Norman became the Director of Advanced Engineering for the Space Shuttle Program finishing his career in this capacity. Norman received many awards and recognitions including the Astronaut Snoopy award for his work on the Apollo Program presented by Apollo astronaut, Hank Hartsfield.

Norman worked for Boeing for over 44 years; was an avid University of Florida Gator sports fan; enjoyed talking about his experiences in the space program as a KSC
