

CONDEMNING PLANNED PARENTHOOD TRAFFICKING SCANDAL

(Mr. FORTENBERRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FORTENBERRY. Madam Speaker, in just a few moments, we will hear from a number of colleagues who are all here gathered in great sadness and with heavy hearts to denounce, once again, another revelation of another gruesome practice by the organization—the taxpayer-funded organization—called Planned Parenthood.

Madam Speaker, it is important to note that Planned Parenthood was founded in racism. It profits from the pain of abortion, and now it traffics in baby parts.

How much more do we have to know to awaken us, awaken our conscience as a nation, to the gruesome realities again of this taxpayer-funded organization?

So I am pleased that my colleagues have gathered tonight to talk more in depth about this, but also to highlight the fact that we are all interested in ongoing congressional investigations to determine what efforts, what laws, or what new steps need to be taken to ban the unethical and dehumanizing practice undertaken by Planned Parenthood.

We must challenge this assault on human dignity, especially to protect the most vulnerable members of our society. I find it very interesting, Madam Speaker, that the early feminist movement was dedicated to protecting women from abortion.

ALL LIVES MATTER

The SPEAKER pro tempore (Mr. ALLEN). Under the Speaker's announced policy of January 6, 2015, the gentleman from Wisconsin (Mr. DUFFY) is recognized for 60 minutes as the designee of the majority leader.

GENERAL LEAVE

Mr. DUFFY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on the topic of this Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. DUFFY. Mr. Speaker, for 30 years, Planned Parenthood has worked to dehumanize the babies that they have aborted, claiming that these little babies were just clumps of cells, just clumps of tissue; but through the recent videos that have come out, they have, in essence, admitted what we have known all along—that these are actually little humans. These are little babies, and their organs are being harvested for profit: little baby heads and little baby livers, little baby hearts and little baby lungs—little baby lungs that will never have an opportunity to

cry, little baby lungs that will never be used to learn how to speak, and little baby lungs that will never learn to sing because they have been killed in the womb.

These are little babies that are so well developed that they can survive outside the womb. These little babies feel pain in the abortion. These are little ones who, again, don't have lobbyists in this town that work for them. They are voiceless, they are defenseless, and so often they are powerless.

But this House is coming together tonight in extraordinary form to make sure that these little ones are not forgotten, because we are standing up for them to make sure that their lives matter because in America we believe that all lives matter, whether you are born or unborn. So I am proud to be part of this Special Order tonight. I am proud that we have so many Members who want to come down and speak on this important topic.

Mr. Speaker, I yield to the gentleman from New Jersey (Mr. SMITH), who has been such a leader in the pro-life movement.

Mr. SMITH of New Jersey. Thank you, Mr. DUFFY. Thank you for yielding to me and for your leadership on this extremely important human rights issue.

Mr. Speaker, in 2011, an undercover videotape sting operation by Live Action exposed several Planned Parenthood affiliates who are eager, ready, and willing to facilitate secret abortions for child sex trafficking victims—some as young or younger than 14—to get them on the streets again.

As the prime author of the Trafficking Victims Protection Act of 2000, the landmark law that seeks to protect victims, mostly women and children, I found the on-the-record willingness of Planned Parenthood personnel to exploit young girls and partner with sex traffickers to be absolutely appalling. Watch the video yourself on liveaction.org.

In 2012, Live Action released another sting operation video, part of a series called "Gendercide: Sex Selection in America," showing Planned Parenthood staff advising undercover female investigators how to procure sex selection abortions. Caught on tape, Planned Parenthood tells the investigator to wait until the baby is 5 months along to get an ultrasound that will reveal the sex of the child, then, if it is a girl, kill it.

Planned Parenthood is okay with terminating the girl child in its huge network of clinics simply because she is a girl. What a dangerous place for little girls.

Now we have learned that Planned Parenthood is trafficking in baby body parts and intact organs like livers and hearts, charging up to \$100 or more per body part. Not only has Planned Parenthood killed over 7 million innocent babies in their chain of abortion mills, about 330,000 children per year, but now shocking new undercover videos by the

Center for Medical Progress show high-ranking Planned Parenthood officials explaining how they market and profit from the sale of the organs of their victims and how doctors maneuver deadly abortion tools to ensure—they call them graspers—intact organs.

In one clip, Dr. Deborah Nucatola, senior director of Planned Parenthood Federation of America's medical services and a late-term abortionist herself, explained:

We have been very good at getting heart, lung, liver, because we know that, so I am not going to crush that part. I am going to basically crush below, I am going to crush above, and I am going to see if I can get it all intact.

Dr. Nucatola says on camera:

I would say a lot of people want liver; and for that reason, most providers will do this case under ultrasound guidance, so they will know where they are putting their forceps.

In other words, crush the baby to death, but do it in a way that preserves certain organs and body parts for sale.

Dr. Nucatola even suggests and is caught on tape talking about creating a menu.

Today, another new devastating video by the same organization shows a Planned Parenthood Federation top doctor, Dr. Mary Gatter, offering to use a "less crunchy technique" to get more intact organs and baby body parts.

Less crunchy? Like Dr. Nucatola, Dr. Gatter is nonchalantly talking about crunching—that is, crushing—babies to death in ways that are more likely to preserve body parts and intact organs. This is unconscionable, it is inhumane, and it must stop. I am glad that the House Republican leadership has called for full investigations into this dehumanizing practice.

Mr. DUFFY. Mr. Speaker, I yield to the gentleman from Texas (Mr. HENSARLING), the chairman of the Financial Services Committee.

Mr. HENSARLING. Mr. Speaker, I thank the gentleman for his leadership tonight especially, of all times.

Mr. Speaker, it is our highest ideal as Americans that every human life is endowed with dignity and has value. As Americans, we have a shared responsibility to protect the innocent and defend the rights of those who are unable to defend themselves. But rather than protecting and defending this dignity, Planned Parenthood is seemingly attempting to cash in on it.

Recently, shocking and appalling videos have come to light exposing senior employees at Planned Parenthood casually discussing both the harvesting and selling of organs of aborted children. These videos portray a chilling transactional approach to ending human life.

Mr. Speaker, as a matter of morality, history, science, reason, and, most importantly, my personal faith, I can come to no other conclusion but that every human life begins at conception and every human life is worthy of protection.
