

false, why in the world are we moving full steam ahead with the lifting of sanctions as early as next month? Think about that. Why indeed are we getting ready to release tens of billions of dollars to the world's biggest sponsor of state terrorism when we know the additional money will only embolden Iran? Just think how they are acting now. When they have tens of billions of dollars to further their terrorist activities, it will embolden them to act in even more nefarious ways against our interests and those of our allies and, most importantly, those of American citizens.

Another question: Why aren't the President and Secretary Kerry at a minimum telling the Iranians they won't see one dime—one dime—of the billions and billions of dollars we are set to hand over to the Iranians until all five Americans are released from prison? Why aren't we using that leverage? That leverage is going to go away as soon as we release that money.

Why are we getting ready to release tens of billions of dollars to Iran when it is clear they are going to simply violate this agreement? That is not just my view. Former Senator and Secretary of State Hillary Clinton was quoted as saying just last week that it is not if, but when, Iran will violate President Obama's nuclear agreement.

Just last week she stated: "They are going to violate it." Former Senator, former Secretary of State Hillary Clinton knows a little about the issue. She helped negotiate it. "They are going to violate it," she said. "They are going to violate it, they are going to be provocative about it, and we need to respond quickly and very harshly." That is the former Secretary of State.

Well, I agree with the former Secretary of State—the Iranians are going to violate this agreement. In fact, it is very likely the Iranians have already violated this agreement with their U.N. Security Council resolution violations.

So what should we do?

First, for any Americans listening, watching, who care about this issue, I urge you to call the President, call the Secretary of State, call the White House, call the State Department. Tell them something that I believe the vast, vast majority of Americans agree with: Our government should not be relieving Iran of any sanctions while it continues to illegally hold five Americans hostage. We should demand of our President that he should not allow tens of billions of dollars to flood into the biggest terrorist regime in the world while our citizens languish in Iranian jails. This is simple, and it is just wrong.

We need to light up the switchboard. Let President Obama know. Here is the number to the White House switchboard: (202) 456-1414. Call the President and tell him you think it is fundamentally wrong to let five Americans languish in prison while we are getting ready to send the biggest terrorist regime in the world tens of billions of dollars.

Call John Kerry. Here is the number to the State Department switchboard: (202) 647-4000. Tell him: Mr. Secretary, get on the phone. Release these prisoners; release our citizens or don't give Iran any of the billions of dollars they think they are going to get next month.

Second, I agreed with my colleague Senator MENENDEZ when he gave his speech last week that we need to keep the leverage against Iran by tightening the full range of sanctions available to us to penalize Iran for violating U.N. Security Council resolutions, as they have done within the last month. In his speech he also said we need to reauthorize the Iran Sanctions Act. I agree with him, and this body should take action to do just that.

Finally, I am working to get support for a simple bill that would prevent the President from lifting sanctions until Iran is no longer designated a state sponsor of terrorism and until Iran releases our five citizens who are languishing in their jails.

With all due respect to my colleagues who voted for this agreement, I believe this body made an enormous mistake by allowing the President's nuclear agreement to move forward. Iran's actions since the signing of this agreement—day after day, against the interests of the United States and our citizens—have made this 100 percent clear.

This mistake can be undone. We don't have to allow Iran access to tens of billions of dollars in sanctions relief while they continue to destabilize the Middle East, while they continue their robust expansive terrorist activities throughout the world. And we certainly—and this is a message for the President of the United States and the Secretary of State. We certainly don't have to allow them the tens of billions of dollars while Iran retains and detains Americans on trumped-up charges in Iranian jails, with no prospect for release. As the Washington Post put it, "That should not be an acceptable outcome."

Mr. President, I yield the floor.

Mr. INHOFE. Mr. President, I further ask unanimous consent that the Feinstein amendment be agreed to; that the committee-reported substitute, as amended, be agreed to; that the bill, as amended, be read a third time and passed; and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Connecticut.

Mr. BLUMENTHAL. Mr. President, reserving the right to object, I want to thank the Senator from Oklahoma for his hard work and his dedication to the Pilot's Bill of Rights, which is before us now, and I know he has in his heart and mind the best interests of our aviation public.

I have sought to improve this bill. I have had strong concerns about a number of its provisions. I want to thank him and thank Senator THUNE, Senator NELSON, and Senator MANCHIN, as well as Senator FEINSTEIN and Senator REED, for the improvements they have made to the bill. But I feel, with all due respect, that problems remain.

We have an effective medical certification system now which, unfortunately, this bill undermines, in my view. This bill replaces it with an untested framework, making it easier for people with dangerous medical conditions to fly. There is really no medical certificate effective to deal with potential medical problems. I am gravely concerned that this bill may lead to an increase in the number of aviation accidents.

My hope is—since it has 69 cosponsors, and the will of the Senate now is apparently to move forward—that we can perhaps improve it in the course of the FAA reauthorization. I hope some of these issues can be addressed in that process. I hope my colleague Senator INHOFE will work with me to keep the policy proposals outlined in this bill in mind as we go forward with the FAA reauthorization bill—and that is scheduled to be sometime next year—so that further improvements can be given due consideration.

Again, I thank the Senator from Oklahoma for his hard work on this bill, and I withdraw my objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2928) was agreed to, as follows:

(Purpose: To clarify the administrative authorities and to improve the physician certification)

On page 37, line 12, after the period, insert the following: “I certify that I am not aware of any medical condition that, as presently treated, could interfere with the individual's ability to safely operate an aircraft.”

On page 40, line 6, insert “and signed by the physician” after “followed”.

On page 48, between lines 3 and 4, insert the following:

(1) AUTHORITY TO REQUIRE ADDITIONAL INFORMATION.—

(1) IN GENERAL.—If the Administrator receives credible or urgent information, including from the National Driver Register or the Administrator's Safety Hotline, that reflects on an individual's ability to safely operate a covered aircraft under the third-class medical certificate exemption in subsection (a), the Administrator may require the individual to provide additional information or history so that the Administrator may determine whether the individual is safe to continue operating a covered aircraft.

(2) USE OF INFORMATION.—The Administrator may use credible or urgent information received under paragraph (1) to request an individual to provide additional information or to take actions under section 44709(b) of title 49, United States Code.

Mr. INHOFE. Mr. President, first of all, let me thank the Senator from Connecticut, because it is complicated. This is something that—it is also very difficult to actually explain a bill to 69 people and get that many cosponsors. But it is something we have been concerned about for a long time. Ten years ago, on the light aircraft, we actually had this language—even stronger than it is now. In that period of time, there hasn’t been one accident that can be related to a third-class medical. I think the time has proven itself in 10 years.

To respond, I would be very happy to work with the Senator from Connecticut on problems that may rise that I don’t envision right now. I appreciate very much his cooperation and also his staying around this late at night.

Thank you so much.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

CONGRATULATING MEGHAN ABLES

• Mr. BOOZMAN. Mr. President, today I wish to pay tribute to an outstanding Arkansas educator, Meghan Ables, who was named the 2016 Arkansas Teacher of the Year.

In nearly 13 years of teaching, Meghan’s work in the classroom has made a difference in the lives of students in the Stuttgart School District. While she has taught a variety of subjects at Stuttgart High School, she currently serves as an English and journalism teacher. She has added reading and writing opportunities at the school by reestablishing its monthly magazine, *The Bird Banner*, and helping launch its studio, *Ricebird Television*.

Meghan challenges her students to use their skills to improve their community. Her journalism class partnered with Arkansas Children’s Hospital as well as the local police and fire departments to raise awareness about safe driving.

Meghan’s commitment to education also inspires those who work with her to do their best to encourage further development in the classroom. She has led professional development activities for using literacy techniques in the classroom, presented for the Literacy Design Collaborative, LDC, and provided Teacher Excellence and Support System, TESS, training to her colleagues.

The Arkansas Teacher of the Year program, part of the National Teacher of the Year program, recognizes teachers around the State for their teaching excellence. This truly is a major accomplishment in Meghan’s career and something for which she can be very proud. Her outstanding contributions to education, the Stuttgart School District, and her students proves she is well deserving of this recognition.

I would like to offer my congratulations to Meghan Ables for her determination, devotion, and commitment to her students and to education. I am encouraged by her efforts to inspire our next generation of leaders and her drive to help them succeed.●

TRIBUTE TO JOE SIMON, JR.

• Ms. HEITKAMP. Mr. President, today I would like to honor a North Dakotan who is among the longest serving fire department volunteers in my State, keeping his community safe from fires and other threats for more than 65 years. That is a rare distinction in public service. The name Joe Simon, Jr., of Thompson, ND, has been on the volunteer firefighters’ roster since his high school days when his father was fire chief.

Joe served for 36 years as the chief of the Thompson Fire Department. During that time, it was Joe’s responsibility to keep the department fully staffed, manage training and medical duties, and work on grants to help keep the department running. Though Joe has retired as chief, he is still actively involved with department, helping with monthly checks of equipment and going on fire calls.

According to his friend, George Hoselton, it was under Joe’s leadership that the Thompson Fire Department

got its first set of the Jaws of Life rescue system—a major purchase for a volunteer department. After a college student died in an accident along the highway near Thompson because no Jaws of Life were available, Joe led door-to-door fundraising efforts to buy the lifesaving equipment. The community, today comprised of just a thousand North Dakotans, contributed enough money that the Thompson Fire Department was able to purchase the Jaws of Life and a rescue vehicle needed to carry the Jaws of Life and other equipment, says George. And that is what Joe is best at: working hard, bringing folks together, and making his community safer.

Joe’s volunteerism at the Thompson Fire Department over more than 60 years has made the department a model for other communities around the State and country. Thompson Fire Department has taught classes to share its practices with other fire departments in the region and has long led the way in improving its volunteers’ skills and safety. Under Joe’s leadership, the department secured one of the earliest automatic defibrillators in the State of North Dakota. Joe also helped get medical first response units up and running at other volunteer departments in the region and was instrumental in getting 911 and emergency first responder radio systems set up in Grand Forks County. Service is a way of life in Joe’s family. His wife, Sue, has been an EMT with the Thompson Fire Department for 27 years, which puts her in second place in seniority.

After studying at the University of North Dakota, Joe has spent his life in Thompson helping to grow and support the community in many ways. For 36 years, he worked as the head of the Agricultural Stabilization and Conservation Service in Grand Forks. Outside of his firefighting duties, Joe has been actively involved in American Legion baseball, Thompson High School football, and almost any other sporting event in town. Every Memorial Day, Joe puts out flags in nearby cemeteries, and reads a list of the honored dead—all of the veterans buried at four cemeteries around Thompson.

Friend and fellow firefighter George says that Joe “gets the biggest smile on his face when he helps someone. That makes his day.”

Volunteers make up 96 percent of North Dakota’s firefighters. They have other jobs but continue to give back, building stronger and safer communities and supporting the very fabric of our State. North Dakotans know that each of us has to step in to help our family and neighbors during tough times, and our first responders know that better than most. It is North Dakotans like Joe who epitomize why our State is such a unique and wonderful place filled with dedicated individuals who put others before themselves.

Thank you, Joe, for your tremendous service to your community and for your tireless efforts to keep communities throughout North Dakota safe.●
