House of Representatives

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. JOLLY).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC, February 3, 2016.

I hereby appoint the Honorable DAVID W. JOLLY to act as Speaker pro tempore on this day.

PAUL D. RYAN,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 5, 2016, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 1 hour and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 11:50 a.m.

MAKE PROGRESS ON LEGAL IMMIGRATION RATHER THAN BLAME PRESIDENT OBAMA

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. GUTIÉRREZ) for 5 minutes.

Mr. GUTIÉRREZ. Mr. Speaker, tomorrow, Republicans in the House are holding a hearing that will blame the Obama administration because thousands of children and young adults are fleeing three countries in Central America and are seeking safety in the United States and in other countries.

The premise, as far as the Republicans on the committee are concerned, is that President Obama has not deported anyone or enforced any immigration laws. As far as they are concerned, the President’s executive actions—which we should remember are for a different set of immigrants altogether and which Republicans have delayed until the Supreme Court decides on a lawsuit this summer—are a clarion call to everyone in these three particular countries to attempt to come to the U.S. It is not the rampant murderers, the extortion, the forced conscription into street gangs, or the utter collapse of civil society and civil order that is driving people to risk their lives to seek safety here. No. It is “that” President whom Republicans love to hate. He is to blame.

I hope that at least a little time at the Judiciary hearing on Thursday will be devoted to the problems our government has faced over the past couple of years in handling young and unaccompanied asylum seekers from Central America. We know that some women were kept in lockups for too long, that the term “humane family detention” is an oxymoron, that children were released to guardians who did not have the children’s best interests in mind, and that some were forced into human trafficking situations, and we should have been more vigilant. Those are the issues I hope we can focus on.

We should be asking: How can we remain a society that protects the innocent, that cares for children who have put themselves in our care, and that does so in accordance with the laws of this Nation and the laws of basic decency?

Unfortunately, at this point, we know what Judiciary Committee hearings are not about. They are not serious attempts to craft legislation that creates an immigration system that works for the American people. Hearings in this Congress are not about how the Congress can create legal and controlled immigration alternatives so that people do not try to come illegally or spend thousands of dollars on smugglers and traffickers.

We will probably not discuss how a generation of temporary protected status for certain immigrants has not created a long-term, sustainable situation in immigrant communities or sending countries so that immigration is safe, legal, orderly, and voluntary.

We will spend a lot of time discussing whether President Obama is to blame but very little time actually discussing why people come in the dead of night, holding onto a freight train, and running a gauntlet with smugglers and not what can be done to have immigration where people come in the light of day with visas, passports, and plane tickets.

We simply will not discuss how we get from this broken reality to a feasible and sustainable future of immigration. Rather, the Judiciary Committee will continue to feed the hucksterism and red meat politics that Americans hate, and they hate it with good reason.

In the years since 2007, when President George Bush started ramping up raids and deportations, right through the 2 million deportations of President Obama’s, I can honestly say I have not seen such fear and anxiety in immigrant communities, where mothers and fathers are keeping their children out of school because of the fear of being arrested by immigration authorities.

The home raids announced by the Obama administration around Christmas have struck a nerve. They have sparked rumors and panic and have multiplied as city after city has experienced raids or the rumors of raids. Children are taken as they go to school—yes, as they go to school. The government has stopped them and has arrested them.

The fear and anxiety has nothing to do with Donald Trump or with the fantasy that he has of deporting millions
of immigrants or of barring people from this country because of their religion. The fear and anxiety are born of decades of congressional inaction and of leaders in Washington who hope that the problem will just go away; but we will not be discussing that at the hearing today.

As for the path forward that will allow the country to move beyond the legislative roadblock imposed by the opponents of legal immigration, we will, again, not discuss how we make progress but, rather, yes, how we blame Obama.

For all of the Americans who want a legal and accountable immigration system and for all of the families who fear a knock on their doors, this Congress, again, seems to have nothing and to do nothing other than to let the demagogues and fear rule the day.

Mr. Speaker, that is a shame.

IN RECOGNITION AND IN CELEBRATION OF THE WORK OF DR. ANGUS STEWART DEATON

The SPEAKER pro tempore. The Chair recognizes the gentleman from New Jersey (Mr. LANCE) for 5 minutes.

Mr. LANCE. Mr. Speaker, I rise to recognize and to celebrate the tremendous work of Dr. Angus Stewart Deaton of Princeton, New Jersey, who was awarded the 2015 Nobel Prize in Economic Sciences. Dr. Deaton is a renowned academic, who is the Dwight D. Eisenhower Professor of International Affairs and Professor of Economics and International Affairs at the Woodrow Wilson School of Public and International Affairs and the Economics Department at Princeton University.

The Royal Swedish Academy of Sciences selected Dr. Deaton for the Swedish National Bank Prize in Economic Sciences in Memory of Alfred Nobel for his work regarding consumption, poverty, and welfare. The work is of critical importance to the entire world.

The Nobel Committee said in its selection announcement: "The Laureate, Angus Deaton, has deepened our understanding of different aspects of consumption. His research concerns issues of immense importance for human welfare, not least in poor countries. Deaton's research has greatly influenced both practical policymaking and the scientific community. By emphasizing the links between individual consumption decisions and outcomes for the whole economy, his work has helped transform modern microeconomics, macroeconomics, and development economics."

The Nobel Committee elaborated on its decision:

Dr. Deaton received this year's prize in Economics for three related achievements: the system for estimating the demand for different goods that he and John Muellbauer developed around 1980; the studies of consumption and household surveys. Dr. Deaton is a man of the world. A native of Edinburgh, Scotland, he was educated at the University of Bristol before coming to Princeton. He has studied and visited many nations, has used research and experiences from around the world to shape the direction of his work, and has written extensively on economic issues facing the global community.

His spouse, Dr. Anne C. Case, is the Alexander Stewart 1886 Professor of Economics and Public Affairs and Professor of Economics and Public Affairs at the Princeton University. She is also an accomplished and acclaimed faculty member who has published groundbreaking economic research. Angus Deaton has two adult children, and in their spare time, he and Professor Case enjoy the opera and trout fishing.

Dr. Deaton is a superb professor, mentor, colleague, friend, and Princetonian. He is extremely worthy of this preeminent international honor. My wife, Heidi, and I and my twin brother, Jim, are proud to call Angus and Anne our friends. It is a great honor to Dr. Deaton's country of birth, the United Kingdom, and to his adopted country, the United States of America, that he has received this year's Nobel Prize in Economic Sciences. It is also a great honor to Princeton University, whose motto is: "In the nation's service and in service of all nations."

On behalf of the Congress of the United States, I congratulate Professor Deaton. May he continue his momentous work for the betterment of the human condition in the many years that lie ahead.

FEDERAL GOVERNMENT TO MAKE STATE AND LOCAL GOVERNMENTS WHOLE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. Mr. Speaker, the armed occupation by out-of-State invaders in eastern Oregon is now in its second month. There has already been violence, loss of life, damage to Federal property, and the total disruption of this small, quiet community in far eastern Oregon.

From this unfortunate and unnecessary spectacle, there are some lessons and conclusions to be drawn:

First and foremost, it must be made clear that the armed takeover of government or of private facilities for grievances real or imagined is absolutely unacceptable and won't be tolerated;

Second, while it is easy to be an armchair quarterback and second-guess the authorities, I think it is clear that a firmer response to the earlier Bundy law breaking in Nevada—owing the Federal Government over $1 million and resisting Federal authorities at the gate—might have or at least not encouraged this latest outrage, which includes some of his family members coming to Oregon from Nevada;

This is a call to action for Americans who treasure our public spaces—our parks, our forests, our rangelands, our marine sanctuaries. These are treasures that belong to all Americans, and it is important for us to understand what we have and to understand what is at stake for forces that would threaten our heritage;

If America somehow decides to give up these treasures, as some demand, special consideration would not be given to the rich—putting it up for the highest bidder—or for people who just happen to be in the proximity. Special consideration should be given to the Native Americans, who ought to be first in line, who have been systematically and arbitrarily embargoed by the Federal Government, which has denied them their treaty rights, systematically taking away land that was promised to them by treaties that were negotiated—presumably in good faith—ratified by Congress, and signed by past Presidents;

And it is not just enough to enforce the law. We should recover damages from lawbreakers who tear up the landscape, degrade wildlife habitat, and destroy property.

I have introduced legislation that would allow the Federal Government—in fact, not allow, but require the Federal Government—to make payments to State and local governments that have had to incur significant costs because of threats to Federal property. H.R. 4431 would reimburse State and local officials for all extraordinary costs incurred due to threats to Federal property.

When we talk in trillions here in Washington, D.C., maybe talk of $100,000 here or $1 million there doesn't sound like very much.

To the State of Oregon it matters. And for this tiny community, a few hundred thousand dollars has a significant impact on the local taxpayer and their services. They shouldn't be made to pay the bill.

I'm also working with Congressman THOMPSON, to close a loophole that permits us and recovery of damages to Federal facilities by these lawbreakers, this legislation would allow the Federal Government to go back to recover its costs from people who willfully inflict this damage.

Let's act now, put this matter to rest, not let the people in eastern Oregon whole, and discourage such reckless and dangerous behavior in the future.
EVERY STUDENT SUCCEEDS ACT WILL RETURN CONTROL TO OUR SCHOOLS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, last month I met with teachers, administrators, school board members, even educators in higher education that train our next generation of teachers and some graduate students who are in that program to discuss the Every Student Succeeds Act, which replaces No Child Left Behind as our Nation’s elementary and secondary education law.

I was honored to be appointed by Speaker RYAN to the conference committee that was tasked with settling the differences between the House and Senate versions of ESSA to assure this legislation will prepare students for life success.

The ESSA reins in the unilateral power of the United States Secretary of Education and gives it back to the States and the local education agencies. It prohibits the Secretary from adding new requirements to State education plans, being involved in the peer review process, and exceeding his or her statutory authority. It also allows school districts to disentangle themselves from Common Core without penalty.

Additionally, the ESSA eliminates the controversial adequate yearly progress provision, paving the way for States to develop their own accountability systems. While the new law keeps annual standardized testing requirements for students in grade 3 through 8 in place to monitor progress, it eliminates most of the burden of testing on teachers and students and it sets up a process to further reduce even more standardized testing in the future.

While assessments for elementary schools must be the same for all public school students statewide, States may also choose. They have flexibility to offer nationally recognized local assessments at the high school level as long as the assessments are reliable, valid, and comparable.

In other words, a local education agency could use the SATs or ACTs to evaluate high school students instead of being held solely to tests mandated by the Federal Government.

Now, this flexibility should, could, and will be extended to career- and technical-education-focused students whose trade-specific competency is appropriately measured by the NOCTI performance test.

This flexibility will benefit our students and strengthen our overall economy. High school students will have increased access to pathways leading to careers in high-skill, high-wage jobs in technical vocations.

The connection between education and our students’ future careers is also enhanced by a provision in this law that encourages businesses to get involved with their local schools.

Schools will be able to apply for funds to provide apprenticeships that offer academic credit toward comprehensive career counseling.

Now, this is one of bipartisan legislation I introduced with Congresswoman JIM LANGEVIN aimed at informing school counselors of local labor market conditions so that they can best guide the decisionmaking process of these students and their parents.

Not only does ESSA lift overly strict testing requirements, it also ends the Federal mandate on teacher assessments. States will be able to enact their own evaluation system in accordance with stakeholders, including teachers, paraprofessionals, and their unions. The structure of their system will no longer be tied to Federal funding as it was in No Child Left Behind.

ESSA provides flexibility in the use of Federal funding, allowing teachers and district administrators to finance priorities set at the local level. This commonsense provision restores control to those on the front lines of educating our students and our children.

The ESSA also calls for the United States Department of Education to study how title I funds are allocated. Now, title I funds are used to offset the impact of poverty, one of the leading influences in the academic achievement of our students. I am concerned that the children are put at a disadvantage based upon the population of the school district rather than the concentration of poverty.

This study is the result of an amendment I introduced, which gained the support of the entire conference committee responsible for merging the House and Senate versions of the legislation.

Title I funds are vastly important to students who are low income, disadvantaged, or who have disabilities. I am hopeful this study will make a strong argument for a more equitable distribution of funds for the areas which need them most. Funding must be based on the school district’s ZIP code.

The ESSA is 4-year reauthorization of the Elementary and Secondary Education Act. Feedback from those involved in educating our students is so essential to the changes to our education system, and I appreciate the feedback that came in this process as we succeeded in this reform.

Now, as these changes are put into practice, I want to hear from you. If a particular provision of the ESSA is having a great effect on your student or your school district, whether it is good or whether it is bad, Congress needs to know.

As the implementation of this new law begins, I will continue to travel across Pennsylvania’s Fifth Congressional District, keeping our schools up to date on the change that was long overdue.

CLIMATE CHANGE—a tipping point

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. QUIGLEY) for 5 minutes.

Mr. QUIGLEY. Mr. Speaker, 2015 was a landmark year for global climate change, and that is not a good thing.

According to the National Oceanic and Atmospheric Administration, 2015 was our planet’s hottest year on record. Last year the global average land surface temperature was 1.33 Celsius above the 20th century average, and 10 of the last 13 years tied or broke existing records for highest monthly global temperatures.

Despite the fact that climate science and research consistently display the reality of climate change, some of my colleagues still debate its validity in this very Chamber.

What is there to debate? More than 12,000 peer-reviewed, scientific studies are in agreement that climate change is real and humans are significantly to blame. For those of you keeping track at home, there are zero peer-reviewed scientific studies that state the opposite.

One of the primary concerns of these scientific studies is that climate change might trigger events that will dramatically alter the Earth as we know it. Scientists have discovered a number of tipping points where abrupt changes in climate could create a variety of national and global effects. It is hard to predict when these events could occur; but we know that when they do, we will have very little warning.

Reaching these critical points could lead to abrupt changes in the ocean, snow cover, permafrost, and the Earth’s biosphere. Alarmingly, many of these events are triggered by warming levels of less than 2 degrees.

We now know that, in the latter part of this century, we will find the planet 1.5 degrees, 3.5 degrees, or 4.5 degrees Celsius of warming.

While it may seem minor, each degree makes a significant difference. A 2-degree shift in temperatures could lead to an increased rise in sea level by 55 centimeters. Levels have already risen by about 20 centimeters over the course of the 20th century. Increasing flooding along coastlines, impacting people and properties. A 3-degree increase could impede the viability and accelerate drought and extreme heat waves.

Each of these conditions would negatively impact the production of major crops, like wheat and rice, leading to global food security risks.

Anything above a 4-degree increase would cause even more drastic consequences, such as extreme ocean acidification, a decline in glaciers, a change in ocean currents, and a nearly 13-months tied or broke existing records for highest monthly global temperatures.

While the majority of the detected shifts are distant from major population centers, the implications will be
felt over large distances, creating significant economic and humanitarian consequences.

As with any abrupt change in the Earth's system, a cascade of other transformations will likely follow, each building upon and exacerbating the others. We could see a shift in ecosystems, the collapse of permafrost in the Arctic, and an extensive species loss. Each of these changes would trigger massive implications for the natural world and society as a whole.

So what does all this mean? It means we must act now. As President Obama said in his State of the Union address: If you want to debate the science of climate change, feel free to do so, but you will be greatly lonely.

Today America's business leaders, the Pentagon, the majority of Americans, the scientific community, and nations around the world recognize that we cannot wait to act.

I saw evidence of this last year when more than 40,000 negotiators from 196 countries descended on the French capital for the Paris Climate Summit. The Summit provided the world with an effective global framework for addressing climate change, but our work is far from over.

It is time to recognize that the consequences of inaction are far too great. If my colleagues are willing to put political ideology and ideology that acting on climate change is not just in our planet's interest, but in the interest of humanity, we may still have a fighting chance.

Albert Einstein once said: “The world as we have created it, is a process of our thinking. It cannot be changed without changing our thinking.”

Now is the time for Congress to change our thinking and address the reality of climate change.

ARMY SERGEANT RODDIE EDMONDS OF KNOXVILLE, TENNESSEE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN) for 5 minutes.

Mr. DUNCAN of Tennessee. Mr. Speaker, I want to go in a different direction at this point and mention another topic.

A couple of months ago, in interviews both by National Public Radio and CBS News, I described the air marshal program as possibly the most needless, useless, wasteful program in the entire Federal Government.

Shortly thereafter, the Los Angeles Times published an editorial entitled “It’s Time to Ground America’s Air Marshals” and said, “Duncan has a point.”

The editorial pointed out that there is no data showing marshals successfully put down in-flight threats and added: “In fact, passengers are apparently more likely to stop troublemakers on board than armed marshals.” The Times said that air marshals are a placebo the country should stop taking.

I became concerned a few years ago about this when I read in USA Today that more air marshals had been arrested than by air marshals. At that point, the service was costing $200 million per arrest.

I was able to get the Appropriations Committee to start reducing their funding from a high of $966 million, after they had been given big increases each year, to $790 million this fiscal year.

Having airport screeners and simply locking aircraft doors have done much more good than the many, many billions we have spent just so air marshals can fly back and forth, back and forth, usually in first class. This money is money that should be spent on much more effective security measures.

In fact, Mr. Speaker, The Wall Street Journal, a few months after 9/11, when they noticed that almost every department and agency in the Federal Government was sending up requests for more money based on security, said a wise legislative policy to follow would be that, from now on, if any legislation came to the House, the word “security” attached, it should be given twice the scrutiny and four times the weight.

Unfortunately, we have wasted many, many billions on different programs in this country just because they had the word security attached. We need to take the advice of The Wall Street Journal and give those bills much more scrutiny.

CANCER IMMUNOTHERAPY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. FOSTER) for 5 minutes.

Mr. FOSTER. Mr. Speaker, last month President Obama came to this Chamber to speak, inter alia, of a moonshot to cure cancer under the leadership of Vice President BIDEN. This week the President announced specific plans to invest $1 billion to fund that moonshot.

As a scientist and as the manager of large scientific projects, I am naturally inclined to be skeptical of such bold claims. It was President Nixon famously launched the same war on cancer in 1971. Tragically, we continue to wage that war today.

More recently, Andrew von Eschenbach, the director of the National Cancer Institute under President Bush, set the goal of eliminating suffering and death from cancer by 2015. We all know, unfortunately, that that goal was never met.

So why is this cancer moonshot any different? Is this a moment like 1961 when President Kennedy stood before a joint session of Congress and announced his goal of sending a man to the Moon by the end of the decade and succeeded? Or is this a moment like 1971 when President Nixon declared war on cancer and failed?

I believe that President Obama’s cancer initiative will succeed, and the reason that it will succeed is brutally simple: Science, basic science and technology that exists today and did not exist 45 years ago; technology that was generated by decades of curiosity-driven federally funded research paid for by the United States taxpayer.

There are many decades of federally supported basic scientific advances that will allow the Obama-Biden cancer moonshot to succeed: The ability to fully genome sequence individual cancers, the ability to manipulate the genome and produce animal models to test therapies that exist today and did not exist 54 years ago; technology that was generated by decades of curiosity-driven federally funded research paid for by the United States taxpayer.

Immunotherapy is an ingenious and revolutionary treatment that uses the body’s own immune system to fight cancer. Since time immemorial, there have been stories of miraculous remissions of cancer when patients with apparently incurable cancers have experienced what are often described as complete remissions. These were often attributed to an act of God or perhaps the moral character of the patient.
We now understand that for most, if not all, of these remissions that they happen when the body’s immune system, which has evolved over millions of years of combat with foreign viral and bacterial invaders, finally understands that cancer is an enemy and harnesses the horsepower that it needs to attack and to clean it up. Immunotherapy now gives us the scientific understanding of how to mass produce those miracles.

This would never have been discovered without sustained federal investment in R&D, and although the breakthroughs in immunotherapy rest upon a large pyramid of federally funded research, there are two parallel threads of federally funded research that directly led to this breakthrough.

One was pioneered by Jim Allison, then of UC Berkeley, and Arlene Sharpe of Harvard Medical School. The other was pioneered by Lieping Chen of the Mayo Clinic, all three labs using Federal funds to study how the immune system is controlled and how it knows to kill foreign cells but not its own cells. This was a fascinating scientific question, but not one which was obvious to cancer.

All three labs were sponsored by basic science peer-reviewed grants from the National Institutes of Health, which I mention, Mr. Speaker, because of the way that peer review seems to be coming under attack by members of your party. In the 1990s these groups were all working on what became known as immune checkpoints, which are regulatory pathways to turn down the immune system to prevent it from attacking the body.

Even once this basic discovery was made, the established pharmaceutical companies would not touch it, but in 1999 Medarex, a small biotech in Princeton, New Jersey, funded by the National Institutes of Health, took on the project. Ten years later, only after Medarex was well on the way to showing that their cancer immunotherapy approach worked in humans, was purchased by Bristol-Myers Squibb for $2.4 billion dollars. There are now many drug companies developing checkpoint inhibitor drugs to treat cancer, as well as other immune-system-related treatments for cancer.

Although the breakthroughs of immunotherapy rest on a pyramid of largely taxpayer-funded research, there are two parallel threads of federally funded research that directly led to this breakthrough. One was pioneered by Jim Allison, then of UC Berkeley, and Arlene Sharpe, of Harvard Medical School. The other was pioneered by Lieping Chen of the Mayo Clinic. All three labs were supported by basic scientific advances that will allow the Obama-Biden cancer moonshot to succeed: the ability to fully genome sequence individual cancers, the ability to manipulate the genome to produce animal models to study and test the basic mechanisms of cancer, and immunotherapy treatment, which was named Science Magazine’s breakthrough of the year in 2013, and which has been capturing so many headlines around the world.

Immunotherapy is an ingenious and revolutionary treatment that uses the body’s own immune system to fight cancer.

Since time immemorial, there have been stories of “miraculous remissions” of cancer, where patients with apparently incurable cancers have experienced spontaneous and often complete remissions. These were often attributed to an act of God, or perhaps the moral character of the patient.

We now understand that most, if not all, of these remissions happen when the body’s immune system, which has evolved over millennia of combat with foreign viral and bacterial invaders, finally understands the cancer as an enemy, and has all of the horsepower it needs to attack it and to clean it up. And immunotherapy now gives us the scientific understanding of how to mass produce those miracles. But this would never have been discovered without decades of sustained federal investments in R&D.

Although the breakthroughs of immunotherapy rest on a pyramid of largely taxpayer-funded research, there are two parallel threads of federally funded research that directly led to this breakthrough. One was pioneered by Jim Allison, then of UC Berkeley, and Arlene Sharpe, of Harvard Medical School. The other was pioneered by Lieping Chen of the Mayo Clinic. All three labs were using federal funds to study how the immune system is controlled, how it knows to kill foreign cells but not its own cells. This was a fascinating scientific question, but not one that was obviously relevant to cancer. All three labs are supported by basic-science from the National Institutes of Health peer-reviewed grants. Which I mention, Mr. Speaker, because of the way that peer review is coming under attack by members of your party.

In the 1990s, they were all working on what have come to be known as immunological checkpoints, which are regulatory pathways that allow the immune system to prevent it from attacking its own body.

Even once this basic discovery was made, the established pharmaceutical companies would not touch it. But in 1999, Medarex, a small biotech in Princeton, New Jersey, funded by the National Institutes of Health, took on the project. Ten years later, only after Medarex was well on the way to showing that their cancer immunotherapy approach worked in humans, it was purchased by Bristol-Myers Squibb for 2.4 billion dollars. There are now many drug companies developing checkpoint inhibitor drugs to treat cancer, as well as other immune-system-related treatments for cancer.

So as I mentioned before, the Obama-Biden cancer moonshot will likely succeed, because of the technology and basic science that was generated by decades of curiosity-driven scientific research—funded by the United States Government. Or, funded by big government, Mr. Speaker, as your colleagues like to say. Funded by a big government, directed by a vast, unelected, overpaid, lazy, wasteful federal bureau. A bureaucracy that has killed millions of American lives. I often hear my colleagues on the other side of the aisle claim we don’t need to make federal investments in R&D, because if it’s worth doing, the private sector will do it. Immunotherapy is a perfect example of why that logic doesn’t work.

The private sector took over, but not until researchers spent decades and millions of taxpayer dollars elucidating the basic science and proving this method could work.

I also hear my colleagues cherry picking studies that they can’t make sense of and label them as wasteful spending, then trumpeting their success in cutting “wasteful” government spending. When the truth is those “wasteful” programs often lead to breakthroughs like immunotherapy. The cancer moonshot being led by Vice President Biden is likely to succeed, but only because of sustained investments in federal funding for research and development.

As we work in the coming months to develop a budget, I hope my colleagues will keep this in mind. I am the representative of U.S. citizens, Mr. Speaker, but one that does not share your party’s monomania about “small government”, or a desire to keep government small and indebted simply to provide low tax rates for its wealthy donors. Because Americans know that small government does not accomplish great things, like sending a man to the moon, or curing cancer.
have every year, where our Nation focuses on praying for our Nation. I want to welcome our guests, Dr. and Mrs. Franklin Page, who will join us this week to recognize this time and to set aside time to celebrate our religious liberty and the individual freedom that became the focus of this week.

There is also another focus that comes into mind as we talk about this religious liberty. I want to take a moment and welcome and recognize the arrival of my new nephew, Grayson Lee Huntley. He is joining brothers Worth and Preston, his cousin Georgia Kate, and his cousins Jack and Chase, who are my grandsons. We know that being able to grow up in freedom is such a wonderful gift, and we are excited about that and excited about what individual freedom means to each of us.

I want to turn our attention now to something that constricts that freedom, and that is what we see through the President’s healthcare law. Again, yesterday we came to the floor to push to repeal that law. This is something that we will continue. There is a reason for this.

Let me give you some examples. Last week I was out in my district, I visited with 47 individuals who are employers. I want to cite three examples. One, an employer of 76 people, another an employer of 400 people, and another a franchise owner, 3,000 people that are in this group.

Let me tell you what I heard from each and every one of these individuals. Their employees, many of whom are my constituents, want to see a return to patient-centered, affordable health care. They do not want more Big Government and more unfunded mandates that they are being forced to deal with. It changes the kind of health care that they can get.

Now, when it comes to health insurance, what we have found is the escalation of individual costs, whether it is the cost of what is happening with the mandate. The insurance cost has gone up, the out-of-pocket deductibles, all of this is going up. What we also see is a cramping of access because of narrowed networks.

Another thing that is happening is what is taking place through the oversight boards, the preventive service task forces. These could also be called some of those oxymoron Federal agencies that are charged with opening up the healthcare process, what we see is they are reducing what you have access to, and it is also a slowdown in payment reimbursements for so many of our Medicare recipients. That is what is happening in health care, and we are hearing about it from our employers.

Now, there are options that are out there. Let me cite just a couple for my colleagues, H.R. 2300, Empowering Patients First Act, that is the bill from Dr. Phil Roe, who has worked with each of us as we have pulled provisions into this bill to make certain that we return to the principles of affordability, accessibility, and account-ability in patient-centered health care. We think it is time for these moves to take place.

Mr. Speaker, I would like to return everyone’s attention to the need to address the issue of replacing the ObamaCare legislation so that we reduce the cost and increase the access of health care for all Americans.

DR. OMALU’S DISCOVERIES AND ACHIEVEMENTS

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. McNERNEY) for 5 minutes.

Mr. McNERNEY. Mr. Speaker, I rise today to recognize the medical achievements and discoveries of an extraordinary man from my district, Dr. Bennet Omalu.

Dr. Omalu’s medical achievements, focusing primarily on brain injuries, have recently come to prominence with the movie which chronicles Dr. Omalu’s career and the controversies that his discoveries have created within the National Football League. Dr. Omalu’s medical research is also particularly relevant as we prepare to watch Super Bowl 50 this weekend.

Dr. Omalu was born in Nnokwa, Nigeria, and was the sixth of seven siblings. His mother was a seamstress, and his father was a mining engineer and respected community leader who encouraged Omalu’s career in medicine. His long medical career began at the age of 16 when he started attending medical school at the University of Nigeria. Omalu earned a bachelor of medicine and a bachelor of surgery in 1990.

In 1994, Dr. Omalu moved to Seattle, Washington, and completed an epidemiology fellowship at the University of Washington. In 1995, he moved to New York to complete his residency training in anatomic and clinical pathology. After completing his residency, Dr. Omalu trained as a forensic pathologist at the Allegheny County Coroner’s Office in Pittsburgh.

It was here, after conducting an autopsy on former Pittsburgh Steeler Mike Webster, that Dr. Omalu made a groundbreaking discovery that would forever change our understanding of brain injuries. Dr. Omalu was the first to identify and diagnose and name chronic traumatic encephalopathy, or CTE, a disease prevalent in athletes who participate in high-contact sports like football, boxing, and wrestling.

Since Dr. Omalu’s discovery, we now know that CTE is a progressive, degenerative disease that is found in people who have suffered repetitive brain trauma, including subconcussive hits that do not show any immediate symptoms. Early symptoms of CTE are usually detected 8 to 10 years after the original trauma and include disorientation, dizziness, and headaches.

As the disease progresses, individuals with CTE can experience memory loss, social instability, erratic behavior, and poor judgment. The worst cases of CTE show symptoms of dementia, vertigo, impeded speech tremors, deafness, slowing of muscular movements, and suicidal tendencies.

Dr. Omalu’s continued research on brain injuries and CTE has given us a greater understanding of the long-term effects of repeated brain trauma.

According to the CDC, approximately 3.8 million Americans every year suffer from concussions and approximately 208,000 people seek treatment in emergency rooms for traumatic brain injuries.

Dr. Omalu has advocated for more education among athletes who play high-contact sports, teaching them about the risks associated with repetitive brain trauma. He has committed himself to advancing the medical understanding of CTE, brain injuries, and their effects on the people who suffer from them.

Today, Dr. Omalu has eight advanced degrees and board certifications, including master of public health and epidemiology and master of business administration. He resides in Lodi, California, and serves as the chief medical examiner of San Joaquin County, California, and as a professor at the UC Davis Department of Medical Pathology and Laboratory Medicine.

The Bennet Omalu Foundation is committed to funding research, raising awareness, providing care, and finding cures for people who suffer from CTE and traumatic brain injuries. It is imperative, as a Nation, that we support research on CTE and brain injuries and figure out how much high-impact sports are affecting the health of our children and athletes. Ask my colleagues to join me in honoring the research and achievements of Dr. Bennet Omalu and all he has done to further the understanding of the human brain.

HUD OVER-INCOME HOUSING

The SPEAKER pro tempore (Mr. WOODALL). The Chair recognizes the gentleman from Florida (Mr. JOLLY) for 5 minutes.

Mr. JOLLY. Mr. Speaker, I rise today in support of bipartisan legislation that the House recently passed, H.R. 3700, the Housing Opportunity Through
Modernization Act, and specifically section 103 that addresses a disturbing trend in taxpayer federally subsidized housing.

Last summer, HUD’s inspector general published an audit revealing that over 100,000 tenants of taxpayer-supported housing actually exceeded the maximum allowable income to qualify for housing assistance. Importantly, roughly triple that number is on a wait list for housing. In fact, those on the wait list are economically qualified.

Worse, these over-income tenants, American taxpayers—you and I—are on the hook for $104 million next year. While hundreds of thousands of desperate low-income American families legitimately in need of taxpayer-supported housing today sit on those lists idly waiting for much-needed help, tens of thousands of over-income tenants sit in taxpayer-supported housing.

It is very clear that eliminating this kind of waste, fraud, and abuse is the reason that we serve today. It is critical that we do so.

A lack of adequate congressional directives and an indifferent Federal bureaucracy has let down the American people—the people who trust Congress to responsibly and effectively allocate tax dollars. It has also let down the low-income families on the wait list who are hoping for an opportunity to climb out of poverty.

I am pleased that the House acted responsibly yesterday to pass legislation to stop this failed policy. Section 103 of the Housing Opportunity Through Modernization Act sets clear requirements for HUD and, now, for local housing authorities.

Under this section, households currently in public housing whose income exceeds 120 percent of the median income level for 2 consecutive years will no longer be permitted to receive taxpayer assistance. Further, public housing authorities will be required to report annually to Congress and the American families that over-income tenant incomes so that we might maintain proper oversight of this program.

These are reasonable reforms that bring accountability to a Federal program that desperately needs it, ensures a smooth pathway for over-income households to a reasonable transition off of taxpayer assistance, and should create new opportunities for those on the wait list.

I am also pleased to see that HUD is finally taking steps to address this matter. It is not too late, but at least they are. Just yesterday, the agency announced that it will consider a much-needed new rule to strengthen oversight of over-income tenancy in public housing.

Mr. Speaker, we should not rest until we can be sure that taxpayer dollars, those of the men and women who entrust us to represent them, are going to support only those American families most in need of assistance.

We still have much work remaining, but with passage of the Housing Opportunity Through Modernization Act, we have made a very important first step. Let us, together, hope that the Senate and President join us in this important work on behalf of the American taxpayers that we represent.

AMERICAN HEART ASSOCIATION: GO RED FOR WOMEN

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Ohio (Mrs. BEATTY) for 5 minutes.

Mrs. BEATTY. Mr. Speaker, today I rise in support of the American Heart Association’s Go Red for Women campaign.

The Go Red for Women campaign is a critical public awareness platform that the American Heart Association uses to help promote heart-healthy lifestyles.

More than 627,000 women’s lives have been saved from heart disease since the Go Red for Women campaign was created in 2004. We have made tremendous progress, Mr. Speaker, in the fight against cardiovascular disease, but we still have a long way to go.

Heart disease is the number one killer of women and is more deadly than all forms of cancer combined. Heart disease causes one in three women’s death each year, killing approximately 1 woman every minute. Ninety percent of women have one or more risk factors for developing heart disease. Since 1984, more women than men have died from heart disease.

Heart disease is, unfortunately, a silent killer. According to the American Heart Association, nearly half of all women are not aware that heart disease is the leading cause of death for women.

For African American women, the risk of heart disease is especially great. Cardiovascular disease is the leading cause of death for African American women. Of African American women 20 years of age and older, 46.9 percent have cardiovascular disease; yet only 43 percent of African American women know that heart disease is their greatest health risk. In fact, I did not realize that I was at risk for stroke.

In 1999, I suffered a cerebral brain stem stroke. Because of my personal experience, I decided to be part of the solution. As this epidemic continues, I decided to not sit on the sidelines.

In 2000, I was elected to serve on the National American Heart Association Board of Directors. I was the only woman and the first African American on the board at that time. As a board member, I served as a leader, guiding the American Heart Association’s mission, cultural sensitivities, and national efforts.

Here in Congress, my advocacy continues. As a member of the Congressional Heart and Stroke Coalition, my colleagues and I work to raise awareness about the prevalence and severity of cardiovascular disease.

Last Congress, I introduced two pieces of legislation that raise awareness for stroke and other cardiovascular diseases. One, the Return to Work Awareness Act, would assist survivors of stroke and other debilitating health occurrences in returning to work. Both pieces of legislation had the support of the American Heart Association and the National Stroke Association.

I will reintroduce, Mr. Speaker, these important pieces of legislation this month during American Heart Month. I encourage all my colleagues, Democrats and Republicans, to join me as an original sponsor.

Mr. Speaker, you will notice that many of our colleagues today will be wearing the red American Heart Association pin. By wearing this pin, we help raise the awareness of cardiovascular disease in women and provide an important reminder that it is never too early to take action to protect our health.

This month, American Heart Month, let us recommit ourselves to improving heart-healthy lifestyles and to continue to fight against this deadly disease for ourselves and our families.

Lastly, Mr. Speaker, I want to recognize all the survivors of heart disease and those who are battling heart disease. I salute their family members and friends who are their source of love and encouragement to them as they fight this disease, as well as my friend, American Heart Association CEO Nancy Brown, and all the healthcare professionals and medical researchers who are working to find cures to improve treatments.

Please join us. Sign onto my bill and support a healthy lifestyle.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o’clock and 55 minutes a.m.), the House stood in recess.

□ 1200

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at noon.

PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Compassionate and merciful God, we give You thanks for giving us another day.
Bless the Members of this people’s House with strength, fortitude, and patience. Fill their hearts with charity, their minds with understanding, and their wills with courage.

In the work to be done now, may they rise together to accomplish what is best for our Nation and, indeed, for all the world, for you have blessed us with many graces and given us the responsibility of being a light shining on a hill.

On this feast of St. Blaise, may all Members be healed of every infirmity of their throat.

May all that is done this day be for Your greater honor and glory.

Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day’s proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from New York (Mr. HIGGINS) come forward and lead the House in the Pledge of Allegiance.

Mr. HIGGINS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

CONGRATULATIONS CAROL JOHNSON

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina, Mr. Speaker, last week the National Safety Council honored Carol Johnson, president and CEO of Savannah River Nuclear Solutions, with their annual CEOs Who Get It award.

This award recognizes leaders who have built a positive safety protocol through leadership and employee engagement, safety management solutions, risk reduction, and performance measurement.

Ms. Johnson was recognized for her focus on safety SRNS, promoting a positive culture and continuously implementing safety measures at the site. She was commended by the Department of Energy for her role in recognizing and correcting safety errors.

This recognition represents Carol’s strong commitment to prioritize safety for every employee and every task with fulfilling jobs.

I appreciate Carol’s dedication to the employees of SRNS. Her focus on safety strengthens the community and makes the Central Savannah River area a world-class place to live and work. She has truly exemplified the goal of continuous improvement with zero harm. Congratulations to Carol on this well-deserved recognition and award.

In conclusion, God bless our troops, and may the President by his actions never forget September the 11th in the global war on terrorism.

STANDING WITH THE FAMILIES OF COLGAN FLIGHT 3407

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Mr. Speaker, next Friday will mark the seventh anniversary of the crash of Continental Colgan Flight 3407.

The cause of the accident was pilot error due to inexperience. The families of those who were lost fought for and won reforms that require pilots to be sufficiently experienced before they are entrusted with the safety of the flying public.

But regional airlines are trying to roll back these higher standards, claiming that they cannot find enough experienced pilots. That is simply not true. The airlines would see that if they increased starting salaries for pilots from $16,000 a year to a level commensurate with the responsibility they are given.

Yesterday the Western New York congressional delegation stood with the families to serve notice that we will relentlessly oppose any attempt to water down these reforms. We will honor those who died by ensuring that never again will our loved ones be entrusted with inexperienced pilots.

ISRAELI DEFENSE FORCE LIEUTENANT HADAR GOLDIN

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, yesterday I had the honor of meeting Simha and Leah Goldin. They are the parents of Israeli Defense Force Lieutenant Hadar Goldin, and they have started the campaign Bring Hadar Home.

Hours after the declaration of the international brokered cease-fire to the 2014 Gaza conflict, Hamas terrorists murdered Lieutenant Goldin and dragged his body deep into one of the underground tunnels in Gaza.

A year and a half after this brave and patriotic young man’s murder, the family still languishes in limbo, unable to give Hadar a proper burial because Hamas is holding his body hostage. This was a cease-fire entered into by Israel at the urging of Secretary Kerry and the U.N., and they should bear some responsibility for securing Hadar’s return home to Israel.

We have noticed how little Hamas regards human life by its indiscriminate rocket attacks against innocent Israeli citizens and by holding Palestinian citizens as human shields.

We must demand that Hamas’ return home and support the Goldin family in its efforts to give Hadar a proper burial and put an end to this nightmare.

D-STRONG

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Mr. Speaker, I rise today to honor Dorian Murray, an 8-year-old boy from Westerly, Rhode Island, who was diagnosed with a rare tissue and bone cancer. After learning in December that his disease was no longer treatable, Dorian told his father that his goal was to become famous all around the world.

In recent weeks, after his parents posted his request on Facebook, the world has responded. People in China, Italy, Brazil, Germany, and other countries have come together to post their messages of support for Dorian during his courageous fight against cancer.

Dorian’s hashtag, #DStrong, has now been viewed on social media platforms by millions and millions of people.

I am keeping Dorian, his mom Melissa, and his dad Chris in my thoughts and prayers.

Today the United States House of Representatives is D-Strong.

MIKE MIRON—FARMER OF TOMORROW

(Mr. EMMER of Minnesota asked and was given permission to address the House for 1 minute.)

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to celebrate Mike Miron of Hugo, who recently won the Young Farmers and Ranchers Excellence in Agricultural national competition at the American Farm Bureau Federation’s annual meeting.

Mike is the fifth generation to work in his family’s dairy and crop farm. In addition, he is also a high school teacher and Future Farmers of America adviser in Forest Lake, Minnesota.

Agriculture is one of the more important sectors of the American economy. Thanks to farmers who are educators, like Mike Miron, my State of Minnesota is a national leader in agriculture.

We need to celebrate the hard-working men and women who contribute to agriculture in Minnesota and all across this Nation.

Thank you, Mike, for what you have done and what you continue to do for agriculture today and tomorrow, and congratulations for your Excellence in Agriculture.
BENEFICIAL OWNERSHIP BILL
(Mrs. CAROLYN B. MALONEY of New York asked and was given permission to address the House for 1 minute.)

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, this Sunday “60 Minutes” highlighted an explosive undercover investigation by Global Witness, which showed just how easy it is for criminals and corrupt officials to use anonymous shell companies to bring dirty money into the United States.

The reason it is so easy is because States don’t require the disclosure of the true beneficial ownership of shell companies. This is unacceptable, and it has to stop. As Global Witness stated, “anonymous shell companies are like getaway cars for crooks.”

That is why I am reintroducing a law, along with my good friend and colleague, Representative PETE KING, which would require that the person creating the corporation say who the beneficial owner is and, also, to explain who really owns the company.

If States do not require and get this information, then, as a backstop, the United States Treasury will have this information before an account can be opened.

This is a commonsense, bipartisan approach on what is a major national security and law enforcement issue.

I urge my colleagues to join us in passing this important legislation.

THE IMPORTANCE OF AGRICULTURE
(Mrs. ROBY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. ROBY. Mr. Speaker, I rise to draw attention to the important role that agriculture plays in this country.

I am honored to serve in a district in which agriculture represents the largest employer and is responsible for $1 billion in economic impact.

It is why, during my time on the House Agriculture Committee, I was proud to help craft a new farm bill that delivers modern, more conservative policy for our farmers.

That is why now, as a member of the Appropriations Committee, I have remained diligent in making sure that the promises we made in the farm bill are kept.

We faced a challenge last year in the crop insurance program when it was gutted in the budget. This is the system that we promised our farmers to help transition away from direct payments.

Cutting it was unfair. I was proud to help restore that program funding before the end of the year, but it demonstrated something of a disconnect.

Mr. Speaker, not everyone in Congress represents a district with such a large agricultural footprint. What I try to explain to my colleagues is that, when you mess around with the crop insurance program, you aren’t just affecting farmers who put seed in the ground.

You are affecting the ones who sell the seed, who build the equipment to cultivate and harvest the crop, and those who help process the goods for their final products.

That farming dollar turns over many times, and there is an entire agriculture supply chain that is affected by the farm policies we set in Congress.

My farmers know I have their back and I always will as long as I am in Congress.

GO RED FOR WOMEN CAMPAIGN
(Ms. GRAHAM asked and was given permission to address the House for 1 minute.)

Ms. GRAHAM. Mr. Speaker, today I rise in support of the American Heart Association’s Go Red for Women campaign.

Heart disease and stroke cause one in three deaths among women each year, killing approximately one woman every 80 seconds. The troubling numbers are more than a statistic. They are a fact of life that cause unnecessary pain and suffering to families across our country.

I say unnecessary pain and suffering because we have the power to change it. We can save lives. As much as 80 percent of heart disease and stroke-related deaths can be prevented with education and action.

That is why I am standing to raise awareness and encourage my fellow members and constituents across our beautiful nation to Go Red by participating in National Wear Red Day on Friday.

Wear something red, like this jacket, to show your support for women fighting heart disease and strokes. Together, we can save lives.

ZIKA RESPONSE AND SAFETY ACT
(Mr. STEWART asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEWART. Mr. Speaker, yesterday the World Health Organization declared the Zika virus outbreak a global public health emergency.

The virus is particularly dangerous to pregnant women as it has been linked to serious physical and neurological defects in their unborn children. As the father of six children, I understand how frightening this could be.

Experts fear the virus will spread more widely to the United States, especially with the Olympic Games in Brazil on the horizon. That is why I have introduced the Zika Response and Safety Act, to ensure that key agencies have the resources necessary to combat this growing threat.

In 2014, Congress allocated more than $2 billion to fight Ebola. Much of that money is still unspent. I would like to make some of that funding available to be used to combat the Zika virus.

This virus is a global health threat that requires our immediate attention. I urge my colleagues to support the Zika Response and Safety Act so that we can provide the necessary resources to understand and to prevent the harmful effects from Zika.

WE NEED TO PROPERLY MANAGE WATER
(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Mr. Speaker, I rise to bring attention to the failure of California State agencies and Federal agencies to properly manage California’s water system as a result of the El Nino storms that we have been receiving.

El Nino years, like this one, are California’s hope of digging out of the historical drought conditions that we are facing. There is very high likelihood that most of the State will experience flood conditions, which communities in the San Joaquin Valley that I represent will receive a zero water allocation.

This year we have already missed an opportunity to move significant amounts of water to regions of California that need it most in the San Joaquin Valley.

As a result of the State and Federal agencies’ inability to operate in the most flexible range allowable, over 160,000 acre-feet of water has been lost this week alone and over half a million acre-feet has been lost this year. Meanwhile, an estimated total of 2 million acre-feet of water has gone out to the ocean.

State and Federal agencies are failing to take advantage of the water in the system today, and that is unacceptable. It is a disservice to all Californians. It is simply immoral.

HONORING AMBASSADOR GARY DOER
(Mr. HUIZENGA of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUIZENGA. Mr. Speaker, I rise today to honor the Honorable Gary Doer, the outgoing Canadian Ambassador to the United States.

Canada is one of our Nation’s longest and greatest allies. Our bilateral trade with Canada was nearly $794 billion last year alone, and it supports over 9 million jobs. In fact, my home State of Michigan sells more goods to Canada than our next 12 largest trading partners combined.

Over the last 7 years, Ambassador Doer has built a long list of accomplishments, including improved U.S.-Canadian regulatory cooperation, advocating for the Congressional Gold Medal for the Devil’s Brigade, and the
repeal of burdensome country of origin labeling requirements.

Mr. Speaker, I am grateful for Ambassador Doer’s personal friendship to me and his relentless service to Canada and his friendship with the United States. I wish him well in his future endeavors.

As chair of the U.S.-Canada Inter-parliamentary Group, I look forward to working with Canada’s incoming Ambassador, David MacNaughton, to further build on our Nation’s great partnership.

NATIONAL CATHOLIC SCHOOLS WEEK

(Mr. Lipinski asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. Lipinski. Mr. Speaker, this is National Catholic Schools Week. I want to recognize the outstanding contributions that Catholic schools make to our Nation.

As a proud graduate of St. Symphorosa Grammar School and St. Ignatius College Prep, and as a strong supporter of Catholic education, I have introduced H. Res. 592 to honor Catholic Schools Week.

Since 1974, this week has celebrated the important role that Catholic education plays in America, especially the dedication of Catholic schools to aedicence excellence and service. This year’s theme—Communities of Faith, Knowledge, and Service—highlights the values that are central to a Catholic education.

Earlier this week I visited St. Joseph’s School in Lockport, which has the distinction of receiving three national awards in the past 6 years, including awards for Pastor Father Greg and Principal Lynne Scheffler. Later this week I look forward to visiting Bridgeport Catholic Academy and St. Barnabas School, both in Chicago.

I applaud the work of these and other Catholic schools across the country and all they contribute to our great Nation.

HONORING COACH GLENN ROBINSON

(Mr. Pitts asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. Pitts. Mr. Speaker, I rise today in honor of Coach Glenn Robinson of Franklin and Marshall College in Lancaster.

For 45 years, since he was only 25 years old, Coach Robinson has been leading the F&M Diplomats to victory. Coach Robinson is the winningest coach in the history of Division III basketball. He is now only the third college basketball coach ever to win 900 games, behind only legendary Bobby Knight of Indiana and Philadelphia’s Bob Magee.

Four times he has broken his own school record for best record in the sea-son, 12 times he has been named Region Coach of the Year by the National Association of Basketball Coaches, 12 times he has been Conference Coach of the Year, he has once been Division Coach of the Year, and he has won 93 postseason victories, 42 NCAA tournament victories. In 16 trips to the Sweet 16, 10 trips to the Elite 8, five trips to the Final 4, and one national championship appearance.

True leadership is servant leadership, the kind that finds people’s strengths. Coach Robinson is an exemplary leader, and the proof of that is that he brings out the best in his players, 25 of whom have gone all-American.

Coach Robinson is one of the greatest coaches in college history, and Lancaster will always be rightly proud of him.

WE MUST FIX OUR BROKEN IMMIGRATION SYSTEM

(Mr. Polis asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. Polis. Mr. Speaker, with one item, the American people speak with a single voice. They want Congress to tackle our broken immigration system, secure our borders, and restore the rule of law. Yet here we are, more than halfway through the 114th Congress, and not a single immigration bill that fixes the problem has even been brought to the floor or committee or passed.

We hear Presidential candidates on both sides of the aisle tapping into the enormous public sentiment that says stop what you are doing and fix our broken immigration system. There are 11 million people or more in our country illegally. The rule of law has been made a mockery of, families are being torn apart by ICE and DHS at great cost to taxpayers. Let’s fix our immigration system.

Comprehensive immigration reform will save over $200 billion, create hundreds of thousands of jobs for Americans, secure our borders, and restore the rule of law.

What is not to like? Let’s come together around finally fixing the problem rather than simply complaining about it.

HONORING DAVID LAWSON, ROCHESTER VOLUNTEER FIREFIGHTER

(Mrs. Walorski asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. Walorski. Mr. Speaker, I rise today to recognize and pay tribute to a hero. Coach Robinson is an exemplary lead-
er, and the proof of that is that he brings out the best in his players, 25 of whom have gone all-American.

Coach Robinson is one of the greatest coaches in college history, and Lan-
caster will always be rightly proud of him.

REMEMBERING THE LEGACY OF SACRIFICE AND SERVICE OF DAVID MAURITSON AND PHIL DRYDEN

(Mr. Byrne asked and was given permission to address the House for 1 minute.)

Mr. Byrne. Mr. Speaker, I rise today to remember two remarkable individuals who tragically died Monday evening in a plane crash in Mobile County, Alabama.

Major David Mauritson of Fairhope and Lieutenant Phil Dryden of Gulf Shores were members of the Civil Air Patrol, and they were returning from a compassion flight to Baton Rouge where they helped transport a fellow citizen for medical care when their plane went down.

David Mauritson had been a member of the Civil Air Patrol since 1991 and worked for years as a cardiologist and a lawyer. He had been flying all his life and was committed to helping others through charity medical flights.

Phil Dryden served our country in Vietnam as a combat medic. He had just joined the Civil Air Patrol last year and served as the Mobile squadron’s assistant operations officer.

Mr. Speaker, one day our time on this Earth will draw to a close. When that day comes, we will be remembered not for what we had, we will be remem-
bered for what we did.

David Mauritson and Phil Dryden left this world helping others. The leg-
acy of service and sacrifice is how they will always be remembered.

On behalf of Alabama’s First Congressional District, I offer my deepest condolences to their families. These great Americans will be sorely missed.

IRAN NUCLEAR DEAL

(Mr. LaMalfa asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LaMalfa. Mr. Speaker, as part of the Iran nuclear deal, the Iranian regime will receive up to $150 billion in sanctions relief. Secretary of State John Kerry has admitted that some of
the sanctions relief will go to the Iranian Revolutionary Guard Corps, which provides funding and training to terrorist groups like Hezbollah and Hamas. The Revolutionary Guard Corps is also responsible for supporting Shia militias that killed American troops in Iraq are currently fueling sectarian tensions in Iraq.

Like most of my colleagues in Congress, I opposed the Iranian deal and continue to believe it will not guarantee a nuclear weapons-free Iran.

But the simple fact that this deal has moved forward should not be an excuse for allowing sanctions relief to benefit terrorists.

Yesterday the House passed a commonsense bill that prohibits President Obama from removing sanctions on foreign financial institutions that are doing business with Iran’s Revolutionary Guard Corps. I urge immediate adoption of this legislation.

We also need to deal with the victims of terrorism—Americans who were subject to terrorism by Iranian actions. Out of the $150 billion, up to $40 billion of awarded money should be received by these people because of this action.

The Obama administration has already made too many of these concessions. We can still prevent sanctions relief from ending up in the pockets of terrorists.

THE CORPUS CHRISTI CROSS

(Mr. FARENTHOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FARENTHOLD. Mr. Speaker, last weekend I attended the groundbreaking of the tallest cross in the Western Hemisphere and the second tallest cross in the world that is going to be built in Corpus Christi, Texas, my hometown, by the Abundant Life Fellowship under the leadership of Pastor Rick Milby.

Wrought of five-eighths inch cold-rolled steel, the Corpus Christi cross will be visible for miles along Interstate 37 and to flights coming into and departing from the Corpus Christi International Airport. Standing at 210 feet tall, and possibly taller, depending on fund-raising success, the Corpus Christi cross will be the largest cross on this side of the Atlantic Ocean.

Corpus Christi is the perfect setting for the tallest cross in the Western Hemisphere because Corpus Christi, translated from Latin, means “the body of Christ.” The cross, a symbol of hope, will be located directly across Interstate 37 from the Coastal Bend State Veterans Cemetery. What better location is there for a reminder that Christ died for our sins than next to the resting place of those who fought for our freedom.

Good work, Pastor Milby, Abundant Life Fellowship, and everybody else in Corpus Christi supporting this project. God bless you all.

DEndefing the unborn

(Mr. GRAVES of Louisiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GRAVES of Louisiana. Mr. Speaker, last month Washington, D.C., was home to the March for Life, and thousands of Americans came from all across the country to attend it. The State of Louisiana was disproportionately represented with hundreds of folks from our State, Louisiana being one of the most pro-life States in the Nation, one of the highest percentages of Churchgoing, and one of the highest percentages of believers in America.

The term “sanctity of life” gets thrown around a lot when we start talking about pro-life versus pro-choice in political debate, but it is more than a slogan. Its relevance transcends the issue of life in our country.

Human dignity is the foundational principle of freedom and human flourishing. A substantive application of the sanctity of life should inform all our efforts in this Chamber, on both sides of the aisle.

I am pro-life because I believe that all human beings, at every stage of life, every stage of consciousness or self-awareness are of equal and immeasurable worth and dignity. I applaud and join the efforts of my colleagues to defend the unborn, those who can’t defend themselves, but I also call upon both political parties to respect and value the dignity of human existence at all stages of life, from the womb all the way to life’s natural conclusion. I believe we all have an obligation to the fundamental principle of human dignity.

As we consider important issues like criminal justice reform, the War on Poverty—policies designed to help people improve their quality of life—let us engage in political debates with this in mind.

DEMANDING ACTION TO CRACK DOWN ON VISA OVERSTAYS

(Mr. MARCHANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MARCHANT. Mr. Speaker, according to a recent report by the Department of Homeland Security, nearly 500,000 foreign nationals overstayed their visa in fiscal year 2015. This is unacceptable and dangerous. These people are breaking the law, and they have violated the trust of the American people.

Visa overstays are an ongoing failure by this administration. Approximately 12 million illegal immigrants now live in our country. An estimated 40 percent can be attributed to visa overstays. Now there are a half million more.

ISIS is working tirelessly to exploit our national security weakness. Meanwhile, the administration is turning a blind eye to the vast majority of visa overstays.

Half a million foreign nationals overstayed their visas last year, but less than 1 percent of that group is currently being investigated. I have written Secretary Johnson to demand that immediate action be taken to crack down on these visa overstays. This issue poses a clear risk to our safety and the safety of our constituents.

THANK YOU TO FAMILY FIRST CENTER

(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOLD. Mr. Speaker, today I rise to recognize the Family First Center in Waukegan, Illinois, for their contributions to the Toys for Tots program.

The Toys for Tots program, as you know, was created by the U.S. Marine Corps. Each and every year, they collect toys to distribute to those children during the holidays.

The Family First Center of Lake County, under the direction of Dr. Evelyn Chenier, has been a huge partner with the Toys for Tots program. Just last year, they distributed nearly 75,000 toys to over 19,000 children in the Lake County community.

The Family First Center’s success is an inspirational example of a community organization putting families first and bringing about positive change in our community. I offer my sincere thanks to the Family First Center and Dr. Chenier for their leadership to strengthen our community.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The Speaker pro tempore (Mr. SIMPSON) laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,

Hon. Paul D. Ryan,
The Speaker, House of Representatives,
Washington, DC.

Dear Mr. Speaker: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representa-
tives, the Clerk received the following mes-
 sage from the Secretary of the Senate on
February 3, 2016 at 11:02 a.m.:
That the Senate passed S. 2306.

With best wishes, I am,
Sincerely,
Karen L. Haas.
PROVIDING FOR CONSIDERATION OF H.R. 1675, ENCOURAGING EMPLOYEE OWNERSHIP ACT OF 2015, AND PROVIDING FOR CONSIDERATION OF H.R. 766, FINANCIAL INSTITUTION CUSTOMER PROTECTION ACT OF 2015

Mr. STIVERS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 595 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 595

Resolved, That at any time after adoption of this resolution, the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee on the Whole House on the state of the Union for consideration of the bill (H.R. 1675) to direct the Securities and Exchange Commission to revise its rules so as to increase the threshold amount for requiring issuers to provide certain disclosures relating to compensatory benefit plans. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived.

General debate shall be confined to the bill and amendments specified in this section and shall not exceed one hour equally divided and controlled by the minority and majority members of the Committee on Financial Services. After general debate the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule an amendment in the nature of a substitute, consisting of the text of Rules Committee Print 114-41. That amendment in the nature of a substitute shall be considered as read.

All points of order against that amendment in the nature of a substitute are waived. No amendment to that amendment in the nature of a substitute shall be considered as read. Each such amendment may be offered only by a Member designated in the report. Subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the points to the amendment in the nature of a substitute made in order as original text. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from Ohio, that has an ESOP, or employee stock ownership plan, is recognized for 1 hour.

Mr. STIVERS. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Colorado (Mr. POLIS), pending which I yield myself such time as I may be allowed by the previous question. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the points to the amendment in the nature of a substitute made in order as original text. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

The SPEAKER pro tempore. The previous question. Mr. STIVERS. Mr. Speaker, the amendment under consideration is a provision to increase the $5 million disclosure threshold via rulemaking, but like the 500 shareholder rule that we had to fix—and my colleague from Colorado was very active in helping with—rule 701 has not been changed. It is unlikely to happen without congressional intervention. That is why this is so important.

This is about getting employees access to ownership in their companies. It is about building ownership structures that make these companies stable over time. It allows businesses to incentivize their employees with a direct stake in the ownership in their company. It will help with employee retention, makes sure that these firms have great opportunities for retirement programs, and helps employees reaping the benefits of their life’s work that they worked so hard for each and every day.

I will give an example. Mr. Speaker. There is a company in my district called Allied Mineral. I talked about this, as my colleague from Colorado may remember, yesterday in the Rules Committee. Allied Mineral is a company in Hilliard, Ohio, that has an ESOP, or employee stock ownership model, and many of those folks who operate fork-lifts in their houses do so with over $1 million in their 401(k). It really helps these folks want to stay in their company; therefore, it improves retention and cuts down on training new
employees, but it helps them in their retirement. It is a great vehicle to make these companies productive and stable, as well.

That is title I. Title I is really important. Title I is pretty universally agreed to.

Title II, the Fair Access to Investment Research Act, directs the SEC to create a safe harbor for certain publications or distributions of research reports by brokers or dealers distributing securities, such as exchange-traded funds. An exchange-traded fund is an investment company whose shares are traded intraday on stock exchanges at market-determined prices. Investors can buy and sell exchange-traded funds through a broker or in a brokerage account, just as they would any other publicly traded company.

Over the past three decades, exchange-traded funds have grown from 100 funds with about $10 billion in assets to over 1,300 funds worth $1.8 trillion in assets. However, due to anomalies in our securities laws and regulations, most of the broker-dealers don't publish research about these exchange-traded funds, despite their growth in popularity.

The SEC has implemented similar safe harbors to what this bill would suggest for other asset classes, including listed equities, corporate debt, and closed-end funds. This section will help investors get access to useful information when deciding whether to invest in exchange-traded funds and similar products.

Title II, I think, is also pretty agreed to.

Title III, the Small Business Mergers, Acquisitions, Sales, and Brokerage Simplification Act, amends the Securities Exchange Act to exempt merger and acquisition brokers from registration with the Securities and Exchange Commission and acquisition brokers perform services in connection with the transfer of ownership of mostly smaller privately held companies.

An estimated $10 trillion of privately owned companies will be sold or traded as baby boomers retire and folks want to figure out what to do with their life's work and how to move their company in a way that the company can continue to exist. But it is important for us to reduce the costs associated with these middle-market companies, again, with annual revenues up to $250 million from the Extensible Business Reporting Language. Basically, it is exportable files. The data is still available. The point here in title IV is that the data will be available, but it might not be in a downloadable format that you can put in a spreadsheet. You might have to look at it in a PDF.

Investors look at a lot of things in PDF. I can look at PDFs on my phone, and it won't deny anybody information. But the cost of this new format is adding up to $50,000 in costs for these small companies. The question is: Does the cost really meet the benefit?

So it allows an exemption for these small companies. And, again, it is an optional exemption. It is not a mandatory exemption. By its very nature, it is not a downloadable program, but it allows these small companies to be more flexible in the way they do it because of the cost.

Title IV requires the SEC to report to Congress on the XBRL requirements so that it can better analyze and understand how to utilize XBRL and structure data moving forward.

Finally, we have title V, the Streamlining Excessive and Costly Regulations Review Act, in the Securities and Exchange Commission. It actually is optional exemption. It doesn't end this process, but it does create a safe harbor for certain publicly held companies that the Department of Justice issued subpoenas to financial institutions to ask about entire industries and effectively coerced financial institutions to cease offering banking services to many of these industries.

The Department of Justice partnered with the FDIC, the Federal Deposit Insurance Corporation, to identify merchants that they said posed high risk for consumers, notwithstanding the question of whether these merchants were operating under the law or illegally.

In doing so, the FDIC equated legitimate and regulated industries, such as coin dealers, firearms and ammunition sales industries, with inherently illegal activities, such as Ponzi schemes, debt consolidation scams, and drug paraphernalia.

So that is the real problem here, that they didn't separate out legal businesses with illegal businesses. If they want to do something with regard to businesses that are already illegal and make sure that those folks can't get access to banking services, that is a legitimate thing.

But the way they identified high risk made a lot of legal businesses lose their access to financial services. They were terminated by their banks and they had, in many cases, no place to turn.

This is a blatant overreach by our federal regulators. And many of us, including me, believe this bill is an important step to make sure that businesses that are legally operating have confidence that they will have access to banking services. That is the key here.

This last section of this last bill makes sure that legally operating businesses have access to legal banking services and that the banks can't be intimidated by their regulators to make sure that legally operated businesses don't have access to banking services.

It would force the independent agencies and require the Federal Reserve, OCC, and FDIC to review regulations at least every 10 years and identify any outdated and unnecessary regulations that are imposed on depository institutions.

We need to do the same thing for the SEC. That is what this does. I think it will help streamline and make sure that paperwork is more reasonable over time, especially for duplicative, outdated, and overly burdensome regulations.

So that is H.R. 1675.

The other bill is H.R. 766, the Financial Institution Customer Protection Act.

You may have all heard about Operation Choke Point, where law enforcement, the Department of Justice, partnered with a lot of other agencies. Their plan was to “choke off” banking services from businesses that they found undesirable.

Rather than investigating and prosecuting companies that were alleged to have committed crimes, and any other misdeeds, the Department of Justice issued subpoenas to financial institutions to ask about entire industries and effectively coerced financial institutions to cease offering banking services to many of those industries.

The Department of Justice partnered with the FDIC, the Federal Deposit Insurance Corporation, to identify merchants that they said posed high risk for consumers, notwithstanding the question of whether these merchants were operating under the law or illegally.

In doing so, the FDIC equated legitimate and regulated industries, such as coin dealers, firearms and ammunition sales industries, with inherently illegal activities, such as Ponzi schemes, debt consolidation scams, and drug paraphernalia.

So that is the real problem here, that they didn't separate out legal businesses with illegal businesses. If they want to do something with regard to businesses that are already illegal and make sure that those folks can't get access to banking services, that is a legitimate thing.

But the way they identified high risk made a lot of legal businesses lose their access to financial services. They were terminated by their banks and they had, in many cases, no place to turn.

This is a blatant overreach by our federal regulators. And many of us, including me, believe this bill is an important step to make sure that businesses that are legally operating have confidence that they will have access to banking services. That is the key here.

This last section of this last bill makes sure that legally operating businesses have access to legal banking services and that the banks can't be intimidated by their regulators to make sure that legally operated businesses don't have access to banking services.
I look forward to debating these bills with our House colleagues. I urge support for both the rule and the underlying legislation.

I reserve the balance of my time.

Mr. Speaker, I rise in reluctant opposition to this rule today because it is close—to a rule that would have substantial bipartisan support.

The rule today provides for consideration of H.R. 1675, the Encouraging Employee Ownership Act of 2015, and H.R. 766, the Financial Institution Custodianship Act of 2015.

In terms of process, there is some credit to be given under this rule. The rule was very close, with one major fault, which I will discuss in detail, to fulfilling the promises laid out by the new Speaker of the House of Representatives.

As you might recall, Mr. Speaker, there was a promise to all Members that each Member of this body would have a chance to consider his or her ideas on the House floor through a more open amendment process.

And you know what? That is a good idea.

Of course, if it was an idea that didn’t have a majority of support, that is fine. But there would be a vote. We could debate it. We could vote on it.

If ideas came to the floor, were debated and considered worthy by a majority of this body, they would pass. Even if a particular committee chair of jurisdiction didn’t like the bill, even if leadership on either side didn’t like the amendment, the will of the body could be heard for commonsense improvements.

Now, this promise of regular order is so simple, so attractive, so desirable, by the American people who let us do our job, yet, unfortunately, it still remains elusive.

Now, the first bill here today, H.R. 1675, the Encouraging Employee Ownership Act, there were seven amendments submitted to the Rules Committee, four of which I was a cosponsor of.

I am proud to say all seven amendments were made in order to be considered on the House floor. If that was all that this rule contained, I would be proud to support that rule.

In addition to that, H.R. 1675 is actually a mitigation. Look, any one of us can say we don’t personally agree with every word, and there are amendments to address some of the deficiencies in the bill.

But in its totality, it is a package that should be considered for an affirmative vote by Members of both parties. I am confident that it will have strong bipartisan support in the underlying bill.

It promotes and makes needed updates in employee ownership, which is a great form of corporate governance that I think each Member of this body should support. We have companies in my district that use it.

The legislation also clears away red tape for small- and middle-market companies, which my good friend from Ohio (Mr. STIVERS) spoke about here on the floor as well as in the Rules Committee.

I do believe that one of the bill’s titles, in its current form, takes away and reduces market transparency in the wrong direction.

But I am proud to say, Mr. Speaker, we have amendments that will be considered today by Mr. Issa and Mr. Ellison, as amended by myself, that would address that matter—to encourage transparency in financial markets—because financial markets are predicated on as-close-to-perfect information as we can achieve and step towards perfect information, enhance the efficiency of markets; steps away from perfect information, decreased efficiency of markets.

Now, the second bill, H.R. 766, unfortunately is a piece of legislation that again addresses a real need, but I can’t support it.

Again, I would be proud to vote for the rule if it included a simple amendment which I will be talking about in a moment. But, unfortunately, the process through the Rules Committee shut that down.

I want to be clear. H.R. 766 takes a look at a critical, legitimate issue, the issue of the Justice Department and Operation Choke Point.

Now, unfortunately what do is it goes too far in limiting the tools that are available to DOJ to combat actual illegal activities, like Ponzi schemes, banking fraud, and situations where the banks themselves are complicit in committing the alleged fraud.

It also fails to deliver on what Mr. STIVERS indicated its goal was, to allow legally operating businesses to access the banking system.

It fails to deliver on that because, while there were the amendments that were made in order, a critical amendment offered by my colleagues, Mr. PERLMUTTER of Colorado and Mr. HECK of Washington State, was not allowed, an amendment that would have furthered the goal of this bill to allow legally operating businesses to access banking services.

It was a germane amendment. There were no points of order. In fact, a majority of the Members of this body have supported this amendment, in full or in part, in various floor votes in earlier times.

A majority of this body supports a real-world solution to a real-world problem, not just one we face in Colorado, but many States face. The fact that legal, legitimate marijuana-related businesses cannot interact with legitimate banking institutions is an enormous problem for economic growth and a security risk.

It is a problem for law enforcement that we hear from police and sheriff departments back home every day, and it is a problem for the safety of our communities.

It is simply not acceptable to meet the standard of an open and transparent process that the Speaker has promised to eliminate from even consideration and a vote, this very important amendment that addresses the accessibility of banking services to companies that are engaged in a legal State business.

For 23 States and the District of Columbia, this is an enormous problem right now.

To be clear, what we are talking about is not just people who run medical marijuana dispensaries, but also highly regulated growing operations. Even farmers producing industrial hemp are turned away from opening bank accounts, cannot accept credit cards, have to haul around large amounts of cash to pay their employees every day, placing themselves and their employees at enormous risk of physical assault and robbery, as well as detracting from the very law enforcement ability to trace transactions that our law enforcement officials are clamoring for.

Due to Congress’ inaction, hundreds of businesses in Colorado and 22 other States are forced to operate on a dangerous, untrackable, cash-only system that raises serious public safety concerns, increases tax fraud, and is an enormous burden on our economy.

Now, those are facts that are not in dispute. I know that there are many Members on both sides of the debate about how we should treat hemp and marijuana, whether they should be legal or illegal. That is not the issue.

The issue is that 22 States and the District of Columbia have chosen to legalize it under State law. It is illegal under Federal law. We are not debating that here now either. That is fine. That wouldn’t be germane for this bill, to say let’s legalize it federally. That is not even what we are talking about here.

What we are talking about is, in the States, that it is legitimate as it relates critical from even a law enforcement perspective—even if you want it to continue to be illegal federally—that the interactions are through our normal banking system in a traceable way.

These are facts that are not in dispute. My good friend from Ohio knows these issues. In the lead-up to Ohio’s possible consideration of legalization, I am confident that many Ohioans had conversations with law enforcement, walking through officials on the issue of making this a cash-based business.

That was a significant issue in the Ohio election and in other States.

The issues of taxation and record-keeping are critical. But do you know what, that points to the necessity of this legislation. Do you know what, Mr. PERLMUTTER’s amendment would likely have passed this body with Re- lief and Dispensaries, without it. It would have won a majority of bipartisan support this week. It is not the job of the Rules Committee to pick
winners and losers. If it is particularly objectionable for the Rules Committee to abuse its power to kill a measure that has demonstrated a bipartisan level of support, that is not an appropriate use of the discretion of our committee or our chair to have their personal views regarding these amendments year by year talking to Republicans and Democrats. And then what, just dies because we can’t get it to a floor vote? How is that an open and transparent process? It is not.

Mr. PELLMUTTER and Mr. HECQUE are fighters. They will keep working on this. We will win this debate eventually. This is simply a speed bump in making sure that we address this issue for which there are no legitimate arguments on the other side regardless of where one stands on the legal treatment or regulation of substances that are currently classified.

We should have won this week with this debate. This type of bipartisan work was reworked in this body, and the 23 States and the District of Columbia that face this issue deserve better. This amendment had no drafting error. There was no political gimmick to it. It wasn’t nongermane. It didn’t, in any way compromise the underlying bill. It was perfectly consistent. It wasn’t even controversial. I can’t understand why it didn’t deserve consideration by this body—not even a 10-minute debate, not even a 1-minute debate.

Will the gentleman from Ohio amend the rule to allow at least a 1-minute debate on this amendment? I will yield for a “yes” or “no.”

Reclaiming my time, I think the gentleman from Ohio hasn’t even allow a 1-minute debate. The gentleman from Ohio said he wanted legally operating State businesses to have access to banking services which is the very purpose of this bill. It is a great shame that we cannot fix this issue now. Because you know what, otherwise I give credit to the gentleman from Ohio and my colleagues on the Rules Committee for allowing 9 of 10 amendments to be considered on the House floor under these twofold.

This is the rule that I am coming closest to supporting of any rule that we have debated thus far in the 114th Congress here on the floor, but because of this one glaring deficiency which prevents, through an open and transparent process, a worldwide problem that Democrats and Republicans agree need to be solved from being addressed in any appropriate bill in an appropriate way, I cannot recommend to my colleagues that they support this rule.

Mr. Speaker, I reserve the balance of my time.

Mr. STIVERS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like quickly to respond to what the gentleman referred to, and he did change some of my words. I said that these are legally operating businesses. Mr. Speaker, by the gentleman from Colorado’s own admission, these are not federally legal businesses. They are illegal under Federal law. Marijuana is illegal under U.S. Code 21, section 812. The gentleman knows that.

Maybe we should debate whether marijuana should be legal under Federal law. If he wants to debate that, that is okay. But this is a recognition for banking services of businesses that are operating lawfully under both Federal and State law, not ambiguous businesses that are legal under State law but illegal under Federal law. At the most, these businesses are ambiguous, but clearly they are illegal under Federal law. I didn’t say businesses that are operating legally under State law in my country and legally operating businesses. That means under Federal and State law.

We live in a Federal republic with a State and a Federal Government. If something is legal under Federal law, under U.S. Code 21, section 812, then it is illegal. Those businesses are not legally operating businesses. That is the distinction. That is why the amendment from Mr. PELLMUTTER and Mr. HECQUE was not allowed, because these businesses—drug-related businesses—are illegal under Federal code. That is the reason we are not debating that amendment here.

I would say to the gentleman’s point earlier where he wanted a minute of debate, I think he has gotten more than a minute on both sides on this. So he has done pretty well.

I yield 4 minutes to the gentleman from Georgia (Mr. COLLINS), a fellow from the Rules Committee.

Mr. COLLINS of Georgia. Mr. Speaker, I appreciate my friend from Ohio for the time today.

Mr. Speaker, I rise today in support of House Resolution 595 providing for consideration of H.R. 766, the Financial Institution Customer Protection Act and H.R. 1675, the Encouraging Employee Ownership Act of 2015. I strongly support this rule and the underlying measures.

H.R. 766 is a vitally important response to the administration’s unacceptable executive overreach through Operation Choke Point. Operation Choke Point was a part of the administration’s circumventing Congress. It is a disturbing abuse of authority to achieve politically motivated results, and the fine folks in northeast Georgia have made it clear that this is unacceptable.

Under the program, the Justice Department and Federal financial regulators have coerced banks and other financial institutions into cutting off relations with legal businesses simply because the administration does not like them.

The administration has painted a target on certain industries ranging from payment processors and short-term lenders to gun and ammunition stores to other small businesses. Again, it is the administration who has decided under the guise of customer protection to target entire industries simply because they deem them offensive. The administration is supposed to operate, and it is time we prevent it from happening. I have had the opportunity to meet with some of the hardworking individuals in the industries affected, and it is clear action is needed.

A few weeks ago I met with several members of the electronic payments industry. This is an industry that promotes innovation, is rapidly growing, and plays a large and important role in Georgia’s economy. To give you an idea of the enormity of this industry, the electronic consumer spending is projected to exceed $7.3 trillion in 2017. Yet the administration has been increasingly exerting pressure on this industry. They have been targeted to make the payments industry responsible in part for the misdeeds of bad actors in other segments of the industry.

Possibly even more disturbing, by forcing payments processors and banks to label the owner, term lenders to gun and ammunition sales, and police the industry for bad actors, known or unknown, the administration is promoting discrimination of legal businesses if they belong to a certain industry that isn’t supported by the White House’s political agenda. What has happened to fairness under the law? It is amazing to me. The administration is choking legitimate businesses off from needed capital and other resources by painting them with a scarlet letter, and they are burdening the payments industry by trying to use it as a means to carry out their own dirty work.

Another industry long targeted by Operation Choke Point is the gun industry. As Americans, we have a constitutional right to bear arms under the Second Amendment. Just this week I had the privilege of visiting Honor Defense, a gun manufacturer located in my hometown of Gainesville, Georgia. I talked with the owner, toured their facilities, and assembled actually one of their fine firearms.

These are hardworking American businesses operating legal businesses. The administration doesn’t like this industry, though, so the administration painted a target on their back. This is not right. We should be encouraging business owners to grow their businesses and celebrating their success, not trying to force them out of business.

Stories of industries and legitimate small businesses that have been targeted are widespread. It is time for this to stop. The government has a legitimate role in protecting consumers and preventing fraud. But that necessary role should not be abused to achieve political goals. Financial regulators should not be able to target legal businesses by choking off their lines of
credit and forcing them out of business.

Mr. Speaker, Operation Choke Point is misguided and politically motivated, and it is time we rein it in to protect small businesses and legitimate enterprises. It is time we stand up for American workers and small businesses. Mr. Speaker, I urge my colleagues to support the rule and the underlying legislation.

Mr. POLIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, if we defeat the previous question, I will offer an amendment to the rule to bring up a bill to help prevent mass shootings by promoting research into the causes of gun violence and making it easier to identify and treat those prone to committing violent acts.

Mr. Speaker, I ask unanimous consent to insert the text of the amendment in the RECORD, along with extraneous material, immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California (Mr. HONDA)?

There was no objection.

Mr. POLIS. To further discuss our proposal, I yield 4 minutes to the distinguished gentleman from California (Mr. HONDA).

Mr. HONDA. Mr. Speaker, I thank my colleague. Mr. Speaker, I rise in opposition to the previous question. If we defeat the previous question, Mr. POLIS will be able to offer an amendment to the rule to bring my Gun Violence Research Act to the floor for an immediate vote.

My Gun Violence Research Act would lift the over 19-year-old ban on the Centers for Disease Control and Prevention with respect to objectively studying the health aspects of gun violence.

Former Republican Congressman from Arkansas, the Honorable Jay Dickey, who was the author of the CDC ban, has gone on record regretting his decision—expressing that the prohibition was rooted in partisan politics, not sound public policy.

With well over 32,000 Americans killed by gunshots per year and roughly 86 Americans killed every day—every day—gun violence is undoubtedly a public health crisis that necessitates attention.

I represent Silicon Valley, and I have seen firsthand the role and value objective research plays in expanded knowledge and informed decisionmaking.

Research on gun violence should not be controversial or partisan. It is a commonsense tool to help us understand why tens of thousands of our fellow citizens are being killed every year by gunshots.

Without being able to adequately understand why the problem is occurring, we are unable to effectively tackle our Nation’s gun violence epidemic and protect the American people whom we represent.

This is why I urge my Republican colleagues to allow a vote on this critical legislation and lift the ban on desperately needed gun violence research. When we understand the problem, we can make informed public policy decisions to keep Americans safe without eroding the Second Amendment and demonizing the millions of law-abiding gun owners.

Mr. Speaker, I urge a “no” vote on the previous question.

Mr. STIVERS. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from California (Mr. ROHRABACHER). He is a member of the Foreign Affairs and Science, Space, and Technology Committees.

Mr. ROHRABACHER. Mr. Speaker, I rise today in support of the underlying rule and in support of H.R. 1675, a bill that aims to lessen many of the regulatory burdens that employers currently experience. Of particular interest to me and of interest to working men and women throughout America is title I of the bill entitled Encouraging Employee Ownership Act of 2015. This title would make it easier for private employers to grant their employees with greater stake in their own companies without having to disclose certain sensitive information.

The consideration of the bill is but the latest in a long history of actions taken by the Federal Government to promote an ownership society. President Jefferson recognized ownership of private property as the keystone of a free society. President Lincoln pushed for, and Congress delivered, the Homestead Act of 1862 which has proven to be one of the most important manifestations of Jefferson’s vision of a broad-based ownership property society.

More recently, President Reagan supported employee stock ownership, labeled it “the next logical step, a path that benefits both people.”

In the near future, I will reintroduce legislation that incentivizes employee ownership even further than we currently have it by treating as tax-free any broad-based distribution of employer stock that is held by the employees for a certain period of time. Yes, it would be ESOPs on steroids. We would dramatically increase the amount of employee ownership in our country and all the benefits that go with that.

I would ask my colleagues to consider my bill. It will be proposed probably next week. My proposal is simple and easy to understand. No team of lawyers and lobbyists would be needed to be hired in order for an employer to participate in this expansion of employee ownership of his or her company. As such, it has great potential to give a shot in the arm to many small and medium-sized businesses that do not have significant sums of cash to offer employees or to attract the very people who actually have the skills necessary for their new company to succeed, but instead have an idea that if an employee were to work hard and make a company grow, prosper, and succeed that that company’s benefits would be shared with the employee.

Mr. Speaker, I urge my colleagues to consider joining me in support of the working people of this country by giving them the opportunity to achieve the American Dream and make employees partners instead of adversaries to management.

One of the things in this bill that we are talking about today is taking a step forward in employee ownership. I certainly support that. The legislation I will propose takes another step.

I would like to congratulate my friends who have been involved with this bill today.

Mr. Speaker, I ask my colleagues to support the rule and the underlying bill.

Mr. POLIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentleman from California. I look forward to discussing with him his bill next week and seeing whether it is something that I can support.

I strongly believe in encouraging employee ownership through ESOPs options. This bill does part. We can do a lot more. It is a big thing that we can do to address the increasing income disparities that this country has in making sure that workers participate in capital formation and capital growth along with owners and executives. We look forward to working with the gentleman on that bill and contacting the gentleman as well.

The gentleman from Ohio said that somehow legal operating businesses must have access to banking resources, the goal of this bill. He said, oh, wait a minute, I mean Federal ones not State ones, not Federal not State. This is where you have a difference. Of course, you won’t have any disagreement that there is an ambiguity here with regard to types of businesses that are legal at the State level and are not legal federally. But this is where you will find that most Democrats believe very strongly in States’ rights.

Most Republicans believe here, with the exception of the other gentleman from California who just spoke and a number of others who would allow a majority to support this bill, but apparently the gentleman from Ohio believes in an overarching Federal definition telling States what they can and can’t do indirectly through the banking system, effectively constraining their ability to allow banks to serve businesses that might sell types of firearms that are illegal federally, or types of marijuana or hemp or other products that might be illegal. Effectively, they are arguing that the Federal Government should tell them what to do and impose a one-size-fits-all solution on States that are as diverse as Texas and California and Colorado and North Dakota.

I disagree with that premise, as do most of the Democrats here today. We feel that while this body, of course—and I agree with the gentleman—

CONGRESSIONAL RECORD — HOUSE

February 3, 2016

H514

1315
should continue with the discussion about the regulatory structure of legal treatment of cannabis products federally, that should in no way, shape, or form stand in the way of a simple fix that says, whether you want it to be legal or illegal, transactions should be traceable, safe, through the banking system for businesses that are legal at the State level.

Let me address H.R. 1675, the Encouraging Employee Ownership Act, also being named the Capital Markets Improvement Act, as a good piece of bipartisan legislation that I think can be made even better through the amendment process.

Title I of this bill, which will revise the SEC’s rule 701 by raising and indexing for inflation the threshold under which companies can issue stock to employees without running into government red tape, is a commonsense, good piece of legislation. I hope it is something that most of my colleagues on both sides of the aisle agree with. I am an early cosponsor of this legislation, and I think we should promote and applaud the structure, the indexation, and, of course, allowing employees to have a stake in their companies.

Title II is a safe harbor for investing companies. I am not sure who the gentleman from California (Mr. ROHRABACHER) might have some other ideas I look forward to discussing, as do I. But if you want to help solve some of our Nation’s issues with income inequality, wealth gap, and so forth, I think that we should applaud and promote companies that incorporate employee stock or option ownership.

Whether you issue stock in the manner under this bill or whether you operate in ESOP or any of the other forms that allow workers to benefit from the growth of your company, we should find ways to work together to promote and encourage this style of corporate governance.

Title IV is a safe harbor for investment research, a bill that will help improve available market information for investors and something that has broad bipartisan support. I know my colleague from Delaware (Mr. CARNEY) will also be pleased to see this pass, as an original sponsor.

My colleague from Ohio, who is a co-chair with me of the Congressional Caucus for Middle Market Growth, spoke yesterday and today about how this overall package of legislation will help improve the health of companies in the all-important middle market. This is Main Street America. These are companies that might not be big enough to be multinational, multibillion-dollar brand names, and they are not startups or small companies. In the oftentimes of our economy, the portion of the market that is a vital piece of our economic engine creating jobs on Main Street.

Title III of this bill will work to reduce red tape for these very middle market companies.

These provisions have broad bipartisan support, and I applaud them. The SEC has largely agreed with this. In fact, the only argument against it has been we already do this, and I think that is a weak argument because we ought to put it in statute. The SEC has agreed and has taken action, but, unfortunately, some of their actions have been added in a way that increased investor impediments as well.

I hope the administration can work with Congress to improve this bill if there are specific issues they have with it. But the bill is necessary. It is better to fix it and improve things to work together to reduce red tape to grow small- and middle-sized companies.

Title V of the bill is another bipartisan piece of legislation that is in line with the sort of regulatory review that we already ask in many agencies. It is the sort of good government legislation I think both sides of the aisle can find agreement on and hopefully support now.

Title IV of H.R. 1675, unfortunately, is a bit of a step in the wrong direction, and it is something we discussed extensively in the committee yesterday. Fortunately, for this provision, there was an open process. Mr. Issa and Mr. Polis will be considered that improve the portion of the bill or remove it entirely. Unfortunately, the bill, as written, is a move away from searchable financial reporting that can be done digitally. It is a step away from sortable and downloadable formats. It is a return to the pen and paper and inefficient world of the 20th century rather than a step forward to the open data transparency world of the 21st century.

Across the board, market participants, investors, and regulators want information that is already required—we are not talking about any new requirements—information that is already required, financial information, so they may be available in a digital, searchable format. That is all we seek to preserve and not eliminate.

It is an odd and outdated use of government resources to deal with this information by hand, by pen, by paper. It puts investors and others at an enormous disadvantage, and it prevents and reduces the amount of information in the marketplace. Searchable and sortable data can be better used to track trends, find anomalies, find investment opportunities, and help regulators notice trouble spots in markets and hopefully catch the next Enron before it explodes.

Just as importantly, investors need information. So do entrepreneurial folks, who want to take this information and package it in new and interesting and exciting ways and sell it on to institutional and individual investors. We heard yesterday from detractors who said investors aren’t asking for this information.

We also heard that the committee didn’t include any investors in their testimony; they only included operating companies. I am not sure who they are speaking for; but in my conversations, I have never heard any investor say, “I want less information,” or, “I want information to be harder to search or find.” No investor says, “I want to know less about a company’s earnings. I want it to be in an archaic paper format.” That argument that this information isn’t welcome by investors is simply incorrect, and it is counter to anything you will ever hear from anyone in the investment community.

Hopefully, we will fix these issues through amendment. Overall, I believe this package should merit serious consideration and support from my colleagues on both sides of the aisle.

H.R. 766, the Financial Institution Customer Protection Act, does address a very important issue, and that is the inexcusable actions of Operation Choke Point, which, at best, could be described as an overzealous use of the Department of Justice’s power, or, at worst, an abuse of authority in this area.

Unfortunately, as we examine this bill, it looks like it has some unintended consequences which are not addressed through this process. The amendment process also fails to include a simple amendment that would further the goals of this bill with regard to the regulated marijuana industry in 22 States.

I hope that we can address the Operation Choke Point issue. I hope we can prevent this administration and future administrations from engaging, having DOJ engage in this kind of troublesome use of authority to coerce closures of accounts for otherwise legitimate and legal customers of local financial institutions.

If a bank or credit union has a legal business, it is legal in the State, they deem it creditworthy, they are a good customer, do not want to open an account with them, they should be able to serve that customer. The Federal Government should not use the bank itself as an intermediary in a dispute. If the DOJ has a dispute with a bank’s customer, that should be resolved between the DOJ and the customer, not the bank.

I hope that there is groundwork for bipartisan legislation in this area that can ensure that this President and future Presidents and the future Department of Justice do not abuse their authority in this area.

One real-life, everyday issue where this concept comes up is the Department of Justice and the Federal Government interfering with the bank dealing with its legal customer would have been addressed by the Perlmutter amendment that I spoke about earlier. It is not just a Colorado issue. Frankly, if this bill addressed that issue, despite it being overarching in other areas, I would probably support it.

Thus is the importance of this issue from local law enforcement in our State. But, unfortunately, not even a
minute, not even a second of debate is allowed on the issue. The gentleman from Ohio claimed that we were having that debate.

To be clear, we are not. We are debating the underlying rule. There is no time for the members of the amendment to make the case or explain the components of the amendment to make their case. We are outlaying the time for other amendments. Many amendments have 10 minutes; many amendments have more. There is not even a second for that debate of that amendment sponsored by Mr. PERLMUTTER. That is why I cannot support this rule.

213 million Americans live in a State or jurisdiction where the voters have allowed for some legal marijuana use. Colorado tried to solve the problem locally, but we were rejected by Federal banking regulators in courts, so Congress needs to be the one to make this change. Only Congress can address this issue.

While there remains a need to align Federal and State laws, while the DOJ and Treasury have issued some guidance, some institutions are providing banking services to the DOJ and Treasury guidance issues, the guidance does not seem to address the need to change the law and provide certainty, which this very simple amendment that has bipartisan support and likely would have passed on the floor would have done. But it is completely shut down because the Speaker, who has shutdown the House, is completely shutting down a closed process that runs contrary to the Speaker's stated goal of allowing Members on both sides of the aisle to contribute to making things better.

I reserve the balance of my time.

Mr. STIVERS. Mr. Speaker, I yield myself such time as I may consume.

I would like to address two quick points made by the gentleman.

With regard to H.R. 1675 and exportable data, the gentleman tries to claim that this data will not be available. It will be available in scanned-in information, so you can still look at it and see it. It is not pen and paper data the way he alleges. It is still very accessible on the electronic systems. It is just not exportable data.

The question is: Is that exportable data worth a $2,000 cost for these small companies? It is only a few small companies that will benefit from being relieved from this burden because the cost is more than the benefit.

Secondly, the gentleman continues to ignore the fact that marijuana businesses are not legal under Federal law. If he wants to have the debate about whether they should be legal under Federal law, we should have that debate. That is not germane in this bill.

What we are talking about are legal businesses that are legal under Federal and State law, not ambiguous businesses that are only legal one place or the other. In our Federal system, there is both a Federal and a State component. If he wants to debate making marijuana legal at the Federal level, that is legitimate; it is just not germane in this bill. This is for businesses that are legal at the State and Federal level.

I yield 2 minutes to the gentleman from Georgia (Mr. CARTER), who is a distinguished member of the Committee on Oversight and Government Reform that had a lot of hearings on Operation Choke Point.

Mr. CARTER of Georgia. Mr. Speaker, I thank the gentleman from Ohio for yielding and for his leadership on this important issue.

Mr. Speaker, I rise today in support of H.R. 766, the Financial Institution Customer Protection Act of 2015.

Over the past several years, the Obama administration's Department of Justice has strong-armed the financial industry in an attempt to cut off payroll processors, short-term lenders, gun and ammunition stores, and other companies from banking services simply because they do not like their line of business. Operation Choke Point is just another example of this administration trying to force leftist agenda through executive power overreach with a disregard for Americans' due process rights. In effect, these businesses are being treated as if they are guilty until proven innocent. The bill that I support prevents Federal bureaucrats from abusing their executive power to prevent legitimate businesses from using depository banks. It also requires written justification of any request to terminate or restrict a business' account, unless the business poses a legitimate threat to national security.

In the First Congressional District of Georgia that I represent, we have a large, multi-State licensed consumer finance company that services more than 1,000 new customers every day. This is just another example of this administration working to limit economic growth and Americans' free will.

I urge my colleagues to support this bill so we can put an end to this administration's unconstitutional actions and restore the rule of law.

Mr. POLIS. Mr. Speaker, I yield myself the balance of my time.

In closing, I appreciate the committee of Mr. PERLMUTTER's work and the Rules Committee's work to make 9 out of 10 amendments submitted in order today—that is 9 out of 10. But I have to reiterate again that the one that is most important to not only my home State but the jurisdictions in which 213 million Americans live—22 States plus the District of Columbia—is omitted from consideration in its appropriate, germane bill.

I strongly object to the unnecessary gatekeeping of the Rules Committee. I appreciate the way that they have treated this excellent idea and real-world solution from Mr. PERLMUTTER and Mr. HECK.

Access to banking services is an issue of fundamental importance for all businesses, as the proponents of this bill have argued. Do you know what? That includes State legal marijuana businesses. Just because some Members of Congress and they are in the minority, by the way, in the minority every day—object to the very existence of these businesses does not mean that they should obstruct the entire legislative process and shut down our ability to make it possible for these businesses to exist, grow, and succeed.

The Perlmutter-Heck amendment is a germane, thoughtful solution to a real-world problem, and I hope this House will atone for its error today by swiftly taking up legislation—and there is a stand-alone bill—to solve this banking issue once and for all.

This was a discussion that we had in our committee yesterday, but, unfortunately, it is a discussion that we are not allowed to have on the people's floor of the House of Representatives. There is not an amendment that would have somehow legalized or have made an amendment about the morality of marijuana. It simply would have addressed a banking issue that both proponents and opponents of marijuana law reform agree needs to be addressed. Now, I am happy to have that conversation and other Members should treat marijuana federally at a separate point. That is fine. I have legislation to regulate marijuana like alcohol, and others have other ideas.

Those who are following at home need to know that the Perlmutter-Heck amendment is not that discussion. It was germane to the bill we were discussing, and it, frankly, gets at the issue of why our banks are being used as a chokepoint for doing business with otherwise legal and legitimate consumers as determined by the State. Mr. Speaker, for these reasons, while I support one of the two underlying bills—and I would like to be here to support the other if it would simply deal with the urgent issue of 213 million Americans who live in jurisdictions that face it—I urge my colleagues to vote "no" and defeat the previous question and to vote "no" on the rule.

I yield back the balance of my time.

Mr. STIVERS. Mr. Speaker, I yield myself the balance of my time.

I appreciate the gentleman from Colorado's points.

These two bills are great bills. The first bill helps to preserve and to incentivize employee stock ownership. It decreases burdensome regulations so as to allow these middle market companies, which I talked about earlier, to have access to capital and to continue to grow, and it ensures that entrepreneurs can have access to the capital markets in an affordable and efficient way.

H.R. 766 addresses legal businesses. Again, I want to stress "legal" businesses. The gentleman from Colorado,
Mr. Speaker, I think, would welcome the day of the Articles of Confederation. He wants to ignore that we have the State and the Federal governments. He wants the States to just make decisions and not allow the Federal Government to do anything. If marijuana is illegal at the State level, that is a fact. If he wants to have the debate about making marijuana legal at the Federal level, we should do that. That is not germane to this bill.

These businesses are, at best, am- biguously legal, they are clearly illeg- al at the Federal level. So let’s clear up the ambiguity. Then they can have the same access that other legal businesses have, like gun dealers and automo- tive dealers and short-term lenders, which are already legal at both the State and Federal levels. They need ac- cess to banking services. H.R. 766 makes sure they will continue to have access to banking services.

There are some amendments that I will support and that others will be supporting. Make one’s mind up on the amendments, but I think both of these bills are important. I urge my colleagues to support the rule and the underlying bills.

The material previously referred to by Mr. POLIS is as follows:

AN AMENDMENT TO H. RES. 595 OFFERED BY

Mr. POLIS

At the end of the resolution, add the follow- ing new section:

SNC. 3. Immediately upon adoption of this resolution the Speaker shall, pursuant to clause 2(b) of rule XVIII, declare the House of Representatives (VI, 308–311), de- cline the vote on the previous question on the resolution to order the House to sustain the de- mand for the previous question passes the control of the resolution to the opposition in order to offer an amendment. On March 15, 1969, a member of the majority party of- fered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary in- quiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: “The previous question having been refused, the gentleman from New York, Mr. Fitz- gerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition.”

The Republican majority may say “the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has substantive legislative or policy im- plications.” However, what is not what they have always said. Listen to the Repub- lican Leadership Manual on the Legislative Process in the United States House of Rep- resentatives, (6th edition, page 135). Here’s how the Republicans describe the previous question vote in their own manual: “Although it is generally not possible to amend the rule because the majority Member con- trolling the time will not yield for the pur- pose of offering an amendment, the same re- sult may be achieved by voting down the previous question.” Now, when the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the pre- vious question. That Member, because he then controls the time, may offer an amend- ment to the rule, or yield for the purpose of amendment.”

In Deschler’s Procedure in the U.S. House of Representatives, the subchapter titled “Amending Special Rules” states: “a refusal to order the previous question on such a rule or resolution (as reported by the Committee on Rules) opens the resolution to amend- ment and further debate.” (Chapter 21, sec- tion 21.2) Section 21.3 continues: “Upon re-jection of the previous question, if the mo- tion on a resolution reported from the Com- mittee on Rules, control shifts to the Mem- ber leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for de- bate thereon.”

Clearly, the vote on the previous question on a rule does have substantive policy impli- cations. The Speaker’s report is one of the available tools for those who oppose the Republican major- ity’s agenda and allows those with alter- native views the opportunity to offer an alter-native plan.

Mr. STIVERS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. Mr. THOMPSON of Pennsylvania. The question is on ordering the previous ques- tion.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.
A recorded vote was ordered. **The SPEAKER pro tempore.** This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 242, noes 175, not voting 16, as follows:

**[Roll No. 56]**

<table>
<thead>
<tr>
<th>AYES</th>
<th>NOES</th>
</tr>
</thead>
<tbody>
<tr>
<td>242</td>
<td>175</td>
</tr>
</tbody>
</table>

The result of the vote was announced.

Mr. LOUDERMILK. Mr. Speaker, on rollcall No. 55, I was not present due to a meeting with constituents. Had I been present, I would have voted "yea."

**The SPEAKER pro tempore (Mr. SIMPSON).** The question is on the resolution.

The question was taken: and the Speaker pro tempore announced that the ayes appeared to have it.

**RECORDED VOTE**

Mr. POLIS. Mr. Speaker, I demand a recorded vote.

<table>
<thead>
<tr>
<th>FOR F</th>
<th>AGAINST</th>
<th>NOT VOTING</th>
</tr>
</thead>
<tbody>
<tr>
<td>242</td>
<td>175</td>
<td>16</td>
</tr>
</tbody>
</table>

Ms. SPEIER changed her vote from "aye" to "no."

So the previous vote was ordered. The result of the vote was announced as above recorded.

**Stated for:** Mr. JODY B. HICE of Georgia. Mr. Speaker, on rollcall No. 55, I was unavoidably detained. Had I been present, I would have voted "yes."

**Mr. LOUDERMILK.** Mr. Speaker, on rollcall No. 55, I was unavoidably detained. Had I been present, I would have voted "yea."

**The SPEAKER pro tempore (Mr. SIMPSON).** The question is on the resolution.

The question was taken: and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. ADAMS. Mr. Speaker, I demand a recorded vote.

**NOT VOTING—16**

Ms. SPEIER was not present due to a meeting with constituents.

So the resolution was agreed to. The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

**Stated for:** Mr. HILL. Mr. Speaker, on rollcall No. 56, I was unavoidably detained with constituents. Had I been present, I would have voted "yes."

**Mr. PAULSEN.** Mr. Speaker, on rollcall No. 56, I was not present due to a meeting with constituents. Had I been present, I would have voted "aye."

**PERSONAL EXPLANATION**

Mr. CASTRO of Texas. Mr. Speaker, my vote was not recorded on rollcall No. 55 on the Motion on Ordering the Previous Question on the Rule providing for consideration of H.R. 1675 and H.R. 766. I am not recorded because I was absent due to the birth of my son in San Antonio, Texas. Had I been present, I would have voted "nay."

**ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE**

The SPEAKER pro tempore (Mr. SMITH of Nebraska). The majority is sustained. There are two minutes remaining.

Mr. ADAMS. Mr. Speaker, I demand a recorded vote.
Mr. Speaker, my vote was not recorded on rolloca No. 56 on H. Res. 595, the Rule providing for consideration of both H.R. 1675, Encouraging Employee Ownership Act of 2015 and H.R. 766, Financial Institution Customer Protection Act of 2015. I am not recorded because I was absent due to the birth of my son in South Carolina. Had I been present, I would have voted "nay."

ENCOURAGING EMPLOYEE OWNERSHIP ACT OF 2015

Mr. HENSARLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and submit extraneous materials on the bill, H.R. 1675, to direct the Securities and Exchange Commission to revise its rules so as to increase the threshold amount for requiring issuers to provide certain disclosures relating to compensatory benefit plans.

The SPEAKER pro tempore. Pursuant to the rule, the Chair appoints the gentleman from Texas (Mr. HENSAARLING) and the gentlewoman from California (Ms. MAXINE WATERS) each to consider the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 1675.

The Chair appoints the gentleman from Pennsylvania (Mr. THOMPSON) to preside over the Committee of the Whole.

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 1675) to direct the Securities and Exchange Commission to revise its rules so as to increase the threshold amount for requiring issuers to provide certain disclosures relating to compensatory benefit plans, with Mr. THOMPSON of Pennsylvania in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Texas (Mr. HENSAARLING) and the gentlewoman from California (Ms. MAXINE WATERS) each will control 30 minutes.

The Chair recognizes the gentleman from Texas.

Mr. HENSARLING. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in strong support of H.R. 1675, the Encouraging Employee Ownership Act.

I do this because, as you know, Mr. Chairman, regrettably, we saw that in the last quarter this economy grew at a pathetic seven-tenths of 1 percent. On an annualized basis, this economy is limping along at roughly half the normal growth rate.

That means that this economy is not working for working families, who under 8 years of Obamanomics have found themselves with smaller paychecks and smaller bank accounts and greater anxiety about how are they going to make their mortgage payments, how are they going to make their car payments, are they going to be able to save enough to send somebody to college?

This economy is still underperforming for American families. So it is critical that we help our small businesses, which are truly the job engine in our economy, Mr. Chairman, as you well know.

I want to commend the sponsors of the five bills that make up H.R. 1675, Representatives HULTGREN, HILL, HUIZENGA, and HURT. Their work has resulted in a bipartisan bill that we think will help create a healthier economy.

Again, we know that 60 percent of the Nation’s new jobs over the past couple decades have come from our small businesses. If we are going to have a healthy economy, we have to do everything we can to increase the small businesses, to give them the opportunity to succeed.

As a reverse mortgage planner, I have worked with folks who are going to be trying to make their mortgage payments, to make their car payments, to make their mortgage payments. What we are doing with this bill is going to help and allow those small businesses to have the capital to be able to provide the services that they need.

This is a very important bill, Mr. Chairman. It codifies no action relief issued by the SEC’s balanced approach makes everyone whole.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Texas (Mr. HENSAARLING) and the gentlewoman from California (Ms. MAXINE WATERS) each will control 30 minutes.

The Chair recognizes the gentleman from Texas.

Mr. HENSARLING. Mr. Chairman, I urge my colleagues to join me in supporting H.R. 1675. Mr. Chairman, I reserve the balance of my time.

Ms. MAXINE WATERS of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise today in strong opposition to H.R. 1675. It is really a package of five bills which will harm investors and, perversely, the very small businesses Republicans say they want to help. It does so by ignoring and supplanting the good judgment of the Securities and Exchange Commission, which has already sought to provide small businesses with regulatory relief in these same areas while also ensuring that investors in those businesses have the protections that they deserve.

The SEC’s balanced approach makes sense as investors who are not confident in the integrity of our markets
will simply not invest, which means that job-creating companies will not have the capital they need to grow. In particular, this bill would reduce corporate transparency for employee stockholders by allowing private companies to compensate their employees with up to $10 million in stock annually without having to provide them with relatively simple disclosures about the financials of the company or the risk associated with these securities.

Mr. Chairman and Members, I am not going to attempt to hide the facts of this bill with a lot of rhetoric. The fact of the matter is, if employees are being given stock up to $10 million that they don’t know the value of, and the companies don’t have to disclose anything about the stock, they could end up with worthless stock, not worth anything, where they had great expectations that somehow in lieu of raises and more money that they probably deserve, they are being given rotten stock.

This provision would double the current disclosure threshold, allowing larger companies with at least $34 million in total assets to encourage over-investing employees in a company that they cannot value and that may never permit them to sell except back to the company at a price set by the company. That is another aspect of this.

This type of deregulation invites more Enron-type fraud into the market. Remember Enron? I hope we have not forgotten it already and what happened to those employees. Sometimes you had two members of the family, the husband and the wife, who both had this bad stock that they couldn’t sell back, they couldn’t do anything with, where employees have to trust the accounting of their companies but instead are left with valueless stock.

Similarly, this bill would exempt over 60 percent of public companies from using a computer-readable format known as XBRL in their SEC filings. Exempting such a large number of filers would prevent these companies from being easily compared to other companies that use XBRL, to the disadvantage of analysts, researchers and the SEC, investors, and even the companies themselves.

Basically, what you are doing is saying, we are going to have a bill here that would prevent the kind of information that analysts and researchers, the SEC, and investors should have, comparing them with other companies because somehow we want to protect those who don’t want people to really know what their worth is. This is very serious stuff. According to the SEC’s Investor Advocate, this exemption seriously impedes the ability of the SEC to bring disclosure into the 21st century. That is their quote.

Title II, which exempted companies from having to file any financial statements with the SEC, would try and protect the worst actors here at this time, having experienced all of this, with a bill like this that would try and protect the worst actors in the financial services industry. I urge my colleagues to oppose H.R. 1675.

Mr. Chairman, I reserve the balance of my time.

Mr. HENSARLING. Mr. Chairman, I yield 4 minutes to the gentleman from Illinois (Mr. HULTGREN), a workhorse on our committee and the chief sponsor of H.R. 1675, to bring more jobs to the American people.

Mr. HULTGREN. I thank Chairman HENSARLING for his great work on the Financial Services Committee, and I specifically want to thank him for his help on this bill coming to the floor today.

Mr. Chair, today I am very proud to speak in support of the Capital Markets Improvement Act. The bill includes a number of important titles that my colleagues on the House Financial Services Committee, Republicans and Democrats, are confident will improve our capital markets, whether it is reducing regulatory requirements for emerging growth companies subject to inventive requirements to the SEC or making it easier for investors to have access to investment reports on exchange-traded funds.

This bill also includes a title I worked on diligently with Mr. DELANEY to make it easier for companies in Illinois and nationwide to let hardworking employees own a stake in the business they are part of. The Illinois Biotechnology Industry Organization, which represents companies that employ thousands of residents in my district and throughout Illinois, believes that making it easier for companies to offer employee ownership helps Illinois businesses expand and hire more workers.

Warren Ribley, the president and CEO of IBIO, has stated:

As someone who has worked in economic development for most of my career, I know that offering an ownership stake to employees is a critical tool in recruiting top talent to job-generating companies. And there is no doubt that an equity ownership plan helps employees to drive hard for success of the enterprise.

So, when we hear today, for example, as the chairman said, that he would be willing to support some funding for the SEC at the expense of the companies that they put their money where their mouths are and make sure that the SEC has the money to do its job.

In conclusion, this bill goes in the wrong direction. It is unfortunate that, at a time when we have gone through a recession based on 2008 and the unwillingness or the inability for our regulatory agencies to watch over our investors and to watch over our average small-business people and homeowners, etcetera, and while we are trying desperately to clean up this mess with Dodd-Frank reforms, we would come in here at this time, having experienced all of this, with a bill like this that would try and protect the worst actors in the financial services industry.

I urge my colleagues to oppose H.R. 1675.

Mr. Chairman, I reserve the balance of my time.

Mr. HENSARLING. Mr. Chairman, I yield 4 minutes to the gentleman from Illinois (Mr. HULTGREN), a workhorse on our committee and the chief sponsor of H.R. 1675, to bring more jobs to the American people.

Mr. HULTGREN. I thank Chairman HENSARLING for his great work on the Financial Services Committee, and I specifically want to thank him for his help on this bill coming to the floor today.

Mr. Chair, today I am very proud to speak in support of the Capital Markets Improvement Act. The bill includes a number of important titles that my colleagues on the House Financial Services Committee, Republicans and Democrats, are confident will improve our capital markets, whether it is reducing regulatory requirements for emerging growth companies subject to inventive requirements to the SEC or making it easier for investors to have access to investment reports on exchange-traded funds.

This bill also includes a title I worked on diligently with Mr. DELANEY to make it easier for companies in Illinois and nationwide to let hardworking employees own a stake in the business they are part of. The Illinois Biotechnology Industry Organization, which represents companies that employ thousands of residents in my district and throughout Illinois, believes that making it easier for companies to offer employee ownership helps Illinois businesses expand and hire more workers.

Warren Ribley, the president and CEO of IBIO, has stated:

As someone who has worked in economic development for most of my career, I know that offering an ownership stake to employees is a critical tool in recruiting top talent to job-generating companies. And there is no doubt that an equity ownership plan helps employees to drive hard for success of the enterprise.
EEOA promises to aid in job creation in Illinois' growing technology sector, especially for the many early-stage companies with which we assist along their commercialization path. Unfortunately, some companies are shying away from offering employee ownership because of regulations that limit how much ownership they can safely offer.

SEC rule 701 mandates various disclosures for privately held companies that sell more than $5 million worth of securities for employee compensation over a 12-month period. In 1999, the SEC arbitrarily set this threshold at $5 million. Mr. HUNT's bill, making investment reports on ETFs more accessible, had a vote of 48–9. Mr. HUZENGA's bill, creating a simplified SEC registration system for M&A brokers, had a vote of 36–24. Mr. HURST's bill, allowing exemption for emerging growth companies for SEC reporting requirement, had a vote of 44–11. Also, Mr. HURST's bill, requiring the SEC to retroactively review regulations, had a 46–16 vote.

For businesses who want to offer more stock to more employees, this rule forces those businesses to make confidential disclosures that could greatly damage future innovations if they fell into the wrong hands. This required information includes business-sensitive information, including the finances and corresponding materials like future plans and capital expenditures.

The SEC originally acknowledged this, and some voiced their concern that a disgruntled employee could use this confidential information to harm their former employer. Leaving aside the risk involved in disclosing this confidential information, it is costly to prepare these disclosures just so a business can offer the benefits of ownership to their employees.

My bill is simple. It is a simple, bipartisan fix that changes that. EEOA amends SEC rule 701 to raise the disclosure threshold from $5 million to $10 million and adjust the threshold for inflation every 5 years.

To be clear, issuers that are exempt from disclosure would still have to comply with all pertinent antifraud and civil liability requirements. The employees purchasing these securities go to work every day and are already in a good position of how the company is operating.

As the Chamber of Commerce has explained, this legislation would “help give employees of American businesses a greater participation in the success of their company.” Increasing this threshold, they explain, would “ensure that rule 701 remains a viable provision for businesses to use in the future” and “decrease the likelihood of unnecessary regulatory requirements.”

There is no evidence to suggest that rule 701 is not working for companies and their employees, and we have every reason to make this option available to more Americans with the desire to build wealth through their company's success.

Finally, I want to underscore how important it is that the Capital Markets Improvement Act pass with a strong bipartisan vote, just like each title passed in the Financial Services Committee under Chairman HENSARLING's leadership.

My bill, the Encouraging Employee Ownership Act, has a bipartisan vote of 45–15 in committee. Mr. HILL's bill, making investment reports on ETFs more accessible, had a vote of 48–9. Mr. HUZENGA's bill, creating a simplified SEC registration system for M&A brokers, had a vote of 36–24. Mr. HURST's bill, allowing exemption for emerging growth companies for SEC reporting requirement, had a vote of 44–11. Also, Mr. HURST's bill, requiring the SEC to retroactively review regulations, had a 46–16 vote.

I urge all my colleagues to vote in support of the Capital Markets Improvement Act of 2016.

Ms. MAXINE WATERS of California. I yield 3 minutes to the gentleman from Ohio, (Mrs. BEATTY), a member of the Financial Services Committee.

Mrs. BEATTY. Mr. Chairman, I think it is simple today. We have heard Congesswoman MAXINE WATERS outline our position for this.

Let me just say that this bill is flawed, overly broad, avoids appropriate oversight, duplicative of existing administrative authorities, and could be wasteful and costly. I join Ms. MAXINE WATERS of California today in opposition to H.R. 1675, a package of capital formation bills that undermine the Security and Exchange Commission’s effective oversight of capital markets and places the GOP special interests ahead of those hard-working Americans whom we are here to serve.

Secondly, the package also excludes exemptions from certain investor disclosures and SEC filing requirements and a safe harbor from certain broker-dealer liabilities, all without commensurate investment protections. A key component of this package is title V, H.R. 2354, which is an unnecessary, burdensome, and unfunded mandate requiring a full-scale review designed to hamstring the SEC's ability to perform basic oversight of the financial markets.

Title III of the package exempts small business mergers and acquisition brokers from registering as a broker-dealer with the SEC.

Mr. Chairman, I thank the author of this bill, Mr. HURST of Virginia, for his leadership on this issue, and I urge my colleagues to join me in supporting this.

Ms. MAXINE WATERS of California. Mr. Chairman, I yield 3 minutes to the gentleman from Massachusetts (Mr. LYNCH), the ranking member of the Task Force to Investigate Terrorism Financing on the Financial Services Committee.

Mr. LYNCH. Mr. Chairman, I thank the gentlewoman for yielding.

It is very rare that I get to speak in opposition to such bad legislation, but not only do we have a single bill that is bad legislation, my friends across the aisle have packaged five bad bills and put them all together. My only regret is that I only had 3 minutes to speak about these bills.

Let me single one out, the Encouraging Employee Ownership Act of 2015. Currently, employee benefit plans must disclose information to employees who invest in those plans if the plan's assets are above $5 million. H.R. 1675, the Encouraging Employee Ownership Act of 2015, now 2016, modifies SEC rule 701 by allowing private companies to compensate their employees up to $10 million, indexed for inflation.

So they can pay their employees in stock, basically. But the key here is...
that they don’t have to provide the same information that they would to outside investors in that same stock. Therein lies the danger here.

This means that employees in smaller companies, start-ups, especially—small drug companies, small software companies, or companies with smaller plans, oftentimes those companies are more subject to, more vulnerable to, the ups and downs of the economy. These are the most vulnerable.

So the employees in those small plans, insured with company stock would be less protected as to how their stocks are performing.

Last Congress I voted against a similar bill, H.R. 4571, when it was marked up in our committee. I also spoke in opposition to this bill when it was included as title XI of H.R. 37.

This bill uses the veneer of job creation to provide special treatment for well-connected corporations, mergers and acquisition advisers, and financial institutions doing very little for and probably doing much damage to employees and working families.

I strongly support employees receiving equity. I think that is a good deal. If employees can receive stock options and, importantly, if they can know about the condition of these companies, that can be a huge advantage.

Employees will buy into the company, but they have to have the information about what the stock is worth. This bill allows them to be denied that information. They are buying a pig in a poke. They don’t know what the stocks are worth. So it puts them at a tremendous disadvantage.

And, again, these companies are the ones that are most vulnerable to ups and downs in the economy going forward.

I agree the remarks of Professor Theresa Gabaldon from George Washington University during our April 29 Capital Markets and Government Sponsored Enterprises Subcommittee hearing. During her testimony, the professor expressed opposition to this bill for the very reasons I have stated.

The CHAIR. The time of the gentleman has expired.

Ms. MAXINE WATERS of California. I yield another 30 seconds to the gentleman.

Mr. LYNCH. She opposed this bill because of the same protections, she said, as investors.

This makes sense. This is easy. We should be able to do what we want to do here and stimulate the economy.

Yet, at the same time, allow these employees to have the information that they need to know about the performance of the stocks they are being paid with are worth. It is as simple as that.

I thank the ranking member for her indulgence.

Mr. HENSARLING, Mr. Chair. I yield myself 10 seconds to remind my friends who have spoken that title I of this bill passed 45–15, with Democratic support; title II, 48–9, with Democratic support; title III, in the last Congress, passed the floor 420–0; title IV, 44–11, with Democratic support; title V, 41–16, with Democratic support. So perhaps they should discuss these attacks amongst themselves first.

I yield another 30 seconds to the gentleman from Virginia (Mr. HURT), one of the prime sponsors and author of title IV and title V.

Mr. HURT of Virginia. Mr. Chairman, I thank the chairman of the Financial Services Committee for his leadership in moving this legislation to the floor.

I rise today in support of this bill, the Capital Markets Improvement Act. As I travel across Virginia’s Fifth District, the number one issue facing the families I represent is the desperate need for job creation.

Making sure that hardworking Virginians and Americans have adequate access to capital markets is imperative to job creation and to sustained economic growth for our great Nation.

It is to this end that is included as title XI of H.R. 37. The Financial Services Committee and the House of Representatives continue to push legislation that will make it easier for our businesses, for our farmers, and for families to be successful.

Importantly, provision within this bill today we are considering has received bipartisan support, and each title of this bill is critical to enhancing access to capital and ensuring that the U.S. capital markets remain the most vibrant in the world.

Within this Capital Markets Improvement Act, I am pleased that two provisions that I have sponsored have been included, the Small Company Disclosure Simplification Act and the Streamlining Excessive and Costly Regulations Review Act.

The first provision is contained in title IV. The Small Company Disclosure Simplification Act, 2009 mandate from the SEC which required the use of Extensible Business Reporting Language, or XBRL, for public companies.

While the SEC’s rule is well-intended, this provision has become another example of a regulation where the costs often outweigh the potential benefits.

These companies spend thousands of dollars and more complying with the regulation, yet there is little evidence that investors actually use XBRL, leading me to question its real-world benefits.

The provision before us today is a measured step that would offer small companies relief from the burdens of XBRL. Title IV provides a voluntary—let me say that again—a voluntary exemption for growing growth companies and smaller public companies from the SEC’s requirements to file their financial statements via XBRL in addition to their regular filings with the SEC.

It is important to note that nothing in this bill precludes companies from utilizing XBRL for their filings with the SEC. The exemption is completely optional and allows smaller companies to assess whether the costs incurred for compliance are outweighed by any benefits using this technology.

During our committee’s hearing on this issue, one company reported that $50,000 on complying with XBRL. This is a huge cost to a small company, especially when that cost does not yield a significant benefit.

I am not suggesting that every firm pays this much, but certainly we can agree that, when filing fees are this high, they should ensure that the requirements result in a benefit to investors and to those public companies being regulated.

It is also very important to note that, with this legislation, all public companies will continue to file quarterly and annual statements with the SEC.

Furthermore, this bill will not kill the implementation of XBRL or structured data at the SEC. It is merely providing a temporary and voluntarily exemption for smaller companies so that they may better utilize their capital.

It is about choice and ensuring that these companies can use their capital to create jobs instead of using it to comply with unnecessary red tape.

This bill has previously received strong bipartisan support in the Financial Services Committee and on the floor of this House when this measure was part of the Promoting Job Creation and Reducing Small Business Burdens Act.

Similarly, during the last Congress, this measure was also approved with a strong bipartisan vote in the House.

I ask that my colleagues once again support this commonsense legislation today.

In addition to the disclosure simplification issues, we have also sponsored title V of this Capital Markets Improvement Act. This is a bipartisan legislation that I crafted with my colleague, Ms. KYRSTEN SINEMA of Arizona.

The Streamlining Excessive and Costly Regulations Review Act is about accountable and representative government and making sure that the SEC is taking an ongoing retrospective look at its regulation.

This legislation would simply require the SEC to review its major rules and regulations on a regular basis to determine whether they are still effective or outdated or whether they need to be changed in some regard. In fact, other prudential regulators, such as the FDIC, the OCC, and the Federal Reserve, are already doing this.

During the mid-1990s, the Economic Growth and Regulatory Paperwork Reduction Act, or EGRPRRA, required these entities to conduct a retrospective review of all of their regulations to determine if they were still effective and, subsequently, report their findings to Congress.

Because the House Banking Committee at the time did not have jurisdiction over the SEC, the SEC was left out of this process.
Title V would simply require the SEC to retrospectively review its regulations with the goal of ensuring that they are effective and up to date. It would enable the SEC to operate in the most effective manner possible. It would accord the SEC the autonomy and flexibility to make this mandate effective.

President Obama himself endorsed this idea in multiple 2011 executive orders, and the other prudential regulators are already operating under a similar review process. This legislation simply puts the SEC on the same playing field as the other regulators.

Moreover, this bill provides Congress with the insight it needs to hold the Commission accountable, and the legislation adheres to the requirements of the Administrative Procedure Act.

All said, the structure and the process of title V will provide industry, the SEC, and Congress with the structure and time necessary to ensure that this retrospective review process is effective.

I ask my colleagues to join me in supporting this title so that we can continue to improve the SEC’s regulatory regime.

In closing, let me again thank the committee chairman, Chairman HERSARLING, and Chairman GARETT, who is our Financial Markets and Government Sponsored Enterprises Subcommittee chair, for making these two provisions a part of this act. I urge my colleagues to vote “yes” on this good bill.

Ms. MAXINE WATERS of California. Mr. Chairman, I yield 3 minutes to the gentlewoman from New York (Mrs. CAROLYN B. MALONEY), the ranking member of the Subcommittee on Capital Markets and Government Sponsored Enterprises of the Financial Services Committee.

Mrs. CAROLYN B. MALONEY of New York. Mr. Chairman, I thank the ranking member for yielding and for her leadership on this committee and on this legislation.

I rise today in opposition to H.R. 1675. It would curtail the existing regulatory structure protecting investors.

While this package includes bills that I have supported, including on XBRL, XBRL is the last thing you would want to do. It would dramatically reduce the search costs by making it fast and cheap for investors to gather standardized financial statements for entire industries, including the small businesses the investors wouldn’t bother with before.

So if you want to improve small companies’ access to capital, rolling back XBRL is the last thing you would want to do. I believe that we should be moving forward, not backward, on XBRL.

We are already far behind the rest of the developed world in using structured data. I rise in opposition to this bill.

The Acting CHAIR. The time of the gentlewoman has expired.

Ms. MAXINE WATERS of California. I yield the gentlewoman an additional 1 minute.

Mrs. CAROLYN B. MALONEY of New York. I think we should think very hard about an issue before we take away a tool that literally benefits both investors and small companies.

Unfortunately, that is what this bill would do. Instead of moving forward on XBRL and making it even more useful for analysts and investors, the bill would allow roughly 60 percent of all public companies to opt out of their requirements to use XBRL. This would effectively take our capital markets back to the 20th century.

Mr. Chairman, I urge my colleagues to oppose this bill which doesn’t benefit investors and I would say the overall economy.

I urge a “no” vote from my colleagues.

Mr. HENSARLING. Mr. Chairman, I yield 3 minutes to the gentleman from Michigan (Mr. HUIZENGA), the chairman of the Monetary Policy and Trade Subcommittee of the Financial Services Committee and the author of title III of this act.

Mr. HUIZENGA of Michigan. Mr. Chairman, I rise today to alert the American people we are missing an alert. This is the legislative equivalent to an Amber Alert because we have folks who talk a good game behind closed doors, who come out here, though, in the light of day and do something very different, and they are either refusing to act or are acting from solving the problem. This red herring alert is very disturbing. We instead are seeing today trumped-up attacks on commonsense reforms that need to happen that many people will behind closed doors agree need to happen.

In my particular case with section 3, we have a “no-action” letter put out by the SEC that those on the other side of the aisle say, “We don’t need to do anything.” The “SEC is taking care of it.” The problem is that it took years for the SEC to even address the issue. Apparently what is good enough for a “no-action” letter should be good enough for the law. So they know full well that many of the things we are trying to address in H.R. 1675 are coming from unintended consequences.

This important piece of legislation is a package of bipartisan ideas designed to help Main Street businesses promote job creation and economic growth. The Second District of Michigan, west Michigan, is full of these types of family-owned companies.

Mr. Chairman, small businesses, private companies, and entrepreneurs need access to capital, but burdensome, needless regulations out of Washington and the SEC have created barriers to that investment capital.

Main Street small businesses are the heart and soul of our Nation. In fact, they create the majority of the Nation’s new jobs over the last couple of decades. So what does that mean? It is not the big, major companies that are creating those job opportunities. It is our small, innovative companies that are. For these small businesses to survive and thrive in a healthy, growing economy, we must reduce barriers to capital and encourage small business growth and the small business entrepreneur without putting the taxpayer or the economy at risk.

H.R. 1675 does exactly that. This compilation of bipartisan regulatory relief provisions will ensure that Main Street businesses continue to have access to the capital that they need to grow the economy and create new jobs.

Mr. Chairman, I urge a “yes” vote on H.R. 1675. You need to ignore the red herrings that are getting thrown out there. The capital markets need to have these reforms. I look forward to working with my Senate colleagues to see H.R. 1675 make its way to President Obama’s desk for his signature.

Ms. MAXINE WATERS of California. Mr. Chairman, I yield 3 minutes to the
Since starting my most recent investment firm that I had back in the 1990s before I came to Congress a year ago, I have seen the investment category exchange-traded funds, or ETFs, grow from about 100 funds with $100 billion in assets to more than 1,000 funds with almost $2 trillion in assets—a significant increase over that time. Despite their growing popularity and use by retail investors and small institutional investors, most broker-dealers in the industry do not publish ETF research. Primarily, the lack of that publication is due to anomalies in the securities laws and regulations, and that is at the heart of what we are talking about here. It is an important investor in the investment industry for three decades, providing the SEC with the right information to protect investors. They need to know what they are getting. They need to know exactly what their company is holding out to them is valuable. So I raise the question of why any public policymaker would want to keep this information away from employees? Further, the opposite side of the aisle always talks about them are for dealing with crime, that they are about criminal activities, and here they are allowing bad actors to engage in small business mergers and acquisitions. I am talking about people who have been convicted. I am talking about people whom you have administrative orders against. I am talking about swindlers. I am talking about people who have been convicted.

I might add to my friends at the Commission, this is not a topic unfamiliar to you as it has been raised at the Commission many times, including by the Commission staff over the past 17 years—and yet no action has happened. So we are no longer out ahead of the curve on this topic, we are behind it. As it was stated by the gentlewoman from Delaware for working with me on this project and for being so patient along its way in the last weeks. Ms. MAXINE WATERS of California. Mr. Chairman, I yield 3 minutes to the gentleman from Arkansas for purposes of anomaly to the gentlewoman from Delaware. Since starting my most recent investment firm that I had back in the 1990s before I came to Congress a year ago, I have seen the investment category exchange-traded funds, or ETFs, grow from about 100 funds with $100 billion in assets to more than 1,000 funds with almost $2 trillion in assets—a significant increase over that time. Despite their growing popularity and use by retail investors and small institutional investors, most broker-dealers in the industry do not publish ETF research. Primarily, the lack of that publication is due to anomalies in the securities laws and regulations, and that is at the heart of what we are talking about here. It is an important information to investors, to household currently using ETFs in their investment portfolios, and they need access to this research.

Having worked in the banking and investment industry for three decades, I appreciate Chairman HENSARLING and Congress' efforts to promote capital formation, reduce unnecessary barriers, provide sunshine, provide information to our investors, and, by definition, grow jobs and economic recovery. I want to finally thank Mr. CARNEY of Delaware for working with me on this project and for being so patient along its way in the last weeks. Ms. MAXINE WATERS of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman and Members, when my colleague from Massachusetts came to the floor and started to talk about this bill, he said this is a bad bill, and included in this bill a total of five bad bills. As we go through each of these bills, we cannot help but wonder why any public policymaker would want to endanger small businesses and investors in the way that this bill does. One must ask one's self why, why would any elected official want to eliminate financial disclosures for employees regarding their stock compensation? Why would you want employees to know what they are being given? Why don't you want employees to understand that this stock that they are being given may or may not be worth the paper it is written on? It is unclear why we would want to keep this information away from them?

As it was stated by the gentlewoman from Illinois, she said basically that many of these companies are not increasing wages. As a matter of fact, we have stagnation in wages in this country and in all of the major companies, for example. So what is happening is these employees believe that when they are being given stock instead of a raise then maybe they have something valuable. They need to know what they are getting. They need to know exactly what their company is holding out to them is valuable. So I raise the question of why any public policymaker would want to keep this information away from employees?

Further, the opposite side of the aisle always talks about them are for dealing with crime, that they are about criminal activities, and here they are allowing bad actors to engage in small business mergers and acquisitions. I am talking about people who have been convicted. I am talking about people whom you have administrative orders against. I am talking about swindlers. I am talking about people who have been convicted.

Increasingly, the people of this country are looking at the Members of Congress, and they are saying that they are not with us, they are against us, and that we don't have anybody that is really protecting our interests. More and more, it is being discussed. They are finally getting on to it that somehow too many of the Members of Congress are siding with the big guys, siding with the large corporations, and with the big banks, and not looking out for the interests of the people. They want to know why.

Again, title III of this bill would significantly expand an exemption for registration granted by the SEC to certain mergers and acquisition brokers who deal with small businesses without providing significant protections for those businesses or investors. Last Congress when we considered this exemption, it was meant to prompt action by the SEC to finalize its no-action letter to exempt these merger and acquisition brokers to do that from registration. Two weeks after that bill passed the House floor, the SEC granted relief. Yet you wouldn't know it if
you read this bill. This bill ignores that relief, and, worse, it inexplicably omits eight—omits eight—of the important investment protections that it includes.

As a result, it would allow, again, these bad actors, these cheaters, these people who commit fraud, and these scammers to use this exemption providing them with an opportunity just to swindle our small businesses. Yet they claim they support small business.

It is fashionable to say, “I am for small business.” Everybody is for small business. But when you take a look at what we do, you can determine who is for the small business and who really are for the big businesses, for the swindlers, and for the cheaters who rob small businesses of the opportunity to be successful.

It would also allow M&A brokers to merge public shell companies that have no assets of their own.

Even some of my Republican colleagues who will be offering an amendment to add in these two protections are understanding the omission, but my friends on the opposite side of the aisle completely ignore the other six investor protections in the SEC’s no action relief.

I am not going to go any further with that. That is quite obvious.

But let me say this. Not only do we have these bad bills with bad public policy, we have a trick in the bill and the bill attempts to tie the hands of the SEC by saying they need to go back—oh, back to 1994 and review everything that they have done, all of these regulations.

Do you know why they are doing that? It is the same reason that they won’t support them getting additional funding to do their job. They just want to tie their hands so that they won’t be able to do the job that they are supposed to do.

When we call these bills bad, we are simply not sharing with you some rhetoric about some meaningless harm that may come because of these bills. We are telling you these are harmful bills, these are truly bad bills.

I reserve the balance of my time.

Mr. HENSARLING. Mr. Chairman, I yield 1½ minutes to the gentleman from New Jersey (Mr. GARRETT), the chairman of the Capital Markets and Government Sponsored Enterprises Subcommittee.

Mr. GARRETT. Mr. Chairman, I thank the chairman.

I want to commend Mr. HULTGREN, Mr. HILL, and all of the sponsors who have worked so hard on the underlying legislation and for the dedication to doing what? Improving the capital markets and creating jobs in this country.

Mr. Chairman, the last decade has really not been kind to middle class Americans and to lower income Americans as well, where people are struggling to make it to the 15th of the month or the end of the month.

We have not experienced in this country a 3 percent GDP since, I think, back in 2005. Middle class income wages are basically stagnating, and the number of middle class Americans, during this administration has reached an astonishing 50 million people.

Did you hear that? Fifty million people during the Obama administration find themselves still in poverty right now.

Yet, the Obama administration continues—if you listen to him and our committee meetings from the other side of the aisle, they tout the supposed strength of the recovery, despite the fact that, under President Obama, only the rich in this country have gotten richer while the poor and the middle class continue to struggle.

Today our committee brings to the floor a package of bills that will do what, they will help small businesses. They will help people get new jobs. They will help the creation of new hiring. They will help those hardworking Americans who want to get a better job and improve their lives to create wealth in this country and not just rely, as is the past, on taxpayer economic sugar highs provided by the Federal Reserve or wasteful stimulus programs.

What do we have right now? We have five bills. We have Mr. HULTGREN’s legislation that will help hardworking Americans by giving Americans more chance to do what? Invest their money so they can work.

We have Mr. HURT’s legislation initiatives to hold the SEC accountable, yes, hold American bureaucrats accountable and reduce Washington’s unnecessary burdens on small public companies.

We have Mr. HUZZENGA’s bill to make it easier for small businesses to simply receive advice from professionals.

Finally, we have Mr. HILL’s bill over here that will allow investors greater access to retail mutual funds before they invest their money.

Mr. Chairman, what we have here is not that a single one of these provisions will grow the bureaucracy, not a single one of these provisions will throw more taxpayer dollars at the situation in the hopes that it will solve some perceived problem out there, and not a single one of these provisions include any new federal mandates on the job creators of this country: small businesses.

Each and every one of these is a positive solution to our economic problems. As an added bonus, they all have the benefit of being bipartisan.

Again, I thank you and all the sponsors for their support.

I urge my colleagues to support H.R. 1675.

Ms. MAXINE WATERS of California.

Mr. Chairman, I continue to reserve the balance of my time.

Mr. HENSARLING. Mr. Chairman, how much time is remaining on each side?
blamed him for everything he could think of, the administration is sending you a message. The administration strongly opposes H.R. 1675.

"Among other flaws, this bill includes several provisions that pose risks to consumers and undermine financial stability. It is consistent with everything they have been doing. I yield back the balance of my time."

Mr. HENSARLING. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, I am very proud of the fact, as the chairman of the Financial Services Committee, that we move a lot of bipartisan legislation. I take great pride in that. It is just so rare that the Democratic ranking member chooses to be a part of any of it.

Here we have major titles of this bill. Title I supports Democratic support; title II passed 48-9 with Democratic support; title III, 36-24; title IV, 44-11; title V, 41-16, yet another bipartisan exercise where men and women of goodwill come together to try to work on behalf of the working families of America. Yet again, the ranking member and those who are close to her choose not to be a part of this.

I guess I would ask, Mr. Chairman, how many minority people have to suffer in this economy? Working families are struggling. Their paychecks are less since the President came to office, since we have had 8 years of Obamanomics. They have 10 to 15 percent less in their bank accounts. We have tried it their way, Mr. Chairman, and it has failed.

Why does the ranking member and other Democrats continue this war on small business? We are losing our small businesses. America is at a generational low. We are trying to give them a little bit of a bipartisan lifeline to breathe a little life into these small businesses to allow them to create more jobs and better career paths so that so many people don’t struggle to pay their mortgages and to pay their healthcare premiums.

These are modest changes. I am glad that Republicans and Democrats have decided to cross the ranking member and want to do something that is commonsense that will help small businesses and help the struggling working people in America.

I urge all to vote for the act. I yield back the balance of my time.

The Acting CHAIR. All time for general debate has expired.

Pursuant to the rule, the bill shall be considered for amendment under the 5-minute rule.

It shall be in order to consider an original bill for the purpose of amendment under the 5-minute rule an amendment in the nature of a substitute consisting of the text of Rules Committee Print 114-43. That amendment in the nature of a substitute shall be considered as read.

The text of the amendment in the nature of a substitute is as follows:

H.R. 1675

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.—This Act may be cited as the “Capital Markets Improvement Act of 2016”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—ENCOURAGING EMPLOYEE OWNERSHIP

Sec. 101. Increased threshold for disclosures relating to compensatory stock options.

TITLE VI—STREAMLINING EXCESSIVE AND COSTLY REGULATIONS

Sec. 501. Regulatory review.

TITLE VII—SAFE HARBOR FOR INVESTMENT RESEARCH

Sec. 101. Safe harbor for investment fund research.

Sec. 201. Safe harbor for investment fund research.

Sec. 301. Registration exemption for merger and acquisition brokers.

Sec. 401. Exemption from XBRL requirements for emerging growth companies and other smaller companies.

Sec. 501. Regulatory review.

TITLE VIII—ENCOURAGING EMPLOYEE OWNERSHIP

Sec. 101. Increased threshold for disclosures relating to compensatory stock options.

Not later than 60 days after the date of the enactment of this Act, the Securities and Exchange Commission shall revise section 230.701(e) of title 17, Code of Federal Regulations as to increase from $5,000,000 to $10,000,000 the aggregate sales price or amount of securities sold during any consecutive 12-month period in excess of which the issuer is required under such section to deliver an additional disclosure to investors. The Commission shall index for inflation such aggregate sales price or amount every 5 years to reflect the change in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics, rounding to the nearest $1,000,000.
(II) In the fiscal year ending immediately before the fiscal year in which the services of the M&A broker are initially engaged with respect to the securities transaction, the company meets both of the tests determined in accordance with the historical financial accounting records of the company:

(aa) The earnings of the company before interest, taxes, depreciation, and amortization are less than $25,000,000.

(bb) The gross revenues of the company are less than $20,000,000.

(2) M&A BROKER.—The term ‘M&A broker’ means a broker, and any person associated with a broker, engaged in the business of effecting securities transactions solely in connection with the transfer of ownership of an eligible privately held company, regardless of whether the broker acts on behalf of a seller or buyer, through the sale, exchange, issuance, repurchase, or redemption of, or a business combination involving, securities or assets of the eligible privately held company, if the broker reasonably believes that—

(i) Upon consummation of the transaction, any person acquiring securities or assets of the eligible privately held company, acting alone or in concert with another person, directly or indirectly, will be active in the management of the eligible privately held company or the business conducted with the assets of the eligible privately held company, and

(ii) If any person is offered securities in exchange for securities or assets of the eligible privately held company, such person will, prior to the consummation of the transaction, receive or have reasonable access to the most recent year-end balance sheet, income statement, statement of changes in financial position, and statement of owner’s equity of the issuer of the securities offered in exchange, and, if the financial statements of the issuer are audited, a report of the independent auditor, a balance sheet dated not more than 120 days before the date of the offer, and information pertaining to the management, business, results of operations for the period covered by the foregoing financial statements, and material loss contingencies of the issuer.

(B) INFLATION ADJUSTMENT.—

(i) In general.—On the date that is 5 years after the date of the enactment of the Small Business Mergers, Acquisitions, Sales, and Brokerage Simplification Act of 2015, and every 5 years thereafter, SEC. 401. EXEMPTION FROM XBRL REQUIREMENTS FOR COMPANIES AND OTHER SMALLER COMPANIES FOR EMERGING GROWTH AND OTHER SMALLER COMPANIES.

SEC. 301. REGISTRATION EXEMPTION FOR MERGER AND ACQUISITION BROKERS.

Section 19(b)(6) of the Securities Exchange Act of 1934 (15 U.S.C. 78t(b)(6)) is amended by adding at the end the following:

"(13) REGISTRATION EXEMPTION FOR MERGER AND ACQUISITION BROKERS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), an M&A broker shall be exempt from registration under this section.

(B) EXCLUDED ACTIVITIES.—An M&A broker is not exempt from registration under this paragraph if such broker does any of the following:

(i) Directly or indirectly, in connection with the transfer of ownership of an eligible privately held company, or has custody of the funds or securities to be exchanged by the parties to the transaction.

(ii) Engages on behalf of an issuer in a public offering of any class of securities that is registered, or is required to be registered, with the Commission under section 12 or with respect to which the issuer files, or is required to file, periodic information, documents, and reports under subsection (d).

(C) RULES OF CONSTRUCTION.—Nothing in this paragraph shall be construed to limit any other authority of the Commission to exempt any person, or any class of persons, from any provision of this title, or from any provision of any rule or regulation thereunder.

(D) DEFINITIONS.—In this paragraph:

(i) CONTROL.—The term ‘control’ means the power, directly or indirectly, to direct the management or policies of a company, whether through ownership of securities, by contract, or otherwise. There is a presumption of control for any person who—

(1) is a director, general partner, member or manager of a limited liability company, or officer exercising executive responsibility (or has similar status or function) of a company; and

(2) has power, directly or indirectly, to vote 20 percent or more of a class of voting securities or the power to sell or direct the sale of 20 percent or more of a class of voting securities.

(ii) ELIGIBLE PRIVATELY HELD COMPANY.—The term ‘eligible privately held company’ means a company that meets both of the following:

(1) The company does not have any class of securities registered, or required to be registered, with the Commission under section 12 or with respect to which a registration statement is required to file, periodic information, documents, and reports under subsection (d).

(iii) in the case of a partnership or limited liability company, has the right to receive upon dissolution, or has contributed, 20 percent or more of the capital.

(iv) ELIGIBLE PRIVATELY HELD COMPANY.—The term ‘eligible privately held company’ means a company that meets both of the following:

(1) The company does not have any class of securities registered, or required to be registered, with the Commission under section 12 or with respect to which a registration statement is required to file, periodic information, documents, and reports under subsection (d).

(ii) ELIGIBLE PRIVATELY HELD COMPANY.—The term ‘eligible privately held company’ means a company that meets both of the following:

(1) The company does not have any class of securities registered, or required to be registered, with the Commission under section 12 or with respect to which a registration statement is required to file, periodic information, documents, and reports under subsection (d).

(ii) ELIGIBLE PRIVATELY HELD COMPANY.—The term ‘eligible privately held company’ means a company that meets both of the following:

(1) The company does not have any class of securities registered, or required to be registered, with the Commission under section 12 or with respect to which a registration statement is required to file, periodic information, documents, and reports under subsection (d).

(2) The company does not have any class of securities registered, or required to be registered, with the Commission under section 12 or with respect to which a registration statement is required to file, periodic information, documents, and reports under subsection (d).
(b) EXEMPTION FOR OTHER SMALLER COMPANIES.—Issuers with total annual gross revenues of less than $250,000,000 are exempt from the requirements to use XBRL for financial statements and other periodic reporting required to be filed with the Commission under the securities laws. Such issuers may elect to use XBRL for such reporting. An exemption under this subsection shall be effective—

(1) the date that is five years after the date of enactment of this Act; or

(2) the date that is two years after a determination by the Commission, by order after conducting the analysis required by section 402, that the benefits of such requirements to such issuers outweigh the costs, but no earlier than three years after the date of enactment of this Act.

(c) MODIFICATIONS TO REGULATIONS.—Not later than 60 days after the date of enactment of this Act, the Commission shall revise its regulations under parts 229, 230, 232, 239, 240, and 249 of title 17, Code of Federal Regulations, to reflect the exemptions set forth in subsections (a) and (b).

SEC. 402. ANALYSIS BY THE SEC.

The Commission shall conduct an analysis of the costs and benefits to issuers described in section 401(b) of the requirements to use XBRL for financial statements and other periodic reporting required to be filed with the Commission under the securities laws. Such analysis shall include an assessment of—

(1) how such costs and benefits may differ from the costs and benefits identified by the Commission in the report relating to interactive data to improve financial reporting (dated January 30, 2009; 74 Fed. Reg. 6776) because of the size of such issuers;

(2) the effects on efficiency, competition, capital formation, and financing and on analyst coverage of such issuers (including any such effects resulting from use of XBRL by investors);

(3) the issuers of—

(A) submitting data to the Commission in XBRL;

(B) posting data on the website of the issuer in XBRL;

(C) software necessary to prepare, submit, or post data in XBRL; and

(D) any additional consulting services or filing agent services;

(4) the benefits to the Commission in terms of improved ability to monitor securities markets, assess the potential outcomes of regulatory alternatives, and enhance investor participation in corporate governance and promote capital formation; and

(5) the effectiveness of standards in the United States for interactive filing data relative to the standards of international counterparts.

SEC. 403. REPORT TO CONGRESS.

Not later than one year after the date of enactment of this Act, the Commission shall provide the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report regarding—

(1) the progress in implementing XBRL reporting with the Commission;

(2) the use of XBRL data by Commission officials;

(3) the use of XBRL data by investors;

(4) the results of the analysis required by section 402(a); and

(5) any additional information the Commission considers relevant for increasing transparency, decreasing costs, and increasing efficiency of regulatory filings with the Commission.

SEC. 404. DEFINITIONS.

V—STREAMLINING EXCESSIVE AND COSTLY REGULATIONS REVIEW

SEC. 501. REGULATORY REVIEW.

(a) REVIEW AND ACTION.—Not later than 5 years after the date of enactment of this Act, and at least every 10-year period thereafter, the Securities and Exchange Commission shall—

(1) review each significant regulation issued by the Commission pursuant to this Act, and at least every 10-year period thereafter, securities and Exchange Commission shall—

(2) determine by Commission vote whether each such regulation—

(A) is outdated, ineffective, insufficient, or excessively burdensome;

(B) is no longer necessary in the public interest or consistent with the Commission’s mandate to protect investors, maintain fair, orderly, and efficient markets, and facilitate capital formation;

(3) provide notice and solicit public comment as to whether a regulation described in subparagraph (A) or (B) of paragraph (2) (as determined by Commission vote pursuant to such paragraph) should be amended to improve or modernize such regulation so that such regulation is in the public interest, or whether such regulation should be repealed; and

(4) amend or repeal any regulation described in subparagraph (A) or (B) of paragraph (2), as determined by Commission vote pursuant to such paragraph.

(b) DEFINITION.—As used in this section and for purposes of the review required by subsection (a) the term "significant regulation" has the meaning given the term "major rule" in section 804(2) of title 5, United States Code.

(c) REPORT TO CONGRESS.—Not later than 45 days after any final Commission vote described in subsection (a)(2), the Commission shall transmit a report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate describing the Commission’s review under subsection (a), its vote or votes, and the actions taken pursuant to paragraph (3) of such subsection. If the Commission determines that legislation is necessary to amend or repeal any regulation described in subparagraph (A) or (B) of subsection (a)(2), the Commission shall include in the report recommendations for such legislation.

(d) NOT SUBJECT TO JUDICIAL REVIEW.—Any vote by the Commission made pursuant to subparagraph (a)(2) shall be final and not subject to judicial review.

The Acting CHAIR. No amendment to that amendment in the nature of a substitute shall be in order except those printed in part A of House Report 114-414. Each amendment may be offered only in the order printed in the report, by a Member designated in the report, shall be debatable for the time specified in the report, equally divided and controlled by the Chair and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

AMENDMENT NO. 1 OFFERED BY MR. DESAULNIER

The Acting CHAIR. It is now in order to consider amendment No. 1 printed in part A of House Report 114-414.

Mr. DESAULNIER. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

SEC. 102. STUDY AND REPORT.

Not later than 1 year after the date of the enactment of this Act, the Securities and Exchange Commission shall complete a study and submit to Congress a report on the prevalence of employee ownership plans within companies that have a flexible or social benefit component in the articles of incorporation or similar governing documents of such companies, as permitted under applicable State law.

The Acting CHAIR. Pursuant to House Resolution 505, the gentleman from California (Mr. DESAULNIER) and a Member opposed each will control 5 minutes.

Mr. DESAULNIER. Mr. Chairman, this is a straightforward study amendment that intends to build on the potential links between employee-owned corporations and social benefit corporations. This amendment requires the SEC to study overlaps between employee-owned corporations and alternative corporate forms authorized under various State laws.

Alternative corporate forms allow corporations, with the consent of their shareholders, to pursue social and environmental goals as a for-profit business enterprise. With legal protections that benefit companies and the interests of all stakeholders, benefit corporations can help solve social and environmental challenges through their businesses. Benefit corporation status and other corporate forms allow companies to differentiate themselves and appeal to all consumers.

Alternative corporate forms provide legal protections that benefit innovators, entrepreneurs, investors, and consumers. These legal protections have helped create opportunities for innovation in States like California, which currently attracts almost half of all venture capital investment in the United States.

Some of these alternative corporate forms include flexible or social benefit corporations, benefit corporations, and low-profit limited liability companies. Benefit corporations, the most common type of alternative corporate form, are authorized in 30 States, including in the District of Columbia, and are currently being considered in five more States. L3Cs are authorized in eight States.

My amendment simply seeks to improve the availability of data so Congress can explore connections between employee-owned corporations and these increasingly popular alternative corporate forms.

Specifically again, this amendment requires the SEC to study and report to Congress the prevalence of employee-owned ownership plans within corporations that also include a flexible or a social benefit component in their articles of incorporation as allowed under relevant State laws.

Mr. Chairman, I urge my colleagues to support this commonsense amendment to improve our understanding of employee-owned corporations.

I reserve the balance of my time.
Mr. HENSARLING. Mr. Chairman, I rise in opposition to the gentleman’s amendment.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. HENSARLING. Mr. Chairman, I appreciate the gentleman’s amendment, but I find it somewhat ironic when I continue to hear pleas from the other side of the aisle on how terribly burdened the SEC is and what great need we have that they can’t make due with the resources that they have, and then here is a study which would be yet another burden on the SEC. First, Mr. Chairman, I find that somewhat ironic.

I don’t find that the gentleman’s amendment really has anything to do with encouraging employee ownership at privately held companies. I guess what really disturbs me, Mr. Chairman, is that this goal or this agenda of many is to take those individuals, in those items that will enhance shareholder value and to, instead, take this into a debate about social values.

We are a very diverse country, and this is a good thing. There may be some of us who are interested in companies that support a pro-life position, and there may be others who are interested in a company that supports a pro-abortion position; but that has very little to do with the investment return, which, for most American families, is what they care about when they wonder if they are going to be able to pay for their home mortgages, to pay their utility bills, or to send their kids to college.

There are some people in America who support the Second Amendment, and there are some people who don’t. Again, there is a wide diversity of social issues, and for those who wish to invest along those lines, in those relatively free society, they ought to be able to do that. If they can’t get the information they need from a corporation, they have a multitude of investment opportunities. If they don’t feel they are getting enough of social value information they need, they have a variety of opportunities.

I feel that the gentleman from California’s amendment leads us down a road that, I think, ultimately, is harmful to working Americans who are trying to invest their meager savings in order to make ends meet. I urge that we reject the amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. DESAULNIER. Mr. Chairman, while I respect the gentleman’s understanding and his years of work in this field, I think my experience as a new Member who is coming from a State legislature, involved the business community in the development of some of these alternative forms, it is merely providing more information for shareholders and investors. That is why, when we did it in California, we had bipartisan support, including having the support from the business community.

That is the spirit, at least, in which I am offering the amendment. I don’t think it would be, from a cost-benefit standard, very hard for the SEC to provide this information to Congress so that, as these forms continue to move throughout the States, we have a better understanding. That is the purpose and the spirit of the amendment.

Mr. Chairman, I yield back the balance of my time.

Mr. HENSARLING. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. DESAULNIER).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. DESAULNIER. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from California will be postponed.

AMENDMENT NO. 2 OFFERED BY MR. HUIZENGA OF MICHIGAN

The Acting CHAIR. It is now in order to consider amendment No. 2 printed in part A of the report of the Committee on Financial Services.

Mr. HUIZENGA of Michigan. Mr. Chairman, I offer an amendment.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 9, after line 16, insert the following: “(iii) Engages on behalf of any party in a transaction involving a public shell company.”

“(c) Disqualifications.—An M&A broker is not exempt from registration under this paragraph if such broker is subject to—

(1) suspension or revocation of registration under paragraphs (4);

(2) a statutory disqualification described in section 3(a)(3); or

(3) a disqualification under the rules adopted by the Commission under section 926 of the Investor Protection and Securities Reform Act of 2010 (15 U.S.C. 77d note); or

(A) a final order described in paragraph (4)(H).”.

Page 9, line 17, strike “(C)” and insert “(D)”.

Page 9, line 23, strike “(D)” and insert “(E)”.

Page 10, line 23, insert “privately held” after “means a.”

Page 13, beginning on line 6, strike “year-end balance sheet” and all that follows through “report of the independent auditor” and insert “fiscal year-end financial statements of the issuer of the securities as customarily prepared by the management of the issuer in the normal course of operation and, if the financial statements of the issuer are audited, reviewed, or compiled, any related statement by the independent accountant.”

Page 13, after line 20, insert the following: “(IV) Public shell company.—The term ‘public shell company’ is a company that at the time of the transaction with an eligible privately held company—

(1) has any class of securities registered, or required to be registered, with the Commission under section 12 or that is required to file reports pursuant to subsection (d);

(2) has no or nominal operations; and

(3) has—

(aa) no or nominal assets;

(bb) assets consisting solely of cash and cash equivalents; or

(cc) assets consisting of any amount of cash and cash equivalents and nominal other assets.”.

Page 14, beginning on line 2, strike “subparagraph (D)(ii)(B)” and insert “subparagraph (E)(i)(D).”.

Page 14, line 15, strike “(ii)” and insert “(i)”.

Page 14, line 18, strike “(ii)” and insert “(i).”

February 3, 2016
I yield back the balance of my time. Ms. MAXINE WATERS of California.

Mr. Chairman, I rise in opposition to the amendment even though I am not opposed to the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for five minutes.

Mr. Chairman, I would like to thank Mr. HUIZENGA for addressing one of the many glaring problems with this bill. Title III significantly expands an exemption granted by the SEC to certain brokers but without providing the significant protections the SEC deemed important for small businesses or investors.

This amendment would prevent people who have committed fraud and securities violations—individuals who couldn’t sell used stock but who could sell your small business in the underlying bill—from claiming this exemption.

However, why does the amendment limit the bad actor provision to just this title? Why not make it explicit that persons and companies that have committed fraud are not eligible to take advantage of any of the exemptions provided in this act?

I also appreciate that the amendment prevents public shell companies from taking advantage of this title, which would otherwise allow private companies to circumvent important public company disclosures.

Mr. Chairman, I would like to know why the author completely ignores the other six investor protections in the SEC’s no action relief. I am not aware of any witness before our committee who explained how these other investor protections were burdensome. Indeed, they seemed like commonsense protections.

For example, the SEC required mergers and acquisition brokers to represent both parties of the transaction to obtain the consent of both parties to that conflict of interest. Similarly, the SEC prohibited M&A brokers from engaging in private placements and arranging buyer financing because the narrow exemption from registration is intended for persons who fairly facilitate the merger of small businesses, not for the promoters who are compensated for their ability to hype up the value of the companies and attract new investment.

If Republicans truly wanted to codify the SEC’s administrative action to provide legal certainty for these brokers, then they should have accepted the Democratic amendment adding back in these protections. But that isn’t the point of this bill, and this amendment is just a sleight of hand that all is well.

I yield back the balance of my time. The Acting CHAIR. The question is on the amendment offered by the gentleman from Michigan (Mr. HUIZENGA). The amendment was agreed to.

AMENDMENT NO. 3 OFFERED BY MR. SHERMAN

The Acting CHAIR. It is now in order to consider amendment No. 3 printed in part A of House Report 114–414.

Mr. SHERMAN. Mr. Chairman, I offer my amendment.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 9, after line 16, insert the following:

“(C) DISQUALIFICATION FOR CERTAIN CONDUCT.—An M&A broker may not make use of the exemption under this paragraph if the broker—

(i) has been barred from association with a broker or dealer by the Commission, any State, or any self-regulatory organization; or

(ii) is suspended from association with a broker or dealer.

(D) TRANSACTIONS INVOLVING SHELL COMPANIES PROHIBITED.—

(i) IN GENERAL.—An M&A broker making use of the exemption under this paragraph may not engage in a transaction involving a shell company, other than a business combination related shell company.

(ii) SHELL COMPANY DEFINED.—In this subparagraph, the term ‘shell company’ means a company that—

(I) has no or nominal operations; and

(II) has—

(aa) no or nominal assets;

(bb) assets consisting solely of cash and cash equivalents; or

(cc) assets consisting of any amount of cash and cash equivalents and nominal other assets.

(ii) BUSINESS COMBINATION RELATED SHELL COMPANY DEFINED.—In this subparagraph, the term ‘business combination related shell company’ means a company that is formed by an eligible privately held company solely for the purpose of—

(I) changing the corporate domicile of such entity solely within the United States; or

(II) completing a business combination transaction (as defined in section 230.165(f) of title 17, Code of Federal Regulations) among one or more entities other than the shell company, none of which is a shell company.
disclosure as to the parties the broker represents and obtain written consent from all parties to the joint representation.

(G) PASSIVE BUYERS PROHIBITED.—An M&A broker may not bind a party to a transfer of ownership of an eligible privately held company to a passive buyer or group of passive buyers.

(H) NO AUTHORITY TO BIND PARTY TO TRANSFER.—The M&A broker may not bind a party to a transfer of ownership of an eligible privately held company.

(1) RESTRICTED SECURITIES.—Any securities purchased or received by the buyer or M&A broker in connection with the transfer of ownership of an eligible privately held company shall be restricted securities (as defined in section 230.144(a)(3) of title 17, Code of Federal Regulations).

Page 10, line 11, strike “20 percent” and insert “25 percent”.

Page 10, beginning on line 11, strike “20 percent” and insert “25 percent”.

Page 10, line 8, insert “and” after “officer”.

Page 10, beginning on line 11, strike “20 percent” and insert “25 percent”.

Page 10, line 14, strike “20 percent” and insert “25 percent”.

Page 2, beginning on line 19, strike “will be active in the management of” and insert “will actively operate”.

The Acting CHAIR. Pursuant to House Resolution 595, the gentleman from California (Mr. SHERMAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. SHERMAN. Mr. Chairman, there may be some acrimony on the floor from time to time, but I think we are mostly in agreement.

The SEC, under some tutelage from the committee, in January of 2014 issued its no-action letter providing that, in certain circumstances, a small business merger or acquisitions broker would not have to register. They issued this in January of 2014.

The gentleman from Michigan brought forward a good bill designed to codify that decision by the SEC, but he did not in his codification include six of the limitations that the SEC had in its no-action letter.

Now he has brought forward and I think we just adopted an amendment to add to his bill the two most important limitations that the SEC had in its no-action letter.

It excludes from the exemption those who have been bad actors in the past and barred from association with broker-dealers, and it excludes shell companies.

As far as it goes, I think that is a good amendment. I am glad we adopted it.

But if we are going to deal with this area with statute, we should take a look at the other exclusions from the exemption that the SEC included in its no-action letter.

The amendment that is before us today is the same amendment I offered in committee. It does everything that the gentleman from Michigan’s amendment does and takes the additional exclusions that the SEC had in its no-action letter.

The most important of these is to require that, to be eligible, a broker would have to disclose to both parties and get consent from both parties if they are getting paid by both parties.

So if you are getting a seller’s commission and a buyer’s commission, you would tell the buyer and the seller that that is the case. This amendment would add that as a requirement for the exemption.

We would also have, as the SEC had in its no-action letter, an exclusion where there are passive buyers. So this is the amendment I offered in committee. It includes the amendment that we just adopted. It includes the other exclusions from the exemption that the SEC adopted.

None of the SEC’s exclusions from its exemption have been controversial. So I would like to go beyond the gentleman from Michigan’s amendment and include all of those exclusions from the exemption.

I reserve the balance of my time.

Mr. HENSARLING. Mr. Chairman, I claim the time.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. HENSARLING. Mr. Chairman, I do appreciate the gentleman from California’s amendment. I think there are a lot of thoughtful ideas here. I appreciate the sentiment by which he approached the amendment.

I do believe, though, that, in this particular case, this amendment goes a little bit too far in the wrong direction and ultimately can prove to hurt a number of small businesses and economic growth.

Number one, a lot of what the gentleman is trying to achieve I think has already been achieved in the amendment by the gentleman from Michigan that we just approved on voice vote here on the floor.

I would also add that, with the amendment from the gentleman from Michigan, who has the underlying title of this bill, the language now is identical to the bipartisan Senate language.

We know how difficult it is to get laws passed. I think it is important, where we can, to align the language with the other side of the Capitol. I think this could ease passage of a bill which is bipartisan, again, on both ends of the Capitol.

Again, I appreciate what the gentleman from California is trying to do, but I think that the gentleman from Michigan strikes the appropriate balance.

Mr. SHERMAN. Will the gentleman yield?

Mr. HENSARLING. I yield to the gentleman from California.

Mr. SHERMAN. Mr. Chair, there might be some advantage to having language identical to the Senate, if the bill was identical to a Senate bill.

In this case, this title is being added to five other titles. In the committee, it exists in an odd manner to split it into separate bills. Here on the floor, it is one bill. So there is no particular advantage to conforming to the Senate.

If the Senate language does not exclude from the exemption those brokers that fail to disclose that they are representing both sides, then that proves the additional wisdom.

Mr. HENSARLING. Mr. Chairman, reclaiming my time. I appreciate the gentleman’s push, but we still are not going to quite see things his way.

I believe that the gentleman from Michigan strikes the proper balance here, particularly at a time when, again, our working families are struggling and this economy is limping along. We had a first-quarter GDP report where this economy was barely on life support systems.

We have to jump-start our small businesses. We have to jump-start capital formation. The gentleman from Michigan has the right balance.

I reserve the balance of my time.

Mr. SHERMAN. Mr. Chairman, we have tough economic conditions out in our country. We need more jobs. We need business to operate smoothly.

How many jobs do we create by telling merger and acquisition brokers that they can get fees from the seller and ultimately get fees from the buyer and not tell either party that they are getting paid by both parties?

That is not an essential element. That failure to disclose is not an essential element of rejuvenating the American economy.

This bill is not identical to the Senate bill because this bill has six titles. The Senate bill has one title.

Here is a chance for the House to show its superior wisdom to include language that neither the author of the bill nor the chairman of the committee argues against in substance to add language that says if you want to enjoy this exemption, you have to tell both parties that you are being paid by both parties if, indeed, you are being paid by both parties.

So this additional disclosure requirement is good on both sides. It does nothing to delay the adoption of the additional legislation. I am confident that a rejuvenation of our economy does not require that we conceal from those who are buying and selling businesses the fact that their broker is getting paid by both sides. Let’s provide for full disclosure. Let’s revitalize the economy.

I yield back the balance of my time.

Mr. HENSARLING. Mr. Chairman, I yield the balance of my time to the gentleman from Michigan (Mr. HUIZENGA).

Mr. HUIZENGA of Michigan. Mr. Chairman, I appreciate the efforts of my colleague from California. We have worked well on a number of these issues.

I would point out, though, that may not mean, you, some other are trying to act like this. Let’s make a monumental thing whereas mergers and acquisitions are going to fail or flounder whether your amendment is passed.
While it may be of some interest and I think it has some things that are either benign or not terribly objectionable, we do know—and I think we probably would both jointly agree—that oftentimes our problem isn’t between us. It is often trying to get this body and the Senate to move. If we can have one less thing to have a disagreement with them on as we are advancing this, I am all for it.

I will specifically say subsection (C) on page 1, as you are talking about, my amendment adds what you have in there and more bad actor disqualifications. Actually, your amendment would roll that back. I don’t think that was your intention, but that is what it would do.

In subsection (D), our amendment adds the same disqualification, but is shorter and simpler to understand, which is also important as we are dealing with the Senate.

In subsection (E), there is no apparent reason to prevent private business sellers from getting a transaction fee from a bank that is affiliated with an M&A broker. There shouldn’t be some sort of exclusion on that.

In subsection (F), it is highly, highly unusual that an M&A broker would work for both the seller and the buyer in the same transaction. So I think this is maybe a section in search of a problem.

Subsection (G), adding this prohibition is frankly redundant, in our view, and could cause some more confusion.

In subsection (H), the reasonable belief element sort of does the same thing. I am not sure what we are trying to get at other than maybe causing some more confusion. It is not, again, an intention of that but is what it would do.

Subsection (I) is simply restating the existing law.

So I think, as we are going through this, we are not wildly out of disagreement. I just believe that the amendment that was offered and passed earlier, which puts us in line, again, with the efforts of the Senate, is a better way to go.

Again, to my friend from California, this is not you that I will direct this at, but others on your side of the aisle who are pointing to the no-action letter as the reason why we don’t have to do this legislation.

Yet, now we are saying we have to pass your amendment because it is only a no-action letter and we need this into the law. So we can’t have it both ways.

Mr. HENSARLING. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. SHERMAN).

The amendment was rejected.

The Acting CHAIR. The Committee will rise informally.

The Speaker pro tempore (Mr. THORNBERRY) assumed the chair.

MESSAGE FROM THE PRESIDENT
A message in writing from the President of the United States was communicated to the House by Mr. Brian Pate, one of his secretaries.

The SPEAKER pro tempore. The Committee will resume its sitting.

ENCOURAGING EMPLOYEE OWNERSHIP ACT OF 2015
The Committee resumed its sitting.

The Acting CHAIR (Mr. BYRNE). It is now in order to consider amendment No. 4 printed in part A of House Report 114–414, which the Chair understands will not be offered.

It is now in order to consider amendment No. 5 printed in part A of House Report 114–414, which the Chair understands will not be offered.

AMENDMENT NO. 6 OFFERED BY MR. ISSA
The Acting CHAIR. It is now in order to consider amendment No. 6 printed in part A of House Report 114–414.

Mr. ISSA. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 16, after line 9, insert the following:

(d) LIMITATION TO NEW FILERS.—The exemptions set forth in subsections (a) and (b) shall apply only with respect to issuers that are first required to file financial statements and other periodic reporting with the Commission under this Act after the date of the enactment of this Act.

The Acting CHAIR. Pursuant to House Resolution 595, the gentleman from California (Mr. ISSA) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. ISSA. Mr. Chairman, my amendment quite simply makes this bill better. Since 2011, almost 5 years, virtually every single public company has reported financials to the SEC by electronic, searchable, readable data format, often called XBRL.

This searchable data allows the investor community to look through data in a way they never could under paper, and its accuracy is as good as or as bad as the source material that goes onto that paper. Now, being the author of the bill and myself agree on one thing: printing paper and sending electronic format is outdated. There is no question at all that the SEC, the Securities and Exchange Commission, is long overdue to convert to an all-electronic filing.

As a matter of fact, for most of the people that will be listening and watching today, they are already electronically filing their income tax and then printing out a paper copy to stick in a drawer. The idea that a public company would have to file four or more millions of dollars in compliance every year would file paper, and then that paper would be electronically scanned, sent to India, converted to data, and then analyzed by the investment community is truly about the most backwards way one could imagine doing it.

What my amendment to Mr. Hurt’s bill that is enclosed to the bill states, we understand that some small startup companies, even though they are going public, may have a difficult time transitioning, and the idea that they would be allowed to go optional, as Congressman Hurt’s bill intends, is simply a giant step backwards. As we go toward all-electronic filing and the elimination of the absurdity of paper as the standard of the Securities and Exchange Commission, we only ask that this provision be one that is focused on new companies for a short period of time. That is the reason the amendment takes the 5-year exemption to all companies to simply an exemption to new IPOs; in other words, companies that may not at the time of their public offering already have the software in place to do this filing.

Mr. Chairman, I reserve the balance of my time.

Mr. HENSARLING. Mr. Chairman, I claim the time in gentle opposition.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. HENSARLING. Mr. Chairman, I say I rise in gentle opposition—I do not say that tongue in cheek—because the gentleman from California is highly respected as a Member of this body. His opinions are respected as an entrepreneur and as a small-business individual. His acumen is respected as an investor, and so it is not a pleasant experience to oppose one of his amendments. I appreciate the sentiment with which he offers it.

I would just remind all that title IV of the bill provides an optional exemption from the XBRL data filing requirements for emerging growth and smaller public companies for a limited period of time. I think there is an open question. One thing that the gentleman didn’t get the benefit of was hearing all the testimony that we had within our committee. There was a lot of testimony about just how costly this is to a number of these companies.

Now, if the investing public demands it, then smaller companies will do it. For example, there was a Sarbanes-Oxley exemption for some smaller companies and only roughly half of them took it because for certain smaller companies what they found out was, well, the investors demanded it. The free market determine this. We are not talking about the types of information that are provided in disclosure. We
Mr. HENSARLING. Mr. Chairman, I yield back the balance of the time.

Ms. MALONEY. Mr. Chairman, I reserve the balance of my time.

Mr. ISSA. Mr. Chairman, I yield 30 seconds to the gentlewoman from New York (Mrs. CAROLYN B. MALONEY), a senior member of the Committee on Financial Services.

Mrs. MALONEY. Mr. Chairman, I rise in support of the gentleman’s well thought out and meaningful amendment.

All financial regulators in the developed world require searchable PDFs, as his bill would allow, and that is why the Securities and Exchange Commission began requiring the extensible business reporting language. XBRL is the global standard for structured financial reporting. Why should we be any different?

By lowering the requirement for 60 percent of the firms, as H.R. 1665 does, it is a step backward for corporate transparency and the ability for investors to invest in new startups. It is a well-thought-out amendment. I congratulate you on it. I support it.

Mr. HENSARLING. Mr. Chairman, I reserve the balance of my time.

Mr. ISSA. Mr. Chairman, may I inquire as to how much time each side has remaining?

The Acting CHAIR. The gentleman from California has 1 minute remaining. The gentleman from Texas has 2 minutes remaining.

Mr. ISSA. Mr. Chairman, in closing, I have been on the board of a public company, multiple public companies. I have taken a company public, and that is $50,000 a year that could go into R&D, that could go into productivity enhancement, that could go into hiring more individuals.

I believe that saying that XBRL is unimportant, but I think to some extent that at least for the smaller companies, and particularly at this time in our country’s economic history, where we came off of an incredibly horrendous quarter, and we know that after 8 years of Obamanomics, we are limping along at half of our average economic growth, I think we want to err on the side of our small businesses, of our entrepreneurial ventures, of our small business startups, so I appreciate the value that provides to a lot of companies, a lot of investors, but I think if they demand it enough, we will provide it.

Mr. Chairman, I reserve the balance of my time.

Mr. HENSARLING. Mr. Chairman, I am happy to yield the balance of my time to the gentleman from Virginia (Mr. HURT), the author of title IV of H.R. 1675.

Mr. HURT of Virginia. Mr. Chairman, I join the chairman of the Committee on Financial Services in my respect for the proponent of this amendment. I certainly appreciate his efforts in attempting to make this title better, but I would point out a couple of things.

The first thing I would say, as the chairman of the Committee on Financial Services has said, this is a voluntary exemption. It is a temporary exemption. We heard in the committee this Congress and in previous Congresses that the XBRL format that has been required by the SEC since 2009 has not been reliable. A Columbia study that was done in 2012 indicated at that time 60 percent of the public companies actually used, found XBRL format useful in doing analysis of public companies.

It is for those reasons that we believe that this temporary, voluntary option for small companies not submitting to the SEC in this format better, but I would point out a couple of things.

I would submit to you that what this amendment does is it would require all companies that are currently submitting in this form to continue. What it would do is exempt future companies. What it would do is exempt future companies. This amendment goes to the very essence of the underlying measure and would not substantively provide any relief to the small companies who are currently being negatively impacted by this failed XBRL system.

I urge my colleagues to oppose this amendment and ask for the support of the underlying bill.

Mr. HENSARLING. Mr. Chairman, I yield back the balance of the time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. ISSA).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. ISSA. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 8 of rule XVIII, further proceedings on the amendment offered by the gentleman from California will be postponed.

AMENDMENT NO. 7 OFFERED BY MRS. CAROLYN B. MALONEY OF NEW YORK

Mrs. CAROLYN B. MALONEY OF NEW YORK

The Acting CHAIR. It is now in order to consider amendment No. 7 printed in part A of House Report 114-14.

Mrs. MALONEY. Mr. Chairman, as the designee of the gentleman from Minnesota (Mr. ELLISON), the prime author of the amendment, of which I am a lead cosponsor, I offer an amendment.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Strike title IV.

The Acting CHAIR. Pursuant to House Resolution 595, the gentlewoman from New York (Mrs. CAROLYN B. MALONEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman.

Mrs. CAROLYN B. MALONEY OF NEW YORK

Mr. Chairman, this amendment strikes title IV of H.R. 1675.

Title IV of this bill requires the Securities and Exchange Commission exempt public companies with less than $250 million in annual revenue from reporting their financial information as searchable data. This exemption would cut off access to searchable, easily accessible data for about 60 percent of all public companies.

Instead of using searchable, structured data, we would return to a paper-based system. Exempting 60 percent of public companies from filing their financials in a structured, understandable way makes it harder for the people who rely on the SEC’s official disclosure documents to understand what is going on in a company. Eliminating the requirement for searchable data also ought to give relief for those who are currently having to do it and would like not to do it.

I believe that we should allow all emerging growth companies and smaller issuers to take advantage of this voluntary exemption while the SEC is working on getting this format ready for prime time.

This amendment goes to the very essence of the underlying measure and would not substantively provide any relief to the small companies who are currently being negatively impacted by this failed XBRL system.

I urge my colleagues to oppose this amendment and ask for the support of the underlying bill.

Mr. HENSARLING. Mr. Chairman, I yield back the balance of the time.
 harms researchers and academics, regulators, investors, and the general public. All of them will have a harder time understanding the financial performance of corporations.

If title IV is passed, documents that are nonsearchable must be manually reviewed to extract useful information, and manual review is much more prone to error. No other financial regulator in the developed world does not require searchable PDFs. That is why the Securities and Exchange Commission began requiring financial filings be made in eXtensible Business Reporting Language, XBRL. It is the global standard for structural financial reporting. We would be behind the world if we do this.

By removing the requirement for 60 percent of firms, H.R. 1665 is a backward step for corporate transparency and for investor knowledge and investors.

I support this amendment, and I believe that we need to move our financial analysis into the modern world.

I yield the balance of my time to the gentleman from Minnesota (Mr. Ellison), my distinguished colleague, who is now here.

Mr. Ellison. Mr. Chairman, if you are a company that is going public, if you are a company that wants to sell shares of your outstanding companies, you are not a small business. You are a big business. You are in the big leagues.

Along with the privileges comes some responsibility. If you are too small to carry your data, then you are too small to be on the Nasdaq. If you can't run with the big dogs, you should stay on the porch.

True, they could choose to report in searchable, structured data, but that would result in a fractured system. Some report by searchable data, some by PDFs.

I want the people who review corporate financial disclosure documents to have the data that they need. They need to find corporate financial data faster, in more detail, and at lower cost. That is where XBRL can be used.

When the exemption was brought before the committee, two witnesses testified to costs of $50,000 or more to file in XBRL. But these two companies appear to be outliers.

The American Institute for Certified Public Accountants found that smaller firms pay, on average, $10,000 a year. Meanwhile, the group of companies that would be exempt under this bill paid more than $1 million in legal and financial banking fees in 2013 just to raise capital from investors. So the cost of XBRL is minuscule compared to the other costs of being a public company.

This amendment is meritorious, and I ask for its support.

Mr. Hensarling. Mr. Chairman, I claim the time in opposition.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. Hensarling. Mr. Chairman, every working American knows this economy stinks. There are no two ways about it.

We have got to jump-start our small businesses and our emerging growth companies. Entrepreneurship is at a generational low. Let's do something to actually help our small businesses raise capital. You can't have capitalism without capital.

The gentleman from California was certainly couched as a friendly amendment. This amendment, to be sure, is not a friendly amendment because what it does is strike title IV altogether. I certainly appreciate the comments made by the gentleman and the gentlemanwoman in support of the amendment, but I would suggest to you that this amendment is not a constructive approach.

There have been a lot of misstatements about what this title does, but the fact is this: If the SEC was ready to eff itent XBRL, we wouldn't be having this conversation, but the SEC is not. Smaller and emerging growth companies are wasting valuable resources on a system that is not ready for prime time.

One of the things that was said earlier was that this exemption would affect 60 percent of the companies that are regulated. The truth of it is and the perspective that needs to be remembered is this:

Number one, among those 60 percent of companies, we are talking about only less than 7 percent of the market value of all public companies. So, in the grand scheme of things, we are
The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR (during the vote). There is 1 minute remaining.

So the amendment was rejected.

The result of the vote was announced as above reported.

The Acting CHAIR. The question is on the amendment in the nature of a substitute, as amended.

The amendment was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. YOUNG of Iowa) having assumed the chair, Mr. BYRNE, Acting Chair of the Committee that has been the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 1675) to direct the Securities and Exchange Commission to revise its rules so as to increase the threshold amount for requiring issuers to provide certain disclosures relating to compensatory benefit plans, and, pursuant to House Resolution 599, he reported the bill back to the House with an amendment adopted in the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on the amendment to the amendment reported from the Committee of the Whole?

If not, the question is on the amendment in the nature of a substitute, as amended.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMEND

Ms. FRANKEL of Florida. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. The motion is the gentleman from Florida to the bill.

Mr. Speaker, I ask unanimous consent to strike from line 2, page 19, after line 22, insert the following:

SEC. 2. PROHIBITION ON BAD ACTORS AND PROTECTION OF AMERICAN RETIREES.

(a) PROHIBITION.—A bad actor may not make use of any exemption, safe harbor, or other authority provided by this Act or an amendment made by this Act or a regulation pursuant to subsection (a) if such amendment or regulation would weaken the protections provided for American seniors.

Ms. FRANKEL of Florida (during the reading). Mr. Speaker, I ask unanimous consent to dispense with the reading.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Florida?

There was no objection.

The SPEAKER pro tempore. The gentlewoman from Florida is recognized for 5 minutes.

Ms. FRANKEL of Florida. Mr. Speaker, this is the final amendment to the bill, which will not kill the bill or send it back to committee. If adopted, the bill will immediately proceed to final passage, as amended.

Mr. Speaker, in a bipartisan spirit, I offer a motion to recommit in order to make needed improvements to the current proposal.

Let me start with the story of Charles Bacino, as noted in “The Street,” a financial news service.

Charles grew up in Pueblo, Colorado. He was an accomplished violinist. He taught music for over 30 years and brought joy to audiences across our country, from Disney World in Orlando to the Venetian in Las Vegas. He even performed alongside the famed tenor, Luciano Pavarotti. But most importantly, Charles was the loving father of three children and seven grandchildren.

At age 73, as Charles lay dying of pancreatic cancer in a hospital bed in Las Vegas, he called his financial affairs manager to his bedside to discuss his investments and put his final affairs in order. As a morphine drip was working to ease his pain, Charles’ financial adviser persuaded him to invest $82,000 in a cocoa and banana plantation in Ecuador. Charles gave the adviser the keys to his checkbook, and in a matter of moments, his money was gone.

Financial fraud against our seniors cuts deep. Sadly, there are many more out there like Charles. One in five Americans over age 65 have been victimized by financial fraud. This equates to seniors losing nearly $13 billion a year due to financial fraud.

I am sad to report to you that close to 1 million seniors are currently forgoing meals as a result of economic hardship due to financial abuse, and this problem may get worse as older Americans live longer.

Here is the thing: the bill that my colleagues on the other side of the aisle bring to us today shields abusers like Charles, so-called financial adviser and strips Congress of the power to protect our grandmothers and grandfathers from con artists who swindle them.

Mr. Speaker, my motion to recommit would preserve decades of SEC consumer protections designed to help folks just like Charles. It would ensure that those criminals who prey on seniors will be held accountable.

My amendment adds something to this legislation that every person in
Mr. Speaker, I urge my colleagues to vote “yes.”

Mr. Speaker, I yield back the balance of my time.

Mr. HENSARLING. Mr. Speaker, that was a heartbreaking story, and I have no doubt that it is true. But I should urge the gentleman to perhaps actually read the bill. Unlike ObamaCare and unlike Dodd-Frank, perhaps if the gentleman actually read the bill, which is 20 pages, not 2,000 pages, she would understand that H.R. 1675 has nothing to do with her story.

Mr. Speaker, at best, this is a duplicative amendment. It is a superfluous reaction to a non-existent problem.

Mr. Speaker, I urge my colleagues to think of the taxpayer and put America back to work, and to help our growth companies, it is time to reject the motion to recommit.

Mr. Speaker, I urge my colleagues to vote “yes.”

Mr. Speaker, at best, this is a duplicative amendment. It is superfluous.

Mr. Speaker, I urge my colleagues to think of the taxpayer and put America back to work, and to help our growth companies, it is time to reject the motion to recommit.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will oblige the request of the gentleman from Texas to reconvene the Committee on Small Business on the question of passage, which is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 265, nays 8.

The vote was taken by electronic device, and there were—ayes 265, nays 8.

The vote was taken by electronic device, and there were—ayes 265, nays 8.
Mr. KOELINER of New York. Mr. Speaker, my vote was not recorded on rollcall No. 59 on the Maloney/Ellison/Quigley/McGovern Amendment for consideration of H.R. 1675—Encouraging Employee Ownership Act of 2015. I am not recorded because I was absent due to the birth of my son in San Antonio, Texas. Had I been present, I would have voted "aye."
HOUR OF MEETING ON TOMORROW

Mrs. MILLER of Michigan. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 10 a.m. tomorrow.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Michigan?

There was no objection.

The text of the concurrent resolution is as follows:

S. CON. RES. 29
Resolved by the Senate (the House of Representatives concurring),

SECTION 1. USE OF THE ROTUNDA AND EMANCIPATION HALL OF THE CAPITOL.

The rotunda and Emancipation Hall of the United States Capitol are authorized to be used on January 20, 2017, by the Joint Congressional Committee on Inaugural Ceremonies in connection with the proceedings and ceremonies conducted for the inauguration of the President-elect and the Vice President-elect of the United States.

The concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

AUTHORIZING THE USE OF EMANCIPATION HALL IN THE CAPITOL VISITOR CENTER FOR A CEREMONY TO PRESENT THE CONGRESSIONAL GOLD MEDAL TO THE FOOT SOLDIERS WHO PARTICIPATED IN THE 1965 SELMA TO MONTGOMERY MARCHES

Mrs. MILLER of Michigan. Mr. Speaker, I ask unanimous consent that the Committee on House Administration be discharged from further consideration of House Concurrent Resolution 109, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Michigan?

There was no objection.

The text of the concurrent resolution is as follows:

H. CON. RES. 109
Resolved by the House of Representatives (the Senate concurring),

SECTION 1. USE OF EMANCIPATION HALL FOR CEREMONY TO PRESENT CONGRES SIONAL GOLD MEDAL TO THE FOOT SOLDIERS WHO PARTICIPATED IN THE 1965 SELMA TO MONTGOMERY MARCHES

Emancipation Hall in the Capitol Visitor Center is authorized to be used on February 24, 2016, for a ceremony to present the Congressional Gold Medal to the foot soldiers who participated in the 1965 Selma to Montgomery marches, in recognition of their heroic bravery and sacrifice, which served as a catalyst for the Voting Rights Act of 1965.

Physical preparations for the conduct of the ceremony shall be carried out in accordance with such conditions as the Architect of the Capitol may prescribe.

The concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

CONGRESSIONAL RECORD — HOUSE
February 3, 2016

SUCCESS OF SOUTH HILLS SCHOOL OF BUSINESS & TECHNOLOGY

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, as co-chairman of the bipartisan Career and Technical Education Caucus, I want to recognize the accomplishments of the South Hills School of Business & Technology, which has campuses based in Pennsylvania’s Fifth Congressional District.

I was recently notified by school officials that they have placed a percent of their 2014 graduates in jobs within their fields of study. Now, that statistic is 10 percent higher than the average occupational placement rate for associate degree graduates. Additionally, the school also had a job placement rate of close to 100 percent for graduates of their criminal justice, business office specialist, and administrative medical assistant programs.

This stands as further evidence that careers in our career and technical education fields are in demand. It also serves as a reminder for high school students across the Nation that a technical education is a great option for their futures.

Madam Speaker, the South Hills School of Business & Technology is just one example of how these institutions create job-ready employees for 21st century careers.

HONORING KENTUCKY SENATOR GEORGIA POWERS

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Madam Speaker, I rise to celebrate the life and service of Georgia Davis Powers, former State senator and civil rights icon from my hometown of Louisville, Kentucky.

Senator Powers, who passed away early Saturday morning, leaves behind a city and commonwealth that are fairer and offer more opportunity because of her lifelong dedication to the fight for justice.

Generations of Kentuckians have benefited from the sacrifices she made on the front lines of protests and from the trials she blazed as both the first woman and first African American to be elected to the Kentucky Senate. As we strive to build on the difficult work of creating a more equal and just society, I know that her inspiration will continue to lift us and show us the way.

Louisville has lost a great champion, but her legacy will live on, in our community and beyond, forever. I am honored to have called Senator Powers a friend and that she called Kentucky “home.”

HONORING GARY FULKS

(Mrs. HARTZLER asked and was given permission to address the House for 1 minute.)

Mrs. HARTZLER. Madam Speaker, I rise to honor and thank Mr. Gary Fulks for his work and service to Missouri’s Fourth District. Gary is retiring as the general manager of Sho-Me...
February 3, 2016

CONGRESSIONAL RECORD—HOUSE

H541

Power Electric Cooperative after 42 years of providing energy to communities from San Diego to south central Missouri.

Mr. Fulks has been an outspoken leader for reliable and affordable energy for the people of the Fourth District. Serving on the NRECA Transmission Task Force, the Southwest Power Pool Engineering & Operations Committee, the Executive Committee of the Southeastern Electric Reliability Council, and several other councils and committees, Mr. Fulks has been pivotal in enacting programs that are cost-effective and innovative, which have greatly benefited members and co-op employees.

Under Mr. Fulks’ leadership, Sho-Me Power has continued the legacy of progressively meeting the growing needs of Missourians and in providing wholesale power to nine distribution cooperatives. Increasing his impact on the region, he has helped start and operate Sho-Me Technologies, which makes available an extensive network of fiber-optic communications to members, many of whom are without other forms of Internet access.

Thank you, once again, Gary, for your vision and work for the benefit of the Fourth District. You are an example of the leadership that this Nation needs. I anticipate hearing of your new chapter in life and know it will benefit not only Missouri, but our Nation.

EXECUTIVE WAIVES NEW VISA WAIVER RESTRICTIONS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POE of Texas. Madam Speaker, the Constitution is clear: Congress shall make the law, the judiciary interpret the law, and the executive enforces the law.

The President, however, seems to think he can make and interpret the law. The President plans to obtain a visa before they come to America.

The Speaker, however, seems to think he can make and interpret the law. The Speaker’s announced policy of January 6, 2015, the gentlemanwoman from New Jersey, is hereby recognized for 60 minutes as the designer of the minority leader.

GENERAL LEAVE

Mrs. WATSON COLEMAN. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and to include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection?

Mrs. WATSON COLEMAN. Madam Speaker, the city of Flint, Michigan, has been hit by a crisis of massive proportion. Its impact on the long-term health and future success of its residents remains unclear.

The fact I find most disturbing is that it is a completely manmade crisis. It grew out of the same kind of stubborn faith in austerity measures that has handicapped our ability to govern for years. It grew out of a failure to protect the Flint River from environmental damage. It grew out of both a failure to invest in Flint’s crumbling infrastructure and in the willful disregard for the people of that city, a city in which more than 40 percent of the residents live below the poverty line and in which the majority of families are African American.

My colleagues and I are here on the floor this evening to urge every Member of Congress to understand one thing: If we fail to acknowledge the issues that led to the Flint water crisis, we will see similar and equally devastating events in more and more cities across the country.

We need to recognize that tunnel vision for deficit reduction creates more problems than it solves. The emergency manager appointed by Governor Snyder instituted a plan to run Flint like a business in order to bring it back from bankruptcy. In the process, he sought out the least expensive options for basic needs, like water. In doing so, he decided to pull from the corrosive and contaminated Flint River without ensuring the treatment protocol necessary to ensure the water was clean. We now know that, although the Flint River is in poor shape, a little additional spending could have prevented this crisis. Instead, Flint went the bare bones route, leaving a generation of residents to suffer the permanent consequences.

Madam Speaker, Congress has, once more, been so focused on reducing the deficit that we have lost sight of our responsibility to govern. Only a few months ago did we finally abandon the absurd policy of sequestration, which has hampered the functioning of countless programs over the past several years. The benefits of austerity and small government are questionable at best. I believe we would all be wise to remember it.

Unfortunately, that is not the only lesson that we can take away from this crisis. This Congress has made under-mining environmental and energy regulations one of its core objectives. If we want to prevent similar crises in the future, we must be willing to protect resources, like the Flint River, from the kind of contamination that allowed its water to corrode lead pipes.

If reducing the deficit has been the first priority for my colleagues on the other side of the aisle, allowing corporations and big businesses to take whatever liberties with our environment they choose has to be a close second.

Under the majority of this House, our babies would choke on smog before we limit the amount of pollution a single smokestack can spew out. Our streams and rivers would poison even the fish swimming in them before we would set restrictions on where companies can dump their chemical byproducts. Our forests and farmlands would turn barren before we would question the long-term impact of fracking.

It took years to turn the Flint River into the downright dangerous water source that has caused so many problems. But for other rivers, lakes, or streams, there may still be time to repair or prevent the damage that we have done. Flint should move us to strengthen, not weaken, our environmental protections.

Madam Speaker, there is one more lesson to learn here, and it is perhaps the most important. The infrastructure in Flint, like in so many other cities, is outdated, and no one at the local, State or Federal level seems willing or capable of making the necessary investments.

Today in our Oversight and Government Reform Committee hearing, one of the topics of concern was that, even if individual homes had replaced their old lead pipes, the city’s pipes would still have caused a major problem. Madam Speaker, that is a matter of infrastructure at the most basic level.

In my home State of New Jersey, we spent more than a decade leading the way in the battle against lead poisoning. But with the onset of Governor Christie’s administration, all these advances have also come to an abrupt halt there.

There are now 11 cities with levels of lead higher than what has been reported in Flint right in my State of New Jersey. This contamination from lead comes from paint instead of water.
Madam Speaker, there are so many lessons we need to learn from Flint. I have a number of colleagues who are here with me this evening who have raised their voices in support of the people of Flint and who I know agree with me that this must be a watershed moment.

We need to change course to prevent this from happening again and ensure the future of our Nation.

Before I turn this over, I want to take a moment to add that there are a number of organizations, coalitions, and other associations that consistently are dedicated to protecting our natural resources. They defend the Clean Water Act, and they fight for the Clean Air Act. I hope to see more of them fighting for Flint in the near future.

Madam Speaker, I yield to the gentleman from Michigan (Mr. KILDEE), who not only represents the district in which there is Flint, but he is a resident born and raised in the city of Flint, Michigan.

Mr. KILDEE. Madam Speaker, I thank my colleague for conducting this Special Order and raising attention to this situation. Particularly on behalf of the people that I represent, the 100,000 people in my hometown of Flint, Michigan, and lots of different communities and districts—is to get in there and get the budget balanced. The tool they have is a budget scalpel. There are no additional resources, just a knife to cut the budget.

In the case of Flint, one of the places they chose to cut was the essential service of drinking water, temporarily shifting, as a result of an emergency manager, the service of drinking water, temporarily shifting, as a result of an emergency manager, the service of drinking water, temporarily shifting, as a result of an emergency manager, the service of drinking water.

Now, folks don't need to be mad at the river. It is just the river. Actually, it is quite beautiful now since it is no longer used as an open sewer. Some of it has been restored, but it is still river water. It is 19 times more corrosive than the Great Lakes water that we have drawn from decades as our water source.

In a rush to save money, the decision was made to use this river. In an almost inexcusable decision to save a few hundred dollars—really, I think it was estimated at a district $350 a day—they didn't treat the water with phosphate to control corrosion of the pipes.

That is what led to the pipes leaking lead into the water system, into the homes of Flint and some other communities and districts—is to get in there and get the budget balanced. The tool they have is a budget scalpel. There are no additional resources, just a knife to cut the budget.

Now, folks don't need to be mad at the river. It is just the river. Actually, it is quite beautiful now since it is no longer used as an open sewer. Some of it has been restored, but it is still river water. It is 19 times more corrosive than the Great Lakes water that we have drawn from decades as our water source.

In a rush to save money, the decision was made to use this river. In an almost inexcusable decision to save a few hundred dollars—really, I think it was estimated at a district $350 a day—they didn't treat the water with phosphate to control corrosion of the pipes.

That is what led to the pipes leaking lead into the water system, into the homes of Flint and some other communities and districts—is to get in there and get the budget balanced. The tool they have is a budget scalpel. There are no additional resources, just a knife to cut the budget.
Flint under the age of 6 that have been subjected to high levels of lead. That is the moral obligation of the State of Michigan. I just hope—and I know my colleagues stand with me—that, if the State is unwilling to step up and do the right thing, we recognize that these children, these citizens, the people I represent, just like the people we all represent, are not just residents of a State, but they are citizens of the United States, just like when a storm hits, we have a chance and the capacity to do something to ease that suffering, to provide opportunity to overcome a manmade disaster, that we are willing to stand up and do that.

I can’t tell you how much I thank my colleagues for taking some time this week—particularly my colleagues from Michigan, but the folks from all over the country, have been helpful. This is a real crisis, and it deserves a response equal to the gravity of the crisis.

On behalf of the people I represent, thank you so much.

Mrs. WATSON COLEMAN. Madam Speaker, we are particularly grateful for both Representative KILDEE and Representative LAWRENCE for having elevated this discussion to the point that we are giving it serious consideration.

I yield to the gentlewoman from Michigan (Mrs. LAWRENCE), a cosponsor of this Special Order hour.

Mrs. LAWRENCE. Madam Speaker, I stand before you today a true Michigan girl, born and raised in the city of Detroit, having traveled and been in public service for over 25 years in multiple capacities.

Today I had the opportunity, after calling for a hearing to Chairman CRAFFTZ, to call a hearing about this Flint water situation.

I want to tell you, being in Congress and knowing that there are two aisles, two philosophies, two groups—the Republicans and Democrats—and I was so impressed that the chairman responded and granted my request for a hearing.

He understood how important and how volatile the situation is. We struggled a little bit with who would be able to be witnesses, but we had the hearing.

I wanted to tell you that this is something that is not a partisan issue. The message I want to get out today is that this issue where children and families are affected because of the lack of government doing their job is unacceptable. It is unacceptable in these United States of America.

I can tell you, Americans ask for three basic things whoever you are, wherever you live, and that is that we have safe food to consume, clean air to breathe, and clean water to drink because we need all those things to merely live.

We trust our government to protect those things and to ensure that our consumption will not harm us. Clearly, we failed. We failed as a government. This isn’t about wearing your R or D. This is about the government of these United States restoring the trust.

I want you to imagine a mother holding her child and, doing what a mother does with it, is feeding that child. She may mix formula and use water to mix the formula. Then she gives the baby the bottle. She holds that baby, and that is just such a special bonding moment. Or she may be breastfeeding a baby. Or that tremendous moment, breastfeeding a baby, they tell you to drink a lot of water.

In each of those scenarios, she was poisoning her child, poisoning her child for over 7 months before someone stood up and said: Stop using the water.

There are mothers all over this country who are holding their babies closer and praying, I hope this never happens to me.

I feel it is the role of government, Democrats and Republicans, coming together to say never again in these United States of America. We need to find out why this happened, when it happened, and when you knew about it, what did you do about it at all levels of government—state, federal, and local—and there is enough blame to go around.

It doesn’t do those families in Flint any good if we just point fingers. We have to find out and have a full investigation so that we can find out what happened, when it happened, and before the citizens of this great country and say: As your government, we are starting to rebuild the trust, and we are going to fix this.

I want to be on the record that I feel those who made the decisions, from the emergency manager and the Governor, and those who were in a position to make decisions should be providing statements and should be a witness to tell us what happened, why it happened, and who knows, what responsibility lies where.

We have already identified so many areas that legislation will be coming forward. I hope they will be bipartisan. First of all, we need legislation to find out when we find lead in water on a State level, who has the primary role of protecting the water in that State? Where is the power of EPA? We must make it very clear, the notification of the public once lead is identified in water.

We are hearing statements that are all over about why that didn’t happen. What we need to do is legislate, so that it doesn’t happen again, make it very clear and enforce it. We need to increase the enforcement and testing of our water, so we will not have excuses in the future.

The last thing I want to say is: This is an election year, and as those of us who serve in Congress go around and ask people to trust us, to give us their vote, we need to do this, we need to be able to say, in these United States of America we have a history where we didn’t always get it right in America. In America our history will teach us, there are times where one side or the other didn’t quite get it right, but our democracy and the voice of the people rose to a level that demanded action happen.

Today, with this hearing and with us having this opportunity, I hope this is the kind of hearing that we are demanding that action be taken, that our government stand up and do what it is supposed to do. We need to fund the correctional actions that we need to do for the children who have been affected. We need to make sure that we are going to fix the pipes, and this is a bigger discussion, and that is infrastructure.

This Congress cannot continue to kick the can down the road when it comes to infrastructure. This issue is about, yes, we did not treat the water, but these lead pipes in older communities are an issue across this country.

We are going to have to stand up as a government, address it, fund it, and get about the work of fixing our infrastructure.

Mrs. WATSON COLEMAN. Madam Speaker, I would like to thank the Congresswoman. Another very strong and strident voice on behalf of all the citizens in the State of Michigan, and particularly with regard to the issue confronting the victims and the citizens as well as the city officials in Flint, Michigan, is our Congresswoman DINGELL from Michigan.

Mrs. DINGELL. Madam Speaker, I want to thank Congresswoman WATSON COLEMAN for helping to organize this as well as the leadership of Congresswoman BRENDA LAWRENCE and Congressman DAN KILDEE, who is fighting for the people of his district.

Madam Speaker, the first responsibility of government is to keep the American people safe, and it is clear that the government at every level failed the people of Flint. Clean and safe drinking water is a basic human right. Now we need to focus on the people of Flint first, and women and children, and what is happening there.

The most immediate need which we are still struggling with is what they need. People have been donating bottled water, but in Flint, mothers don’t know what is safe and what is not safe because they are still getting conflicting information as to whether the water is safe to bathe in. They have rashes that no one can talk about. We have a Governor who had grandchildren, it would be safe, and an attorney general who is saying if he had children in Flint, he wouldn’t let them bathe. They don’t even know what is safe.

We need to make sure that we are taking care of people, that they have access and clean water. These families have no transportation. They have set up water sites at five firehouses, and yet we don’t think about it because we are so lucky. These people don’t have transportation. They have no way to get there. They are allowed one case of water a day. Now, think about that. If you are trying to bathe your
children and you don’t know if tap water is safe or if the filter is there. Think about if you are cooking spaghetti, a very common meal, you need bottled water to just cook the spaghetti. So we really need to think about the people of Flint and what it means to them daily life.

Secondly, we need to determine what it is they need long term, figure out the resources they need and all work together to get them. As my colleagues have so eloquently said—Mr. KILDEE, Mrs. WATSON COLEMAN—who is accountable? Hold people accountable and make sure this never happens again in America.

But having said that, there are 153,000 water systems in this country. Very bad decisions were made that made a community totally toxic. As my colleague Mr. KILDEE said, not only do we have to fix the infrastructure, but we have almost 10,000 children who are going to need Head Start, they are going to need access for resources for probate, for dental care, for health care, etcetera. How are we going to ensure that they have it? But how are we going to make sure that we are addressing this problem across the country and making sure it never happens again?

The bringing of this tonight, the talking that all of us are doing, may we all work together to fix this man-made crisis, make sure that we learn America safe for every other community.

Mrs. WATSON COLEMAN. Thank you very much, Congresswoman. I now yield to the distinguished lady from New York (Ms. SLAUGHTER).

Ms. SLAUGHTER. Madam Speaker, as a citizen and representative of the State of New York, I want to express my concern to all my colleagues from Michigan that in New York we care very much about this issue.

I want to thank certainly Congresswoman WATSON COLEMAN for her leadership in allowing me to speak tonight. I rise today, Madam Speaker, as the only microbiologist in Congress to discuss the current health disaster in Flint. It is not only a public health disaster but is also a violation of our social contract.

The magnitude of the public health crisis in Flint first became apparent nearly a year ago when lead levels of 397 parts per billion were first detected in the city’s drinking water, 26 times the limit that the EPA uses to trigger action. In fact, last summer, a group of researchers found lead levels high enough to meet the EPA’s definition of toxic waste. No wonder that the filters that have been given to the people of Flint have been rendered useless.

The truth is, the only safe level of lead in water is zero. Sadly, children are particularly susceptible to the damaging effects of lead poisoning. The proportion of infants and children with above-average levels of lead in their blood in Flint has nearly doubled since

this crisis. This toxic metal robs their brains of gray matter in the regions that enable people to pay attention, to regulate emotions, and control impulses. For the rest of their lives, these children will likely suffer from reduced intelligence, behavioral changes, anemia, hypertension, renal impairment, and other lifelong effects of lead poisoning, including a higher risk of incarceration.

What is worse, these children have been poisoned as a result of deliberate decisions and systematic failures by the State of Michigan. Make no mistake about it, all of us who serve in this House and in whom have, as they serve in the Senate, have a responsibility for these children because our oath requires that we will protect everyone from enemies both foreign and domestic. We have no right, and I am going to refer again to the term that I used earlier. We have no right, and I am going to repeat it. We have no right to make sure that our government at every level never fails another community again.

The bringing of this tonight, the talking that all of us are doing, may we all work together to fix this man-made crisis, make sure that we learn America safe for every other community.

Madam Speaker, this problem is the responsibility of Governor Snyder, who believes in running government like a business. The former leader of Gateway Computers promised outcomes and deliverables during his campaign, but he wasn’t selling computers. You are supposed to be giving public service to the people of Flint. In Flint, the emergency manager suggested switching the city’s drinking water supply to the Flint River to save money before people had ever even drank in Flint. The conservative mantra says that cutting spending and shrinking government is the way to go. Well, he sure did
that, and now we have this crisis on our doorstep.

The government and businesses do not have the same bottom line, they should not have the same bottom line, and we should treat businesses like businesses, public services and gov-
ernment like that. They should not confuse one for the other.

We have a crisis of democracy in Flint. Under the guise of fiscal respon-
sibility, we all know one ap-
plies to low-income people and another the well-to-do and the well-heeled—
they are never asked to be fiscally re-
sponsible. For example, in Florida, the poor have to be fiscally responsible. They have to have to be drug tested to get welfare. We give farm subsidies away—
that is welfare, too—and nobody is asked to do anything. It is ridiculous.

It is a double standard.

Under the guise of fiscal responsi-
bility, Gov. Snyder used the State’s emergency manager law to re-
move local power and appoint his own personal emergency managers to run the city of Flint and numerous other committees in Michigan, including my own constituents in Detroit. I am a proud Representative of Min-
neapolis, Minnesota, and its suburbs

today, but I was born in Detroit. I can never—nor would I want to—disconnect my connection to this crisis. This is my crisis. This is the State where I was born and where my two older brothers and my parents and nieces and nephews live right now. My brother, Reverend Brian Ellison of Church of the New Covenant Baptist, was born in Flint.

Of the 25 times that emergency financial managers have been appointed in Michigan since 1990, Rick Snyder has appointed 15 of them. In doing so, he has deprived these communities their right to re-presentative democracy. This kind of idea that when your town is in trouble, democracy and the voice of the people cannot be part of the so-
lution, is offensive to anybody who cares about democracy. Instead, it turns over local power to an outsider who reports only to the Gov-
ernor, not anyone in the community.

I want to talk about Flint by the numbers just for a moment:

8,657 is the number of children under the age of 16 exposed to lead poi-
soning—it may be more now:

$5 million is the amount of money that Flint’s emergency manager was trying to save by switching the water supply to the Flint River:

$1.5 billion is estimated as what it would cost to now replace Flint’s cor-
roded water pipes:

$100 is the amount of money per day it would cost to treat Flint’s water with an anticorrosive agent:

10 is the number of Flint residents who have died from a Legionnaires’ outbreak in Flint that experts suspect could be linked to waterborne illnesses:

Zero is the number of corroded pipes removed from Flint since the Governor decided to appoint this emergency manager.

Now, as I close, I just want to say that there is another group of people who I just want to bring to light today, and that is a group of people in our so-
ciety who live among us who clean hotel rooms, work on farms, and who really work superhard. These are people who are not documented to live in the United States.

One of the stories that we have yet to really put a lot of light on is the fact that undocumented people are being, according to reports, turned away from public health clinics. You go to get the water. There are cases where undocu-
mented people have not been able to get the services that they need.

I just want to say that Flint’s un-
documented migrants hesitated to re-
quest help during the water crisis. On this floor and in other legislatures around this country, conservative leg-
islators are talking about the aliens and all this kind of stuff as if these people are from another planet, but my God, you deny them what? Come on. The fact of the matter is that this is a humanitar-
ian crisis. It deserves the full attention of our government.

The Progressive Caucus will offer an entry in our budget addressing this cri-
isis and coming to the money. Yes, we think the health and safety of the children and the people of Flint are more important than somebody’s tax cut. We do believe that to be true, and we are going to be standing firm for that.

We also urge all of our Members in this body to say wait a minute. Any-
time public policy says the only thing that matters is cutting taxes and we don’t really care about public services, you are going to get a crisis like this. Now that we have seen what this ab-
horrent philosophy will bring, I think we can all say we need to slow down and ask ourselves the question: Isn’t it worth a moment to spend time to de-
deliver quality lives to all of the people of this country? Isn’t it time to let government do what it is sup-
posed to do, to protect the people?

Mrs. WATSON COLEMAN. I thank Mr. ELLISON, and I appreciate him tak-
ing the time to be here.

I yield to the gentleman from Vir-
ginia (Mr. SCOTT).

Mr. SCOTT of Virginia. I thank Con-
gresswoman WATSON COLEMAN for her leadership in coordinat-
ing this Special Order. I thank the Michigan Representatives who have been work-
ning so hard to try to respond to this tragedy.

Madam Speaker, there will be a lot of investigations designed to find out what happened, who was at fault, it was, whether or not any crimes were com-
mitted, and how to prevent this from hap-
pening in the future, but there is one thing we know, and that is that children have been poisoned by lead ex-
posure.

As the ranking member of the Com-
mittee on Education and the Work-
force, we have begun the process to de-
terminate how to appropriately respond, because we know that lead poisoning severe challenges to the public school system.

Children are entitled to an equal edu-
cational opportunity. That goes back to the Brown v. Board of Education case where the Court found that it is due to the children that child may reason-
abley be expected to succeed in life if denied the opportunity of an education. That opportunity is a right which must be made available to all on equal terms.

The local, State, and Federal govern-
ments control all have all failed our children, al-
lowing them to be poisoned by lead ex-
posure. We owe it to our children to mitigate, to the extent possible, the adverse effects of lead poisoning so they can achieve an equal educational opportunity.

Research already shows that the ad-
verse effects of lead exposure are great due to decreased academic attainment, increased need for special education, higher likelihood of behavioral chal-
 lenges, and it can result in a signifi-
cant loss in earnings potential, addi-
tional burdens to the criminal jus-
tice system, and great stress on our hospital systems.

The opportunity for a strong start to a successful life will be stunted for Flint’s children if they are not given the necessary resources including early interventions and access to high-
quality early learning programs such as Head Start to help them overcome the lifelong effects of exposure to lead.

We have an obligation to provide these resources—and provide them as soon as possible—while they can be most effective. Current funding, how-
ever, only allows 20 percent of Flint children who are eligible for Head Start to actually attend.

The children who are able to partici-
pate in Head Start can receive early screening services for developmental disabilities. Families can receive counsel-
ing and assistance in accessing serv-
ces, Head Start can provide the Flint families affected by the disaster with early intervention so they desperately need. But in order to do so, all families eligible for Head Start—
not just the 20 percent presently par-
ticipating—need to be able to access Head Start. We need to come up with the money to make that possible.

But make no mistake; we should not expect the fix to this crisis to be easy or cheap. The impact of lead exposure on young children is long-lasting, and our response must have a long-term ap-
proach. We must use all of the tools available to us, starting with prenatal care and screenings for pregnant moms, early intervention to identify special education needs, title I funding from ESEA, after-school programs, and even investments in college access ef-
forts.

Our children’s futures have been compromised by bad government deci-
sions, but we know how to mitigate that damage. The response has to be
more than just the infrastructure improvements and repairs to finally provide clean water. We need a comprehensive response. Members of the Committee on Education and the Workforce will be working to formulate late in response to the tremendous educational challenges. Other committees will work to the responses within their jurisdictions. But one thing is certain: it is imperative that these resources be provided now, without delay.

Mrs. WATSON COLEMAN. I yield to the gentlewoman from New York (Ms. CLARKE).

Ms. CLARKE of New York. Madam Speaker, as a member of the Congressional Progressive Caucus, I thank Mrs. WATSON COLEMAN for her leadership, and I stand with my colleagues from the Michigan delegation and our colleagues throughout this House in our outrage over what has occurred and the pursuit of justice for the people of Flint.

As a New Yorker, I say to myself: There, but for the grace of God, go I. We, too, in New York City faced a lead crisis. Many callous landlords did nothing to abate lead paint in their older housing stock. A crisis that impacted untold numbers of young New Yorkers remains with us to this very day. But then, that was the private sector. Who will speak for the marginalized and disenfranchised that depended on the State leadership of the Governor, Mr. Snyder, and his team to keep them safe from harm?

The decision of the State of Michigan to change the source of water for the sake of saving money showed an utter disregard for the well-being of the people of Flint. It is a national disgrace. It is a national tragedy. This callous disregard for the poor and the vulnerable leaves us all culpable for what has happened in our Nation.

The timeline of events is especially unnerving. The source of Flint’s water was changed in April of 2014. For nearly 1 year, complaints about the water quality were ignored by the Michigan Department of Environmental Quality. It took the EPA one series of tests to determine that the water was unusable, just one series of tests. And we know, as a result of that, that this water was definitely unsafe for human consumption.

These are babies, children, nursing mothers, the elderly, some with compromised immune systems and health, were poisoned by their own government.

Access to clean water and clean air are fundamental human rights. The State of Michigan has failed the people of Flint. Its State leadership has demonstrated a contempt and marginalization of the humanity of her people.

Who will speak for the marginalized and disenfranchised of the callous disregard for the poor and the most vulnerable?

Well, tonight and every night across this Nation Americans are standing up to say that this cannot be tolerated, that justice is due, that we have to speak out for the vulnerable communities, often minority and impoverished, that are victims of environmental injustice.

We must stand firm in our resolve to see that the people of Flint are dealt with in a humane manner, that their lives are enhanced by a quick remedy to what they are currently experiencing.

The malaise, the laid-back way in which people—in particular, the Governor and his administration—are dealing with this crisis leaves all of us uneasy.

You have heard from my colleagues this evening about the impact of lead on the brains of developing children. You have heard about how lead impacts the parents of these children with compromised immune systems.

We are also hearing about other contaminations within the waters of the Flint River maybe even being tied to Legionnaires’ disease. We will continue to see with this crisis as more and more is discovered about actually what is in the Flint River.

We have also been told that the level of lead within this water is so over the top that the filtration systems that have been given to the people are no longer capable of providing them with a safe source of water.

So it is now up to Governor Snyder to do right by his own people, to stand up and do what is right by the people of Flint, Michigan. The effects of what has taken place in Flint will be effects that will be felt and experienced by the people of Flint, Michigan, now and into the years to come.

It is our responsibility that the Governor and his team do right by the people of Flint, Michigan, and, by extension, the people of the United States by moving swiftly to apply the resources of Michigan to the mitigation of this problem as well as to make sure that every life, every soul, that has been impacted by the poisonous water that they have consumed will be taken care of today and for the rest of their lives.

So I thank BONNIE WATSON COLEMAN for her leadership this evening. I thank all of my colleagues for standing up, for speaking out, for being consistent, in demanding that this Governor do right by his people, that he come out with a plan immediately to direct the resources needed to fix this problem, and to address the illness that is ultimately going to be a part of the lives of a significant portion of this population for the rest of their lives. It is the right thing to do.

Mrs. WATSON COLEMAN. Thank you very much to theCongresswoman. Madam Speaker, could you tell me how much time I have left.

The SPEAKER pro tempore. The gentlewoman has 7 minutes remaining.

Mrs. WATSON COLEMAN. Very quickly, I would like to acknowledge the fact that Congressman JOHN CONVERSE of the 13th District of Michigan was here and has left a statement, which I will submit, with regard to this issue and the fact that he visited Flint, Michigan, just the other day.

This is not just about two things very briefly, number one, something that Congresswoman CLARKE spoke to, which is that these are permanent concerns that we have. This impairment that has taken place as a result of exposure to lead is something that these young people will carry the rest of their lives.

It is not just what we are going to do about trying to educate them now. It is how we are going to address this as they move through adulthood and how that impacts their ability to take care of their lives and to have careers, to be responsible.

So I do hope that the Governor does, indeed, do the investigations and the work that he needs to do in order to address these issues. I hope the Federal Government does the kind of investigation of everybody included in this situation, including the Governor, to see just why this had to happen in the first place.

Finally, I yield to the eloquent and vivacious and ever-ready Congresswoman from the great State of Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Madam Speaker, may I have the time remaining?

The SPEAKER. The gentleman has 5 minutes remaining.

Ms. JACKSON LEE. Madam Speaker, let me thank the gentlewoman for her generosity, and let me, first of all, thank her for leading the Congressional Progressive Caucus.

I understand she is due a recognition, of which I celebrate, that she will have shortly. But let me thank her for her astuteness about state government.

You come from state government. You understand oversight. You understand the responsibilities. You are the right person to lead this particular Special Order.

Madam Speaker, it is important today to say that I fully support the proposed supportive services that have been accounted or recounted by Congressman KILDEE, Congresswoman LAWRENCE, and Congressman SCOTT, who is the ranking member of the Committee on Education and the Workforce. We must embrace and surround those children.

I must say it again. I said it earlier. For those of us who remember Jim Jones, who left California and gave a poisonous concoction to children in a foreign country, we have a Jim Jones in Michigan giving a poisonous concoction to the children of Flint, Michigan.

So we are obviously upset about this, and we want the services to be provided for children, who are innocent.

But, at the same time, wearing a hat that deals with the law and order, I must make the argument that there has to be a criminal investigation.
Let me applaud the Department of Justice because I sent a letter January 14, 2016, to ask the Department of Justice to immediately investigate the actions of State officials in Michigan. They are actively engaged. The FBI is actively engaged, and their work is not for naught.

Let me give you an example, Madam Speaker, very quickly. The Governor was asked to release his e-mails. Part of what he released was this black, redacted page of information.

He released some other materials that I think are telling. Here we are: "We need Treasury to work with Dan in Flint on a clear side by side comparison of the health benefits and costs of GLWA [Great Lakes Water Authority] vs. a more optimized Flint system."

But here’s the real key: “Also, we need to look at what financing mechanisms are available to Flint to pay for any bonds.”

Madam Speaker, the Governor of the State of Michigan is sitting on $1 billion. Yet, he is asking a city that is near bankruptcy, controlled by an emergency manager under a State law that was rejected by the people of Michigan, to find out how they can pay for better water. They have no money to pay for better water.

But let me tell you what they did. Instead of helping Flint pay for better water, helping them have a plan for anticorrosion, they paid an emergency manager under a law that was rejected by the voters of Michigan.

This individual led the Detroit’s Public Service and Emergency Management. I am told that that was literally brought to collapse. He was paid $180,000. Well, he didn’t do that well enough that they wanted to give him $221,000.

Let me say this. The emergency manager—let me correct that—was $180,000. When he did it for Detroit’s Public Schools, that came to near collapse. It was $221,000.

From my perspective, there is much here that warrants a criminal investigation.

Let me add to the point. On April 25, 2014, the city switches its water supply. Let me be very clear. The city leaders—I served on city council—had no authority because the emergency manager was in place.

Did the emergency manager have an anticorrosion plan? No.

Did they test the water when they opted to go cheap and save $5 million and get into the Flint River? No.

The city switches its water supply, because of money, from a Detroit system, because of a switch. The switch was made as a cost-saving measure for the struggling city of Flint.

So after, residents began to complain about the water’s color, taste, odor, and to report rashes and concerns about bacteria.

In August and September 2014, city officials suggested that they boil the water, the complete wrong thing to do. They did not have a plan for anticorrosion. They did not follow the Federal law that indicated that you had to put phosphate, an anticorrosive element, into the water. So it continued to deteriorate and deteriorate.

Guess what, Madam Speaker, and my colleagues. The emergency manager was not some one who said: Let me test the water before I order citizens to drink the water.

That sounds to me like there is culpability and criminal culpability because lives were endangered. And so I am looking forward to the attorney general of Michigan coming in, just as the Governor should, and looking forward to a thorough investigation, Madam Speaker, that will find some relief.

My final point, Madam Speaker, is to say that the Governor is culpable. The Governor right now needs to go into his rainy day fund and provide the full funding requested by Mr. Kildee and other officials to fix the Flint water system.

Mrs. WATSON COLEMAN. Madam Speaker, I yield back the balance of my time.

Mr. CONYERS. Madam Speaker, I rise today in support of my neighbors in Flint, Michigan, who are facing one of the greatest disasters in American history. We cannot erase their pain. But I know that I stand with my colleagues in saying we do everything in our power to help them recover and help make sure it never happens again.

The sort of regulatory neglect that has brought Flint to its knees has a well-known disparate impact on urban, low-income, and minority communities. Residents who cannot afford to move to suburbs and wealthier neighborhoods, or who do not want to leave their longtime communities, are treated as second-class citizens. Here in Michigan, the twofold combination of negligent environmental protection and underinvestment in infrastructure is forcing those in underserved communities to pay with their health and lives.

We see this in places like Detroit, where 8% of children have elevated blood levels—16 times the national average according to the Centers for Disease Control. We see it in places like Flint, where an unselected emergency manager switched the city’s water to an unsafe, untreated source, which has exposed tens of thousands of residents to toxic lead levels.

Exposure to lead—a potent neurotoxin—carries lifelong consequences. Flint parents must now raise children who face lifelong developmental and behavioral challenges, cover economic costs their city cannot afford, and confront mounting medical bills that they do not have the harm they face today. Our thoughts and prayers are with them. But they need more than that—they need action.

It has become an all too common tale that it is time when apologies and resignations would suffice has passed. The disregard for the health and safety of our neighbors in Flint will mean massive, heartbreaking consequences for those affected and their city. Anything less than a transformative, lasting shift in the Michigan Department of Environment, Quality and Regulatory Administration’s bodies—from panders to guardians—simply adds insult to injury. We are not dealing with isolated events of negligence. There is a pattern and practice of disregard for the quality of our air and water that has become intolerable, and we will not settle for mere assurances to do better.

Unfortunately, it appears those responsible for Flint are more focused on surviving the scandal than fixing the problem. Governor Snyder has said he is sorry but he’s only offering half measures: free water that they cannot drink anyway, a fraction of what is needed to fix Flint’s plumbing, and resources that cannot possibly overcome the health impacts of lead exposure. It appears the only time he thinks Michigan, the City of Flint, and the federal government should come in is when it is time to apportion blame, or when it is time to do everything he says on his terms.

But we know how that story ends. It is time for those of us in Congress who care about a safe environment more than the business environment to act. That means directing federal resources to help Flint recover and rebuild, figuring out exactly what went wrong, and ensuring that this never happens again.

Fixing this problem starts with providing government services that will actually help these people heal. Especially the children so that they can succeed in life—which means a proper education, comprehensive healthcare, and access to everything a child in a wealthy community would have if they were similarly exposed. It means repairing the infrastructure, so that they can have clean water again. Preventing this from happening in the future starts with strengthening—not cutting—our enforcement capacity. It means eliminating emergency management programs that cut government regardless of the cost and strip citizens of their democratic rights. It means stopping the idea that a small government is a good government, and it means stopping efforts to undermine our government by cutting its budgets to the bone.

CONGRATULATING ABIT MASSEY FOR RECEIVING THE UNIVERSITY OF GEORGIA PRESIDENT’S MEDAL

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 6, 2015, the gentleman from Georgia (Mr. COLLINS) is recognized for 60 minutes as the designee of the majority leader.

Mr. COLLINS of Georgia. Madam Speaker, I rise today to congratulate Abit Massey on receiving the prestigious University of Georgia President’s Award in recognition of his extraordinary service to UGA and the State of Georgia.

Abit is an institution in Georgia. He has served as the head of the Georgia Department of Commerce, the UGA Alumni Association, and on the board of the Georgia Research Foundation,
among numerous other prestigious positions.

In my part of the world, Abit is better known as the dean of the poultry industry due to his tireless commitment to and advocacy on behalf of the industry. Abit served as the executive director of the Georgia Poultry Federation for almost 50 years and now serves as its president emeritus.

One of the most amazing things about Abit is that not only does everyone know him, but everyone respects him. He is the dean of the State lobbyists at the Georgia Capitol, but he still makes time to say hello to everyone he meets and often greets them by name because his memory never forgets anyone.

Abit’s service to Georgia and commitment to the State is obvious, but I am glad to see the Georgia, and the legal community will go on for many generations. He is one that stood up for rights. Many times when others may have disagreed, Dan always stood up for the rights of others. Dan was always making it his business to be the protector of those in need. Dan Summer is who makes Gainesville, Georgia. It is people like Dan Summer; his character, his loving kindness, and his smile. I remember one of the last times that I saw Dan, it was a little bit ago. He was walking across the Square in Gainesville. I pulled up, and I saw him walking incredible and the first thing he did was turn around. And I saw that smile. It is Dan’s smile, his concern, and his life that will be remembered.

Mr. Speaker, I would encourage all of us to strive for what is better in us. Dan Summer is one of those people that meant the world to me. His family will experience this loss, but I know that they will continue to relive the love that he gave to not only his family but to his community. With that, I remember Dan Summer.

CONGRESSIONAL RECORD — HOUSE
February 3, 2016

LIFE, LIBERTY, AND THE PURSUIT OF HAPPINESS

Mr. COLLINS of Georgia. Mr. Speaker, I rise today in support of H.R. 997, the English Language Unity Act, introduced by my friend, Mr. King, from my part of the country.

The English Language Unity Act establishes English as the official language of the United States, requires all official functions of the United States to be conducted in the English, and establishes a uniform language requirement for naturalization.

A common language creates a shared bond. It strengthens our shared cultural fabric and identity. English as the official language does not mean other languages cannot be spoken. It simply recognizes that officially. We speak the language already spoken and shared by the vast majority of the country.

Failure to have a national language can create costly and burdensome translation requirements and create legal confusion. It can also hinder new citizens from assimilating quickly.

The diversity of the United States is one of our strengths. We should continue to celebrate the many cultures that make up our melting pot. This great country gives us the freedom to share our differences. But at the end of the day, we are one Nation and one people. And as one Nation, we should speak with one tongue when conducting official business.

Mr. Speaker, I urge my colleagues to support the English Language Unity Act.

HONORING DAN SUMMER OF GAINESVILLE, GEORGIA

Mr. COLLINS of Georgia. Mr. Speaker, it is with a heavy heart that I rise to pay tribute to a dear friend and colleague, Mr. Dan Summer. Dan was an attorney in Gainesville. As a young attorney just getting started, he was one of the people that I could turn to and ask questions of. He was somebody who listened. He was somebody who cared.

Dan and his wife, Chandelle, ran a firm. Everyone in Gainesville knew that if you went to them, you are going to get treated like family and have somebody that takes not only the fight for your justice and for your fairness, but makes it very personal.

When Dan passed away recently, he fought all the way to the end. ALS took him from us, but his memory is strong.

What he has meant to Georgia and the legal community will go on for many generations. He is one that stood up for rights. Many times when others may have disagreed, Dan always stood up for the rights of others. Dan was always making it his business to be the protector of those in need. Dan Summer is who makes Gainesville, Georgia. It is people like Dan Summer; his character, his loving kindness, and his smile.

I remember one of the last times that I saw Dan, it was a little bit ago. He was walking across the Square in Gainesville. I pulled up, and I saw him walking incredible and the first thing he did was turn around. And I saw that smile. It is Dan’s smile, his concern, and his life that will be remembered.

Mr. Speaker, I would encourage all of us to strive for what is better in us. Dan Summer is one of those people that meant the world to me. His family will experience this loss, but I know that they will continue to relive the love that he gave to not only his family but to his community. With that, I remember Dan Summer.

LIFE, LIBERTY, AND THE PURSUIT OF HAPPINESS

Mr. COLLINS of Georgia. Mr. Speaker, in the United States Constitution, our Founders cast their vision for our Nation whose members would enjoy unparalleled freedom because of these basic truths.

Life, liberty, and the pursuit of happiness. Unfortunately, today, many have lost the pursuit of happiness in favor of the guarantee of happiness. They are mistaking what we have as a guarantee in that pursuit of happiness. These Founding Fathers believed in individual worth and individual rights. While the challenging realities faced by citizens of nations that prize on individual and economic liberties sometimes remind us of the particular blessings we enjoy, we take these rights so often for granted.

I believe one of the things that is beginning to pervade our society today. Mr. Speaker, is a society that does not value life or liberty or the pursuit of happiness. In fact, I believe there is an anti-life culture that is developing, one that does not value the personhood that comes at conception and ends at birth. People that we are made by God in His image, and we have infinite value not based on who we are, but based on the fact that He breathed life into us. It is an abortion culture, an ending culture, that we are being strangled with in the United States.

Abortion is literally killing generations of promise in our country. But no one has some who really just want to turn their back. They believe it is a choice.

I am so glad, Mr. Speaker, that your family didn’t view it that way and my family didn’t view it that way. Because when you look at life, you think life as God has given it to us. And it is only up to Him, who gives life, the Maker and Creator of life, that determines the potential and the possibilities. Whatever path we go on, He has given us that hope.

In my own family, this became very real for me. I had many years of pastoring, but it happened back in 1992. You see, there was a young youth minister and his wife excited about the news that they were going to be parents. Everything was great. Everything was moving along. They were working. They were doing everything that they thought that they were supposed to be doing, until one day my bride called me and said: Let’s do an ultrasound. We go down one last ultrasound. The doctor wants to do one last ultrasound.

I came running back. I was off on a business trip. I got back just in time to get there. They were doing the ultrasound. Ultrasounds are amazing because they show life—not a fetus, not a blob—they show a life in the womb. It starts when God breathes it in. If you don’t believe me, just take a look.

Even back then when they started to go around, I could see my child whom I had not had a chance to meet yet. Then a little bit later, the nurse stopped. She said: I need to go get the doctor. At that point my wife looked at me, and she said: Something is wrong. Tears started coming down her face.

Sweetheart, this is not going to be easy. This is just going to look at it. It is all good. She said: No, something is wrong.

It came back. The doctor looked and said, I need to show you something.

On a little spot, a little white spot that I could have not told the difference of, the doctor told us the words that have now rung for me for almost 23 years. He said: Doug, Lisa, your baby has spinal bifida. He actually used a term I had never heard before—now we were looking at a child with a high risk. All I knew was something was wrong.

We spent the next few days in sort of disbelief. We knew this was not a mistake. We knew this was not anything except we were supposed to have a child, and, undoubtedly, this was just going to be a little different. We talked to doctors, and we found out it just continued on.

Then one day, Lisa went back to school after it had become known that we were having an issue and the pregnancy continued. She was doing really well, but we still had a high risk. One of the teachers came up to Lisa and said: You know you have a choice. Lisa looked at her and said: Well, we
are going to Atlanta, and we are going to have the baby in Atlanta. She said: No, no, no. You have a choice. You don’t have to keep going.

At that point, it clicked. This teacher was telling my wife that she could kill my baby. I realized it was real quickly. Lisa said: You realize you are talking about my child.

When I heard of Planned Parenthood cavalierly talking about a choice to kill a baby, it is horrifying. We have to put into them by their Creator. It is abortion that takes that away.

In this body, the reconciliation is addressed that we are going to continue to make decisions. It is as if it was made this week. You had a chance to vote for life, and if you voted “no,” you voted against life. Don’t try to make it any other thing.

The country has a choice coming up this year. It can take a culture of life from conception to death, natural death, or it can continue to value life, as man does, as throwaway, as maybe not good. You see, prioritizing and saying this is what we believe is what makes this life, liberty, and the pursuit of happiness worth pursuing.

The country has a choice coming up this year. It can take a culture of life from conception to death, natural death, or it can continue to value life, as man does, as throwaway, as maybe not good. You see, prioritizing and saying this is what we believe is what makes this life, liberty, and the pursuit of happiness worth pursuing. That is what we believe is what makes this life, liberty, and the pursuit of happiness worth pursuing.

The choice is an abomination to that culture of life that says we value all. It is why we will continue to put forward a culture of life that says we value all. It is why we need to continue to put forward a culture of life. It is why we need to continue to put forward a culture of life.

Mr. Speaker, it is important that we carry these messages out. I come to the floor tonight to raise a topic that is important to all Americans, especially the Americans who take our Constitution seriously, and even more importantly, those Americans who have taken an oath to support and defend the Constitution. It would include all of our servicemen and women along with many law enforcement officers and officers of the article III courts, the entire House of Representatives, the entire United States Senate, and, to my knowledge, the entire body of legislators across the country and the State legislators. I have many times—a number of times—taken an oath to support and defend our United States Constitution but, in the State senate, also the constitution of the State of Iowa.

Our Founding Fathers structured our Constitution so that we would have three branches of government, and some say three equal branches of government. I do not completely agree with that assessment, Mr. Speaker. Instead, I contend that the three branches of government were separate, and they are separate. But the judicial branch of government was designed to be the weakest of the three. Our Founding Fathers understood that there would be competition between the branches of government.

So as part of this discussion, I would like to announce into the RECORD here, Mr. Speaker, that our chairman of the Judiciary Committee, Chairman Goodlatte, has initiated a task force—a task force—that is designed to address the article I overreach of the President of the United States and the executive branch—not only this President, but previous administrations as well.

I appreciate and compliment Chairman Goodlatte for his insight and foresight for taking this initiative. I thank him for suggesting and then ratifying today that I will be chairing the Task Force on Executive Overreach. It will be comprised of members of the Judiciary Committee, Republicans and Democrats. It will be bipartisan. I had hoped that it would be non-partisan. Judging from some of the tone in the debate today, there could be a little flavor of partisanship in there, Mr. Speaker. That is fine, because that is how we bring about our disagreements.

In any case, a task force has been set up, and it will function for 6 months. Some time in August its authorization will either expire or it will be reauthorized and extended for another period of time.

The theme is, again, restoring the article I authority of our Congress and to address the executive overreach.

The circumstances that bring us to this point are myriad. The objectives of the task force, as I would design them, and the object of a chair of a committee is to bring out the will of the group.

I would point out, Mr. Speaker, that the object, the plan, and the strategy is to be executed by individuals to take all of the input that we get from Demo- crats and Republicans from the bipartisan side in the committee and to build a rather expansive list of the executive overreach that we have seen from the article II branch of government.

I say it that way so that we bring everything into our consideration. Then once that expansive list is made, then we will pare it down to those things that can be sustained as the authority of this Congress versus the authority of the executive branch of government.

I would point out that the executive overreach isn’t only about the unconstitutional overreach that has taken place, especially recently within this administration, but it is also, Mr. Speaker, about the constitutional overreach when a President will act under authority that maybe has been granted to the executive branch, or an authority that has been expanded off of an authority that was granted by the United States Congress.

A big piece of this will be the rules and the regulations that are the authority that we have granted to the executive branch of government over the Administrative Procedures Act.

We know that when the executive branch publishes rules, we have been getting more and more rules that are published. Once they are published for comment, then they go into effect. It is the task force that has been expanded to include all of the input that we get from Democrats and Republicans. It will be bipartisan. It will be comprised of members of the Judiciary Committee, Republicans and Democrats. It will be bipartisan. I had hoped that it would be non-partisan. Judging from some of the tone in the debate today, there could be a little flavor of partisanship in there, Mr. Speaker. That is fine, because that is how we bring about our disagreements.

In any case, a task force has been set up, and it will function for 6 months. Some time in August its authorization will either expire or it will be reauthorized and extended for another period of time.

The theme is, again, restoring the article I authority of our Congress and to address the executive overreach.

The circumstances that bring us to this point are myriad. The objectives of the task force, as I would design them, and the object of a chair of a committee is to bring out the will of the group.

I would point out, Mr. Speaker, that the object, the plan, and the strategy is to be executed by individuals to take all of the input that we get from Demo- crats and Republicans from the bipartisan side in the committee and to build a rather expansive list of the executive overreach that we have seen from the article II branch of government.

I say it that way so that we bring everything into our consideration. Then once that expansive list is made, then we will pare it down to those things that can be sustained as the authority of this Congress versus the authority of the executive branch of government.
designed to be a limited government. Mr. Speaker, they didn’t envision that the Federal Government would grow to the expansive lengths that it has. They thought that they would be able to keep it in a narrow limited form and that the States would be dealing with the more detailed issues that the Federal Government was not the benefit of.

We have the enumerated powers. They intended for us to stay within the enumerated powers. The definitions that we have here by Congress, they reached out and stretched the limits of the enumerated powers.

They didn’t imagine that there would be speed limits on the dirt trails that had horses and buggies on them, and they didn’t imagine that the Federal Government would be subsidizing roads in a way that would allow the Federal Government to set speed limits across this country. That is an example of events that have given the Federal Government power that Congress—what authority tied to the dollars that our Founding Fathers didn’t envision, and it is one that I think simply we can understand.

There is a proper role for the Federal Government. There is a proper role in requiring conditions that go along with Federal dollars. I illustrate that point, though, to illustrate how far we have diverged from the intent of our Founding Fathers.

As our Founding Fathers framed the Constitution and established that all laws would be passed here in the United States Congress and not by the executive branch of government and not by the judicial branch of government, that separation of powers was envisioned to be this: Congress has the legislative authority. It is article I. It is article I for a reason, because the voice and the power of the people is vested in this Congress.

Our Founding Fathers envisioned that the policy would come forth here from the various populations of the Thirteen Original Colonies and the States that later joined. Today, if we applied the vision of the Founding Fathers, we would look at 50 States and the territories, and we would imagine that there are—and this is simply close to a fact—320 million people across those 50 States and the territories.

Out of those 320 million people would be voices. There would be grievances that would be brought forward and brought to the Representatives of Congress, and there would be ideas generated to solve the various problems that we have in our country. There might be a consensus that might be formed of what the tax rates should be, what the debt burden should be allowed to be, what the size of government should be allowed to be, and what kind of policies might come out of this Congress. Our Founding Fathers envisioned that.

They envisioned then that the voice of the people would be transferred and translated up through and out of the population into the mind and the heart, any activity of their elected representative.

They envisioned also that, out of the corners of the country, the Thirteen Original Colonies—and now from as far away as Anchorage, AK, the corners of the United States, Alaska to Hawaii, to Florida, to Maine, and down to California certainly—that all of the ideas within that would have to compete with other ideas, and that their elected representatives would use the republican form of government that is guaranteed in our Constitution would bring the best of those ideas. Not all of them, not the clutter of bad ideas, but sort the clutter of the ideas so that just the cream of the crop, the best ideas, would come from the corners of the United States and be brought here into this Congress, that an individual Member of Congress, one of the 435, would bring those ideas into the competition of the ideas of the marketplace here.

The ideas of the marketplace here would have to compete against each other. Of the now 435 Members, there would be various ideas that would compete with other ideas. The best ideas that could develop the consensus out of the valley could be sorted here in this Congress, and we would advance those ideas that reflected the will of “we the people.” That is the vision of this republican form of government. That is the vision that required that the Congress be established by article I.

The vision for article II was that the executive branch would be headed by a President of the United States, who is the Commander in Chief of our Armed Forces. We wouldn’t have any Armed Forces if it weren’t for Congress having the enumerated power to establish a military—an Army, a Navy, and, subsequent to that, an Air Force.

So the Founding Fathers envisioned the executive branch, the President of the United States—the President, specifically, the Commander in Chief of our Armed Forces—and that his oath is to preserve, protect, and defend the Constitution of the United States—that is the oath, so help him, God, today, as is in his oath, although it wasn’t in the original oath—and that he take care that the laws be faithfully executed. That is the Take Care Clause.

Some of us say somewhat facetiously that the President of the United States took that wrong and decided to execute the Constitution instead of taking care that the laws be faithfully executed. That is something that we will debate and discuss in the task force that addresses the executive overreach, Mr. Speaker.

Our Founding Fathers also established article III, which is the courts. I will speak to that briefly in this segment, Mr. Speaker, because most of the focus of this task force is on the executive overreach. We do need to look into the judicial overreach as well. I believe that there is an effort to give that a re-view as well. But the Constitution requires that there be a Supreme Court, that they establish a Supreme Court, and then the various other courts are at the discretion of Congress.

I have made this argument to Justice Scalia in some other informal setting—I might say an informal setting—a few years ago. I would argue that under the Constitution, if you read article III, the only court that is required by the Constitution is the Supreme Court. It is required that it be led and headed by a Chief Justice.

As you look at the language in the Constitution, I argued that the Supreme Court is not required to be—well, first of all, there are no other Federal courts that are required. The authority to establish them is granted in article III to Congress. Congress could develop all the Federal courts that they choose to, or they could decide that there is no Federal district courts required. There is no requirement that there be nine Justices or seven or five or three. There is no requirement that there be a Chief Justice.

In the end, if Congress wanted to control the judicial branch, they could reduce their judicial branch down to the Chief Justice, and he could decide to have a Supreme Court building or a budget. They could reduce the Chief Justice down to himself or herself, as the case may be, with his own card table, with his own candle, and no staff. That is how narrow is any of the judicial branch of government could be if Congress decided to utilize its constitutional authority.

Of course, we don’t do that. But there is a history of two judicial Federal districts being abolished Congress back in about 1802. It was debated in the House and the Senate and successfully eliminated a couple of Federal districts—I don’t suggest that we do that at all. Mr. Speaker, for those who would get on their Twitter account—illustrating the function of the Constitution itself. But the judicial branch of government has now defined it down to that. It explains that the third branch, article III, the third branch of government, was not designed to be a coequal branch of government. It was designed to be the weakest of the three branches of government.

Then Marbury v. Madison came along that established judicial review, and off we are to the races and the growth of the judicial branch of government. That can be shrank or it can be allowed to grow, and its influence can be allowed to grow or it could be shrank.

But I would make the point, Mr. Speaker, that it isn’t only the Supreme Court that weighs in on what the Constitution says. It is each one of us here
in this Chamber and each Senator down at the other end of the United States Capitol Building. We all have our obligation to interpret the Constitution because we all take an oath to uphold it.

We are not taking an oath to uphold it the way the Supreme Court would amend it. In fact, the nine Justices of the Supreme Court—or five, as the case may be—are the last people on the planet who should be amending the Constitution of the United States. Whether it is a literal amendment or whether it is a de facto amendment is what has taken place with regard to the Obergefell case, for example, Mr. Speaker.

The judicial branch of government, article III, is designed to be the weakest of the three branches of government. If it stayed that way or if it becomes that again, we still have the conflict with the jealous protection of the executive branch of government to write the law, the executive branch of government. It is a balance of power and the force and effect of law.

But at a certain point, Congress was bogged down with the details of governing. Willingly, to take some of that workload off of their backs, they delegated it to the executive branch of government. In doing so, they had to delegate authority to the executive branch of government.

Not only was it the workload, in my opinion, Mr. Speaker, but it also was sometimes the political heat that is required to do the right thing. I have seen this in the State legislature, and I have seen it in Congress over a period of multiple times. Issues come up. You can't reach agreement. One side or the other is scoring political points, sometimes it is both sides scoring political points, and the heat of that gets so great sometimes it brings about a decision here. But also, the heat of that might cause the legislative branch of government to pass that responsibility over to the executive branch, take the heat off, and let them make the decision.

The executive branch, taking authority might be—let me pick an example—the waters of the United States rule, where this executive branch, during the terms of this President, President Obama, decided that they wanted to regulate a lot more of the real estate in the United States of America. I looked back at a time in about 1992 when I saw another effort to do the same thing as there was a designation in my State that was driven by the EPA to designate 115 streams in Iowa as protected streams.

Looking at that list of protected streams, I began wondering why would they call some drainage ditches protected streams. I read down through the rule. In there, it said, in order to preserve the natural riparian beauty, these streams, according to their geographically defined boundaries in the rule—which I never actually saw the geographically defined boundaries. They just said they were there. I don't know that they were. Not according to their geographically defined boundaries, these streams shall be protected streams, and these streams and waters hydrologically connected to them. I will put that in quotes, Mr. Speaker, "and waters hydrologically connected to them."

When I read the language and I saw that was the stream that was published, I began to go and deliver the public comment.

I asked the representatives of the rule writers: What does "hydrologically connected to" mean? Their answer was: We don't know.

And I said: Then take it out of the rule. No. We can't. Do you mean you are representing something, and you do not know what it means, but you just know you can't take it out?

That's right. We can't take it out. This is the published rule, and now we have to get this rule passed.

In any case, that brought about a battle within the State of Iowa. Eventually, they got the rule in that said these streams and waters hydrologically connected to them will be regulated by the regulators and that the state will decide if the rightful property owner can implement on that real estate that they have now defined to be within the regulation of the government.

The phrase "waters hydrologically connected to" thereby became we have years and years of litigation—and perhaps near 20 years of litigation or of maybe even more than 20 years of litigation. I guess we would be at 25 or so years of litigation.

Finally, the courts concluded that the phrase "hydrologically connected to" was too vague to be able to enforce it, and the collection—the manegerie—of the article III Court's ruling on an initiative that was brought forward by the executive branch of government that was not the intention of the legislators of the government and all three branches of government together in confusion that eroded the property rights of people who were guaranteed those property rights under the Fifth Amendment.

All of that being litigated through that period of time when we saw the Kelo decision when the Court decided they could amend the Constitution, and the minority opinion was written by Justices O'Connor and Souter on this floor, and that protection is there.

I have illustrated here is how the tension between the three branches of government can get involved in a convoluted conflict, and in that convoluted conflict, the tension between the three branches of government was designed to get sorted out so that we would be back to the Constitution, itself, and that the Constitution would rule. But when the Supreme Court effectively strikes three words out of the Fifth Amendment to our Constitution, then we have the Court's ruling without the will of the people, and the will of the people is...
going to be reflected through, especially and first, the House of Re-

tenatives—the quick reaction strike force. There is a reason we all take the oath to uphold the Constitution. It is so we understand it, and we define it. We take our oath seriously, and we defend it.

In the other two parts of that, when you had an executive branch that initiated a policy—protected streams—that wasn't the initiative of the legislature, then you had a superlegislature outside of the purview of the legislative body. My detractors will turn around and say: But any rule that is passed can be nullified by the United States Congress. So why do you worry about that? Why don't you just do your job in Congress and nullify the rules if you don't like them? Mr. Speaker, it works a little bit differently than that, of course, especially when you have a President of the United States who will veto that legislation that would be nullifying the rule; so we are back into the circle again.

If the President initiates a rule without regard to whether there is a court ruling on that rule, the legislature then would be obligated to nullify the rule. The difficulty of that branch is if there is a supermajority here then to undo something that appointed—but not elected—executive branch officials have initiated often without the knowledge of the Congress of the United States, himself. That is an upside-down way to get things done.

It is supposed to be and is designed to be the will of the people—the voice of the people—of the United States. They initiate the policy. They send that policy up through Congress. Congress is to bring it before our committees. It evaluates the various ideas, competes, and debates those ideas. It votes them through the various subcommittees and committees after having hearings so that we can see what's in it, what's on—all out in the open, all out in the sunlight. We bring it here to the floor of the Congress and vote on it; and if the Senate agrees, it becomes law. There was not designed to be a super-legislature within the executive branch; but, Mr. Speaker, that is what we have today. We have thousands and thousands of pages of regulations that are initiated by a robust executive branch of government.

I expect that, in the duration of this administration, as we have heard from the President of the United States, he intends to make his days count as we have heard from the President of the United States, himself. That is an upside-down way to get things done.

It is supposed to be and is designed to be the will of the people—the voice of the people—of the United States. They initiate the policy. They send that policy up through Congress. Congress is to bring it before our committees. It evaluates the various ideas, competes, and debates those ideas. It votes them through the various subcommittees and committees after having hearings so that we can see what's in it, what's on—all out in the open, all out in the sunlight. We bring it here to the floor of the Congress and vote on it; and if the Senate agrees, it becomes law. There was not designed to be a super-legislature within the executive branch; but, Mr. Speaker, that is what we have today. We have thousands and thousands of pages of regulations that are initiated by a robust executive branch of government.

As the President began implementing ObamaCare, he began changing the law. He made some changes along the way. For example, the employer mandate was delayed. The individual mandate was delayed. Some of it was litigated over to the Supreme Court. Some of it the Court decided to which components of the law he wanted to ignore and which ones he wanted to enforce. He took an oath, though, to take care that the laws be faithfully executed. That is all of them. That is not part of them. Yet, as we went through ObamaCare time after time after time, there were changes made along the way in the implementation and enforcement of ObamaCare, and that brought about a great deal of confusion, in the way it upset a lot of people. It disadvantaged a lot of people, and it advantaged some people. He granted waiver after waiver for his favorite groups and entities that were, I will say, people who were typically considered to be his supporters. I didn't see much relief for the people who were typically not considered to be his supporters, such as the Little Sisters of the Poor, for example. They are in the business of having to litigate their religious freedom versus an imposition of the Federal Government's will. Under that, under all of their health insurance policies, they are now commanded to fund contraceptives, which violates their religious freedom. By the way, it violates my religious convictions as well. So we have a very robust President who has laid out a whole series of demands not only through ObamaCare legislation, but also we have seen this happen with immigration.

The President has said publicly 22 times “I don’t have the constitutional authority to do what you want me to do” when he has been talking to illegal immigrants who are in America and pressing this position. To change the policy to accommodate them in the form of amnesty, which I have described on this floor many times, Mr. Speaker. The President said 22 times: “I don’t have the constitutional authority to do this.”

After he was well vented in his position of explaining the Constitution right out here at a high school in Washington, D.C., the President answered a question from one of the students at the high school. He said, “I used to teach the Constitution,” which he did for 10 years as an adjunct professor at the University of Chicago. He taught constitutional law. He said that the job of Congress is to write the laws, that the job of the President and of the executive branch is to enforce the laws, and that the job of the judicial branch of government is to interpret the laws.

I would bring this back to Chief Justice Roberts, who said clearly in his confirmation hearing last year—that his job as a Justice is to call the balls and strikes. I agreed with that, and it was very encouraging to hear that, and I certainly supported his confirmation. Yet I see that on June 24 of last year—that would be a Thursday—in the opinion on ObamaCare that was written by Chief Justice Roberts, in a narrow majority opinion where Chief Justice Roberts joined with four other Justices, they decided they could write words into ObamaCare, itself. “Or Federal Government” and “established by the State”—insert “or Federal Government.”

That is, the three words could be nullified by the United States Congress. Mr. Speaker, what words were you just referring to? They took out of the Fifth Amendment, “for public use,” they get to put in a bank somewhere, and when they need to add some words into law, they can just borrow them from that little word bank. If they strike them out of the Constitution, maybe the three words would be left in the word bank, and the Supreme Court could then pull three words out by choice and say, “or Federal Government.”

Now ObamaCare reads, “an exchange established by the State”—insert “or Federal Government.” Now, that is what happened as to that decision on ObamaCare on June 24, Thursday, the following day. The Supreme Court announced that they had created a new command in the Constitution. It is not just a new right. Remember, I said the Justices of the Supreme Court should be the last people on the planet to amend the Constitution. They also take away the right to call the balls and strikes. That is what I agree with, and that is part of my oath, to defend the Constitution in
that fashion. The Supreme Court, instead, inserted those words into ObamaCare, "or Federal Government."

The following day, they created a command that says not just that there is a new right to same-sex marriage, Mr. Speaker, but that there is a command that the State is necessarily called to either regulate or to honor civil marriage, they shall conduct and honor also same-sex marriages without regard to the convictions of their people, who no longer enjoy the 10th Amendment authority to establish policy on marriage within the States. The Federal Government took that onto themselves, and they issued not just a right to same-sex marriage but a command that everyone, especially the States and the political subdivisions thereof, shall honor same-sex marriage. That is a breathtaking overreach of the Supreme Court. It would be worse than the worst nightmare that any of our Founding Fathers ever would have had with regard to the limitations of this government.

So we are sitting here today with a Federal Government that has been distorted beyond what would be the belief of our Founding Fathers, and they had their share of fears. This Congress needs to reassert itself. It needs to re-establish its constitutional authority. It needs to take a good, hard look at the article I authority that is vested to it in the Constitution, itself, and recognize that all legislative powers exist here and in the Senate. The overreach of the executive branch takes place sometimes because Congress wanted to take the heat off of us, and we gave that responsibility over to the executive branch of government. Sometimes the President decides he wants to do things outside the bounds of his constitutional authority. Sometimes it is a mix of the two, and sometimes it is the President who enjoys the majority support of his party in the House and in the Senate. He is more likely that in this Congress that the Members of his party will accept an overreach of a President of their own party than they will an overreach of a President of the opposite party.

1900

It is also true, Mr. Speaker, that we have different views on what is executive overreach and what the Constitution says.

In fact, in some of the debate today, I said that the Constitution has to mean what it says. The very literal words that are in the Constitution have to mean what they say and they have to be followed by all of us. We have to understand what they were understood to mean at the time of ratification of the base document of the Constitution and, also, of the various amendments as we move along through the amendments in the Constitution.

We need to have enough history to understand what those amendments and what the Constitution meant to the people that ratified it, and then we need to recognize that the Constitution itself is an intergenerational guarantee, an intergenerational document signed off on by our Founding Fathers with their hand and agreed to in an oath to that Constitution by millions of Americans over time. Many pledged their lives, their fortunes, and their sacred honor to preserve, support, and defend the Constitution of the United States.

It is a document that is fixed into the letter and the spirit of the Constitution and the understanding of those words, not living and breathing, but an intergenerational contractual guarantee from our Founding Fathers down to our descendants, as far as they shall go to the end of the Republic, should it ever end. I pray it does never end as long as this Earth exists.

So the multiple generational great, great-, great —many times great-grandfathers all the way to the Founding Fathers down to here is a contract, and I am going to pass this contract on to the next generation. The next generation has to preserve, protect, and defend it and then pass it to the next generation and the next generation and the next generation.

As Ronald Reagan said, freedom is not something that you inherited. It is something that has to be preserved and fought for each generation and defended each generation. So if we lose the understanding that the Constitution means, we also have lost our Constitution itself, Mr. Speaker.

This task that we have is to preserve this language: "All legislative powers herein granted shall be vested in a Congress of the United States." It is simple, pure, beautiful, worth preserving, protecting, fighting for, bleeding for, and, if need be, dying for.

That is why our honorable and noble military men and women take an oath to support this Constitution, because it is worth defending. They are not defending the President of the United States specifically. They are defending the President of the United States specifically. They are defending this Constitution when they go into battle.

We need to defend it here in the House of Representatives. We have a task force now to address the executive overreach and will be defining the unconstitutional overreach. I am willing to accept the President’s definition on the constitutional limitations with regard to immigration.

When the President said he doesn’t have the authority to establish and pass amnesty legislation, I agree with him. It is an enumerated power here in this Constitution that is preserved for the Congress to establish a uniform naturalization, and that has been defined by the courts to mean the immigration policies of the United States.

If we get this right, we will have a Congress that is empowered more, but also empowered that is more accountable to us, the people.

As Congress steps up and says let’s claw that executive overreach power back into the House of Representatives and back into the United States Senate, what we are really saying, Mr. Speaker, is let’s claw that executive overreach power and authority back here and hand it back to we, the people.

Now, let’s go back and turn our ear to us, the people, so that this republican form of government that is guaranteed to us in this Constitution can gather the best ideas from all across the land and bring those ideas here to Washington, D.C., where the ideas compete with each other. The best ideas float to the top like the cream rises to the top, and the public can look in and they can weigh in. Additionally, Mr. Speaker, we need more oversight into the executive branch of government. I have drafted and introduced legislation that addresses some of this in a way, I will put out here, to perhaps be a little provocative. I want to sort some intercompetition of ideas, the best ones, as I said, need to float to the top.

That would be legislation that does this: It requires of this mountain and mass of regulation that we have and inserted those words into the Constitution of the United States. That is why our honorable and noble military men and women take an oath to support this Constitution, because it is worth defending. They are not to be practically reduced or shrunk down or nullified by this Congress as long as the President is willing to veto a nullification bill and push it back at us, Mr. Speaker, and I am proposing that sunsets all of the regulations over a period of 10 years. It sets new regulations at the end of 10 years and it requires Congress to have an affirmative vote before any regulation can have force and effect of law.

We have passed out of the floor of the House here once, perhaps more than that, what we call the REINS Act. This comes from a retired Member of Congress, a friend, a former ranger, Jeff Davis of Kentucky, who initiated the legislation that there would be a requirement of an affirmative vote of Congress before a regulation that had more than $100 million of impact on the economy could take effect, we have that go on in perpetuity, that can’t be practically reduced or shrunk down or nullified by this Congress as long as the President is willing to veto a nullification bill and push it back at us.

That addresses this. It addresses this going forward with new regulation. It doesn’t go backward to other regulations. All of the old regulations are essentially de facto grandfathered by the REINS Act.

The legislation that I had put together before he introduced the REINS Act was more detailed. This legislation is called the Sunset Act. It sunsets all regulations but it sunsets them in increments of 10 percent of the regulations from each department each year for 10 years.

The departments have to offer up their regulations. They can sort which ones they want to expose to Congress or to offer up their regulations but it sunsets them in increments of 10 percent of the regulations from each department each year for 10 years.

The departments have to offer up their regulations. They can sort which ones they want to expose to Congress for a vote over a period of 10 years. But over 10 years, they have to offer up their regulations here to Congress.

Congress then evaluates those regulations. Any Member of Congress can come in and offer an amendment to those regulations, maybe an amendment to strike, maybe an amendment to add.
Maybe there are people in this Congress that want more regulations, not less, and they would like to write them into law and affirmatively vote them in.

Well, Mr. Speaker, that idea of sunsetting all regulations—10 percent a year for 10 years incrementally—is coupled with the idea of sunsetting any new regulation, also, at the end of 10 years and requiring an affirmatory vote on any regulation before all new regulations of any kind.

Doing so then restrains the executive branch of government and makes the legislative branch of government responsible to the people.

Our regulators that are writing these rules will know that, if they write a rule that is egregious to the people, the people that have not been heard from the executive branch of government, when they go into the office of, say, the EPA or the SEC, press the research, and people, they don’t have a motive to listen because they are insulated from the accountability to the people.

If they know that those same individuals that are aggrieved by the proposed regulation can come to visit their Member of Congress and press their demand on their Member of Congress, they have to know that their Member of Congress will come forward, come down here to the floor of the House of Representatives and offer an amendment to strike those regulations or amend those regulations so that it is acceptable to us, the people. That is a vision to restrain an overgrowth of the executive branch of government, Mr. Speaker.

I advocate that as one of the things to consider, but neither do I think that I have all the good ideas. There are 435 Members of Representatives and 100 Members of the Senate. There are good ideas that come into every one of our offices from the 750,000 or so people that each of us represent.

With the ideas that come from the public and from the smart thinking of the people envisioned by our Founding Fathers, if we limit the overgrowth of the executive branch of government, we take the responsibility back to us, it will press on us, Mr. Speaker, the kind of changes that are good for the people in this Republic, that are good for the responsibilities of the Members of the House and of the Senate. We can take America and we can take America onwards and upwards to the next level of our ascending destiny.

Mr. Speaker, I appreciate your indulgence and your attention. I yield back the balance of my time.

SAVE CHRISTIANS FROM GENOCIDE ACT

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the Chair recognizes the gentleman from California (Mr. ROHRBACHER) for 30 minutes.

Mr. ROHRBACHER. Mr. Speaker, today I rise to call my colleagues' attention and the attention of the public to the legislation I have proposed.

The bill number is H.R. 4017. This act is the Save Christians from Genocide Act. I would ask my colleagues to consider cosponsoring this legislation. A number of my colleagues have agreed. I would ask the public to make sure that they know that their Congressperson knows exactly what is going on with H.R. 4017 and that they would hope that their Member of Congress would also be a cosponsor of the bill.

By calling your Congressman’s office, I am sure the Members of Congress will be very happy to hear your opinion. Many Members of this body need to know that their constituents support the Save Christians from Genocide Act, H.R. 4017.

What this legislation does is set a priority for immigration and refugee status for those Christians who are now under attack, targeted for genocide in Syria, Iran, Libya, and Pakistan.

Genocide is taking place. Mass murder is happening. Christians have been targeted for slaughter and elimination by radical Islamic terrorists in the Middle East. We have to acknowledge that or millions—just not hundreds of thousands—of Christian brethren will die.

Another group, the Yazidis, have also been similarly targeted, and my bill covers those people as well, although they are not quite as many.

The greatest threat to our country today is radical Islamic terrorism. So it should not be a difficult decision on the part of our President or the people or the public or this body to decide that we are going to do what we can to save Christians who have been targeted for slaughter by those very same forces who are now the greatest threat to our own security. However, what we have is not just a foot dragging, but a negative response from this administration.

Our President has been unable to defeat or even to turn back the onslaught of radical Islamic terrorism. Yes. I have to admit this President was dealt a pretty bad hand. Things were not good when he took over in the Middle East.

I think the mistake the United States made—it is clear that, when we sent our troops into Iraq, we did indeed break a stability that has caused us problems. What was a bad situation at that time when our President became well.

President Obama went all the way to President el-Sisi, perhaps the revolution could have happened peacefully. But, instead, President el-Sisi—has done everything he can to try to establish a caliphate that is totally rejected by the Egyptian people, had our President been able to support President el-Sisi, the Muslim Brotherhood, which now know is the philosophical godfather to all of the radical Islamic terrorist movements that now slaughter Christians and threaten the peace and stability of the world.

Our President encouraged them in the beginning, feeling, if we did, again, treat someone nicely, they will respect you.

What happened? Moderate regimes and, yes, regimes in the Middle East that were not democratic, were less than free, have been replaced with radical Islamists who mean to destroy the Middle East and turn it into a caliphate, radical Islamic terrorists who conduct terrorist raids into Western countries, radical Islamic terrorists who murder people in Turkey, in Russia, in San Bernardino.

This is what has happened since this President took over and reached out with the hand of friendship and understanding to those who would become the radical Islamic terrorists of that region and, I might say, a threat to the entire world, including the people of every city in the United States.

Had Egypt been left the way that the President wanted it, had we instead not supported the effort by the Egyptian people to rid themselves of Morsi and his government at the time when Morsi was trying to destroy their supreme court and their court system, and when it was clear that Morsi and his government at the time when Morsi was trying to destroy the hand of friendship and understanding between the United States and President el-Sisi, perhaps the revolution could have happened peacefully. But, instead, Morsi was removed by General el-Sisi when he tried to betray the Egyptian people.

Today General el-Sisi has done everything he can to try to find a way to reconcile between the Egyptian people, the United States, and the world, to have happy peace. But, instead, the United States and the world, the world, the world.

President el-Sisi is the only leader, the only President of Egypt ever to go to a Coptic Christian church and help them celebrate Christmas. This was an incredible act on his part. He also went to the Muslim clerics and personally pleased with the leadership of the Muslim clerics in Egypt. General el-Sisi—now President el-Sisi—has done everything he can to try to find a way to reconcile between Islam and the other faiths, of not only the region but the world.

President el-Sisi is the only leader, the only President of Egypt ever to go to a Coptic Christian church and help them celebrate Christmas. This was an incredible act on his part. Mr. Speaker, I would ask my colleagues to cosponsor this legislation I have proposed.
tried to attack the entire Western world.

So what did General el-Sisi get for being this courageous person? What did General el-Sisi get from us, from our President because he now basically saved Egypt, only Egypt because he now saved Egypt from a radical terrorist state—the entire Middle East would have fallen. It would have been totally out of control. And General el-Sisi stepped up.

What did he get from our President because of that? He got a feeling that our President really didn’t like him. He got the feeling, not only the feeling, but he got rejection on those requests that he made for support from the United States, legitimate requests of how he could have weapons systems that would help him defeat the same radical Islamic terrorists that are murdering our own people and conducting murderous terrorist acts throughout the world.

At that time, I might add, they were also conducting mass murders of Christians and of other people of other faiths in the Middle East, burning people to death, taking people out and sawing their heads off and doing this in a very gruesome way, raping women, raping them en masse because they are Christians or some other faith than Islam.

Yes, we needed to confront that at that time. But, instead, when General el-Sisi wanted to do what he did, they went to Egypt several years ago, and General el-Sisi pleaded: We have F–16s that we need to confront this threat. We need spare parts for our tanks. He pleaded with us: We need these things or we can’t police the desert areas on both sides of Egypt where these radicals are beginning to try to establish some kind of an uprising and some kind of a conflict that is hard to get at. So they need helicopters, they need the spare parts for their tanks, and they need their F–16, airplanes as well.

So I came back and I put together, along with several of my other colleagues, the Egyptian Caucus. The Egyptian Caucus is nothing more than a group of probably 20 of us who are trying to do our best to see that the radical Islamists do not take over Egypt and that General el-Sisi is successful in reaching out to the moderate Muslims and trying to create goodwill between those who are the moderates, those who are people of goodwill and should be working together and rejecting the radical terrorists that now threaten the whole world and threaten the region.

So we are trying to help el-Sisi. He is the point man. I came back a year later, and I talked to General el-Sisi. Well, did you get your spare parts? Well, did you get the F–16s yet? No. Did you get spare parts for the tanks you mentioned? No. Well, did you get those Apache helicopters? He said: Yeah, we got them. Finally—after 2 years, I might add—I went back a year later, and finally they had arrived, after we had raised hell in this body and the American people had their say that people like el-Sisi and other moderate people, like Abdullah in Jordan and people like that who are moderate in their religious beliefs. They are moderate people, and they believe in giving people of other faiths respect and tolerance. These are the type of leaders we should be siding with.

I might add that General el-Sisi has worked with Israel. He has gone out of his way to make sure there isn’t war between Israel and Egypt. What could we do? I mean, we are reaching out, asking for tolerance among all faiths, a man who reaches out to a country where they have been at war before and is trying to say: We will never be at war again, we will work together. That is what he is doing. But that is what our President is trying to undermine.

Our President basically has been unable to use the words “radical Islamic terrorism.” We keep saying that. That is why right after the Benghazi fiasco, that is why immediately when they started talking about: Oh, these weren’t really terrorists who murdered our ambassador, it was all caused by a movie that had been shown, and it just erupted. You could see the people getting angry, and a demonstration got out of hand, and that is when they went in and murdered our ambassador. Do you remember that?

I remember hearing it four or five times. The very first time that I heard it, I said: That is a lie. Everybody who knew what was going on, that is what struck them, our government was lying to us in order to protect what? And, I might add, our Secretary of State then, was telling the world that these people and our demonstration got out of hand, and that is when they went in and murdered our ambassador. Do you remember that?

I remember hearing it four or five times. The very first time that I heard it, I said: That is a lie. Everybody who knew what was going on, that is what struck them, our government was lying to us in order to protect what? And, I might add, our Secretary of State then, was telling the world that these people and our demonstration got out of hand, and that is when they went in and murdered our ambassador. Do you remember that?

I will tell you what difference it makes. The difference it makes is that you are sending a message to radicals who murdered our ambassador that they have gotten away with it, and we are not going to challenge them. We are not going after the terrorist murderers. We are not even giving them credit or making them accountable for it. We are going to blame it on somebody else so the American people won’t get mad and insist that we do something against it.

So, yeah, that was the administration trying to tell us. This is the same administration, as I say, that can’t get itself to help General el-Sisi, who has saved us from the horror story of having Egypt turned into a radical Islamic terrorist camp. And now we can only tell the people that their ambassador has been murdered by radical Islamic terrorists.

In fact, those words, “radical Islamic terrorists” have not been uttered. I would challenge the President tonight, not including this in a list of long things, but just get up and say one sentence specifically about “I reject radical Islamic terrorism, and the radical Islamic terrorists of the world have to know that.” We haven’t heard that from him. We haven’t heard that from him at all. Give me the quote.

By the way, I think he did use the phrase in passing saying Christian terrorists and radical Islamic terrorists and blah-blah. No, that is not it. Let’s not be vague. Let’s be specific about radical Islamic terrorism. But, no, we haven’t been able to do that.

That same President, then, at a time when the situation is spiraling out of control because these terrorists are flooding the Middle East and various countries—whether it is Syria, Iraq, and those parts—this area is becoming so unstable that if we do not do something to save the people there who are under attack in two ways, number one, those people who are there, like the Kurds, like the Sunnis in the Anbar Province who are anti-ISIL, like General el-Sisi and Abdullah of Jordan, we have to make sure we help them. That is the first thing we have to do. But the second thing we have to do is make sure we do what is morally right when it comes to those people who have been targeted to be slaughtered. We are talking about a genocide that is existing. We know that the Christian communities have been targeted for extinction by a mass slaughter being conducted by radical Islamic terrorists.

Those people who have been targeted deserve to come to the United States.

Number one, our government needs to know that. To tell us that second the government needs to know that those people who are targeted for genocide can find safe haven here instead of bringing healthy, young Muslim men from that area and letting them come into the United States, letting them flood into Europe rather than those people, those Christians who are being targeted.

I went up to Munich and took a look at one of these refugee camps. We all have seen this, video after video of children, of women, of young, of hundreds of thousands pouring in to Western Europe. We don’t know how many of them are terrorists. But here
is the point. If those young men don’t like radical Islam and this terrorism, they should be back in their home country fighting it.

If they do like radical Islam, they certainly shouldn’t be permitted into the Western democracies. The same is true in the United States. We should not be permitting—and our President has been, I would say, not doing the job that we have been expecting him to do to protect our interests when it comes to the people who are flocking into our country whether they are radical Islamic terrorists or whether they are just people coming in from the Middle East who we haven’t checked out yet enough. And, of course, we have hundreds of thousands, and, yes, millions of people who have come here illegally—we don’t even know who they are—who have swarmed across the border.

This President talks about amnesty, talks about giving children who have come here illegally free education and health care, the DREAM Act, et cetera. What do you think this does? This encourages hundreds of thousands or millions of people to come here.

The trouble is, when there is a flood, we don’t know if in that group of hundreds of thousands and millions of people in the last few years, how many of them have been terrorists. Do you really believe that our enemies, that these people who slaughter innocent people, these people who are rampaging through the Middle East, raping thousands of young girls because they are Christians, you think that they would care about lying to come here and they would refrain from coming here because they would have to cross the border and break the law? We don’t know how many of them are here, but they are here. It is the President of the United States who is at fault.

We should have had a system of coming into our country a long time ago that allows and hands people with legitimate immigration status, and everyone that would come here from the Middle East should have been vetted that way.

I was briefed, along with my colleagues today to please join me in cosponsoring my legislation, H.R. 4017. It does this. At the very least, we can try to save those Christians in Yazidi cities that have been targeted for genocide.

And how we do it is this. You have a certain number of those on refugee status, a certain number on immigration status coming from these five countries that I mentioned in the Middle East. These are the areas where the Christians are the most under attack. What we propose is that Christians and these Yazidis who have also been targeted for genocide are going to get priority. They deserve to be on the top of the list. They deserve priority long before these healthy, young Muslims who are coming here. And then we will let them in. We will, of course, vet them, make sure we know who they are, and they will get the priority.

Now, the President made a statement—he didn’t use the number of my bill, but he talked about it—and said: Well, we don’t believe in that. That is discriminating because of religion. It is a religious test. We don’t do religious tests in America.

Are you kidding? We cannot prioritize what we do to make sure that what we are doing is helping the person who is most in danger? Is a life-guard in some way showing disrespect in not helping those other people in the water by going out and saving someone who is drowning?

This isn’t discrimination. This is a prioritization of the people who are under attack and will be slaughtered. This intellectualism will result in what, if we accept the President and this administration saying, “Oh, you can’t prioritize for Christians”? By the way, he doesn’t seem to have any trouble prioritizing for anybody else, but it is very clear that he won’t let us prioritize for Christians who are targeted for genocide. No, I reject that totally. It is not racism.

We had another incident like this in our history. In 1939, there was at least one boatload of Jews that made it to the United States. They prayed and pleaded with us to let them in. At that moment, Nazi Germany was in the process of picking up the Jews and putting them in concentration camps. These people got away with their families and they came here. And what did we do? We turned them back. We turned them back for the same reason. Oh, if we let you in, it is a special favor to you. These people were targeted for genocide, and we let them back. Many of them died in these Nazi concentration camps. Let’s not do that again.

I would ask my colleagues to join me in cosponsoring my bill, H.R. 4017, the Save Christians from Genocide Act. Join me and we will send a message to the world that, yes, we are still the same good-hearted people that we have always claimed to be but have not always met that standard.

Today we deserve to stand up and be the champion of the type of values that I am talking about. That is what our Founding Fathers had in mind. America was the refuge of the world. America was the shining city on the hill that inspired the whole world. But we weren’t cowards. We weren’t someone who undermined some person in his country who is fighting an evil force like General el-Sisi. No, our Founding Fathers made sure that those people who are struggling for a better world had our support.

By the way, let me just note that I worked on speeches for Ronald Reagan. I was Reagan’s speechwriter for 7 years in the White House. I was actually researching one of his speeches, and I came across the fact that a man named Kossuth, from Hungary, came to the United States and was pleading for help for the Hungarian people who were being in an uprising against the Austro-Hungarian Empire and were fighting for their freedom. He was there in the Midwest giving speeches and trying to get the American people to support him. I read a couple of his speeches.

Then I noted that in Springfield, Illinois, right after his speech, the town liked him. He was a freedom fighter. But they passed a resolution at their meeting that said the United States is a noninterventionist power and we should not get involved overseas, something like that.

Kossuth was still in town. He read the newspaper account of it. And when the word got out that he was so in deep that the people of the United States would say such a thing and side with the oppressor through their inaction, when the people heard about this, they called a second meeting.

In the second meeting, they passed a resolution saying that while we don’t want to send our military forces all over the world—which is still a good idea—we will support those people who are struggling for freedom throughout the world. We will open up our arseme. We will send help to them. We will send them the training that they need to defeat the forces of tyranny that oppress them. That second resolution, then, was passed and was signed by the people of Springfield, Illinois; and in the last phases, I might add, one of the people who signed that document was one A. Lincoln.

I will tell you about that speech of Mr. Kossuth. That speech ended with:

And we do this and we make this commitment to that government, by the people, and for the people shall not perish from this Earth.
Lincoln was there in that room when that speech was given, and he later united the people of the United States with that thought from that man, that freedom fighter overseas.

There are people who are struggling for their freedom. There are people who are striving for it. We do not have to send American military boys to fight the fight that they should be fighting for themselves. But at the very least, we must give them the support they need to defeat the evil forces in the world that would slaughter them, slaughter their families, and come after us next.

That is what the war with radical Islam terrorism is all about. They are at war with us, and they mean to kill our families and they mean to push Western civilization out of the history books of the world in the future. They want it to be a radical Islamic world, and they will kill all of us to get it.

Now, that is not all of the Muslims. I agree with our President that we should not say all Muslims are this way. After all, General el-Sisi is a Muslim; Abdullah of Jordan is a Muslim.

The people that we need on our side to defeat radical Islam are the moderate Muslims of the world. I think at least 80 percent of the Muslims of the world are moderate and would want to be our friends. We need now to recognize that that segment of Islam is now a threat to our safety, our well-being.

This is an historic moment. We can either unite the people of the United States to let their Congress—you know, with that thought from that man, that freedom fighter overseas. But at the very least, we must give them the support they need to defeat the evil forces in the world that would slaughter them, slaughter their families, and come after us next.

That is what the war with radical Islam terrorism is all about. They are at war with us, and they mean to kill our families and they mean to push Western civilization out of the history books of the world in the future. They want it to be a radical Islamic world, and they will kill all of us to get it.

Now, that is not all of the Muslims. I agree with our President that we should not say all Muslims are this way. After all, General el-Sisi is a Muslim; Abdullah of Jordan is a Muslim.

The people that we need on our side to defeat radical Islam are the moderate Muslims of the world. I think at least 80 percent of the Muslims of the world are moderate and would want to be our friends. We need now to recognize that that segment of Islam is now a threat to our safety, our well-being.

This is an historic moment. We can either unite the people of the United States to let their Congress—you know, with that thought from that man, that freedom fighter overseas. But at the very least, we must give them the support they need to defeat the evil forces in the world that would slaughter them, slaughter their families, and come after us next.

That is what the war with radical Islam terrorism is all about. They are at war with us, and they mean to kill our families and they mean to push Western civilization out of the history books of the world in the future. They want it to be a radical Islamic world, and they will kill all of us to get it.

Now, that is not all of the Muslims. I agree with our President that we should not say all Muslims are this way. After all, General el-Sisi is a Muslim; Abdullah of Jordan is a Muslim.

The people that we need on our side to defeat radical Islam are the moderate Muslims of the world. I think at least 80 percent of the Muslims of the world are moderate and would want to be our friends. We need now to recognize that that segment of Islam is now a threat to our safety, our well-being.
the same as substantive regulations promulgated by the Attorney General and the Secretary of Transportation to implement the statutory provisions referred to in subsection (a), except that the authority to determine, for good cause shown and stated together with the regulation, that a modification of such regulations is effective for the implementation of the rights and protections under this section.” Id. Section 210(e) further provides that the regulations shall include a method for identifying, for purposes of this section and for different categories of violations of subsection (b), the entity responsible for correction of a particular violation. 2 U.S.C. § 12182(b)(1)(E). Nonetheless, in response to this concern, the Board has modified the proposed regulation to incorporate the regulations in existence on the date (which was proposed in the NPRM and occurs after Congress has approved the regulations). The Board has determined that further rulemaking proceedings are not required because the publication requirements of Section 304(b)(1) of the CAA, which require compliance with 5 U.S.C. §353(b), is satisfied by incorporating “material readily available to the class of persons affected” by the proposed regulation. See, 5 U.S.C. §353(a)(1)(E). Nonetheless, in response to this comment, the Board has modified the proposed regulation to incorporate the regulations in existence on the adoption date rather than the issuance date. In addition, to further address this concern, the adopted regulations require that the full text of the incorporated regulations be published on the Office of Compliance website.

2. Providing services, programs, activities or accommodations directly to the public out of a leased space.

Several commenters raised questions regarding compliance when a legislative branch office is leasing space from a private landlord. Under the ADA regulations (both Title II and Title III), the space must be made accessible to the public; that is, “the space where it is located, the building site, the parking lots and the interior and exterior walkways are all considered to be ‘facilities.’” If the facility is being used to meet with members of the public, under the CAA, the facility is a place of public accommodation operated by a public entity and therefore the space must be accessible to the public. More specifically, Title II and Title III regulations apply when the leased space is used by the public. Because the private landlord is leasing a facility to the legislative branch office at the time of construction, the private landlord will also have to comply with the DOJ’s Title III regulations, subject to enforcement by the DOJ or by an individual with disabilities. Title II regulations apply when the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.” When choosing a method of providing services, programs and activities to qualified individuals with disabilities in the most appropriate manner, the public entity must “give priority to those methods that offer services, programs, and activities to qualified individuals with disabilities in the most appropriate manner.”
find that each of the office’s services, programs or activities, when viewed in its entirety, is readily accessible or usable by them. Offices are usually placed in a locality so that they can be personally reached by all individuals who might be concerned about the affairs of the office.

3. Accessibility requirements for rural and urban areas.

One commenter suggested that the Board should recognize that the access requirements in rural areas differ from those in urban areas and should therefore adopt regulations that recognize this distinction. The ADA is a civil rights statute and not a building code, although it is sometimes mistakenly viewed as one. While alterations and construction in rural areas may not be regulated by local building codes, under the ADA, the barrier-free living facilities in those areas are entitled to the same rights and protections as those living in urban areas. This means that public entities and public accommodations must comply with the same applicable ADA access requirements regardless of their location. For this reason, following the DOJ and DOT, the Board has decided to require the leasing regulations to reflect distinctions between rural and urban areas.

4. Accessibility requirements for leased facilities

In the NPRM, the Board proposed adoption of an Access Board regulation based on 36 C.F.R. § 1190.34 which since July 23, 2004 has been incorporated into the Access Board’s Architectural Barriers Act Accessibility Guidelines (“ABAAG”). This regulation provides that buildings and facilities leased with federal funds shall contain certain specified accessibility features. Buildings or facilities leased for 12 months or less are not required to comply with the regulation as long as the lease cannot be extended or renewed.

The Access Board’s leasing regulation implementing the Architectural Barriers Act (“ABA”) which Congress originally passed in 1968 and amended in 1976. The ABA was originally enacted “to insure that all public buildings constructed in the future by or on behalf of the Federal Government or with loans or grants from the Federal Government are designed and constructed so that they will be accessible and usable by the physically handicapped.” S.Rep. No. 538, 94th Cong., 1st Sess., reprinted in 1968 U.S. Code Cong. & Admin. News 718, 719. Prior to 1976, the ABA covered only leased facilities that were “to be leased in whole or in part by the United States after August 19, 1975.” S.Rep. No. 94-1584—Part I, 94th Cong., 2d Sess. 1 (1976). As a result, it is clear that Congress amended the ABA in 1976 to close the loophole through which inaccessible buildings and facilities were leased without alteration. See, Public Buildings Co-operative Use: Hearings on HR 13134 Before the Subcommittee on Public Buildings and Grounds of the House Committee on Public Works and Transportation, 94th Cong., 2d Sess. 107 (1976) (statement of Representative Edgar).

Consequently, since 1976, a hallmark of federal policy regarding people with disabilities has been to require accessibility of buildings and facilities constructed or leased using federal funds. When the ADA was enacted in 1990, the Congress required legislative branch compliance with only the public access provisions of the ADA rather than the Rehabilitation Act of 1973 or the ABA, the ADA itself was enacted in 1990 to expand the access rights of individuals with disabilities beyond what was previously provided by the Rehabilitation Act of 1973 and the ABA. The Congress in 1994 amended the ABA that Congress incorporated into the CAA in Section 204. Section 204 requires that the regulations promulgated under the ADA with respect to existing facilities “shall be consistent” with the regulations promulgated by the DOJ in 28 C.F.R. Part 32 U.S.C. § 12134(b). Under 28 C.F.R. § 39.150(b), a covered entity is required to meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended, and any regulations implementing it.

As several commenters noted, when the DOJ promulgated its ADA regulations in 1991, it stated in guidelines that it had intended to regulate certain requirements that required public entities to lease only accessible facilities because to do so “would significantly restrict the options of State and local governments in seeking leased space, which would be particularly burdensome in rural or sparsely populated areas.” 29 C.F.R. Pt. 36, 508, 510, 511 (1991). Similarly, while Section 210(f) of the CAA requires the General Counsel to accept and investigate charges of discrimination filed by qualified individuals with disabilities alleging a violation of Section 210 of the CAA by a covered entity, the CAA provides no details regarding how charges shall be investigated. Similarly, while Section 210(g) of the CAA requires the General Counsel, on a regular basis, at least once each Congress, inspect the facilities of covered entities to ensure compliance with Section 210 of the CAA, the Board has decided to require the leasing of accessible spaces as required in § 283.8 of the ABAAG.
The OOC General Counsel has been conducting ADA inspections since January 23, 1995, when the CAA authorized commencement of these inspections. The OOC General Counsel has been investigating charges of discrimination since January 1, 1997, the effective date of Section 210(d). Since the creation of the OOC General Counsel, there have been efforts to conduct investigations in a manner that is not disruptive to the offices involved and has not received complaints from constituents. However, it has been found that its ADA investigations or inspections have ever been disruptive. The regulations merely propose that the General Counsel conduct investigations and inspections in a manner that they have always been conducted.

Due to the lack of inspection resources, the General Counsel is unable to conduct ADA inspections of all facilities used by the covered entities at least once each Congress. The General Counsel is unable to inspect all of the facilities located in the Washington, D.C. area, much less all of the facilities used by the district and state offices that are also covered by the CAA. In light of the General Counsel’s limited resources and the large number of facilities that are covered by the CAA, the General Counsel must prioritize its ADA inspections. The proposed regulations allow the General Counsel to continue its practice of giving priority to inspection of areas that have raised concerns from constituents through the request for inspection process and are usually appreciative of information concerning constituent access issues, of which they might otherwise be unaware.

Under the proposed regulations, requests for inspection filed anonymously or by persons without disabilities are not considered “charges of discrimination” that could result in a formal complaint being filed by the General Counsel against the covered office. Unlike Section 215 of the CAA, relating to occupational safety and health (“OSH”) inspections and investigations, Section 210 of the CAA authorizes the General Counsel to initiate enforcement proceedings unless a qualified individual with a disability has filed a charge of discrimination. But like Section 215, Section 210 of the CAA does authorize the General Counsel to inspect any facility and report its findings to the covered offices and to Congress. The proposed regulations merely recognize the General Counsel’s long standing and common sense approach that concentrates limited inspection resources on the areas of most concern to constituents.

The other concern mentioned in the comments is that the proposed regulations define the General Counsel’s investigatory authority in its proposed regulations. Section 210 provides. Section 210 directs the General Counsel to investigate charges of discrimination without specifying how those investigations are to be conducted. To fill this gap, the proposed regulations allow the General Counsel to use modes of inquiry and inspection that are consistent with the CAA. For example, if it chooses to use a private landlord has failed to comply with the lease with the covered entity and the General Counsel would be unable to “allocate responsibility” between the covered entity and the private landlord. In response, the Board notes that Section 1.104(c) describes how the entities responsible for correction of violations are identified. Section 1.104(d) describes how responsibility is allocated when more than one covered entity is involved. A private landlord is not a “covered entity” within the meaning of the CAA. Section 1.104(d) would not be applicable when deciding how responsibility is allocated.

6. Request to create new regulations relating to “civil enforcement.”

One commenter suggested that the Board use these regulations to recognize the Capitol Police Board’s statutory authority relating to safety and security and create new regulations defining this authority with respect to Section 210 of the CAA. In response, the Board does not find any statutory language in the Board’s regulations to define the authority of the Capitol Police Board by regulation and therefore does not find good cause to modify the language of the DOJ or DOT regulations in the manner requested.

7. Comments to specific regulations.

a. Sec. 1.101—Purpose and Scope. One commenter suggested that, when describing how the CAA incorporates sections of Title II and III of the ADA, the regulation should use the language contained in the incorporated statutory sections. The Board has made this change in the adopted regulations. The same commenter suggested that mediation should be mandatory when a complaint is filed. The Board has made this change in the adopted regulations.

b. Sec. 1.102—Definitions. One commenter suggested that the incorporated definition of the “Act” should be reconciled with the definition of “ADA” provided in the proposed regulations. The Board has added “or Americans with Disabilities Act” after “ADA” in the definition section of the adopted regulations. This will clarify that references to the “Americans with Disabilities Act” or the “Act” in this regulation include both the ADA that are applied to the legislative branch by the CAA. One commenter suggested that there should be some discussion of a “registered entity.” The Board has deleted the word “also” from the definition of “ADA” in the adopted regulations. This will allow the term “ADA” to be used consistently with the definition of “historic property” in Sec. 1.105(a)(4) which would add the word “properties” to the list including “facilities and other property.”

c. Sec. 1.103—Authority of the Board. One commenter suggested that this section be modified to allow the Board to adopt the Pedestrian Right of Way Accessible Guidelines ("PROWAG") as a standard. Because the PROWAG are only incorporated guidelines and they have not been adopted by the DOT as standards by regulation, these are not among the current DOT regulations that the Board can adopt under Section 1.103(c). The Board notes that Section 1.103(c) has been reworded to make the word “also” to the definition in the adopted regulations. Another comment suggested that, rather than providing a general definition of “historic property,” conflicting regulations should be rewritten to reconcile all possible conflicts. One commenter, as noted earlier in response to the general comments, the Board has adopted the Title II regulation when both a DOJ Title II and Title III regulations address the same subject. The Board notes that Section 1.105(a). A comment suggested that this regulation should not be adopted because it references Title V of the Rehabilitation Act which includes employment discrimination issues. The Board notes that Section 1.105(a) is based on Section 204 of the ADA, 42 U.S.C. §12134, which is incorporated by reference into the CAA; consequently, this provision remains in the adopted regulations.

(2) Section 35.104. A comment suggested that this regulation should be rewritten to provide a method for identifying entity responsible for correction of violations. A comment noted that this section refers to both the statutory and regulatory language at different times. In response to this suggestion, the Board notes that Section 35.104(a) was rewritten to “this section” to “Section 210 of the CAA” in the adopted regulations. A commenter has also suggested that this regulation refers to allocating responsibility between covered entities rather than identifying the entity responsible and notes that there may be instances where there is an express delegation of authority to the agency to elucidate the statute. id. at 443.
that these regulations should not be adopted because they might require covered entities to report findings to the OOC or keep and maintain certain records. The Board does not believe the entity or entities responsible for modifying the existing DOJ regulation. Unlike some of the other statutes incorporated by reference and therefore finds no cause for deleting this regulation. The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(2) Section 36.201 (Purpose). A comment suggested that this regulation be modified to require all covered entities to report findings to the OOC or keep and maintain certain records. The Board does not believe the entity or entities responsible for modifying the existing DOJ regulation. Unlike some of the other statutes incorporated by reference and therefore finds no cause for deleting this regulation. The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(3) Section 36.205 (Mobility Devices). A comment suggested that this regulation should be modified to require persons who are using mobility devices to provide such devices at their own expense. The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(4) Section 36.211 (Maintenance of accessible features). A comment suggested modifying this regulation to require that the term “Americans with Disabilities Act” as including only those sections of the ADA incorporated by the CAA. The Board has not responded to comments regarding this regulation because it references Title V of the Rehabilitation Act. In response, the Board notes that Section 36.103 is based in part on the ABAAG at § 12134, which is incorporated by reference into the CAA, and therefore finds no cause for deleting this regulation.

(5) Section 36.215 (Existing Facilities). A comment suggested that this proposed regulation should be modified so that it requires that only accessible facilities be leased and that Section 35.150(d) be removed because it requires the development of a transition plan which imposes recordkeeping requirements not adopted in the CAA. The Board does not find “good cause” for modifying the existing DOJ regulation. The accessibility requirements of leased facilities are addressed in a separate regulation regarding new construction and alterations, as noted earlier, unlike some of the other statues incorporated by the CAA, the ADA does not contain a specific section about access to existing buildings. Congress declined to apply to legislative branch entities. The transition planning requirement is a key element of the DOJ regulations since it compels public entities to develop a plan for making all of their facilities accessible.

(6) Section 36.209 ( Illegal use of drugs). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(7) Section 36.301 ( Purpose). A comment suggested that this regulation be modified to require all covered entities to report findings to the OOC or keep and maintain certain records. The Board does not believe the entity or entities responsible for modifying the existing DOJ regulation. Unlike some of the other statutes incorporated by reference and therefore finds no cause for deleting this regulation. The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(8) Section 36.304 ( Removal of Barriers). A comment suggested modifying this regulation to acknowledge that the General Counsel has no authority over private landlords. The Board does not find good cause for modifying this regulation. As noted earlier, there is nothing in the regulation that suggests the CAA applies to private landlords. In many cases, barrier removal is the responsibility of both the landlord and the tenant. If the tenant has a lease provision that places this responsibility on the landlord, it is up to the tenant to take appropriate action to enforce this provision.

(9) Section 36.310 (Altersions). Section 36.403 ( Alterations: Path of travel). Section 36.404 (Alterations: Elevator exemption). Section 36.405 ( Alterations: Historic preservation). Section 36.406 (Standards for alterations). A comment suggested modifying these regulations to consider the limited control that some offices have over capital improvement and alterations. The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(10) Section 35.163 (Information and Signage). A comment suggested excluding offices that do not have direct control over signage in common areas from this regulation. In response, the Board notes that only those sections of Title III incorporated by the CAA are being implemented. The Board finds that this change is not necessary because the adopted regulations define the term “Americans with Disabilities Act” as including only those sections of the ADA incorporated by the CAA. The Board has not responded to comments regarding this regulation because it references Title V of the Rehabilitation Act. In response, the Board notes that Section 36.103 is based in part on the ABAAG at § 12134, which is incorporated by reference into the CAA, and therefore finds no cause for deleting this regulation.

(11) Appendices to Part 36 Regulations. A comment suggested modifying the definitions of the titles of the Appendices to Parts 35 and 36. The titles have been corrected in the adopted regulations.

(12) Section 36.104 (Effective communication). In response, the Board finds that there is not “good cause” for modifying the existing DOJ regulations since it compels all of their facilities accessible. The Board does not find “good cause” for modifying the existing DOJ regulation. Unlike some of the other statutes incorporated by reference and therefore finds no cause for deleting this regulation. The Board notes that Section 36.103 is based in part on the ABAAG at § 12134, which is incorporated by reference into the CAA, and therefore finds no cause for deleting this regulation.

(13) Appendices to Part 35 Regulations. A comment suggested modifying the titles of the Appendices to Parts 35 and 36. The titles have been corrected in the adopted regulations.

(14) Section 36.101 (Purpose). A comment suggested that this regulation be modified to require all covered entities to report findings to the OOC or keep and maintain certain records. The Board does not believe the entity or entities responsible for modifying the existing DOJ regulation. Unlike some of the other statutes incorporated by reference and therefore finds no cause for deleting this regulation. The Board notes that Section 36.103 is based in part on the ABAAG at § 12134, which is incorporated by reference into the CAA, and therefore finds no cause for deleting this regulation.
listed in Section 210(a) and the language in Section 210(c) which provides for "such remedy as would be appropriate if awarded under section 300(a) of the American with Disabilities Act of 1990." These provisions, when read together, may very well constitute an express waiver of sovereign immunity for all damages that can be appropriated, as well as compensatory damages, which would include compensatory damages.

1. Part 3—Matters Pertaining to Periodic Inspections and Reporting

(a) Periodic Inspections and Scoping. Several commenters suggested that this regulation explain in more detail how the General Counsel will exercise statutory authority by procedural means. In response, the Board has deleted this sentence from the adopted regulation.

(b) Section 3.02(Definitions). A commenter suggested that the definition of "facilities of a covered entity" be narrowed so that the General Counsel would only inspect spaces occupied solely by a legislative branch office and would not inspect common spaces, entrances or accessible pathways used to access the solely occupied spaces. The Board, such a narrow definition of "facilities of a covered entity" would be inconsistent with the DOJ regulations and the purpose of the statutory mandate to inspect facilities for compliance with Titles II and III of the ADA; therefore, it has not modified this definition in the adopted regulations.

(c) Section 3.103 (Inspection Authority). Commenters suggested that the General Counsel not be allowed to conduct an inspection or investigation initiated by someone who wishes to remain anonymous. For the reasons stated earlier in response to the general comments, the Board rejects this suggestion and has therefore not changed this section.

(d) Section 3.102 (Definitions). The Architect of the Capitol suggested that, in the interest of simplicity and timeliness, Section 3.102(d) be shortened to: "The Office of the Architect of the Capitol shall, within one year from the effective date of these regulations, develop a process with the General Counsel to identify potential barriers to access prior to the completion of alteration and construction projects." Because the language used in the NPRM more thoroughly describes what this preconstruction process should entail, the Board did not find good cause to modify this regulation in the manner suggested.

Adopted Regulations:

PART 1—MATTERS OF GENERAL APPLICABILITY TO THE REGULATIONS PROmulGATED UNDER SECTION 210 OF THE CONGRESSIONAL ACCOUNTABILITY ACT OF 1995

§ 1.101 PURPOSE AND SCOPE

§ 1.102 DEFINITIONS

§ 1.103 AUTHORITY OF THE BOARD

§ 1.104 METHOD FOR IDENTIFYING THE ENTITIES RESPONSIBLE FOR CORRECTING VIOLATIONS OF SECTION 210

§ 1.105 REGULATIONS INCORPORATED BY REFERENCE

§ 1.106 Purpose and scope. (a) CAA. Enacted into law on January 23, 1995, the Congressional Accountability Act of 1995 ("CAA") in Section 210(b) provides that the rights of individuals against discrimination in the provision of public services and accommodations established by sections 201 through 230, 302, 303, and 309 of the Americans with Disabilities Act of 1990, U.S.C. §§ 12131–12150, 12182, 12183, and 12189 ("ADA"), shall apply to the following entities:

(i) each office of the Senate, including each committee and each conference committee;

(ii) each office of the House of Representatives, including each office of a Member of the House of Representatives and each committee;

(iii) each joint committee of the Congress;

(iv) the Office of Congressional Accessibility Services;

(v) the United States Capitol Police;

(vi) the Congressional Budget Office;

(vii) the Office of the Architect of the Capitol;

(viii) the Office of the Attending Physician; and

(ix) the Office of Compliance;

(b) Title II of the ADA prohibits discrimination on the basis of disability in the provision of public services, programs, activities, and services. Title III of the ADA prohibits discrimination on the basis of disability in public accommodations and requires places of public accommodation and commercial facilities to be designed, constructed, and altered in compliance with accessibility standards. Section 225(f) of the CAA provides that, "[e]xcept where such a determination is included in this Act," the definitions and exemptions of the ADA shall apply to Congress. Section 210 requires that the General Counsel of the Office of Compliance accept and investigate charges of discrimination filed by qualified individuals with disabilities within a particular violation of Title II or Title III of the ADA by a covered entity. If the General Counsel believes that a violation may have occurred, the General Counsel may file a complaint against the entity under Section 403 of the CAA and may file with the Office a complaint under Section 405 of the CAA against any entity responsible for correcting the violation. 2 U.S.C. § 1331(d).

(c) Section 210(f) of the CAA requires that the General Counsel of the Office of Compliance, on a regular basis, and at least once each Congress, conduct periodic inspections of all covered facilities and to report to Congress on compliance with disability access standards under Section 210. 2 U.S.C. § 1331(f).

(d) Purpose and scope of regulations. The regulations set forth herein (Parts 1, 2, and 3) are the substantive regulations that the Board of Directors of the Office of Compliance has promulgated pursuant to Section 210(e) of the CAA. Part 1 contains the general provisions applicable to all regulations under Section 210 of identifying entities responsible for correcting a violation of Section 210, and the list of executive branch regulations incorporated by reference which define and clarify the prohibition against discrimination on the basis of disability in the provision of public services and accommodations. Part 2 contains the provisions pertaining to investigation and prosecution of charges of discrimination. Part 3 contains the provisions regarding the periodic inspections and reports to Congress on compliance with the disability access standards.

§ 1.106 Definitions. Except as otherwise specifically provided in these regulations, as used in these regulations:

(b) Americans with Disabilities Act means those sections of the Americans with Disabilities Act of 1990 incorporated by reference into the CAA in Section 210: 42 U.S.C. §§ 12111–12113, 12181, 12182, 12183, and 12189 ("ADA").

(c) Covered entity and public entity include any of the entities listed in § 1.101(a) that provide public services, programs, or activities, or operate a place of public accommodation within the meaning of Section 210 of the CAA. In the regulations implementing Title III, private entity includes covered entities.

(d) Board means the Board of Directors of the Office of Compliance.

(e) Office means the Office of Compliance.

(f) General Counsel means the General Counsel of the Office of Compliance.

§ 1.107 Authority of the Board.

(a) Pursuant to Sections 210 and 304 of the CAA, the Board is authorized to issue regulations to implement the rights and protections against discrimination on the basis of disability in the public services and accommodations under the ADA. Section 210(e) of the CAA directs the Board to promulgate regulations implementing Section 210 that are "the same as substantive regulations promulgated by the Attorney General and the Secretary of Transportation to implement the statutory provisions referred to in subsection (b) except to the extent that the Board may determine, for good cause shown and stated together with the regulation, that a modification of such regulations would be necessary to implement the rights and protections under this section." 2 U.S.C. § 1331(e). Specifically, it is the Board's considered judgment, based on the information available to it at the time of promulgation of these regulations, that, with the exception of the regulations adopted and set forth herein, there are no other "substantive regulations promulgated by the Attorney General and the Secretary of Transportation to implement the statutory provisions referred to in subsection (b) of Section 210 of the CAA" that need be adopted.

(b) In promulgating these regulations, the Board has made certain technical and nomenclature changes as promulgated by the Attorney General and the Secretary of Transportation. Such changes are intended to make the provisions accorded more naturally to situations in the Legislative Branch. However, by making these changes, the Board does not intend a substantive difference between these regulations and those of the Attorney General and/or the Secretary of Transportation from which they are derived. Moreover, such changes, in and of themselves, are not intended to constitute a substantive change of the regulations or of the statutory provisions of the CAA upon which they are based.

§ 1.108 Method for identifying the entity responsible for correction of violations of section 210.

(a) Purpose and scope. Section 210(e)(3) of the CAA provides that regulations under Section 210(e) include a method of identifying purposes of the CAA and for categories of violations of Section 210(b), the entity responsible for correcting a particular violation. This section sets forth the method for identifying the entities for the purpose of allocating responsibility for correcting violations of Section 210.

(b) Violations. A covered entity may violate Section 210(b) if it discriminates against a qualified individual with a disability with the meaning of Title II or Title III of the ADA.

(c) Entities Responsible for Correcting Violations. Correction of a violation of the rights and protections against discrimination is the responsibility of the entities listed in subsection (a) of Section 210 of the CAA that provide the specific public service, program, or activity that forms the basis for the particular violation of Title II or Title III rights and protections.
and, when the violation involves a physical access barrier, the entities responsible for designing, maintaining, altering, or constructing the facility in which the specific program, activity, or accommodation is conducted or provided.

4. Allocation of Responsibility for Correction of Title II and/or Title III Violations.

Where an entity is found to be an entity responsible for correction of a violation of Title II and/or Title III rights and protections under the method set forth in this section, such entity may assign the allocation of responsibility for correcting the violations of Title II or Title III of the ADA which may be determined by statute, contract, or other enforceable arrangement or relationship.

§ 1.105 Regulations incorporated by reference.

(a) Technical and Nomenclature Changes to Regulations Incorporated by Reference. The definitions in the regulations incorporated by reference (“incorporated regulations”) shall be used to interpret these regulations except: (1) when they differ from the definitions in § 1.102 or the modifications listed below, in which case the definition in § 1.102 or the modification listed below shall be used; (2) when they define terms that are not used in the incorporated regulations. The incorporated regulations are hereby modified as follows:

(1) When the incorporated regulations refer to “Assistant Attorney General,” “Department of Justice,” “FTA Administrator,” “FTA regional office,” “Administrator,” “Secretary,” or any other executive branch office or officer, “General Counsel” is hereby substituted.

(2) When the incorporated regulations refer to the date “January 26, 1992,” the date “January 1, 1997” is hereby substituted.

(3) When the incorporated regulations otherwise specify a date by which some action must be completed, the date that is three years from the effective date of these regulations is hereby substituted.

(b) Rules of Interpretation. When regulations conflict, the regulation providing the most access shall apply. The Board’s Notice of Adoption shall be used to interpret these regulations and shall be made part of these regulations as Appendix A.

(c) Incorporated Regulations from 28 C.F.R. Parts 35 and 36. The Office shall publish on its website the full text of all regulations incorporated by reference. The following regulations from 28 C.F.R. Parts 35 and 36 that are published in the Code of Federal Regulations on the date of the Board’s adoption of these regulations are hereby incorporated by reference as though stated in detail herein:

§ 35.101 Purpose.

§2.108 Judicial Review.

§2.109 Duty to cooperate.

§2.107 Remedies and Compliance.

(a) Remedy. The remedy for a violation of Section 210 of the CAA shall be such remedy as would be appropriate if awarded under Section 203 or 308(a) of the ADA.

(b) Compliance. If a violation is found to have occurred, the General Counsel shall take such action as is necessary to bring the affected entity into compliance. The General Counsel shall have the right to employ any means necessary to bring the affected entity into compliance with the ADA.

§2.108 Judicial Review.

A charging individual who has intervened or any respondent to the complaint, if aggrieved by a final decision of the Board, may file a review...

PART 3—MATTERS PERTAINING TO PERIODIC INSPECTIONS AND REPORTING.

§3.101 Purpose and scope.

§3.102 Definitions.

§3.103 Inspection authority.

§3.104 Reporting, estimated cost & time, and compliance date.

§3.105 Inspection requirements.

(a) The facilities of covered entities means all facilities used to provide public programs, activities, services or accommodations that are designed, maintained, altered or constructed by a covered entity and all facilities where covered entities provide public programs, activities, services or accommodations.

(b) Violation means any barrier to access caused by noncompliance with the applicable standards.

(c) Estimated cost and time needed for abatement means cost and time estimates that can be reported as falling within a range of dollar amounts and dates.

§3.106 Definitions.

(a) General scope of authority. On a regular basis, at least once each Congress, the General Counsel shall inspect the facilities of covered entities to ensure compliance with Titles II and III of the ADA. When conducting these inspections, the General Counsel has the discretion to decide which facilities will be inspected and how inspections will be conducted. The General Counsel may request information, conduct inspections, examine records, and file complaints.

(b) Review of information and documents. With the cooperation of covered entities, inspections conducted by the General Counsel shall be reviewed by the Board pursuant to Section 406 of the CAA.

(c) Duty to cooperate. Covered entities shall cooperate with any inspections conducted by the General Counsel in the manner provided by §3.103(b).
(d) Pre-construction review of alteration and construction projects. Any project involving alteration or new construction of facilities of covered entities is subject to inspection by the General Counsel for compliance with Titles II and III of the ADA during the design, pre-construction, construction, and post construction phases of the project. The General Counsel shall, within one year from the effective date of these regulations, develop a process with the General Counsel to identify potential barriers to access in new construction and the costs associated with correcting them.

$3.104 Reporting, estimating cost & time, and compliance date.

(a) Reporting duty. On a regular basis, at least every six months, the General Counsel shall prepare and submit a report to Congress containing the results of the periodic inspections conducted under §3.103(a), describing the methodology of the inspection and the results of the periodic inspection of the ADA to the Committee on Agriculture, transmitting the Administration's comments about the proposed regulation, which is all that is required of a NPRM. See e.g., Am. Iron & Steel Inst. v. EPA, 568 F.2d 284, 293 (3d Cir. 1977); United Steelworkers v. Marshall, 444 F.2d 1189, 1121 (D.C. Cir. 1980); and Am. Med. Ass'n v. United States, 867 F.2d 760, 767 (Fed. Cir. 1989).

(b) Estimated cost & time. Covered entities shall cooperate with the General Counsel by providing information needed to provide the estimated cost and time needed for abatement.

(c) Final inspections of completed projects for compliance; and

(d) Any other provision that would likely reduce the number of ADA barriers in alterations and new construction and the costs associated with correcting them.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

420. A letter from the Director, National Institute of Food and Agriculture, Department of Agriculture, transmitting the Department's final rule — Hispanic-Serving Agriculture Colleges and Universities (RIN: 0584-AE01) received February 1, 2016, pursuant to 5 U.S.C. 581(a)(1)(A); Added by Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Agriculture.

420. A letter from the Board Chairman and Chief Executive Officer, Farm Credit Administration, transmitting the Administration's proposed rule — Organization; Funding and Fiscal Affairs, Loan Policies and Operations, and Funding Operations; Farmer Mac Investment Eligibility (RIN: 3582-AE06) received February 29, 2016, pursuant to 5 U.S.C. 581(a)(1)(A); Added by Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Agriculture.
PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. SHUSTER (for himself and Mr. LOBIONDO):

H.R. 4411. A bill to transfer operation of air traffic services currently provided by the Federal Aviation Administration to a separate not-for-profit corporate entity, to reauthorize and restructure the Federal Aviation Administration, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mrs. BLACK (for herself, Mr. WELCH, Mr. HARPER, and Mr. THOMPSON of California):

A resolution extending titles XVIII and XI of the Social Security Act to promote cost savings and quality care under the Medicare program through the use of telehealth and telemonitoring services, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. JOLLY (for himself, Mr. MICA, Mr. JONES, Mr. NUGENT, Mr. DUFFY, and Mr. NOLAN):

H.R. 4455. A bill to control and reduce the number of illegal aliens in the United States by authorizing the establishment of a National Center for Information Sharing and Analysis, and for other purposes; to the Committee on Homeland Security.

By Mr. GIBBONS of North Carolina (for herself, Ms. DeGETTE, Mr. POMPRO, Ms. MATSU, and Mr. DENT):

H.R. 4444. A bill to amend the Energy Policy and Conservation Act to exclude power supply circuits, drivers, and devices designed to be connected to, and power, light-emitting diodes or organic light-emitting diodes providing illumination from energy conserving incandescent or compact fluorescent bulbs, or conservations standards for external power supplies, and for other purposes; to the Committee on Energy and Commerce.

By Ms. ROS-LEHTIEN (for herself, Mrs. CAPPS, Mr. DEUTCH, Mr. TAKANO, Mr. ELLISON, Mr. LEWIS, Ms. KAPRIT, Mr. McGOVERN, Mr. HASTINGS, Mr. CARTWRIGHT, and Mr. GALLEGO):

H.R. 4445. A bill to direct the Federal Trade Commission to submit to Congress a report on the consumer harm arising from the use, in advertisements and other media for the promotion of commercial products and services, of images that have been altered or modified to enhance certain physical characteristics of the faces and bodies of the individuals depicted; to the Committee on Energy and Commerce.

By Ms. ROS-LEHTIEN (for herself, Mrs. CAPP, Mr. DEUTCH, Mr. TAKANO, Mr. ELLISON, Mr. LEWIS, Ms. KAPRIT, Mr. McGOVERN, Mr. HASTINGS, Mr. CARTWRIGHT, and Mr. GALLEGO):

H.R. 4446. A bill to authorize the use of Ebola funds for Zika response and preparedness; to the Committee on Energy and Commerce, and in addition to the Committees on Foreign Affairs, and Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. COURTNEY (for himself, Mr. LARSON of Connecticut, Mr. RANGL, Ms. KUSTER, Mr. PERLMUTTER, Mr. CHICILLINE, Ms. PINGER, Mr. LYNCH, Ms. ESTY, and Mr. VAN HOLLEN):

H.R. 4447. A bill making appropriations to address the needs of the victims of epide- mic for the fiscal year ending September 30, 2016, and for other purposes; to the Committee on Appropriations, and in addition to the Committee on Financial Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. DISSANTIS (for himself, Mr. LAMBORN, Mr. CRESHAW, Mr. ROKEITA, Mr. SMITH of Texas, Mr. ROHRABACHER, Mr. HARPER, Mr. BISHOP of Michigan, Mr. ROSS, Mr. COLLINS of New York, Mr. DELAURA, Mr. THOMAS, Mr. SALMON, Mr. CLAISON of Florida, Mr. WEBER of Texas, Mr. PERRY, Mr. MEADOWS, Mr. JORDAN, Mr. ZELDIN, Mr. WALKER of Utah, Mr. COLE, Mr. RAHALL, Mr. BEATTIE of Kentucky, Mr. BISHOP of Georgia, Mr. ROGERS of Alabama, and Mr. THOMAS of Tennessee):

H.R. 4448. A bill to amend the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 to secure the authority of State and local governments to adopt and enforce measures restricting investment in business enterprises in Iran, and for other purposes; to the Committee on Financial Services.

By Mr. KATKO (for himself and Mr. LIPINSKI):

H.R. 4450. A bill to direct the Secretary of Transportation to establish a remote air traffic control tower pilot program; to the Committee on Transportation and Infrastructure.

By Mrs. CAROLYN B. MALONEY of New York (for herself, Mr. KING of New York, Mr. MAXINE WATERS of California, Mr. LYNCH, Mr. CAPUANO, and Ms. MOORE):

H.R. 4451. A bill to amend title 31, United States Code, to authorize and streamline programs of the Federal Government to perform corporations or limited liability companies in the United States disclose the benefi- cial owners of those corporations or limited liability companies to prevent wrongdoers from exploiting United States corporations and limited liability companies for criminal gain, to assist law enforcement in detecting, preventing, and punishing terror- orism, money laundering, and other mis- conduct involving United States corpora- tion, or limited liability companies, in order to prevent the use, in advertisements and other media for the promotion of commercial products and services, of images that have been altered or modified to enhance certain physical characteristics of the faces and bodies of the individuals depicted; to the Committee on Financial Services.

By Ms. MCALLY (for herself, Mr. FRANKS of Arizona, Mr. ZINEK, and Mr. MCCAUL):

H.R. 4452. A bill to designate the area be- tween the intersections of International Drive South and International Drive Northwest and International Drive Northwest in Wash- ington, District of Columbia, as ‘‘Liu Xiaobo Peace Park’’; to the Committee on Oversight and Government Re- form.

By Ms. MOORE:

H.R. 4453. A bill to amend the FAA Moderni- zation and Reform Act of 2012 to review the number of contracts for new disadvan- taged small business concerns at certain air- ports with Disadvantaged Business Enter- prises, and for other purposes; to the Com- mittee on Transportation and Infrastructure.

By Ms. PINGREE (for herself and Ms. GABBAI):

H.R. 4454. A bill to amend title 31, United States Code, to provide that the eligibility under the Post-9/11 Educational Assistance Program of certain individuals with service- connected disabilities who transfer to other components before discharge from the Armed Forces; to the Committee on Vet- erans’ Affairs.

By Mrs. RADERWAGEN:

H.R. 4455. A bill to improve air service ca- pabilities in American Samoa, and for other purposes; to the Committee on Transporta- tion and Infrastructure.

By Mr. ROGERS of Kentucky (for him- self, Mr. CARTWRIGHT, Mr. JENKINS of
HOUSE Concurrent Resolution — House

February 3, 2016

CONGRESSIONAL RECORD — HOUSE H567

West Virginia, Mr. GRIFFITH, and Mr. BEYER:

H.R. 4456. A bill to amend the Surface Mining Control and Reclamation Act of 1977 to provide funds to States and Indian tribes for the purpose of promoting economic revitalization, diversification, and development in economically distressed communities through the reclamation and restoration of land and water resources adversely affected by coal mining carried out before August 3, 1977, and for other purposes; to the Committee on Natural Resources.

By Mr. SALMON (for himself and Mr. FRANKS of Arizona):

H.R. 4452. A bill to amend the Federal Insecticide, Fungicide, and Rodenticide Act, to provide for an expanded program of research to combat Lyme disease; to the Committee on Energy and Commerce.

CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. SHUSTER:

H.R. 4441. Congress has the power to enact this legislation pursuant to the following:

United States Constitution Article I Section 8, Clause 3: "To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes."

By Mrs. BLACK:

H.R. 4442. Congress has the power to enact this legislation pursuant to the following:

United States Constitution Article I Section 8, Clause 3 of the United States Constitution, specifically Clause 3 and Clause 18.

By Mrs. RADEWAGEN:

H.R. 4443. Congress has the power to enact this legislation pursuant to the following:

The Commerce Clause—Article I, Section 8, Clause 3 of the United States Constitution.

By Mrs. RADEWAGEN:

H.R. 4444. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 (General Welfare) and Article I, Section 8, Clause 18 (Necessary and Proper Clause).

By Mr. SALMON:

H.R. 4445. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3—"The Congress shall have power * * * To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes:"

By Ms. ROSS-LEHTINEN:

H.R. 4446. Congress has the power to enact this legislation pursuant to the following:

The Commerce Clause—Article I, Section 8, Clause 3.

By Mr. COURTNEY:

H.R. 4447. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1.

By Mr. DeSANTIS:

H.R. 4448. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the U.S. Constitution.

By Mr. KATKO:

H.R. 4449. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3 of the United States Constitution.

By Mrs. CAROLYN B. MALONEY of New York:

H.R. 4449. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3.

By Ms. MCLAFFER:

H.R. 4451. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 12—To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.

By Mr. MEADOWS:

H.R. 4452. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the Constitution of the United States.

By Ms. MOORE:

H.R. 4453. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution.

By Ms. PINGREE:

H.R. 4454. Congress has the power to enact this legislation pursuant to the following:

Section I, Article 8 The Congress shall have power to lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense and general welfare of the United States.

By Ms. RADEWAGEN:

H.R. 4455. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution.

By Mrs. ROGERS of Kentucky:

H.R. 4456. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 (General Welfare) and Article I, Section 8, Clause 18 (Necessary and Proper Clause).

By Mr. SALMON:

H.R. 4457. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 9—"The Congress shall have power * * * To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes:"

By Mr. SANFORD:

H.R. 4458. Congress has the power to enact this legislation pursuant to the following:

Section I, Article 8 The Congress shall have power to lay and collect taxes; duties, imposts and excises, to pay the debts and provide for the common defense and general welfare of the United States.

By Mrs. WAGNER:

H.R. 4458. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 (General Welfare).

By Mrs. RADEWAGEN:

H.R. 4459. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 9—"The Congress shall have power * * * To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes:"

By Mr. SANFORD:

H.R. 4458. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution.

By Mrs. WAGNER:

H.R. 4458. Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 (General Welfare).

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions, as follows:

H.R. 228: Mr. QUIGLEY.

H.R. 244: Mr. ALLEN.

H.R. 250: Mr. O’ROURKE and Mr. JONES.

H.R. 333: Ms. MCLAFFER.

H.R. 332: Mr. KRATING.

H.R. 469: Mr. MATTOGNO.

H.R. 605: Ms. MOORE and Mr. FARR.

H.R. 612: Mr. MICA and Mrs. NORM.

H.R. 684: Mr. COFFMAN.

H.R. 719: Mr. BLUM and Mr. McGovern.

H.R. 816: Mr. BENACER and Mrs. WEST.

H.R. 953: Mr. DONOVAN, Mr. ENGEL, and Mr. SEAN PATRICK MALONEY of New York.

MEMORIALS

Under clause 3 of rule XII, memorials were presented and referred as follows:

170. The SPEAKER presented a memorial of the General Assembly of the State of Ohio, relative to House Concurrent Resolution He stated the Centers for Disease Control and Prevention to take action to improve prevention, diagnosis, and treatment of Lyme disease; to the Committee on En-
energy and Commerce.

171. A memorial of the General Assembly of the State of Ohio, relative to the Committee on the Judiciary.
H.R. 970: Mrs. Harter, H.R. 997: Mr. Hunter and Mr. Boustany. H.R. 1002: Mr. Lowenthal. H.R. 1002: Mr. Labrador and Mr. Emmer of Minnesota. H.R. 1094: Mr. Ralcliff. H.R. 1116: Mr. Wilson of South Carolina and Mr. Marino. H.R. 1230: Mr. Paulsen. H.R. 1258: Mrs. Black. H.R. 1288: Mr. Katko and Mrs. Carolyn B. Maloney of New York. H.R. 1310: Ms. Patronick Maloney of New York. BERNICE JOHNSON of Texas. Minnesota. COSTA, Mr. S. C. of Virginia, and Ms. Eddie Royce. DESAULNIER, Mr. D. A. of Georgia, TSONGAS, and Mr. QUIGLEY. REED. and Mr. MARINO. Mr. LAMALFA.

New York. Mrs. CAROLYN B. MALONEY of New York, Mr. ROGERS of Kentucky, and Mr. H. ECK of Nebraska.

H.R. 976: Mr. Bishop of Michigan.

H.R. 2264: Mr. Vela and Mr. Fattah.

H.R. 2268: Mr. Katko and Mrs. Carolyn B. Maloney of New York.

H.R. 1475: Mr. Smith of Nebraska, Ms. Lee, Mrs. Carol B. Maloney of New York, Mr. Costa, Mr. Scott of Virginia, and Mrs. Eddie Johnson of Texas.

H.R. 1511: Mr. DeSantis.

H.R. 1517: Mr. Slajdzer.

H.R. 1198: Ms. Fudge, Mr. Barber, and Mr. Thompson of Pennsylvania.

H.R. 1288: Ms. Eshoo.

H.R. 1310: Mr. Patronick Maloney of New York.

H.R. 1420: Mr. Weiser of Texas, Mr. Brooks of Alabama, Mr. Parente, Mr. Desjarlais, Mr. Rouzer, Mr. Barr, and Mr. Roe of Tennessee.

H.R. 1430: Mr. Honda and Mrs. Lawrence. H.R. 1435: Ms. Clarke of New York, Mr. Cardenas, and Mr. Ben Ray Lujan of New Mexico.

H.R. 1436: Mr. Honda and Mrs. Lawrence. H.R. 1438: Mr. Bishop of Michigan.

H.R. 1420: Mr. Weiser of Texas, Mr. Brooks of Alabama, Mr. Parente, Mr. Desjarlais, Mr. Rouzer, Mr. Barr, and Mr. Roe of Tennessee.

H.R. 1430: Mr. Honda and Mrs. Lawrence. H.R. 1435: Ms. Clarke of New York, Mr. Cardenas, and Mr. Ben Ray Lujan of New Mexico.

H.R. 1436: Mr. Honda and Mrs. Lawrence. H.R. 1438: Mr. Bishop of Michigan.

H.R. 1420: Mr. Weiser of Texas, Mr. Brooks of Alabama, Mr. Parente, Mr. Desjarlais, Mr. Rouzer, Mr. Barr, and Mr. Roe of Tennessee.

H.R. 1430: Mr. Honda and Mrs. Lawrence. H.R. 1435: Ms. Clarke of New York, Mr. Cardenas, and Mr. Ben Ray Lujan of New Mexico.

FEBRUARY 3, 2016

CONGRESSIONAL RECORD — HOUSE

PETITIONS, ETC.

Under clause 3 of rule XII, petitions and papers were laid on the clerk's desk and referred as follows:

43. The SPEAKER presented a petition of the Police Commissioner, City of New York, New York, relative to a letter urging Congress to approve the Denying Firearms and Explosives to Dangerous Terrorists Act; to the Committee on the Judiciary.

44. Also, a petition of the City of Lauderdale Lakes, Florida, relative to Resolution No.: 2015-149, endorsing the "Ban the Box" campaign and urging others to endorse the same; jointly to the Committees on Education and the Workforce and Oversight and Government Reform.
The Senate met at 9:30 a.m. and was called to order by the President pro tempore (Mr. HATCH).

PRAYER

The PRESIDENT pro tempore. Today’s opening prayer will be offered by Rabbi Yosef Greenberg, founder and spiritual leader of the Lubavitch Jewish Center of Alaska in Anchorage, AK.

The guest Chaplain offered the following prayer:

Almighty God, I invoke Your blessing today on this honorable body, the United States Senate. In these troubling times, when misguided people use religion to commit the greatest crimes against humanity by stabbing and murdering innocent men, women, and children in the Middle East, Europe, Israel, the U.S.A., and all over the world, may You grant, Almighty God, that the Members of this honorable body have the wisdom and courage to embody the universal values of the Seven Commandments which You, Almighty God, issued to Noah and his family after the Great Flood, the foremost of which is not to commit murder. Grant, Almighty God, that the Members of the Senate, who assembled here today, to fulfill one of Your Seven Commandments, the Commandment to govern by just laws, understand that the United States has the ability to lead the entire world and be a role model in spreading and incorporating Your Seven Laws, and in doing so, have the power to bring healing and peace to a struggling and broken world that is facing ongoing terror and violence.

Almighty God, I beseech You today to bless the Senate, in the merit of one of the spiritual giants of our time and our Nation, the Lubavitcher Rebbe, Rabbi Menachem Mendel Schneerson, of saintly blessed memory, who launched the universal campaign to bring the awareness of Your Seven Sacred Laws to all mankind, that we may all see the fulfillment of humanity’s great future, as proclaimed by Isaiah, “nation shall not lift the sword against nation, neither shall they learn war anymore.” Amen.

PLEDGE OF ALLEGIANCE

The President pro tempore led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

The PRESIDING OFFICER (Mr. BOOZMAN). The Democratic leader.

Mr. REID. Mr. President, before the leaders speak today, I ask the Chair to recognize the senior Senator from Alaska.

The PRESIDING OFFICER. The Senator from Alaska is recognized.

WELCOMING THE GUEST CHAPLAIN

Ms. MURKOWSKI. Mr. President, I thank the minority leader, and I rise this morning to thank and to welcome Rabbi Yosef Greenberg from Anchorage, AK, who was introduced by the President pro tempore, the Senator from Utah.

This Senator thinks it is important to appreciate and realize that today there is a little bit of history being made. It is the first time we have had a rabbi from the State of Alaska who has been willing and able to provide the morning prayer before the Senate. The rabbi has led our State for two decades, beginning in 1991, not only leading a small but vibrant Jewish community across the State but also reminding us of the significance of the Jewish culture, the Jewish history, not only to Alaska but throughout the Nation. He has been instrumental in the building of the Jewish cultural center and a museum that recognizes that history and culture. Every year he is truly a leader in the broader community within Anchorage as he brings together people from all faiths at the Jewish Cultural Gala, which is probably one of our more preeminent social gatherings and which is for a good cause.

The leadership of Rabbi Greenberg is not only strong and recognized within the Jewish community but across all faiths within our very broad and inclusive State of Alaska. It is indeed a pleasure to be able to listen to his words, reflect on his words, and thank him for his leadership in my State.

With that, Mr. President, I yield the floor, and I thank the leaders.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDING OFFICER. The majority leader is recognized.

MEASURE PLACED ON THE CALENDAR—H.R. 4168

Mr. MCCONNELL. Mr. President, I understand there is a bill at the desk that is due for a second reading.

The PRESIDING OFFICER. The clerk will read the bill by title for the second time.

The legislative clerk read as follows:

A bill (H.R. 4168) to amend the Small Business Investment Incentive Act of 1980 to require an annual review by the Securities and Exchange Commission of the annual government-business forum on capital formation that is held pursuant to such Act.

Mr. McCONNELL. In order to place the bill on the calendar under the provisions of rule XIV, I object to further proceedings.

The PRESIDING OFFICER. Objection having been heard, the bill will be placed on the calendar.

PUBLIC HEALTH ISSUES

Mr. McCONNELL. Mr. President, as I recently mentioned, Speaker Ryan and I had an opportunity to discuss some important public health issues at the
White House yesterday. One was the Zika virus. We know there is an increasing amount of concern about the spread of this virus and what it could mean for the United States as we head toward warmer summer months.

Given the pattern of concern that followed the first Ebola case in our country, I think we could all benefit from having a better understanding of what preparations are being made to protect Americans. To that end, I have asked Secretary Burwell and her team to come to the Senate to brief relevant committees and leaders in both parties. This briefing will happen next week. I appreciate the Secretary’s willingness to meet this request in such a timely manner, and I know the information will be useful to Members and their constituents.

Another public health issue we discussed is the opioid epidemic that continues to have such a profound impact on families and communities across the country. I represent and, of course, across the Nation as well.

Despite all of the important steps Kentucky has taken at the State level to address this epidemic, the Commonwealth still suffers from some of the highest rates in the country, driven by prescription drug pain killers, heroin, and more recently fentanyl, a synthetic opioid that is more powerful than heroin. Republicans and Democrats are working together to identify bipartisan solutions to this challenge, and I look forward to seeing that collaborative work continue.

ENERGY POLICY MODERNIZATION BILL

Mr. McCONNELL. Mr. President, we have seen bipartisanship work many times over the past year in this Senate. We have the latest example of it before us right now. The Energy Policy Modernization Act is the result of months of hard work across the aisle. It passed the committee with overwhelming bipartisan support. It is broad bipartisan energy legislation that can help bring our energy policies in line with today’s demands, while preparing us for tomorrow’s opportunities. It will help Americans produce more energy. It will help Americans pay less for energy. It will also provide an opportunity to strengthen America’s long-term national security.

I thank the chair and ranking member of the Energy Committee for their hard work to develop this bill. I thank them for the hard work managing it on the floor. Thirty-eight amendments have been brought to the floor so far and 32 amendments have been adopted already. Democrats offered some, Republicans offered some, and both parties have seen amendments from their side adopted.

This is a robust, bipartisan energy debate, and it is providing the latest example of a Senate that is back to work for the American people. We are not finished yet, though, not at all. There will be more opportunities for debate and consideration as we move toward the finish line on this important bipartisan legislation. Let’s keep working together as we have been. Let’s pass another important policy the American people deserve.

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER. The minority leader is recognized.

FLINT, MICHIGAN, WATER CRISIS

Mr. REID. Michigan, WATER CRISIS

Mr. President, I join in commending the managers of this bill that is on the floor, but before we rush off to a congratulatory phase of this legislation, there has to be an opportunity to work something out on Flint, MI, and the tremendous problems they have.

There are 100,000 people today who are afraid to drink their water. Yesterday I had a picture showing the water, the yellow-green color of the water. The water is so impure, so dirty, so nasty that General Motors, which manufactures automobile parts, had to suspend using the water because it was corroding their instruments in their manufacturing facilities. But during that period of time, people were still looking to drink the only water they could.

We have 9,000 children who have been badly affected by lead poisoning. These little boys and girls will never be what they could be because lead poisoning for children is irreversible.

I hope we can work something out on the Stabenow-Peters amendment because it is vitally important for the people of Michigan and an example of what we need to do to help the country with these problems we have when the Federal Government must step in.

The Governor of Michigan, who preaches about how bad government is, of course looks to when the problems got so dire in Michigan.

Mr. President, I ask unanimous consent that at the conclusion of my leader remarks the junior Senator from Maine be recognized for 10 minutes, and if he feels it appropriate, I will remain on the floor for him following my remarks so that he could have a colloquy with me.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLEAN ENERGY

Mr. REID. Mr. President, in 1882 Thomas Edison invented the first electric grid. He, of course, had done electricity before that, but he is virtually responsible for the modern-day electric grid. It was 4 years later that George Westinghouse improved upon Edison’s invention, and he gave us an electric grid that is almost identical to what we have today. That was 1882, and in 2016 we are doing it the same way we did back then. So the grid technology the utility companies rely on today is 130 years old.

America’s grid system makes money for industries by generating power at central powerplants and delivering power to customers through power lines. That is because of George Westinghouse and Thomas Edison’s programs. Costs for the infrastructure are passed on to customers based on how much power they consume, and the more electricity we use, the more we pay. This utility business model made sense for 130 years. It makes no sense anymore.

Utilities never imagined that families and businesses would be able to generate their own electricity for a price cheaper than the utility powerplants. Utilities never considered that consumers would rather pay to make their homes more efficient than pay in perpetuity for power they don’t need and don’t want. Utilities didn’t expect Americans would grow to believe that reducing climate-changing carbon pollution is a priority—and it is.

The big power companies were wrong. Americans have embraced renewable energy and are investing in it more and more. I see it every time I go home. The roofs of homes and businesses throughout Nevada are dotted with solar panels. One can see them shining like jewels. These houses, offices, buildings, and hotels are generating much of their own clean energy. It wasn’t that way a decade ago. In 2005, only 7,000 American homes and businesses had their own renewable energy systems. That same year, after we passed the Energy Policy Act—one of its provisions encouraged States to adopt net metering provisions so that Americans would and could install renewable energy systems on their homes and businesses. That means a family with solar panels receives a credit from the utility for the clean power they generate. As a result, 43 States now have net metering. These net metering policies have been an incredible success. Today more than 500,000 American families and businesses have their own renewable energy system.

Less than 11 years ago, there were 7,000 solar installations in homes and businesses, today more than half a million. That is a 13-fold increase over 11 years ago. Producing cleaner energy at home is mainstream today. Yet, in spite of all of this progress, there are those who want to turn back time and take away Americans’ opportunity to generate their own clean, affordable energy.

Why are they doing this? Because they don’t want competition from families and businesses. They want to work the way they have for 130 years. The Koch brothers and the fossil fuel industry have attacked our blossoming clean energy industry, the clean energy industry, at every turn. Any time we try to do something, they move in. They have
done it in State legislatures all over the country. They are doing it today on this amendment that Senator King and I have worked on.

They have turned loose their minions—their anti-consumer minions—and they are now out working, being paid to try to defeat whatever we are trying to accomplish. Utilities have joined with the Koch brothers. Utilities are cheerleading this anti-competitive measure that will cost families more money and take away their opportunity to generate clean energy at home.

In Nevada, our utility proposed—and I say “utility” because basically 95 percent of all electricity in Nevada is owned by one company. This big utility proposed, and regulators recently agreed to slash, the value of rooftop solar for customers and imposed those changes retroactively. Can you imagine that? Contracts that had been let, they suddenly said: Well, too bad. We are going to retroactively punch you economically in the face.

In late December, the state’s Public Utilities Commission, which regulates Nevada’s energy market, announced a rate change designed to kill Nevada’s booming rooftop solar market and drive providers out of the state. Effective Jan. 1, the new tariffs will gradually increase until they triple monthly fees that solar users pay to use the electric grid and cut by three-quarters—Seventy-five percent—users’ reimbursements for feeding electricity into [the grid].

They already have a contract. That does not matter. The column goes on to say:

More startlingly, the commission made its decision retroactive. That means that the 17,000 Nevada residents who were lured into solar purchases by state-mandated one-time rebates, enough to kill Nevada’s booming rooftop solar market and drive providers out of the state. Effective Jan. 1, the new tariffs will gradually increase until they triple monthly fees that solar users pay to use the electric grid and cut by three-quarters—Seventy-five percent—users’ reimbursements for feeding electricity into [the grid].

That is the power of utilities and Koch brother-like operations that are doing this. The Koch brothers are doing it through a number of billions of dollars that they have invested in controlling America through an organization called ALEC, which is a phony front to work in State legislatures.

The utility in Nevada retroactively tore up the agreements that were made with families and businesses that generate their own clean energy, as indicated in this New York Times column. Because of what the utility did, at least three companies have left Nevada, and tens of thousands of families and businesses fear that their power bills will unexpectedly skyrocket because of the changes, and thousands and thousands of Nevadans have lost their jobs—not hundreds, thousands. No one knows the exact number but nearing 10,000.

We should not be pulling the plug on clean energy at a time when more and more Americans are making it work. We should encourage independence. Competition is putting more clean power into the hands of Americans and that will protect consumers in Nevada and across the country. It will safeguard people who want to generate their own clean energy from retroactive rule changes that could devastate their finances. Unfortunately, monopoly utilities and ideological groups funded by the Koch brothers are working hard to defeat any protections for Americans who generate their own clean energy. Remember, the Koch brothers use their money in a lot of different ways, not the least of which is in the fossil fuel business.

These anti-competitive individuals are fighting our efforts to protect families and businesses from having their contracts torn up and having their bills skyrocket. My friend, the Senator from Maine is on the floor with me. I appreciate his advocacy. He has been an unwavering advocate for solar energy customers. I hope our colleagues will follow his example and stand for consumers and support each American’s choice to install clean energy on their homes and protect them from retroactive rate hikes and abusive fees.

RESERVATION OF LEADER TIME

THE PRESIDING OFFICER. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

Under the previous order, the Senate will be in a period of morning business for 1 hour, with Senators permitted to speak therein and with the time equally divided, with the Democrats controlling the first half.

The Senator from Maine.
plant up in the sky. This is a good development. No. 1, it empowers consumers. It empowers families.

Mr. REID. Will the Senator yield for a question?

It is also true, is it not, as we speak, that there is tremendous work being done on battery storage. That will change it even more; is that right?

Mr. KING. That is absolutely correct. That I will touch on in a moment. That potentially changes the relationship with utilities and with the grid system. This is a good thing. This provides competition. Our whole system is based upon competition. Everybody here talks about the power of the market. That is what we are talking about here.

It strengthens the grid by making it more resilient because power is going in two directions. We had a huge ice storm in Maine in 1998. The power went off. Everybody lost their power—600,000 people. The people who had generators in their homes could make their own power, but those were very few people. Now we are talking about a grid that is not wholly dependent upon a central powerhouse but power goes in both directions.

I am on the Intelligence and Armed Services Committees. This is a national security issue. One of the great vulnerabilities of this country is a cyber attack on critical infrastructure. To this infrastructure is self-healing and distributed. It is less subject to a catastrophic attack.

It saves money because it saves money on distribution and powerplants if people are making their own investments and you don’t need the level of transmission and distribution wires. Of course it could substantially reduce our dependency upon fossil fuels. There are two possible reactions to this from the utility companies. One is to adopt, adjust, and reinvent themselves, as companies. I remember New England Tel. New England Tel is now Verizon. If they were still focused exclusively on landlines with the old black telephones, they would be long gone. Instead, they reinvented themselves because of a change of technology, and now they are one of the Nation’s leading wireless providers. AT&T used to be Ma Bell. Now it is a leading wireless provider because they adapted, and they changed their whole business model upon new economic realities. That is one option.

There are utilities in the country that are adopting that option; that are finding new business models, relationships with their customers, in order to participate in this system and be counsellors and energy providers and consultants to their customers in this new world. On the other hand, they can fight, resist, and try to delay. That is what we are talking about here today. That is what has happened in Nevada, importantly fees that need sibly are to recover the costs, but everybody knows the real purpose is to strangle this industry in its infancy.

I think those companies should think about the examples of Packard, Kodak, and Polaroid that failed to adapt, that failed to take account of new technological realities and ultimately failed. I don’t think that is the future these companies want. This amendment is not a permanent regime of State utility regulations. It provides guidance. It uses the term “take into account.” All it says is that if you are going to change a net metering regime, or if you are going to impose fees, they have to be based upon costs, not arbitrary fees that are designed to strangle the industry. It is not a mandate for net metering or any other kind of payment. Again, what we are trying to do is to make sure that the benefits to the grid from a home installation—whether it is demand, response, storage, whatever—are measured as well as the cost.

The issue is very simple. It is fair compensation to the customer for the energy they produce, and fair compensation to the utility for maintaining the grid. I know there are costs to the utility for maintaining the grid, and they have to be fairly compensated. But the question is, what is the right number?

An arbitrary exorbitant fee that essentially makes the development of solar or storage unfeasible is not the right number.

The Democratic leader mentioned storage, and this is really an essential part of the discussion. As storage technology improves, this is where the utilities are most exposed. In my view, utilities are in a race with battery technology in order to determine who is going to provide the backup to the solar, wind, and demand response facilities in the house. Who is going to provide the backup?

If the utilities insist upon high, unreasonable fees, eventually—and I think that’s occurring—it is not 10 years, 20 years or 30 years—people are going to say: I am going to do my own storage, my own backup in my basement, and cut the wires. Then the utility has lost the customer all together, and I don’t think that makes any sense.

The real point is that change is coming anyway. The only question is whether it happens fairly, deliberately, and expeditiously and is fair to the customers as well as the utilities or whether it goes through a long series of individual fights State by State.

Mr. REID. Will the Senator yield for a question?

Mr. KING. I yield to the Democratic leader.

Mr. REID. I am wondering if my friend is aware of a couple of examples. In Nevada there is Tesla and Elon Musk. It is a massive company. He is building batteries for his vehicles and other things. The Tesla plant I toured a few months ago is under construction. As to the floor plan, the only place in America with a bigger manufacturing facility is the Boeing plant in Washington. That is how huge it is. The man who is running that plant for him indicated to me that they had found that the price, as indicated by the Senator from Maine, was so cheap with solar that it is going to be basically mostly solar, nothing else. Was the Senator aware of that?

Mr. KING. Absolutely, and I think that is what has to be part of the discussion, because if the utilities insist on fighting and trying to overprice the backup, people are going to say: I am going to buy my own storage, put it in the basement, and cut the wire.

Mr. REID. And remember what he is manufacturing in this huge facility is batteries. So I would think Elon Musk, who has been sending people and cargo into space, is going to come up with an idea to make better batteries.

I would also suggest to my friend that the example of Packard and Kodak, we were very successful. But more modern, I read a book a few months ago about Reed Hastings, the owner of Netflix, who had already been successful in another line of work when he went into Netflix. We all remember Blockbuster, where we would go to rent our movies. He went to Blockbuster and he said: I have an idea; here is what I would like to do.

They said: No, that is just a niche business. We are not interested. But Netflix is every place. So the same thing is going to happen one way or another to these monopolies that have the power in our States. They should work something out to make sure they are ahead of the curve. Otherwise, they are going to be behind the curve—and fairly quickly.

Would the Senator agree with that?

Mr. KING. I would agree, and that is exactly where I would conclude. I am not anti-utility. I am pro-customer. I think they have a tremendous value in the future of this country, and we have an important role to play in this body.
I urge support for this amendment. I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

THE LEGAL SYSTEM

Ms. WARREN. Mr. President, across the street at the Supreme Court, four simple words are engraved on the face of the building: “Equal Justice Under Law.” That is supposed to be the basic promise of our legal system: that our laws are just and that everyone—no matter how rich, how powerful or how well connected—will be held equally accountable if they break those laws.

But that is not the America we live in. It is not equal justice when a kid gets thrown in jail for stealing a car while a CEO gets a huge raise when his company steals billions. It is not equal justice when someone hooked on opioids gets locked up for buying pills on the street, but banking executives get off scot-free for laundering nearly a $1 billion of drug cartel money.

We have one set of law on the books, but there are really two legal systems. One legal system is for big corporations—rich and well connected—will be held equally accountable if they break the laws.

The second system is for big corporations and their well-connected, high-powered lawyers. In this legal system, government officials fret about unintended consequences if they are too tough. In this legal system, instead of demanding actual punishment for breaking the law, the government regularly accepts token fines and phony promises to do better next time. In this legal system, even after huge companies plead guilty to felonies, law enforcement officials are so timid that they don’t even bring charges against individuals who work there. That is one system.

The second system is for everyone else. In this second system, whoever breaks the law can be held accountable. Government enforcement isn’t timid here. It is aggressive, and the consequences be damned. Just ask the families of Sandra Bland, Freddie Gray, and Michael Brown about how aggressive they are.

In this legal system, the government locks up people for decades, ruining lives over minor drug crimes because that is what the law demands.

Yes, there are two legal systems—one for the rich and powerful and one for everyone else.

Last Friday I released a report about the second legal system for big corporations and their executives. The report is called “Rigged Justice,” and it lists 20 examples from last year alone in which the government caught big companies breaking the law—defrauding taxpayers, covering up deadly safety problems, stealing billions from consumers and clients—and then just let them off easy. In most cases the government imposed fines and didn’t require any admission of guilt. In the 20 cases I examined, just 1 executive went to jail, for only 3 months, and that case involved 29 deaths. Most fines were only a tiny fraction of the company’s annual profits, and some were structured so that the companies could just write them off as a tax deduction.

It is all part of a rigged game in Washington. Big businesses and powerful donors, with their armies of lobbyists and lawyers, write the rules to protect themselves when they don’t follow the rules, they work the system to avoid any real responsibility.

How can it be that corporate offenders are repeatedly left off the hook when the vast majority of Americans—Republicans, Democrats, and Independents—want tougher punishment and stronger new laws for corporate crimes?

Well, that is how a rigged system works. Giant companies win no matter what the American people want.

Currently, we can see the rigged game in action. Republican politicians love to say they are tough on crime. They love to talk about personal responsibility and accountability when they are back home in their districts. But when they come to Washington, they are pushing to make it even easier for corporate criminals to escape justice.

This is one example. It starts, actually, with a great idea: reforming the criminal justice sentencing system to help some of the thousands of people who have been locked away for years for low-level offenses. Legislators in both parties have been working for years to slowly build bipartisan momentum for sentencing the reform. This is enormously important—a first step away from a broken system where half of our Federal jails are filled with nonviolent drug offenders. But now, all of a sudden, some Republicans are threatening to block reform unless Congress includes a so-called mens rea amendment to make it much harder for the government to prove hundreds of corporate crimes—crimes for everything from wire fraud to mislabeling prescription drugs.

In other words, for these Republicans, the price of helping people unjustly locked up by corporate lawbreakers will be to make it even harder to lock up a white collar criminal for even a single day.

That is shameful. It is shameful because we are already way too easy on corporate lawbreakers.

And that is not all. Tomorrow the House will be voting on another Republican bill. This one would make it much harder to investigate and prosecute fraud that affected that 9/11 right. Tomorrow the House will be voting on a Republican bill to make it much harder to investigate and prosecute bank fraud.

When the banks triggered the savings and loan crisis in the late 1980s, more than 1,000 of them were convicted of crimes and many got serious jail time. Boy, bankers learned their lesson. Now the lesson was not “Don’t break the law. The lesson they learned was to take Washington on your side.” And it worked.

After systemic fraud on Wall Street helped spark a financial crisis in 2008 that cost millions of Americans their jobs and their homes, Federal prosecutors didn’t put a single Wall Street executive in jail. Spineless regulators extracted a few fines and then just moved on.

But I guess even those fines were just too much for the big banks and their fancy executives. So now they have gotten their buddies in Congress to line up behind a bill that would gut one of their main laws, called FIRREA, which the Justice Department used to impose those fines.

It has been 7 years since the financial crisis. A lot of people in Washington may want to forget, but the American people have long memories. They remember how corporate fraud caused millions of families to lose their homes, their jobs, and their pensions. They also remember who made out like bandits, and they didn’t send us here to only one-honor the simple notion that, in America, nobody is above the law. And anyone in Congress who thinks they can simply talk tough on crime and then vote to make it harder to crack down on corporate criminals, has this: I promise you—I promise you, the American people are watching, and they will remember.

I yield the floor.

The PRESIDING OFFICER (Mr. COTTON). The Senator from Michigan.

FLINT, MICHIGAN, WATER CRISIS

Ms. STABENOW. Mr. President, I rise today to speak about an urgent public health emergency in one of our cities.

In Flint, Michigan, thousands of residents are without safe tap water. Flint relies on the Flint River as its primary source of water, but cost millions of Americans to lose their homes, their jobs, and their pensions.

The American people expect better from us. They expect us to straighten out our criminal justice system and reform drug enforcement practices that do nothing but destroy lives and communities. They expect us to stand against unjustified violence. But they also expect us to protect the financial system and to hold Wall Street executives accountable when they break the law.

The American people know that we have two legal systems, but they expect us to fix it. They expect us to stand for justice. They expect us to look very hard at what has happened in Flint, Michigan, and ask my colleagues in the Senate to look very hard at what has happened here and to help us address this issue.

This is a public health emergency on a massive scale. It is unprecedented. I don’t want any city to have to live through a situation where families in the entire city—[inaudible]—can’t drink their water, can’t cook with their water, can’t bathe their children with the water.

We need to be very clear. This morning, as every other morning now going on 2 years, people in Flint took showers by pouring bottled water over their
heads. They didn’t have the dignity of clean water coming out of their taps. They had to use bottled water to drink, to make breakfast for their children, to make a pot of coffee—the things we all use water for and the things that all of us take for granted every single day. They didn’t have clean water until the pipes get replaced.

Up until now, we have had what I thought was a good series of negotiations. We thought we had an agreement that we had been very hopeful about the bipartisan discussions to help these families, and we had been incredibly flexible, Senator Peters and I. We just want to get this done. We are not interested in the politics or making this partisan. We want to get something done for the people of Flint.

We understand that money doesn’t grow on trees. Senator Peters and I are willing in fact to support a proposal that was less than half of what we originally requested in order to be able to get some help to the families of Flint. Now, we can’t even get agreement on that because we are hearing procedural excuses—procedural excuses that are overcome every single day on this Senate floor when we want to get something done. There was a whole bunch on the Transportation bill, all of which were waived because people wanted to fix the roads. I am left wondering what is going on. What is really going on here?

I have to come together and understand that this is a serious, urgent issue and that we don’t accept procedural excuses. It is an urgent, severe, outrageous crisis, and we need to act now. When we look at what has been said on the Senate floor, it is very concerning to me. One Senator yesterday said we are putting the cart before the horse by asking for money even before the government knew what this was going to cost. In fact, through a misreading or error in writing requested from the President $766 million to replace the pipes in Flint and another $41 million in protective measures. So we are working within the numbers that the Governor of Michigan has identified and requested. While we truly don’t know the full cost until work begins, as with any project, we need to begin to get this done immediately.

I think what is most important is for us to be happening with the children and families. No lead level is safe, and I have to say I know a lot more about lead than I have ever known before. Frankly, hearing about the damage done to children and what can happen to individuals is really frightening. We should all be doing everything we can to make sure we address this lead issue across the board.

The threshold set by the EPA and the Center for Disease Control is 15 parts per billion of exposure. The water filters that FEMA has provided to families in Flint are certified to protect lead up to 150 parts per billion. In many places, when they are provided and used correctly, that is making a real difference. But, unfortunately, we look at the severity of this. Last week, a new round of tests showed that lead in some homes in Flint range from 153 parts up to 4,000 parts per billion. If they are saying 15 parts per billion is when we need to be worried, I can’t even fathom 4,000 parts.

We are all looking at all the different numbers, but I heard one commentator in the news say that the exposure to children to a particular homes is actually higher than a toxic waste dump. And this is after the city switched back to the Detroit water system because of the damage that was done to the pipes. So this is a severe and urgent. We have to act now.

Unfortunately, the same Senator also suggested we are putting the cart before the horse because this was a local issue. Come on, I am really glad that the people of the great State of Michigan didn’t have to wait when a fertilizer plant in West Texas exploded and we spent millions of dollars in Federal funding on that town. That was also a mammoth disaster where safety procedures were lax. We all saw the horror of that situation, and we stepped in as Americans to support that community and those families. That is all we are asking. When floods hit South Carolina and Texas last year, we came together with $300 million put in an omnibus for South Carolina and Texas for floods. And just last week, the same Member of the Republican leadership asked President Obama to grant a disaster declaration and fund millions of dollars for areas to the West. We all know we have challenges in our States, and we need to be thoughtful. But we need to be supporting Americans around the country. This is a disaster. This is a situation where we need to show that we care about a group of people who did nothing. They did nothing, and they are in a situation where their entire water system is unusable. We should be lending a hand.

Right now, there are 9,000 children under the age of 6 in Flint—9,000 children—who are exposed to lead.

The PRESIDING OFFICER. The Senator’s time has expired.

Ms. STABENOW. I appreciate that I am running out of time. I will close. I will be back a lot today. I would just indicate to the President and to others that we want this fixed. We have been working in good faith. We thought we had an agreement within the framework given to us by the Republicans working on this issue. We are not going to let procedural issues that are fixed every single day in the Senate get in the way of what is happening. I am not going to tell families that I am not going to tell children. I am not going to tell moms in Flint “Sorry, we can’t help you” because of some bureaucratic procedural issue that folks don’t want to fix when they fix them every single day.

I yield the floor, and I will be back.

The PRESIDING OFFICER. The Senator from Wyoming.
and to innovation to solve the problem. That includes the private sector, universities, and even just someone out tinkering in their garage and coming up with a great idea.

Prizes like this are not a new idea. Back in 1776, in the Continental Congress, Dr. Benjamin Franklin offered a big prize for the first person to invent a better way for measuring longitude. It was a clockmaker whose name was John Harrison. He won the prize, and his idea transformed the way that we sail the seas.

In 1927 Charles Lindbergh flew non-stop from New York to Paris. This helped create the new modern aviation industry. He took the flight to win a $25,000 prize-sponsored by a New York hotel owner.

The prize created by this amendment—and there is more than one. There are several prizes. The prizes created by this amendment are meant to encourage that kind of new thinking, that kind of bold action. So that is one of the amendments, one of the bipartisan ideas.

Another amendment and idea that we have talked about, which is again bipartisan, is an amendment we voted on yesterday—amendment No. 3030. This was an idea that had bipartisan support. My lead cosponsor was my friend from North Dakota, Senator HEITKAMP. This amendment would have expedited the permit process for natural gas gathering pipelines on Federal lands, on Indian lands. Gathering lines are pipelines that collect unprocessed gas from oil and gas wells and then ship it to a processing plant. At the plant, the different kind of gases—methane, propane—are separated from one another. Then they are shipped out again by other pipelines to locations where they can be sold and used by people to power our country, to power our economy. That is what the producers want to do. The problem is, we don't have enough of the gathering lines to gather up this gas and send it to the processing plants. So a lot of times there is only one option, and that is to flare or vent the excess natural gas at the well. If there were more gathering lines, then we wouldn't have a lot less waste.

You don't have to take my word for it. Last month, the Obama administration proposed a new rule that restricts this kind of flaring of oil and gas operations on Federal land and on Indian land. The administration admitted that the main way to avoid flaring “is to capture, transport, and process” that gas for sale, using the same technologies that are used for natural gas wells. It makes sense. The administration said that the rate of energy production in some of the areas outpaces the rate of development of this infrastructure to capture the gas. The administration said the production had overwhelmed the capacity of the gathering lines, and Senator HEITKAMP and I worked out a way to solve the problem. Even though the administration seems to recognize and give voice to the problem, its proposed rule doesn’t actually address the problem or provide a solution, and Senator HEITKAMP and I have a solution.

The rule doesn’t do anything to speed up the permit process for natural gas gathering pipelines. The President ignored those amendments. Whether you agree with this new rule or you disagree with it, the only practical way to reduce the venting or the flaring of natural gas is to build more of these gathering lines. The rule will not work without them.

If we don't build the infrastructure to solve the problem, the administration’s rule will end up pushing oil and gas production off of Federal lands, off of Indian land, and this is completely unacceptable. It is unworkable.

The Obama administration says this type of gas venting and flaring is bad for the environment. They say the government is losing royalty money because the gas isn't being sold. I agree. That is why the bipartisan amendment Senator HEITKAMP and I sponsored would solve both of these problems at once. Even though we weren't able to get that amendment adopted yesterday, this is an idea that all Republicans and Democrats should be able to support. It would help Americans get the energy we need and do it in a cleaner way and at a lower cost. That is the goal.

I know Senators on both sides of the aisle are going to keep talking about this idea, and to keep trying to get it enacted into law. These are just two commonsense, bipartisan ideas Republicans and Democrats have offered to solve the energy challenges America is facing.

In my home State of Wyoming, people know we need to balance a strong economy and a healthy environment. They are in favor of using our natural resources responsibly. Part of that is remembering that these are resources and resources should be and can be used.

We should also recognize that the important resource we have in this country is American ingenuity. We should be investing in it. We should be cutting through the red tape that holds back innovation. Abraham Lincoln once said that when we face new and difficult challenges, we must think anew, and we must act anew. Lincoln knew the importance of setting a big goal, of unleashing the American people to get it done. He had the vision for the transcontinental railroad. He also signed the original charter for the National Academy of Sciences. We must think anew; we must act anew.

It is not enough for environmental extremists to say that the resources have to stay in the ground. That is not realistic. That is not responsible. America can do better, and the American people are ready to be part of this solution. The American people are ready to make energy as clean as we can, as fast as we can, without raising costs on American families. They need us to help show the way. With this kind of bipartisan solution I have been talking about today, I think we can take a step toward reaching that goal.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Georgia.

TRIBUTE TO ZIPPY DUVALL

Mr. ISAKSON. Mr. President, first of all, I am privileged and honored to commend Zippy Duvall, a great Georgian who just a few weeks ago was elected, in the 97th year of the American Farm Bureau, as its 12th president. Zippy has been the president of the Georgia Farm Bureau since 2006. He has been a leader in our State for decades, and I am so proud he will now represent agriculture throughout our country. He himself is a cattleman. He raises hay. He raises broilers. He has run the Farm Bureau and been a great advocate for agriculture and farming in our State.

He and his wife Bonnie have four children and three grandchildren. He served on the Farm Bureau Board. He serves as the president of the Georgia Farm Bureau. He serves on the local electric membership corporation board. He serves on the soil and water conservation board. He is a total public servant, and he is an outstanding advocate for agriculture and an outstanding representative of our State.

The best example of Zippy Duvall that I know is, if you ride through South Georgia—Sandy^hills of agricultural country in my State—and you look at all the bumper stickers on all the pickup trucks, you will see a unique bumper sticker—not mine, not a Member of Congress's, not the Governor's, but a bumper sticker that says very simply “Ditch the Rule.” Zippy Duvall was one of the leaders in our country who took on the EPA to stop from going into place the waters of the U.S.A. regulations that would hurt agriculture so desperately in our State. That bumper sticker became a slogan for agriculture all over the country, and farmers worked together to advocate on behalf of better agriculture without an overly oppressive EPA effect.

I am proud to come to the floor today and recognize a member of my State, a great farmer in Georgia, and a great citizen of our country. He will be the 12th president of the American Farm Bureau, and he will be the best president of the American Farm Bureau. I commend him and his family for all their sacrifice and effort. I wish him the very best of luck in his endeavors as president of the American Farm Bureau Federation.

75TH ANNIVERSARY OF USO

Mr. ISAKSON. Mr. President, I rise to recognize another organization that means so much to our farmers, in particular the Presiding Officer. It is called the USO—the United Service Organization—a private organization
chartered federally in 1941 by Franklin Delano Roosevelt and the Congress of the United States.

America was on the verge of world war, and the President knew it. We had fragmented volunteer organizations to serve our troops but no organization to really deal with the services they needed. The Congress passed a resolution creating and chartering the USO, consolidating those organizations into one. Since that charter 75 years ago, that organization has served over 10 million American soldiers in uniform from the time they put it on until the time they take it off.

One need only go to their local airport, which, for me, is the Hartsfield International Airport in Atlanta. Last year 100 million passengers went through that airport. Many of them were soldiers, a lot of them on the way to deployment in Afghanistan or the Middle East. When they go through the Atlanta airport, the first thing they see is the USO booth, and the first thing they get is services from the USO to help them in their trip, their endeavors, and help them with their families. The USO provides invaluable help to the men and women who provide all of us the security we relish in this great Nation of ours called the United States of America.

On this 75th anniversary of the USO, I commend the volunteers—900 of them in Georgia—who provide services to 150,000 Georgia soldiers a year, for all they do on behalf of our country and on behalf of our services. The USO is a great organization for a great country, serving the greatest of all military in the United States of America and throughout the world.

I yield back the remainder of my time.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. LANKFORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ENERGY POLICY MODERNIZATION BILL

Mr. LANKFORD. Mr. President, I have two different amendments that are coming to the floor. One deals with the Energy bill. One of them deals with the Land and Water Conservation Fund. This bill does a permanent extension of the Land and Water Conservation Fund. My question on that has been this: The money that is being allocated for the Land and Water Conservation Fund to be able to purchase properties—are we also allocating money to be able to actually maintain those properties?

Currently, in the current existence of this bill, there is some money allocated to it in some future way, but I have a simple request: As much money as we allocate to dealing with purchasing new properties, we should also focus in on maintaining what we already have because we have billions of dollars in maintenance backlog. Right now one of the worst conservation things that can happen in many parts of the country to Federal trust properties is that it really is not being taken care of once it actually goes into the Federal trust.

But that is not the prime issue I want to talk about now. Oklahoma is truly an “all of the above” energy State. Oil, gas, coal, wind, geothermal, hydroelectric, solar—we actually use all of those platforms in a very diverse energy economy. A tremendous amount of wind energy is produced in Oklahoma, used in Oklahoma, and exported to other States around us. It is a very important energy source for us. It has been incredibly beneficial, and it is an important part of our portfolio of a diverse energy platform.

We want to deal with our tax policy. Just a few weeks ago, this Congress—the House and the Senate—passed a change in the way the wind production tax credit will be handled. As a quick review for this body, the wind credit was put in place in 1992. It was a short-term tax credit to give a little bit of help to a brand new wind energy and several other diverse energy portfolios, but it was especially targeted at wind to help a new industry get off the ground.

Twenty-four years later, this temporary tax credit is still sitting there. If as of a few weeks ago, it was changed. It was changed so that in 2015 and 2016 the full tax credit will still be there, but starting in 2017 that tax credit will drop to 80 percent of what it is now, and in 2018 it will drop to 60 percent, in 2019 it will drop to 40 percent, and in 2020 it is left undefined.

I heard multiple individuals say this is a tax that is out of the production tax credit—a phaseout. That is something many of us have pursued for many years—how do we get out of this perpetual cycle? The problem is it wasn’t a phaseout, it was a phasedown of the production tax credit because in 2020 the PTC is left undefined. Most people would say that is not a problem. It will just go away. It is left undefined. The problem is 10 times in the past 24 years the production tax credit has been undefined for a future year assuming it had expired. This Congress has gone back and retroactively put it back into place—10 times. So to say in 2020 we are going to leave it undefined and it will go away is not a true phaseout. That is a phasedown, and it leaves it in the Tax Code.

My amendment is simple. A few weeks ago this body agreed that we would phase out the production tax credit. The best way to do that is to remove that part from the Tax Code in 2020 and make sure it goes away, and the only way it can be renewed at that point is to go through the normal tax process, create a new tax, and actually do it in the full sunlight rather than just say: Well, we are going to do another tiny extension again.

Wind has increased generation dramatically over the past 24 years, and I am glad. It is a good source. In our Nation, since 1992, wind generation has increased by 170 percent. It is well developed, it is economically stable, it is pulling its own weight in the system, and we should allow it to continue to fly on its own. It is not as if wind goes away if we don’t provide a tax credit.

It is interesting to note that in 2014 we faced something very similar to this. In 2014 it was one of those years that the tax credit was to go away and not exist anymore. It had expired. The problem was that at the very end of 2014 Congress did an avowed renewal of the production tax credit for the year 2014 in the last days of December. So the whole year had gone by without the tax credit, and during the very last days of 2014 Congress once again renews the production tax credit and did it retroactively. That year, 2014, the wind association noted that there was $12 billion of private investment into wind that year. The tax credit was only applied in the final days.

Wind is a good energy source, but it does need a tax credit. Federal dollars to be able to compete in this market. We have made that decision. Now it is time that we actually both trust
On Phased Down Production Tax Credit

On the morning of January 5th in Helmand Province, Afghanistan, Sergeant Matthew McClintock perished in battle. He was only 30 years old.

In the face of great danger and great risk to protect the safety of others, Sergeant McClintock, tragically did not return home. His watch is over, but his fellow soldiers and his family now stand in his place.

President Kennedy said that “stories of past courage . . . can teach, they can offer hope, they can provide inspiration. But, they cannot supply courage itself. For this, each man must look into his own soul.”

In the process, in 2015, we actually— While many eyes are focused on Iowa, New Hampshire, South Carolina, and Nevada, I want to assure my constituents and anybody else who happens to be listening, that we actually have been trying to get the people's work done here in the U.S. Congress. Some people might not want to hear that, some might not believe it when they hear it, but I would hope that fair-minded people might look at the evidence and say: Yes, there is actually some important work being done.

In the process, in 2015, we actually— I know this sounds improbable— reduced the role of the Federal Government in education and sent more of
that responsibility back where it belongs to parents, teachers, and local school districts in the States.

We reformed Medicare, which provides important health services to our seniors.

We provided for the long-term stability of our Nation’s infrastructure. We passed the first multi-year Transportation bill. I think, in 10 years, after having made about 33 different temporary patches, which is a terribly inefficient way to do business. Where I come from in Texas, since we are a fast growing State—and I expect most States feel the same way—providing for transportation infrastructure is important. It is important to our air quality, to commerce, to our economy, and to public safety.

We also did something that this Senate is proud of: the first Federal effort to provide meaningful support to victims of human trafficking, a bill that passed 90 to 0 in the U.S. Senate. One doesn’t get more bipartisan and consensus-building than that.

The way these measures happened, as well as the other work we have done, is by Republicans and Democrats working together. We are stuck with each other whether we like it or not. Republicans can’t get things done by themselves. Democrats can’t get things done by themselves. The laws can’t be passed under our constitutional framework unless both Houses of Congress pass legislation and it is actually signed by the President. We have to work together if we are going to make progress.

A lot of the credit for last year’s production in the Senate should be laid at the feet of the majority leader. Senator MCCONNELL, who said that after years of dysfunction where we were stuck in gridlock and nothing seemed to happen—he said: We are going to return to the regular functioning of the Senate. We are going to have a more constructive, open process that allows every Senator to participate in the consideration of legislation. We are going to have hearings to figure out how to pass good legislation, which is going to be voted on in the committee before it comes to the Senate so that we can see what pieces of legislation have bipartisan support and thus might be able to be passed by the Senate. In the Senate we call this regular order, but all it means is that everybody gets to participate in the process.

It is important to all of us that we be able to offer suggestions, that we be able to debate and offer amendments both in committee and on the floor. It might seem like pretty basic stuff, and people may think that happens as a matter of course. But, unfortunately, it didn’t.

In 2014 the Senate had 15 rollcall votes. As the Presiding Officer knows, the Senate was stuck in a ditch and couldn’t seem to get out. To give a number to demonstrate how dramatically we have changed in 1 year with the new majority leader, last year we had 200 rollcall votes on amendments. There were 15 in 2014 and 200 in 2015. So we could talk about the substance, but I think those numbers tell part of the story.

So I am glad there is open communication between our Congressional leaders and the President. I hope we can find some things done, because, again, no matter whether you are a conservative or a liberal, whether you are a Republican or a Democrat, we actually are not going to be able to get things done unless we find a way to build consensus. That is the way legislation is passed.

We have more work to do this year. So we need to keep our focus not on what is happening in Presidential primaries but on our job here in Congress and continue to try to work in a bipartisan way and deliver for our bosses, namely, the American people.

The bipartisan energy bill we are working on now is a good start to 2016. I congratulate Senator MURkowski, the chair of the energy committee, and her Republican and Democratic colleagues, for getting the bill this far. I think the first part of what demonstrates to me the wisdom of Senator MURkowski is handling this particular bill is that some of the more controversial issues, such as drilling, were literally legs of the bill. Exports, which were handled separately and dealt with at the end of last year rather than in this bill.

This bill does represent one with broad bipartisan support. Coming from an Administration that opposing the President, we understand the importance of energy to our economy. We produce more of it, we use it more efficiently, and, hopefully, it benefits consumers in the process. This bill will update our energy policies so that they reflect the enormous transformation we have observed in our energy sector. I have said it before, and I will say it again: I chuckle to myself when I heard people in the past talking about “peak oil,” which was sort of the talk in the oil patch. People said: Well, we have discovered all of the oil there is, and there is no more. So we are now going to be in a period of perpetual decline. We might as well get ready for that.

But thanks to the innovation in the energy sector with things like fracking—which has been around for 70 years but which some people have just discovered, it seems—along with horizontal drilling, what we have seen is this shale oil and gas revolution, which has been a boon not only to our country and particularly in places such as Texas, North Dakota, and the like.

Now, because of the glut, literally, of oil being produced, natural gas prices are much lower, which actually benefits consumers. By the way, when you look at the price of a gallon of gas lately, you have seen that gasoline is pretty cheap relative to historic levels.

Another important issue beyond energy that I think we need to deal with this year is getting back to a regular appropriations process. We saw at the end of last year—because our friends across the aisle blocked voting on Appropriations bills, including funding our military, which I just found to be incredible and really disgraceful, frankly—that we found ourselves in a position where in order to fund the functions of government, we had to do an Omnibus appropriations bill.

So I have said before that you might call it an “ominous” appropriations bill. It is an ugly process. It is a terrible way to do business because what it does is it empowers a handful of leaders to negotiate something that the members of the Senate ought to be involved in through the regular process, through voting bills through the Appropriations subcommittees, through the Appropriations Committee, through the floor, where we have transparency in the process and where any Senator who has a good idea can come to the floor and offer an amendment.

That is the way it ought to be done. We need to restore that sort of regular order this year so that each of the 12 Appropriations bills was sent out of their respective committees—the first time since 2009 that has happened. But, again, because of the blocking of the legislation, we ended up in a bad situation at the end of the year, where the only thing we could do was pass an Omnibus appropriations bill.

So now we look to the President’s budget, which will be sent over here in short order. We will take up that matter up through the Budget Committee, and we will look at the appropriations bills. And we will do our job to suggest to our Democratic friends that they have a choice to make. They can try to force this Chamber back into the same dysfunction and the same sort of partisan bickering that has characterized it for years when they were in charge or they can decide to work with us—as we would like to do—to move forward principled legislation, including appropriations bills, in a transparent, open process that allows every Member of Congress, Republican or Democrat alike—a chance to participate and allows our constituents to watch, as they go across the floor, and to ask the appropriate questions, to raise concerns if they have those concerns.

That is the way our democracy is supposed to work. Passing massive stopgap funding bills is not doing the best for the people we represent. It can be avoided, but it is going to take a little bit of cooperation. But I have to think that whether you are in the majority or the minority, most Senators like to work in a Senate that actually functions according to regular order, because, as the Presiding Officer
February 3, 2016

CONGRESSIONAL RECORD — SENATE

No. S541

Mr. MERRKLEY. Mr. President, I rise to address several amendments that I hope we will have an opportunity to vote on before this bill is completed.

The first amendment is amendment No. 3317, research and development for second generation innovative recycling research of electric vehicle batteries.

Electric vehicles, as folks generally understand, run almost entirely on lithium ion batteries, which are commonly considered to have reached the end of their useful life when the capacity diminishes to 80 percent. The range of the vehicle diminishes in a corresponding fashion. At that point, it is time for a new set of batteries.

This amendment instructs the Department of Energy to conduct research on possible uses of a vehicle battery after its use in a vehicle, to assess the potential for markets for those batteries, to develop an understanding of the barriers for the development of those markets, and to identify the full range of potential uses, including, possibly, stationary electric storage.

Second, I want to turn to amendment No. 3178, the Federal fleet amendment. The General Services Administration currently procures about 70,000 vehicles a year for 50 agencies. The total inventory of the Federal fleet is now almost 700,000 vehicles. These Federal vehicles are used for a wide range of purposes, some of which may well be appropriate for electric vehicles and others that may not be.

But in order to consider the applied role, the General Services Administration needs data on vehicle reliability and maintenance costs to understand what would be a fair and appropriate use and to calculate the lease terms. So this amendment provides GSA with the authority to reach out to other agencies to collect the information on the vehicles the agencies use, to do an inventory of what uses may be suitable for different types of electric vehicles and the numbers that could possibly be deployed, and to use that information to develop a 10-year plan for GSA to submit a report back to Congress so that we can understand the potential and make sure that we well position our policies to exploit that opportunity.

The third amendment that I want to draw attention to is amendment No. 3191, sponsored by myself, Senator SCHATZ, and Senator MARKEY. This is a resolution of the sense of the Senate. It notes that global temperature increases will lead to more droughts, more intense storms, more intense wildfires, a rise in sea levels, more desertification, and more acidification of our oceans, and that these impacts will result in economic disruption to farming, fishing, forestry, and recreation, having a profound impact on rural America.

Now, we know this to be the case because we can already observe these impacts on the ground right now. In my home State of Oregon, we have a growing red zone caused by pine beetles—pine beetles that previously were killed off in colder winters that now survive in greater numbers and attack more trees. We have lost our harvest season. It has grown by 60 days over 40 years. The amount or the acreage consumed by forest fires is increasing. We have a diminishing snowpack in the Cascades, which is resulting in smaller, warmer trout streams, as well as affecting our winter recreation industry. I know that anyone who loves to fish for trout does not want to have a smaller and warmer stream because of its adverse impact.

Over on our coast, we are having an impact on the baby oysters, which have difficulty forming their shells in the more acidic Pacific Ocean, an ocean that is now 30 percent more acidic than it was before the Industrial Revolution. This amendment simply points to the fact that already we see all of this. But as the temperature rises, disruptions increase. The impact on our farming, fishing, forestry, and recreation is greater, and it is doing a lot of damage to our fisheries and a lot of damage overall to the United States of America, and it is doing so throughout the world as well.

We must work together to transition to a cleaner economy, and I think there are important first steps in place. Our future President, whomever that might be, must work to build upon the foundation we have put in place with our Clean Power Plan, with increased mileage for our cars and increased mileage for freight transportation. Let’s build upon those steps in order to work in partnership with the world to take on this major challenge.

So I hope these three amendments have a chance to be debated and voted on here on the floor. We are clearly in a situation where we are the first generation to see the impacts of our fossil fuel energy economy, see the destructive impacts on our forests, our fishing, our farming, and our winter recreation. Therefore, we have a responsibility to work together to take this on. Our children, our children’s children, may they not look back and say: What happened? Why did our parents and grandparents fail to act in the face of such a massive and important global threat?

Our “WE THE PEOPLE” DEMOCRACY

Mr. President, I am now shifting to my regular “We the People” speech, a series of speeches in which I try to raise issues that go to the heart of the framing of our Constitution and the vision of creating a republic that has a government responsive to the concerns of citizens throughout our Nation.

Our Founders started the Constitution with three powerful words: “We the People.” They wrote them in a font 10 times the size of the balance of the Constitution as if to say: This is what it is all about. This is our goal, as President Lincoln summarized, a “government of the people, by the people, for the people.”

It was not the plan of our Founders in writing the Constitution to have a government designed to serve the ruling elites. It was not the design of our Constitution to enrich or benefit the rich elite of the nation in industry and commerce. It was not the intention of our Founders to build a government to serve the best off, the richest in our society—quite the contrary. So I am rising periodically to address issues related to this vision, this beautiful Revolution, the American Revolution, that sought to have a form of government that served the people, not the elite.

This week I am using my speech to reflect on the anniversaries of two Supreme Court decisions, two decisions which have driven a stake through the heart of our “We the People” democracy. One ruling, Buckley v. Valeo, marked its 40th anniversary last Saturday on January 30, and Citizens United marked its 6th anniversary on January 21. These two decisions have forever altered the vision of our government.

They have turned our government on its head. They have changed it from “We the People” to “We the Titans.” It is my hope that visitors will rally together in this country, that Senators and House Members will rally together to defend the Constitution that they are sworn to uphold that was not a “We the Titans” Constitution, it was a “We the People” Constitution.

Central to the promise of “We the People” is the right to participate in an equal footing, to contribute one’s opinions and insights on elections and on issues.

President Jefferson called this the mother principle. He summarized it as follows: “For let it be agreed that a government is republican in proportion to this.
as every member composing it has his equal voice in the direction of its concerns... by representatives chosen by himself, and responsible to him.” Let me emphasize again, “republican in proportion as every member composing it has his equal voice in the direction.

The decisions of Buckley and Citizens United are a direct assault on this fundamental understanding that to have a “We the People” republic, you have to have citizens participate in a roughly equal voice principle. These decisions bulldozed the “We the People” pillar on which our government is founded.

President Lincoln echoed Jefferson’s equal voice principle. He said: “Allow all the governed an equal voice in the government, and... that only is self-government.”

Is there anyone in this Chamber who believes that today all the governed have a voice in the government? I am sure no one among our 100 Senators would contend that principle—so eloquently laid out by President Jefferson, so resoundingly echoed by President Lincoln, so deeply embedded in the founding words of our Constitution. It is not just because Buckley v. Valeo found that individuals could spend unlimited sums to influence the outcomes of elections. That decision and Citizens United destroyed the notion that all citizens have an equal voice in the governance. It is not just because Buckley v. Valeo found that individuals could spend unlimited sums to influence the outcomes of elections and policy than others? Our Constitution says no. Our Founders said no, but Buckley v. Valeo and Citizens United said yes—and they are wrong.

With a campaign finance system that gives the most amount of influence over elections with concomitant control over laws, we don’t have a government that embodies President Jefferson’s mother principle; that is, one that reflects and executes the will of the people.

So it is time to change this. It is time to recapture the genius of American governance, and it is time to restore the “We the People” principles so eloquently and powerfully embedded in the Framing of our Constitution.

I suggest the absence of a quorum. The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MURPHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MURPHY. Mr. President, I come to the floor to talk about two topics that often make this body and sometimes my side of the aisle uncomfortable. I want to talk about the fight that is on across the world—or particularly in the Middle East for the soul of Islam and how it matters to the United States—and I want to talk about our relationship with Saudi Arabia and the connection to the former issue.

We frequently hear this criticism of President Obama that he doesn’t have a strategy to defeat ISIS. I fundamentally don’t believe that is true. He does have a strategy, and it is largely working when you look at the metrics on the ground. You see that ISIS’s territory in Iraq and Syria have been reduced.

We have stood up a more capable fighting force inside Iraq. We have clamped down significantly on ISIS’s sources of revenue and financing. Listen, it is hard to win when only one spectacular and deadly strike can erase all of your good work, but the President does have a strategy.

It is not simply a matter of getting 10 percent or 20 percent more of the population involved in fighting. It involves engaging in some very uncomfortable truths about the nature of the modern town square—that is, to make sure the bad guys don’t get in.

For thousands of families in destitute places such as northwest Pakistan, we can see how it is often a pretty easy choice. But as the years go on, you lose touch with your son. The school cuts off your access to him. And when you do get to see him every now...
and again, you see him changing. Then one day it is over. He is not the little boy you once knew. He is a teenager. And he is announcing to you that the only way to show true faith with Islam is to fight for it against the infidels who are trying to pollute the Muslim faith or those who are trying to destroy it. He tells you that he is going off to Afghanistan, Syria, or Iraq with some fellow students and that you shouldn't worry about him because God is on his side.

You start asking questions to find out what happened in the school and you start to learn. You discover the textbooks he read that taught him a brand of Islam greatly influenced by something called Wahhabism, a strand of Islam based on the earliest form of religion practiced under the first four caliphs. It holds that any deviation from Islamic originalism is heresy. In school, your son was therefore taught an ideology of hate toward the unbelievers—Christians, Jews, but also Shiites, Sufis, and Sunni Muslims who don't follow the Wahhabi doctrine. He is told that the crusades never end; that aid organizations, schools, and government offices are just modern weapons of the West's crusade against his faith; and that it is a religious obligation to do “battle” against the infidels.

I tell my colleagues this story because some version of it plays out hundreds of times every day in far-flung places, from Pakistan to Kosovo, Niger to Indonesia, the teaching of an intolerant version of Islam to hundreds of millions of young people.

Think about this: In 1996 there were 244 of these madrassas in Pakistan; today there are 24,000. These schools are multiplying all over the globe. Yet, don't get me wrong, these schools, by and large, aren't directly teaching violence. They aren't the minor leagues for Al Qaeda. But they do teach a version of Islam that leads very nicely into an anti-Shia, anti-Western militancy.

I don't mean to suggest that Wahhabism is the only sect of Islam that can be perverted into violence. Iran's Shia clerics are also using religion to export violence as well. But it is important to note that the vicious terrorist groups whom Americans know by name are Sunni in derivation and greatly influenced by Wahhabi Salafi-Jihadism.

Of course, the real rub is that we have known this for a very long time. Secretaries of State, ambassadors, diplomats, and four-star generals have all complained over and over again about it. Yet we do very little to stop this long, slow spread of intolerance. We don't address it because to do so would force us to confront two very difficult issues.

The first is how we talk sensibly about Islam. Right now we are caught between two extremes. Leading Republicans want to begin and end this discussion with a debate over what we call terrorists. Of course, the leading candidate for President often equates the entire religion with violence. I think this debate over nomenclature is overwrought, but I certainly understand the problem of labeling something as a whole because it gives purchase to this unforgivable argument that all Muslims are radicals or terrorists. So many Republicans don't want to go any deeper into the conversation than just simply labeling the extremists, frankly, aren't that much better. The leaders of my party often do back flips to avoid using these kinds of terms, but, of course, that forestalls any conversation about the fight within Islam for the soul of the religion.

It is a disservice to this debate to simply brand every Muslim as a threat to the West, but it is also a disservice to refuse to acknowledge that although ISIS has perverted Islam to a degree that makes the needs of this perversion rooted in a much more mainstream version of that faith that derives in substantial part from the teachings of Wahhabism.

Leaders of both parties need to avoid the extremely easy and enter into a real conversation about how America can help the moderate voices within Islam win out over those who would sow the seeds of extremism. Let me give an example. Last fall, I visited the Hedayah Center in Abu Dhabi, a U.S.-based initiative to counterprogram against extremist messaging. When I pressed the center's leadership on the need to confront Wahhabi teaching and the mainstream roots of extremism, they blanched. They said it was out of their lane. They were focused on the branches of extremism, not the trunk. But, of course, by then it is probably too late.

America, frankly, doesn't have the moral authority or weight to tip the scale in the moderate Islam and less tolerant Islam. Muslim communities and Muslim nations need to be leading this fight. But America—and most notably, sometimes the leaders of my party—also can't afford to shut its eyes to the struggle that is playing out in real time.

SAUDI ARABIA

That brings me to the second uncomfortable truth, and I present it to you in a quote from Farah Pandith, who was President Bush's representative to Muslim Communities. In a moment of candor, she commented that in her travel to 80 different countries in her official position, she said, “In each place I visited, the Wahhabi influence was an insidious presence funded by Saudi money.”

The second uncomfortable truth is that for all the positive aspects of our alliance with Saudi Arabia, there is another side to that country than the one that faces us in our bilateral relationship, and it is a side we can no longer afford to ignore as our fight against Islamic extremism becomes more focused and more complicated.

First, let me acknowledge that there are a lot of good aspects in our relationship with Saudi Arabia. I don't agree with cynics who say our relationship is just an alliance to facilitate the exchange of oil for cash and cash for oil. Our common bond was forged in the Cold War when American and Saudi leaders found common ground in the fight against communism. The official détente today between Sunni nations and Israel is a product, in part, of the Saudi-led diplomacy. There have been many high-profile examples of deep U.S.-Saudi cooperation in the fight against Al Qaeda and ISIS. More generally, our partnership with Saudi Arabia—the most prosperous and the richest country in the Arab world—serves as an important bridge to the Islamic community. It is a direct rebuttal of this terrorist ideology that asserts that we seek a war with Islam.

We can't afford to ignore the more problematic aspects of Saudi policies. The political alliance between the House of Saud and the conservative Wahhabi clerics is as old and influential, and this oil has resulted in billions of dollars funneled to and through the Wahhabi movement. Those 24,000 religious schools in Pakistan—thousands of them are funded with money that originates in Saudi Arabia. So are mosques in Brussels, Jakarta, and Paris. According to some estimates, since the 1960s the Saudis have funneled over $100 billion into funding schools and mosques all over the world, with the mission of spreading Wahhabism—the most pernicious and violent aspects of Islam—across the globe.

We can't afford to ignore the more problematic aspects of Saudi policies. The political alliance between the House of Saud and the conservative Wahhabi clerics is as old and influential, and this oil has resulted in billions of dollars funneled to and through the Wahhabi movement. Those 24,000 religious schools in Pakistan—thousands of them are funded with money that originates in Saudi Arabia. So are mosques in Brussels, Jakarta, and Paris. According to some estimates, since the 1960s the Saudis have funneled over $100 billion into funding schools and mosques all over the world, with the mission of spreading Wahhabism—the most pernicious and violent aspects of Islam—across the globe.

For a country that is part of a nation that has formally declared Holy War against all infidels, Saudi Arabia, fueled by this conservative religious zeal, is the most problematic of all the countries in the Middle East. We have many high-profile examples of deep U.S.-Saudi cooperation in the fight against Al Qaeda and ISIS. More generally, our partnership with Saudi Arabia—the most prosperous and the richest country in the Arab world—serves as an important bridge to the Islamic community. It is a direct rebuttal of this terrorist ideology that asserts that we seek a war with Islam.

But in the wake of the Iran nuclear agreement, there are many in Congress who would have the United States double down in our support for the Saudi side of this fight in places such as Yemen and Syria simply because Saudi Arabia is our named friend and Iran is our named foe. But the larger point is that Saudi Arabia doesn’t work like that anymore, and there is growing evidence that our support for Saudi-led military campaigns in places such as Yemen are prolonging humanitarian misery and, frankly, aiding extremism.

Ninety billion dollars in U.S. arms sales money has gone to Saudi Arabia during the Obama administration to help them carry out a campaign in Yemen against the Iranian-backed Houthis. Our government says its top priority in Yemen is defeating AQAP, which is arguably Al Qaeda’s deadliest franchise, but this ongoing chaos has created a security vacuum in Yemen in which AQAP can thrive and even expand. We should dispense with this notion since the Saudi campaign began. Al Qaeda has expanded in Yemen and ISIL has gained a new territorial and recruitment foothold. To make matters worse, Saudi Arabia and some of its GCC partners have been focused on this fight against Iran in Yemen that they have dramatically scaled back or in some cases totally ended their military efforts against ISIS. Under these circumstances, how does military support for Saudi Arabia help us in our fight against extremism if that is our No. 1 goal?

Here are my recommendations. The United States should get serious about this. We should suspend supporting Saudi Arabia’s military campaign in Yemen, at the very least until we get assurances that this campaign does not distract from the fight against ISIS and Al Qaeda or until we make some progress on the Saudi export of Wahhabism throughout the region and throughout the world. And Congress shouldn’t sign off on any more military sales to Saudi Arabia unless similar assurances are granted.

If we are serious about constructing a winning, long-term strategy against ISIS and Al Qaeda, our efforts have to extend beyond the day to day, the here and now, the fight in just Syria and Iraq. We need to admit that there is a fight on for the future of Islam, and while we can’t have a decisive influence on that fight, we also can’t just sit on the sidelines. Both parties here need to acknowledge this reality, and the United States needs to lead by example by ending our effective acquiescence to the Saudi export of intolerant Islam.

We need to be careful about not blindly backing our friend’s plays in conflicts that simply create more instability, more political insecurity and, of course, new extremists. Global hotspots are so focused on what is going on in Yemen today.

We need to work with the Saudis and other partners to defeat ISIS militarily, but at the same time, we need to work together to address the root causes of extremism. Saudi Arabia’s counter-radicalization programs and new anti-terrorism initiative are good steps that show Saudi leaders recognize some of these problems, but they need to be more tolerant and willing to address ideologues, refusing to incentivize destabilizing proxy wars—these are the elements of a long-term anti-extremism strategy, and we should pursue this strategy even if it on occasion makes uses uncomfortable.

I yield the floor.

The PRESIDING OFFICER (Mr. Sasse). The Senator from Missouri.

Mr. BLUNT. Mr. President, I ask unanimous consent to be allowed to speak in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

IRAN

Mr. BLUNT. Mr. President, today I want to talk about President’s recent dealings with Iran and the serious questions the administration’s actions have raised.

Let me begin by saying first of all that I welcome—as do all Americans—these developments and the release of the three American hostages who were wrongfully detained in Iran. We are all glad to see the return of Pastor Saeed Abedini, Jason Rezaian, and Amir Hekmati. That they have been freed and that they have been reunited with their families is important. Our prayers—my prayers and the prayers of so many Americans—remain with those families and with the family of Robert Levinson, a former FBI employee about whom we have not been given the kind of information we need to have. If he is alive, we should demand his release. If he is not alive, we should demand and find out what happened to Robert Levinson.

In return for these three hostages being released, the United States released seven Iranians or Iranian Americans who had been convicted of transferring technology, which included nuclear dual-use technology, to Iran. The administration also agreed to take 14 Iranians off the Interpol arrest list as part of this effort to get Americans unfairly held back. If clearing the way for 21 convicted or indicted enemies of the United States wasn’t enough, then the United States, in my view, also agreed to pay $4.7 billion to Iran. In everybody’s view, they paid that $1.7 billion at the time of the swap. The administration, I guess, would want us to believe it is coincidental that the day after the American hostages were released and the day after the Iran deal went into effect, Secretary Kerry announced that the United States had settled a claim at the World Court at The Hague dating back decades.

According to the Wall Street Journal, Iranian General Reza Naqdi said: “Taking this much money back that the United States will be paying Iran—has already paid Iran—$1.7 billion. This is supposedly $400 million in principal stemming back to a former military sale before the fall of the Shah of Iran and then $1.3 billion in interest—$400 million in principal, and $1.3 billion in interest.

The timing of the swap and the announcement of the breakthrough in the settlement—this had been at the World Court for 33 years, and we are supposed to believe that it is just another coincidence in the Obama State Department.

Peeling back the details of this settlement is even more troubling because the money had already been spent. This was Iranian money from a foreign military sale that had been held in the United States, called the FMS account. The foreign military sale account. It was originally placed in that trust fund, but then it was spent. Why was it spent? It was spent because the Congress in 2000 passed legislation that the President signed that directed the Secretary of the Treasury to use that money to compensate victims of Iranian terrorism. In cases like Flatow vs. Iran and four other related cases, Iranian terror victims all received compensation from this fund, effectively wiping out the balance of the fund. The trust fund that the administration is referring to has already been spent.

How do you give money back that has already been spent? You can’t give money back that has already been spent. I suppose you can take taxpayer dollars, which is what happened here, suggest that somehow this was money of the Iranians all the time and give those taxpayer dollars to Iran in return for a smaller compensation from this fund, effectively wiping out the balance of the fund. The trust fund that the administration is referring to has already been spent.

I think you and every Member of the Senate should continue pressing the administration for answers. If they want to spend taxpayer money, there may be some legal way they can do that, but there is really no legal way they can say they are giving money back that the Congress already told them to do something else with, and they did.
In addition to that money we have now given to Iran, the Iranian agreement allows somewhere between $100 million and $150 million held by countries all over the world since the late 1970s to be returned to Iran. Just last week, Senate Majority Leader Mitch McConnell said that some of this money will “end up in the hands of the [Iranian Revolutionary Guard Corps] or other entities, some of which are labeled terrorists.”

Well, of course that is where that money went and found out there was an argument made during the Iranian agreement that there are so many needs in Iran that they are going to spend this on other more worthwhile things. But no matter how many needs there were in Iran, Iran is, by the administration’s own determination, the No. 1 state sponsor of terrorism in the world. Of course when you give them money back, they are going to use that money for what they are already using their money for. They are just going to have over $100 billion more at their disposal.

The world's largest state sponsor of terrorism—whether it is backing Palestinian terrorists in Gaza or supporting Hezbollah’s attacks against Israel from Lebanon, the regime will now have more resources to do that with. Iran, of course, has made no secret of its nuclear ambitions nor of its willingness to flout the treaty obligations in order to achieve those ambitions. It recently launched two ballistic missile tests in the past 3 months. It is a direct violation of the U.N. resolution which prohibits them from engaging in activities related to ballistic missiles capable of carrying a nuclear warhead, but they have done it twice in the last 90 days. Even Members of the President’s own party who have supported the Iran agreement have criticized the administration’s lack of response to these violations.

What is the world to think? What are the American people to think when we are transferring money at the time we get American hostages back, when we are allowing missiles to be launched near the U.S.S. *Harry Truman*, when we are allowing ballistic missile tests to occur, and acting as if we have made some great breakthrough with Iran?

The recent detention of U.S. sailors in Iran is another example of how little we have gained in this Iranian policy agreement. The administration has gone out of its way to accommodate the demands of this regime that is hostile and sponsors terrorists. Enough is enough. It is time that the Congress stand up, and I urge my colleagues in the Senate to utilize every tool at our disposal to hold the Iranian regime accountable.

One important step will be to secure Iranian assets owed to victims of terrorism who had been awarded judgments by our courts and other courts. Why would we give money to Iran when there are Americans who are victims of terrorism that courts have said have a right to that money? They found Iran liable for sponsoring fatal attacks against American citizens, including the 1983 bombing of the U.S. Embassy and the Marine Barracks in Beirut, Lebanon, and the 1986 bombing of the Khobar Towers in Khobar, Saudi Arabia.

According to the Congressional Research Service, about $43.5 billion in unpaid judgments from Iran to Americans are due. Iran should not receive any sanctions relief until those claims have been paid. We ought to look at how we can secure Iranian assets to provide some measure of justice for victims of these terrorist activities. That should include assets held by foreign countries, foreign companies, and countries who do business in the United States.

The idea that the Iranian regime is now our partner is dangerously naive and one that undermines our global leadership. It confuses our friends, and it emboldens our enemies. I urge the administration not to cede to this regime and start putting the interests of the American people and our allies first. I urge the Congress to continue to look at this recent exchange of money for hostages.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

**LEAD IN OUR DRINKING WATER**

MR. CARDIN. Mr. President, I rise today in support of the effort by Senator Stabenow of Michigan and Senator Peters of Michigan to amend S. 2012 for Federal response to the emerging crisis in Flint, MI. We know about the lead in the water supply, the fact that it was known, and the fact that many children today have suffered the consequences. It is incumbent that the Federal Government be a partner in finding a way to correct that circumstance as soon as possible.

I come to the floor urging our colleagues to find a way that we can move towards putting to help the families in Flint, MI. I congratulate my colleagues, Senator Stabenow and Senator Peters, for their leadership.

I hope we don’t lose sight of the big picture, and that is that this is happening in cities and towns all across America. In Michigan, it is not only Flint but parts of Grand Rapids, Jackson, Detroit, Saginaw, Muskegon, Holland, and several other cities that have water systems which has harmful levels of lead. In Sebring, OH, just this week closed schools for 3 days because of lead in their tap water. In Toledo, officials have long treated the water with phosphates to prevent leading of lead. Eleven cities and two counties in New Jersey had higher percentages of children with elevated lead levels than Flint, MI, State lawmakers and advocacy groups said on Monday of this week. Here in the Nation’s capital, in Washington DC, in the early part of the last decade, lead leached into the water of possibly 42,000 children.

Let me talk about my State of Maryland. In the city of Baltimore, high lead levels in schools prompted officials to turn off drinking fountains and pass out bottled water instead in every school in Baltimore City. They are not hooked up to the fountains because it is not safe. Across the State of Maryland, 1 in 3 and 2-year-olds in the entire State will be tested for lead that is 175,000 children—because they are at risk.

This is a national problem. In Flint, MI, it is estimated it cost about $800 million for remedial costs alone. That is about two-thirds of what we currently appropriate every year for drinking water infrastructure in the entire country. The amount we appropriate is woefully inadequate.

According to the EPA’s most recent estimates, more than $655 billion may have been needed to repair and replace drinking water and wastewater infrastructure nationwide over the next 20 years. This comes out to over $32 billion per year every year for the next 20 years. Yet currently we spend approximately $3 billion per year at the Federal level on combined drinking water and wastewater infrastructure State revolving funds—one-tenth of the total amount that is needed in order to modernize our infrastructure.

The public expects that when they turn on the tap, the water is safe. They expect that when they use their bathroom facilities, the wastewater is being treated appropriately. They expect that when their children drink water, they can deliver water in a manner that is efficient and safe. In reality, our water infrastructure is out of sight and is woefully inadequate, as we have seen in Flint, MI.

I ask my colleagues: If it costs $800 million to fix the pipes in Flint, MI, are we going to come to an agreement that we need a substantial increase in the amount of funds appropriated for the clean water and drinking State revolving funds to help all American cities? Because the stakes could not be higher.

There are many things that went wrong in Flint, MI. First and most directly was the failure of the Governor and his appointed emergency managers to identify and address the problem as it grew more and more apparent. They knew the problem, and yet they didn’t do anything about it. Second, a declining and increasingly impoverished population in the county has no base and eliminated the ability to pay back the loans the city might receive from the Federal Government to change out their pipes. It is also a matter of ability to actually afford the infrastructure at the local level. That is why the State partnership through the Federal partnership is so critically important.

This has never been a partisan issue. I have served on the Environment and Public Works Committee since I was elected this Congress, and we have recommended authorization levels and changes in the formula so that we can modernize our water infrastructure in
this country. It has had nearly unan-

mous support in our committee.

As I said, there is not nearly enough

money in these revolving loan funds to

keep up to date the drinking and

wastewater infrastructure in this coun-

ty, even if the cities could pay back the

loan. This list is not limited to Flint. This

demographic and fiscal physical charac-

teristics are similar to many, many

cities of every size in the United

States, in almost every State.

None of these things that have gone

wrong in Flint are more distressing than

the possibility that children may have

suffered irreversible damage in their
developing brains from the expo-

sure to lead. Exposure to even a low

amount of lead can profoundly affect a

child’s behavior, growth rates, and—

perhaps most worrying—their intel-

ligence over time. Higher levels of lead

in a child’s blood can lead to severe dis-

abilities, eye-hand coordination prob-

lems, and hyperactivity toward the end,

Younger children and fetuses are es-

pecially vulnerable to even small

exposures to lead—whether it be in

tap water, lead paint, lead in soil still

left from the days of leaded gasoline, and

lead in children’s toys and jewelry. The

list goes on and on. There is not just

one source of lead, and I under-

stand that, but when we turn on the

faucets, we do not expect to have water

that contains lead.

Further, it is impossible to gauge

how any specific child will be affected

because the developmental impacts of

lead poisoning can take years to be-

come apparent. So you might have

been poisoned 5 years ago, and the ef-
f

fects will take longer before it becomes

apparent in the classroom or the com-

munity. In fact, the health effects are

so severe, our Nation’s health experts

declare there is no safe level of

lead in a child’s blood—period, the end,

zero.

I also want to highlight a quote from

an article in the New York Times on

January 29 of this year.

Emails released by the office of [Michigan] Gov. Rick Snyder last week referred to a

resident who said she was told by a state

health inspector that the water in her home

was too costly. We have a duty to these

stakes are too high and the solution

profits to fix this problem for us. The

 coalitions to End Childhood Lead Poi-

soning is a nonprofit organization dedi-

cated to services and advocacy on be-

half of families affected by lead poi-

soning. The coalition, represented as a

grassroots effort by Maryland parents

who saw a problem in their community

and sought innovative solutions. The

coalition has grown nationally, found-

ing the Green & Healthy Homes Initia-

tive to be a holistic approach for

safer and greener living spaces for

American families. The coalition has

dozens of local partners, including

Johns Hopkins Bloomberg School of

Public Health and the University of

Maryland School of Law. Together, I

am proud to say, these Maryland insti-

tutions are paving the way to combat

lead poisoning and researching innova-

tive legal solutions to a tragic prob-

lem, but we cannot rely on the non-

profits to fix this problem for us. The

stakes here are too costly. We have a
duty to these children to make sure their
drinking water is safe. Make no mistake,

massive lead poisoning of an entire city’s

children from any source robs our

country of an entire generation of great

minds—minds which are core to the

futures of these most vulnerable

communities.

I urge my colleagues in the Senate to

not only act responsibly with regard to

Flint, but I refer to a commission that I

appointed several years ago. We certainly

don’t want this in Florida. You will notice

that there are not many beaches off of

Louisiana, Mississippi, and Alabama.

What do you think Florida is known for?

It is known for its pristine beaches all the way from the Perdido River, which is along the Florida-Ala-

bama line and goes down the coast to

Naples. This area not only includes the

 Keys, but it goes up the east coast of

Florida and goes further north than any other State. Florida has more coastline than any other State, save for Alaska, and Alaska doesn’t have a lot of beaches.

People not only visit Florida because of

Mickey Mouse, but they visit Flori-

da in large part because of our beach-

es. The Gulf oilspill turned these white,
sugary sands of Pensacola Beach black.

Even though the oil spilled way over

here, it drifted to the east and got as far as Pensacola. A little bit more oil reached Destin, and there were just a few tar balls on Panama City’s beach. When Americans saw those white, sug-

ary sand beaches black from oil, they

assumed that had happened to the en-
tire coast of Florida, and as a result

people didn’t visit for one whole sea-

son.

So what happened to Florida’s econ-

omy? What happened to the dry clean-

ers, restaurants, and hotels that are all

too happy to welcome their guests and

visitors who didn’t come? You get the

picture of what happened to our econ-

omy.

I am speaking about this as the Sena-

tor from Florida, but now let me speak

as the Senator who is the sec-

ond-ranking Democrat on the Armed

Services Committee. This area is

known as the military mission line.

Everything east of that line—indeed,

almost all of the Gulf of Mexico—is the

largest training and testing area for the

U.S. military in the world. Why do

you think the training for the F-22 is at

Tyndall Air Force Base in Panama

City? Why do you think the training for

the F-35 Joint Strike Fighter, both

foreign pilots as well as our own, is at

Eglin Air Force Base? It is because

they have this area. Why is the U.S.

Air Force training, testing, and evalua-

ting headquarters at Fort Walton, Eglin

Air Force Base? Because they have

300 miles out here.

In addition, why did we want this

area kept from drilling? Take a look at

that. That is a marsh in Louisiana.

The oil spill and the damage from years ago is almost all of the Gulf of Mexico—is the

largest training and testing area for the

U.S. military in the world. Why do

you think the training for the F-22 is at

Tyndall Air Force Base in Panama

City? Why do you think the training for

the F-35 Joint Strike Fighter, both

foreign pilots as well as our own, is at

Eglin Air Force Base? It is because

they have this area. Why is the U.S.

and it is key to our national defense. So for all of those reasons, Senator Martinez and I put in law that this is off-limits up until the year 2022, but now comes the Energy bill, with its sneaky amendments giving additional revenue to these Gulf states, and to the upper States on the Atlantic seaboard. It gives those States a financial incentive to get a cut of the oil revenue. What do you think that is going to do to the government of the State of Florida? It is an exculsion, which we are now drilling out here as well as to have drilled off the east coast of Florida?

When I was a young Congressman, I faced two Secretaries of the Interior who were absolutely intent that they would make the Atlantic, the Florida Keys, the entire east coast of the United States from Cape Hatteras, NC, all the way south to Fort Pierce, FL, and the only way back then—in the early and mid-1980s—we were able to get that stopped, which this young Congressman and in dealing was to explain to you that you can’t have oil rigs off of Cape Canaveral, where we are dropping the first stages of all of our military rockets that are so essential for us so that we will have assured access in order to protect ourselves with all of those assets.

Of course, in the early 1980s, I could talk about what was going to happen for 135 flights of the space shuttle. You can’t have oil rigs off of Cape Canaveral, which is going to be landing by parachutes in the ocean because you are going to threaten the launch facilities for the U.S. military as well as NASA if you put oil-related activities out there.

So, too, in another 2 years we will be launching humans again on American rockets, some of whose first stages will still be crashing into the Atlantic and whose other activities and the first stages—the solid rocket boosters on the space shuttle—are going to be landing by parachutes in the ocean because you are going to threaten the launch facilities for the U.S. military as well as NASA if you put oil-related activities out there.

Ever since this Senator was a young Congressman, I have been carrying this battle. This Senator supports oil drilling. This Senator supports where it is environmentally sound, including fracking in shale rock, because look what it has done for us. But there are times when there is tradeoff. But in this case there is not going to be a tradeoff. In the first place because there is not any oil, in the second place because it would wreck the economy of Florida with our tourism and our sugary white beaches, but in the third place because it would threaten the nation’s economy. We eliminated this as our largest test evaluation and training center.

I can tell my colleagues that this Senator is not going to let that happen.

Mr. TOOMEY. Mr. President, I rise to discuss amendment No. 3016. This is an amendment that would eliminate the corn ethanol mandate from the fuel standards that we have.

I wish to thank my cosponsors on this amendment, Senator FEINSTEIN from California and Senator FLAKE from Arizona. This is a bipartisan amendment. I think this is a really important issue.

What, this amendment does is it eliminates the corn component of the renewable fuel standard. The renewable fuel standard, as my colleagues know, was created in 2007, and this is a Federal mandate that forces drivers to burn corn and biofuels. Over the next 30 years, the vast majority of it derived from corn, in our vehicles, in our cars. It is on the order of 100 billion gallons of corn ethanol, and because this mandate establishes specific and increasing quantities of ethanol that has to be burned in our cars, when total gasoline consumption stays flat or declines, then it becomes an increasing percentage that we are all forced to buy.

Let me be clear about one thing. The amendment I am addressing, amendment No. 3016, eliminates the corn portion of the renewable fuel standard mandate, and that is 80 percent by volume. The optimal policy is to get rid of this whole thing. It was a bad idea to begin with. It is now abundantly clear this is bad policy and we should get rid of the whole thing. But I understand we don’t have as broad an interest in getting rid of the whole thing as the interest we have in getting rid of at least the corn component. And since that is, after all, 80 percent, this would be significant progress.

There is probably not an enormous universe of things on which I have agreed with Vice President Al Gore over the years, but he got this right. Vice President Gore has acknowledged that ethanol was a mistake in the first place.

It was created, as I say, with all good intentions. It was thought that by forcing people to make ethanol mostly from corn and burn it in our cars, we would reduce air pollution. It was thought that it would reduce costs for families. It was thought that it might even be good for the economy. All three are completely wrong. Factually, that is not the case. The mandate has failed to achieve any of these goals. Instead, in fact, it increases air pollution, it increases food prices, and it is harmful to our economy.

Let me take the first one, because the real motivation for this was to do something to improve the environment. The idea was that ethanol is a much cleaner fuel. It just is not true.

There is no dispute about this. There is no question about this. Ethanol is harmful to our air quality and our environment.

The Environmental Working Group agrees. "The Environmental Working Group, a group of environmentalists, have said: 'The rapid expansion of corn ethanol production has increased greenhouse gas emissions, worsened air and water pollution, and driven up the price of good and feed."

I know that many of my colleagues are very concerned about carbon emissions. So separate and apart from ozone, CO2 that is being released into the atmosphere is a concern for a lot of people. Studies show that ethanol creates more carbon dioxide emission than gasoline. It is just a fact.

The Clean Air Task Force estimates that the carbon emissions from corn ethanol, over the next 30 years at current projected consumption rates, would exceed 1.4 billion tons, which is 300 million tons more than if we used gasoline instead of the ethanol.

So there really isn’t any debate that I am aware of anymore about this. Air quality is better if we are using ethanol than when we are. But there are other impacts of this mandate. One is the higher cost on families.

The fact is that ethanol is more expensive to make per unit of energy than gasoline. So we need to spend more for our cars to go the same distance. The New York Times reported that ethanol increased costs to gasoline purchasers by billions of dollars in 2013. The Wall Street Journal estimated that in 2013, the RFS mandate—this mandate that we burn ethanol in our gas—raised the cost of gas by an average of anywhere from $128 to $320 per year for the average family.

So let’s be very clear. This mandate is costing American families several hundred dollars a year of their disposable income because they are having to spend to buy the more expensive fuel to move their vehicles.

It is not just the direct effect of having to pay more when we gas up our cars. Ethanol mandates take a huge segment of our corn production off the market and they drive up the price of corn. Again, this isn’t just me...
saying so. In 2008, USDA Secretary Ed Schafer and Department of Energy Secretary Samuel Bodman acknowledged that ethanol increases the food price. Their estimate is just under 1 percent per year.

In 2012 a study by economist Thomas Elam observed that ethanol increases food costs for the average family of four by just over $2,000 per year. So the increased food cost is actually multiples of the increased gasoline costs when we fill up our tanks, and families are truly hit.

Of course, the food cost goes up not only because of the direct effect of higher corn—and many of us consume corn directly—but corn is the principal feed for all livestock. So the price of meat and poultry is very much correlated to the cost of the feed, and we make that feed much more expensive than it needs to be because of the ethanol mandate.

There is another way in which this mandate is harmful to consumers and to families, and that is that it increases engine maintenance costs. The EPA acknowledges that ethanol is harmful to engines. They say: "Unlike other fuel components, ethanol is corrosive and highly water soluble." Gasoline is not. So gasoline doesn't have this physical property; it doesn't damage engines. But ethanol does. The moisture that is dissolved in ethanol is corrosive.

In fact, the EPA warns that fuel blends containing as little as 15-percent ethanol—which, by the way, this line is not. So gasoline doesn't have this physical property; it doesn't damage engines. But ethanol does. The moisture that is dissolved in ethanol is corrosive.

AAA warns that raising ethanol content—just raising it above 10 percent, which is where we are—will damage 95 percent of the cars that are on the road today. How can this possibly be good for a family to be systematically degrading the engines in their vehicles?

There are other ways in which this is damaging to our economy. I mentioned that part of the reason that food prices for families are higher as a result of the ethanol mandate is because corn is such an important source of food for livestock. Well, in fact, the Federal Reserve and the USDA estimate that the ethanol mandate alone has contributed to a 20- to 30-percent increase in corn prices, and that has had a terrible impact on livestock operations and the dairy industry.

It is also bad for American refineries. There are 137 oil refineries that operate in 28 States and employ thousands of people with good family-sustaining jobs, but because the oil refiner has to either blend in ethanol with the gasoline or they have to go out and pay a fine—a penalty, essentially—if they don't, it diminishes jobs in the refining sector. Again, this isn't just my opinion. I got a letter from the Philadelphia AFL-CIO business manager Pat Gillespie, and I will quote from the letter because he lays it out very clearly. He says:

Our resurrected refinery in Trainer, Pennsylvania, once again needs your intercession. The impact of the dramatic spike in costs of the RIN credits—

the system by which EPA forces the ethanol mandate—

from four cents to one dollar per gallon will cause a tremendous depression in . . . (our refinery's) bottom line. . . . Of course at the Building Trades, we need them to have the economic vitality to bring about the construction and development projects that our Members depend on. And the steel workers, of course, need economic vitality so they can maintain and expand their jobs with the refinery. . . . We need your help with this matter.

I completely agree. This is disastrous policy.

Just to summarize, corn ethanol—ethanol generally but corn ethanol in particular—It is bad for the environment, it increases air pollution, it raises costs for families to drive their vehicles and to put food on the table, and it costs us jobs. It is bad for the economy. Let's end this practice. It was well-intentioned at the time, but now it is clear it is doing harm, not doing good.

I will close on one other point. We in Congress, in Washington, should not be forcing taxpayers and consumers to subsidize certain industries at the expense of others. That is what is going on here. The magnitude of the consumption of ethanol is entirely driven by the mandate Congress has required the EPA to impose. That is why this is happening.

We use the power of the government to force consumers to pay more than they need to pay to drive their car and to buy their food. This makes no sense at all.

It seems to this Senator that a big part of what we are hearing on both sides of the aisle in this very unusual and raucous Presidential election cycle is voters who are disgusted with Washington. They don't trust Washington. They don't trust Washington. They don't have a very high opinion of Congress. Part of it is because they are convinced that Congress goes around doling out special favors for special industries, special groups, and the politicians who represent them. They are right, and this is an egregious example of that. It is a clear example where the taxpayer and consumer get stuck with the bill so as to benefit a select preferred industry that has a lot of political clout. It is outrageous. The American people are right to be angry and tired of this.

Mr. President, we should end the renewable fuel standard entirely. As I say, it started with good intentions, but the evidence is and there is no mystery anymore: This policy is bad for the environment, bad for families, bad for budgets, and bad for our economy. There is no reason we should be continuing this, and I urge my colleagues to support this and any other effort to completely eliminate the renewable fuel standard, and if we can't do that, at least take the 80 percent out that is comprised of the corn component.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. PERDUE). The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

SECOND AMENDMENT RIGHT TO KEEP AND BEAR ARMS
Mr. GRASSLEY. Mr. President, I ask unanimous consent to have printed in the RECORD a document titled "Just the FACTS" at the conclusion of my remarks.

Mr. President, the problem of gun violence is real, but too many of the proposed responses to this problem would not only represent unwise policy but would also violate a fundamental constitutional right—individual right to keep and bear arms.

What does this mean to you and to me as Americans? It means that the right to bear arms falls into the same category as our other most closely held individual rights: the right of free speech, the right of freedom of religion, and the right of due process of law. Basically, what I am saying is that one cannot separate out any one of the Bill of Rights or any of the other constitutional rights that come under the 14th Amendment, as an example. You can't separate the right to bear arms from those because, and this is not emphasized enough, the Second Amendment, the right to bear arms, is an individual, fundamental constitutional right.

Many of us have lived over decades, but it has been only within the last 5 to 8 years and in a couple of decisions that the Supreme Court has made that entirely clear, that it is an individual, fundamental constitutional right.

With that firm foundation, I want to straighten out some of the rampant misinformation that is used to advocate for stricter gun control. Correcting these myths is essential so that the issue can be properly deliberated and properly addressed. Unfortunately, many of these myths were reiterated over the past 2 weeks during prime time, nationwide Presidential media appearances.

First, let's debunk the quote "gun show loophole." Were you to click on your TV, pick up a newspaper, or read certain mailers, you would be left with the impression that if you buy a firearm at a gun show, you are not subject to a background check. In fact, all gun show commercial gun dealers require a background check. These commercial gun dealers—or, as they are called, Federal firearms
Licensees—typically make up the majority of the gun vendors at gun shows. Let’s be very clear. If someone goes to a gun show and at that gun show purchases a firearm from a commercial gun dealer, that individual or those individuals do not get to a background check, period. So then are these people we hear the President and others speak about who are not subject to a background check? If you are an individual and you want to sell your gun to another individual, you may do so, assuming you don’t know or have reasonable cause to believe that such person is prohibited from owning a gun. It is quite common sense that the government does not dictate where this sale takes place. It is peer-to-peer. You can sell your hunting rifle to your neighbors, and you can make that sale in your home, driveway, or parking lot. You can also make that sale to another individual at a gun show. That is what is referred to as a peer-to-peer transaction—simply two adults engaged in a personal transaction. Just as there is no background check required in your driveway, there generally is no background check required when that private, peer-to-peer sale happens to occur at a gun show. Clearly, this is a loophole in the jeoparistic sense of the word; this is simply an American lawfully selling their property to another without the Federal Government involved.

In this same vein, to hear the President discuss it, you would assume that these gun shows were lawless free-for-alls for felons to obtain their newest illegal weapon. In fact, local, State, and Federal law enforcement are often present at gun shows, both in uniform and covertly in plain clothes. These law enforcement officers monitor and intervene in suspected, unlawful firearm sales such as straw purchasing, attempted purchases by prohibited individuals, and the attempted sale of illegal firearms.

As the Washington Times reported last Wednesday, law enforcement arrests at gun shows hit new highs last year. I recently attended a gun show in Iowa, and there was a robust law enforcement presence. So I want to go on to another point beyond the supposed gun show loophole that I just showed isn’t much of a loophole.

The second point is that we have been told by President Obama, as recently as a couple of weeks ago, that firearms purchased on the Internet don’t require a background check. I have seen media reports to that same effect. Once again, this is a blatant inaccuracy and that is an inaccuracy that needs to be corrected. So that is why I am here.

An individual cannot purchase a firearm directly over the Internet. A gun purchaser can pay for a firearm over the Internet, but, if purchased from a firearm seller, the firearm must then be sent to a brick-and-mortar location. When the purchaser picks up the firearm, a background check is performed. Assuming the purchaser passes the background check, he or she may obtain physical possession of that firearm.

In addition, an individual cannot lawfully purchase a firearm on the Internet without a background check. If the firearm is a rifle or a shotgun, a resident may use the U.S. Postal Service to mail the firearm intrastate to another individual, but he may not do so if the item being purchased is a handgun. A handgun can only be delivered by an authorized carrier, and, as you can see, once you blow away the smoke and pull down the mirrors, the statement that there are no background checks on Internet purchases rings hollow.

A third point is that with great fanfare President Obama has stated unequivocally that firearms enforcement has been a priority with his administration. This is simply not true. That can be backed up with statistics.

The Obama administration chose to focus its criminal justice resources elsewhere rather than cracking down on illegal gun sales. Federal firearms prosecutions are down at least 25 percent under this President. In addition, he suspended successful programs specifically designed to thwart firearms offenses. Unfortunately, as has so often been the case with the Obama administration, the rhetoric just does not match the action. As I have repeatedly called for, we need greater enforcement of the existing law, which simply has not happened under this administration.

A fourth point, to set the record straight on the President’s statements, is that the no-fly list material is broad. It is not limited to the right to travel—beyond the Second Amendment rights to the terrorist no-fly list. As we all know in this body, the no-fly list is actually multiple lists generated in secret and controlled by the executive branch bureaucrats. The no-fly list is intended to thwart suspected terrorists by blocking travelers from flying. Flying is not a constitutional right like the Second Amendment is. So the people who are put on these lists are not given the chance to challenge their inclusion on those lists. However, it is blatantly unconstitutional to deny a fundamental constitutional right without any type of due process such as notice and the opportunity to be heard.

The fact that the President continues to support the use of the no-fly list relates to a fundamental right calls into question his repeated assurances that he fully supports the Second Amendment.

Given unprecedented Executive actions regarding sanctuary cities and a recent decision to enforce laws as enacted by this body, we should not be surprised at those statements. But let me state unequivocally that using a secret document—which by its nature and purpose will often be overinclusive or contain errors as a basis for denying Americans their Second Amendment right—is clearly unconstitutional.

The fifth point against the President’s position is that on multiple occasions the Obama administration has condemned semiautomatic weapons. So let us get that straight right here and now. As any gun owner knows, a semiautomatic firearm is simply a gun that shoots one round with each pull of the trigger. This encompasses the type of shotgun most often used for duck hunting and the type of rifle often used for target shooting. A semiautomatic firearm does not equate to the fabled assault weapon and, of course, it is not a machine gun. We should be concerned when this administration makes proposals on guns that fail to reflect knowledge of even elementary elements of their operation.

I have additional myths that need to be dispelled that I will submit—and I have had permission from the President to submit that—but I want to be mindful of other people’s times, and I now wish to respond directly to one of President Obama’s challenges.

So let’s talk for a moment about bipartisan efforts regarding gun control. Senator Durbin of Illinois, the second-ranking Democrat in leadership, and I are working on drafting a bill on which we hope we can reach agreement and introduce shortly, which prohibits all aliens—with the exception of permanent legal permanent residents and those who fall under a sporting exception—from acquiring firearms. In addition, our bill reestablishes residency requirements for those noncitizens attempting to purchase a firearm.

The bipartisan legislation we hope we can agree to introduce would close real and actual loopholes, such as those that currently permit refugees or asylees or those from visa-waiver countries to acquire firearms.

I look forward to the opportunity to work on this issue in a bipartisan manner. But if we are going to deliberate in good faith, we need to clear up the misconceptions and avoid erroneous rhetoric that seems to be dominating the news out there with all the
false positions and false interpretations of the law, which I have discussed in a few minutes with my colleagues.

So I am going to end where I started. The Second Amendment right to bear arms is a fundamental right, and any legislative or executive action under any President must start and finish with the recognition of the fact that the Second Amendment is as important as other amendments to the Constitution of the United States.

I yield the floor.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

**JUST THE FACTS**

The President’s Executive Actions on Firearms and Oron-a gun dealer.

Myth #1: Firearm purchases at gun shows do not require a background check due to the “gun show loophole.”

Facts:

When the President and others refer to the “gun show loophole,” they imply that there are not enough background checks at gun shows. As a result, much of the public has been misinformed and are led to believe that individuals who purchase firearms at gun shows are not subject to a background check.

In reality, there is no “gun show loophole.” If an individual wants to purchase a firearm at a gun show, the individual will be required to fill out the requisite federal firearms paperwork and undergo a National Instant Criminal Background Check System (“NICS”) background check.

The only firearm that are being purchased at gun shows without a background check are those being bought and sold between individuals, peer-to-peer, as opposed to buying a firearm from a firearms retailer. These private sales are sales that are different from those conducted at gun shows.

Under current law, an individual is permitted to occasionally sell, or all, of their personal firearms collection. These private sales, however, cannot be “engaged in the business” of selling firearms. “Engaged in the business” means they can’t repeatedly sell firearms with the principal objective of earning funds to support themselves. Some of the individuals who wish to sell a portion, or all, of their personal firearms collection do so at the show and might display their wares on a table. These “private table sales,” however, are private, peer-to-peer, sales and, therefore, do not require a background check. The President cannot change criminal law by redefining requirements for which sellers must conduct background checks. His new actions don’t do so and don’t claim to do so.

In a peer-to-peer, private firearms transaction, it is already illegal to sell a firearm to another individual if the seller knows or has reasonable cause to believe that the buyer is prohibited from possessing a firearm (felon, fugitive, illegal alien, etc).

Myth #2: Gun shows lack any law enforcement presence and are a free-for-all for felons

Facts:

Local, state, and federal law enforcement are often present both in uniform and/or covertly in plain clothes to monitor and intervene in suspected unlawful firearms sales such as straw purchasing, purchases made by prohibited individuals, including non-residents, and the attempted sale of any illegal firearms.

Myth #3: Individuals who purchase firearms on the internet are not subject to background checks.

Facts:

An individual cannot purchase a firearm directly from a seller over the internet and have that firearm shipped to them directly. An individual can pay for the firearm over the internet at websites and on-line sporting goods stores. The firearm, however, must be picked up from a federal firearms licensee (“FFL”) such as a gun store.

In many cases, this is the brick and mortar store associated with the website where the gun purchase was made. Once at the retail store, the internet purchaser must then fill out the requisite forms, including ATF Form 4473, which initiates the NICS background check process. Thus, an internet purchase of a firearm from a firearms retailer does not require a background check.

Individuals, from the same state, are able to advertise and purchase firearms from one another and use the internet to facilitate the transaction. Under current law, to sell or transfer a firearm to an individual who is out-of-state. Any internet sale, even between individuals whose home states would have to utilize the federal firearms licensee (“FFL”), such as a gun store, and the purchaser would be required to fill out the requisite paperwork and would undergo a background check.

Myth #4: President Obama’s January 5, 2016, executive action on gun control represents landmark change regarding gun control.

Facts:

With few exceptions, President Obama’s executive action on firearms is nothing more than rhetoric regarding the status quo. Many senators have long argued for better enforcement of current law, to sell or transfer a firearm to an individual who is out of state. Any internet sale, between individuals whose home states would have to utilize the federal firearms licensee (“FFL”), such as a gun store, and the purchaser would be required to fill out the requisite paperwork and would undergo a background check.

Myth #5: The Obama Administration has made firearms enforcement a priority.

Facts:

The Obama Administration has used its limited criminal enforcement resources to focus on clemency for convicted and imprisoned felons, the investigation of police departments, and on civil rights cases. The latter two categories represent important work, but the Department of Justice has not changed those priorities.

Myth #6: Mental health has nothing to do with gun control.

Facts:

People with certain levels of mental illness are not permitted to own guns. Many of the recent mass killings were committed by mentally ill individuals. One of the ways to prevent further mass shootings and violence committed with firearms is addressing the issue of mental health.

Background checks to prevent the mentally ill from obtaining guns can only work if states provide mental health records to the NICS system. Too many states have failed to do so. Many of the offenders are states with the most stringent gun control laws. For multiple years now, many members of Congress have repeatedly called for these states to pass legislation that would provide incentives for states to submit their mental health records for inclusion in the NICS database.

Myth #7: President Obama’s executive action on gun control will thwart criminals’ ability to obtain firearms.

Facts:

The President’s executive action regarding firearms is focused primarily on individuals who attempt to purchase firearms through the background check process. Criminals, however, obtain firearms in myriad illegal ways, including home invasions, robbery, trading narcotics for firearms, burglary of homes, vehicles, and businesses, as well as straw purchasing.

Myth #8: There is a general consensus in America that greater gun control is needed to prevent mass shootings in the United States.

Facts:

Despite the President’s statement to the contrary, polls have shown that the majority of Americans do not believe that stricter gun control would reduce the number of mass shootings in the United States.

The American public does not believe that making it harder for law abiding Americans to obtain guns makes America safer. In fact, polls have shown that a majority of Americans thinks the United States would be safer if there were more individuals licensed and trained to carry concealed weapons. A majority opposes re-imposition of the “assault weapons” ban.

Myth #9: The terrorist “no-fly” list is a proper mechanism to bar Americans from purchasing firearms. —President Barack Obama, January 5, 2016

Facts:

The no-fly list is actually multiple lists, which are generated in secret and controlled by executive branch bureaucrats. The Second Amendment right to bear arms has been determined by the U.S. Supreme Court to be a fundamental right. This puts the right to bear arms in our most closely guarded rights similar to the right to free speech and freedom of religion. It is unconstitutional to deprive an American citizen of their Second Amendment right without notice and an opportunity to be heard.

Myth #10: Gun retailers need to step up and refuse to sell semi-automatic weapons. —President Barack Obama, January 5, 2016

Facts:

There is nothing unlawful about a semi-automatic firearm. A semi-automatic firearm simply means that a round is discharged with each pull of the trigger. These include most shotguns used for waterfowl hunting and semiautomatically use for target shooting.

Mr. GRASSLEY. I suggest the absence of a quorum.
The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. COLLINS. Mr. President, I ask unanimous consent that the order for the question be suspended.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 3140, AS MODIFIED

Ms. COLLINS. Mr. President, I am pleased to join some of my colleagues today to speak about the key role wood plays in helping us to meet our Nation's renewable energy needs.

Last night an amendment that several of us offered was adopted by a voice vote. I thank the sponsors of that amendment who have joined with me—Senator KLOBUCHAR, Senator KING, Senator AYOTTE, Senator FRANKEN, Senator DAINES, Senator CRAPO, and Senator RISCH—all of whom worked hard to craft this important amendment.

There has been a great deal of misinformation, regrettably, circulated about the amendment, which I hope we will be able to clarify through a colloquy on the floor today. I know the lead Democratic sponsor of the amendment, Senator KLOBUCHAR, would like to speak on it and has an engagement, so I am going to yield to her before giving my remarks. I thank her for her leadership.

The PRESIDING OFFICER. The Senator from Minnesota.

Ms. KLOBUCHAR. Mr. President, I thank Senator COLLINS for her leadership and for her illuminating the rest of the Senate. Maybe not everyone has as many trees as we do, and biomass. I appreciate what she has done.

I was proud to cosponsor this bill and be one of the leads on it, with Senator KING. This amendment moves us forward in really recognizing the full benefits of the use of forest biomass as a homogenous energy solution. I also thank Senator CANTWELL and Senator MURKOWSKI for their work on this Energy bill and the inclusion of this amendment—an amendment that encourages interagency coordination to establish consistent policies relating to forest biomass energy.

We have often talked about how we don't want to have just one source of energy, whether hydro, nuclear—you name it. So we want to recognize the importance of this forest biomass energy and talk a little bit about it today.

I sent letters to the EPA and have spoken with administration officials, urging them to adopt a clear biomass accounting framework that is simple to understand and implement. Without clear policies that recognize the carbon benefits—and I will say that again: the carbon benefits—of forest biomass, private investment throughout the biomass supply chain will dry up and the positive momentum we have built toward a more renewable energy future will be lost.

Supporting homogenized energy is an important part in an “all of the above” energy strategy. Biomass energy is driving energy innovation in many rural communities. The forest industry in my State and those who work in that industry are already playing a significant role in the biomass energy economy. There is always room to do more.

I appreciate the discussions between my colleagues yesterday on the language of this amendment and am pleased to see the language of Senator BOXER’s help and others—found a solution that moves us forward. I know there is interest in continuing these conversations, and I look forward to doing so.

I thank Senator COLLINS.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, I thank the Senator from Minnesota for her leadership.

I, too, want to thank the two floor managers of this bill, the chairman, Senator MURKOWSKI, and her partner, Senator CANTWELL, for working so closely with us.

The fact is that biomass energy is a sustainable, responsible, renewable, and economically significant energy source. Many States, including mine, are already relying on biomass to help meet their renewable energy goals. Renewable biomass produces the benefits of establishing jobs, boosting economic growth, and helping us to meet our Nation's energy needs. Our amendment supports this carbon-neutral energy source as an essential part of our Nation's energy future.

The amendment, which was adopted last night, is very straightforward. It simply requires the Secretary of Energy, the Secretary of Agriculture, and the Administrator of the Environmental Protection Agency to jointly ensure that Federal policy relating to forest bioenergy is consistent and not contradictory and that the full benefits of forest biomass for energy, conservation, and responsible forest management are recognized.

It concerns me greatly that some have suggested that our amendment would somehow result in fundamental damage to our forests and the environment. Nothing could be further from the truth. Forests in the United States are owned by Federal agencies, managed, and climate science has consistently and clearly documented the carbon benefits of utilizing forest biomass for energy production. Moreover, healthy markets for biomass and forest products actually help conserve forest land and keep our working forests in this country.

Our amendment also echoes the principles outlined in a June 2015 bipartisan letter that was led by Senator MERKLEY and myself and was signed by 46 Members from both sides of the aisle. Our letter stated: Our constituents employed in the biomass supply chain deserve federal policy that recognizes the clear benefits of forest bioenergy. We urge you to ensure that federal policies are consistent and reflect the carbon neutrality of forest bioenergy.

In response to our letter, the administration noted that DOE, EPA, and USDA work together to ensure that biomass energy plays a role in America's clean energy future. That is precisely the importance of our amendment, to make sure that happens.

The carbon neutrality of biomass harvested from sustainably managed forests has been recognized repeatedly by numerous studies, agencies, institutions, and rules around the world. As forests grow, carbon dioxide is removed from the atmosphere through photosynthesis. This carbon dioxide is converted into organic carbon and stored in woody biomass. Trees release the stored carbon through decay, or are combusted. As the biomass releases carbon as carbon dioxide, the carbon cycle is completed. The carbon in biomass will return to the atmosphere regardless of whether it is burned for energy, allowed to biodegrade, or lost in a forest fire.

In November of 2014, 100 nationally recognized forest scientists, representing 80 universities, wrote to the EPA stating the long-term carbon benefits of forest bioenergy. This group weighed a comprehensive synthesis of the best peer-reviewed science and affirmed the carbon benefits of biomass. A literature review of forest carbon science that appeared in the November 2014 “Journal of Forestry” confirms that “wood products and energy resources derived from forests have the potential to play an important and ongoing role in mitigating greenhouse gas (GHG) emissions.”

We should not have Federal agencies with inconsistent policies when it comes to such an important issue.

I would like to yield to my colleagues from Maine Senator KING, who made this a bipartisan amendment when we offered it.
The PRESIDING OFFICER. The Senator from Maine.

Mr. KING. Mr. President, as usual, my senior colleague from Maine has outlined this issue exceptionally well and covered the important points. I wish to add and amplify a few.

The first thing I would say is that I yield to no person in this body in terms of their commitment to the environment, their commitment to ending our dependence upon fossil fuel, and our facing the challenge of climate change. This biomass discussion is a way of helping with that problem rather than hindering it. The important term in all of this discussion is the word "tree".

The issue we are facing now with climate change and with increased CO₂ in the atmosphere is because we are re-leasing CO₂. We are releasing carbon that has been trapped in the Earth's crust for millions of years, and we are adding to the carbon budget of the atmosphere.

Biomass is carbon that is already here. It is already in the environment. It is simply being circulated, and there is no net addition of carbon to the atmosphere because of the use of biomass. I have been in the renewable energy business now for more than 30 years and have worked in hydroelectric power on a large scale and wind power. So I have some background in this. A biomass plant typically burns fuel that would not otherwise enter into the economic stream of timber. It is often bark, mill waste, ends of logs, branches—the kind of thing that otherwise lies on the forest floor, dies and decays and releases carbon. There is no net addition of carbon.

To be intellectually honest, you have to say that burning it releases that carbon so much sooner than it would otherwise be released, but in the overall atmosphere we are talking about a renewable resource.

In New England and I suspect around the country—I know in Maine—there are substantially more trees in the forest today than there were 150 years ago because of the number of farms that have been returned to their natural state of forestry. That has given us an opportunity to develop an energy source that is a lot more safe and sustainable, and to encourage investment in working forests, and to support renewable biomass to create jobs and economic growth while meeting our nation's energy needs.

I know that when I had the pleasure to serve on the National Security Council, U.S. Department of Energy, and the Secretary of Agriculture, we wrote to support biomass energy as a sustainable, responsible, renewable, and economically significant energy source. Federal policies across all departments and agencies must remove any uncertainties and contradictions through a clear, unambiguous message that forest bioenergy is part of the nation's energy future.

Many states are thriving on renewable biomass to meet their energy goals, and we support renewable biomass to create jobs and economic growth while meeting our nation's energy needs.

The carbon neutrality of forest biomass has been recognized repeatedly by numerous studies, agencies, institutions, legislation, and rules around the world, and there has been no dispute about the carbon neutrality of biomass derived from residuals of forest products manufacturing and agriculture. Our constituents employed in the biomass supply chain deserve a federal policy that recognizes the clear benefits of forest bioenergy. We have similar coastlines. We have shellfish industries. We have timber industries. We have salmon runs. We have similar initiative systems and our largest cities are named Portland.

I know that when I had the pleasure to visit Maine—and I went there with my wife and children to visit friends from many walks of our two lives, my wife's life and my life—we went from town to town visiting these friends who moved to Maine. We picked up a newspaper and we felt quite at home in Oregon. The same initiatives were being done at that time in the State as we had on the front page back home.

This issue of biomass is close to our hearts in the forests of the Northeast and in the forests of the Northwest. When I first came to the Senate and the conversation was going forward about renewable energy, Senator Dorgan from North Dakota—now retired—said that his home State was the Saudi Arabia of wind energy. I heard Senator Reid from Nevada say Nevada is the Saudi Arabia of solar power. There was a county commissioner from Douglas County—the county I was born in— which has the largest concentration of Douglas fir trees, its enormous biomass area—who referred to how Douglas County can be the Saudi Arabia of biomass energy. I thought, with all these Saudi Arabsians in the United States, why are we still importing oil from Saudi Arabia? But indeed these efforts to develop an alternative to power from fossil fuels to a clean energy economy should include solar, should include wind, and should include biomass.
When I came to the Senate, I under-
took the project of helping the Envi-
nmental Protection Agency recognize
that you have to look at the life
process. You can’t simply look at the
moment of combustion. You can’t com-
pare burning in a biomass furnace or oil
in an oil furnace and say that is equiva-
 lent to wood being burned in a biomass furnace because,
indeed, as you take that biomass, that
wood, you are engaged in a life cycle
that involves bringing more carbon
out of the Earth and adding it to the
cycle of ground. Our colleague,
ANGUS KING from Maine, was refer-
ing to that difference earlier in his com-
ments.

It has been an effort to make sure our
government takes account of this
 significant contribution of forest bio-
mass. In the Northwest, the biomass is
the potential for a win-win as a renew-
able resource.

For our forest landowners, biomass can create incentives
for another value stream for forest land-
owners. By adding biomass, we can expand
our uses of wood. For our forest health, we thin the
trees. If they are good saw logs, we
just sell them. If they are not, we
burn them in the forest.

Change Office at USDA has reported
that increasing wildfires are transform-
ing our forests from forest to non-
forest use because trees are no longer there to sequester carbon. So if we can help prevent this, that is a ben-
ificial side effect of this overall effort on
biomass, to amplify the role of the
forest, not to remove them.

The most important example that
has been brought up as a concern that
doesn’t fit this model of conservation
or burning the byproducts is whether
entire forests might be ground up and
used to create pellets and so forth. I be-
lieve—and I certainly will be corrected
if I am wrong—that certainly is not the
typical way that biomass is used. The
framework in which this amendment is crafted is to ensure
improving the health of our forests and energy
and forest conservation.

I think this amendment sends a clear
signal to EPA that in many cases for-
est biomass, the carbon footprint of
burning them in a biomass furnace or oil in
an oil furnace is equivalent to wood being
burned in a biomass furnace. Indeed, as you take that biomass, that
wood, you are engaged in a life cycle
that involves bringing more carbon
out of the Earth and adding it to the
cycle of ground. Our colleague,
ANGUS KING from Maine, was referring
to that difference earlier in his com-
ments.

When EPA takes regulatory action,
that is the role of the Senate. It could
reflect the opportunities
where biomass is carbon neutral. In
fact, policies like the Clean Power Plan
should provide an incentive for forest
owners to keep their lands in forests.

The most important example that

ANGUS KING from Maine, was referring
to that difference earlier in his com-
ments.
Mr. LEAHY. Mr. President, the U.S. Senate is currently considering sweeping legislation to modernize the Nation’s energy sector. Despite its laudable goals, the amendment for working with other concerned Senators like myself on modifications to improve the amendment. I look forward to continuing working with them to ensure that the United States has a smart, sustainable, and scientifically backed policy for biomass energy.

Mr. LEAHY. Mr. President, I wish to speak on my amendment No. S.197, to increase the protection of our critical infrastructure in the electric sector from a debilitating cyber attack. I am pleased to have Senators MIKULSKI and Hirono join me as co-sponsors.

Critical infrastructure refers to entities that are vital to the safety, health, and economic well-being of the American people, such as the major utilities that run the Nation’s electric grid, the national air transportation system that moves passengers and cargo safely from one location to another, and the elements of the financial sector that ensure the $14 trillion in payments would not be delayed or otherwise routed through the banking system.

The underlying bill includes several provisions that I support to improve the cyber posture of the U.S. electric grid. These include giving the Secretary of Energy the authority to take action to protect the grid in the event of an emergency and establishing new programs to reduce vulnerabilities and improve collaboration among the Department of Energy, national labs, and private industry.

The underlying bill, however, makes no distinction between the vast majority of local or regional utilities and the very few entities that are so key to the electric grid that they could debilitating the U.S. economy and our way of life if they were attacked.

The Department of Homeland Security has identified the critical infrastructure entities at greatest risk of resulting in catastrophic harm if they were the targets of a successful cyber attack. While the entire list includes fewer than 65 entities across all sectors of the economy, it warrants our special attention because there is ample evidence, both classified and unclassified, that demonstrates the threat facing critical infrastructure, including our energy sector.

Indeed, the committee report accompanying this bill notes that one-third of reported cyber attacks involve the energy sector. The amendment I have filed to this energy policy bill would only affect those entities on the list that are already subject to the oversight of the Federal Energy Regulatory Commission, known as FERC.

Our amendment would require FERC to identify and propose actions that would reduce, to the greatest extent practicable, the likelihood that a cyber attack on one of these entities would result in catastrophic harm.

By “catastrophic harm,” the Department of Homeland Security means a single cyber attack that would likely result in 2,500 deaths, $50 billion in economic damage, or a severe degradation of our national security. In other words, if one of these entities upon which we depend each day were attacked, the results would be devastating.

The Director of National Intelligence, Jim Clapper, has testified that the greatest threat facing our country is in cyber space and that the number one cyber challenge concerning him is an attack on our Nation’s critical infrastructure.

His assessment is backed up by several intrusions into the industrial controls of critical infrastructure. Since
We have a lot of wind in Wyoming. In fact, the first wind turbines were put in and the rotors blew off until they discovered they couldn’t turn them into the wind at 80 miles an hour. But even though we have a lot of wind—I guess Wyoming could be called the Saudi Arabia of wind—the wind doesn’t blow, and we have found that sometimes the wind doesn’t blow, and we have found that sometimes the Sun doesn’t shine and sometimes the wind doesn’t blow when the Sun isn’t shining, and that creates a problem unless you have alternate fuels.

Coal is at the center of that regulatory battle. The war on coal is not only an affront to coal producers in my home State of Wyoming but to energy consumers across America. Let me explain how the administration’s war on coal affects Americans across the country with this chart.

According to the Energy Information Administration, 39 percent of the electricity generated in the United States was generated by coal in 2014. The only other energy source that comes close to coal for energy production is natural gas, at 27 percent. We need to ask ourselves: If we allow the administration to kill the coal industry, what energy source is going to take its place and provide our constituents with the energy they need? It is actually the only stockpileable resource we have.

This issue hits close to home for me because more than 8 percent of the country’s coal is produced in my home State of Wyoming. Actually, 40 percent is produced in my home county of Campbell County, WY. According to the National Mining Association, coal supports more than 27,000 jobs in my State. Now, 27,000 probably doesn’t sound like a lot in California, Washington, DC, New York, or even Texas, but that is 9 percent of our state’s workforce. Nine percent of our workforce works directly with coal and they are good-paying jobs. These jobs pay an average of about $81,500 a year. Multiply that by 27,000 jobs, and we are talking about billions. Let me be clear. This isn’t just an issue for Wyoming or other coal-producing States. The Wyoming Mining Association reported that in 2014, 30 States received coal from Wyoming’s mines.

The area depicted in red on this chart are the States that receive Wyoming coal. As some States don’t also receive electricity produced in Wyoming from coal. Those States include California, Utah, and Idaho. And, of course on this carbon issue, Wyoming is forced to account for the carbon that produces the energy these other States consume.

The second chart shows that if you represent Texas, Illinois, or Missouri, you should be worried about the coal industry because in 2014 each of those States received more than 10 percent of Wyoming’s coal. Kansas, Iowa, Kentucky, Arkansas, Oklahoma, and Michigan each got about 5 percent of Wyoming’s coal. Wyoming’s coal was also distributed to Nebraska, Georgia, Alabama, Colorado, Louisiana, Tennessee, Minnesota, Oregon, Washington, New York, and Arizona. If I didn’t list your State, don’t think the stability and success of the coal industry doesn’t affect you. Ten other States and foreign entities also received Wyoming’s coal.

All of these numbers and stats boil down to this: Most of America’s energy is powered by coal, and policies that affect the price of coal have an impact on industries and households across the country. They will cost jobs in our country and will cause people to have higher utility bills. Unfortunately, the administration is either oblivious or unconcerned with this vital economic consequence evidenced by the Department of Interior’s recent announcement that they will block most new Federal coal leases in order to conduct a programmatic environmental impact statement on coal leases that are shared for Federal revenue.

About 40 percent of our Nation’s coal is produced by the Federal coal leasing program. Under that program, which is managed by the Department of Interior, entities in private industry can purchase the right to lease and mine the coal mineral estate owned by the Federal Government. After a rigorous multiyear application and land-use planning process, lessees are given an opportunity to lease Federal land. Again, this is a rigorous, multiyear application process that can and does drag on for years. In return, those companies pay BLM a bonus bid, which is an upfront fee for the right to mine. Besides that, they also pay an annual fee for that right to produce coal, and they pay an additional royalty on the value of the coal after it is mined. Surface mines pay a royalty of 12.5 percent and underground mines pay a royalty of 8 percent. These revenues are shared between the Federal Government and the States in which the coal was mined.

This program, which began in 1920, has been a tremendously successful way to provide access to the Nation, provide jobs in places such as Wyoming’s Powder River Basin, where 85 percent of all Federal coal is mined, and it provides revenue to the government. According to the BLM—the Bureau of Land Management—the Federal coal leasing program has generated well over $1 billion a year for the last 10 years: $7.9 billion in royalties and an additional $4 billion in rent, bonus bid payments and other fees. Again, that is money that coal leasing earns for the Federal Government—a stark contrast to most Federal programs. That doesn’t even mention the taxes that are paid by the workers who mine the coal, but if we eliminate their jobs, then they are not paid by the Federal Government.

This administration has announced plans to halt new Federal coal leases while it takes years to study the value and efficacy of the program. This Department of Interior rule has the potential to economically devastate my home State of Wyoming and send energy prices around the country through the roof.
The BLM laid the foundation for this farce last summer when it staged a series of listening sessions. I went to the session in Gillette, WY, and based on the administration’s recent announcement, I don’t think the BLM was listening very closely. If they were, they would have known that American taxpayers are already receiving a fair return on coal resources.

One gentleman, who told the BLM his story, moved to Wyoming to be a coal miner, and his wish was to do a job about his job. He was worried that the job that has allowed him to raise three children will no longer exist if the BLM raises royalty rates.

The owner of a small business not directly related to the coal industry told her story. She was worried about the ripple effect raising royalty rates would have on Campbell County and the State of Wyoming. As a mom, she also told the BLM about the direct support coal companies provide her community. Social services agencies, community events, and youth activities. She didn’t want to see her kids lose that support.

The benefits she referenced are a reflection of the two billion tax dollars and fee revenues the State of Wyoming collected from the coal industry in 2014. This is money which the State critically relies on to fund things such as schools, highways, and community colleges across the State. Wyoming state lawmakers are going through a process right now to try to figure out how to make up for the lost revenue just from last year. They are making drastic budget cuts which we wouldn’t even consider here at the Federal Government. I mentioned the Gillette woman who is the owner of a small business that is not directly related to the coal industry. She said her business is down 20 percent. That is almost two-thirds less revenue than what she would have had, which means, of course, that it affects some other jobs in the community. So there is a huge ripple effect to all of this.

Despite these and dozens of similar stories, the administration announced that they need to shut down Federal coal leases and conduct a study to determine if taxpayers are getting a fair return on the coal resources that are already receiving a fair return on coal resources.

When it is part of the energy mix, it affects the other energy prices as well. As we debate energy policy reforms in the coming days, it isn’t just the fate of coal that should concern us. Interior’s Federal coal leasing review is another example of regulatory overreach aimed at driving fossil fuel industries out of business. The administration has also proposed a new methane flaring rule aimed at discouraging oil and gas leasing on Federal lands.

This is part of a broader pattern in rejecting rules such as the Clean Power Plan and the Waters of the United States, but the administration continues its regulatory war on energy. As we consider energy policy reforms, we need to make sure we are protecting the resources that have and can continue to power America, and that has to include coal.

I thank the Presiding Officer, and I yield the floor.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. MANCHIN. Mr. President, I ask to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MANCHIN. Mr. President, I rise today to join with the millions of Americans impacted by prescription drug abuse, particularly those in my home State of West Virginia, where 600 lives are lost every year to opioids. I believe the FDA must start taking prescription drug abuse seriously, and that will not happen without a cultural change in the agency.

The Presiding Officer and I are talking on this issue in the drug prevention caucus and addressing how opioids have affected both Virginia and West Virginia, and the effect the epidemic has had on all of America. We have seen too many examples of the FDA standing in the way of efforts to address the opioid abuse epidemic. If you look at this chart, you can see the rise in deaths over the last 15 years and what it has done to our country and our States. It is unbelievable and unacceptable. We have been able to face and cure every other epidemic in this country, but we haven't been able to face and cure this one out of sight and out of mind.

The FDA delayed for years before finally agreeing to reschedule hydrocodone. My first 3 years in the Senate were consumed by getting the FDA to come around on this important step. Since the change went into effect, we have seen a number of prescriptions for combination hydrocodone products, such as Vicodin and Lortab and has the capability of killing an individual with just two tablets. Can you imagine? Just recently, the FDA approved OxyContin for use as children as young as 11 years old. This decision means that Pharma is now legally allowed to advertise OxyContin to pediatrics under certain circumstances. We have seen this story before. We have seen the devastating impact of this type of advertising, and we have years of evidence that shows that drug use at an early age will make a child more likely to abuse drugs later in life. These decisions by the FDA are horrifying examples of the disconnect between the FDA’s actions and the realities of this deadly epidemic.

Leaders at the FDA, including the director of the division that oversees opioids, are now actively working against the Centers for Disease Control’s efforts to reform prescribing guidelines, which represents a reasonable, commonsense approach to help doctors take into account the very real and prevalent danger of addiction and overdose when prescribing opioids. We have found out there is very little education done. Doctors aren’t required to cover this as they go through medical school. Most will tell you they have less than 1 week of schooling for this.

That is why last week I announced that I will filibuster any effort to confirm Dr. Robert Califf. This is a good man with a stellar resume that I believe will just come from the wrong end of this crisis for which we have to make the changes that need to be made. That is all I have said: Give us someone who is passionate about the change. The change must come from the top of the FDA.

We need a cultural overhaul of the FDA. When we have the FDA fighting the CDC—the CDC is making recommendations for new guidelines of how drugs are prescribed and how we should protect the public, and the FDA is really taking the position that, no, what pharmaceuticals are putting out is really taking the position that, no, we need a cultural change, and that starts at the top.

Over the past week my office has been absolutely flooded with stories from West Virginians and their voices to be heard. And, as I said, we need to make this real, and it will not be unless I can bring to my colleagues the real-life stories of the tragedies that people are enduring because of the pharmaceutical business.

These letters have come from children who have seen their parents die from an overdose; grandparents who have been forced to raise their grandchildren when their kids went to jail; rehab, and the grief; and teachers and religious leaders who have seen their communities devastated by prescription drug abuse. These people need help.
from the FDA. They count on this regulatory committee—the Federal Drug Administration—to do what should be done to protect millions of Americans across the United States, as well as those who have been affected.

I am going to read a story and basically tell you about my life to my colleagues—an opportunity to see what happens in a daily situation in an abusive scenario. The first story I wish to read comes from West Virginia by the name of Haley. Haley lives in Princeton, which is in the southern part, and she is a teacher in Beckley, WV. She is married and has a baby who is about to turn 1. This is Haley's story:

Prescription drug addiction destroyed my childhood. Thanks to prescription drug abuse, I grew up much too quickly and still have trust issues today. My mom's one true love was Xanax and I will always come in second or after that, no matter what.

When I was in fifth grade, my mom went to rehab two hours away from me. My parents are divorced and my step dad worked on the road, so my grandparents and I were alone. We visited my mom on the weekends and I didn't really understand why she was there. None of it made any sense to me and I just wanted her back. One day, we received a phone call stating that she had checked herself out and we had no idea where she was for about 24 hours. This wasn't the first time my mom had successfully tried rehab and it would not be her last.

There were times when I would get home from school and have no idea where my mother was. I would either be with my grandma and I would have to drive around and search for her. We would eventually find her passed out at one of her "friends" houses.

There is one particular memory that traumatized me and is forever engrained in my memory. I was 10 years old when I found my mom. She was too high to even walk on her own. My 70-year-old grandmother and I had to virtually carry her to the car. When she got home, I took her shoes off so I could put her bare feet on my stomach with worry when I took off her shoe to find a sock completely soaked with blood. She had apparently stepped on glass and hadn't told anyone because she didn't want to get high on pain pills. This is something no one, especially an innocent 10-year-old, should have to deal with.

My 12th birthday was the worst birthday of my entire life. I was supposed to have a pool party, but my mom did not show up to pay for it, so my 16-year-old sister had to step in. There were only 4 drinks because my mom was supposed to handle all of that for me. When she finally showed up at the end of my party, equipped with her unbelievable excuses, bloodshot eyes, and wild hair, I was hurt, but I was mostly embarrassed that people felt so sorry for me. Everyone knew my mom was a drug addict. I was pitied by my grandparents. We would get together and then go into stores and steal ridiculous things like hair scrunchies, makeup, and whatever else she could get her hands on. I didn't know she was going to jail until two days before she left. She had been depressed and in her bed sick (probably going through withdrawal) for days. She finally told me that she would be going to jail the day after Christmas. Once again, I would be without a mom. She was in jail the remainder of my 9th grade year. I don't know how I passed the 9th grade. I failed almost every class except English and I would have failed that one too if it hadn't been for the amazing teacher who helped me overcome so much. My mom went to jail for stealing again while she was still my boyfriend. She had to bail her out of jail. I had a baby via C-Section less than a year ago. My mom and I were starting to have a relationship for the first time in my entire life, but drug addiction would soon ruin it for the millionth time. I was given pain medicine after having my baby and I was terrified to take it because of what I have lived through. I only took it when I absolutely had to, but I was in so much pain. My mom had just been to visit and I never thought to move my pain medicine because she is in my bedroom out of sight. The next day I was laying in bed with my two week old baby and I was having terrible pains due to my incision. I reached to the end of my pain medicine. When I opened the bottle, there was only one pill left. I had 8 pills when my mother came to visit and she took 7. My mom finally admitted to stealing medicine and I refused to talk to her for months.

In November, I received a phone call from my sister telling me the neighbor called and my mom was having a heart attack. When the paramedics arrived they couldn't find a pulse or a temperature. They flew her to the closest hospital, but I couldn't stay with her because her heart stopped. They found narcotics in her system and I will forever believe that years of using drugs is the reason for her heart attack. She spent a month in the hospital. I believe she may be drug free now, but I will never fully trust her. I can't. Each time I call and she doesn't answer, I picture her high somewhere stumbling around.

I could give endless anecdotes and examples of how drug addiction ruined my life, but I don't think I can adequately describe what prescription drugs robbed me of. The only thing worse than not having a mother is having a mother who chooses drugs over you. Something needs to be done in West Virginia, where the prescription drug abuse is only going to get worse. I spent a month in the hospital. I believe she may be drug free now, but I will never fully trust her. I can't. Each time I call and she doesn't answer, I picture her high somewhere stumbling around.

I am hoping we can all change the FDA's direction, that we can get somebody in there that will change the culture of the FDA that will protect us and fight for us and not for the business plan of pharmaceuticals.

Thank you, Mr. President.

I yield the floor to my good friend from Nevada.

The PRESIDING OFFICER (Mr. SCOTT). The Senator from Nevada.

Mr. HELLER. Mr. President, I rise today to discuss the bill before us.

Energy and mineral development has been one of the central pillars of the Nevada economy, even before it joined the Union. The discovery of the Comstock Lode transformed the State as miners rushed in and boom towns like Virginia City and Austin were born. Today, we are a world leader in mineral production while also at the forefront of national efforts to implement a 21st century "all of the above" energy strategy. The Silver State produces over 80 percent of the gold and nearly 25 percent of the silver mined domestically. Mining contributes more than 13,500 jobs in Nevada alone, adding $6.4 billion for our State's gross domestic product annually.

Nevada’s renewable energy resources are among the best our Nation has to offer. We have over 2,300 megawatts of renewable energy projects have come online, roughly enough electricity to power over 46,000 homes. In total, more than 33 percent of the State's total electricity generation comes from renewables.

Our State is not only leading the way on clean energy production, it is a hotbed for the research and development on energy efficiency and other alternative technologies that are critical to overcome our Nation's energy dependence. Nevada is de novo leader in the development of its battery gigafactory at the Tahoe Reno Industrial Center and Faraday Future's recent announce-ment to build its automotive manufacturing facility in North Las Vegas ensure that our State will be at the forefront of energy storage technologies and electric vehicles for years to come.

Energy is not only one of Nevada's but, overall, one of our Nation's greatest assets. But Congress has not enacted comprehensive energy legislation in a decade, so it is time to reform Federal policies to reflect the energy and natural resource challenges of the 21st century.
I commend the majority leader and the chairman of the Energy and Natural Resources Committee who have made energy policy modernization a focus for the 114th Congress. In our first week, we advanced the Keystone XL Pipeline legislation and energy efficiency in the final week of 2015, we enacted a tax deal which included important policies I fought for and which facilitated renewable energy production while lifting the crude oil export ban. And this week we are focusing on bipartisan Energy Policy Modernization Act.

I appreciate the hard work of the bill managers, Energy and Natural Resources Committee Chairman MURKOWSKI and Ranking Member CANTWELL, who have put the time in to bring this proposal to the Senate floor. My colleagues all have a wide range of ideas on energy and environmental policy, and often these debates can become bitterly partisan. So both Senators should be commended for approving a bill out of the Energy and Natural Resources Committee by a bipartisan vote of 18 to 4.

In the committee process, I worked with both Senators to incorporate a couple of my own bills focused on streamlining mine permitting and the exploration of geothermal resources, the Public Land Job Creation Act, S. 113, and the Geothermal Exploration Opportunities Act, S. 562, into this legislation. I look forward to working with my colleagues that without a domestic supply of critical minerals like gold, silver, copper, and lithium, they all would not be possible. Far too often we take for granted that we need these important resources to manufacture those technologies and devices that are now part of our everyday lives, such as our smartphones, our computers, and our tablets.

I have filed a variety of amendments aimed at spurring innovation, boosting job creation, increasing domestic energy and mineral production, and rolling back some of these burdensome regulations. One has already passed the Senate, and I hope the others will be included as well.

I have put forth two bipartisan proposals with my colleague from Rhode Island, Senator JACK REED, focused on energy storage. Technological developments in energy storage have the potential to be a game changer for the electric grid, benefiting the reliability and efficiency of the overall system. Our first amendment simply adds energy storage systems to a list of strategies that States should consider in an effort to promote energy conservation and the use of renewable energy. The second, which passed the Senate by voice vote on Monday night, enhances the Department of Energy’s ability to use existing research dollars to develop state of the art technology and make our electricity grid stronger and more reliable. Energy storage will play an important role in our Nation’s long-term energy strategy.

My Public Lands Renewable Energy Development amendment, which I filed along with Senators HAYWORTH, GARDENIER, RISCH, TESTER, WYDEN, UDALL, and BENNET, is an initiative I have been working on for many years. It recognizes that in our Western States, there are millions of acres of public lands suitable for the development of renewable energy projects, but uncertainty in the permitting process impedes or delays our ability to harness their potential. In a State like Nevada, where our land is controlled by Federal landboards, improving this permitting process is vitally essential.

Our amendment does just that. It streamlines and improves the permitting process for geothermal, wind, and solar energy on Federal lands so that the West can continue to lead the Nation in clean energy production.

To advance this amendment, Senator HAYWORTH and I had to drop one of the important components of the proposal—provisions that would repurpose revenues generated by these projects to ensure our local communities benefit and to support conservation projects that increase outdoor recreation activities such as hunting, fishing, and hiking.

In the West, where Federal lands are not taxable and outdoor recreation is an important part of our way of life, these provisions were key. I hope we can find a path forward for this concept in the near future.

While recent developments on battery storage, renewable energy production, and alternative fuel vehicles is exciting, I want to remind my colleagues that without a domestic supply of critical minerals like gold, silver, copper, and lithium, they all would not be possible. Far too often we take for granted that we need these important resources to manufacture those technologies and devices that are now part of our everyday lives, such as our smartphones, our computers, and our tablets.

I have worked with Chairman MURKOWSKI and others on comprehensive mining legislation over the past few years, and I believe it is key to our economy and our Nation’s security that those policies are part of this comprehensive package. I appreciate that our American Mineral Security Act is one of the titles of the bill that is now before the Senate.

One of the biggest issues facing domestic mining—not just mining but all natural resource development—is overly burdensome regulation. Our Nation is truly going to capitalize on our domestic production potential, we need to rein in the Environmental Protection Agency.

Outside of the IRS, the two Federal agencies that draw the most ire from my constituents are the EPA and the BLM. Under this administration, the EPA is continuing down a path of destroying the balance between appropriate environmental oversight and overarching regulations that lead to duplicative Federal rules. That is why I put forth an amendment that would block the EPA from finalizing one of their biggest attacks on domestic re-source production, a rule to impose new financial assurance fees.

If implemented, these requirements would further de-incentivize capital investment in the domestic mining industry. New Federal requirements would be duplicative of financial assurance programs already in place at both the State and Federal level.

The EPA has made it clear that their push on hard rock mining is the first of its plans to develop a list of crucial natural resources production, a rule to impose new financial assurance fees.

I commend the majority leader and the chairman of the Energy and Natural Resources Committee to bring to the attention of my colleagues the number of nominees in important foreign policy areas that have been acting for the Senate Foreign Relations Committee but have not been acted on by the floor of the Senate.
There are currently 15 nominees that have been recommended favorably by the Senate Foreign Relations Committee, and in most of these cases, they were unanimous votes in the Committee. I am confident to say that in each of these cases there has been no question of the qualifications of the individuals to fill these particular positions. We are talking about senior members of the State Department diplomatic team. We are talking about Ambassador in countries around the world, about people who have extremely important positions with regard to our national security. These positions are critically important to our country, and they have remained vacant in some cases for over a year. It has been a long period of time that we have not acted on these nominations.

The reason we have not acted on these nominations, quite frankly, is because there is a Member in the Senate, or more accurately, the Member of the Senate, who has put what is known as a hold on these nominations. What that means is that a Senator has indicated that he or she is going to object to the consideration of the nomination on the floor of the Senate. Usually done in order to get a little bit of attention on an issue, and it is my understanding that in each of these cases, these holds have nothing to do with the qualifications of the person for the position to be filled, but it is to give the Member an opportunity to help on other issues or to raise other concerns.

Here is the problem. In some cases these holds have been in place for over a year. In some cases we are talking about several months that a position has gone unfilled because of the hold.

How can we overcome that? We can overcome that by a Senator releasing the hold, allowing a nomination to come to the floor for a vote. In many cases it will be by unanimous consent, since there has been no objection raised, and we can move forward with the nomination.

Quite frankly, it is the majority leader—the Republican leader—who controls the agenda of the floor of the Senate. The majority leader can move to executive session, file a cloture motion, and if 60 Members of the Senate want to move forward with the nomination—and I expect that in each one of these cases we are probably talking about almost unanimous votes in the Senate for these nominations—we would pass a cloture motion. After the hours have passed, we would have an up-or-down vote on the nomination.

If the majority leader were to announce that we would have a cloture vote on a Thursday or Friday and we would stay in over a weekend in order to finish a nomination, which is typically the case here, we would get it resolved before we left for the weekend. As you know, we have been completing our work on a Thursday. There is plenty of opportunity to take up nominations. We have extensive periods of time that we are in State work periods. There are plenty of opportunities for us to take up nominations on the floor for votes. All we need to do is: Look, by this date certain, if we don’t have your answers, we are going to a cloture vote. It would certainly move a lot of these nominations.

This Senator thinks it is unacceptable that 15 of our positions right now are going unfilled because of holds by Members of Congress. I think we have a responsibility to act. I am talking about Ambassador OPEC, about the IMF. I am talking about Ambassadors to the Bahamas, Trinidad and Tobago, Mexico, Norway, and Sweden. I am talking about the U.S. representative to the IAEA. I am talking about the Under Secretary of State. I am talking about Ambassadors to Luxembourg and Burma. There is a whole list of nominations that have gone unfilled.

What does this mean for our country? Well, if you don’t have the Under Secretary of State for Political Affairs—that is the No. 4 person in the State Department. That is the person directly responsible for all the regional bureaus—for Europe, the Middle East, Central Asia, South Asia, South America, for our hemisphere, for Africa. We don’t have the principal person in the State Department confirmed for those regional concerns. That is a national security risk by not having a confirmed person for Under Secretary of State.

My colleagues are quick to be critical if they don’t believe the administration is responding quickly enough to certain concerns. For us not to respond for months on critical positions, to me, is compromising our national security.

But it goes beyond that. In bilateral relationships with countries, the fact that they don’t have a confirmed ambassador speaks volumes to that country’s belief in the U.S. and our ability to represent our constituents because our No. 1 person, our head of mission, has not been confirmed. So it affects our ability to strengthen bilateral relations, it affects our national security, and it is absolutely wrong.

I want to make one thing clear. It is not about the qualifications of the person. It is not about the qualifications of the individual. It is not about the qualifications of the individual. It is about the responsibility to act.

Now it is the responsibility of the Senate. That is why I call upon my colleagues who have made objections to withdraw those objections. They have been there for months. Let’s move forward. If they don’t, I would ask that the majority leader give us time for a cloture vote or at least announce a cloture vote. If we did that, I would think these nominations would comfortably move forward.

Some of my colleagues are on the floor, and they are going to talk about specific nominees. I will yield to them shortly, but if I might, I am going to raise 2 of the 15 today. I will do others shortly, but I am going to talk about two of the nominees and I could talk about a lot more.

I want to talk about Tom Shannon for Under Secretary of State for Political Affairs. I want to tell the American people more about the qualifications of Ambassador Tom Shannon and the important post for which he has been nominated.

The Under Secretary for Political Affairs is the State Department’s fourth-ranking official, responsible for the management of the six regional bureaus of the Department as well as the Bureau of International Organization Affairs. This is a tremendously important leadership post on key national security issues.

Ambassador Tom Shannon, a career member of the diplomatic corps—he is a career diplomat, serving under both Democratic and Republican administrations—is held in universal respect and esteem by his colleagues and has been nominated to this position. He is strongly supported by both Democrats and Republicans on the Foreign Relations Committee.

I have twice spoken on the floor to caution people more about the qualifications of Ambassador Shannon, and I am proud to again ask for his confirmation because few diplomats have served our Nation under both Republican and Democratic administrations with as much integrity and ability as Ambassador Shannon.

In his current role as Counselor with the Department, he provides the Secretary with his insight and advice on a wide range of issues. His previous service is formidable. He was our Ambassador to Brazil, was Assistant Secretary of State and Senior Director on the National Security Council staff for Western Hemisphere Affairs, and also...
served in challenging posts in Venezuela and South Africa, among others. He is a career diplomat, giving his life to the Foreign Service. As I said, he has served different Presidents for over 30 years. He should be confirmed today.

Mr. Shannon has been waiting on the floor of the Senate for confirmation for 125 days.

Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 375, which is Thomas A. Shannon, Jr.; that the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Utah, Mr. LEE. Mr. President, on behalf of the junior Senator from Texas, I object.

The PRESIDING OFFICER. Objec
tion is heard.

Mr. CARDIN. Mr. President, let me now bring to the Chair's attention John Estrada to be our Ambassador to Trinidad and Tobago. John Estrada has been waiting for confirmation on floor of the Senate for 217 days.

The Department of Trinidad and Tobago in the Caribbean has been used as a way station for drug smugglers who are shipping their products to the United States, which has caused steadily increasing violence and drug activity. We all talk a lot about War on Drugs. We need a confirmed ambassador if we are going to have all hands on deck in our campaign to keep America safe. In 2015, the State Department gave the island nation the crime rating of “critical.”

While such virtues are their own reward and fill these two vital diplomatic vacancies. Various reasons have been raised by him, both to colleagues and then publically. I was hopeful. I know negotiations are going on, so I always give room for that. But this is not related to these two countries or these two people. I think that is important to remember. Often, our fights are about a particular post because of the post or a particular name. That is nothing that this is, so I am hopeful that this gives us more room to negotiate.

The qualification of this highly accomplished nominee remains unchallenged, nor has any objection been advanced due to his experience for the post he is to take. He has twice been favorably reported from the Senate Foreign Relations Committee by unanimous support. I have expressed my disappointment and confusion as to why we have not moved forward with Mr. Estrada.

Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 379, John L. Estrada to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Trinidad and Tobago; that the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Utah, Mr. LEE. Mr. President, on behalf of the junior Senator from Texas, I object.

The PRESIDING OFFICER. Objec
tion is heard.

The Senator from Maryland. Mr. CARDIN. Mr. President, I acknowledge that Senator KLOBUCHAR is on the floor. I know she has nominations that she wants to bring to the attention of an acceptable nominee. He acknowledges Senator KLOBUCHAR for being on the floor. She has been very much involved in our nominations, particularly for Norway but also Sweden. I thank her for her leadership in bringing these nominations to the attention of the Senate Foreign Relations Committee and for the work she has done to advance these nominations. She has been steadfast in the need for us to act on these nominations. I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

Ms. KLOBUCHAR. Mr. President, I thank Senator CARDIN and Senator Corker for their leadership and their bipartisan work to get these nominees through the Senate, as well as Senator MCCONNELL and Senator REID, who have been supportive of getting this done.

In fact, both of the nominees I am going to talk about for the important allies of Norway and Sweden may be a little bit of a surprise to everyone in the Chamber. The 11th and 12th biggest investors in the United States of America come from companies in Norway and Sweden, which are two of our biggest allies.

What is going on here? Well, this is actually the third time I have come to the floor this year urging Senator Cruz to remove his hold on these two nominees so that the Senate can move forward and fill these two vital diplomatic vacancies. Various reasons have been raised by him, both to colleagues and then publically. It was hopeful. I know negotiations are going on, so I always give room for that. But this is not related to these two countries or these two people. I think that is important to remember. Often, our fights are about a particular post because of the post or a particular name. That is nothing that this is, so I am hopeful that this gives us more room to negotiate.

So what is going on here? Well, Norway has been without a confirmed ambassador for 859 days. There was an original nominee who did not work out, was withdrawn by the administration. Then this new nominee was put in and went through the committee without a problem, unlike the first nominee. It still remains that when you are in Norway—and a lot of Norwegians know about this—you haven’t had an Ambassador from the United States of America for 859 days. You have ambassadors from Russia, China, but not from the United States of America. In the case of Sweden, it has been 468 days since the President nominated Azita Raji to be ambassador—again, someone who came through our committee without controversy. It is past time to get these nominees confirmed.

We need a U.S. Ambassador in Norway who is deeply committed to strengthening the relationship between our two countries. Sam Heins is our nominee. He is from Minnesota. He is the right person for the job, in addition to the qualifications. That is nothing that this is, so I am hopeful that this gives us more room to negotiate.

Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 386, Sam L. Heins to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Kingdom of Norway; that the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Iowa, Mr. BURKHARTZ. Mr. President, on behalf of the junior Senator from Missouri, I object.

The PRESIDING OFFICER. Objec
tion is heard.

The Senator from California. Mr. CARDIN. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 387, Azita Z. Raji to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Kingdom of Sweden; that the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Texas, Mr. BACHUS. Mr. President, on behalf of the junior Senator from Texas, I object.
leader, and a former business leader. She served as a member of the President's Commission on White House Fellowships, director of the National Partnership for Women and Families, and a member of the Bretton Woods Committee, an organization that supports international financial institutions.

These are qualified nominees, but you don’t have to take my word for it. Here is what Senator Tom Cotton, a Republican colleague of the Presiding Officer’s, said about Sam Heins and Azita Raji.

I believe both [nominees] are qualified and we have significant interests in Scandinavia. My hope is that both nominees receive a vote in the Senate sooner rather than later.

He said this in part because for a while he had a hold. He resolved those issues. Senator Cotton has said he thinks these two nominees are no problem. As we know, the other Republicans on this committee have not raised any objections. They are right. We have significant interests in Scandinavia, and leaving these key positions vacant is a slap in the face to Sweden and Norway, which are two of our best economic and military allies.

In a New York Times op-ed, former Vice President Walter Mondale—himself of Norwegian descent—highlighted the U.S. national security interest in confirming these nominees, saying: “[I]n a time of dangerous international relations, one that we work with friends and allies, using all the tools of diplomacy.” Vice President Mondale understands that now is not the time to forsake a 200-year-old diplomatic relationship.

Norway and Sweden share a vital security partnership. Norway is one of our country’s strongest and most dependable international allies, a founding member of the NATO alliance, and its military works with the United States. This is key to my colleagues who care about the aggression of Russia.

Norway works with us in standing up to Russia’s provocations in the Ukraine and in countering ISIS, the spread of violence, and Islamic extremism. May I say that Norway actually has a portion of its border that it shares with Russia.

Norway is also playing an important role in addressing the Syrian refugee crisis, with one to which I take in as many as 25,000 refugees this year. It has already provided more than $6 million to Greece to help respond to the influx of refugees seeking a way to enter Europe.

I would also add from a military standpoint that Norway recently purchased 22 more fighter planes—22 more fighter planes, bringing their total to over 50—from Lockheed Martin, based in Senator Cruz’s district in Fort Worth, Texas. That is where the planes are being built, and they are worth nearly $200 million apiece. That is what Norway is investing in the United States. They deserve an ambassador.

Sweden, like Norway, plays an important role in our national security. Sweden is a strong partner in our fight against ISIS, in our attempts to curb North Korea’s nuclear program, in supporting Ukraine against Russian aggression, and in promoting global democratization. Sweden is also on the front lines of the Syrian refugee crisis. More than 1,200 refugees seek asylum in Sweden every day, and Sweden accepts more refugees per capita than any other country.

All of us on both sides of the aisle have talked about the importance of a strong Europe during this very difficult time. Yet every other major nation in Europe has an ambassador except for Sweden and Norway.

So I ask my friends and colleagues on the other side who are not obstructing these nominations to help us work this out with Senator Cruz because this has gone on for far too long. This isn’t a joke. These are two major allies. We also have economic relationships. As I mentioned, Norway represented the fifth fastest growing source of foreign direct investment in the United States between 2009 and 2013—that is in the world—and is the 12th largest source of foreign direct investment in the United States overall. Maybe they are too quiet about it and people don’t realize it. We would never think of blocking an ambassador to England or to France, but right now, the ambassadors to these two countries are being blocked.

There are over 300 American companies with a presence in Norway. By not having an ambassador in Norway, we are sending a message to one of the top investors in the country: Sorry, you are not important enough to us to have an ambassador in your country. But all the other major nations have an ambassador. In October, as I mentioned, they fulfilled their commitment by buying all those fighter planes from the State of Texas, from Lockheed Martin.

Norwegian Defense Minister Espen Barth Eide said Norway’s F-35 purchase marks “the largest public procurement in Norwegian history.” It has been 30 years since Norway ordered new combat planes, and instead of choosing a European manufacturer, whom did they choose? They chose a manufacturer in the United States, right in Texas. Do you think those other European countries don’t have Ambassadors in Norway? They do. I hope Senator Cruz and his friends are listening to this right now because they chose to buy those planes from the United States, right from his home State of Texas.

Sweden, like Norway, is also one of the biggest investors in the United States. Sweden is the 11th largest direct investor in the United States. Swedish foreign direct investment in the United States amounts to roughly $56 billion and creates nearly 330,700 U.S. jobs. The United States is Sweden’s fourth largest export market, with Swedish exports valued at an estimated $10.2 billion. Sweden, like Norway, deserves an ambassador.

Scandinavian Americans are understandably frustrated by the fact that Senator Cruz is obstructing these nominees. As the Senator from a State that is home to more Scandinavian Americans than any other State, I know it because I hear it every day. I hear it from people across the country, and more importantly, I hear it from the Foreign Minister and others in countries who are waiting to get an ambassador.

So, again, we have an ambassador in France, we have one in England, and we have one in Germany. We have an ambassador in nearly every European nation but not in these two key Scandinavian countries.

There is really no doubt about the important relationship between our country and Norway and Sweden. We need to confirm Sam Heins and Azita Raji immediately.

I do appreciate the support of nearly every Republican Senator for these nominations, the support of the Chairman of the Foreign Relations Committee, Senator Corker, the great leadership of Senator Cardin, the leadership of Senator Reid and Senator McConnell on these issues, and the leadership of my colleague Senator Franken whom we will hear from shortly.

It is time to get these done.

I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 263; that the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Utah.

Mr. LEE. Mr. President, on behalf of the junior Senator from Texas, I object.

The PRESIDING OFFICER. Objection is heard.

Ms. KLOBUCHAR. I note that Senator Lee, as I assume he did with the other objections, was making this objection on behalf of Senator Cruz and that, secondly, that was the Ambassador to Norway whom I asked consent for.

I now ask unanimous consent for the Ambassador to Sweden.

I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 148; that the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Utah.

Mr. LEE. Mr. President, on behalf of the junior Senator from Texas, I object.
Mr. FRANKEN. Mr. President, that is too bad. There is no one else in this body who believes that Sam Heins shouldn’t be Ambassador to Norway or that we shouldn’t be sending an ambassador to Norway, and/or that Azita Raji wouldn’t be perfect to be Ambassador to Sweden. This is really a shame. It is another sad moment, frankly.

Let me talk a little bit about Sam Heins. Sam is from Minnesota, home of more Norwegian Americans than any other State. I think we have more Swedish Americans, as well, than any other State. Norway is an important ally, and it is another sad moment, frankly.

Mrs. SHAHEEN. Mr. President, I am here to join my colleagues because I share the concerns they have expressed so eloquently about the failure of this body to act on the nominees whom they have been talking about. But the other nominees, particularly the 27 nationals from Minnesota who are pending on the floor of the Senate—these nominees are not being held up due to concerns about their qualifications or their experience. As my colleagues have said, they are being held up for political reasons—political reasons that are often wholly unrelated to the nominee, and in most cases they are being held up by just one Member of this body.

I find it particularly ironic that, in many cases, they are being held up by a Member of this body who is out on the campaign trail, campaigning for President. He is not here dealing with the facts of this nomination. I don’t believe he is not here to fighting to address the national security of this country by making sure that we confirm these nominees. So I am disappointed that, once again, we see my colleague from Utah here on his behalf to object to our efforts to move forward with these unanimous consent requests for Tom Shannon, John Estrada, Azita Raji, and Samuel Heins.

As Senator CARDIN noted, I want to begin with Ambassador Shannon, because Ambassador Shannon would fill the one vacancy at the Department of State where the Senate has been waiting 398 days—over a year. He had his confirmation hearings before the Foreign Relations Committee, and now he has been waiting 98 days for the full Senate to act on his nomination.

We had a hearing this morning before the Foreign Relations Committee, and the Oregonian—Ambassador Shannon is clearly qualified for the job. He is a career Foreign Service officer. He has served with distinction in five administrations—two Democratic and three Republican. He was nominated for this position in September. He had his confirmation hearing in October. He was unanimously approved by the Senate Foreign Relations Committee, and now he has been waiting 98 days for the full Senate to act on his nomination.

There isn’t much I can add to the outrage and eloquence of my colleagues from Minnesota, Senator KLOBUCHAR and Senator FRANKEN, who talked about their frustration at the holdup in confirming Azita Raji, who has been waiting 398 days—over a year—to be Ambassador to Sweden; Sam Heins, who has been waiting 265 days to be Ambassador to Norway.

Again, I would go back and point to the Foreign Relations Committee, where one of the issues that our witnesses testified to was the importance of working with our Scandinavian allies as we look to combat Russian aggression. Here we are. And I said: So, what does it mean to Sweden and Norway that we have held up the nominees to be Ambassadors to those two countries—one for over a year and one for almost a year? And they said: It sends a very bad message to Europe, at a time when Europe is challenged, that we don’t care what is going on in Sweden and Norway.

In 1914, Norway, a NATO ally, scrambled their F–16 fighters 74 times to intercept Russian warplanes. They are there on the frontlines helping to fight Russian aggression. Where are we in the Senate? We can’t even confirm the Ambassador to Norway because we have one person in this body who doesn’t care enough about the national security of this country to be here to confirm these nominees. That is not acceptable.

I also want to talk about two other nominees whose qualifications are unquestioned. Yet they remain unconfirmed. Brian Egan is the President’s nominee to represent our country for reasons unrelated to his qualifications. This is unfortunate, and I think it doesn’t care enough about the national security of this country to be here to confirm these nominees. That is not acceptable.

Mr. Egan’s qualifications to hold this position are clear. He began his career as a civil servant and government lawyer in the office of Secretary of State Condoleezza Rice. He subsequently was a personal advisor to the Secretary of State and the Secretary of State on all legal issues, domestic and international. This role includes assisting in the formulation and implementation of the foreign policy of the United States and promoting the development of legal and institutions as elements of those policies. It is something that is very important, especially as we look at some of the countries that are being threatened now by Russian aggression—Ukraine, Georgia, and Moldova.

The PRESIDING OFFICER. Objection is heard.

Mrs. SHAHEEN. Again, that is disappointing. Again, it is unfortunate that somebody who has served so honorably in both Republican and Democratic administrations is being up for reasons totally unrelated to his qualifications and to the job he would do at the Department of State.

UNANIMOUS CONSENT REQUEST—PRESIDENTIAL NOMINATION

I know that many Republicans in this body are as outraged as we are about the holdup. I hope they will act with us to move these nominees. One of those people is still being held up, this time by the Banking Committee, which has refused to schedule a vote on the nomination of Adam Szubin to be the Treasury Department’s Under Secretary for Terrorism and Financial Crimes. This position leads to policy, enforcement, regulatory, and intelligence functions of the Treasury Department, is responsible for disrupting the lines of financial support to international terrorist organizations, proliferators of weapons of mass destruction, narcotics traffickers, and other actors who pose a threat to our national or foreign policy. This position is critical, as we look at legislation that we are talking about taking up next week with respect to sanctions on North Korea, with respect to continued sanctions on Iran, on Russia, on China, and on actors who are out there. Mr. Szubin is extremely well qualified for this position. He has served in both Republican and Democratic administrations.

He was nominated 294 days ago. Yet even Banking Committee Chairman Shelby called Szubin “eminently qualified” during his September confirmation hearing. The fact that the committee has not held a vote and the Senate has not confirmed him lessens his ability to influence our allies and to undermine our enemies around the world, which is what we want to happen. If we are worried about our ability to enforce sanctions, if we are worried about the national security of this country and one of the weapons that we have to use to protect this country, then we ought to be confirming Adam Szubin.

It is very disappointing that my Republican colleagues continue to object and seem to be standing in the way of confirming Adam Szubin here on behalf of Senator Cruz from Texas, objecting to moving forward. Even though I understand that he is going to object, I am going to put forward another unanimous consent motion because I think we need to come back here every day from now until the end of this session and ask unanimous consent to move forward on these nominees because it is unacceptable that we are still here at this time without confirming these people.

Mr. President, I ask unanimous consent that the Senate proceed to executive session and the Banking Committee be discharged from further consideration of PN971, the nomination of Adam J. Szubin to be Under Secretary for Terrorism and Financial Crimes; that the Senate proceed to its consideration and vote without intervening action or debate; that if confirmed, the nomination be placed on the calendar, and that no further motions be in order to the nomination; that any statements related to the nomination be printed in the Record; that the President be immediately informed of the Senate’s action, and the Senate then resume legislative session.

The PRESIDING OFFICER. Is there objection?

The Senator from Utah.

Mr. LEE. Mr. President, on behalf of the senior Senator from Alabama, I object.

The PRESIDING OFFICER. Objection is heard.

Mrs. SHAHEEN. Again, it is very disappointing that the objection has been made, this time on behalf of the Senator from Alabama, who is here, so it is disappointing that he is not on the floor to talk about what his objections to Adam Szubin are. I believe that refusing to confirm an eminently qualified person is a profound disservice not only to these Americans who have sacrificed to serve this country but to the national security of the United States.

I call on the majority leader to schedule a vote on these nominees and other pending national security nominees to let the Senate do its job at a time when the world is facing national security challenges on a number of fronts. When nations are looking to the United States for leadership, we cannot afford to sideline ourselves by failing to confirm these important nominees.

I yield the floor.

I suggest the absence of a quorum.

Mr. PETERS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

PLINT, MICHIGAN, WATER CRISIS

Mr. PETERS. Mr. President, I rise today to urge my colleagues on both sides of the aisle to come together as we move forward and help the people and the children living in the city of Flint, MI. Nearly 2 years ago, an unelected emergency manager appointed by Michigan’s Governor changed the city of Flint’s water source to the Flint River in an attempt to save money while the city prepared to transition to a new regional water authority.

After switching away from clean water sourced from the Detroit Water Authority, Flint residents began to receive water from the Flint River, long known to be contaminated and potentially very corrosive. The result of the State government’s actions was and continues to be absolutely catastrophic. Flint families were exposed to lead and other toxins that will have lasting effects for generations. The ultimate cost of this misguided, dangerous decision will not be known for decades but we now have a chance to begin to make it right.

Last week, Senator STABENOW and I introduced an amendment that would, one, provide water infrastructure funding for Flint; two, create a Center of Excellence to address the long-term public health ramifications of water exposure; three, forgive Flint’s outstanding loans that were used for water infrastructure that has now been damaged by the State’s actions; and four, require the EPA to directly notify consumers instead of going through State and local regulators if their drinking water is contaminated with lead.

We have spent the last week working with Senator MURKOWSKI and Senator CANTWELL to find common ground and find a path forward to provide some relief to the people of Flint as we consider this bipartisan energy legislation. These discussions are ongoing. They are happening as we speak now. But now is the time to use procedural rules to get to the bottom of what has happened in Flint and to ensure that it never happens again.

Throughout the United States history, when a natural or manmade disaster strikes, the Federal Government has stepped in to help those in need. Hurricanes, superstorms, earthquakes, floods, and a fertilizer plant explosion—those types of activities or incidents all across the Nation have received Federal assistance as communities come together to rebuild.

While the cause of this crisis and the ultimate responsibility to fix it lies with the State Government, we need to bring resources from all levels of government to bear on the unprecedented emergency that we face. This is why I urge my colleagues to work together to make a down payment on the years of rebuilding and healing that Flint needs.

I was in Flint earlier this week, and while volunteering with the Red Cross to deliver bottled water from house to house, I heard directly from impacted residents. Months after the public became aware of the depth of this crisis, families still have questions: Can I use my shower? When will the water be safe? Will the pipes ever get replaced? These are all important questions to answer, and they require straightforward, transparent answers.

Who will stand up for the children of Flint? These children have been impacted the most by this crisis and through no fault of their own. I know we all have priorities that we care about in this Energy bill, but I simply cannot agree to move forward on action on this bill until we deal with Flint and help Flint rebuild to provide safe, clean drinking water.

This should not be a Republican or a Democratic issue. Clean water is, quite simply, a basic human right. Let’s come together and show the American people that when a crisis hits any city in this country, we will stand with them.
America is a great country, and it is
great because at times of difficulty, we
all stand together as one people.
Mr. President, I suggest the absence
of a quorum.
The PRESIDING OFFICER. The clerk
will call the roll.
The legislative clerk proceeded to
call the roll.
Mr. HATCH. Mr. President, I ask
unanimous consent that the order for
the quorum call be rescinded.
The PRESIDING OFFICER. Without
objection, it is so ordered.
TRANS-PACIFIC PARTNERSHIP AGREEMENT
Mr. HATCH. Mr. President, later
today, at around 5:30 p.m. DC time,
U.S. Trade Representative Michael
Froman and representatives from 11
other countries will meet at a cere-
mony to sign the Trans-Pacific Part-
nership, or TPP, Agreement. It is no
secret that the TPP Agreement has the
potential to do a lot of good for our
country.
Taken as a whole, the 12 countries
involved in this agreement had a com-
bined GDP of $23.1 trillion in 2012, near-
ly 40 percent of the world’s total econ-
yomy. In that same year, our goods and
services exports to TPP countries sup-
ported approximately 4 million jobs here
in the United States.
According to the International Mone-
tary Fund, the world economy will
grow by more than $20 trillion over the
next 5 years and nearly half of that
growth will be in Asia. This agreement,
if done right, will give the United
States a distinct advantage in setting
standards necessary to gain congres-
sional approval. I have expressed those
concerns many times here on the floor
and elsewhere. I won’t go into any
more detail about them today. Instead,
I want to talk about what will happen
after the agreement is signed.

Even though there is a signing cere-
mony in New Zealand today, that is
not the end of the process for TPP in
the United States. In fact, in many
ways, we are really just beginning.

In the coming months, we will have
ample opportunity to debate the merits
of each provision of this agreement and
to consider how it will impact workers and job creators in our
country and how it will affect the
health of our economy.

Today I will focus on the process by
which Congress will consider and de-
bate this agreement. I want to do so
in part because I believe it is important
that our people—including Members of
Congress, the administration’s stake-
holders, and the media—have a full un-
derstanding of how this is going to
work. I also believe that when a trade agree-
ment is concluded or signed, the pun-
dicts, commentators, and lobbyists in
this town immediately jump to one
question: When will Congress vote on
it? I get asked that question almost
every day. While I have offered my own
opinions and occasional speculation about when would be the best time to
have the vote, the fact of the matter is
that don’t know when the vote will take place and no one else does ei-
ther.

As we all know, last year Congress
passed and the President signed legisla-
tion requiring my office, the promotion author-
yor, or TPA, and setting out a series of
timelines for Congress to consider and
eventually vote on signed trade agree-
ments. While I am quite sure that in-
terested parties and observers have al-
ready pore over the text of the TPA
statute to add up all the statutory
timelines and have tried to calculate
the exact date when Congress will vote
on the agreement, that exercise is un-
likely to yield an accurate result. Let
me take a few minutes to explain why
that is the case.

Under the TPA process, there are
a number of milestones, checkpoints, and
associated timelines that begin at the
outset of negotiations, long before any
agreement is reached. With regard to
TPP, we have gone through several of
those already. President Obama has de-
termined—despite some concerns ex-
pressed by a number of sources—to
take the next step in the process and
sign the agreement.

Under the TPA statute, once an
agreement is signed, the President has
90 session days, and only Congress can
implement the agreement.

As we all know, last year Congress
passed and the President signed legisla-
tion requiring my office, the promotion author-
yor, or TPA, and setting out a series of
timelines for Congress to consider and
eventually vote on signed trade agree-
ments. While I am quite sure that in-
terested parties and observers have al-
ready pore over the text of the TPA
statute to add up all the statutory
timelines and have tried to calculate
the exact date when Congress will vote
on the agreement, that exercise is un-
likely to yield an accurate result. Let
me take a few minutes to explain why
that is the case.

Under the TPA process, there are
a number of milestones, checkpoints, and
associated timelines that begin at the
outset of negotiations, long before any
agreement is reached. With regard to
TPP, we have gone through several of
those already. President Obama has de-
termined—despite some concerns ex-
pressed by a number of sources—to
take the next step in the process and
sign the agreement.

Under the TPA statute, once an
agreement is signed, the President has
60 days to provide Congress with a de-
scription of changes to U.S. law that he
believes were made under the TPP
deal. That is one of the more specific
deadlines in the law. That 60 days is a
maximum time period imposed on the
administration, not on Congress.

Assuming the agreement does in fact
get signed today, that information
must arrive no later than April 3. On
top of that, the statute requires the
International Trade Commission—or
ITC—to compile and submit a report on
the like-kind equivalent of the signed
trade agreement. That report must be
completed within 105 days—another
specific deadline of the signing date.
For a deal signed today, that deadline
is May 18.

So far I have just talked about dead-
lines or maximum time periods for
compiling and submitting specific doc-
uments and materials, but once again
those maximum timelines are imposed
on the administration, not on Con-
gress. Whatever the ITC produces, the
President’s description of legislative
changes and the ITC’s economic anal-
ysis, the administration is required to
provide to Congress the final text of
the agreement and a detailed plan on
how they intend to implement it. The
exact date and timing by which the ad-
mistration has to submit the final
text of the agreement is not set out in
the statute. Under established prac-
tices, the timing of that submission,
like the rest of the process, is generally
determined after close collaboration and consultation with leaders in Congress.

However, the TPA statute is clear
that the final text of the agreement and
the detailed administrative plan must be provided to Congress at least—
and those two words are very impor-
tant—at least 30 days before formally
submitting legislation to implement the agreement.

This is one of the more important
timelines in the statute, and it notably
provides a floor, not a ceiling. It sets a
minimum timeframe to ensure Con-
gress has at least—there are those two
words again—30 days to review all nec-
essary information and documents be-
fore the implementing legislation is
formally submitted to Congress.

I would like to point out that this
minimum 30-day window is a new re-
quirement. We included this require-
ment for the first time in the most re-
cent TPA statute to provide increased
transparency and ensure adequate con-
sideration and debate in Congress.

There are many additional steps that
take place once the President has set
out the required information and before
the implementing bill is formally sub-
mitted, and those steps each take time.

First, Congress, in consultation with
the administration, has to develop a
draft implementing bill for the agree-
ment. Then the committees of jurisdic-
tion will hold hearings to examine both
the agreement and the draft legisla-
tion. Following those hearings, another
very important step occurs: the infor-
mal “mock markups” in the Finance and
House Ways and Means Commit-
tees. Most people call this process “the
mock markup.” The mock markup—
which once again occurs before the
President formally submits the trade
agreement to Congress—is similar to
any other committee markup. The
committee reviews the draft legisla-
tion and has votes on amendments, if
any are offered. If the Finance and
Ways and Means Committees end up
with different versions of the draft im-
plementing bill, they can proceed to a
mock conference to work out the de-
tails and reconcile any differences.

The mock markup process is well es-

dablished in practice and is an essential
part of Congress’s consideration of any
trade agreement. It is the best way for
Congress to provide direct input—com-
plete with vote tallies and on-the-
record debates—to the President to
demonstrate whether the imple-
menting bill meets the criteria set out
in the TPA statute and whether there
is enough support in Congress for the
agreement to pass.

After those steps are taken, a final
implementing bill may be introduced
in the House and Senate. Only after the
final implementing bill is introduced is
Congress under any kind of deadline to
take place within 90 session days. You
will notice the word “session.” Of

course, in this case, I am using the word
in a different context. The vote doesn’t
have to occur within 90 calen-
day. It must take place within
90 session days, and only Congress can
decide when it is and is not going to be in session. Long story short, no one should be under any illusions that because the TPP is being signed today, an up-or-down vote on the agreement is imminent or that our oversight responsibilities are at an end.

If history has taught us anything, it is that this process can, and often does, take a very long time to complete. In fact, it is not an exaggeration or even all that remarkable to say that it can take 30 years to go from the time the agreement was signed, which is what is happening today with the TPP, and the time the clock started ticking for a vote in Congress. Our trade agreement with Peru took 533 days or about a year and a half. Our agreement with Bahrain took the entire year. Of all of these, while significant in their own right, were bilateral agreements and pale in comparison to the size and scope of the Trans-Pacific Partnership.

The closest parallels to the Trans-Pacific Partnership we have in our history—and they are not really that close at all—are the North American Free Trade Agreement, or NAFTA, and the Dominican Republic-Central America Free Trade Agreement, or CAFTA, both of which took more than 10 months. Once again, that wasn’t 10 months between the signing day and the vote. That was 10 months between the day the agreement was signed and the introduction of the implementing bill, which triggers a required-fluid timeline for a vote in Congress.

Of course, none of these timelines for previous trade agreements are all that illustrative because the TPP is nothing like them. By any objective measure, the TPP is a historic trade agreement without a comparable precedent. Its approval would be a significant achievement. That is all the more reason to ensure it gets a full and fair consideration in Congress, however long that process takes. All of us—on both sides of the aisle, on both sides of the Capitol, and on both ends of Pennsylvania Avenue—should be careful when we talk about timelines and deadlines for votes.

I am quite certain the President wants to get a strong TPP agreement passed as soon as possible. I personally share that goal, but Congress has a history of taking the time necessary to consider and pass trade agreements, and the process set out under TPA demands that we do so. Despite a number of claims to the contrary, Congress does not rubberstamp trade agreements, and we will not do so in this case. The agreement cannot be ratified in the process. With an agreement of this significance, we must be more vigilant, more deliberate, and more accountable than ever before. We need to take the necessary time to carefully review the agreement and engage in a meaningful dialogue with the administration.

If that occurs and if the administration is prepared to engage with our TPP partners to address new concerns, I am confident the TPP agreement can be successfully approved by Congress. That may take more time than some would like, but the process of achieving favorable outcomes in international trade is a marathon, not a sprint. There are no short cuts. To get this done, we have to do the work and lay a strong foundation in Congress.

As I have said many times, the TPP is an extremely important agreement, and we need to get it done, but given that importance, we need to focus more on getting it right than getting it done fast.

Mr. President, millions of Americans depend on coal energy to heat their homes, power their electronics, and keep their businesses running. Coal is an integral part of this nation’s energy portfolio. It accounts for nearly one-third of U.S. energy production and generates half of all our electricity today. Quite literally, coal keeps the lights on, but the Obama administration’s war on coal could pull the plug on an industry essential to our energy needs.

America’s coal miners have no greater antagonist than their own President. Ever since President Obama took office, he has pursued a radical effort to crush the coal industry. He has reversed the administration’s recently announced decision to halt coal leasing on Federal lands is just the latest assault in a calculated campaign to cripple the coal industry. The President’s moratorium on new coal leases undermines our ability to produce one of the least expensive and most reliable fuel sources at our disposal. The long-term consequences of this rule will be disastrous not only for coal companies and all of their employees but for any industry that depends on coal for its energy needs.

Beyond the economic costs of this extraordinary action, consider the human toll. The U.S. coal industry directly employs more than 130,000 people. These individuals are more than a mere statistic. They are real people with mortgages, car payments, and children to feed. They are honest men and women who rely on this livelihood depends on the future of coal.

Sadly, the President’s moratorium puts their jobs in danger. As the junior Senator from Wyoming observed, the administration’s action effectively hands a pink slip to thousands of hard-working individuals across the Mountain West who work in coal production.

As Members of the legislative branch, we have a constitutional duty to check Executive overreach. With the amendment I have introduced, we have the opportunity to rein in the President’s actions and protect hard-working American families from overly burdensome Federal regulations.

My amendment requests that the authority of Congress in this matter by prohibiting the Secretary of the Interior from halting coal leases on Federal land without congressional approval. It also requires the Secretary to begin leasing Federal assets immediately pursuant to the Mineral Leasing Act of 1920.

If the President wishes to enforce a moratorium on coal leasing, she must first provide a reasonable justification for doing so. To that end, my amendment requires the Secretary to submit to Congress a study demonstrating that a moratorium would not result in a loss of revenue to the Treasury. The study must also examine the potential economic impacts of a moratorium on jobs and industry. Once the House and Senate have had the opportunity to review this study in full, the Department of the Interior may suspend coal leasing on Federal lands if and only if Congress approves the action.

Mr. President, my amendment not only protects middle-class Americans from harmful government regulations, it also rightly restrains the President and his abuse of Executive power by restoring authority to the duly-elected Members of Congress, not unelected bureaucracies. I strongly urge my colleagues to support this amendment as we continue consideration of the legislation at hand.

Mr. President, I suggest the absence of a quorum.

Mr. President, millions of Americans depend on coal energy to heat their homes, power their electronics, and keep their businesses running. Coal is an integral part of this nation’s energy portfolio. It accounts for nearly one-third of U.S. energy production and generates half of all our electricity today. Quite literally, coal keeps the lights on, but the Obama administration’s war on coal could pull the plug on an industry essential to our energy needs.

America’s coal miners have no greater antagonist than their own President. Ever since President Obama took office, he has pursued a radical effort to crush the coal industry. I strongly urge my colleagues to support this amendment as we continue consideration of the legislation at hand.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Ms. STABENOW. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

FLINT, MICHIGAN, WATER CRISIS

Ms. STABENOW. Mr. President, I want to talk again about the complete disaster, the catastrophe that has befallen a community in Michigan called Flint, MI, through no fault of their own.

We assume that when we turn on the faucet, we can make coffee, take a shower, make breakfast, take care of our children or our grandchildren, and that we are going to have safe, clean water. That has been a basic right in America. If you own a business, a restaurant, you assume you are going to be able to turn on the water and make the food and serve your customers. If you are a barber, you can turn on the
faucet and clean water comes out. That is basic in our country.

For 100,000 people in Flint, MI, the dignity of being able to turn on a faucet and have clean water has been ripped away. It started 20 months ago. They went to their doctor. They were told the water was safe. Finally, we are told it was not safe. People told them that somehow this brown water that smelled was safe—clearly not.

We now know that about 9,000 children under the age of 6 have been exposed in some cases to astronomical lead levels. There was one story about a home that was tested where the lead levels were higher than a nuclear waste dump. How would you feel if that were your house and somebody told you your children had been exposed to that? I can only imagine. I know how I would feel.

A little while ago I met with some pastors from Flint who are here desperately trying to get beyond this. They don’t want partisanship; they don’t want political fighting; they just want some help. They said: We are not interested in the back-and-forth of all this; we just want clean water, and we want to be able to provide good nutrition for these children who are already impacted.

The scary thing about this lead is that it stays in your body forever. I am learning more about lead than I ever wanted to know, and one of the things we know is that it does not go away. There is no magic pill. It is nutrition, so you have to give them more iron and milk and calcium and vitamins. There is a whole range of things I am working on now. I am grateful for the support from the Department of Agriculture to help us do that.

We have too many children—if anyone saw Time magazine—we have children with rashes, babies, people losing their hair. I met with pastors, and after that I met with another group of citizens from Flint: moms who are trying to figure out a way to avoid mixing this water with their baby formula. I had been told by the Michigan State department of WIC that they were giving ready-to-feed formula, and I just met with a group of moms who said that was not true.

We are talking about children whose brains are being developed and right now whose futures are being snatched away. They didn’t cause it. Their moms didn’t cause it. Their dads away from them. They didn’t cause it. We can debate who that is. I am happy that was not true.

Their moms didn’t cause it. Their dads didn’t cause it. Others caused it, and we can debate who that is. I am happy to have that discussion. Right now I just want to help those people.

I want people to see the people of Flint. They have not been seen or heard on this issue for almost 2 years. The folks who were supposed to care, who were supposed to see them, didn’t. We have a chance to say to them: We see you. We hear you. We know that you are American, that you have a right, if there is a catastrophe in Flint, to have the same sense of urgency, of support that we give to other things, such as a fertilizer explosion in West Texas, where we brought in millions of dollars, or hurricanes in Texas and South Carolina—emergency spending, I understand. We all know that something can happen beyond the control of citizens, and they look to us for leadership.

I know we all have other issues around aging pipes. We all have infrastructure issues, and frankly, we should be addressing those. There are very specific proposals to address water and sewer infrastructure, and I support those. I want to do what we can, and hopefully this will serve as an impetus for that, but nowhere in America do we have an entire city’s drinking water system shut down from usage.

We have other situations in other parts of Michigan. I am not asking—although I would love to provide help in all the cities in Michigan. I understand that is a broader issue we have to address together. But this is about a catastrophe, a crisis, something that we do emergency spending on when there is a situation where we see lead levels in some parts of this community that are higher than toxic waste dump.

Even in areas now where it is OK, we have small businesses—it just breaks your heart. Downtown Flint has been doing a great job of rebuilding the downtown. Everyone focuses on the exciting things in Detroit, but Flint also has done great things, bringing great restaurants downtown. Even when folks invest in their own water system so they are absolutely sure their water is safe, people won’t come in because now it is Flint, MI. Nobody believes any of the water is safe. It is now a joke: If you go to Flint, don’t drink the water. So we have businesses closing. We have a community collapsing that is hard hit, and the bottom-line help they need is to fix the pipes.

Senator Peters and I are not suggesting that it is entirely a Federal responsibility. In fact, it is a joint responsibility. In fact, we would argue that most responsibility is on the State than the Federal Government. But we do have a shared responsibility to step in and help and give some immediate help to be able to get this going. That is what we are asking for.

Up until yesterday afternoon, we thought we had a bipartisan solution. I appreciate the work that has been done by the chair and the ranking member. We thought we had found a source to pay for it. Even though we don’t always pay for other emergencies, we found a way to do it. We go to the Congressional Budget Office. We find there are a couple of technical things that stop over procedure, over bureaucracy and procedure.

I know that when we did a transportation bill, we waived every single point of order because we wanted to do it. I wanted to do it. I supported it. But now when we are talking about helping an important community in the State of Michigan be able to get some help out of a disaster, all of a sudden, no, there are technical procedures and reasons. I don’t buy it for a second. I don’t buy it for a second. When we want to help Americans, we help Americans. That is what we do. It is our job to do those things.

Of the things we now find such an insult, such a slap in the face—I don’t know if this means that folks aren’t—we are still trying to work this out. Mr. President, and I am hopeful that we will so there can be an energy bill. But now there is an amendment that has been filed to pay for helping Flint by taking dollars away from new development of technologies for automobiles—something Senator Peters and I have been champions of. Back in the Energy Act we got a provision in, when we raised CAFE standards, to support companies to create that new technology here in America so the jobs wouldn’t go overseas, they would be here. It is work that has a real direct impact on bringing jobs back from other countries.

Senator Cassidy and I have been working on a provision to expand that because of trucks because they are getting the CAFE standard increased and so on. I had a commitment and we had a commitment to actually do that on the floor, to get that done, but now, all of a sudden, the money from that is being proposed to pay for fixing the drinking water system in Flint.

Flint is the home of the automobile industry. Flint, MI, is where much of this started, where the middle class started, where the auto industry started. General Motors is still there, although they won’t use the water because it corrodes their auto parts. So they won’t use the water.

But now we are hearing in an amendment for the people of Flint: Well, you get some money. You can either drink the water and have safe water or you can have a job.

Well, that is an insult. I personally feel it is an insult. It is being done to just jam us and trying to embarrass us—that we don’t care about the people of Flint because we are not willing to spend money from a new technology source that is being used to create new jobs.

I don’t buy it. That is certainly not going to be getting support. When we are trying to work in good faith to get this done, I am amazed that this would be offered, which is clearly just an effort to jam us.

If I knew where we are, I am still a very positive person. I tend to spend most of my time working behind the scenes to get things done—I am very proud of that—and so does my colleague Senator Peters. We are people who like to get results. We are not into demagoguing about this. Lord knows it is ripe for it. We want to do something that will help people who need help.
So we are going to continue to do that. We are going to continue to work to try to do that. We are not going to stop, and we are not going to support moving forward until we have something that is a reasonable way that we can tell the people of Flint that we have done something to help them.

At this point in time, I can’t look at this child or his mom in the face—or any other children or parents—and not tell them we did everything humanly possible to be able to make sure we could do it as quickly as possible to stop using bottled water and be able to actually give their kids a bath, cook for them, and have the dignity of what every one of us has—the gift of clean water, which is a basic in the United States, or should be.

So we are meeting, and we are doing everything we can. We have agreed to cut in half the original request we have asked for. We have agreed to a structure proposed by the Republican majority. We have said we are going to be flexible here, but we are not willing to walk away from Flint. We will not walk away from Flint. Too many people in the State of Michigan have done that for too long, and we are not going to do that. We are going to continue to do everything we can to fix this problem.

If clean water in America is not a basic human right, I don’t know what is. I hope in the end we are going to be able to stand up and say in a bipartisan basis that this is what all we are asking for—that we actually do something to fix this problem.

I see that face and the face of other children every night before I go to bed. Every morning when I get up I think about what is happening this morning, what is happening tonight, what is happening tomorrow in Flint. We are going to do everything we can to make sure other people remember and are willing to step up and treat them with the dignity we expect they deserve as American citizens.

Thank you, Mr. President.

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. GARILENE). The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WYDEN. Mr. President, I come to the floor today to talk about the Energy bill and, particularly, a very important and missing part of the Energy bill. But before I turn to that subject, I want to particularly note, with our colleague Senator STABENOW on the floor this afternoon, that I think she is doing extraordinary work on behalf of Flint and the people of Flint. I commend her and also her colleague Senator PETERS for trying to tackle this issue.

It seems almost unconscionable that in this age, when there is all this information and technology at our fingertips, a community is put at risk the way Flint has been put at risk. The idea that innocent children would suffer this way is why it is so important that we move now to address this issue. This is urgent.

There are questions we deal with in the Senate that if we take another few months or a half a year even, Western civilization isn’t going to exactly change—climate change. News from Michigan has said is that what we know about youngsters—and particularly brain development—if we don’t get there early and we don’t get there quickly, we play catchup for years and years to come. Everything we know about neurological development. My friend knows that my wife and I are parents of small kids. We are so lucky they are healthy and have what a lot of youngsters in Flint aren’t going to have. The kinds of problems that my colleague has brought to light here.

I saw one report in the news—it is almost beyond comprehension—that a State nurse told a Flint patient, “It’s not a few IQ points. It is not the end of the world.” The idea that a health professional—who I guess has been in a number of the national publications—just highlights how important it is that this Congress move, and move now.

My colleague and Senator PETERS, who is also doing a terrific job on this, have indicated there are some procedural and constitutional questions for the Finance bill on which my colleague serves so well. I want her to know I am with her and the people of Flint every step of the way—not just this week and this month. This is going to be a challenge that is going to go on for some time at least, so I appreciate what my colleague is doing. I am with her every step of the way.

Mr. President, I turn now to the Energy bill before us. I also want to commend the chair, Senator MURKOWSKI, and the ranking, Senator CANTWELL, who have put together a bipartisan bill in the Energy Committee, which is something I know something about because I was the chair of the committee. I think my chairmanship began and ended before we had the opportunity to work more directly with the Presiding Officer, the Senator from Colorado. I look forward to working with him in the committee and very much appreciate our colleagues putting together this important package.

If there is one backdrop to this debate, it is the extraordinary challenge of climate change. In order to meet that challenge and beat back the peals of a daunting challenge that has alarm bells, there are going to have to be some serious changes in energy policy. The legislation in this bipartisan bill moves in that direction, the details of which I intend to get into in a minute.

I do want to first discuss a part of this bill that frankly is missing. It is missing to this debate. That is because the reality is the heart of America’s energy policy is in the Federal Tax Code. The last big energy tax proposal to become law passed in 2009. According to the National Oceanic and Atmospheric Administration, 5 of the 7 hottest years in recorded history have come since then. On the books today is an outdated, clumsy patchwork of energy taxes that in my view is anti-innovation and nothing short of an insidious, incomprehensible policy that does our country a disservice at a time when we have these great challenges.

There are 44 different energy tax breaks, and they cost about $125 billion each decade. Some industries—the oil and gas industry in particular—have some certainty about their taxes with permanent provisions. The fact is, renewable energy sources don’t have that certainty. Some technologies get a lot of money. Others get none. It is a disjointed system that has far outlasted its sell-by date, and it is ripe for simplification.

The amendment Senators CANTWELL, BENNET, and I submitted replaces this tax quilt of investment breaks, and I am very concerned about subsidies, and I am very concerned about that as well. The amendment we will be offering cuts the $125 billion pricetag in half. So when colleagues say we ought to be cutting back on tax subsidies, that is exactly what this proposal does. It replaces wasteful tax rules with a new, simple group of incentives that have just three goals: cleaner energy, cleaner transportation, and greater energy efficiency. Gone would be the system where oil companies get a direct deposit out of the taxpayer account each year while expired renewable incentives just sort of hang in limbo. For the first time, fossil fuel-burning power plants would have a real reason to get cleaner by investing in high-tech turbine or carbon-capture technology. So that means everybody benefits by getting cleaner. Everybody in the energy sector—renewables, fossil fuels industries, everybody gets the incentive to be cleaner under the amendment I am offering.

The amendment is all about harnessing the market-based power of the private economy to reward clean energy, promote new technologies, and mitigate climate change. My view is this Congress ought to be doing everything it can to fight the steady creep toward a hotter climate. When we have legions
of scientists lining up to warn the American people about the dangers of climate change, and when we have policymakers, business leaders, and investors worldwide saying that clean energy is the 21st century gold rush, this is a bold energy policy transformation. The proposal, with Senators HIRSCH and CANTWELL, ought to become law.

This may not happen in the context of the Energy Policy Modernization Act. I think it will, and I understand the rules of the Senate, but I am very much looking forward to working with my colleagues to build support for this proposal in the days ahead. In my view the lack of tax provisions in this legislation is unfortunate. They ought to be in there. Tax policy is right at the heart of energy policy, but it certainly doesn’t undermine my support for a great deal of what is in the overall package. That includes several provisions I authored and my colleagues and I on the Energy Committee included.

One focuses on geothermal energy. It is a proposal that is all about bringing the public and private sectors together to figure out where geothermal has the most potential in getting the projects underway. Another proposal in the package is the Marine and Hydrokinetic Renewable Energy Act, which says that with the right investments and innovations, our oceans, rivers, and lakes ought to be able to power our homes and contribute to the low-carbon economy. Note those words because we talk a lot in the Energy Committee about these issues. My view is there is an awful lot of bipartisan support for a lower carbon economy in this country, particularly one that grows jobs in the private sector, and this legislation does that.

In addition to promoting low-carbon sources of energy, the legislation will help communities be significantly more energy efficient. It will spur the development of a smarter electric grid that cuts waste, stores energy, and helps consumers save money on their utility bill. Finally, it will permanently reauthorize the Land and Water Conservation Fund, and that in my view is a win-win for the rural communities of my State and rural communities across this country. The Land and Water Conservation Fund brings more jobs and more recreation dollars to areas that need an economic boost, and it ensures that future generations of Americans are going to be able to enjoy our treasures for years and years to come.

I noted my concern about help for the city of Flint. I think it is so important that in the days and months ahead, when we come back to talk about important public health legislation—because that is really what this is, a public health crisis—I hope what we will say is we made a start, we made a down payment, but it is important to just delay moving ahead to address these enormous concerns that the families and the children of Flint are dealing with this evening. We have to ensure that this Congress takes action on this public health crisis quickly. I am committed to working with colleagues on both sides of the aisle, and as a member of both the Finance Committee and the Energy Committee, we will have the necessary duties to do it. I think we need to make this bill bipartisan and bicameral as quickly as possible.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. LEE). Without objection, it is so ordered.

CLIMATE CHANGE

Mr. WHITEHOUSE. Mr. President, the Senate is still at work crafting a package of energy legislation that can earn the support of a broad majority and potentially become this body’s first comprehensive energy efficiency legislation since 2007.

This is my 12th weekly call to arms to wake people to the duty we owe our constituents and future generations of Americans, not only to unleash the clean energy solutions that will propel our economy forward but also to stave off the devastating effects of carbon pollution.

I commend Energy Committee Chairman MURKOWSKI and her ranking member Senator CANTWELL for bringing us a bipartisan bill that builds upon some of the best ideas of the energy efficiency legislation championed not long ago by Senators SHAHEEN and PORTMAN. According to a report assessing the emissions reductions related to Shaheen-Portman done by the American Council for an Energy-Efficient Economy, the cumulative savings of these provisions would reach around $100 billion over the years 2014 to 2030, along with a reduction of about 650 million metric tons of carbon dioxide emissions over that 15-year period.

While those are welcomed reductions, they are a fraction of what we expect just from the clean energy tax credit extensions that were included in the end-of-year omnibus. Those 5-year incentives for wind and solar will yield cumulative savings of about 1 billion metric tons of CO2. And even then, we are still far from what we need to do to stem our flood of carbon pollution into the atmosphere and oceans.

Last year, the ranking member of the Energy and Natural Resources Committee, Senator CANTWELL, offered an ambitious legislative vision for growing our clean energy economy while tackling the growing climate crisis. Her Energy bill outlines achievable reductions in carbon pollution. It would repeal oil subsidies and level the playing field for clean energy. Estimated carbon reductions under her plan would be 34 percent below 2005 levels by 2025, which would help us achieve our international climate commitment. Our goals in the legislation now before us should be just as ambitious.

Of course, the big polluters always shout that any steps to reduce emissions will invariably hobble the economy. They have done this while they are sitting on an effective subsidy every year, just in the United States, of $700 billion, according to the International Monetary Fund. It really takes nerve to complain while sitting on that big of a public subsidy.

In the bill before us, I was glad to add an amendment with my colleague from Idaho, Senator CRapo, with the bipartisan support of Senators RISCH, BOOKER, HATCH, KIRK, and DURBIN, to strengthen the development of advanced nuclear energy technologies in partnerships between the government and the national labs and the private sector. The Holy Grail here is advanced reactors that could actually consume spent fuel from conventional reactors and help us draw down our nuclear waste stockpile.

I know that many of my Republican friends have supported commonsense climate action in the past. Senator MCCAIN ran for President on a strong climate change platform. Senator COLLINS coauthored an important cap-and-dividend bill with Senator CANTWELL. Senator KIRK voted for the Waxman-Markey bill in the House. Senator FLAKE has written an article in support of a carbon tax that reduces income taxes. And there are more. So I hold out some hope, but it is hard.

There is a whole climate denial apparatus that helps manufacture doubt about any action. Industry players controlling this machinery use a well-worn playbook—the same tactics employed by the tobacco industry and the lead industry: Deny the scientific findings about the dangers of their product; mislead the public. So this is why I took part in the investigations that are now ongoing into the motives of the scientists they oppose, and exaggerate the costs of taking action. They tend to look only at the cost to them of having to clean up their act. They tend never to look at the cost to the public of the harm from their product. If accountants looked at only one side of the ledger like that, they would go to jail.

In each case, tobacco, lead, climate change, and other sophisticated campaigns of misinformation were used to mislead the public. So this is why I have submitted an amendment declaring the sense of the Senate disapproving corporations and the front organizations they fund to obscure their role that deliberately cast doubt on science in order to protect their own financial interests and urging the fossil fuel companies to cooperate with investigations that are now ongoing into what they knew about climate change and when they knew it.
I have also pressed to have the political contributions of these same polluters made transparent to the American people. The Supreme Court’s awful Citizens United decision flung open the floodgates of corporate spending in our elections, giving wealthy corporate interests the ability to clobber, perhaps even more important, to threaten to clobber politicians who don’t toe their line.

My Republican colleagues have refused to shine the light on this spending, so since that amendment failed, Americans will remain in the dark about who was trying to influence their elections and how.

The Koch brothers-backed political juggernaut, Americans for Prosperity, has openly promised to punish candidates who support curbs on carbon pollution. The group’s President said if Republicans support a carbon tax or pollution. The group’s President said if Republicans support curbs on carbon emissions, they would “be at the sidelines of the process.” He implied that voters would punish candidates who support curbs on carbon emissions and, regrettably, it is an idea the Republicans have over and over again supported in the past. But now that dark money has become the Republican Party’s life support system, all the opinions have changed.

Well, I believe fossil fuel money is undermining our democracy, just as their carbon emissions are polluting our atmosphere and ought to be reduced to shine a light on that dark money. In a nutshell, we have been had by the fossil fuel industry, and it is time to wake up.

S569

STUDENT LOAN DEBT

Mr. President, if I may change topics for a moment. You may have heard in the morning of a volunteer from the state of Rhode Island, a young woman named Danielle. That morning’s volunteer stories were the “central component” and “predominant funder” of the denier apparatus, and at the same time, they are what he calls the “black box that conceals the identity of contributors.”

The denial apparatus runs a complex scheme to delegitimize the honest, university-based science that supports curbing carbon emissions and to intimidate officials who would dare cross their authors. The biggest identity-launding shops are Donors Trust and Donors Capital Fund. Indeed, these are by far the biggest sources of funding in the network or web of climate-denial front groups. These twin entities reported giving a combined $78 million to climate-denier groups between 2003 and 2010. Dr. Robert Brulle of Drexel University, who studies this network of fossil fuel-backed climate-denial front groups, the Donors Trust and Donors Capital Fund operations are the “central component” and “predominant funder” of the denier apparatus, and at the same time, they are what he calls the “black box that conceals the identity of contributors.”

Mr. President, I was on the floor last week, and I spoke about a series of two amendments that I was working with Senator HELLER on, and they are all focused on enhancing energy storage. I thank Senator HELLER for his efforts in so many ways, but particularly this bipartisan effort to enhance the Energy bill that is before us. Indeed, earlier this week, we were able to pass one of these amendments, No. 2989, that we introduced together to improve coordination of Department of Energy programs in order to maximize the amount of money that goes toward energy storage research and development.

Let me particularly thank Energy and Natural Resources Committee chairperson LISA MURKOWSKI and ranking member MARIA CANTWELL for their great efforts overall and particularly for their help in getting the Reed-Heller amendment through. They have done an extraordinary job on this legislation.

As I have indicated, we have two amendments. I have also joined Senator HELLER on another amendment. He is the lead author. This amendment would amend the Public Utility Regulatory Policies Act—or PURPA, as it is known—to require industry and State regulators to consider energy storage when making their energy efficiency plans. By encouraging energy storage usage by public utilities, we will help expand the reach of this needed technology.

There are many technical, financial, and security benefits to energy storage, including: improving grid utilization by storing and moving low-cost power into higher-priced markets, thereby reducing the amount we all pay on our utility bills; increasing the value and the amount of renewable energy in the grid, thereby reducing greenhouse gas emissions; and enhancing the security of the grid, thereby ensuring access to power in an emergency. We are all each day much more cognizant of the threat not just through natural disasters but through particular cyber intrusions which could affect our energy grid. This would be another way in which we could not only protect ourselves but respond more quickly in the case of any of these natural or manmade disasters.

I want to conclude by again thanking my colleague and friend Senator HELLER and urge our colleagues to work with us in a bipartisan fashion to adopt this amendment.

With that, Mr. President, I thank you.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the following morning business on Wednesday, February 10, the Senate proceed to the consideration of Calendar No. 359, H.R. 757; that there be up to 7 hours of debate equally divided in the usual form; that following the use or yielding back of that time the committee-reported amendment be agreed to, the bill, as amended, be read a third time, and the Senate vote on the bill with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCONNELL. Mr. President, I would just say what we have just done is lock in a vote on the North Korea sanctions bill that has been crafted by Chairman COOPER and Senator GARDNER, a very important piece of legislation that I am pleased to say the whole Senate thinks ought to be taken up, voted on, and passed. It will be an important change in our policy toward this rogue regime.

UNITED STATES-JORDAN DEFENSE COOPERATION ACT OF 2015

Mr. McCONNELL. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be discharged from further consideration of H.R. 907 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

Mr. President, I yield the floor. The senior assistant legislative clerk read as follows:

A bill (H.R. 907) to improve defense cooperation between the United States and the Hashemite Kingdom of Jordan.

There being no objection, the Senate proceeded to consider the bill.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the Rubio amendment at the desk be agreed to, the bill as amended, be read a third time and passed, and the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 3278) was agreed to, as follows:

(Purpose: In the nature of a substitute)
Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “United States-Jordan Defense Cooperation Act of 2015”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) As of January 22, 2015, the United States Government has provided $3,046,343,000 in assistance to respond to the Syrian humanitarian crisis, of which nearly $667,000,000 has been provided to the Hashemite Kingdom of Jordan.

(2) As of January 2015, according to the United Nations High Commissioner for Refugees, there were 621,900 registered Syrian refugees in Jordan and 83.8 percent of whom lived outside refugee camps.

(3) In 2000, the United States and Jordan signed a free-trade agreement that went into force in 2001.

(4) In 1996, the United States granted Jordan major non-NATO ally status.

(5) Jordan is suffering from the Syrian refugee crisis and the threat of the Islamic State of Iraq and the Levant (ISIL).

(6) The Government of Jordan was elected as a non-permanent member of the United Nations Security Council for a 2-year term ending in December 2015.

(7) The Colorado National Guard’s relationship with the Jordanian military provides a significant benefit to both the United States and Jordan.

(8) Jordanian pilot Moaz al-Kasasbeh was brutally murdered by ISIL.

(10) On February 3, 2015, Secretary of State John Kerry and Jordanian Foreign Minister Nasser Judeh signed a new Memorandum of Understanding that reflects the intention to increase United States assistance to the Government of Jordan from $699,000,000 to $1,000,000,000 for each of the years 2015 through 2017.

It should be the policy of the United States—

(1) to support the Hashemite Kingdom of Jordan in its response to the Syrian refugee crisis;

(2) to provide necessary assistance to alleviate the domestic burden to provide basic needs for the assimilated Syrian refugees;

(3) to cooperate with Jordan to combat the terrorist threat from the Islamic State of Iraq and the Levant (ISIL) or other terrorist organizations; and

(4) to help secure the border between Jordan and its neighbors Syria and Iraq.

It is the sense of Congress that—

(1) expeditious consideration of certification of letters of offer to sell defense articles, defense services, design and construction services, and major defense equipment to the Hashemite Kingdom of Jordan under section 36(b) of the Arms Export Control Act (22 U.S.C. 2778(b)) is fully consistent with United States security and foreign policy interests and the objectives of world peace and security;

(2) Congress welcomes the statement of King Abdullah II quoted in section (2)(11); and

(3) it is in the interest of peace and stability for regional members of the Global Coalition to Combat ISIL to continue their commitment to, and increase their involvement in, addressing the threat posed by ISIL.

(4) In General.—During the 3-year period beginning on the date of the enactment of this Act, the Hashemite Kingdom of Jordan shall be treated as if it were a country listed in the provisions of law described in subsection (b) for purposes of applying and administering such provisions of law.

(b) Arms Export Control Act.—The provisions of law described in this subsection are—

(1) subsections (b)(2), (d)(2)(B), (d)(3)(A)(i), and (d)(5) of section 3 of the Arms Export Control Act (22 U.S.C. 2753);

(2) subsections (e)(2)(A), (h)(1)(A), and (h)(2) of section 21 of such Act (22 U.S.C. 2761);

(3) subsections (b)(1), (b)(2), (b)(6), (c), and (d)(2)(A) of section 36 of such Act (22 U.S.C. 2776);

(4) section 62(c)(1) of such Act (22 U.S.C. 2796a(c)(1)); and

(5) section 68(a)(2) of such Act (22 U.S.C. 2796a(b)(2)).

It is the sense of Congress that—

(1) to support the Hashemite Kingdom of Jordan—

(a) In General.—To enhance strategic dialogue, the Secretary of State is authorized to enter into a memorandum of understanding with the Hashemite Kingdom of Jordan to increase economic support funds, military cooperation, including joint military exercises, personnel exchanges, support for international peacekeeping missions, and enhanced strategic dialogue.

The amendment was ordered to be engrossed, and the bill to be read a third time.

The bill was read the third time.

The bill (H.R. 907), as amended, was passed.

RESOLUTIONS SUBMITTED TODAY

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the Senate proceed to the en bloc consideration of the following Senate resolutions, which were submitted earlier today: S. Res. 357, S. Res. 358, S. Res. 359, and S. Res. 360.

There being no objection, the Senate proceeded to consider the resolutions en bloc.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the resolutions be agreed to, the preambles be agreed to, and the motions to reconsider be laid upon the table en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The preambles were agreed to. The resolutions, with their preambles, are printed in today’s Record under “Submitted Resolutions.”

Mr. MCCONNELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ENERGY POLICY MODERNIZATION ACT OF 2015—Continued

Ms. MURKOWSKI. Mr. President, we have been relatively quiet on the Senate floor today with consideration of the Energy Policy Modernization Act, but that does not mean that there has not been a great deal of activity behind the scenes as we try to work out some of the issues that remain before us as we move to consider how we can successfully modernize our energy policies, an effort that many have been engaged in and great efforts of collaboration and cooperation.

To our colleagues who are looking forward to activity on this measure, know that, as the managing Members on the floor, we too are looking forward to figuring out the way that we are able to advance this important bipartisan reform legislation.

I recognize that we are at the end of the day.

MORNING BUSINESS

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that the Senate be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

VOTE EXPLANATION

Ms. KLOBuchar. Mr. President, today I wish to discuss Senate amendment No. 3021, which would enable research and development of advanced nuclear energy technologies. I support this amendment but was not present when the Senate voted to adopt it 87–4 on Thursday, January 28, 2016.

Had I been present, I would have voted in favor of the amendment, and my vote would not have changed the outcome of this amendment.

Research and development into the next generation of innovative energy technologies are important to our Nation’s all-of-the-above energy strategy.

Thank you.

UNIFIED SERVICE ORGANIZATIONS 75TH ANNIVERSARY

Mr. REED. Mr. President, I would like to take this opportunity to congratulate the United Service Organizations, commonly known as the USO, on its 75th anniversary. Since February 4, 1941, the USO has been serving alongside our men and women in uniform.

Ahead of our entry into World War II and having witnessed the morale issues among the ranks during World War I, Army Chief of Staff General George C. Marshall called for an effort that would bring together private, civilian organizations to provide recreational activities and entertainment for the troops. As President Franklin D. Roosevelt stated, “not by machines alone will we win this war,” and so he directed the newly formed USO to keep service members in touch with the comforts of home, no matter where they were deployed.

Recently led by the YMCA, YWCA, the Salvation Army, the National Jewish Welfare Board, the National Catholic Community Service, and the Traveler’s Aid Society, the USO provided
servicemen with wholesome recreation and entertainment. According to Walter Hoving, one of the original directors of the USO, "this is not only vital to military morale but also from the standpoint of the future of our youth as peace-time citizens."

Seventy-five years later, the USO continues to adapt to meet the needs of our men and women in uniform and their families. From USO centers at or near military installations across the United States, and around the world to the airport centers that offer around-the-clock hospitality for traveling servicemembers, to their trademark tours that bring America’s celebrities to entertain our troops, to their support for military kids, wounded warriors and their caregivers, and families of the fallen, the USO has answered the call to serve those who serve our Nation.

The USO remains a private organization, relying on the generosity of individuals, communities, and corporations and 30,000 dedicated volunteers. As General Eisenhower wrote many decades ago, “the USO served also in providing shelter through which more than a million civilian men and women were able to help effectively in the war effort.” The same holds true today.

I would like to thank the many men and women of the USO who give so much to bring a bit of home to our servicemembers all over the globe. I congratulate the USO on 75 years of strengthening America’s military by keeping servicemembers connected to family, home, and country wherever they go.

REMEMBERING ANITA ASHOK DATA
Mrs. GILLIBRAND, Mr. President, today I wish to celebrate the life of an extraordinary woman named Anita Ashok Data. She was a mother, a daughter, a sister, and a dear friend to those who knew her.

Anita was born in Pittsfield, MA, and was raised in Flanders, NJ. She was a graduate of Columbia University’s Mailman School of Public Health and School of International and Public Affairs, where she attained a master’s in public health and a master’s in public administration. At the time of her death, Anita was a resident of Takoma Park, MD.

Anita dedicated her life to helping others. She was an international public health expert and development worker who traveled the world, working tirelessly in pursuit of one powerful goal: to improve the lives of those less fortunate.

Anita began her career in the Peace Corps, where she volunteered for a 2-year tour in Senegal, a country in a part of the world that she had come to love so much.

After graduating from Columbia University, Anita moved to the Washington, DC, area where she continued her career as an international development worker.

In addition to her day job, Anita helped found the not-for-profit Tulalens, an organization dedicated to connecting low-income women in underserved communities to quality health services.

But out of all of her many accomplishments, Anita was most proud of her son, Rohan. Rohan was the light of her life. Anita loved working to make the world a better place for him.

Anita’s inspiring life was cut short on November 29, 2015, in a senseless act of violent terrorism in Bamako, Mali.

But Anita and her life—and the lives of the thousands of people she touched—are far bigger than the tragic event that occurred on that day.

Anita’s love, spirit, and dedication to making the world a better place will have a lasting effect. The world is a better place because of Anita and the work that she did.

I extend my deepest, heartfelt sympathies to Anita’s family and friends—especially to her son, Rohan.

TRIBUTE TO EDWARD JOHNSON
Mr. HOEVEN, Mr. President, I ask unanimous consent that the following letter be printed in the Record in recognition of the service of Edward Johnson, chief financial officer of the Federal Emergency Management Agency, upon his retirement from the Federal Government.

There being no objection, the material was ordered to be printed in the Record, as follows:

EDWARD JOHNSON

Dear Mr. Johnson,

I write this letter in recognition of your 38 years of service to our nation. On the cusp of your retirement, I want to acknowledge, thank, and recognize your contributions to the Department of Homeland Security’s financial management and business acumen.

You have been a tireless leader in the Department’s senior leadership cadre, providing sage advice on a wide range of issues and challenges. I am a great fan of your work, and I have no doubt that you will continue to do so in the future.

I extend my deepest, heartfelt sympathy to your family, friends, and colleagues. I want to thank you for your service to our country and your family and friends for their sacrifice.

Sincerely,

W. CRAIG FUGATE, Administrator.

RECOGNIZING REAL SERVICES
Mr. DONNELLY, Mr. President, today I wish to recognize the 50th anniversary of REAL Services, an organization that works to support independence and higher quality of life for the elderly, disabled, and low-income Hoosiers in northern Indiana.

In 1966, Lester J. Fox founded REAL Services to create a service network for seniors in St. Joseph County. With the help of a Federal grant from the U.S. Administration on Aging, REAL Services developed programs to address the housing, health, employment, and legal needs of those aging in St. Joseph County.

REAL Services expanded its reach in 1981 to include assistance programs for poverty-stricken Hoosiers. In 2013, REAL Services merged with the Alzheimer’s and Dementia Services of Northern Indiana. Today REAL Services assists more than 30,000 elderly, disabled, and destitute Hoosiers annually in 12 northern Indiana counties through more than 20 programs. This would not be possible without those who volunteer their time to further REAL Services’ reach and mission. On average, REAL Services has 2,000 volunteers each year.

The effectiveness of REAL Services’ commitment to preserving the self-sufficiency and life quality of elderly, disabled, and low-income Hoosiers has been highly praised in the press. In May 1974, then-Governor of Indiana, Otis R. Bowen, designated REAL Services as the Area Agency on Aging for five counties in northern Indiana. A little over a decade later, then-Governor Robert D. Orr designated the organization the Milton S. Eisenhower Action Agency in northern Indiana.

In 2005, REAL Services was designated by the Federal Government as the forefront amongst federal agencies as we rapidly advance the replacement of unsustainable legacy financial systems that bring together diverse equities in an effort to save taxpayer dollars while making government more streamlined and efficient. Simply put, you were the right leader to pull this complex set of financial system needs together and move them forward. As a result of these and other accomplishments, you were recognized as one of the Federal 100 by FCW, a public sector trade publication.

As your team leader at FEMA, you served DHS in a number of capacities where you were continuously recognized as one of the top civil servants. From your service as Director of the Burlington Finance Center for the U.S. Immigration and Customs Enforcement to your tenure at the U.S. Citizens and Immigration Services, you worked tirelessly to advance the Department’s mission in service to the American people.

On behalf of FEMA’s leadership team, our entire workforce and a grateful nation, I want to wish you and your wife Donna good luck and good health as you enter this new chapter in your lives. I will forever remain grateful for your wise counsel and tireless service.

Sincerely,

W. CRAIG FUGATE, Administrator.
The Government of Côte d’Ivoire and its people continue to make significant progress in promotion of democratic, social, and economic development. We congratulate Côte d’Ivoire on holding a peaceful and credible presidential election, which is an important milestone on the country’s road to full recovery. The United States also supports the advancement of national reconciliation and impartial justice in Côte d’Ivoire. The United States is committed to helping Côte d’Ivoire strengthen its democracy and stay on the path of peaceful democratic transition, and we look forward to working with the Government and people of Côte d’Ivoire to ensure continued progress and lasting peace for all Ivoirians.

While the Government of Côte d’Ivoire and its people continue to make progress towards consolidating democratic gains and peace and prosperity, the situation in or in relation to Côte d’Ivoire continues to pose an unusual and extraordinary threat to the national security and foreign policy of the United States. For this reason, I have determined that it is necessary to continue the national emergency and related measures blocking the property of certain persons contributing to the conflict in Côte d’Ivoire.

On behalf of the citizens of Indiana, I thank REAL Services for the hard work they do every day for the people of our great State who need our help the most, and I congratulate them on an important milestone. From its inception, REAL Services has demonstrated a dedication to those they serve and continues to promote human dignity. I commend REAL Services for exemplifying the beliefs we hold as Hoosiers: recognition of the value of all people and a willingness to lend a hand to those in need. I am proud that REAL Services has helped make our State and our country a better place for thousands of Hoosiers and Americans.

On behalf of the citizens of Indiana, I thank REAL Services for the hard work they do every day for the people of our great State who need our help the most, and I congratulate them on an important milestone. EC–4276. A communication from the Deputy Director, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled “Medicaid Program; Fiscal Year 2015 Laboratory Improvement Validation Program; Definitions for Exempt and Regulated Articles” (RIN0970–AC56) (Docket No. FDA–2011–N–0920) received during adjournment of the Senate in the Office of the President of the Senate on January 29, 2016, to the Committee on Finance.

EC–4277. A communication from the Deputy Director, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled “Medicaid Program; Fiscal Year 2015 Laboratory Improvement Validation Program; Definitions for Exempt and Regulated Articles” (RIN0970–AC56) (Docket No. FDA–2011–N–0920) received during adjournment of the Senate in the Office of the President of the Senate on January 29, 2016, to the Committee on Finance.
EC–4286. A communication from the Deputy Assistant Administrator, Drug Enforcement Agency, Department of Justice, transmitting, pursuant to law, the report of a rule entitled "Administrative Debt Collection Procedures" (16 CFR Part 1) received during adjournment of the Senate in the Office of the President on January 29, 2016; to the Committee on the Judiciary.

EC–4287. A communication from the Secretary of the Commission, Bureau of Competition, Federal Trade Commission, transmitting, pursuant to law, the report of a rule entitled "Administrative Debt Collection Procedures" (16 CFR Part 1) received during adjournment of the Senate in the Office of the President on January 29, 2016; to the Committee on the Judiciary.

EC–4288. A communication from the Secretary of the Commission, Bureau of Competition, Federal Trade Commission, transmitting, pursuant to law, the report of a rule entitled "Administrative Debt Collection Procedures" (16 CFR Part 1) received during adjournment of the Senate in the Office of the President on January 29, 2016; to the Committee on the Judiciary.

EC–4289. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Atlantic Red Snapper and Tilefish Fishery Management Plan; Start of the New Management Regime; and Amendment to the 2016 Seasonal Specifications, Conservation Categories, and Fishery Access Regulations" (RIN 0648–BE99) received during adjournment of the Senate in the Office of the President on January 29, 2016; to the Committee on Commerce, Science, and Transportation.

EC–4290. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Atlantic Red Snapper and Tilefish Fishery Management Plan; Start of the New Management Regime; and Amendment to the 2016 Seasonal Specifications, Conservation Categories, and Fishery Access Regulations" (RIN 0648–BE99) received during adjournment of the Senate in the Office of the President on January 29, 2016; to the Committee on Commerce, Science, and Transportation.

EC–4291. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Atlantic Red Snapper and Tilefish Fishery Management Plan; Start of the New Management Regime; and Amendment to the 2016 Seasonal Specifications, Conservation Categories, and Fishery Access Regulations" (RIN 0648–BE99) received during adjournment of the Senate in the Office of the President on January 29, 2016; to the Committee on Commerce, Science, and Transportation.

EC–4292. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Atlantic Red Snapper and Tilefish Fishery Management Plan; Start of the New Management Regime; and Amendment to the 2016 Seasonal Specifications, Conservation Categories, and Fishery Access Regulations" (RIN 0648–BE99) received during adjournment of the Senate in the Office of the President on January 29, 2016; to the Committee on Commerce, Science, and Transportation.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. CORKER, from the Committee on Foreign Relations, with an amendment in the nature of a substitute:

S. 555. A bill to marshal resources to undertake a concerted, transformative effort that seeks to bring an end to modern slavery, and for other purposes.

By Mr. GRASSLEY, from the Committee on the Judiciary, with an amendment in the nature of a substitute:

S. 2490. A bill to deter terrorism, provide justice for victims, and for other purposes.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first time, and referred to committees:

By Mr. THUNE (for himself, Mr. ROUNDS, Mr. CORYN, and Mr. TOOMEY):

S. 2489. A bill to provide for the immediate reinstatement of sanctions against Iran if Iran attempts to acquire nuclear weapons technology from North Korea; to the Committee on Foreign Relations.

By Mr. KIRK (for himself and Mrs. GILLBRAND):

S. 2488. A bill to enhance electronic warfare capabilities of the United States Armed Forces; to the Committee on Armed Services.

By Mrs. BOXER (for herself, Mr. ENNIST, Mr. BLUMENTHAL, and Mr. BROWN):

S. 2487. A bill to direct the Secretary of Veterans Affairs to identify mental health care and suicide prevention programs and metrics that are treating women veterans as part of the evaluation of such programs by the Secretary, and for other purposes; to the Committee on Veterans’ Affairs.

By Mr. MORAN (for himself and Mr. ROBERTS):

S. 2488. A bill to extend the authority of the Secretary of the Interior to carry out the Equus Beds Division of the Wichita Project; to the Committee on Energy and Natural Resources.

By Mr. WHITEHOUSE (for himself and Mrs. FEINSTEIN):

S. 2489. A bill to ensure that persons who form corporations in the United States disclose the beneficial owners of those corporations, in order to prevent the formation of corporations with hidden owners, stop the misuse of United States corporations by wrongdoers, and assist law enforcement in detecting, preventing, and punishing terrorism, money laundering, tax evasion, and other criminal and civil misconduct involving United States corporations and for other purposes; to the Committee on the Judiciary.

By Mr. FLAKE:

S. 2490. A bill to amend title 28, United States Code, to divide the ninth judicial circuit of the United States into 2 circuits, and for other purposes; to the Committee on the Judiciary.

By Mr. PETERS (for himself and Ms. STABENOW):

S. 2491. A bill to amend the Head Start Act by establishing grants for Head Start programs in communities affected by toxic pollutants, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. WYDEN (for himself, Ms. CANTWELL, Mr. BROWN, and Mr. CASEY):

S. 2492. A bill to amend the Internal Revenue Code of 1986 to provide matching payments for retirement savings contributions by certain individuals; to the Committee on Finance.

By Mr. CASSIDY:

S. 2493. A bill to expand eligibility for hospital care and medical services under section 101 of the Veterans Access, Choice, and Accountability Act of 2014 to include veterans who are age 75 or older, and for other purposes; to the Committee on Veterans’ Affairs.

By Mr. MARKLEY (for himself and Ms. WARREN):

S. 2494. A bill to amend the Federal Power Act to provide that any inaction by the Federal Energy Regulatory Commission that allows a rate change to go into effect shall be treated as an order by the Commission for purposes of rehearing and court review; to the Committee on Energy and Natural Resources.

By Mr. CRAPO (for himself, Mr. HATCH, Mr. DAINES, Mr. MORA, Mr. HELLER, Mr. SULLIVAN, Mr. INHOFE, Mr. ROBERTS, Mrs. ENNIST, and Mr. ENZI):

S. 2495. A bill to amend the Nuclear Security Act of 1988 relating to the use of determinations made by the Commissioner; to the Committee on the Judiciary.

By Mr. COONS (for himself, Mr. RISCH, and Mrs. SHAHÉN):

S. 2496. A bill to provide flexibility for the Administrator of the Small Business Administration to increase the limit on general business loans that may be guaranteed under section 7(a) of the Small Business Act; to the Committee on Small Business and Entrepreneurship.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. VITTER (for himself, Mr. CASIDY, and Mr. CASEY):

S. Res. 357. A resolution recognizing the contributions of Catholic schools in the United States; considered and agreed to.

By Mrs. MURRAY (for herself, Ms. COLLINS, Mr. DURBIN, Mrs. FEINSTEIN, Ms. BALDWIN, Mr. FRANKEN, Ms. STARR–NOW, Mr. MURPHY, Ms. WYDEN, Ms. MUKULSKI, Mr. CASEY, Mr. CONNY, Mr. DONELLY, Mr. KING, Mr. SCHATZ, and Ms. AYOTTE):

S. Res. 358. A resolution designating February 1 through 5, 2016, as ‘‘National School Counseling Week’’; considered and agreed to.

By Ms. HEIKAMP (for herself, Mr. JOHNSON, Mr. CARPER, Mr. UDALL, Mr. CASSIDY, Mr. LANKFORD, Mrs. MURRAY, Mrs. BOXER, and Ms. COLLINS):
S. Res. 359. A resolution celebrating the 10th anniversary of the unification of the air and marine assets of U.S. Customs and Border Protection to establish the Air and Marine Operations of U.S. Customs and Border Protection; considered and agreed to.

By Mr. ROBERTS (for himself, Ms. STABENOW, Mr. TILLIS, and Mr. BARRON)

S. Res. 360. A resolution congratulating the National Association of State Departments of Agriculture on the celebration of its 100th anniversary; considered and agreed to.

By Mr. CORKER (for himself, Mr. CARDIN, Mr. PERDUE, Mrs. BOXER, Mr. MURPHY, Mr. MARKEY, Mrs. SHEREE, Mr. COONS, Mr. UDALL, Mr. KAIN, and Mr. MENENDEZ):

S. Res. 361. A resolution urging robust funding for humanitarian relief for Syria; to the Committee on Foreign Relations.

ADDITIONAL COSPONSORS

S. 808

At the request of Mr. DAINES, the name of the Senator from Georgia (Mr. PERDUE) was added as a cosponsor of S. 493, a bill to reduce a portion of the annual pay of Members of Congress for the failure to adopt a concurrent resolution on the budget which does not provide for a balanced budget, and for other purposes.

S. 771

At the request of Mr. COONS, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 771, a bill to emphasize manufacturing in engineering programs by directing the National Institute of Standards and Technology, in coordination with other appropriate Federal agencies including the Department of Defense, Department of Energy, and National Science Foundation, to designate United States manufacturing universities.

S. 786

At the request of Mrs. GILLIBRAND, the name of the Senator from North Dakota (Ms. HEITKAMP) was added as a cosponsor of S. 786, a bill to provide paid family medical leave benefits to certain individuals, and for other purposes.

S. 901

At the request of Mr. MORAN, the name of the Senator from Hawaii (Ms. HIRANO) was added as a cosponsor of S. 901, a bill to establish in the Department of Veterans Affairs a national center for research on the diagnosis and treatment of health conditions of the descendants of veterans exposed to toxic substances during service in the Armed Forces that are related to that exposure, to establish an advisory board on such health conditions, and for other purposes.

S. 1290

At the request of Mr. GARDNER, the name of the Senator from Hawaii (Mr. SCHATZ) was added as a cosponsor of S. 1290, a bill to help provide relief to State education budgets during a recessionary economy, to help fulfill the Federal mandate to provide higher educational opportunities for Native American Indians, and for other purposes.

S. 1855

At the request of Ms. HIRONO, the name of the Senator from Colorado (Mr. GARDNER) was added as a cosponsor of S. 1855, a bill to provide special foreign military sales status to the Philippines.

S. 1890

At the request of Mr. HATCH, the names of the Senator from Arkansas (Mr. BOOZMAN) and the Senator from Hawaii (Mr. SCHATZ) were added as cosponsors of S. 1890, a bill to amend chapter 90 of title 10, United States Code, to provide Federal jurisdiction for the theft of trade secrets, and for other purposes.

S. 1944

At the request of Mr. SULLIVAN, the names of the Senator from Colorado (Mr. GARDNER) and the Senator from South Dakota (Mr. THUNE) were added as cosponsors of S. 1944, a bill to require each agency to repeal or amend 1 or more rules before issuing or amending a rule.

S. 2068

At the request of Ms. COLLINS, the name of the Senator from Connecticut (Mr. BLUMENTHAL) was added as a cosponsor of S. 2068, a bill to amend the Internal Revenue Code of 1986 to include automated fire sprinkler system retrofits as section 179 property and classify retrofits as section 179 property or depreciation.

S. 2185

At the request of Ms. HEITKAMP, the names of the Senator from Oregon (Mr. WYDEN), the Senator from New Mexico (Mr. HEINRICH), the Senator from Virginia (Mr. WARNER), the Senator from Colorado (Mr. BENNET), the Senator from Florida (Mr. NELSON), the Senator from Montana (Mr. TESTER) and the Senator from Connecticut (Mr. MURPHY) were added as cosponsors of S. 2185, a bill to require the Secretary of the Treasury to mint coins in recognition of the fight against breast cancer.

S. 2186

At the request of Mr. COTTON, his name was added as a cosponsor of S. 2186, a bill to provide the legal framework necessary for the growth of innovative private financing options for students to fund postsecondary education, and for other purposes.

S. 2230

At the request of Mr. JOHNSON, his name was added as a cosponsor of S. 2230, a bill to require the Secretary of State to submit a report to Congress on the designation of the Muslim Brotherhood as a foreign terrorist organization, and for other purposes.

S. 2473

At the request of Mr. BLUMENTHAL, the name of the Senator from New York (Mr. SCHUMER), the Senator from Nevada (Mr. HELLER) and the Senator from Michigan (Ms. STABENOW) were added as cosponsors of S. 2473, a bill to amend title 38, United States Code, to provide for the burial of the cremated remains of persons who served as Women’s Air Forces Service Pilots in Arlington National Cemetery, and for other purposes.

S. 2493

At the request of Mr. BLUMENTHAL, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 2493, a bill to repeal the Protection of Lawful Commerce in Arms Act.

S. 2474

At the request of Mr. SULLIVAN, the name of the Senator from Montana (Mr. DAINES) was added as a cosponsor of S. 2474, a bill to require each Secretary of Veterans Affairs to carry out a pilot program to provide veterans the option of using an alternative appeals process to more quickly determine claims for disability compensation, and for other purposes.

S. Res. 349

At the request of Mr. CASSIDY, the name of the Senator from Florida (Mr. RUPIO), the Senator from Texas (Mr. CRUZ) and the Senator from Colorado (Mr. GARDNER) were added as cosponsors of S. 2474, a bill to allow for additional requirements for goods made in the geographical areas known as the West Bank and Gaza Strip.

AMENDMENT NO. 2964

At the request of Mr. ROBERTS, the name of the Senator from Maine (Ms. COLLINS) and the Senator from Mississippi (Mr. WICKER) were added as cosponsors of S. Res. 349, a resolution congratulating the Farm Credit System on the celebration of its 100th anniversary.

AMENDMENT NO. 2977

At the request of Mr. ROBERTS, the name of the Senator from Pennsylvania (Mr. TOOMEY) was withdrawn as a cosponsor of amendment No. 2954 proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 3035

At the request of Mr. FRANKEN, his name was added as a cosponsor of
amendment No. 3035 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 320

At the request of Mr. KING, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of amendment No. 3120 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 311

At the request of Mr. MURPHY, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a co-sponsor of amendment No. 3131 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 316

At the request of Mrs. GILLIBRAND, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a co-sponsor of amendment No. 3166 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 319

At the request of Mrs. SHAHEEN, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a co-sponsor of amendment No. 3192 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 321

At the request of Mr. MERKLEY, the name of the Senator from Oregon (Mr. MERKLEY) was added as a co-sponsor of amendment No. 3192 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 322

At the request of Mr. CASSIDY, the name of the Senator from Alaska (Mr. CASSIDY) was added as a cosponsor of amendment No. 3214 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

AMENDMENT NO. 324

At the request of Mr. CRAPO, his name was added as a cosponsor of amendment No. 3214 intended to be proposed to S. 2012, an original bill to provide for the modernization of the energy policy of the United States, and for other purposes.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 337—RECOGNIZING THE GOALS OF CATHOLIC SCHOOLS WEEK AND HONORING THE VALUABLE CONTRIBUTIONS OF CATHOLIC SCHOOLS IN THE UNITED STATES

Mr. VITTER (for himself, Mr. CASSIDY, and Mr. CASEY) submitted the following resolution which was considered and agreed to:

S. RES. 337

Whereas Catholic schools in the United States are internationally acclaimed for their academic excellence and provide students with more than an exceptional scholastic education; whereas Catholic schools instill a broad, values-based education, emphasizing the life-long development of moral, intellectual, physical, and social values in young people in the United States; whereas Catholic schools provide a high level of service to society by providing a strong academic and moral foundation to a diverse student population from all regions of the country and all socioeconomic backgrounds; whereas Catholic schools produce students who are strongly dedicated to their faith, values, families, and communities, by providing an intellectually stimulating environment that is rich in spiritual, character, and moral development; whereas Catholic schools are committed to community service, producing graduates who hold "helping others" as a core value; whereas the national average graduation rate in Catholic schools in the United States for the 2015-2016 academic year is almost 2,000,000 and the student-to-teacher ratio is 13.1 to 1; whereas Catholic schools in the United States educate a population of students, the vast majority of whom belong to racial minorities, 13.3 percent of whom are Hispanic or Latino origin, and 16.9 percent are non-Catholics; whereas the Catholic high school graduation rate in the United States is 99 percent, with 85 percent of graduates attending a 4-year college; whereas the week of January 31, 2016, to February 6, 2016, has been designated as "National Catholic Schools Week" by the National Catholic Educational Association and the United States Conference of Catholic Bishops;

Resolved, That the Senate—
(1) supports the goals of National Catholic Schools Week, an event cosponsored by the National Catholic Educational Association and the United States Conference of Catholic Bishops and seeks to recognize the vital contributions of the thousands of Catholic elementary and secondary schools in the United States; and
(2) commends Catholic schools, students, parents, and teachers across the United States for ongoing contributions to education and for playing a vital role in promoting and ensuring a brighter, stronger future for the United States.

SENATE RESOLUTION 358—DESIGNATING FEBRUARY 1 THROUGH 5, 2016, AS "NATIONAL SCHOOL COUNSELING WEEK"

Mrs. MURRAY (for herself, Ms. COLLINS, Mr. DURBIN, Ms. FEINSTEIN, Ms. BALDWIN, Mr. FRANKEN, Ms. STABENOW, Mr. MURPHY, Mr. WYDEN, Ms. MIKULSKI, Mr. CASEY, Mr. CORNYN, Mr. DONELLY, Mr. KING, Mr. SCHATZ, and Ms. AYOTTE) submitted the following resolution which was considered and agreed to:

S. RES. 358

Whereas the American School Counselor Association has designated February 1 through 5, 2016, as "National School Counseling Week"; whereas school counselors have long advocated for equal opportunities for all students; whereas school counselors help develop well-rounded students by guiding students through academic, personal, social, and career development; whereas personal and social growth results in increased academic achievement; whereas school counselors play a vital role in ensuring that students are ready for college and careers; whereas school counselors provide a vital role in making students aware of opportunities for financial aid and college scholarships; whereas school counselors assist and coordinate efforts to foster a positive school climate, resulting in a safer learning environment for all students; whereas school counselors have been instrumental in helping students, teachers, and parents deal with personal trauma as well as tragedies in their communities and the United States; whereas students face myriad challenges every day, including peer pressure, bullying, mental health issues, the deployment of family members to serve in conflicts overseas, and school violence; whereas a school counselor is one of the few professionals in a school building who is trained in both education and social and emotional development; whereas the roles and responsibilities of school counselors are often misunderstood; whereas the school counselor position is often among the first to be eliminated to meet budgetary constraints; whereas the national average ratio of students to school counselors is 422 to 1, almost twice the 250 to 1 ratio recommended by the American School Counselor Association, the National Association for College Admission Counseling, and other organizations; and whereas the celebration of National School Counseling Week will increase awareness of the important and necessary role school counselors play in the lives of students in the United States: Now, therefore, be it

Resolved, That the Senate—
(1) designates February 1 through 5, 2016, as "National School Counseling Week"; and
(2) encourages the people of the United States to observe National School Counseling Week with appropriate ceremonies and activities that promote awareness of the role school counselors play in schools and the community at large in preparing students for fulfilling lives as contributing members of society.

Ms. HEITKAMP (for herself, Mr. JOHNSON, Mr. CARPER, Mr. UDALL, Mr. CASSIDY, Mr. PETERS, Mr. LANKFORD, Mrs. MURRAY, Mrs. BOXER, and Ms. COLLINS) submitted the following resolution; which was considered and agreed to:

S. Res. 359

Whereas the Air and Marine Operations of U.S. Customs and Border Protection (referred to in this preamble as “AMO”) and the legacy agencies of AMO have long history of working to safeguard the borders of the United States;

Whereas the years before the date of adoption of this resolution, U. S. Customs and Border Protection (referred to in this preamble as “CBP”) integrated the marine assets of CBP with the aircraft fleet of CBP to serve and protect the people of the United States through the core competencies of AMO, which include—

(1) interdiction;
(2) investigation;
(3) domain awareness; and
(4) contingency operations and national tasking missions;

Whereas AMO conducts the mission of AMO along the land borders and maritime approaches of the United States from more than 90 locations throughout the United States and Puerto Rico, with—

(1) 1,800 Federal agents and specialists;
(2) a fleet of more than 250 aircraft and more than 280 marine vessels; and
(3) an array of surveillance and domain awareness technologies; and

Whereas AMO has leveraged the capabilities of AMO by forging crucial partnerships with federal, State, local, and tribal agencies, and the United States Armed Forces, for—

(1) law enforcement;
(2) disaster relief;
(3) humanitarian operations;
(4) joint operations; and
(5) National Special Security Events: Now, therefore, be it

Resolved, That the Senate—

(1) celebrates the 10th anniversary of the unification of the air and marine assets of U.S. Customs and Border Protection to establish the Air and Marine Operations of U.S. Customs and Border Protection; and
(2) recognizes the contribution of the Air and Marine Operations of U.S. Customs and Border Protection to—

(A) the border security mission of U. S. Customs and Border Protection; and
(B) the multilayered approach to homeland security by the Department of Homeland Security; and

(3) commends the agents and mission support staff of the Air and Marine Operations of U.S. Customs and Border Protection, who are dedicated to serving and protecting—

(A) the people of the United States; and
(B) the borders of the United States in air and maritime environments.

SENATE RESOLUTION 360—CONGRATULATING THE NATIONAL ASSOCIATION OF STATE DEPARTMENTS OF AGRICULTURE ON THE CELEBRATION OF ITS 100TH ANNIVERSARY

Mr. ROBERTS (for himself, Ms. STAUBER, Mr. TILLIS, and Mr. SASSE) submitted the following resolution; which was considered and agreed to:

S. Res. 360

Whereas the National Association of State Departments of Agriculture (referred to in this preamble as “NASDA”) was established in 1916 to provide a cohesive, science-based voice for State perspectives in discussions on national agriculture policy issues;

Whereas the first meeting of NASDA was held on May 4, 1916, in the hearing room of the Committee on Court of Claims of the Senate;

Whereas since 1916, NASDA has provided exemplary nonpartisan representation of the departments of agriculture in all 50 States and 4 United States territories in order to promote sound agricultural programs in support of United States agriculture;

Whereas NASDA has become a national leader in growing and enhancing agriculture throughout the United States, both domestically and worldwide; Now, therefore, be it

Resolved, That the Senate congratulates the National Association of State Departments of Agriculture on the celebration of the 100th anniversary of its founding.

SENATE RESOLUTION 361—URGING ROBUST FUNDING FOR HUMANITARIAN RELIEF FOR SYRIA

Mr. CORKER (for himself, Mr. CARDIN, Mr. BOXER, Mr. MURPHY, Mr. MARKEY, Mrs. SHAHEEN, Mr. COONS, Mr. UDALL, Mr. Kaine, and Mr. MENENDEZ) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. Res. 361

Whereas the conflict in Syria, which is in its fifth year, has taken the lives of over 250,000 Syrians and displaced millions more; Whereas the humanitarian needs for Syria are overwhelming and require a sustained, tangible response from the entire international community to ensure that the short- and long-term needs of the Syrian people are addressed; Whereas as the short- and long-term needs of the Syrian people increase, the available humanitarian capacity for the almost 4,600,000 Syrians sheltering in Jordan, Lebanon, and other neighboring countries, which are already under severe strain, is diminishing; Whereas addressing the humanitarian situation in Syria and in Syrian refugee-hosting countries is an essential component to providing stability and security by the Department of Homeland Security; and

Whereas NASDA continues its deep commitment to promoting the interests of the American agricultural industries and other countries with substantial financial commitments made by the Governments of the United Kingdom, Kuwait, Germany, and Norway; and

The numbers are well known, but bear repeating. The international community has a responsibility to help the almost 4.2 million Syrian refugees in neighbouring countries. We must step up our efforts. Current pledges to the 2015 UN appeal have not even reached last year’s levels—$3.3 billion against an appeal of $8.4 billion. Even this figure still masks the fact that not all pledges are met, building up needs for future years. The world must do more, and now is the time to act.
has been instrumental and bipartisan in its support of humanitarian relief for Syria. We must maintain this effort, as the need has never been greater. But we also need the entire international community to stand up on this issue. It cannot just be the responsibility of a few generous donors to meet the needs of Syria.

The humanitarian crisis in Syria is a stain on the conscience of the world, and the whole world needs to be part of the solution. This is not just a moral question, although it ought to be. We need to bring peace to Syria, food to Syrians, and safety to Syria’s children. Without these basic elements, we are allowing a breeding ground for disillusionment, extremism, and indeed terror to grow. So this is also about our shared national security interests. Every nation should therefore step up to the plate: all responsibility cannot and should not fall on Syria and its neighbours.

We call on all nations to participate in the conference in London on February 4, prepared to make significant donations that meet the UN appeal. We hope that senior-level representation and contributions by donor states will redefine the purpose of this conference to prepare for long term humanitarian support to Syrians.

Five years into the Syrian conflict, it is easy for donor fatigue to set in. But this is nothing compared to what Syrian refugees are experiencing daily. Whether they have been displaced inside Syria, whether they are building lives in refugee camps in Turkey and Jordan, whether they are trying to integrate into a new city, or whether they are risking their lives in crossing open seas, refugees are facing daily challenges to their very existence. Our resolve to alleviate the hardships and suffering this conflict has caused must, at a minimum, equal theirs.

The conference in London is an opportunity for nations to meet this crisis with the resources and determination necessary to address the short and long term needs of the Syrian people. The bipartisan resolution Senator Corker and I are putting forward encourages the international community to act with urgency to alleviate the humanitarian crisis in Syria and in Syrian refugee-hosting countries in the region. It encourages nations to not only fulfill their previous pledges, but to commit to doing more.

We must find ways to reduce the barriers preventing refugees from rebuilding their lives. Granting refugees the right to work and access basic services, and funding integration programs, are important goals in that respect.

Education is also key. We must ensure that all children and young people affected by the conflict have access to a safe and quality education by both strengthening our existing educational systems and investing in alternative learning pathways. When parents can’t find educational opportunities for their children, they move away or put their children into the workforce. Without education, we risk losing a generation of young people.

The United States, which has been the largest single humanitarian donor to Syria to date, will lead on this effort, along with our partners. We will continue to lead because addressing the humanitarian crisis is part and parcel of achieving a political resolution to the conflict. It is integral to preserving regional stability and global stability.

AMENDMENTS SUBMITTED AND PROPOSED

SA 3232. Mr. MARKSY (for himself and Mr. MENENDEZ) submitted an amendment intended to be proposed by him to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table.
SA 3233. Mr. WARNER (for himself and Mr. KAIN) submitted an amendment intended to be proposed by him to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3234. Ms. MURKOWSKI (for herself and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3235. Mr. WICKER (for himself and Mr. INHOFE) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3236. Mr. WYDEN (for himself, Mr. DURBIN, Mr. CASEY, and Mr. MERKLEY) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3237. Mr. HATCH submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3239. Mr. THUNE submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3238. Mr. WYDEN (for himself, Mr. BENNET, Ms. STABENOW, Mr. MENENDEZ, Mr. CARPER, Mr. CARDIN, Ms. MURRAY, Mr. DURBIN, Mr. KLOBUCHAR, Mr. WHITEHOUSE, Ms. SHARER, Mr. CASEY, and Mr. SULLIVAN) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3240. Mr. LEAHY submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3241. Ms. CANTWELL submitted an amendment intended to be proposed by her to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3242. Ms. CANTWELL submitted an amendment intended to be proposed by her to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3243. Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3244. Mr. MARKSY (for himself and Mr. MENENDEZ) submitted an amendment intended to be proposed by him to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3245. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3246. Ms. STABENOW (for herself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3247. Ms. STABENOW (for herself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3248. Ms. STABENOW (for herself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3249. Ms. STABENOW (for herself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3250. Mr. BLUMENTHAL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3251. Mr. INHOFE (for himself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3252. Mr. KAIN (for himself and Mr. WARNER) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3253. Mr. ISAKSON (for himself and Mr. ENZI) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3254. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3255. Mr. WHITEHOUSE submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3256. Mr. SCHATZ (for himself and Mr. SULLIVAN) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3257. Ms. CANTWELL (for herself and Mr. GRAHAM) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3258. Mr. DAINES (for himself and Mr. CASSIDY) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3259. Mr. DAINES (for himself and Mr. CASSIDY) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3260. Mr. BOOZMAN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, supra; which was ordered to lie on the table.
SA 3261. Mr. BOOZMAN (for himself, Mr. ALEXANDER, Mr. BLUNT, and Mr. COTTON) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3262. Mr. DONNELLY submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3263. Mr. INHOFE submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3264. Mr. WYDEN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3265. Mr. VITTER (for himself, Mr. KAIN, and Ms. BALDWIN) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3268. Mr. WHITEHOUSE submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3267. Mr. Kaine submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3269. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3270. Mr. MANCHIN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3271. Mr. MANCHIN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3272. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3273. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3274. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3275. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3276. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3277. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, supra, which was ordered to lie on the table.

SA 3278. Mr. MCCONNELL (for Mr. RUHNO (for himself and Mr. CARDEN)) proposed an amendment to the bill S. 12, to provide for the modernization of the energy policy of the United States and for other purposes; which was ordered to lie on the table.

SA 3279. Ms. MURKOWSKI (for Mr. LEE (for himself and Mrs. MURRAY)) proposed an amendment to the bill S. 12, to provide for the modernization of the energy policy of the United States and for other purposes; which was ordered to lie on the table.

 TEXT OF AMENDMENTS

SA 3232. Mr. MARKEY (for himself and Mr. MENENDEZ) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, to provide for the modernization of the energy policy of the United States and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. 105. DISPOSITION OF QUALIFIED OUTER CONTINENTAL SHELF REVENUES FROM 181 AREA, 181 SOUTH AREA, AND 2002-2007 PLANNING AREAS OF GULF OF MEXICO.

Notwithstanding section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338) and subject to the other provisions of this section, for each applicable fiscal year, the Secretary of the Treasury shall deposit—

(1) 87.5 percent of qualified outer Continental Shelf revenues in the general fund of the Treasury; and

(2) 12.5 percent of qualified outer Continental Shelf revenues in a special account in the general fund of the Treasury, to be available to the Secretary for the purposes provided for in this section.

SA 3233. Mr. WARNER (for himself and Mr. KAIN) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 12, to provide for the modernization of the energy policy of the United States and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

TITLE VI—MISCELLANEOUS

SEC. 6001. INTERAGENCY TRANSFER OF LAND ALONG GEORGE WASHINGTON MEMORIAL PARKWAY.

(a) DEFINITION.—In this section—

(1) SECRETARY.—The term ‘‘Secretary’’ means the Secretary of Transportation.

(2) RESEARCH CENTER.—The term ‘‘Research Center’’ means the Federal Highway Administration’s Turner-Fairbank Highway Research Center.

(b) MAP.—The term ‘‘Map’’ means the map titled ‘‘George Washington Memorial Parkway—Mode of Mobility Boundaries Adjustment’’, numbered SSO 130815, and dated December 2015.

(c) ADMINISTRATIVE JURISDICTION TRANSFER.—

(1) TRANSFER OF JURISDICTION.—The Secretary and the Secretary of Transportation, as appropriate, are authorized to exchange administrative jurisdiction over Federal lands within the boundaries of the George Washington Memorial Parkway, generally depicted as ‘‘A’’ on the Map, and

(2) USE RESTRICTION.—The Secretary shall restrict the use of 0.139 acres of Federal land within the boundary of the George Washington Memorial Parkway, generally depicted as ‘‘B’’ on the Map, by prohibiting the storage, construction, or installation of any item that may interfere with the Research Center’s access to the land for security and maintenance purposes.

(d) REIMBURSEMENT OR CONSIDERATION.—

The transfers of administrative jurisdiction under this section shall occur without reimbursement or consideration.

(2) COMPLIANCE WITH AGREEMENT.—

(A) AGREEMENT.—The National Park Service and the Federal Highway Administration shall comply with all terms and conditions of the Agreement entered into by the parties on September 11, 2002, regarding the transfer of administrative jurisdiction, management, and maintenance of the lands discussed in that Agreement.

(B) ACCESS TO RESTRICTED LAND.—

(i) IN GENERAL.—Subject to clauses (ii) and (iii), the Secretary shall allow the Research Center and the Secretary of Transportation to access the land described in paragraph (1)(B) for purposes of transportation to and from the Research Center and maintenance in accordance with National Park Service standards, including (i) grazing, (ii) weed control, (iii) tree maintenance, (iv) fence maintenance, and (v) maintenance of the visual appearance of the land.

(ii) RESTRICTED USE.—No tree on the land described in paragraph (1)(B) that is 6 inches or more in diameter shall be pruned or removed without the advance written permission of the Secretary.

(iii) PESTICIDES.—The use of pesticides on the land described in paragraph (1)(B) shall be approved in writing by the Secretary prior to application of the pesticide.

(c) MANAGEMENT OF TRANSFERRED LANDS.—

(i) INTERIOR LAND.—The Federal land transferred to the Secretary under this section shall be included in the boundaries of the George Washington Memorial Parkway and shall be administered by the National Park Service as part of the Parkway subject to applicable laws and regulations.

(ii) TRANSPORTATION LAND.—The Federal land transferred to the Secretary under this section shall be included in the boundaries of the George Washington Memorial Parkway and shall be removed from the boundary of the Parkway.

(iii) RESTRICTED-USE LAND.—The Federal land transferred to the Secretary under this section shall be included in the boundaries of the George Washington Memorial Parkway and shall be removed from the boundary of the Parkway.
(d) MAP ON FILE.—The Map shall be available for public inspection in the appropriate offices of the National Park Service, Department of Interior.

SA 3234. Ms. MURKOWSKI (for herself and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI, S. 2012, to authorize and provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At end, add the following:

SEC. 6001. ARAPAHO NATIONAL FOREST BOUNDARY ADJUSTMENT.

(a) IN GENERAL.—The boundary of the Arapaho National Forest in the State of Colorado is adjusted to incorporate the approximately 92.96 acres of land generally depicted as “The Wedge” on the map entitled “Arapaho National Forest Boundary Adjustment” and dated November 6, 2013, and described as lots three, four, eight, and nine of section 13, Township 1 North, Range 76 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(b) TIME FOR CONVEYANCE; PAYMENT OF COSTS.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.

SEC. 6002. LAND EXCHANGE IN CRAGS, COLORADO.

(a) PURPOSES.—The purposes of this section are—

(1) to authorize, direct, expedite, and facilitate the land exchange set forth herein; and

(2) to promote enhanced public outdoor recreational and natural resource conservation opportunities in the Pike National Forest near Pikes Peak, Colorado, via acquisition of the non-Federal land and trail easement.

(b) DEFINITIONS.—In this section:

(1) BHI.—The term “BHI” means Broadmoor Hotel, Inc., a Colorado corporation.

(2) FEDERAL LAND.—The term “Federal land” means all right, title, and interest of the United States in and to approximately 83 acres of land within the Pike National Forest, El Paso County, Colorado, together with a non-exclusive perpetual access easement to BHI to and from such land on Forest Service Road 371, as generally depicted on the map entitled “Proposed Crags Land Exchange—Federal Parcel—Emerald Valley Ranch”, dated March 2015.

(3) NON-FEDERAL LAND.—The term “non-Federal land” means all right, title, and interest of the United States in and to approximately 83 acres of land within the Pike National Forest, El Paso County, Colorado, as generally depicted on the map entitled “Proposed Crags Land Exchange—Non-Federal Parcel—Crags Property”, dated March 2015; and

(4) PERMANENT TRAIL.—BHI and the owners of any non-Federal lands within the boundary described in subsection (a), shall be considered to be the boundaries of the Arapaho National Forest as in existence on January 1, 1963.

(c) ACCESS TO NON-FEDERAL LANDS.—Nothing in this section opens privately owned lands within the boundary described in subsection (a) to public motorized use.

(d) AUTOMOBILE ROAD.—In this section, “automobile road” means an automobile road that has been completed.

(e) WITHDRAWAL PROVISIONS.—No withdrawal orappers are in effect on the date of the enactment of this Act, including reimbursement to the Secretary, if the Secretary so requests, for staff time spent in such processing and consummation.

SEC. 6003. LAND EXCHANGE, ELKHORN RANCH AND WHITE RIVER NATIONAL FOR-EST.

(a) LAND CONVEYANCE REQUIRED.—Consistent with the purpose of the Act of March 3, 1909 (36 U.S.C. 772), all right, title, and interest of the United States (subject to subsection (b) in and to a parcel of land consisting of approximately 148 acres as generally depicted on the map entitled “Elkhorn Ranch Parcel—White River National Forest” and dated March 2015 shall be conveyed by patent to the Gordiner-Leverich Partnership, a Colorado Limited Liability Partnership (in this section referred to as “GLP”).

(b) EXISTING RIGHTS.—The conveyance under subsection (a) (1) shall be subject to the existing rights of the lessee of Federal oil and gas lease COC-75070 and any other valid existing rights; and

(2) shall reserve to the United States the right to collect rent and royalty payments on the lease referred to in paragraph (1) for the duration of the lease.

(c) EXISTING EASEMENTS.—The conveyance under subsection (a) does not modify the exterior boundary of the White River National Forest or the boundaries of Sections 18 and 19 of Township 9 South, Range 53 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(d) PERMANENT TRAIL.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.

SEC. 6004. ARAPAHO NATIONAL FOREST AMENDMENT.

(a) IN GENERAL.—The boundary of the Arapaho National Forest in the State of Colorado is adjusted to incorporate the approximately 92.96 acres of land generally depicted as “The Wedge” on the map entitled “Arapaho National Forest Boundary Adjustment” and dated November 6, 2013, and described as lots three, four, eight, and nine of section 13, Township 1 North, Range 76 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(b) TIME FOR CONVEYANCE; PAYMENT OF COSTS.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.

SEC. 6005. ARAPAHO NATIONAL FOREST BOUNDARY ADJUSTMENT.

(a) IN GENERAL.—The boundary of the Arapaho National Forest in the State of Colorado is adjusted to incorporate the approximately 92.96 acres of land generally depicted as “The Wedge” on the map entitled “Arapaho National Forest Boundary Adjustment” and dated November 6, 2013, and described as lots three, four, eight, and nine of section 13, Township 1 North, Range 76 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(b) TIME FOR CONVEYANCE; PAYMENT OF COSTS.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.

SEC. 6006. ARAPAHO NATIONAL FOREST BOUNDARY ADJUSTMENT.

(a) IN GENERAL.—The boundary of the Arapaho National Forest in the State of Colorado is adjusted to incorporate the approximately 92.96 acres of land generally depicted as “The Wedge” on the map entitled “Arapaho National Forest Boundary Adjustment” and dated November 6, 2013, and described as lots three, four, eight, and nine of section 13, Township 1 North, Range 76 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(b) TIME FOR CONVEYANCE; PAYMENT OF COSTS.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.

 SEC. 6007. ARAPAHO NATIONAL FOREST BOUNDARY ADJUSTMENT.

(a) IN GENERAL.—The boundary of the Arapaho National Forest in the State of Colorado is adjusted to incorporate the approximately 92.96 acres of land generally depicted as “The Wedge” on the map entitled “Arapaho National Forest Boundary Adjustment” and dated November 6, 2013, and described as lots three, four, eight, and nine of section 13, Township 1 North, Range 76 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(b) TIME FOR CONVEYANCE; PAYMENT OF COSTS.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.

SEC. 6008. ARAPAHO NATIONAL FOREST BOUNDARY ADJUSTMENT.

(a) IN GENERAL.—The boundary of the Arapaho National Forest in the State of Colorado is adjusted to incorporate the approximately 92.96 acres of land generally depicted as “The Wedge” on the map entitled “Arapaho National Forest Boundary Adjustment” and dated November 6, 2013, and described as lots three, four, eight, and nine of section 13, Township 1 North, Range 76 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(b) TIME FOR CONVEYANCE; PAYMENT OF COSTS.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.

SEC. 6009. ARAPAHO NATIONAL FOREST BOUNDARY ADJUSTMENT.

(a) IN GENERAL.—The boundary of the Arapaho National Forest in the State of Colorado is adjusted to incorporate the approximately 92.96 acres of land generally depicted as “The Wedge” on the map entitled “Arapaho National Forest Boundary Adjustment” and dated November 6, 2013, and described as lots three, four, eight, and nine of section 13, Township 1 North, Range 76 West, Sixth Principal Meridian, Colorado, as such boundaries are in effect on the date of the enactment of this Act.

(b) TIME FOR CONVEYANCE; PAYMENT OF COSTS.—The conveyance directed under subsection (a) shall be completed not later than 180 days after the date of the enactment of this Act, and no such road shall be constructed without the necessary permits and consultation, except that all costs incurred by the Secretary of the Interior relating to any survey, platting, legal description, or other activities carried out to prepare and issue the patent shall be paid by GLP to the Secretary prior to the land conveyance.
(A) WITHDRAWAL.—Lands acquired by the Secretary under this section shall, without further action by the Secretary, be permanently withdrawn from all forms of appropriation or disposal under the public land laws (including the mining and mineral leasing laws) and the Geothermal Steam Act of 1930 (30 U.S.C. 1001 et seq.).

(B) LOCATION.—Any public land order that withdraws the Federal land from appropriation or disposal under a public land law shall be revoked to the extent necessary to permit disposal of the Federal land parcel to BHI.

(C) WITHDRAWAL OF FEDERAL LAND.—All Federal land authorized to be exchanged under paragraph (1) that is already withdrawn or segregated from appropriation or disposal under the public lands laws upon enactment of this Act, is hereby so withdrawn, subject to valid existing rights, until the date of conveyance of the Federal land to BHI.

(2) POSTEXCHANGE LAND MANAGEMENT.—Land acquired by the Secretary under this section shall become part of the Pike-San Isabel National Forest and be managed in accordance with the laws, rules, and regulations applicable to the National Forest System.

(3) EXCHANGE TIMELINE.—It is the intent of Congress that the land exchange directed by this section be consummated no later than 1 year after the date of the enactment of this Act.

(4) MAPS, ESTIMATES, AND DESCRIPTIONS.—

(A) MINOR ERRORS.—The Secretary and BHI may, by mutual agreement, make minor boundary adjustments to the Federal and non-Federal lands involved in the exchange, and may correct any minor errors in any map, legal description, or description of any land to be exchanged.

(B) CONFLICT.—If there is a conflict between a map, an acreage estimate, or a description of land under this section, the map shall control unless the Secretary and BHI mutually agree otherwise.

(C) AVAILABILITY.—Upon enactment of this Act, the Secretary shall file and make available for public inspection in the headquarters of the Pike-San Isabel National Forest a copy of all maps referred to in this section.

SEC. 6004. CERRO DEL YUTA AND RÍO SAN ANTONIO WILDERNESS AREAS.

(a) DEFINITIONS.—In this section:

(2) ‘‘Secretary’’ means the Secretary of the Interior.

(3) ‘‘WILDERNESS AREA’’ means a wilderness area designated by subsection (b)(1).

(b) DESIGNATION OF CERRO DEL YUTA AND RÍO SAN ANTONIO WILDERNESS AREAS.—

(1) IN GENERAL.—In accordance with the Wilderness Act (16 U.S.C. 1131 et seq.), and the National Land Policy and Management Act of 1976 (43 U.S.C. 1732 et seq.), and section 603(c) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1732(c)), the Secretary shall designate as wilderness areas areas within the Río Grande del Norte National Monument.

(2) MANAGEMENT OF WILDERNESS AREAS.—Subject to valid existing rights, the wilderness areas shall be administered in accordance with this Act and the Wilderness Act (16 U.S.C. 1131 et seq.), and shall be referred to as the ‘‘Cerro Del Yuta Wilderness’’ and the ‘‘Río San Antonio Wilderness’’. The Secretary shall inventory the wilderness areas by the appropriate offices of the Bureau of Land Management.

(3) IMPROVEMENTS.—Nothing in this section precludes the activity or use of any improvements on the lands designated as wilderness areas.

(4) WITHDRAWAL.—Subject to valid existing rights, any Federal land within the wilderness areas designated by paragraph (1), including any land or interest in land that is acquired by the United States after the date of enactment of this Act, is withdrawn from—

(A) entry, appropriation, or disposal under the public land laws;

(B) location, entry, and patent under the mining laws; and

(C) operation of the mineral leasing, mineral materials, and geothermal leasing laws.

(5) TREATY RIGHTS.—Anything in this section shall not preclude the exercise of any treaty right.

SEC. 6005. CLARIFICATION RELATING TO A CERTAIN LAND DESCRIPTION UNDER THE NORTHERN ARIZONA LAND EXCHANGE AND VERDE RIVER BASIN PARTNERSHIP ACT OF 2005.

Section 104(a)(5) of the Northern Arizona Land Exchange and Verde River Basin Partnership Act of 2005 (Public Law 109–110; 119 Stat. 2356) is amended by inserting before the period at the end ‘‘, which, notwithstanding section 101(a)(4)(B), includes the N/2, NE1/4, SW1/4, NW1/4, the NW1/4, N1/2, SE1/4, SW1/4, and the N1/2, N1/2, SW1/4, SE1/4, sec. 34, T. 22 N., R. 2 E., Gila and Salt River Meridian, Coconino County, comprising the ‘‘North Domes’’’.

SEC. 6006. COOPER SPUR LAND EXCHANGE CLARIFICATION AMENDMENTS.

Section 1206(a) of the Public Land Management Act of 2009 (Public Law 111–11; 123 Stat. 1018) is amended—

(1) in paragraph (1)—

(A) in subparagraph (C), by striking ‘‘120 acres’’ and inserting ‘‘107 acres’’; and

(B) in subparagraph (E)(ii), by inserting ‘‘improvements,’’ after ‘‘buildings,’’; and

(2) in paragraph (2)—

(A) in subparagraph (D)—

(i) in clause (i), by striking ‘‘As soon as practicable after the date of enactment of this Act, the Secretary and Mt. Hood Meadows shall select’’ and inserting ‘‘Not later than 120 days after the date of the enactment of the Energy Policy Modernization Act of 2016, the Secretary and Mt. Hood Meadows shall jointly select’’;

(ii) in clause (ii), in the matter preceding subclause (I), by striking ‘‘An appraisal under clause (i) shall assign a separate value to each tax lot to allow for the equalization of values and’’; and

(iii) by adding at the end the following:

‘‘(III) FINAL APPRAISED VALUE.—

(1) IN GENERAL.—Subject to subclause (II), after the final appraised value of the Federal land and the non-Federal land are determined and approved by the Secretary, the Secretary shall not be required to reappraise or update the final appraised value for a period of up to 3 years, beginning on the date of the approval by the Secretary of the final appraised value.

(2) IN GENERAL.—Subclause (I) shall not apply if the condition of either the Federal land or the non-Federal land referred to in subclause (I) is significantly and substantially altered by fire, windstorm, or other events.

(iv) PUBLIC REVIEW.—Before completing the land exchange under this Act, the Secretary and Mt. Hood Meadows shall make available for public review the complete appraisals of the land to be exchanged.’’; and

(B) by striking subparagraph (G) and inserting the following:

‘‘(G) REQUIRED CONVEYANCE CONDITIONS.—Prior to the exchange of the Federal and non-Federal land—

(i) the Secretary and Mt. Hood Meadows may mutually agree for the Secretary to reserve a conservation easement to protect the
be considered to be a volunteer under section 102301(c) of title 54, United States Code;
(C) chapter 171 of title 28, United States Code (commonly known as the "Federal Tort Claims Act") to an eligible organization or individual carrying out a privately requested good Samaritan search-and-recovery mission under this section; and
(D) chapter 22 of title 5, United States Code (commonly known as the "Federal Employers Compensation Act"), shall not apply to an eligible organization or individual conducting a search-and-recovery mission under this section, and the conduct of the good Samaritan search-and-recovery mission shall not constitute civilian employment.
(c) RELEASE OF FEDERAL GOVERNMENT LIABILITY.—The Secretary shall not be liable for any reason to the Federal Government from all liability relating to the Federal land.
(d) APPROVAL AND DENIAL OF REQUESTS.—
(1) IN GENERAL.—The Secretary shall notify the eligible organization or individual of any action that the Secretary takes to approve or deny a request for the Secretary to accommodate development of the Federal land.
(2) WITHDRAWAL.—Subject to valid existing laws, the Secretary shall withdraw the Federal land from the public land laws, the mining laws, the mineral leasing laws, the Federal Land Policy and Management Act of 1976, the Federal Aid Highway Act, and the Federal Aid Road Act (42 U.S.C. 2031), and withdraw all rights to construct, reconstruct, maintain, and provide access to Federal trails located on Federal land under the administrative jurisdiction of the Secretary, if the Secretary determines that the withdrawal is in the public interest.
(e) PARTNERSHIPS.—Each Secretary shall develop partnerships described in subsection (b)(2) to accommodate development of the Federal land.
(f) INCLUSIONS.—The process developed and implemented under this subsection shall include provisions to clarify that—
(1) an eligible organization or individual granted a search and recovery mission under this section shall not be required to have liability insurance as a condition of accessing Federal land subject to the notice, if the eligible organization or individual—
(A) acknowledges and consents, in writing, to the provisions described in subparagraphs (A) through (D) of subsection (b)(2); and
(B) shall be considered a donation by Mt. Hood Meadows under subparagraph (A) except to the extent that the appraised value of the area subject to exchange under this Act, the Secretary shall notify the eligible organization or individual of any action that the Secretary takes to approve or deny a request for the Secretary to accommodate development of the Federal land.
(ii) EFFECT.—A legal description published under clause (i) shall have the same force and effect as if included in this section, except that the Secretary may correct any clerical and typographical errors in the legal description.
(iii) AVAILABILITY.—Copies of the legal description published under clause (i) shall be available for public inspection in the appropriate office of—
(A) the Bureau of Land Management; and
(B) the National Capital Preservation Trust.
(iv) COSTS.—The Secretary of Veterans Affairs shall reimburse the Secretary for the costs incurred by the Secretary in carrying out or implementing the provisions described in subparagraphs (A) and (B) of clause (i).
(2) RESTORATION TO PUBLIC LAND STATUS.—
(a) DEFINITIONS.—In this section:
(i) CEMETERY.—The term "Cemetery" means the approximately 200 acres of Federal land subject to a notice under paragraph (1).
(ii) RESTORATION TO PUBLIC LAND STATUS.—
(1) IN GENERAL.—No provision of this Act shall be considered to be a violation of the Mining Law of 1872, the Mineral Leasing Act of 1920, the Federal Aid Highway Act, or the Federal Aid Road Act.
(2) LIMITATION.—
(A) $4,000,000; and
(B) any actions that the eligible organization or individual can take to meet the requirements for the request to be approved.
(e) PARTNERSHIPS.—Each Secretary shall develop search-and-recovery-focused partnerships with search-and-recovery organizations.
(1) to coordinate good Samaritan search-and-recovery missions on Federal land under the administrative jurisdiction of the Secretary and
(2) to expedite and accelerate good Samaritan search-and-recovery mission efforts for missing individuals on Federal land under the administrative jurisdiction of the Secretary.
(f) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to Congress a joint report describing—
(1) plans to develop partnerships described in subsection (e)(1); and
(2) efforts carried out to expedite and accelerate good Samaritan search-and-recovery mission efforts for missing individuals on Federal land under the administrative jurisdiction of the Secretary pursuant to subsection (e)(2).
(g) USE.—
SEC. 6101. REFUND OF FUNDS USED BY STATES TO OPERATE NATIONAL PARKS DURING COVID-19.

(a) In General.—The Director of the National Park Service shall refund to each State all funds of the State that were used to reopen and temporarily operate a unit of the National Park System during the period in October 2020 in which there was a lapse in appropriations for the unit.

(b) Funding.—Funds of the National Park Service that are appropriated after the date of enactment of this Act shall be used to carry out the requirements of this section.

SEC. 6102. LOWER FARMINGTON AND SALMON BROOK RECREATIONAL RIVERS.

(a) Designation.—Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)) is amended by adding at the end the following new paragraph:

"(223) LOWER FARMINGTON RIVER AND SALMON BROOK, CONNECTICUT.—Segments of the main stem and its tributary, Salmon Brook, totaling approximately 62 miles, to be administered by the Secretary of the Interior as follows:

"(1) The approximately 27.2-mile segment of the Farmington River beginning 0.2 miles below the tailrace of the Lower Collinsville Dam and extending to the site of the Spoonville Dam in Bloomfield and East Granby as a recreational river.

"(2) The approximately 8.1-mile segment of the Farmington River extending from 0.5 miles below the Rainbow Dam to the confluence with the Connecticut River in Windsor as a recreational river.

"(3) The approximately 2.4-mile segment of the main stem of Salmon Brook extending from the confluence of the East and West Branches to the confluence with the Farmington River as a recreational river.

"(4) The approximately 12.6-mile segment of the West Branch of Salmon Brook extending from its headwaters in Hartland, Connecticut to its confluence with the East Branch of Salmon Brook as a recreational river.

"(5) The approximately 11.4-mile segment of the East Branch of Salmon Brook extending from the Massachusetts-Connecticut State line to the confluence with the West Branch of Salmon Brook as a recreational river."

(b) Management.—

(1) In general.—The river segments designated by subsection (a) shall be managed in accordance with the management plan and such amendments to the management plan as the Secretary determines are consistent with this section. The management plan shall be deemed to satisfy the requirements for a comprehensive management plan pursuant to section 3(d) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(d)).

(2) Committee.—The Secretary shall coordinate the management responsibilities of the Secretary under this section with the Lower Farmington and Salmon Brook Wild and Scenic Committee, as specified in this section.

SEC. 6103. SPECIAL RESOURCE STUDY OF PRESIDENT’S NATIONAL PARK.

(a) Definitions.—In this section:

"(1) MANAGEMENT PLAN.—The term "management plan'' means the management plan prepared by the Salmon Brook Wild and Scenic Study Committee entitled the "Lower Farmington and Salmon Brook Management Plan'' and dated June 2011.

"(2) SECRETARY.—The term "Secretary'' means the Secretary of the Interior.

(b) Study Area.—The term "study area'' means the President Street Station, a railroad station in Baltimore, Maryland, the history of which is tied to the growth of the railroad industry in the 19th century, the Civil War, the Underground Railroad, and the immigrant influx of the early 20th century.

SEC. 6104. SPECIAL RESOURCE STUDY OF THURGOOD MARSHALL’S ELEMENTARY SCHOOL.

(a) Definitions.—In this section:

"(1) SECRETARY.—The term "Secretary'' means the Secretary of the Interior.

"(2) Study Area.—The term "study area'' means:

"(A) the Lower Farmington and Salmon Brook, Connecticut.

"(B) the National Park System;

"(C) a determination that the study area meets the criteria for eligibility of the study area as a unit of the National Park System;

"(D) the Farmington River, Connecticut, District;

"(E) the Farmington River, Connecticut, District Study Committee entitled the "Farmington River, Connecticut, District Study Plan''

"(F) the Farmington River, Connecticut, District Study Plan; and

"(G) the Farmington River, Connecticut, District Study Plan as the Secretary determines are consistent with the management plan and may include provisions for financial or other assistance from the United States.

(b) Cooperative Agreements.—

(1) In General.—In order to provide for the long-term protection, preservation, and enhancement of the river segment designated by section 6(d) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(d)), the Secretary may—

(i) enter into a cooperative agreement under section 10(e) of the Wild and Scenic Rivers Act with—

(II) in the State of Connecticut:

(I) the towns of Avon, Bloomfield, Burlington, East Granby, Farmington, Granby, Hartford, Simsbury, and Windsor in Connecticut;

(ii) appropriate local planning and environmental organizations.

(2) Acquisition of Land.—All cooperative agreements entered into pursuant to paragraph (1) shall be consistent with the management plan and may include provisions for financial or other assistance from the United States.

(3) Cooperative Agreements.—

(a) In General.—In order to provide for the long-term protection, preservation, and enhancement of the river segment designated by section 6(d) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(d)), the Secretary may—

(i) enter into a cooperative agreement under section 10(e) of the Wild and Scenic Rivers Act with—

(II) in the State of Connecticut:

(I) the towns of Avon, Bloomfield, Burlington, East Granby, Farmington, Granby, Hartford, Simsbury, and Windsor in Connecticut;

(ii) appropriate local planning and environmental organizations.

(b) Acquisition of Land.—All cooperative agreements entered into pursuant to paragraph (1) shall be consistent with the management plan and may include provisions for financial or other assistance from the United States.

(4) Authorization of Appropriations.—The Secretary shall, in carrying out this section, be subject to the additional requirements of section 6(c) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(c)).
(D) consult with interested Federal agencies, State or local governmental entities, private and nonprofit organizations, or any other interested individuals; and

(E) consult with any other Federal agency for any Federal acquisition, development, interpretation, operation, and maintenance associated with the alternatives.

(3) SUITABILITY LAW.—The study required under paragraph (1) shall be conducted in accordance with section 100507 of title 54, United States Code.

(4) REPORT.—Not later than 3 years after the date on which funds are first made available to carry out the study under paragraph (1), the Secretary shall submit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report that describes—

(A) the results of the study; and

(B) any conclusions and recommendations of the Secretary.

SEC. 6105. SPECIAL RESOURCE STUDY OF JAMES K. POLK PRESIDENTIAL HOME.

(a) IN GENERAL.—The Secretary of the Interior (referred to in this section as the “Secretary”) shall conduct a special resource study of the site of the James K. Polk Home in Columbia, Tennessee, and adjacent property (referred to in this section as the “site”).

(b) CRITERIA.—The Secretary shall conduct the study under subsection (a) in accordance with section 100507 of title 54, United States Code.

(c) CONTENTS.—In conducting the study under subsection (a), the Secretary shall—

(1) evaluate the national significance of the site;

(2) determine the suitability and feasibility of designating the site as a unit of the National Park System; and

(3) include cost estimates for any necessary acquisition, development, operation, and maintenance of the site;

(4) consult with interested Federal, State, or local governmental entities, private and nonprofit organizations, or other interested individuals; and

(5) identify alternatives for the management, administration, and protection of the site.

(d) REPORT.—Not later than 3 years after the date on which funds are made available to carry out the study under subsection (a), the Secretary shall submit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report that describes—

(1) the findings and conclusions of the study; and

(2) any recommendations of the Secretary.

SEC. 6106. NORTHERN COUNTRY NATIONAL SCENIC TRAIL ROUTE ADJUSTMENT.

(a) ROUTE ADJUSTMENT.—Section 5a(a)(8) of the National Trails System Act (16 U.S.C. 1249a(a)(8)) is amended in the first sentence—

(1) by striking “thirty two hundred miles, extending from eastern New York State” and inserting “4,600 miles, extending from the Appalachian Trail in Vermont”;

and

(2) by striking “Proposed North Country Trail” and all that follows through “June 1975,” and inserting “North Country National Scenic Trail, Authorized Route”.

(b) NO CONDEMNATION.—Section 5a(a)(6) of the National Trails System Act (16 U.S.C. 1249a(a)(6)) is amended by adding at the end the following: “No land or interest in land outside of the exterior boundary of any Federal interior area may be acquired by the Federal Government for the trail by condemnation.”

SEC. 6107. DESIGNATION OF JAY S. HAMMOND WILDERNESS AREA.

(a) DESIGNATION.—The approximately 2,600,000 acres of National Wilderness Preservation System land located within the Lake Clark National Park and Preserve designated by section 201(e)(7)(a) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 410hh(e)(7)(a)) shall be known and designated as the “Jay S. Hammond Wilderness Area”.

(b) REFERENCES.—Any reference in a law, map, regulation, or other official record of the United States to the wilderness area referred to in subsection (a) shall be deemed to reference to the “Jay S. Hammond Wilderness Area”.

SEC. 6108. ADVISORY COUNCIL ON HISTORIC PRESERVATION.

Section 505 of title 54, United States Code, is amended—

(1) by redesignating paragraphs (8), (9), (10), and (11) as paragraphs (9), (10), (11), and (12), respectively; and

(2) by inserting after paragraph (7) the following:

“(8) The General Chairman of the National Association of Tribal Historic Preservation Officers.”.

SEC. 6109. ESTABLISHMENT OF A VISITOR SERVICES FACILITY ON THE ARLINGTON RIDGE TRACT.

(a) DEFINITION OF ARLINGTON RIDGE TRACT.—In this section, the term “Arlington Ridge tract” means the parcel of Federal land located in Arlington County, Virginia, known as the “Nevis Tract” and transferred to the Department of the Interior in 1953, that is bounded generally by—

(1) Arlington Boulevard (United States Route 50) to the north;

(2) Jefferson Davis Highway (Virginia Route 110) to the west;

(3) Marshall Drive to the south; and

(4) North Meade Street to the west.

(b) ESTABLISHMENT OF VISITOR SERVICES FACILITY.—Notwithstanding section 286(c) of the Military Construction Authorization Act for Fiscal Year 2002 (Public Law 107–107; 115 Stat. 1332), the Secretary of the Interior may construct a structure for visitor services to include a public restroom facility on the Arlington Ridge tract in the area of the United States Marine Corps War Memorial.

Subtitle E—Sportsmen’s Access to Land

Management Issues

PART I—NATIONAL POLICY

SEC. 6201. CONGRESSIONAL DECLARATION OF NATIONAL POLICY.

(a) IN GENERAL.—Congress declares that it is the policy of the United States that Federal departments and agencies, in accordance with the missions of the departments and agencies, Executive Orders 12962 and 13187, and applicable Federal regulations, act in accordance with section 302(b) of the Safe, Clean, and Secure National Forests Act of 2001 (Public Law 107–88; 115 Stat. 855), to prevent the destruction of sportsmen’s access to Federal land in which fish are harvested, either in whole or in part, that are intended to enter commerce through sale.

PART II—SPORTSMEN’S ACCESS TO FEDERAL LAND

SEC. 6211. DEFINITIONS.

In this part:

(1) FEDERAL LAND.—The term “Federal land” means—

(A) any land in the National Forest System (as defined in section 11(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)) that is administered by the Secretary of Agriculture, acting through the Chief of the Forest Service; and

(B) public lands (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1720)), the surface of which is administered by the Secretary of the Interior, acting through the Director of the Bureau of Land Management.

(2) SECRETARY.—The term “Secretary” means—

(A) the Secretary of Agriculture, with respect to land described in paragraph (1)(A); and

(B) the Secretary of the Interior, with respect to land described in paragraph (1)(B).

SEC. 6212. FEDERAL LAND OPEN TO HUNTING, FISHING, AND RECREATIONAL SHOOTING.

(a) IN GENERAL.—Subject to subsection (b), Federal land shall be open to hunting, fishing, and recreational shooting, in accordance with applicable law, unless the Secretary concerned closes an area in accordance with section 6213.

(b) EFFECT OF PART.—Nothing in this part opens to hunting, fishing, or recreational shooting any land that is not open to those activities as of the date of enactment of this Act.

SEC. 6213. CLOSURE OF FEDERAL LAND TO HUNTING, FISHING, AND RECREATIONAL SHOOTING.

(a) AUTHORIZATION.—

(1) IN GENERAL.—Subject to paragraph (2) and in accordance with section 322(b) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1723(b)), the Secretary concerned may designate any area on Federal land in which, and establish any period during which, for reasons of public safety, administration, or compliance with applicable laws, no hunting, fishing, or recreational shooting shall be permitted.

(2) REQUIREMENT.—In making a designation under paragraph (1), the Secretary concerned shall designate the smallest area for the least amount of time that is required for public safety, administration, or compliance with applicable laws.

(b) CLOSURE PROCEDURES.—

(1) IN GENERAL.—Except in an emergency, before permanently or temporarily closing any Federal land to hunting, fishing, or recreational shooting, the Secretary concerned shall—

(A) consult with State fish and wildlife agencies; and

(B) provide public notice and opportunity for comment under paragraph (2).

(2) PUBLIC NOTICE AND COMMENT.—

(A) IN GENERAL.—Public notice and comment shall include—

(i) a notice of intent—

(I) published in advance of the public comment period for the closure;

(aa) in the Federal Register; and

(bb) on the website of the applicable Federal agency;

(cc) on the website of the Federal land unit, if available; and

(dd) in at least 1 local newspaper;

and

(ii) (II) made available in advance of the public comment period to local offices, chapters, and organizations designated by the Secretary as having a substantial history of being involved in the management and administration of the Federal land or in the development of management plans for the Federal land.

(3) A Federal land unit shall be open to hunting, fishing, and recreational shooting if the Secretary concerned determines that the land is available for such activities.
SEC. 6214. SHOOTING RANGES.

(a) In General.—Except as provided in subsection (b), the Secretary concerned may, in accordance with this section and other applicable law, lease or permit the use of Federal land for a shooting range, within—

(1) a component of the National Landscape Conservation System;

(b) Exception.—The Secretary concerned shall not lease or permit the use of Federal land for a shooting range, within—

(1) a component of the National Landscape Conservation System;
and (ii) by striking “of such title” and inserting “of this title”.

(b) COMMERCIAL FUND TRANSPARENCY.—Sec-

tion 1304 of title 31, United States Code, is amended by adding at the end the following:

“(b) JUDGMENT FUND TRANSPARENCY.—Sec-

tion 2412 of title 28, United States Code, is amended by inserting at the end the fol-

lowing:

“(1) A brief description of the facts that
gave rise to the claim.

“(2) The name of the plaintiff or claimant.

“(3) The date on which the action was
brought.

“(4) The amount paid representing prin-
cipal liability, and any amounts paid rep-
resenting any ancillary liability, including
attorney fees and costs, and interest.

“(5) A brief description of the facts that
gave rise to the claim.

“(6) The name of the agency that sub-
mitted the claim.

PART III—FILMING ON FEDERAL LAND

MANAGEMENT AGENCY LAND

SEC. 6221. COMMERCIAL FILMING.

(a) IN GENERAL.—Section 1 of Public Law
106–206 (16 U.S.C. 661–661d) is amended—

(1) by redesignating subsections (a) through (f) as subsections (b) through (g), re-
spectively;

(2) by inserting before subsection (b) (as so redesignated) the following:

“(a) DEFINITION OF SECRETARY.—The term
’Secretary’ means the Secretary of the In-
terior or the Secretary of Agriculture, as ap-
pllicable, with respect to land under the re-

spective jurisdiction of the Secretary.”;

(3) in subsection (b) (as so redesignated)—

(A) in paragraph (1)—

(i) in the first sentence, by striking “of the
Interior or the Secretary of Agriculture
(hereafter individually referred to as the ‘Sec-
tary’, and collectively referred to as the Sec-
taries’) shall publish a single joint land use fee schedule for com-
mercial filming and still photography;”;

(ii) in paragraph (2)—

(1) by striking “‘commercial filming’ includes,
at a minimum, the gathering, recording, and
filming of news and information related to
news in any medium.”;

(b) CONFORMING AMENDMENTS.—Chapter
1009 of title 54, United States Code, is amend-
ed by—

(1) by striking section 100905; and

(2) in the table of sections for chapter 1009
of title 54, United States Code, by striking the
item relating to section 100905.

PART IV—BOWS, WILDLIFE MANAGEMENT, AND ACCESS OPPORTUNITIES FOR RECREATION, HUNTING, AND FISHING

SEC. 6231. BOWS IN PARKS.

(a) IN GENERAL.—Chapter 1049 of title 54,
United States Code (as amended by section
6231(b)), is amended by adding at the end the fol-

lowing:

“§104909. Bows in parks.

“(a) DEFINITION OF NOT READY FOR IMME-
DIATE USE.—The term ‘not ready for imme-

diate use’ means—

“(1) a bow or crossbow, the arrows of which
are secured or stowed in a quiver or other
arrow transport case; and

“(2) with respect to a crossbow, uncocked.

“(b) VEHICLE TRANSPORTATION AUTHOR-
IZED.—The Director shall not promulgate or
enforce regulations that prohibit an indi-

vidual from transporting bows and cross-
bows; and

“(c) WITH RESPECT TO LAND ADMINISTERED
BY A FEDERAL LAND MANAGEMENT AGENCY.

(1) LAND ADMINISTERED.—The term
‘land administered’ means—

“(A) the Secretary of the Interior, with re-
spect to land under the respective jurisdic-
tion of the Secretary of the Interior;

“(B) a regional office of—

(i) the Fish and Wildlife Service;

(ii) the National Park Service.

(2) MANAGEMENT OF TRAVEL.—The term
‘management of travel’ means—

“(A) state or regional office;

(B) the Chief of the Forest Service.

(3) TRAVEL MANAGEMENT PLAN.—The term
‘travel management plan’ means a plan for the
management of travel—

(A) with respect to land under the jurisdic-
tion of the National Park Service, on park
roads and designated routes under section
4.10 of title 36, Code of Federal Regulations
(or successor regulations);

(B) with respect to land under the jurisdic-
tion of the Bureau of Land Management, under a resource management plan developed
under the Federal Land Policy and Mana-

(4) PRIORITY LISTS.—The term ‘priority lists’ means—

(A) the Secretary shall publish a single joint land use fee schedule for commercial
filming and still photography;”;

(4) in subsection (c) (as so redesignated), in
the second sentence, by striking “subsection (a)” and inserting “subsection (b)”; and

(5) in subsection (d) (as so redesignated), in
the heading, by inserting “Commercial” be-
fore “Travel”;

(6) in paragraph (1) of subsection (f) (as
so redesignated), by inserting “in accordance
with the Federal Land Recreation Enhance-
ment Act of 1976 (20 U.S.C. 1801 et seq.)”;

(7) in subsection (g) (as so redesignated)—

(A) by striking “and” and inserting “or”;

(B) by adding at the end the following:

“(2) CONSIDERATIONS.—The Secretary shall
not consider subject matter or content as a

}
completed, and every 5 years after the end of the 10-year period, the Secretary shall prepare a priority list, to be made publicly available on the websites of the applicable Federal agency or other authorities under paragraphs (a)(1), which shall identify the location and acreage of land within the jurisdiction of each State or regional office on which the public is allowed, subject to Federal or State law, to hunt, fish, or use the land for other recreational purposes but—

(A) to which there is no public access or egress;

(B) to which public access or egress to the legal boundaries of the land is significantly restricted (as determined by the Secretary).

(2) MODIFICATIONS.—In preparing the priority list required under paragraph (1), the Secretary shall consider with respect to the land—

(A) whether access is absent or merely restricted, including the extent of the restriction;

(B) the likelihood of resolving the absence of or restriction to public access;

(C) any information received from the public or other stakeholders during the nomination process described in paragraph (5); and

(D) any other factor as determined by the Secretary.

(3) CONSIDERATIONS.—In preparing the priority list required under paragraph (1), the Secretary shall consider with respect to the land—

(A) an easement, right-of-way, or public easement, right-of-way, or fee title from—

(a) another Federal agency;

(b) a State, local, or tribal government; or

(c) a private landowner.

(5) NOMINATION PROCESS.—In preparing a priority list under this section, the Secretary shall provide an opportunity for members of the public to nominate parcels for inclusion on the priority list.

(c) ACCESS OPTIONS.—With respect to land included on a priority list described in sub-paragraph (b), the Secretary shall develop and submit to the Committees on Appropriations and Energy and Natural Resources of the Senate and the Committees on Appropriations and Natural Resources of the House of Representatives a report on options for providing public access or egress.

(1) IDENTIFIES.—(A) identifies public access and egress that could reasonably be provided to the legal boundaries of the land in a manner that minimizes or limits impact on wildlife habitat and water quality;

(2) IMPLEMENTS.—(A) implements the planning and final design of the modified Fontenelle Dam under subsection (a); and

(3) COMPLETES.—(A) completes the planning and final design of the modified Fontenelle Dam under subsection (a); and

(b) FUNDING BY STATE OF WYOMING.—Pursuant to the Act of March 4, 1921 (41 Stat. 1404, chapter 61; 43 U.S.C. 395), and as a condition of providing any additional storage under subsection (a), the State of Wyoming shall contribute to the Secretary of the Interior funds for any work carried out under subsection (a).

(d) OTHER CONTRACTING AUTHORITY.—(A) The permits required under paragraph (b) shall, at a minimum, specify the responsibilities of the Secretary of the Interior and the State of Wyoming with respect to—

(B) the cooperative agreement under subparagraph (A) shall, at a minimum, specify the responsibilities of the Secretary of the Interior and the State of Wyoming with respect to—

(1) completing the planning and final design of the modified Fontenelle Dam under subsection (a); and

(2) any environmental and cultural resource compliance activities required for the modification of the Fontenelle Dam under subsection (a) including compliance with—

(I) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(II) subdivision 2 of division A of title 54, United States Code; and

(III) the construction of the modification of the Fontenelle Dam under subsection (a).
SEC. 6302. SAVINGS PROVISIONS.
Unless expressly provided in this part, nothing in this part modifies, conflicts with, preempts, or otherwise affects—
(1) the Act of October 31, 1928 (43 U.S.C. 617 et seq.) (commonly known as the ‘‘Boulder Canyon Project Act’’);
(2) the Colorado River Compact of 1922, as approved by the Secretary of the Interior by the Proclamation of June 25, 1929 (46 Stat. 3000);
(3) the Act of July 19, 1940 (43 U.S.C. 618 et seq.) (commonly known as the ‘‘Boulder Canyon Project Act’’);
(4) the Treaty between the United States of America and Mexico relating to the utilization of waters of the Colorado and Tijuana Rivers and Arroyo Grande, and supplemental protocol signed November 14, 1944, signed at Washington February 3, 1944 (59 Stat. 1211);
(5) the Upper Colorado River Basin Compact as consented to by the Act of April 6, 1949 (63 Stat. 31);
(6) the Act of April 11, 1956 (commonly known as the ‘‘Colorado River Basin Project Act’’) (43 U.S.C. 620 et seq.);
(7) the Colorado River Basin Project Act (Public Law 90–537, 82 Stat. 865); or
(8) any State of Wyoming or other State water law.

PART II—BUREAU OF RECLAMATION
TRANSPARENCY

SEC. 6311. DEFINITIONS.
In this part:
(A) Asset.—
(1) IN GENERAL.—The term ‘‘asset’’ means any of the following assets that are used to achieve the mission of the Bureau of Reclamation to manage, develop, and protect water and related resources in an environmentally and economically sound manner in the interest of the people of the United States:
(I) Capitalized facilities, structures, project features, power production equipment, recreation facilities, or quarters.
(II) Capitalized and noncapitalized heavy equipment and other installed equipment.
(2) INCLUSIONS.—The term ‘‘asset’’ includes assets described in subparagraph (A) that are considered to be mission critical.
(B) Asset Management Report.—The term ‘‘Asset Management Report’’ means——
(I) the annual plan prepared by the Bureau of Reclamation known as the ‘‘Asset Management Plan’’; and
(II) any other information that the Secretary shall determine to be necessary or appropriate to achieve the mission of the Bureau of Reclamation.
(C) Major Repair and Rehabilitation Need.—The term ‘‘major repair and rehabilitation need’’ means a major nonrecurring maintenance at a Reclamation facility, including maintenance related to the safety of dams, extraordinary maintenance of dams, deformation and foundation activities, and all other significant repairs and extraordinary maintenance.
(D) Reclamation Facility.—The term ‘‘Reclamation facility’’ means each of the infrastructure assets that are owned by the Bureau of Reclamation at a Reclamation project.
(E) Reclamation Project.—The term ‘‘Reclamation project’’ means a project that is owned by the Bureau of Reclamation, including all reserved works and transferred works owned by the Bureau of Reclamation.
(F) Reserved Works.—The term ‘‘reserved works’’ means buildings, structures, facilities, or equipment that are owned by the Bureau of Reclamation for which operations and maintenance are performed by employees of the Bureau of Reclamation.

SEC. 6312. ASSET MANAGEMENT REPORT ENHANCEMENTS FOR TRANSFERRED WORKS.
(a) IN GENERAL.—The Secretary shall coordinate with the non-Federal entities responsible for the operation and maintenance of transferred works in developing reporting requirements for Asset Management Reports with respect to major repair and rehabilitation needs for transferred works that are similar to the reporting requirements described in section 6312(b).
(b) GUIDANCE.—
(1) IN GENERAL.—After considering input from water and power contractors of the Bureau of Reclamation, the Secretary shall develop and implement a rating system for transferred works that incorporates, to the extent practicable, the existing rating system for major repair and rehabilitation needs for reserved works developed under section 6312(b)(3).
(2) PUBLIC AVAILABILITY.—Except as provided in paragraph (1), the rating system described under paragraph (1) shall be made publicly available.

SEC. 6313. ASSET MANAGEMENT REPORT ENHANCEMENTS FOR TRANSFERRED WORKS.
(a) IN GENERAL.—The Secretary shall coordinate with the non-Federal entities responsible for the operation and maintenance of transferred works in developing reporting requirements for Asset Management Reports with respect to major repair and rehabilitation needs for transferred works that are similar to the reporting requirements described in section 6312(b).
(b) GUIDANCE.—
(1) IN GENERAL.—After considering input from water and power contractors of the Bureau of Reclamation, the Secretary shall develop and implement a rating system for transferred works that incorporates, to the extent practicable, the existing rating system for major repair and rehabilitation needs for reserved works developed under section 6312(b)(3).
(b) GUIDANCE.—
(1) IN GENERAL.—After considering input from water and power contractors of the Bureau of Reclamation, the Secretary shall develop and implement a rating system for transferred works that incorporates, to the extent practicable, the existing rating system for major repair and rehabilitation needs for reserved works developed under section 6312(b)(3).

SEC. 6314. OFFSET.
Notwithstanding any other provision of law, in the case of the project authorized by section 1617 of the Reclamation Projects Authorization and Adjustment Act of 1992 (43 U.S.C. 3952–120), the maximum amount of the Federal share of the cost of the project under section 1611(d)(1) of that Act (43 U.S.C. 3952(d)(1)) otherwise available as of the date of enactment of this Act shall be reduced by $2,000,000.

PART III—YAKIMA RIVER BASIN WATER ENHANCEMENT

SEC. 6321. SHORT TITLE.
This part may be cited as the ‘‘Yakima River Basin Water Enhancement Project Phase II Act of 2016’’.

SEC. 6322. MODIFICATION OF TERMS, PURPOSES, AND CONDITIONS.
(a) MODIFICATION OF TERMS.—Title XII of Public Law 103–434 (108 Stat. 4550) is amended by—
(1) by striking ‘‘Yakima Indian’’ each place it appears (except section 1204(g)) and inserting ‘‘Yakama’’; and
(2) by striking ‘‘Superintendent’’ each place it appears and inserting ‘‘Manager’’.
(b) MODIFICATION OF PURPOSES.—Section 1201 of Public Law 103–434 (108 Stat. 4550) is amended by—
(1) by striking paragraph (1) and inserting the following:
‘‘(1) to protect, mitigate, and enhance fish and wildlife and the maintenance of self-sustaining harvestable populations of fish and other aquatic life, both anadromous and resident species, throughout their historic distribution range in the Yakima Basin through—
(A) improved water management and the constructions of fish passage at storage and diversion dams, as authorized under the Hoover Power Plant Act of 1984 (43 U.S.C. 619 et seq.);
(B) improved instream flows and water supply management;
(C) improved water quality, watershed, and ecosystem function;
(D) protection, creation, and enhancement of wetlands; and
(E) other appropriate means of habitat improvement;’’;
(2) in subsection (b)(1), by striking ‘‘the Act of December 31, 1928’’ and inserting ‘‘the Act of December 31, 1928 (43 U.S.C. 617 et seq.)’’.
(3) in subsection (c), by striking ‘‘and’’ and inserting ‘‘and the Committee on Natural Resources and’’.
(4) in subsection (e), by striking ‘‘the’’ and inserting ‘‘the Committee on Natural Resources and’’.
(5) in subsection (f), by striking ‘‘the Committee of the’’ and inserting ‘‘the Committee on Natural Resources and’’.
(6) in subsection (g), by striking ‘‘a contract entered into by the Bureau of’’ and inserting ‘‘the Secretary of the Interior, the’’.
(7) in subsection (h), by striking ‘‘and’’ and inserting ‘‘and the Committee on Natural Resources and’’.
(8) in subsection (i), by striking ‘‘of the Committee on Natural Resources and’’ and inserting ‘‘of the Committee on Natural Resources and’’.
(9) in subsection (j), by striking ‘‘and’’ and inserting ‘‘and the Committee on Natural Resources and’’.
(10) in subsection (k), by striking ‘‘a contract’’ and inserting ‘‘the Secretary of the’’.

SEC. 6323. ASSET MANAGEMENT REPORT ENHANCEMENTS FOR TRANSFERRED WORKS.
(a) IN GENERAL.—The Secretary shall coordinate with the non-Federal entities responsible for the operation and maintenance of transferred works in developing reporting requirements for Asset Management Reports with respect to major repair and rehabilitation needs for transferred works that are similar to the reporting requirements described in section 6312(b).
(b) GUIDANCE.—
(1) IN GENERAL.—After considering input from water and power contractors of the Bureau of Reclamation, the Secretary shall develop and implement a rating system for transferred works that incorporates, to the extent practicable, the existing rating system for major repair and rehabilitation needs for reserved works developed under section 6312(b)(3).

SEC. 6324. ASSET MANAGEMENT REPORT ENHANCEMENTS FOR TRANSFERRED WORKS.
(a) IN GENERAL.—The Secretary shall coordinate with the non-Federal entities responsible for the operation and maintenance of transferred works in developing reporting requirements for Asset Management Reports with respect to major repair and rehabilitation needs for transferred works that are similar to the reporting requirements described in section 6312(b).
(b) GUIDANCE.—
(1) IN GENERAL.—After considering input from water and power contractors of the Bureau of Reclamation, the Secretary shall develop and implement a rating system for transferred works that incorporates, to the extent practicable, the existing rating system for major repair and rehabilitation needs for reserved works developed under section 6312(b)(3).

SEC. 6325. ASSET MANAGEMENT REPORT ENHANCEMENTS FOR TRANSFERRED WORKS.
(a) IN GENERAL.—The Secretary shall coordinate with the non-Federal entities responsible for the operation and maintenance of transferred works in developing reporting requirements for Asset Management Reports with respect to major repair and rehabilitation needs for transferred works that are similar to the reporting requirements described in section 6312(b).
(b) GUIDANCE.—
(1) IN GENERAL.—After considering input from water and power contractors of the Bureau of Reclamation, the Secretary shall develop and implement a rating system for transferred works that incorporates, to the extent practicable, the existing rating system for major repair and rehabilitation needs for reserved works developed under section 6312(b)(3).

SEC. 6326. ASSET MANAGEMENT REPORT ENHANCEMENTS FOR TRANSFERRED WORKS.
(a) IN GENERAL.—The Secretary shall coordinate with the non-Federal entities responsible for the operation and maintenance of transferred works in developing reporting requirements for Asset Management Reports with respect to major repair and rehabilitation needs for transferred works that are similar to the reporting requirements described in section 6312(b).
(b) GUIDANCE.—
(1) IN GENERAL.—After considering input from water and power contractors of the Bureau of Reclamation, the Secretary shall develop and implement a rating system for transferred works that incorporates, to the extent practicable, the existing rating system for major repair and rehabilitation needs for reserved works developed under section 6312(b)(3).
“(2) in paragraph (2), by inserting ‘‘municipal, industrial, and domestic water supply and use purposes, especially during drought years, including reducing the frequency and severity of water shortages for potable water supplies’’;

(3) by striking paragraph (4);

(4) by redesignating paragraph (3) as paragraph (4);

(5) by inserting after paragraph (2) the following:

‘‘(3) to authorize the Secretary to make water available for purchase or lease for meeting municipal, industrial, and domestic water supply and use purposes;’’;

(6) by redesignating paragraphs (5) and (6) as paragraphs (6) and (8), respectively;

(7) by inserting after paragraph (4) (as so redesignated) the following:

‘‘(3) to authorize the Secretary to make water available for purchase or lease for meeting municipal, industrial, and domestic water supply and use purposes;’’;

(8) in paragraph (6) (as so redesignated):

(A) by inserting ‘‘an increase in’’ before ‘‘voluntary’’;

(B) by striking ‘‘and’’ at the end;

(9) by inserting after paragraph (4) (as so redesignated) the following:

‘‘(3) to authorize the Secretary to make water available for purchase or lease for meeting municipal, industrial, and domestic water supply and use purposes;’’;

(10) by inserting ‘‘an increase in’’ before ‘‘voluntary’’.

‘‘(7) to encourage an increase in the use of, and reduce the barriers to, water transfers, leasing, markets, and other voluntary transactions among public and private entities to enhance water management in the Yakima River basin;’’;

(11) by adding at the end the following:

‘‘(8) to improve the resilience of the ecosystems, economies, and communities in the Basin as they face drought, hydrologic changes, and other related changes and variability in natural and human systems, for the benefit of both the people and the fish and wildlife of the region; and

(12) to authorize and implement the Yakima River Basin Integrated Water Resource Management Plan as Phase III of the Yakima River Basin Water Enhancement Project, as a balanced and cost-effective approach to maximize benefits to the communities and environment in the Basin.’’;

(c) MODIFICATION OF DEFINITIONS.—Section 1232 of Public Law 103–434 (108 Stat. 4550) is amended—

(1) by redesignating paragraphs (6), (7), (8), (9), (10), (11), (12), (13), and (14) as paragraphs (8), (9), (10), (11), (13), (14), (15), (16), and (18), respectively;

(2) by inserting after paragraph (5) the following:

‘‘(6) DESIGNATED FEDERAL OFFICIAL.—The term ‘designated Federal official’ means the Commissioner of Reclamation (or a designee), acting pursuant to the charter of the Conservation Advisory Group.’’;

(7) INTEGRATED PLAN.—The terms ‘Integrated Plan’ and ‘Yakima River Basin Integrated Water Resource Plan’ mean the plan and activities, as defined by the Yakima River Basin Water Enhancement Project Phase III Act of 2016 and the amendments made by that part, to be carried out in cooperation with the activities of the State of Washington and Yakama Nation;

(8) by inserting after paragraph (8) (as so redesignated) the following:

‘‘(9) MUNICIPAL, INDUSTRIAL, AND DOMESTIC WATER SUPPLY AND USE.—The term ‘municipal, industrial, and domestic water supply and use’ means the supply and use of water for—

(A) domestic consumption (whether urban or rural);

(B) maintenance and protection of public health and safety;

(C) manufacture, fabrication, processing, assembly, or other production of a good or commodity;

(D) production of energy;

(E) fish hatcheries; or

(F) water conservation activities relating to a use described in subparagraphs (A) through (E);’’;

(9) by inserting after paragraph (11) (as redesignated by paragraph (1)) the following:

‘‘(12) PREFERENTIAL IRIGATION ENTITY.—The term ‘preferential irrigation entity’ means a district, project, or State-recognized authority, board of control, agency, or entity located in the Yakima River basin that—

(A) manages and delivers irrigation water to farms in the basin; and

(B) possesses, or the members of which possess, water rights that are proratable during periods of water shortage;’’;

(10) by inserting after paragraph (18) (as redesignated by paragraph (1)) the following:

SEC. 6231. YAKIMA RIVER BASIN WATER CONSERVATION PROGRAM.

Section 1203 of Public Law 103–434 (108 Stat. 4551) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) in the second sentence, by striking ‘‘title’’ and inserting ‘‘section’’; and

(ii) in the third sentence, by striking ‘‘within 5 years of the date of enactment of this Act’’;

(B) in paragraph (2), by striking ‘‘irrigation’’ and inserting ‘‘the number of irrigated acres’’;

(2) in subsection (b)—

(A) in paragraph (2)—

(i) in each of subparagraphs (A) through (D), by striking the comma at the end and inserting a semicolon;

(ii) in subparagraph (E), by striking the comma at the end and inserting ‘‘; and’’;

(iii) in subparagraph (F), by striking ‘‘Department of Fish and Wildlife of the State of Washington, and’’ and inserting ‘‘Department of Fish and Wildlife of the State of Washington’’;

(3) by inserting after paragraph (2) (as so redesignated) the following:

‘‘(3) AUTHORITY OF DESIGNATED FEDERAL OFFICIAL.—The designated Federal official may—

(A) arrange and provide logistical support for meetings of the Conservation Advisory Group;

(B) use a facilitator to serve as a moderator for meetings of the Conservation Advisory Group or provide additional logistical support; and

(C) grant any request for a facilitator by any member of the Conservation Advisory Group.’’;

(4) in subsection (d), by adding at the end the following:

‘‘(4) PAYMENT OF LOCAL SHARE BY STATE OR FEDERAL GOVERNMENT.—

(A) IN GENERAL.—The State or the Federal Government may fund not more than the 17.5 percent local share of the costs of the Basin Conservation Program in exchange for the long-term use of conserved water, subject to the requirement that the funding by the Federal Government of the local share of the costs shall provide a quantifiable public benefit in meeting Federal responsibilities in the Basin and the purposes of this title.

(B) WATER CONSERVATION.—The Yakima Project Manager may use water resulting from conservation measures taken under this title, in addition to water that the Bureau of Reclamation has acquired from willing sellers through purchase, donation, or lease, for water management uses pursuant to this title.’’;

(5) in subsection (i)(3)—

(A) by striking ‘‘purchase or lease’’ each place it appears and inserting ‘‘purchase, lease, or management’’; and

(B) in the third sentence, by striking ‘‘made immediately upon availability’’ and all that follows through ‘‘Committee’’ and inserting ‘‘continued as needed to provide water to be used by the Yakima Project Manager as recommended by the System Operations Advisory Committee and the Conservation Advisory Group’’; and

(6) in subsection (j)(4), in the first sentence, by striking ‘‘approval’’ and all that follows through ‘‘flushing flows’’ and inserting ‘‘acquisition of water from willing sellers or lessors specifically to provide improved instream flows for anadromous and resident fish and other aquatic life, including pulse flows to facilitate outward migration of anadromous fish’’.

SEC. 6234. YAKIMA BASIN WATER PROJECTS, OPERATIONS, AND AUTHORIZATIONS.

(a) YAKAMA NATION PROJECTS.—Section 1204 of Public Law 103–434 (108 Stat. 4555) is amended—

(1) in subsection (a)(2), in the first sentence, by striking ‘‘not more than $23,000,000’’ and inserting ‘‘not more than $100,000,000’’; and

(2) in subsection (c)—

(A) by striking the subsection heading and inserting ‘‘REDISIGNATION OF YAKAMA INDIAN NATION TO YAKAMA NATION’’;

(B) by striking paragraph (1) and inserting the following:

‘‘(1) REDISIGNATION.—The Confederated Tribes and Bands of the Yakama Indian Nation shall be known and designated as the ‘Confederated Tribes and Bands of the Yakama Nation.’’;

(C) in paragraph (2), by striking ‘‘deemed to be a reference to’’ and inserting ‘‘deemed to be a reference to’’.
February 3, 2016
CONGRESSIONAL RECORD — SENATE
S591

the ‘Confederated Tribes and Bands of the Yakama Nation’.

(b) OPERATION OF YAKIMA BASIN PROJECTS.—Section 1206 of Public Law 103–434 (108 Stat. 4568) is amended—

(1) in subsection (a)—

(A) in paragraph (4)—

(i) in subparagraph (A)—

(ii) by striking “flushing and inserting “pulse”; and

(cc) by striking “uses” and inserting “uses, in addition to the quantity of water provided under this Act, as directed by the Secretary, and in the Yakama Nation and the United States”; and

(II) by striking clause (ii); and

(III) by redesignating clause (ii) as clause (iii); and

(2) in subsection (b)—

(i) by adding at the end the following:

‘‘(h) Project studies.—The Secretary shall make all studies necessary for the purposes of the Yakima River, including Taneum Creek, other areas, or tributary basins that currently or could potentially be provided for, supplemental or transfer water by entities, such as the Kittitas Reclamation District or the Yakima-Tieton Irrigation District, subject to the condition that activities may commence on completion of applicable and required feasibility studies, environmental reviews, and cost-benefit analyses that include favorable results for further project development, as appropriate. Measures to evaluate include—

(i) by inserting after subparagraph (A) through (F) appropriately;

(ii) in subparagraph (A), by striking before the semicolon at the end the following: ‘‘including irrigation (C), provided for improvements in coordination with programs of the Department of Agriculture, consolidation of diversions or administration, and diversion scheduling or coordination’’; and

(iii) in subparagraph (B), by striking ‘‘water right owners’’ and inserting ‘‘groundwater recharge and’’;

(iv) by inserting after subparagraph (B) the following:

‘‘(C) recreation.

‘‘(D) municipal, industrial, and domestic use.’’;

(c) LAKE CLE ELUM AUTHORIZATION OF APPROPRIATIONS.—Section 1206(a)(1) of Public Law 103–434 (108 Stat. 4568) is amended, in the matter preceding subparagraph (A), by striking ‘‘at September and all that follows through “to’’— and inserting ‘‘not more than $12,000,000 to carry out the following:

(1) in the heading, by striking ‘‘supplies’’ and inserting ‘‘management’’;

(2) in subsection (a)—

(A) in the matter preceding paragraph (1), by striking ‘‘supplies’’ and inserting ‘‘management’’;

(B) in paragraph (1), by inserting ‘‘and water supply entities’’ after ‘‘owners’’; and

(C) in paragraph (2)—

(i) in subparagraph (A), by inserting ‘‘that choose not to participate or opt out of tributary water purposes projects pursuant to this section’’ after ‘‘water right owners’’; and

(ii) in subparagraph (B), by inserting ‘‘nonparticipating’’ before ‘‘tributary water users’’;

(3) in subsection (b)—

(A) in paragraph (1)—

(i) by striking the paragraph designation and all that follows through “but not limited to’’— and inserting the following:

‘‘(1) IN GENERAL.—The Secretary, following consultation with the State of Washington, tributary water right owners, and the Yakama Nation, and on agreement of appropriate water right owners, is authorized to conduct studies to evaluate measures to further Water Enhancement Program purposes on tributaries to the Yakima River. Enhancement programs that use measures authorized by this subsection may be investigated and implemented by the Secretary in tributaries to the Yakima River, including Taneum Creek, other areas, or tributary basins that currently or could potentially be provided for, supplemental or transfer water by entities, such as the Kittitas Reclamation District or the Yakima-Tieton Irrigation District, subject to the condition that activities may commence on completion of applicable and required feasibility studies, environmental reviews, and cost-benefit analyses that include favorable results for further project development, as appropriate. Measures to evaluate include—

(i) by inserting after subparagraph (A) through (F) appropriately;

(ii) in subparagraph (A), by striking before the semicolon at the end the following: ‘‘including irrigation (C), provided for improvements in coordination with programs of the Department of Agriculture, consolidation of diversions or administration, and diversion scheduling or coordination’’; and

(iii) in subparagraph (B), by striking ‘‘water right owners’’ and inserting ‘‘groundwater recharge and’’;

(iv) by inserting after subparagraph (B) the following:

‘‘(C) recreation.

‘‘(D) municipal, industrial, and domestic use.’’;

(d) INTEGRATED PLAN.—

(A) IN GENERAL.—The Secretary shall implement the Integrated Plan as Phase III of the Yakima River Basin Water Enhancement Project in accordance with this section and applicable laws.

(B) INITIAL DEVELOPMENT PHASE OF THE INTEGRATED PLAN.—

(A) IN GENERAL.—The Secretary, in coordination with the State of Washington and Yakama Nation and subject to feasibility studies, environmental reviews, and the availability of appropriations, shall implement an initial development phase of the Integrated Plan, to—

(i) complete the planning, design, and construction or development of upstream and downstream fish passage facilities, as previously authorized by the Hoover Power Plant Act of 1964 (43 U.S.C. 619 et seq.) at Cle Elum Reservoir and another Yakima Project reservoir identified by the Secretary as consistent with the Integrated Plan, subject to the condition that, if the Yakima Project reservoir identified by the Secretary contains a hydropower project licensed by the Federal Energy Regulatory Commission, the Secretary shall cooperate with the Federal Energy Regulatory Commission in a timely manner to ensure that actions taken by the Secretary are consistent with the applicable hydropower project license;

(ii) negotiate long-term agreements with participating proratable irrigation entities in the Yakima Basin and, acting through the Bureau of Reclamation, coordinate between Bureaus of the Department of the Interior and the heads of other Federal agencies to negotiate agreements concerning leases, easements, and rights-of-way on Federal land, and other terms and conditions determined to be necessary to allow for the non-Federal financing, construction, operation, and maintenance of—

(I) new facilities needed to access and deliver inactive storage in Lake Kachess for purposes of providing drought relief to irrigation (known as the ‘Kachess Drought Relief Pumping Plant’); and

(II) a conveyance system to allow transfer of water between Kachess Reservoir to Kachess Reservoir for purposes of improving operational flexibility for the benefit of both fish and irrigation (known as the ‘K to K Pumping Plant’);

(iii) participate in, provide funding for, and accept non-Federal financing for—

(I) water conservation projects, not subject to the provisions of the Water Enhancement Program described in section 1203, that are intended to partially implement the Integrated Plan by providing 8,500 acre-feet of conservation water to improve tributary and mainstream stream flow; and

(II) aquifer storage and recovery projects;
“(iv) study, evaluate, and conduct feasibility analyses and environmental reviews of fish passage, water supply (including ground water and surface water storage), conservation, irrigation, water supply, and other alternatives identified as consistent with the purposes of this Act, for the initial and future phases of the Integrated Plan; and

“(v) enter into cooperative agreements with, or, subject to a minimum non-Federal cost-sharing requirement of 50 percent, make grants to, the Yakama Nation, the State of Washington, the Yakima River basin irrigation districts, water districts, conservation districts, other local governmental entities, nonprofit organizations, and landowners to carry out this title under such terms and conditions as the Secretary may require, including the following purposes:

“(I) Land and water transfers, leases, and acquisitions from willing participants, so long as the acquiring entity shall hold title and be responsible for any and all required operations, maintenance, and management of the land and water.

“(II) To combine or relocate diversion points, remove fish barriers, or for other activities that increase flows or improve habitat in the Yakima River and its tributaries in furtherance of this title.

“(III) To implement, in partnership with Federal and non-Federal entities, projects to enhance the health and resilience of the watershed.

“(B) COMMENCEMENT DATE.—The Secretary shall implement the initial development phase of the activities included under the initial development phase pursuant to this paragraph—

“(i) on the date of enactment of this section; and

“(ii) on completion of applicable feasibility studies, environmental reviews, and cost-benefit analyses that include favorable recommendations for further project development.

“(3) INTERMEDIATE AND FINAL PHASES.—

“(A) IN GENERAL.—The Secretary, in coordination with the State of Washington and in consultation with the Yakama Nation, shall develop plans for intermediate and final development phases of the Integrated Plan for the purposes of—

“(i) providing a review and reassessment, if needed, of the objectives of the Integrated Plan, as applied to all elements of the Integrated Plan;

“(ii) to address the objectives of the Integrated Plan, the degree to which the implementation of the initial development phase of the activities included under this clause addresses the objectives and all elements of the Integrated Plan;

“(iii) identify the amount of Federal funding and non-Federal contributions received and expended during the period covered by the report;

“(iv) describe the pace of project development during the period covered by the report;

“(v) identify additional projects and activities proposed for inclusion in any future phases of the Integrated Plan.

“(B) EFFECT OF PARAGRAPH.—Nothing in this paragraph affects (as in existence on the date of enactment of this section) any constructions or activities proposed for inclusion in any future phases of the Integrated Plan.

“(4) CONTINGENCIES.—The implementation of the Integrated Plan shall be—

“(A) subject to authorization and appropriation;

“(B) dependent on the completion of applicable feasibility studies, environmental reviews, and cost-benefit analyses that include favorable recommendations for further project development;

“(C) implemented on public review and a determination by the Secretary that design, construction, and operation of a proposed project or activity is in the best interest of the public; and

“(5) PROGRESS REPORT.—

“(A) IN GENERAL.—Not later than 5 years after the date of enactment of this section, the Secretary, in conjunction with the State of Washington and in consultation with the Yakama Nation, shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives a progress report on the development and implementation of the Integrated Plan.

“(B) REQUIREMENTS.—The progress report under this paragraph shall—

“(i) provide a review and reassessment, if needed, of the objectives of the Integrated Plan, as applied to all elements of the Integrated Plan;

“(ii) assess, through performance metrics developed at the initiation of, and measured throughout the implementation of, the Integrated Plan, the degree to which the implementation of the initial development phase of the activities included under this paragraph addresses the objectives and all elements of the Integrated Plan;

“(III) identify the amount of Federal funding and non-Federal contributions received and expended during the period covered by the report;

“(iv) describe the pace of project development during the period covered by the report;

“(v) identify additional projects and activities proposed for inclusion in any future phases of the Integrated Plan; and

“(vi) for water supply projects—

“(I) provide a preliminary discussion of the means by which—

“(aa) water and costs associated with each recommended project would be allocated among authorized uses; and

“(bb) the additional supply made available under this clause shall be available to participating individuals and entities in proportion to the proratable entitlements of the participating individuals and entities, or in such other proportion as the participating entities may agree; and

“(II) to facilitate reservoir operations in the Klickitat, Similkameen, and Columbia River Basins, including operation of the Keechelus Dam and Easton Dam for the propagation of anadromous fish.

“(C) IMPLEMENTATION.—The Secretary shall implement the Integrated Plan in accordance with the preceding 1 or more calendar years, by—

“(I) to address the objectives of the Integrated Plan, the degree to which the implementation of the initial development phase of the activities included under this clause addresses the objectives and all elements of the Integrated Plan;

“(II) to facilitate reservoir operations in the Klickitat, Similkameen, and Columbia River Basins, including operation of the Keechelus Dam and Easton Dam for the propagation of anadromous fish.

“(D) costs associated with the design, financing, construction, operation, maintenance, and mitigation of projects, with the costs of Federal oversight and review to be proratable to the proratable irrigation entities and the Yakima Project; and

“(E) responsibilities for the pumping and operational costs necessary to provide the total water supply available made inaccessible due to drought pumping during the preceding 1 or more calendar years, in the event that the Kachess Reservoir fails to refill as a result of pumping drought storage water during the preceding 1 or more calendar years, which shall remain the responsibility of the participating proratable irrigation entities.
(D) RATE.—The Administrator of the Bonneville Power Administration, pursuant to the Bonneville Power Administration Act, (16 U.S.C. 839 et seq.), shall provide to the Secretary an accurate determination of the lowest Bonneville Power Administration rates for power obtained from a local provider.

(E) LOCAL PROVIDER.—During any period in which the Bonneville Power Administration is not providing power to or from the Kachess Pumping Plant constructed under this title, the applicable lowest Bonneville Power Administration rates for power obtained from a local provider and applicable laws shall be provided to the Secretary by the minor entity.

(F) COSTS.—The cost of power for such pumping, station service, and all costs of transmitting power from the Federal Columbia Power System to the Yakima Enhancement Project pumping facilities shall be borne by irrigation districts receiving the benefits of that water.

(G) COMMISSIONER.—The Commissioner of Reclamation shall be responsible for arranging transmission for delivery of Federal power over the Bonneville system into the Yakima Enhancement Project pumping facilities for the minor entity.

(H) APPLICATION.—In addition to the applicable Federal laws (including regulations) relating to repayment costs, the Bureau of Reclamation shall be responsible for establishing an agreement for the purchase of power from a local provider.

(I) FEDERAL COST-SHARE.—

(1) IN GENERAL.—The Federal cost-share of a project carried out under this section, and expend as if appropriated, any contribution (including in-kind services) by the State of Washington or any other individual or entity, to the extent that the contribution results in the conduct and completion of the project.

(2) LIMITATION ON USE OF OTHER FEDERAL FUNDS.—Except as provided in this title, other Federal funds may not be used to provide the non-Federal cost-share of a project carried out under this section.

(3) SAVINGS AND CONTINGENCIES.—Nothing in this section shall—

(1) affect, waive, abrogate, diminish, define, or interpret the treaty between the Yakama Nation and the United States; or

(2) affect any contract in existence on the date of enactment of the Yakima River Basin Water Enhancement Project Phase III Act of 2016 that was executed pursuant to the reclamation laws.

(3) affect any contract or agreement between the Bureau of Indian Affairs and the Bureau of Reclamation.

(b) REPORT.—Not later than 360 days after the date of enactment of this Act, the Secretary of the Interior shall report to the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Environment and Public Works of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives a report including, for any State in which a county designated by the Secretary on the reclamation law as a sought disaster area during water year 2015 is located, a list of projects, including Corps of Engineers projects, and those non-Federal projects and works that the Secretary determines will enhance the conduct and completion of the project.
Act of December 22, 1944 (commonly known as the “Flood Control Act of 1944”) (58 Stat. 890, chapter 665), including, as applicable—

(1) the year the original water control manual was issued; and

(2) the year for any subsequent revisions to the water control plan and manual of the project;

(d) LAKE OR RESERVOIR IDENTIFICATION.—In identifying a lake or reservoir, the Secretary shall consult with all affected interstate, state, or local agencies and may consult with all agencies described in paragraphs (a)(8)(C) and (b)

(e) water resource project operating entity, and may consult with any other entity described in paragraph (a)(8)(C) that the Secretary determines appropriate.

(f) Projects downstream of a facility.—The Secretary shall consult with all affected interstate, state, or local agencies, together with the owners of Federal projects or facilities downstream of the project, in identifying the scope of the project described in subsection (b), and the activities to be carried out by the Secretary in carrying out this section.

(g) BUREAU OF RECLAMATION.—The Bureau of Reclamation may consult with the appropriate agencies with respect to the development of the project described in subsection (b), and the coordination among the parties.

(h) MODIFICATIONS TO MANUALS AND CURVES.—Not later than 180 days after the date of the report required under subsection (b), the Secretary shall submit to the Committee on Energy and Natural Resources a written request for a modification to a water control manual or flood control rule curve, the purpose or effect of which will be to carry out the recommendations in the report and carry out an activity under this section.

(i) MODIFICATIONS TO MANUALS AND CURVES.—Not later than 180 days after the date of the report required under subsection (b), the Secretary shall submit to the Committee on Energy and Natural Resources a written request for a modification to a water control manual or flood control rule curve, the purpose or effect of which will be to carry out the recommendations in the report and carry out an activity under this section.

(3) a list of projects for which—

(A) operational deviations for drought contingency have been requested; and

(B) the status of the request; and

(4) PRIOR STUDIES.—The Secretary shall—

(A) to the maximum extent practicable, coordinate the efforts of the Secretary in carrying out subsections (b), (c), and (d) with the efforts of the Secretary in completing—

(i) the report required under section 104(a)(1)(A) of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2019 note; Public Law 113-121); and

(ii) the updated report required under subsection (a)(2)(B) of that section; and

(iii) any other report required under section 104(a)(1)(A) of that Act.

(2) MANUAL REVISIONS.—A revision of a water control manual or flood control rule curve, the purpose or effect of which will be to carry out the recommendations in the report and carry out an activity under this section, shall be prepared and submitted to the Committee on Energy and Natural Resources by the Secretary.

(a) DEFINITIONS.—In this section:

(1) The term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.

(2) The term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.

SEC. 6341. TERROR LAKE HYDROELECTRIC PROJECT UPPER HIDDEN BASIN DIVERSION AUTHORIZATION.

SEC. 6341. TERROR LAKE HYDROELECTRIC PROJECT UPPER HIDDEN BASIN DIVERSION AUTHORIZATION.

(a) Definitions.—In this section:

(1) The term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.

(b) Authorization.—The licensee for the Terror Lake Hydroelectric Project may occupy not more than 20 acres of Federal land to construct, operate, and maintain the Upper Hidden Basin Diversion Expansion without further authorization of the Secretary of the Interior or the Department of the Interior.

The term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.

(5) a Bureau of Reclamation transferred works regulated for flood control by the Secretary;

(h) EFFECT.—

(1) MANUAL REVISIONS.—A revision of a manual shall not interfere with the authorized purposes of a Federal project or the existing purposes of a non-Federal project regulated for flood control by the Secretary.

(2) EFFECT OF SECTION.—

(A) Nothing in this section authorizes the Secretary to carry out, at a Federal dam or reservoir project or activity for a purpose not otherwise authorized as of the date of enactment of this Act.

(B) Nothing in this section affects or modifies any obligation of the Secretary under State law.

(C) Nothing in this section affects or modifies any obligation of the Secretary under State law.

(3) BUREAU OF RECLAMATION RESERVED WORKS EXCLUDED.—This section—

(A) shall not apply to any dam or reservoir operated by the Bureau of Reclamation as a reserved work, unless all non-Federal project sponsors of a reserved work jointly provide Federal Reclamation.

SEC. 6342. STAY AND REINSTATEMENT OF FERC LICENSE APPLICATIONS FOR THE MAHONEY LAKE HYDROELECTRIC PROJECT.

(a) Definitions.—In this section:

(1) the term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.

(b) Authorization.—The licensee for the Terror Lake Hydroelectric Project may occupy not more than 20 acres of Federal land to construct, operate, and maintain the Upper Hidden Basin Diversion Expansion without further authorization of the Secretary of the Interior or the Department of the Interior.

The term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.

SEC. 6341. TERROR LAKE HYDROELECTRIC PROJECT UPPER HIDDEN BASIN DIVERSION AUTHORIZATION.

SEC. 6341. TERROR LAKE HYDROELECTRIC PROJECT UPPER HIDDEN BASIN DIVERSION AUTHORIZATION.

(a) Definitions.—In this section:

(1) the term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.

(b) Authorization.—The licensee for the Terror Lake Hydroelectric Project may occupy not more than 20 acres of Federal land to construct, operate, and maintain the Upper Hidden Basin Diversion Expansion without further authorization of the Secretary of the Interior or the Department of the Interior.

The term “Terror Lake Hydroelectric Project” means the project identified in section 1325 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3212), and which is Federal Energy Regulatory Commission project number 2743.
(2) LICENSE.—The term “license” means the license for Commission project number 11393.
(3) LICENSEE.—The term “licensee” means the holder of a license.
(b) STAY OF LICENSE.—On the request of the licensee, the Commission shall issue an order continuing the stay of the license.
(c) LIFTING STAY.—On the request of the licensee, but not later than 10 years after the date of enactment of this Act, the Commission shall—

(1) issue an order lifting the stay of the license under subsection (b); and

(2) make the effective date of the license the day on which the stay is lifted under paragraph (1).
(d) EXTENSION OF LICENSE.—On the request of the licensee and notwithstanding the time period specified in section 13 of the Federal Power Act (16 U.S.C. 806) for commencement of construction of the project subject to the license, the Commission shall, after reasonable notice and in accordance with the good faith, due diligence, and public interest requirements of that section, extend the time period during which the licensee is required to commence the construction of the project for not more than 3 consecutive 2-year periods, notwithstanding any other provision of law.

(e) EFFECT.—Nothing in this section prioritizes, or creates any advantage or disadvantage to, Commission project number 11393, or any other projects included in the Federal Power Act (16 U.S.C. 791a et seq.) or the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.), as compared to any electric generating facility in existence on the date of enactment of this Act; or

(f) any electric generating facility that may be examined, proposed, or developed during the period of any stay or extension of the license under this section.

SEC. 6343. EXTENSION OF DEADLINE FOR HYDRO-ELECTRIC PROJECT.

(a) IN GENERAL.—Notwithstanding the time period specified in section 13 of the Federal Power Act (16 U.S.C. 806) that would otherwise apply to the Federal Energy Regulatory Commission (referred to in this section as the “Commission”) project numbered 12737, the Commission may, at the request of the licensee for the project, and after reasonable notice and in accordance with the good faith, due diligence, and public interest requirements of that section, extend the time period during which the license is required to commence the construction of the project for up to 3 consecutive 2-year periods from the date of the expiration of the extension originally issued by the Commission.

(b) REINSTATEMENT OF EXPIRED LICENSE.—If the period required for commencement of construction of a project described in subsection (a) has expired prior to the date of enactment of this Act—

(1) the Commission may reinstate the license for the applicable project effective as of the date of the expiration of the license; and

(2) the first extension authorized under subsection (a) shall take effect on that expiration date.

(c) PURSUANT TO 402 OF THE ENERGY POLICY ACT OF 2005.—Notwithstanding any other provision of law, the Commission shall—

(1) issue an order lifting the stay of the license under this section.

SEC. 6344. EQUUS BEDS DIVISION EXTENSION.

Section 10(h) of Public Law 86–787 (74 Stat. 1026; 120 Stat. 1474) is amended by striking “10 years” and inserting “20 years”.

SEC. 6345. EQUUS BEDS DIVISION EXTENSION. IN GENERAL.

(a) IN GENERAL.—Notwithstanding the time period specified in section 13 of the Federal Power Act (16 U.S.C. 806) that would otherwise apply to the Federal Energy Regulatory Commission (referred to in this section as the “Commission”) for the Equus Beds Division of the Federal Energy Regulatory Commission (referred to in this section as the “Commission”) project for up to 4 consecutive 2-year periods after the required date of the commencement of construction described in Article 301 of the license.

(b) REINSTATEMENT OF EXPIRED LICENSE.—

(1) IN GENERAL.—If the required date of the commencement of construction described in subsection (a) has expired prior to the date of enactment of this Act, the Commission may reinstate the license effective as of that date of expiration.

(2) EXTENSION.—If the Commission reinstates the license under paragraph (1), the Commission may extend the time period during which the licensee is required to commence construction of the project for up to 2 consecutive 2-year periods from the date of the expiration of the extension originally issued by the Commission.

PART VI—PUMPED STORAGE HYDROPOWER COMPENSATION.

SEC. 6351. PUMPED STORAGE HYDROPOWER COMPENSATION.

Not later than 180 days after the date of enactment of this Act, the Federal Energy Regulatory Commission shall initiate a proceeding to identify and determine the market, procurement, and cost recovery mechanisms that would—

(1) encourage the development of pumped storage hydropower assets; and

(2) properly compensate those assets for their contribution to the grid.

(a) SURVEYS AND STUDIES.—The Federal Energy Regulatory Commission shall conduct studies to carry out the purposes of this section from other sources, including—

(1) surveys conducted by the Administrator;

(2) information collected by the Department of Transportation; and

(3) data collected by the Federal Energy Regulatory Commission.

(b) LICENSE.—The term “license” means the license for Commission project number 11393.

(c) LICENSEE.—The term “licensee” means the holder of a license.

(d) STAY.—On the request of the licensee, but not later than 10 years after the date of enactment of this Act, the Commission shall issue an order continuing the stay of the license.

(e) LIFTING.—On the request of the licensee, but not later than 10 years after the date of enactment of this Act, the Commission shall issue an order continuing the stay of the license.

(f) EXTENSION.—The extended time period during which the licensee is required to commence the construction of the project for up to 3 consecutive 2-year periods from the date of the expiration of the extension originally issued by the Commission.

(g) EFFECT.—Nothing in this section

SEC. 31. REPORT ON INCORPORATING INTERNET-BASED LEASE SALES.

Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior shall submit to Congress a report containing recommendations for the incorporation of lease sales service through the use of the Internet.

Title VI—Investing in Clean Energy

SEC. 6001. AMENDMENT OF 1986 CODE.

 Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

Subtitle A—Clean Energy Tax Credits

SEC. 6546. CLEAN ENERGY PRODUCTION CREDIT.

(a) IN GENERAL.—Subpart D of part IV of chapter A of chapter 1 is amended by adding at the end the following new section:

"SEC. 6546. CLEAN ENERGY PRODUCTION CREDIT.

"(a) AMOUNT OF CREDIT.—

"(1) IN GENERAL.—For purposes of section 38, the clean energy production credit for any taxable year is an amount equal to the product of—

"(II) in the case of a qualified facility which is equipped with a metering device which is owned and operated by an unrelated person, sold, consumed, or stored by the taxpayer during the taxable year.

"(2) APPLICABLE CREDIT RATE.—

"(A) IN GENERAL.—

"(I) MAXIMUM CREDIT RATE.—Except as provided in clause (ii), the applicable credit rate is 1.5 cents.

"(II) REDUCTION OF CREDIT BASED ON GREENHOUSE GAS EMISSION RATE.—The applicable credit rate shall be reduced (but not below zero) by an amount which bears the same ratio to the amount in effect under clause (i) as the greenhouse gas emissions rate for the qualified facility bears to 37.2 grams of CO₂ per KWh.

"(B) ROUNDING.—If any amount determined under subparagraph (A)(ii) is not a multiple of 0.1 cent, such amount shall be rounded to the nearest multiple of 0.1 cent.

"(3) INFLATION ADJUSTMENT.—

"(1) IN GENERAL.—The term 'inflation adjustment factor' means (with respect to a calendar year, a fraction the numerator of which is the GDP implicit price deflator for the second calendar year and the denominator of which is the GDP implicit price deflator for the calendar year 1992. The term 'GDP implicit price deflator' means the most recent revision of the implicit price deflator for the gross domestic product as computed and published by the Department of Commerce before March 15 of the calendar year.

"(2) CREDIT PHASE-OUT.—

"(A) IN GENERAL.—Subject to paragraph (3), if the Secretary of Energy and the Administrator of the Environmental Protection Agency, in consultation with the Secretary of the Treasury and the Administrator of the Environmental Protection Agency, determine that the annual greenhouse gas emissions from electrical production in the United States for calendar year 2025 are greater than the percentage specified in paragraph (1), then the determination described in such paragraph shall be deemed to have been made for calendar year 2025.

"(B) DEFINITIONS.—In this section:

"(i) CO₂ PER KWh.—The term 'CO₂ per KWh' means, with respect to any greenhouse gas emissions rate for a taxable year, the equivalent carbon dioxide per kilowatt hour of electricity produced.

"(ii) QUALIFIED FACILITY.—A facility which is—

"(I) a qualified facility for which a facility certificate was issued before July 26, 2005, and

"(II) sold to, or converted to, or used for, a purpose other than—

"(A) the generation of electricity, and

"(B) the generation of heat, gas, or steam for commercial use.

"(ii) 10-YEAR PRODUCTION CREDIT.—For purposes of section 38, a facility shall only be treated as a qualified facility for the 10-year period beginning on the date the facility was originally placed in service.

"(ii) EXPANSION OF FACILITY; INCREMENTAL CREDIT.—A qualified facility shall include either of the following in connection with a facility described in subparagraph (A)(i) that was previously placed in service, but only to the extent of the increased amount of electricity produced at the facility during the calendar year:

"(I) a new unit placed in service after December 31, 2017,

"(II) any efficiency improvements or additions of capacity placed in service after December 31, 2017,

"(III) any carbon capture and sequestration equipment placed in service after December 31, 2017,

"(IV) any facility placed in service between January 1, 2018, and December 31, 2017, which is qualified under paragraph (2) of subsection (a) of section 38.

"(IV) COORDINATION WITH OTHER CREDITS.—The term 'qualified facility' shall not include any facility for purposes of this section:

"(A) a renewable energy production credit determined under section 45 is allowed under section 38 for the taxable year or any prior taxable year,

"(B) a clean energy investment credit determined under section 48E is allowed under section 38 for the taxable year or any prior taxable year,

"(iii) SPECIAL GUIDANCE.—Not later than January 1, 2017, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall issue final guidance regarding the application of this section, including calculation of greenhouse gas emissions rate for qualified facilities and determination of clean energy production credits under this section.
"(1) Only production in the United States taken into account.—Consumption or sales shall be taken into account under this section only with respect to electricity the production of which is within—

(A) the United States (within the meaning of section 38(b)(1)), or

(B) a possession of the United States (within the meaning of section 638(b)).

"(2) Combined heat and power system property.—

(A) In general.—For purposes of subsection (a)(1)(B), the kilowatt hours of electricity produced by a taxpayer at a qualified facility shall include any production in the form of useful thermal energy by any combined heat and power system property within such facility.

(B) Combined heat and power system property.—

(i) in general.—For purposes of subparagraph (A), the amount of kilowatt hours of electricity in the form of useful thermal energy shall be equal to the quotient of—

(I) the total useful thermal energy produced by the combined heat and power system property within the qualified facility, divided by

(ii) the heat rate for such facility.

(ii) Heat rate.—For purposes of this subparagraph, the term ‘heat rate’ means the amount of energy used by the qualified facility to generate 1 kilowatt hour of electricity, expressed as British thermal units per net kilowatt hour generated.

(3) Production attributable to the taxpayer.—Qualified property (within the meaning of section 638(a)) which more than 50 percent is owned by the organization or, if earlier, for the taxable year of each patron ending on or after the date on which the patron receives notice from the cooperative of the apportionment.

(C) special rules for decrease in credits for taxable year.—If the amount of the credit of a cooperative organization determined under subsection (a) for a taxable year is less than the amount of such credit shown on the return of the cooperative organization for such year, an amount equal to the excess of—

(i) such reduction, over

(ii) the amount not apportioned to such patrons under subparagraph (A) for the taxable year,

shall be treated as an increase in tax imposed by this chapter on the organization. Such increase shall not be treated as tax imposed for any taxable year prior to the taxable year in question which is a member of an affiliated group of corporations filing a consolidated return, such corporation treated as separate from the other members of such group for the purpose of this section.

(4) Related persons.—Persons shall be treated as related to each other if such persons would be treated as a single employer under the regulations prescribed under section 318(d)(2)(B) with respect to the organization which is a member of an affiliated group of corporations filing a consolidated return, such corporation treated as separate from the other members of such group for the purpose of this section.

(5) With respect to qualified carbon capture and sequestration equipment placed in service after December 31, 2017.

(6) Treatment of organizations and patrons.—The amount of the credit apportioned to any patrons under subparagraph (A)—

(i) shall not be included in the amount determined under subsection (a) with respect to any qualified facility for any taxable year in which such equipment placed in service is not part of a larger facility;

(ii) shall be included in the amount determined under subsection (a) for the first taxable year of each patron ending on or after the date on which the patron receives notice from the cooperative of the apportionment.

(7) Special rules for decrease in credits for taxable year.—If the amount of the credit of an eligible cooperative organization determined under subsection (a) for a taxable year is less than the amount of such credit shown on the return of the cooperative organization for such year, an amount equal to the excess of—

(i) such reduction, over

(ii) the amount not apportioned to such patrons under subparagraph (A) for the taxable year,

shall be treated as an increase in tax imposed by this chapter on the organization. Such increase shall not be treated as tax imposed for any taxable year prior to the taxable year in which such reduction occurs.

(8) Allocation of credit to patrons of the cooperative.—

(i) in general.—In the case of a cooperative organization, any portion of the credit of a cooperative organization determined under subsection (a) for a taxable year shall be apportioned among such persons in proportion to their acquisition of capital stock in such cooperative for such taxable year.

(ii) Form and effect of election.—An election under clause (i) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year. Such election and the effect of any such election shall be treated as if it were made under section 380E(a)(1)(A) with respect to any qualified facility for any taxable year in which such equipment placed in service is not part of a larger facility.

(iii) Maximum percentage.—Except as provided in clause (ii), the clean energy percentage shall be 30 percent.

(9) Reduction of percentage based on carbon dioxide emissions rate.—The clean energy percentage shall be reduced (but not below zero) by an amount which bears the same ratio to 30 percent as the anticipated greenhouse gas emissions rate of the qualified facility bears to 372 grams of CO2 per kilowatt hour generated.

(10) Bounding.—If any amount determined under subparagraph (a)(2)(B) is not a multiple of 1 percent, such amount shall be rounded to the nearest multiple of 1 percent.

(11) Coordination with rehabilitation credits.—The clean energy credit shall not apply to that portion of the basis of any property which is attributable to qualified rehabilitation expenditures (as defined in section 47(c)(2)).

(12) Qualifying investment with respect to any qualifying facility.—

(i) in general.—For purposes of subsection (a)(1)(A), the qualified investment with respect to any qualified facility for any taxable year is the basis of any qualified property placed in service by the taxpayer during such taxable year which is part of a qualified facility.

(ii) Qualifying property.—The term ‘qualifying property’ means property—

(A) which is—

(1) tangible personal property, or

(2) other tangible property (not including a building or its structural components), but only if such property is used as an integral part of the qualified facility.

(B) with respect to which depreciation or amortization in lieu of depreciation is allowable.

(C) which is constructed, reconstructed, erected, or acquired by the taxpayer, and

(D) the original use of which commences with the taxpayer.

(13) Qualifying facility.—The term ‘qualifying facility’ has the same meaning given such term by section 45(s)(3) (without regard to subparagraphs (B) and (D) thereof). Such term shall be deemed not to include any facility for which a renewable electricity production credit under section 45 or an energy credit determined under section 48 is allowed under section 38 for the taxable year or any prior taxable year.

(14) Qualifying investment with respect to qualified carbon capture and sequestration equipment.—

(i) in general.—For purposes of subsection (a)(1)(B), the qualified investment with respect to qualified carbon capture and sequestration equipment placed in service after December 31, 2017.

(ii) Qualifying carbon capture and sequestration equipment.—The term ‘qualifying carbon capture and sequestration equipment’ means property—

(A) installed in a facility placed in service before January 1, 2018, which produces electricity,

(B) which results in at least a 50 percent reduction in the carbon dioxide emissions rate at the facility, as compared to such rate before installation of such equipment, through the capture and disposal of qualified carbon dioxide (as defined in paragraph (3)(A)), and

(C) with respect to which depreciation is allowable,

(D) which is constructed, reconstructed, erected, or acquired by the taxpayer, and

(E) the original use of which commences with the taxpayer.

(15) Qualifying carbon dioxide.
``(A) IN GENERAL.—The term ‘qualified carbon dioxide’ means carbon dioxide captured from an industrial source which—

(i) would otherwise be released into the atmosphere as industrial emission of greenhouse gas,

(ii) is captured at the source of capture and verified at the point of disposal or injection,

(iii) is disposed of by the taxpayer in secure geological storage, and

(iv) is captured and disposed of within the United States (within the meaning of section 638(1) or a possession of the United States (within the meaning of section 638(2)).

(B) QUALIFIED STORAGE.—The term ‘secure geological storage’ has the same meaning given to such term under section 645(d)(2).

(d) QUALIFIED INVESTMENT WITH RESPECT TO ENERGY STORAGE PROPERTY.—

(1) In General.—For purposes of subsection (a)(1)(C), the qualified investment with respect to energy storage property for any taxable year is the basis of any energy storage property placed in service by the taxpayer during such taxable year.

(2) Energy Storage Property.—The term ‘energy storage property’ means property—

(A) installed at or near a facility which produces electricity,

(B) which receives, stores, and delivers electricity or energy for conversion to electricity which is sold by the taxpayer to an unrelated person, sold or consumed by the taxpayer, which may include—

(i) hydroelectric pumped storage,

(ii) compressed air energy storage,

(iii) regenerative fuel cells,

(iv) batteries,

(v) superconducting magnetic energy storage,

(vi) thermal energy storage systems,

(vii) fuel cells (as defined in section 48(c)(1)),

(viii) any other relevant technology identified by the Secretary (in consultation with the Secretary of Energy), and

(ix) any combination of the properties described in clauses (i) through (viii).

(C) With respect to which depreciation is allowable.

(D) Which is constructed, reconstructed, erected, or acquired by the taxpayer.

(E) The original use of which commences with the taxpayer, and

(F) Which is placed in service after December 31, 2017.

(e) GREENHOUSE GAS EMISSIONS RATE.—

(1) In General.—For purposes of this section, the term ‘greenhouse gas emissions rate’ has the same meaning given such term under section 45S(e)(1).

(2) Greenhouse gas.—The term ‘greenhouse gas’ has the same meaning given such term under section 45S(e)(2).

(f) RECAPTURE OF CREDIT.—For purposes of section 50, if the Administrator of the Environmental Protection Agency determines that—

(i) the clean energy investment credit provided under subparagraph (A) is greater than the qualified property credit provided under section 45, if the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, determines that the annual greenhouse gas emissions rates from electrical production in the United States for each calendar year 2025 and subsequent years greater than that specified under paragraph (1), then the determination described in such subsection shall be deemed to have been made for calendar year 2025.

(h) Definitions.—In this section:

(1) CO₂ per KWh.—The term ‘CO₂ per KWh’ has the same meaning given such term under section 45S(e)(1).

(2) Greenhouse gas.—The term ‘greenhouse gas’ has the same meaning given such term under section 45S(e)(2).

(i) Maximum percentage.—Except as provided in clause (ii), the clean energy percentage is 30 percent.

(ii) Reduction of percentage based on greenhouse gas emissions rate.—The clean energy percentage shall be reduced (but not below zero) by an amount which bears the same ratio to 30 percent as the anticipated greenhouse gas emissions rate for the qualified property bears to 372 grams of CO₂ per KWh.

(j) Final guidance.—Not later than January 1, 2017, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall issue final guidance regarding implementation of this section, including calculation of greenhouse gas emissions rate for qualified facilities and determination of clean energy investment credits under this section.''

(2) Compliance requirements.—

(A) Section 46 is amended by inserting a comma at the end of paragraph (4), by striking “and” at the end of paragraph (5), by striking the period at the end of paragraph (6) and inserting “,” and “, and” by adding at the end the following new paragraph:

(7) The clean energy investment credit.

(B) Section 48(a)(2)(C) is amended by striking “and” at the end of clause (v), by striking the period at the end of clause (vi) and inserting a comma, and by adding at the end the following new clauses:

(vii) the basis of any qualified property which is part of a qualified facility under section 48E,

(viii) the basis of any qualified carbon capture and sequestration equipment under section 48E, and

(ix) the basis of any energy storage property under section 48E.

(C) Section 50(a)(2)(E) is amended by inserting “or 48E(o)” after “section 48(b).”

(D) The table of sections for subpart E of part IV of chapter 1 of title 26 is amended by adding after the item relating to section 83D the following new item:

``48E. Clean energy investment credit.''

(3) Effective date.—The amendments made by this subsection shall apply to property placed in service after December 31, 2017, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

(b) Individual Credit.—

(1) In General.—Section 25D is amended to read as follows:

``SEC. 25D. CLEAN RESIDENTIAL ENERGY CREDIT.

(a) Allowance of Credit.—

(1) In General.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

(A) the clean energy percentage of the expenditures made by the taxpayer for qualified property which is—

(i) installed in a dwelling unit which is located in the United States and used as a residence by the taxpayer,

(ii) placed in service during such taxable year, plus

(B) 30 percent of the expenditures made by the taxpayer for energy storage property which is—

(i) installed in a dwelling unit which is located in the United States and used as a residence by the taxpayer,

(ii) placed in service during such taxable year.

(2) Clean Energy Percentage.—

(A) In General.—

(i) Maximum Percent.—Except as provided in clause (ii), the clean energy percentage is 30 percent.

(ii) Reduction of Percentage Based on Greenhouse Gas Emissions Rate.—The clean energy percentage shall be reduced (but not below zero) by an amount which bears the same ratio to 30 percent as the anticipated greenhouse gas emissions rate for the qualified property bears to 372 grams of CO₂ per KWh.

(B) Rounding.—If any amount determined under subparagraph (A)(ii) is not a multiple of 1 percent, such amount shall be rounded to the nearest multiple of 1 percent.

(C) Compliance requirements.—For purposes of this section, the terms ‘greenhouse gas emissions rate’ and ‘CO₂ per KWh’ have the same
(3) Deadline to begin phase-out.—If the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, determines that greenhouse gas emissions from electrical production in the United States for each year before calendar year 2026 are greater than the percentage specified in subsection (c), the determination described in paragraph (1) shall be deemed to have been made for calendar year 2025.

(4) Special rules.—For purposes of this section:

(1) Labor costs.—Expenditures for labor costs properly allocable to the onsite preparation, assembly, or original installation of the qualified property or energy storage property and for piping or wiring to interconnect such property to the dwelling unit shall be taken into account for purposes of this section.

(2) Tenant-stockholder in cooperative housing corporation.—In the case of an individual who is a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in such section), such individual shall be treated as having made his tenant-stockholder proportionate share (as defined in section 216(b)(3)) of any expenditures of such corporation.

(3) Condominiums.—

(A) In general.—In the case of an individual who is a member of a condominium management association with respect to a condominium which the individual owns, such individual shall be treated as having made the individual’s proportionate share of any expenditures of such association.

(B) Condominium management association.—For purposes of this paragraph, the term ‘condominium management association’ means an organization which meets the requirements of paragraph (1) of section 216(b)(3) (other than subparagraph (A)(i)(I)) thereof with respect to a condominium project substantially all of the units of which are used as residences.

(4) Allocation in certain cases.—If less than 80 percent of the use of a property is for nonbusiness purposes, only that portion of the expenditures for such property which is properly allocable to use for nonbusiness purposes shall be taken into account.

(5) Basis adjustment.—For purposes of this subsection, if a credit is allowed under this section with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditures shall be reduced by the amount of the credit allowed.

(6) Final guidance.—Not later than January 1, 2017, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall issue final guidance regarding implementation of this section, including calculation of greenhouse gas emissions from electricity production and determination of residential clean energy property credits under this section.

(7) Repeal of phaseout.—The amendments made by this subsection shall apply to property placed in service after December 31, 2017.

(8) Extension of credits.—The amendments made by this subsection shall take effect on January 1, 2018.
(1) in paragraph (2), by striking “and” at the end.
(2) in paragraph (3), by striking the period at the end and inserting “; and”, and
(3) by striking at the end the following new paragraph:
“(4) which is placed in service before January 1, 2018.

(3) ELIMINATION OF PHASINGOUT OF CREDITS FOR WIND FACILITIES AND SOLAR ENERGY PROPERTY.—

(1) WIND FACILITIES.—

(A) IN GENERAL.—Paragraph (1) of section 45(d) is amended by striking “January 1, 2020” and inserting “January 1, 2018”.

(B) PHASINGOUT.—Paragraph (b) of section 45 is amended by striking paragraph (5).

(2) PHASINGOUT.—Paragraph (5) of section 48(a) is amended by striking subparagraph (E).

(E) EFFECTIVE DATE.—The amendments made by this paragraph shall take effect on January 1, 2017.

(2) SOLAR ENERGY PROPERTY.—

(A) IN GENERAL.—Subclause (II) of section 48(a)(5)(C)(ii) is amended by striking “property the construction of which begins before January 1, 2022” and inserting “periods ending before January 1, 2018”.

(B) PHASINGOUT.—Such amendment (a) of section 48 is amended by striking paragraph (6).

(2) PHASINGOUT.—Paragraph (6) of section 48 is amended by striking “ Except as provided in paragraph (6), the energy percentage” and inserting “The energy percentage”.

(D) EFFECTIVE DATE.—The amendments made by this paragraph shall take effect on January 1, 2017.

(k) ENERGY CREDIT.—

(1) SOLAR ENERGY PROPERTY.—Section 48(a)(5)(A) is amended—

(A) in clause (i), by inserting “but only with respect to periods ending before January 1, 2018” after “swimming pool,” and

(B) in clause (ii), by striking “January 1, 2017” and inserting “January 1, 2018”.

(2) GEOTHERMAL ENERGY PROPERTY.—Section 48(c)(5)(A) is amended by inserting “with respect to periods ending before January 1, 2018, and after ‘but only’.”

(3) THERMAL ENERGY PROPERTY.—Section 48(c)(5)(A) is amended by striking “ January 1, 2017” and inserting “January 1, 2018”.

(4) QUALIFIED FUEL CELL PROPERTY.—Section 48(c)(5)(C)(i) is amended by striking “December 31, 2018” and inserting “December 31, 2017”.

(5) QUALIFIED MICROTURBINE PROPERTY.—Section 48(c)(5)(B)(ii) is amended by striking “December 31, 2017” and inserting “December 31, 2016”.

(6) COMBINED HEAT AND POWER SYSTEM PROPERTY.—Section 48(c)(5)(A)(iv) is amended by striking “ Christmas, and” and inserting “ Christmas, and “ January 1, 2017 ” and inserting “ January 1, 2018 ”.

(7) QUALIFIED SMALL WIND ENERGY PROPERTY.—Section 48(c)(5)(C) is amended by striking “December 31, 2016” and inserting “December 31, 2017”.

(I) QUALIFYING ADVANCED ENERGY PROJECT CREDITS.—

(1) IN GENERAL.—Section 48C is amended—

(A) by redesignating subsection (e) as subsection (f), and

(B) by inserting after subsection (d) the following new subsection:
“(e) ADDITIONAL QUALIFYING ADVANCED ENERGY PROGRAM.—

“(1) IN GENERAL.—Not later than 180 days after the date of enactment of this sub- section, the Secretary, in consultation with the Secretary of Energy, shall establish an additional qualifying advanced energy project program to consider and award cer- tifications for qualified investments by eligible credits under this section to qualifying advanced energy project sponsors.

“(2) CERTIFICATION.—

“(A) APPLICABILITY.—Each applicant for certification under this paragraph shall have 1 year from the date of acceptance by the Secretary of the application during which to provide to the Secretary evidence that the requirements of the certification have been met.

“(B) PERIOD OF ISSUANCE.—An applicant which receives a certification shall have 3 years from the date of issuance of the certification in order to place the project in service and if such project is not placed in service by that time period, then the certification shall no longer be valid.

“(3) SELECTION CRITERIA.—In determining which qualifying advanced energy projects to certify under this section, the Secretary shall consider the same criteria described in subsection (d)(3).

“(4) REVIEW AND REDISTRIBUTION.—

“(A) REVIEW.—Not later than 4 years after the date of enactment of this subsection, the Secretary shall review the credits allocated pursuant to this subsection as of such date.

“(B) REDISTRIBUTION.—The Secretary may reallocate credits certified under this section if the Secretary determines that—

“(1) there is an insufficient quantity of qualifying applications for certification pending at the time of the review, or

“(ii) any certification made pursuant to paragraph (2) has been revoked pursuant to paragraph (2)(B) because the project subject to the certification has—

“(i) not received a certification from the Secretary, in consultation with the Administrator of the Environmental Protection Agency, under paragraph (5); or

“(ii) has not met the requirements of the certification on which it was based.

“(C) CANCELLATIONS.—The Secretary shall, upon making a certification under this section, the Secretary shall, upon making a certification under this subsection, publicly disclose the identity of the applicant and the amount of the credit with respect to such applicant.

“(D) REVIEW.—The amendments made by this subsection shall apply to projects after the date of the enactment of this Act, and if such project is not placed in service by December 31, 2022, the Secretary shall, upon making a certification under this subsection, publicly disclose the identity of the applicant and the amount of the credit with respect to such applicant.

“(E) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on January 1, 2017.

“(2) EMISSIONS FACTORS.—

“(A) IN GENERAL.—The emissions factor for a transportation fuel shall be an amount equal to the quotient of—

“(i) an amount (not less than zero) equal to—

“(II) 77.23, minus

“(II) the emissions rate for such fuel, divided by

“(ii) 77.23.

“(B) EMISSION FACTORS.—The emissions factors of transportation fuel shall be based on the amount of lifecycle greenhouse gas emissions (as described in section 2110(a)(1)(H) of the Clean Air Act (42 U.S.C. 7545(o)(1)(H)), as in effect on the date of the enactment of this section) for such fuels, expressed as kilograms of CO2e per mmBTU, which a taxpayer may elect to use for purposes of this section.

“(C) ROUNDING OF SAFE HARBOR EMISSIONS RATE.—The Secretary may round the safe harbor emissions rates for similar types and categories of transportation fuels based on the amount of lifecycle greenhouse gas emissions as described in section 2110(a)(1)(H) of the Clean Air Act (42 U.S.C. 7545(o)(1)(H)), as in effect on the date of the enactment of this section) for such fuels, expressed as kilograms of CO2e per mmBTU, which a taxpayer may elect to use for purposes of this section.

“(D) PROVISIONAL SAFE HARBOR EMISSIONS RATE.—

“(1) IN GENERAL.—In the case of any transportation fuel for which a safe harbor emissions rate has not been established by the Secretary, a taxpayer producing such fuel may file a petition with the Secretary for designation of a safe harbor emissions rate with respect to such fuel.

“(II) EMBARGO ON PROVISIONAL AND FINAL SAFE HARBOR EMISSIONS RATE.—In the case of a transportation fuel for which a petition described in clause (i) has been filed, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall—

“(i) not later than 12 months after the date on which the petition was filed, provide a
provisional safe harbor emissions rate for such fuel which a taxpayer may use for purposes of this section, and

(d) not later than 24 months after the date on which the petition was filed, establish the safe harbor emissions rate for such fuel.

(E) Rounding.—If any amount determined under subparagraph (D) is not a multiple of 0.1, such amount shall be rounded to the nearest multiple of 0.1.

(2) PUBLISHING SAFE HARBOR EMISSIONS RATE.—In consultation with the Administrator of the Environmental Protection Agency, the Secretary shall publish a table that sets forth such emissions rate or rates established pursuant to paragraph (1) for similar types and categories of transportation fuels.

(f) INFLATION ADJUSTMENT.—

(1) IN GENERAL.—In the case of calendar years beginning after 2013, the $1.00 amount in subsection (a)(1)(A) shall be adjusted by multiplying such amount by the factor determined by substituting ‘calendar year 2013’ for ‘calendar year 1992’ in paragraph (3) thereof.

(2) PHASE-OUT.—

(A) in paragraph (1), the inflation adjustment factor shall be the inflation adjustment factor determined and published by the Secretary on January 1, 2018.

(B) PHASE-OUT PERCENTAGE.—The phase-out percentage under this paragraph is equal to—

(A) for a facility placed in service during the first calendar year following the calendar year in which the determination described in paragraph (1) is made, 75 percent,

(B) for a facility placed in service during the second calendar year following such determination, 50 percent, and

(C) for a facility placed in service during the third calendar year following such determination, 25 percent, and

(D) for a facility placed in service during any calendar year subsequent to the year described in subparagraph (C), 0 percent.

(3) DEADLINE TO BEGIN PHASE-OUT.—If the Secretary’s determination made under paragraph (2) with respect to any transportation fuel is made, such determination made under such paragraph shall be treated as if it were made—

(A) in the case of an eligible cooperative organization, any portion of the credit attributable to the production of such fuel determined under subsection (a)(1) for the taxable year may, at the election of the organization, be apportioned among patrons of the organization on the basis of the amount of business done by the patrons during the taxable year.

(B) TREATMENT OF ORGANIZATIONS AND PATRONS.—The amount of the credit apportioned to any patrons under subparagraph (A) shall not be included in the amount determined under subsection (a) with respect to the organization for the taxable year, and shall be treated as if it were determined under subsection (a) for the first taxable year of such patron ending on or after the last day of the payment period (as defined in section 1362(d)) for the taxable year of the organization or, if earlier, for the first taxable year of such patron ending on or after the date on which the patron receives notice from the cooperative organization that such credit is available.

(4) QUALIFIED FACILITY.—

(A) IN GENERAL.—Subject to subparagraphs (B) and (C), the term ‘qualified facility’ means—

(i) in the case of a facility that is originally placed in service after December 31, 2017, for the taxable year beginning on or after the last day of the payment period (as defined in section 1362(d)) for the taxable year of the organization or, if earlier, for the first taxable year of such patron ending on or after the date on which the patron receives notice from the cooperative organization that such credit is available, for purposes of this section the term ‘eligible cooperative’ means a cooperative organization described in section 1381(b) which is owned by more than 50 percent by agricultural producers. For this purpose an entity owned by an agricultural producer is one that is more than 50 percent owned by agricultural producers.

(5) SPECIAL RULES.—

(A) IN GENERAL.—No clean fuel production credit described in section 45 shall be allowed under this section.

(B) EXCISE TAX.—In the case of a facility described in paragraph (3), the term ‘greenhouse gas’ means the equivalent of 1,000,000 British thermal units.

(C) BOUNDARY.—The term ‘greenhouse gas’ has the same meaning given such term in section 211(o)(1)(G) of the Clean Air Act (42 U.S.C. 7546(o)(1)(G)), as in effect on the date of the enactment of this section.

(D) ELIGIBLE COOPERATIVE DEFINED.—For purposes of this section, a facility shall only qualify as a qualified facility—

(i) if the facility is a facility that is originally placed in service before January 1, 2018, for the taxable year beginning on or after the last day of the payment period (as defined in section 1362(d)) for the taxable year of the organization or, if earlier, for the first taxable year of such patron ending on or after the date on which the patron receives notice from the cooperative organization that such credit is available, for purposes of this section the term ‘eligible cooperative’ means a cooperative organization described in section 1381(b) which is owned by more than 50 percent by agricultural producers. For this purpose an entity owned by an agricultural producer is one that is more than 50 percent owned by agricultural producers.

(E) RELATED PERSONS.—Persons shall be treated as related to each other if such person has multiple owners, if more than 1 person has an ownership interest, except to the extent provided in regulations prescribed by the Secretary.

(F) ROYALTIES.—In the case of a facility described in paragraph (3), such amount shall be rounded to the nearest multiple of 1 cent, such amount shall be rounded to the nearest multiple of 0.1, such amount shall be rounded to the nearest multiple of 0.01, and such amount shall be rounded to the nearest multiple of 0.001.

(g) SPECIAL RULES.—

(1) IN GENERAL.—In the case of calendar year 2018, the amount of the credit determined under subsection (a) with respect to any transportation fuel produced and sold at retail in the United States during calendar year 2018, the amount of the greenhouse gas emissions if the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall publish a table that sets forth such emissions rate or rates established pursuant to paragraph (1) for similar types and categories of transportation fuels.

(2) PRODUCTION ATTRIBUTABLE TO THE TAXABLE YEAR.—If the amount of the credit of a cooperative organization determined under subsection (a) for a facility placed in service after December 31, 2017, is less than the amount of such credit shown on the return of the cooperative organization for such year, an amount equal to the excess of—

(i) such reduction, over

(ii) the amount not apportioned to such patrons under paragraph (A) for the taxable year,

shall be treated as an increase in tax imposed by this chapter on the organization. Such increase shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter.
(A) in subparagraph (E)(1)—
   (i) in subclause (I), by striking “and” at the end,
   (ii) in subclause (II), by striking the period at the end and inserting “and”, and
   (iii) by inserting at the end the following new subclause:
      “(III) qualifies as a transportation fuel (as defined in section 45C(f)(1)) and
   (B) in subparagraph (J)(i), by striking “2017” and inserting “2018”.

(2) EFFECTIVE DATE.—The amendments made by this subsection shall apply to fuel sold or used after December 31, 2016.

(b) BIODIESEL AND RENEWABLE DIESEL USED AS FUEL.—
   (1) IN GENERAL.—Section 6426 is amended—
      (A) in subsection (c)(6), by striking “2016” and inserting “2017”;
      (B) in subsection (d), by striking “(i), by striking “motor vehicle” and inserting “highway vehicle”;
      (ii) in paragraph (2)(D), by striking “liquefied”, and
      (iii) in paragraph (5), by striking “2016” and inserting “2017”, and
   (C) in subsection (e), by amending paragraph (3) to read as follows:
      “(B) TERMINATION.—This subsection shall not apply to any sale or use for any period after—
      “(A) in the case of any alternative fuel mixture sold by the taxpayer for the purposes described in subsection (d)(1), December 31, 2017,
      (B) in the case of any sale or use involving hydrogen that is not for the purposes described in subsection (d)(1), December 31, 2017, and
      (C) in the case of any sale or use not described in subparagraph (A) or (B), December 31, 2016.”

(2) EFFECTIVE DATE.—The amendments made by this subsection shall apply to fuel sold or used after December 31, 2016.

(d) CREDIT FOR BIODIESEL AND ALTERNATIVE FUEL MIXTURES.—
   (1) IN GENERAL.—Section 6426 is amended—
      (A) in subsection (c)(6), by striking “2016” and inserting “2017”;
      (B) in subsection (d), by striking “(i), by striking “motor vehicle” and inserting “highway vehicle”;
      (ii) in paragraph (2)(D), by striking “liquefied”, and
      (iii) in paragraph (5), by striking “2016” and inserting “2017”, and
   (C) in subsection (e), by amending paragraph (3) to read as follows:
      “(B) TERMINATION.—This subsection shall not apply to any sale or use for any period after—
      “(A) in the case of any alternative fuel mixture sold by the taxpayer for the purposes described in subsection (d)(1), December 31, 2017,
      (B) in the case of any sale or use involving hydrogen that is not for the purposes described in subsection (d)(1), December 31, 2017, and
      (C) in the case of any sale or use not described in subparagraph (A) or (B), December 31, 2016.”

Subtitle C—Energy Efficiency Incentives

SEC. 6021. CREDIT FOR NEW ENERGY EFFICIENT RESIDENTIAL BUILDINGS.

(a) IN GENERAL.—Section 25C is amended to read as follows:

SEC. 25C. CREDIT FOR ENERGY EFFICIENCY IMPROVEMENTS TO RESIDENTIAL BUILDINGS.

(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to—

(1) the applicable amount for the qualified residence based on energy efficiency improvements made by the taxpayer and placed in service during such taxable year,

(2) 30 percent of the amount paid or incurred by the taxpayer for energy efficiency improvements made to the qualified residence that were placed in service during such taxable year.

(b) APPLICABLE AMOUNT.—In general.

(i) PURPOSES.—For purposes of this section, the applicable amount shall be an amount equal to $1,500 increased (but not above $3,000) by $100 for every 5 percentage points by which the efficiency ratio for the qualified residence is certified to be greater than 25 percent.

(ii) EFFICIENCY RATIO.—For purposes of this section, the efficiency ratio of a qualified residence shall be equal to the quotient, expressed as a percentage, obtained by dividing—

(A) an amount equal to the difference between—

(1) the annual level of energy consumption of the qualified residence, and
(2) the annual level of energy consumption of the baseline residence,

by—

(B) the annual level of energy consumption of the baseline residence.

(iii) BASELINE RESIDENCE.—For purposes of this section, the baseline residence shall be a residence which is—

(A) comparable to the qualified residence, and

(B) constructed in accordance with the standards of the 2015 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of the American Energy Innovation Act.

(c) DEFINITIONS.—For purposes of this section:

(1) ELIGIBLE CONTRACTOR.—The term ‘eligible contractor’ means—

(A) the person who constructed the qualified residence,

(B) in the case of a qualified residence which is a manufactured home, the manufactured home producer of such residence,

(2) QUALIFIED RESIDENCE.—The term ‘qualified residence’ means a dwelling unit—

(A) located in the United States,

(B) the construction of which is substantially completed after the date of the enactment of this section, and

(C) which is certified to have an annual level of energy consumption that is less than the baseline residence and an efficiency ratio of not less than 25 percent.

(3) CONSTRUCTION.—The term ‘construction’ does not include substantial reconstruction or rehabilitation.

(d) CERTIFICATION.—

(1) IN GENERAL.—A certification described in this section shall be made—

(A) in accordance with guidance prescribed by, and

(B) by a third-party that is accredited by a certification program approved by the Secretary of Energy. Such guidance shall specify procedures and methods for calculating annual energy consumption levels, and shall include requirements to ensure the safe operation of energy efficiency improvements and that all improvements are installed according to the applicable standards of such certification program.

(2) COMPUTER SOFTWARE.—

(A) IN GENERAL.—Any calculation under paragraph (1) shall be prepared by qualified computer software.

(B) QUALIFIED COMPUTER SOFTWARE.—For purposes of this paragraph, the term ‘qualified computer software’ means software—

(i) for which the software designer has certified that the software meets all procedures and detailed methods for calculating energy consumption levels as required by the Secretary, and

(ii) which provides such forms as required to be filed by the Secretary in connection with energy consumption levels and the credit allowed under this section.

(e) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is allowed under this section with any deduction for any property (other than a qualified low-income building, as described in section 42(c)(2)), the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so determined.

(f) COORDINATION WITH INVESTMENT CREDITS.—For purposes of this section, expenditures taken into account under section 25D or 47 shall not be taken into account under this section.

(g) EFFECTIVE DATE.—The amendments made by this section shall apply to any qualified residence acquired after December 31, 2017.

SEC. 6032. ENERGY EFFICIENCY CREDIT FOR EXISTING RESIDENTIAL BUILDINGS.

(a) IN GENERAL.—Section 25C is amended to read as follows:

SEC. 25C. CREDIT FOR ENERGY EFFICIENCY IMPROVEMENTS TO RESIDENTIAL BUILDINGS.

(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to—

(1) the applicable amount for the qualified residence based on energy efficiency improvements made by the taxpayer and placed in service during such taxable year,

(2) 30 percent of the amount paid or incurred by the taxpayer for energy efficiency improvements made to the qualified residence that were placed in service during such taxable year.

(b) APPLICABLE AMOUNT.—In general.

(i) PURPOSES.—For purposes of this section, the applicable amount shall be an amount equal to $1,750 increased (but not above $6,500) by $300 for every 5 percentage points by which the efficiency ratio for the qualified residence is certified to be greater than 20 percent.

(ii) EFFICIENCY RATIO.—For purposes of this section, the efficiency ratio of a qualified residence shall be equal to the quotient, expressed as a percentage, obtained by dividing—

(A) an amount equal to the difference between—

(i) the projected annual level of energy consumption of the qualified residence after the energy efficiency improvements have been placed in service, and

(ii) the annual level of energy consumption of the qualified residence prior to the energy efficiency improvements being placed in service, by

(B) the annual level of energy consumption described in subsection (a).

(3) COORDINATION WITH CREDIT FOR RESIDENTIAL ENERGY EFFICIENT PROPERTY.—For purposes of paragraph (2)(A), the determination of the difference in annual levels of energy consumption of the qualified residence shall not include any reduction in net energy consumption related to qualified property or energy storage property for which a credit was allowed under section 25D.

(c) DEFINITIONS.—For purposes of this section:

(1) QUALIFIED RESIDENCE.—The term ‘qualified residence’ means a dwelling unit—

(A) located in the United States,

(B) owned and used by the taxpayer as the taxpayer’s principal residence (within the meaning of section 121), and

(C) which is certified to have—

(i) a projected annual level of energy consumption after the energy efficiency improvements have been placed in service that is less than the annual level of energy consumption prior to the energy efficiency improvements being placed in service, and

(ii) an efficiency ratio of not less than 20 percent.

(2) ENERGY EFFICIENCY IMPROVEMENTS.—

(A) IN GENERAL.—The term ‘energy efficiency improvements’ means any property
installed on or in a dwelling unit which has been certified to reduce the level of energy consumption for such unit or to provide for onsite generation of electricity or useful thermal energy—it—

"(i) the original use of such property commences with the taxpayer, and

"(ii) such property reasonably can be expected to be at least 5 years.

"(B) AMOUNTS PAID OR INCURRED FOR ENERGY EFFICIENCY IMPROVEMENTS.—For purposes of subsection (a)(2), the amount paid or incurred for that purpose for—

"(i) shall include expenditures for design and for labor costs properly allocable to the onsite generator, or original installation of the property, and

"(ii) shall not include any expenditures related to expansion of the building envelope.

"(d) SPECIAL RULES.—For purposes of this section:

"(1) TENANT-STOCKHOLDER IN COOPERATIVE HOUSING CORPORATION.—In the case of an individual who is a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in such section), such individual shall be treated as having made his tenant-stockholder's proportionate share of any expenditures for energy efficiency improvements of such corporation.

"(2) CONDOMINIUMS.—

"(A) IN GENERAL.—In the case of an individual who is a member of a condominium management association with respect to a condominium, the individual owner of such individual shall be treated as having made the individual's proportionate share of any expenditures for energy efficiency improvements of such association.

"(B) CONDOMINIUM MANAGEMENT ASSOCIATION.—For purposes of this paragraph, the term 'condominium management association' means an organization which meets the requirements of paragraph (1) of section 528(c) (other than subparagraph (E) thereof) with respect to a condominium project substantially all of the units of which are used as residences.

"(3) ALLOCATION IN CERTAIN CASES.—If less than 80 percent of the use of a property is for purposes of this subsection, the term 'eligible entity' means—

"(A) a Federal, State, or local government or a political subdivision thereof,

"(B) an Indian tribe (as defined in section 45A(c)(6)), or

"(C) an organization described in section 501(c)(3) and exempt from tax under section 501(a).

"(4) BASIS ADJUSTMENT.—For purposes of this subsection, the term 'basis' includes the basis of any real property, determined in accordance with section 1011, reduced by the amount of the deduction so allowed.

"(h) CERTIFICATION.—

"(2) ALLOCATION IN CERTAIN CASES.—If less than 80 percent of the use of a property is for purposes of this subsection, such expenditures shall be reduced by the amount of the credit so allowed.

"(G) COORDINATION WITH INVESTMENT CREDITS.—For purposes of this section, expenditures taken under section 25D or 47 shall not be taken into account under this section.

"(h) CONFORMING AMENDMENT.—The table of sections for part IV of subchapter A of chapter 1 is amended by striking the item relating to section 25C and inserting after the item relating to section 25B the following item:

"Sec. 25C. Credit for energy efficiency improvements to residential buildings.

"(i) EFFECTIVE DATE.—The amendments made by this section shall apply to any expenditures with respect to residential buildings placed in service after December 31, 2017.

SEC. 6033. DEDUCTION FOR NEW ENERGY EFFICIENT COMMERCIAL BUILDINGS.

(a) IN GENERAL.—Section 179D is amended to read as follows:

"SEC. 179D. ENERGY EFFICIENT COMMERCIAL BUILDING DEDUCTION.

"(a) IN GENERAL.—There shall be allowed as a deduction an amount equal to the lesser of—

"(A) the applicable dollar value, and

"(B) the square footage of the qualified building.

"(2) APPLICABLE DOLLAR VALUE.—For purposes of this section, the applicable dollar value of a qualified building placed in service by the taxpayer during the taxable year.

"(b) APPLICABLE AMOUNT.—

"(1) IN GENERAL.—For purposes of subsection (a), the applicable amount shall be an amount equal to the product of—

"(A) the applicable dollar value, and

"(B) the square footage of the qualified building.

"(2) APPLICABLE DOLLAR VALUE.—For purposes of this section, the applicable dollar value shall be an amount equal to the product of—

"(A) the applicable dollar value, and

"(B) the square footage of the qualified building.

"(3) EFFICIENCY RATIO.—For purposes of this section, the efficiency ratio of a qualified building shall be equal to the quotient, expressed as a percentage, obtained by dividing—

"(A) an amount equal to the difference between—

"(i) the annual level of energy consumption of the qualified building, and

"(ii) the annual level of energy consumption of the baseline building,

"by

"(A) the applicable dollar value, and

"(B) the square footage of the qualified building.

"(4) BASELINE BUILDING.—For purposes of this section, the baseline building shall be a building which—

"(A) is comparable to the qualified building, and

"(B) meets the minimum requirements of Standard 90.1-2013 of the American Society of Heating, Refrigerating, and Air Conditioning Engineers and the Illuminating Engineering Society of North America (as in effect on December 31, 2014).

"(c) QUALIFIED BUILDING.—The term 'qualified building' means a building—

"(1) located in the United States,

"(2) which is owned by the taxpayer, and

"(3) which is certified to have an annual level of energy consumption that is less than the baseline building and an efficiency ratio of not less than 25 percent.

"(d) ALLOCATION OF DEDUCTION.—

"(1) IN GENERAL.—In the case of a qualified building with respect to a particular taxable year, the Secretary shall promulgate regulations to allocate the deduction to the person primarily responsible for designing and constructing the building, such person to be treated as the taxpayer for purposes of this section.

"(2) ELIGIBLE ENTITY.—For purposes of this subsection, the term 'eligible entity' means—

"(A) a Federal, State, or local government or a political subdivision thereof,

"(B) an Indian tribe (as defined in section 45A(c)(6)), or

"(C) an organization described in section 501(c)(3) and exempt from tax under section 501(a).

"(e) BASIS ADJUSTMENT.—For purposes of this subsection, if a deduction is allowed under this section with respect to any qualified building, the basis of such property shall be reduced by the amount of the deduction so allowed.

"(f) CERTIFICATION.—

"(1) IN GENERAL.—A certification described in this section shall be made—

"(A) in accordance with guidance prescribed by and

"(B) by a third-party that is accredited by a certification program approved by, the Secretary, in consultation with the Secretary of Energy. Such certification shall specify procedures and methods for calculating annual energy consumption levels, and shall include requirements to ensure the safe operation of energy efficiency improvements and that all improvements are installed according to the applicable standards of such certification program.

"(2) COMPUTER SOFTWARE.—

"(A) IN GENERAL.—Any calculation under paragraph (1) shall be prepared by qualified computer software.

"(B) QUALIFIED COMPUTER SOFTWARE.—For purposes of this paragraph, the term 'qualified computer software' means software for which the software developer has certified that the software meets all procedures and detailed methods for calculating energy consumption levels as required by the Secretary, and

"(ii) which provides such forms as required to be filed by the Secretary in connection with energy consumption levels and the deduction allowed under this section.

"(c) EFFECTIVE DATE.—The amendments made by this section shall apply to any qualified building placed in service after December 31, 2017.

SEC. 6034. ENERGY EFFICIENCY DEDUCTION FOR EXISTING COMMERCIAL BUILDINGS.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 is amended by inserting after section 179F the following new section:

"SEC. 179F. DEDUCTION FOR ENERGY EFFICIENCY IMPROVEMENTS TO COMMERCIAL BUILDINGS.

"(a) IN GENERAL.—There shall be allowed as a deduction an amount equal to the lesser of—

"(1) the applicable amount for the qualified building based on energy efficiency improvements made by the taxpayer and placed in service during the taxable year, or

"(2) 30 percent of the amount paid or incurred by the taxpayer for energy efficiency improvements made to the qualified building which were placed in service during the taxable year.

"(b) APPLICABLE AMOUNT.—

"(1) IN GENERAL.—For purposes of subsection (a), the applicable amount shall be an amount equal to the product of—

"(A) the applicable dollar value, and

"(B) the square footage of the qualified building.
“(2) APPLICABLE DOLLAR VALUE.—For purposes of paragraph (1), the applicable dollar value shall be an amount equal to $1.25 increased (but not above $9.25) by $0.50 for every 5 percentage points by which the efficiency ratio for the qualified building is certified to be greater than 20 percent.

(3) EFFICIENCY RATIO.—For purposes of this subsection, the efficiency ratio of a qualified building shall be equal to the quotient, expressed as a percentage, obtained by dividing—

‘‘(A) an amount equal to the difference between—

‘‘(i) the projected annual level of energy consumption of the qualified building after the energy efficiency improvements have been placed in service, and

‘‘(ii) the annual level of energy consumption of such qualified building prior to the energy efficiency improvements being placed in service, and

‘‘(B) the annual level of energy consumption described in subparagraph (A)(ii).

(4) COORDINATION WITH CLEAN ENERGY INVESTMENT CREDIT.—For purposes of this paragraph (3)(A), the determination of the difference in annual levels of energy consumption of the qualified building shall not include net energy consumption related to qualified property or energy storage property for which a credit was allowed under section 48E.

(5) EFFECTIVE DATE.—The amendments made by this section shall apply to energy efficiency improvements placed in service after December 31, 2017.

Subtitle D—Clean Electricity and Fuel Bonds

SEC. 6041. CLEAN ENERGY BONDS.

(a) In General.—Subpart J of part IV of chapter B of chapter 1 is amended by inserting the following after section 179E—

‘‘SEC. 179F. CLEAN ENERGY BONDS.

‘‘(a) DEFINITIONS.—

‘‘(1) QUALIFIED BUILDING.—The term ‘qualified building’ means a building—

‘‘(A) located in the United States,

‘‘(B) which is owned by the taxpayer, and

‘‘(C) for which no other deduction (or amortization in lieu of depreciation) is allowable with respect to such property.

‘‘(2) AMOUNTS PAID OR INCURRED FOR ENERGY EFFICIENCY IMPROVEMENTS.—For purposes of subsection (a)(2), the amount paid or incurred—

‘‘(i) shall include expenditures for design purposes, in connection with a specific building, and for an entity described in subparagraph (B) of this paragraph, the following—

‘‘(I) the expenses incurred by an entity described in subparagraph (B),

‘‘(II) the amount of interest payable by the issuer for a clean energy bond issued as part of an issue if—

‘‘(aa) the amount of interest payable by the issuer with respect to any interest payment date for a clean energy bond is 28 percent of the amount of interest payable by the issuer with respect to such date,

‘‘(bb) the amount of the credit determined under this subsection with respect to any interest payment date for a clean energy bond is 28 percent of the amount of interest payable by the issuer with respect to such date,

‘‘(cc) the limitation based on amount of tax

‘‘(i) IN GENERAL.—The credit allowed under subsection (a) for any taxable year shall not exceed the excess of—

‘‘(A) the sum of the regular tax liability (as defined in section 55(d)(1)(B)) plus the tax imposed by section 55, over

‘‘(B) the sum of the credits allowable under this section (other than part B and this subsection).

‘‘(ii) a public power provider (as defined in paragraph (2) of such section), or

‘‘(iii) a cooperative (as defined in paragraph (4) of such section), and

‘‘(C) the issuer makes an irrevocable election to have this section apply.

‘‘(ii) APPLICABLE RULES.—For purposes of applying paragraph (1)—

‘‘(A) for purposes of section 179F, a clean energy bond shall not be treated as federally guaranteed by reason of the credit allowed under subsection (a) or section 6433,

‘‘(B) for purposes of section 148, the yield on a clean energy bond shall be determined in disregard of the credit allowed under subsection (a), and

‘‘(C) a bond shall not be treated as a clean energy bond if the issue price has more than a minimum amount (determined under rules similar to the rules of section 1273(a)(3)) of premium over the stated principal amount of the bond.

‘‘(3) QUALIFIED FACILITY.—The term ‘qualified facility’ means a facility—

‘‘(A) which is described in subsection (e)(3) of section 55 and has a greenhouse gas emissions rate of less than 386 metric tons of CO₂ per KWh (as such terms are defined in subsections (b)(1) and (e)(1) of such section), or

‘‘(B) which is described in subsection (e)(4) of section 49T and only produces transportation fuel which has an emissions rate of less than 38.62 kilograms of CO₂ per mmBtu (as such terms are defined in subsections (b) and (e) of such section).

‘‘(4) EFFECTIVE DATE.—The amendments made by this section shall apply to energy efficiency improvements placed in service after December 31, 2017.

Subtitle D—Clean Electricity and Fuel Bonds

SEC. 6041. CLEAN ENERGY BONDS.

(a) In General.—Subpart J of part IV of chapter B of chapter 1 is amended by adding at the end the following new section:

‘‘SEC. 54BB. CLEAN ENERGY BONDS.

‘‘(a) IN GENERAL.—If a taxpayer holds a clean energy bond on one or more of the payment dates of the bond during any taxable year, such bond shall be allowed as a credit against the tax imposed by this chapter for the tax year in which the tax is payable to the extent of the credits determined under subsection (b) with respect to such dates.

‘‘(b) AMOUNT OF CREDIT.—The amount of the credit determined under this subsection with respect to any interest payment date for a clean energy bond is 28 percent of the sum of interest payable by the issuer with respect to such date.

‘‘(c) LIMITATION BASED ON AMOUNT OF TAX.

‘‘(1) IN GENERAL.—The credit allowed under subsection (a) for any taxable year shall not exceed the excess of—

‘‘(A) the sum of the regular tax liability (as defined in section 55(d)(1)(B)) plus the tax imposed by section 55, over

‘‘(B) the sum of the credits allowable under this part (other than part B and this subsection).

‘‘(2) CARRYOVER OF UNUSED CREDIT.—If the credit allowable under subsection (a) exceeds the limitation imposed by paragraph (1) for such taxable year, such excess shall be carried to the succeeding taxable year and added to the credit allowable under subsection (a) for such taxable year (determined before the application of paragraph (1) for such succeeding taxable year).

‘‘(d) CLEAN ENERGY BOND.—

‘‘(1) IN GENERAL.—For purposes of this section, the term ‘clean energy bond’ means any bond issued as part of an issue if—

‘‘(A) 100 percent of the excess of the available project proceeds (as defined in section 55(d)(4) of such issue) over the amounts in a reasonably required reserve (within the meaning of section 150(a)(3)) with respect to such issue is to be used for capital expenditures incurred by an entity described in subparagraph (B) for 1 or more qualified facilities,

‘‘(B) the bond is issued by—

‘‘(i) a governmental body (as defined in paragraph (3) of section 54(c)(4)),

‘‘(ii) a public power provider (as defined in paragraph (2) of such section), or

‘‘(iii) a cooperative (as defined in paragraph (4) of such section), and

‘‘(C) the issuer makes an irrevocable election to have this section apply.

‘‘(2) APPLICABLE RULES.—For purposes of applying paragraph (1)—

‘‘(A) for purposes of section 149(b), a clean energy bond shall not be treated as federally guaranteed by reason of the credit allowed under subsection (a) or section 6433,

‘‘(B) for purposes of section 148, the yield on a clean energy bond shall be determined in disregard of the credit allowed under subsection (a), and

‘‘(C) a bond shall not be treated as a clean energy bond if the issue price has more than a minimum amount (determined under rules similar to the rules of section 1273(a)(3)) of premium over the stated principal amount of the bond.

‘‘(3) QUALIFIED FACILITY.—The term ‘qualified facility’ means a facility—

‘‘(A) which is described in subsection (e)(3) of section 55 and has a greenhouse gas emissions rate of less than 386 metric tons of CO₂ per KWh (as such terms are defined in subsections (b)(1) and (e)(1) of such section), or

‘‘(B) which is described in subsection (e)(4) of section 49T and only produces transportation fuel which has an emissions rate of less than 38.62 kilograms of CO₂ per mmBtu (as such terms are defined in subsections (b) and (e) of such section).

‘‘(4) EFFECTIVE DATE.—The amendments made by this section shall apply to energy efficiency improvements placed in service after December 31, 2017.
which the proceeds are used for capital expenditures incurred by an entity for a qualified facility described in subsection (d)(3)(A), if the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, determines that the annual greenhouse gas emissions from electrical production in the United States are equal to or less than the percentage specified in section 45S(d)(1), the amount of the credit determined under subsection (b) with respect to any clean energy bond issued during a calendar year described in paragraph (3) shall be equal to the product of—

(i) the amount determined under subsection (b) without regard to this subsection, multiplied by

(ii) the phase-out percentage under paragraph (3).

(2) FUEL PRODUCTION.—

(A) IN GENERAL.—Subject to subparagraph (B), if the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, determines that the annual greenhouse gas emissions from transportation fuel produced and sold at retail annually in the United States are equal to or less than the percentage specified in section 45S(d)(1), then the determination described in subparagraph (A) shall be deemed to have been made for calendar year 2025.

(B) DEADLINE TO BEGIN PHASE-OUT.—If the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, determines that the annual greenhouse gas emissions from transportation fuel produced and sold at retail annually in the United States for each year before calendar year 2025 are greater than the percentage specified in section 45S(d)(1), then the determination described in subparagraph (A) shall be deemed to have been made for calendar year 2025.

(3) PHASE-OUT PERCENTAGE.—The phase-out percentage under this paragraph is equal to—

(A) for any bond issued during the first calendar year following the calendar year in which the determination described in subparagraph (A) or (B) was made, 75 percent;

(B) for any bond issued during the second calendar year following such determination year, 60 percent;

(C) for any bond issued during the third calendar year following such determination year, 50 percent; and

(iii) the amount determined under subsection (b) without regard to this subsection, multiplied by

(iv) the phase-out percentage under paragraph (3).

(3) APPLICATION OF ARBITRAGE RULES.—For purposes of this section, the term 'qualified clean energy bond' means a clean energy bond described in subsection (d)(3) that—

(A) is issued after the date of the enactment of this Act, and

(B) is issued for an energy project described in subsection (d)(2)(A) or (2)(B).

(4) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after such date.
amount paid or incurred for punitive damages in connection with any judgment in, or settlement of, any action.'"

(2) CONFORMING AMENDMENT.—The heading for section 162(g) of such Code is amended by inserting "OR PUNITIVE DAMAGES" after "LAWS".

(b) INCLUSION IN ECONOMY OF PUNITIVE DAMAGES PAID BY INSURER OR OTHERWISE.—

(1) IN GENERAL.—Part II of chapter B of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

"SEC. 91. PUNITIVE DAMAGES COMPENSATED BY INSURANCE OR OTHERWISE.

"(a) Gross income shall include any amount paid or incurred on or after the date of enactment of this Act by any taxpayer as insurance or otherwise by reason of the taxpayer's liability (or agreement) to pay punitive damages.

(b) REPORTING REQUIREMENTS.—Section 6941 of such Code is amended by adding at the end the following new subsection:

"(b) Section To Apply to Punitive Damages Compensated by Insurance or Otherwise.—This section shall apply to payments by a person to or on behalf of another person as insurance or otherwise by reason of the other person's liability (or agreement) to pay punitive damages.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to liabilities (or agreements) to pay punitive damages incurred or paid on or after the date of the enactment of this Act.

SA 3241. Ms. CANTWELL submitted an amendment intended to be proposed by her to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, add the following:

SA 3242. Ms. CANTWELL submitted an amendment intended to be proposed by her to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, add the following:

SEC. 4. FEDERAL COAL LEASING PROGRAM.

(a) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the Federal coal leasing program should be reviewed;

(2) to ensure that taxpayers receive a fair rate of return for Federal minerals;

(3) to provide appropriate transparency; and

(4) to ensure that management of Federal land and minerals is in the public interest;

(b) ROYALTY POLICY.—

(1) IN GENERAL.—To ensure consultation with key State, tribal, environmental, energy and Federal stakeholders, not later than 180 days after enactment of this Act, the Secretary of the Interior shall reestablish the Royalty Policy Committee (referred to in this subsection as the "Committee") in accordance with the charter of the Secretary of the Interior, dated March 26, 2010, as modified by this subsection.

(c) DUTIES.—The Committee shall—

(1) provide advice to the Secretary of the Interior, acting through the Director of the Office of Natural Resource Revenue, on the management of Federal and Indian mineral leases and royalties under the law governing the Department of the Interior;

(2) review and comment on revenue management and other mineral and energy-related policies; and

(3) provide a forum to convey views representative of mineral lessors, operators, revenue paying lessees, Governors, representatives of governmental agencies, and public interest groups.

(d) ADVISORY.—The duties of the Committee shall be solely advisory.

(e) MEETINGS.—The Committee shall meet at least once a year at the request of the Secretary of the Interior.

(f) DURATION.—The charter of the Committee may be renewed in 2-year increments by the Secretary of the Interior.

Section 105 of the Gulf of Mexico Energy Security Act of 2006 (43 U.S.C. 1331 note) is amended to read as follows:

SEC. 6. DISPOSITION OF QUALIFIED OUTER CONTINENTAL SHELF REVENUES.
SEC. 105. DISPOSITION OF QUALIFIED OUTER CONTINENTAL SHELF REVENUES FROM 181 AREA, 181 SOUTH AREA, AND 2007 PLANNING AREAS OF GULF OF MEXICO.

"Notwithstanding section 9 of the Outer Continental Shelf Act (43 U.S.C. 1393) and subject to the other provisions of this section, for each applicable fiscal year, the Secretary of the Treasury shall deposit—

(1) 0.5 percent of qualified outer Continental Shelf revenues in the general fund of the Treasury, to be used for Federal budget deficit reduction or, if there is no Federal budget deficit, to offset the Federal debt in such manner as the Secretary of the Treasury considers appropriate; and

(2) 12.5 percent of qualified outer Continental Shelf revenues in a special account in the Land and Water Conservation Fund established under section 200302 of title 54, United States Code, from which the Secretary shall disburse, without further appropriation, 100 percent to provide financial assistance to States in accordance with section 200305 of that title, which shall be considered income to the Land and Water Conservation Fund for purposes of section 200302 of that title."

SA 3245. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURkowski to the bill S. 2120, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. 4. SEAWARD BOUNDARIES.

(a) IN GENERAL.—Section 4 of the Submerged Lands Act (43 U.S.C. 1391) is amended—

(1) in the first sentence, by striking "three geographical miles"; and

(2) by inserting after the words "the coast line of a State described in section 4(b)," after "three marine leagues".

SA 3246. Mr. ENZI (for himself and Mr. BENNET) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURkowski to the bill S. 2120, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

TITLE VI—NATIONAL FOREST SYSTEM TRAIL MAINTENANCE

SEC. 6001. DEFINITIONS.

In this title—

(1) ADMINISTRATIVE UNIT.—The term ‘‘Administrative Unit’’ means a national forest or national grassland.

(2) OUTFITTER OR GUIDE.—The term ‘‘outfitter or guide’’ means an individual, organization, or business who provides outfitting or guiding services, as defined in section 515.1 of title 36, Code of Federal Regulations.

(3) PARTNER.—The term ‘‘partner’’ means a non-Federal entity that engages in a partnership.

(4) STRATEGY.—The term ‘‘strategy’’ means the National Forest System Trails Volunteer Partnership Strategy established by section 6005(a).

(5) TRAIL MAINTENANCE.—The term ‘‘trail maintenance’’ means any activity to maintain the usability and sustainability of trails within the National Forest System, including—

(A) ensuring trails are passable by the users for which they are managed;

(B) preventing or repairing trail damage resulting from trail deterioration;

(C) protecting public safety; and

(D) ensuring future deferred maintenance costs.

(6) VOLUNTEER.—The term ‘‘volunteer’’ means an individual whose services are accepted by the Secretary without compensation under the Volunteers in the National Forests Act of 1972 (16 U.S.C. 558a et seq.).

SEC. 6002. NATIONAL FOREST SYSTEM TRAILS VOLUNTEER AND PARTNERSHIP STRATEGY.

(a) IN GENERAL.—Not later than 2 years after the date of the enactment of this Act, the Secretary of the Interior, in consultation with the Secretary of Agriculture, shall—

(1) develop and publish a Federal Register a strategy to significantly increase the role of volunteers and partners in trail maintenance;

(b) REQUIRED ELEMENTS.—The strategy required by subsection (a) shall—

(1) augment and support the capabilities of Federal employees to carry out or contribute to trail maintenance activities;

(2) provide meaningful opportunities for volunteers and partners to carry out trail maintenance in each region of the Forest Service;

(3) address the barriers to increased volunteerism and partnerships in trail maintenance identified by volunteers, partners, and other stakeholders;

(4) prioritize increased volunteerism and partnerships in trail maintenance in those regions with the most severe trail maintenance needs, and where trail maintenance backlogs are jeopardizing access to National Forest lands; and

(5) require the increase in volunteer and partnership efforts on trail maintenance as a result of the strategy;

(c) the miles of National Forest System trails maintained by volunteers and partners, and the approximate value of the volunteer and partnership efforts;
SEC. 6004. COOPERATIVE AGREEMENTS.

(a) IN GENERAL.—The Secretary may enter into a cooperative agreement with any State, tribal, local governmental, and private entity for the purpose of (1) reducing, by at least 50 percent, the estimated value of trail maintenance performed, and suggestions for revising the program; and (2) recommendations for further increasing volunteerism and partnerships in trail maintenance.

(b) CONTENTS.—Cooperative agreements authorized under this section may—

(1) improve trail maintenance in a priority area;
(2) implement the strategy; or
(3) advance trail maintenance in a manner deemed appropriate by the Secretary.

SEC. 6005. STATE TRAIL MAINTENANCE CREDITS FOR OUTFITTERS AND GUIDES.

(a) PILOT PROGRAM.—Within 1 year after the date of enactment of this Act, in accordance with this section, the Secretary shall establish a pilot program on not less than 20 administrative units to offset all or part of the land use fee for an outfitting and guiding permit by the cost of the work performed by the permit holder to construct, improve, or maintain National Forest System trails, trailheads, or developed sites that support public use under terms established by the Secretary.

(b) ADDITIONAL REQUIREMENTS.—In establishing the pilot program authorized by subsection (a), the Secretary shall—

(1) select administrative units where the pilot program will improve trail maintenance; and
(2) establish appropriate terms and conditions, including meeting National Quality Standards for Trails and the Trail Management Objectives identified for the trail.

SA 3247. Ms. STABENOW (for herself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURkowski to the bill S. 8, 2012, to provide for the implementation of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

Subtitle I—Prevention and Protection From Lead Exposure

SEC. 1420A. LEAD PREVENTION GRANT PROGRAM.

(a) DEFINITIONS.—In this section—

(1) CITY.—The term ‘City’ means the City of Flint, Michigan.

(2) STATE.—The term ‘State’ means the State of Michigan.

(b) GRANT PROGRAM.—

(1) ESTABLISHMENT.—Using funds made available under section 4805(a) of the Energy Policy Modernization Act of 2016, the Administrator shall make grants to the State and the City for use in accordance with this subsection.

(2) USE OF FUNDS.—The use of funds from a grant made under this subsection shall be—

(A) determined by the Administrator, in consultation with the State and the City; and
(B) used only for an activity authorized under paragraph (3).

(3) AUTHORIZED ACTIVITIES.—

(A) IN GENERAL.—The Administrator may authorize the use of the funds from a grant under this subsection to carry out any activity that the Administrator determines is necessary to ensure that the drinking water supply of the City does not contain lead.

(II) lead, other drinking water contaminants, and pathogens that pose a threat to public health.

(B) EXCLUSIONS.—Authorized activities under paragraph (A) do not include—

(i) testing, evaluation, and sampling of public and private water service lines in the water distribution system of the City;

(ii) repairs and upgrades to water treatment facilities that serve the City;

(iii) optimization of corrosion control treatment of the public and private water service lines in the water distribution system of the City;

(iv) repairs to water mains and replacement of public and private service lines in the water distribution system of the City; and

(v) modification or construction of new pipelines and treatment facilities, and system startup evaluations needed to ensure optimal treatment of water from the Karegnondi Water Authority before and after the transition to this new source.

(4) MODIFICATIONS.—As a condition of the grant, the Administrator shall provide the State and the City with the tools to help address the following:

(A) improved long-term coverage of drinking water systems in the City; and

(B) improved capacity and training for the water system of the City.

(c) ADMINISTRATION.—The Administrator may use funds made available under section 4805(a) of the Energy Policy Modernization Act of 2016—

(1) for the costs of technical assistance provided by the Environmental Protection Agency or by contractors of the Environmental Protection Agency.

(2) for administrative activities in support of authorized activities.

(d) REPORT.—Not later than 45 days after the first day of each fiscal year 2017, 2018, 2019, 2020, and 2021, the Administrator shall submit to the Committee on Appropriations of the Senate, the Committee on Environment and Public Works of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Appropriations of the House of Representatives, the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on Energy and Commerce of the House of Representatives, and the Committee on Transportation and Infrastructure of the House of Representatives a report describing the actions taken to carry out the purposes of the grant program, as described in this section.

(e) SUNSET.—The authority provided by this section terminates on March 1, 2021.
Center of Excellence on Lead Exposure services.

means the Secretary of Health and Human Services.

paragraph (2)(E)

paragraph 1414 (c) of the Safe Drinking Water Act (42

sections.

as subparagraphs (E) and (F), respectively

specific or more general basis.

in the regulation issued under section 1412,

lead in a regulation issued under section 1412,

concentrations of lead found in the monitoring activity or any other level of lead determined by the Administrator to warrant notice, either on a case-specific or more general basis, the Administrator shall notify the public of the concentrations of lead found in the monitoring activity conducted by the public water system if the public water system or the State does not notify the public of the concentrations of lead found in a monitoring activity.

(B) RESULTS OF LEAD MONITORING.

(I) press release; or

(II) other form of communication, including

(b) CONFORMING AMENDMENTS.—Section 1414 (c) of the Safe Drinking Water Act (42 U.S.C. 300g-3(c)) is amended—

(1) in paragraph (1)(C), by striking “paragraph (2)(E)” and inserting “paragraph (2)(F)”;

(2) in paragraph (2)(B)(ii), by striking “subparagraph (D)” and inserting “subparagraph (E)”; and

(3) in paragraph (3)(B), in the first sentence, by striking “and nutrition-related” and inserting “and nutrition-related, interventions, as well as other interventions, to mitigate lead exposure in children and adults.

(3) Develop lead mitigation recommendations and allocate resources, as appropriate, for health-, education-, and nutrition-related interventions, as well as other interventions,

(14) Establish a partnership with the Regional Center of Excellence on Nutrition Education of the Department of Agriculture to provide any relevant nutrition information for City residents.

SEC. 4804. CENTER OF EXCELLENCE ON LEAD EXPOSURE.

(a) DEFINITIONS.—In this section:

(1) CENTER.—The term “Center” means the Center of Excellence on Lead Exposure established under subsection (b).

(2) CITY.—The term “City” means the City of Flint, Michigan.

(3) COMMUNITY.—The term “community” means the community of the City.

(4) SECRETARY.—The term “Secretary” means the Secretary of Health and Human Services.

(5) STATE.—The term “State” means the State of Michigan.

(b) ESTABLISHMENT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall, by contract, grant, or cooperative agreement, establish in the City a center to be known as the “Center of Excellence on Lead Exposure”.

(c) COLLABORATION.—The Center shall collaborate with research institutions, hospitals, public health agencies, community-based health centers, community behavioral health providers, public health agencies of Genesee County in the State, and the State in the development and operation of the Center.

(d) ADVISORY COMMITTEE.—

(1) IN GENERAL.—The Center shall establish an advisory committee to provide scientific and technical support for the Center and to advise the Secretary, consisting of, at a minimum—

(A) an epidemiologist;

(B) a toxicologist;

(C) a mental health professional;

(D) a pediatrician;

(E) an early childhood education expert;

(F) a special education expert;

(G) a dietician;

(H) an environmental health expert; and

(I) at least 3 other representatives, including representatives from organizations that provide services for City residents and other communities impacted by lead exposure, any relevant information regarding health and educational impacts;

(2) CONDUCT RESEARCH.—The Center shall conduct research on lead, including the concentrations of lead found in the monitoring activity conducted by the public water system if the public water system or the State does not notify the public of the concentrations of lead found in a monitoring activity,

SEC. 4805. FUNDING.

(a) LEAD PREVENTION GRANT PROGRAM.—In general.—Not later than 180 days after the date of enactment of this Act, out of any funds in the Treasury not otherwise appropriated, the Secretary of the Treasury shall transfer to the Administrator of the Environmental Protection Agency to carry out section 1420A of the Safe Drinking Water Act (as added by section 4801) $400,000,000, to remain available until March 1, 2021.

(b) RECIPT AND ACCEPTANCE.—The Administrator of the Environmental Protection Agency shall be entitled to receive, shall accept, and shall use to carry out section 1420A of the Safe Drinking Water Act (as added by section 4801) the funds transferred under paragraph (1), without further appropriation.

(c) RESERVATION OF FUNDS.—The funds transferred under paragraph (1) that are unobligated as of March 1, 2021, shall revert to the general fund of the Treasury.

SEC. 4806. EMERGENCY DESIGNATION.

(a) IN GENERAL.—This subtitle and the amendments made by this subtitle are designated as an emergency requirement pursuant to section 4(g) of the Pay-As-You-Go Act of 2010 (2 U.S.C. 933(g)).

(b) DESIGNATION IN SENATE.—In the Senate, this subtitle and the amendments made by this subtitle are designated as an emergency requirement pursuant to section 403(a) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SA 3248. Ms. STABENOW (for herself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. Murkowski to the bill S. 12, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:
SEC. 4801. DRINKING WATER INFRASTRUCTURE.

(a) Definitions.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) ELIGIBLE STATE.—The term "eligible State" means any State or territory in which a State or territory has declared an emergency under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) relating to threats to public health or within the state of lead or other contaminants in a public drinking water supply system.

(b) ELIGIBLE SYSTEM.—The term "eligible system" means a public drinking water supply system that is the subject of an emergency declaration referred to in paragraph (2).

(c) REVOLVING LOAN FUND ASSISTANCE.—

(1) IN GENERAL.—An eligible system shall be—

(A) considered to be a disadvantaged community under section 1432(d) of the Safe Drinking Water Act (42 U.S.C. 300j–12(d)); and

(B) eligible for a secured loan under section 5029 of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 300j–12(d)); and

(2) AUTHORIZATION.—

(A) IN GENERAL.—Using funds provided under subsection (f)(1), an eligible State may provide assistance to an eligible system within the eligible State, for the purpose of addressing lead or other contaminants in drinking water, including repair and replacement of public and private drinking water infrastructure.

(B) INCLUSION.—Assistance under subparagraph (A) may include additional subordination under the Safe Drinking Water Act (42 U.S.C. 300f et seq.), as described in paragraph (1)(B).

(c) WATER INFRASTRUCTURE FINANCING.—

(1) AUTHORIZATION.—

(A) IN GENERAL.—Using funds provided under subsection (f)(2), the Administrator may make a secured loan to an eligible State to carry out a project to address lead or other contaminants in drinking water in an eligible system.

(B) AMOUNT.—Notwithstanding section 5029(b)(2) of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 300j–12(d)(2)), the amount of a secured loan provided under this section shall be—

(1) in paragraph (1), by adding at the end the following paragraph:

(ii) an explanation of the means by which the project will address a situation causing a declared emergency in the eligible State;

(iii) the estimated cost of the project; and

(iv) the projected start date for construction of the project.

(C) UNOBLIGATED AMOUNTS.—Any amounts made available to the Administrator under subparagraph (A) that are unobligated on the date that is 1 year after the date on which the amounts are made available shall be available to carry out the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 300j–12(b)) that includes preapplication information regarding projects to be funded using the additional assistance including, with respect to each such project—

(1) a description of the project;

(2) an explanation of the means by which the project will address a situation causing a declared emergency in the eligible State;

(3) the estimated cost of the project; and

(4) the projected start date for construction of the project.

(D) APPLICABILITY.—Section 1452(b)(1) of the Safe Drinking Water Act (42 U.S.C. 300j–12(b)(1)) shall not apply to a supplement to an intended use plan under subparagraph (B).

(2) WIFIA FUNDING.—

(A) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Administrator shall make available to the state the Secretary $60,000,000 to provide credit subsidies, in consultation with the Director of the Office of Management and Budget, for secured loans under section 5029 of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 300j–12(b)); and

(B) DEADLINE.—The Administrator, in consultation with the Director of the Office of Management and Budget, shall provide to an eligible State a secured loan under section 5029(b)(9) of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 300j–12(b)) that includes preapplication information regarding projects to be funded using the additional assistance including, with respect to each such project—

(1) a description of the project;

(2) an explanation of the means by which the project will address a situation causing a declared emergency in the eligible State;

(3) the estimated cost of the project; and

(4) the projected start date for construction of the project.

(g) NONDUPLICATION OF WORK.—An activity implemented, in consultation with the Administrator, shall provide to an eligible system—

(1) any funds provided under subsection (f)(1); or

(2) any other loan provided to an eligible system.

(h) OFFSET.—

(1) IN GENERAL.—Amounts in the Leaking Underground Storage Tank Trust Fund shall be transferred to the Leaking Underground Storage Tank Trust Fund of the Treasury for the fiscal year, the excess amount made available under this paragraph for that fiscal year shall be transferred to the Leaking Underground Storage Tank Trust Fund established under section 9508(a) of the Internal Revenue Code of 1986.

(2) AMENDMENT.—Subsection (c) of section 9508 of the Internal Revenue Code of 1986 is amended by adding at the end the following paragraphs:

"(4) ADDITIONAL TRANSFER.—Out of amounts in the Leaking Underground Storage Tank Trust Fund there is hereby appropriated $250,000,000 to be transferred to the Administrator of the Environmental Protection Agency for purposes of making expenditures described in section 4801 of the Energy Policy Modernization Act of 2016.".

SEC. 4802. LOAN FORGIVENESS.

The matter under the heading "STATE AND TRIBAL ASSISTANCE GRANTS" under the heading "ENVIRONMENTAL PROTECTION AGENCY" in title II of division G of the Consolidated Appropriations Act, 2016 (Public Law 114–113), is amended in paragraph (1), by striking the semicolon at the end and inserting the following: "or, if a Federal or State emergency declaration has been issued due to a threat to public health from heightened levels of lead in drinking water, supply, before the date of enactment of this Act: Provided, Further, That in a State in which such an emergency declaration has been issued, the State shall use more than 20 percent of the funds made available under this title to the State for Drinking Water State Revolving Fund capitalization grants to provide an additional subsidy to eligible recipients:".

SEC. 4803. DISCLOSURE OF PUBLIC HEALTH THREATS FROM LEAD EXPOSURE.

(a) EXCEEDANCE OF LEAD ACTION LEVEL.—

Section 1452(c) of the Safe Drinking Water Act (42 U.S.C. 300g–3(c)) is amended—

(1) in paragraph (1), by adding at the end the following paragraphs:

"(D) Notice of any exceedance of a lead action level or any other prescribed level of
lead in a regulation issued under section 1412, including the concentrations of lead found in a monitoring activity or any other level of lead determined by the Administrator to warrant notice, either on a case-specific or more general basis;”;

(2) in paragraph (2)—
  (A) by redesignating subparagraphs (D) and (E) as subparagraphs (E) and (F), respectively; and
  (B) by inserting after subparagraph (C) the following:

  "(D) EXCEEDANCE OF LEAD ACTION LEVEL.— Regulations issued under subparagraph (A) shall specify notification procedures for an exceedance of the action level or any other prescribed level of lead in a regulation issued under section 1412;”;

(3) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively; and

(4) by inserting after paragraph (2) the following:

  "(3) NOTIFICATION OF THE PUBLIC RELATING TO LEAD.—

  ""(A) EXCEEDANCE OF LEAD ACTION LEVEL.— Not later than 15 days after the date of being notified by the primary agency of an exceedance of the action level or any other prescribed level of lead in a regulation determined by the Administrator to warrant notice, either on a case-specific or more general basis, the Administrator shall notify the public of the concentrations of lead found in the monitoring activity conducted by the public water system if the public water system or the State does not notify the public of the concentrations of lead found in a monitoring activity.

  ""(B) RESULTS OF LEAD MONITORING.—

  ""(i) IN GENERAL.—The Administrator may provide the notice described in clause (1) by—

  ""(I) press release; or

  ""(II) other form of communication, including local media.”.

(b) CONFORMING AMENDMENTS.—Section 1412(c)(5) of the Safe Drinking Water Act (42 U.S.C. 300g–3(c)(5)) is amended—

(1) in paragraph (1)(C), by striking “paragrap (2)(E)” and inserting “paragraph (2)(F)”;

(2) in paragraph (2)(B)(i), by striking “subparagraph (D)” and inserting “subparagraph (E)”;

(3) in paragraph (3)(B), in the first sentence, by striking “(D)” and inserting “(E)”.

SEC. 4804. CENTER OF EXCELLENCE ON LEAD EXPOSURE

(a) DEFINITIONS.—In this section:

(1) CENTER.—The term “Center” means the Center of Excellence on Lead Exposure established under subsection (b).

(2) CITY.—The term “City” means a City that has been exposed to lead through a water system or other source.

(3) COMMUNITY.—The term “community” means the community of the City.

(4) SECRETARY.—The term “Secretary” means the Secretary of Health and Human Services.

(5) STATE.—The term “State” means a State containing a City that has been exposed to lead through a water system or other source.

(b) ESTABLISHMENT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall, by contract, grant, or cooperative agreement, establish in the City a center to be known as the “Center of Excellence on Lead Exposure”.

(c) COOPERATION.—The Center shall collaborate with relevant Federal agencies, research institutions, hospitals, Federally qualified health centers, school-based health centers, community behavioral health providers, and State and local public health agencies in the development and operation of the Center.

(d) ADVISORY COMMITTEE.—

(1) IN GENERAL.—The Center shall establish an advisory committee to provide scientific and technical support for the Center and to advise the Secretary, consisting of, at a minimum—

  (A) an epidemiologist;
  (B) a toxicologist;
  (C) a mental health professional;
  (D) a pediatrician; and
  (E) an early childhood education expert;

(2) APPLICATION OF FACA.—The advisory committee shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.).

(e) RESPONSIBILITIES.—The Center shall, at minimum, develop and carry out the following components and responsibilities:

(1) Establish an electronic registry with the following responsibilities:

(A) Survey City residents on a voluntary basis about exposure to lead, and inform City residents of the health and developmental impacts that may have resulted from that exposure.

(B) Identify and provide ongoing monitoring on a voluntary basis for City residents who have been exposed to lead.

(C) Collect and analyze clinical data related to the monitoring and treatment of City residents.

(D) Provide culturally and linguistically relevant personnel and materials necessary for City residents.

(2) Without duplicating other Federal research efforts, conduct or recommend that the Secretary conduct or support through a grant or contract research on physical, behavioral, and emotional health impacts, as well as other health or educational impacts associated with lead exposure, including cancer, heart disease, liver disease, neurological impacts, developmental delays, reproductive health impacts, and maternal and fetal health impacts.

(3) Without duplicating other Federal efforts, develop or recommend that the Secretary develop or support the development of, through a grant or contract, lead mitigation recommendations and allocate resources, for health, education-, and nutrition-related interventions, as well as other interventions, to mitigate lead exposure in children and adults.

(4) Establish a partnership with the Regional Center of Excellence on Nutrition Education of the Department of Agriculture to provide any relevant nutrition information for lead exposure, including—

(A) identifying and implementing best practices in nutrition education regarding lead-mitigating foods; and

(B) making recommendations and conducting outreach to improve access to lead-mitigating foods in the community.

(5) Without duplicating other Federal efforts, conduct or support, through a grant or contract, education and outreach efforts for the City and State, including the following:

(A) Create a publicly accessible website that provides, at minimum, details about the health registry for City residents, available testing and other services through the Center, and other communities impacted by lead exposure, any relevant information on mitigation services, and any research conducted through the Center;

(B) Conduct at least annually in the City to discuss the ongoing impact of lead exposure on residents and solicit community input regarding ongoing mitigation needs.

(C) Establish a navigation program to connect City residents to available Federal, State, and local resources and programs that address cognitive, developmental, and health problems associated with lead exposure.

(D) REPORT.—Anually, the Secretary shall submit to the Committees on Finance, Health, Education, Labor, and Pensions, Agriculture, Nutrition, and Forestry of the Senate and the Committees on Education and the Workforce, Energy and Commerce, and Agriculture of the House of Representatives a report:

(1) assessing the impacts of the Center on City health and education systems and outcomes;

(2) describing any research conducted by or in connection with the Center;

(3) describing any monitoring tools used or developed by the Center including outcomes; and

(4) making any recommendations for the City, State, or other communities impacted by lead exposure, as appropriate.

(g) FUNDING.—

(1) MANDATORY FUNDING.—

(A) IN GENERAL.—On October 1, 2016, out of any funds in the Treasury not otherwise appropriated, the Secretary of the Treasury shall transfer to the Secretary for the period $20,000,000, to remain available until expended.

(B) RECIPE AND ACCEPTANCE.—The Secretary shall be entitled to receive, shall accept, and shall use to carry out this section the funds transferred under subparagraph (A), without further appropriation.

(2) AUTHORIZATION OF APPROPRIATIONS.—

There is authorized to be appropriated to carry out this section $20,000,000 for each of fiscal years 2017 through 2026, to remain available until expended.

(3) OFFSET.—

(A) IN GENERAL.—Subsection (c) of section 9508 of the Internal Revenue Code of 1986, as amended by section 4801, is amended by adding at the end the following new paragraph:

"(5) ADDITIONAL TRANSFER TO HHS.—Out of amounts in the Leaking Underground Storage Tank Trust Fund there is hereby appropriated to be transferred to the Secretary of Health and Human Services $20,000,000 on October 1, 2016, for purposes of making expenditures to carry out the requirements of section 4804 of the Energy Policy Modernization Act of 2016.”.

(b) CONFORMING AMENDMENT.—Section 9008(c)(4) of such Act (as amended by section 4801, is amended by striking “(4)” and inserting “(4), and (5)”.

SEC. 4805. GAO REVIEW AND REPORT

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Attorney General and the Inspector General of the Environmental Protection Agency shall submit to the Committees on Appropriations, Environment and Public Works, and Homeland Security and Governmental Affairs of the Senate and the Committees on Appropriations, Energy and Commerce, Transportation and Infrastructure, and Oversight and Government Reform of the House of Representatives a report on the status of
any ongoing investigations into the Federal and State response to the contamination of the drinking water supply of the City of Flint, Michigan.

(b) Notified.—Not later than 30 days after the completion of the investigations described in subsection (a), the Comptroller General of the United States shall commence a review of section 300j–12 addressed by the investigations and relating to—

(1) the adequacy of the response by the State of Michigan and the City of Flint to the declared emergency in Flint, including the timeliness and transparency of the response, as well as the capacity of the State and City to manage the drinking water system; and

(2) the adequacy of the response by Region 5 of the Environmental Protection Agency to the drinking water crisis in Flint, Michigan, including the timeliness and transparency of the response.

(c) CONTENTS OF REPORT.—Not later than 1 year after commencing each review under subsection (b), the Comptroller General of the United States shall submit to Congress a report that includes—

(1) a statement of the principal findings of the review; and

(2) recommendations for Congress and the President to take any actions to prevent a similar situation in the future and to protect public health.

Subtitle J—Contamination on Transferred Land

SEC. 4901. RESPONSE ACTIONS ON ALASKA NATIVE CLAIMS CONVEYANCES

Section 120 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620) is amended by adding at the end the following:

"(k) ALASKA NATIVE CLAIMS CONVEYANCES.—

"(1) DEFINITIONS.—In this subsection:

"(A) HAZARDOUS SUBSTANCE.—In addition to the substances included in the definition of the term in section 101(14), the term ‘hazardous substance’ includes petroleum (including crude oil or any fraction thereof), natural gas, natural gas liquids, liquefied natural gas, or synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas).

"(B) NATIVE CORPORATION.—The term ‘Native Corporation’ has the meaning given the term ‘Native Claims Settlement Corporation’ in title II of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

"(2) OBLIGATION TO TAKE RESPONSE ACTION.—

"(A) IN GENERAL.—The United States shall be responsible for taking all response actions necessary to ensure the protection of human health and the environment with regard to the release or threatened release of any hazardous substance on land conveyed to a Native Corporation pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) prior to the date of enactment of this subsection.

"(B) REQUIREMENT.—All response actions shall be taken consistent with this Act and the National Oil and Hazardous Substances Pollution Contingency Plan described in part 300 of title 40, Code of Federal Regulations (or successor regulations).

"(3) ENFORCEMENT.—A Native Corporation may commence a civil action for enforcement of this subsection in accordance with section 3010 of this Act not later than 6 years after the date of enactment of this subsection.

"(d) MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title IV, add the following:

Subtitle I—Prevention and Protection of Drinking Water Infrastructure

SEC. 4901. DRINKING WATER INFRASTRUCTURE.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term ‘Administrator’ means the Administrator of the Environmental Protection Agency.

(2) ELIGIBLE STATE.—The term ‘eligible State’ means a State for which the President has declared an emergency under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) relating to the public health threats associated with the presence of lead or other contaminants in a public drinking water supply system.

(3) ELIGIBLE SYSTEM.—The term ‘eligible system’ means a public drinking water supply system that is the subject of an emergency declaration referred to in paragraph (2).

(b) STATE REVOLVING LOAN FUND ASSISTANCE.—

(1) IN GENERAL.—An eligible system shall be—

(A) considered to be a disadvantaged community under section 1452(d) of the Safe Drinking Water Act (42 U.S.C. 300j–12); and

(B) eligible for assistance under an eligible State’s Pollution Control System. Assistance under section 1452(d) of the Safe Drinking Water Act (42 U.S.C. 300j–12)

(c) WATER INFRASTRUCTURE FINANCING.—

(1) SECURED LOANS.—

(A) IN GENERAL.—Using funds provided under subsection (f)(1), an eligible State may provide assistance to an eligible system within the eligible State, for the purpose of addressing lead or other contaminants in drinking water, including repair and replacement of public and private drinking water infrastructure.

(B) INCLUSION.—Assistance under subparagraph (A) may include additional subsidization under the Safe Drinking Water Act (42 U.S.C. 300j et seq.), as described in paragraph (1)(B).

(C) LIMITATION.—Section 1452(d)(2) of the Safe Drinking Water Act (42 U.S.C. 300j–12)(d)(2) shall not apply to—

(i) any funds provided under subsection (f)(1); or

(ii) any other loan provided to an eligible system.

(D) ELIGIBLE INSTALLATION.—

(E) WATER INFRASTRUCTURE FINANCING.—

(1) SECURED LOAN. —

(A) IN GENERAL.—Using funds provided under section (f)(1), the Administrator may make a secured loan to an eligible State for the purpose of carrying out lead or other contaminants in drinking water in an eligible system.

(B) AMOUNT.—Notwithstanding section 5023(b)(2) of the Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3908(b)(2)), the amount of a secured loan provided under subparagraph (A) may be equal to not more than 80 percent of the reasonably anticipated costs of the project.

(C) LIMITATION.—No project receiving a secured loan under this subsection may be financed (directly or indirectly), in whole or in part, with proceeds of any obligation—

(i) the interest on which is exempt from the tax imposed under chapter I of the Internal Revenue Code;

(ii) with respect to which a credit is allowable under subpart I or of part IV of subchapter A of chapter I of the Internal Revenue Code (relating to tax-exempt private activity bonds); and

(iii) with respect to which a credit is allowable under subpart I or of part IV of subchapter A of chapter I of the Internal Revenue Code (relating to tax-exempt private activity bonds).

(D) FEDERAL INVESTMENT.—

(1) NOTWITHSTANDING the section 5023(b)(9) of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3908(b)(9)), any costs for a project to address lead or other contaminants in drinking water in an eligible system that are not covered by a secured loan under paragraph (1) may be covered using amounts in the State revolving loan fund under section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12).

(2) ASSIST MANAGEMENT PLAN.—Any individual or entity that carries out construction of infrastructure using assistance provided under this section, in the plan and in the implementation, in consultation with the Administrator and appropriate officials of the applicable eligible State, shall develop a systematic process of operating, maintaining, and improving affected physical assets, with a focus on engineering and economic analysis and examination on quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation, and replacement actions that will achieve and sustain the safe drinking water system infrastructure over the lifecycle of the assets at minimum practicable cost.

(e) NONDUPlication OF WORK.—An activity carried out pursuant to this section shall not duplicate the work or activity of any other Federal or State department or agency.

(f) FUNDING.—

(1) ADDITIONAL DRINKING WATER STATE REVOLVING FUND CAPITALIZATION GRANTS.—

(2) IN GENERAL.—95 PERCENT.—The Treasury shall make available to the Administrator $200,000,000, to remain available for obligation for 1 year after the date on which the amounts are made available, to provide additional grants to eligible States pursuant to section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12) for fiscal year 2016 for the purposes described in subsection (b)(2).

(B) SUPPLEMENTED INTENDED USE PLANS.—

The Administrator shall disburse to an eligible State amounts made available under paragraph (A) by not later than the date on which the eligible State submits to the Administrator a supplemented intended use plan under section 1452(b) of the Safe Drinking Water Act (42 U.S.C. 300j–12(b)) that includes preaplication information regarding projects to be funded using the additional assistance, including, with respect to each such project—

(i) a description of the project;

(ii) an explanation of the means by which the project will address a situation causing a declared emergency in the eligible State;

(iii) the estimated cost of the project; and

(iv) the projected start date for construction of the project.

(g) UNAVAILABLE AMOUNTS.—Any amounts made available to the Administrator under subparagraph (A) that are unobligated on the date that is 1 year after the date on which the amounts are made available shall be available to carry out the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3901 et seq.).
eligible State a secured loan under subparagraph (A) by not later than 60 days after the date of receipt of a loan application from the eligible State.

(C) has secured loans provided pursuant to subparagraph (A) shall be available to carry out activities to address lead and other contaminants in drinking water, including repair, replacement, or construction of public and private drinking water infrastructure.

(D) EXCESS AMOUNTS.—If the Administrator determines, in fiscal year 2020 or any fiscal year thereafter, that an amount less than $60,000,000 for credit subsidies is required to issue secured loans under subparagraph (A) for the fiscal year, the excess amount made available under paragraph (B) for the fiscal year shall be transferred to the Leaking Underground Storage Tank Trust Fund established by section 9508(a) of the Internal Revenue Code of 1986.

(3) APPLICABILITY.—Unless explicitly waived, all requirements under section 1402(e) of the Safe Drinking Water Act (42 U.S.C. 300g–3(c)) are applicable to water systems certified to provide additional subsidy to eligible recipients.

SEC. 4803. DISCLOSURE OF PUBLIC HEALTH THREATS FROM LEAD EXPOSURE.

(a) EXCEEDANCE OF LEAD ACTION LEVEL.—Section 1414(c) of the Safe Drinking Water Act (42 U.S.C. 300g–3(c)) is amended—

(1) in paragraph (1), by adding at the end the following:

"(D) Notice of any exceedance of a lead action level or any other prescribed level of lead in a regulation issued under section 1412, including the concentrations of lead found in a monitoring activity or any other level of lead determined by the Administrator to warrant notice, either on a case-specific or more general basis.";

(2) in paragraph (2)—

(A) by redesigning subparagraphs (D) and (E) as subparagraphs (E) and (F), respectively; and

(B) by inserting after subparagraph (C) the following:

"(D) EXCEEDANCE OF LEAD ACTION LEVEL.—Regulations issued under subparagraph (A) shall specify procedure for activities to address lead levels of lead found in a monitoring activity or any other level of lead determined by the Administrator to warrant notice, either on a case-specific or more general basis.

(1) E XCEEDANCE OF LEAD ACTION LEVEL.—Not later than 15 days after the date of being notified by the primary agency of an exceedance of a lead action level or any other prescribed level of lead in a regulation issued under section 1412, the State shall notify the public of the concentrations of lead found in the monitoring activity conducted by the public water system if the public water system or the State determines that the public may not be protected from the concentrations of lead found in a monitoring activity.

(2) RESULTS OF LEAD MONITORING.—In general, the Administrator of the Environmental Protection Agency may provide notice of any result of lead monitoring conducted by a public water system to—

(I) any person that is served by the public water system; or

(II) the local or State health department of a locality or State in which the public water system is located.

(iii) FORM OF NOTICE.—The Administrator may provide the notice described in clause (i) by—

(A) press release; or

(B) any other form of communication, including local media.

(b) CONFORMING AMENDMENTS.—Section 1414(c) of the Safe Drinking Water Act (42 U.S.C. 300g–3(c)) is amended—

(1) in paragraph (1)(C), by striking "paragraph (2)(E)" and inserting "paragraph (2)(F)";

(2) in paragraph (2)(B)(i)(II), by striking "subparagraph (D)" and inserting "subparagraph (E)"; and

(3) in paragraph (3)(B), in the first sentence, by striking "(D)" and inserting "(E)".

SEC. 4804. CENTER OF EXCELLENCE ON LEAD EXPOSURE.

(a) DEFINITIONS.—In this section:

(1) CENTER.—The term ‘‘Center’’ means the Center of Excellence on Lead Exposure established under subsection (b).

(2) CITY.—The term ‘‘City’’ means a City that has been exposed to lead through a water system or other source.

(3) COMMUNITY.—The term ‘‘community’’ means the community of the City.

(b) ESTABLISHMENT.—The term ‘‘Secretary’’ means the Secretary of Health and Human Services.

(c) NATIONAL CENTER OF EXCELLENCE ON LEAD EXPOSURE.—(1) IN GENERAL.—The Secretary, by not later than 180 days after the date of enactment of this Act, shall establish in the City to be known as the ‘‘Center of Excellence on Lead Exposure’’. (2) USE.—Secured loans provided pursuant to paragraphs (2) and (3) shall be available to provide additional subsidy to eligible recipients.

(d) ADVISORY COMMITTEE.—(1) IN GENERAL.—The Secretary shall establish an advisory committee to provide scientific and technical support for the Center and to advise the Secretary, consisting of, at a minimum—

(A) an epidemiologist;

(B) a toxicologist;

(C) a mental health professional;

(D) a pediatrician;

(E) an early childhood education expert;

(F) a special education expert;

(G) a dietician;

(H) an environmental health expert; and

(I) 2 community representatives.

(e) RESPONSIBILITIES.—The Center shall, at minimum, develop and carry out the following activities:

(1) Establish a lead registry with the following responsibilities:

(A) Survey City residents on a voluntary basis about exposure to lead and inform City residents of the health and developmental impacts that may have resulted from that exposure.

(B) Identify and provide ongoing monitoring on a voluntary basis for City residents who have been exposed to lead.

(C) Collect and analyze clinical data related to the monitoring and treatment of City residents.

(D) Provide culturally and linguistically relevant personnel and materials necessary for City residents.

(2) Without duplicating other Federal research efforts, conduct or recommend that the Secretary conduct or support through a grant, contract, or other mechanism, research on health, behavioral, and developmental impacts, as well as other health or educational impacts associated with lead exposure, including cancer, heart disease, liver disease, neurological impacts, developmental delays, reproductive health impacts, and maternal and fetal health impacts.

(3) Without duplicating other Federal efforts, develop or recommend that the Secretary develop or support the development of, through a grant or contract, lead mitigation research, recommendations, and strategies to address lead exposure, as appropriate, for health-, education-, and nutrition-related impacts, as well as other interventions, to mitigate lead exposure in high-risk communities.

(4) Establish a partnership with the Regional Center of Excellence on Nutrition

SEC. 4804. CENTER OF EXCELLENCE ON LEAD EXPOSURE.

(a) DEFINITIONS.—In this section:
Education of the Department of Agriculture to provide any relevant nutrition information for lead mitigation, including—

(A) identifying and implementing best practices in nutrition education regarding lead-mitigating foods; and

(B) making recommendations and conducting outreach to improve access to lead-mitigating foods in the community.

(5) Without duplicating other Federal efforts, conduct or recommend that the Secretary conduct or support, through a grant or contract, education and outreach efforts for the City and State, including the following:

(A) Create a publicly accessible website that provides information and details about the health registry for City residents, available testing and other services through the Center for City residents and other communities impacted by lead exposure, any relevant information regarding health and educational impacts of lead exposure, any relevant information on mitigation services, and any research conducted through the Center.

(B) Conduct at least 2 meetings annually in the City to discuss the ongoing impact of lead exposure on residents and solicit community input regarding ongoing mitigation needs.

(C) Establish a navigation program to connect City residents to available Federal, State, and local services and programs that assist with cognitive, developmental, and health problems associated with lead exposure.

(6) REPORT.—Annually, the Secretary shall submit to the Committees on Finance, Health, Education, Labor, and Pensions, Agriculture, Nutrition, and Forestry of the Senate, the Committees on Education and the Workforce, Energy and Commerce, and Agriculture of the House of Representatives a report—

(1) analyzing the impacts of the Center on City health and education systems and outcomes;

(2) describing any research conducted by or in connection with the Center;

(3) describing any mitigation tools used or developed by the Center including outcomes; and

(4) making any recommendations for the City, State, or other communities impacted by lead exposure, as appropriate.

(g) FUNDING.—(1) IN GENERAL.—(A) In general.—On October 1, 2016, out of any funds in the Treasury not otherwise appropriated, the Secretary of the Treasury shall be entitled to receive, shall accept, and shall use to carry out this section $20,000,000, to remain available until expended.

(B) RECEIPT AND ACCEPTANCE.—The Secretary shall be entitled to receive, shall accept, and shall use to carry out this section the funds transferred under subparagraph (A), without further appropriation.

(2) APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $20,000,000 for each of fiscal years 2017 through 2026, to remain available until expended.

(3) OFFSET.—(A) In general.—Subsection (c) of section 9506 of the Internal Revenue Code of 1986, as amended by section 4801, is amended by adding at the end the following new paragraph:

“(5) ADDITIONAL TRANSFER TO HHS.—Out of amounts in the Leaking Underground Storage Tank Trust Fund there is hereby appropriated to be transferred to the Secretary of Health and Human Services $20,000,000 on October 1, 2016, for purposes of making expenditures required under section 4804 of the Energy Policy Modernization Act of 2016.”

(B) CONFORMING AMENDMENT.—Section 9508(c)(1) of such Code, as amended by section 4801, is amended by striking “(4)” and inserting “(4)” and “(5)” and “(6)”.

SEC. 4803. GASEOUS FUEL DUAL FUELED AUTO.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Attorney General and the Inspector General of the Environmental Protection Agency shall submit to the Committees on Appropriations, Environment, and Workforce, Energy and Commerce, Transportation and Infrastructure, and Oversight and Government Reform of the House of Representatives a report on the status of ongoing investigations into the Federal and State response to the contamination of the drinking water supply of the City of Flint, Michigan.

(b) REVIEW.—Not later than 30 days after the completion of the investigations described in subsection (a), the Comptroller General of the United States shall commence a review of issues that are not addressed by the investigations and relating to—

(1) the adequacy of the response by the State of Michigan and the City of Flint to the drinking water crisis in Flint, Michigan, including the timeliness and transparency of the response, as well as the capacity of the State and City to manage the drinking water system; and

(2) the adequacy of the response by Region 5 of the Environmental Protection Agency to the drinking water crisis in Flint, Michigan, including the timeliness and transparency of the response.

(c) CONTENTS OF REPORT.—Not later than 1 year after each review commences under each subsection, the Comptroller General of the United States shall submit to Congress a report that includes—

(1) a statement of the principal findings of the review;

(2) recommendations for Congress and the President to take any actions to prevent a similar situation in the future and to protect public health.

Subtitle J—Contamination on Transferred Land

SEC. 4901. RESPONSE ACTIONS ON ALASKA NATIVE CLAIMS CONVEYANCES.

Section 120 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620) is amended by adding, at the end the following:

“(k) ALASKA NATIVE CLAIMS CONVEYANCES.—

“(1) DEFINITIONS.—In this subsection:

“(4) DESIGNATION.—In addition to the substances included in the definition of the term in section 101(4), the term ‘hazardous substance’ includes petroleum (including crude oil or any fraction thereof), natural gas, natural gas liquids, liquefied natural gas, or synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas).

“(b) NATIVE CORPORATION.—The term ‘Native Corporation’ has the meaning given the term in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

“(2) OBLIGATION TO TAKE RESPONSE ACTION.—

“(A) IN GENERAL.—The United States shall be responsible for taking all response actions necessary to ensure the protection of human health and the environment with regard to the release or threatened release of any hazardous substance owned or operated by a Native Corporation pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) prior to the date of enactment of this subsection.

“(B) REQUIREMENT.—All response actions shall be consistent with this Act and the National Oil and Hazardous Substances Pollution Contingency Plan described in part 300 of title 40, Code of Federal Regulations (or successor regulations).

SA 2350. Mr. BLUMENTHAL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes, which was ordered to lie on the table; as follows:

Strike section 1104 relating to third-party certification under the Energy Star program.

SA 2351. Mr. INHOFE (for himself and Mr. PETERS) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes, which was ordered to lie on the table; as follows:

On page 150, between lines 14 and 15, insert the following:

SEC. 131. GASEOUS FUEL DUAL FUELED AUTOMOBILES.

Section 32005 of title 49, United States Code, as amended by the amendment to the bill S. 2012, is amended by adding to the end the following:

“(d) GASEOUS FUEL DUAL FUELED AUTOMOBILES.—

“(1) MODEL YEARS 1993 THROUGH 2016.—For any model of gaseous fuel dual fueled automobile manufactured by a manufacturer in model years 1993 through 2016, the Administrator shall measure the fuel economy for that model by dividing 1.0 by the sum of—

“(A) .5 divided by the fuel economy measured under section 32904(c) of this title when operating the model on gasoline or diesel fuel; and

“(B) .5 divided by the fuel economy measured under subsection (c) of this section when operating the model on gaseous fuel.

“(2) SUBSEQUENT MODEL YEARS.—For any model of gaseous fuel dual fueled automobile manufactured by a manufacturer in any subsequent model year, the Administrator shall calculate fuel economy in accordance with section 600.510–12 (c)(2)(vii) of title 49, Code of Federal Regulations (as in effect on the date of enactment of this paragraph) if the vehicle qualifies under section 32901(c).”

SA 2352. Mr. Kaine (for himself and Mr. WARNER) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes, which was ordered to lie on the table; as follows:

On page 272, between lines 3 and 4, insert the following:

“(1) COORDINATED REVIEW.—In the case of an interstate natural gas pipeline project, for purposes of the due process requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), the Commission shall consider, and address in the environmental impact statement required for the
interstate natural gas pipeline project under that Act, the cumulative impacts of other interstate natural gas pipeline projects located within the same State, within 100 miles of the mine project, that are filed with the Commission—
(1) during the 1-year period beginning on the filing of the initial project with the Commission; and
(2) before the issuance of the draft environmental impact statement by the Commission.

SA 3253. Mr. ISAKSON (for himself and Mr. ENZI) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 1008.
Strike subtitle G of title III.

SA 3254. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. 31. MODIFICATIONS TO INCOME EXCLUSION FOR CONSERVATION SUBSIDIES.

(a) In General.—Subsection (a) of section 136 of the Internal Revenue Code of 1986 is amended—
(1) by striking any subsidy provided and inserting any subsidy; and
(2) by striking the period at the end and inserting ", or", and
(3) by adding at the end the following new paragraph:
"(2) provided (directly or indirectly) by a public utility to a customer, or by a State or local government to a resident of such State or locality, for the purchase or installation of any water conservation measure or storm water management measure.
"

(b) Definitions.—
(1) DEFINITION OF WATER CONSERVATION MEASURE AND STORM WATER MANAGEMENT MEASURE.—Section 136(c) of the Internal Revenue Code of 1986 is amended—
(A) by striking "Energy Conservation Measure" in the heading thereof and inserting "Definitions";
(B) by striking "In General," in the heading of paragraph (1) and inserting "Energy Conservation Measure", and
(C) by redesignating paragraph (2) as paragraph (3) and inserting after paragraph (1) the following:
"(2) WATER CONSERVATION MEASURE.—For purposes of this section, the term 'water conservation measure' means any installation or modification primarily designed to reduce consumption of water or to improve the management of water demand with respect to a dwelling unit.
"
(3) STORM WATER MANAGEMENT MEASURE.—For purposes of this section, the term 'storm water management measure' means any installation or modification of property primarily designed to manage amounts of storm water with respect to a dwelling unit.

SA 3256. Mr. SCHATZ (for himself and Mr. SULLIVAN) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 2307 and insert the following:

SEC. 2307. STATE AND REGIONAL ENERGY PARTNERSHIPS.

(a) Definitions.—In this section:
(1) COOPERATIVE AGREEMENT.—The term "cooperative agreement" has the meaning given the term in sections 6302 and 6305 of title 31, United States Code.
(2) INDIAN TRIBE.—The term "Indian tribe" has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).
(3) SECRETARIES.—The term "Secretaries" means—
(A) the Secretaries, acting through the Assistant Secretary for the Office of Electricity Delivery and Energy Efficiency in consultation with the Assistant Secretary for Fossil Energy, and the
Bureau of Land Management, and the Director of the Bureau of Ocean Energy Management, the Assistant Secretary for Indian Affairs, and the Assistant Secretary for Fish and Wildlife and Parks.

(4) STATE.—The term "State" means—
(A) a State;
(B) the District of Columbia;
(C) the Commonwealth of Puerto Rico; and
(D) any other territory or possession of the United States.

(5) TRIBAL ORGANIZATION.—
(A) In General.—The term "tribal organization" includes a Native Hawaiian organization (as defined in section 2707 of the Native Hawaiian Education Act (20 U.S.C. 7517)).
(B) REGIONAL ENERGY PARTNERSHIPS.

(1) In General.—The Secretaries shall provide assistance in accordance with this subpart for purposes of energy efficiency strategies and plans that promote harmonize and promote national, regional, and State energy goals, including goals for advancing resilient energy systems to mitigate risks and prepare for emerging energy challenges.

(2) ELECTRICITY DISTRIBUTION.

(A) DISTRIBUTION PLANNING.—On the request of a State or a regional organization, the Secretary shall partner with the State or regional organization to facilitate the development of State and regional electricity distribution plans by—
(i) conducting a resource assessment and analysis of future demand and distribution requirements; and
(ii) developing open source tools for State and regional planning and operations.

(B) RISK AND SECURITY ANALYSIS.—An assessment under subparagraph (A)(i) shall include—
(i) an evaluation of the physical and cyber-security needs of an advanced distribution management system and the integration of distributed energy resources; and
(ii) the advanced use of grid architecture to analyze risks in an all-hazards approach that includes communications infrastructure, control systems architecture, and power systems architecture.

(C) GRID INTEGRATION.—Consistent with the direction of assistance provided to units of general local government and Indian tribes under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.), the Secretary may provide assistance to a State or regional partnership (including a public-private partnership) to carry out projects designed to improve the performance and efficiency of the future electric grid that demonstrate—
(i) secure integration and management of 2 or more energy resources, including distributed energy generation, combined heat and power, micro-grids, energy storage, electric vehicles, energy efficiency, demand response, and intelligent loads; and
(ii) secure integration and interoperability of communications and information technologies.

(3) TECHNICAL ASSISTANCE.—In addition to the assistance authorized under paragraphs (1) and (2), the Secretaries may provide such technical assistance to States, political subdivisions of States, substate regional organizations, and local utilities that include operations that cross State boundaries, multistate regional organizations, Indian tribes, tribal organizations,
and nonprofit organizations as the Secretaries determine appropriate to promote—
(A) the development and improvement of regional energy strategies and plans that sustain and promote energy system modernization across the United States;
(B) investment in energy infrastructure, technological capacity, innovation, and workforce development to keep pace with the changing energy ecosystem;
(C) the structural transformation of the financial, regulatory, legal, and institutional systems that govern energy planning, production, and delivery within States and regions; and
(D) public-private partnerships for the implementation of regional energy strategies and plans.

(4) COOPERATIVE AGREEMENTS.—
(A) IN GENERAL.—The Secretaries may enter into cooperative agreements with 1 or more States and Indian tribes to develop and implement strategies and plans to address the energy challenges of States, Indian tribes, and regions.

(B) REQUIREMENTS.—A cooperative agreement entered into under this paragraph shall include—
(i) the purpose and goals of the cooperative agreement, including provisions covering or providing—
(I) the interpretation of the cooperative agreement, including outreach, communication, resources, and capabilities;
(II) a comprehensive framework for the development of energy strategies and plans for States, Indian tribes, or regions;
(III) timeframes with associated metrics and objectives;
(IV) a governance structure to resolve conflicts and facilitate decision making consistent with underlying authorities; and
(V) other provisions determined necessary by the Secretaries, in consultation with the States or Indian tribes, to achieve the purposes described in subparagraph (A).

(5) STAFF.—
(A) IN GENERAL.—Not later than 30 days after the date of the entering into a cooperative agreement under paragraph (4), the Secretaries shall, as appropriate, assign or employ individuals who have expertise in the technical and regulatory issues relating to the cooperative agreement, including particular expertise in (as applicable)—
(I) energy systems integration;
(II) renewable energy and energy efficiency; or
(III) innovative financing mechanisms;

(B) DUTIES.—Each individual assigned to carry out a cooperative agreement under subparagraph (A) shall—
(i) be responsible for issues and technical assistance relating to the cooperative agreement;
(ii) participate as part of the team of personnel working on developing and implementing the applicable regional energy strategy and plan; and
(iii) build capacity within the State, Indian tribe, or region to continue to implement the goals of this section after the expiration of the cooperative agreement.

(6) COMPREHENSIVE FRAMEWORK.—Under a cooperative agreement, a comprehensive framework shall be developed that identifies opportunities and actions across various energy sectors and cross-cutting issue areas, including—
(A) end-use efficiency;
(B) energy supply, including electric generation and thermal generation;
(C) energy delivery;
(D) transportation;
(E) technical integration, including standards and interoperability;
(F) institutional structures;
(G) regulatory policies;
(H) financial incentives; and
(I) market mechanisms.

(7) AWARDS.—
(A) DEFINITIONS.—In this paragraph:
(I) APPLICATION GROUP.—The term ''application group'' means a group of States or Indian tribes that have—
(I) entered into a cooperative agreement, on a regional basis, with the Secretaries under paragraph (4); and
(II) submitted an application for an award under subparagraph (B)(i).

(II) PARTNER STATE.—The term ''partner State'' means a State or Indian tribe that has entered into a cooperative agreement under paragraph (4) and is part of an application group.

(B) APPLICATIONS.—
(I) IN GENERAL.—Subject to clause (ii), an application group may apply to the Secretaries for awards under this paragraph.

(II) INDIVIDUAL STATES.—An individual State or Indian tribe that has entered into a cooperative agreement with the Secretaries under paragraph (4) may apply to the Secretaries for an award under this paragraph if the State or Indian tribe demonstrates to the Secretaries the uniqueness of the energy challenges facing the State or Indian tribe.

(C) BASE AMOUNT.—Subject to subparagraph (D), the Secretaries may provide a base amount under this paragraph, with a base amount of $20,000,000 for each award.

(D) BONUS AMOUNT FOR APPLICATION GROUPS.—
(I) IN GENERAL.—Subject to clause (ii), the Secretaries shall increase the amount of an award provided under this paragraph to an application group by a successful application under subparagraph (B)(i) by the quotient obtained by dividing—
(I) the product obtained by multiplying—
(aa) the product obtained by multiplying—
(II) the total number of partner States of all successful applications under this paragraph;

(bb) $100,000,000; by

(bb) the total number of partner States of all successful applications under this paragraph.

(II) MAXIMUM AMOUNT.—The amount of a bonus determined under clause (i) shall not exceed an amount that represents $5,000,000 for each partner State that is a member of the relevant application group.

(E) LIMITATION.—A State or Indian tribe shall not be paid a bonus amount of more than 1 award under this paragraph.

(F) SELECTION CRITERIA.—In selecting applications for awards under this paragraph, the Secretaries shall consider—
(i) the existing commitments from States or Indian tribes, such as memoranda of understanding;
(ii) for States that are part of the contiguous 48 States, the number of contiguous States involved that cover a region;
(iii) the diversity of the regions represented; and
(iv) the amount of cost-share or in-kind contributions from States or Indian tribes;

(v) the scope and focus of regional and State energy innovation will meet critical competitiveness, energy security, and environmental goals;

(vi) a management and oversight plan to ensure that objectives are met;

(vii) an outreach plan for the inclusion of stakeholders in the process for developing and implementing State or regional energy strategies and plans;

(viii) the inclusion of tribal entities;

(ix) plans to fund and sustain activities identified in regional energy strategies and plans;

(x) the clarity of roles and responsibilities of each State and the Secretaries; and

(xi) the average retail cost of electricity in the State.

(G) USE OF AWARDS.—
(i) IN GENERAL.—Awards provided under this paragraph shall be used to achieve the purpose of this section, including by—
(I) conducting technical analyses, resource studies, and energy system baselines;

(II) convening and providing education to stakeholders on emerging energy issues;

(III) building decision support and planning tools; and

(IV) improving communication between and participation of stakeholders.

(ii) LIMITATION.—Awards provided under this paragraph shall not be used for—
(I) capitalization of green banks or loan guarantees; or

(II) building facilities or funding capital projects.

(c) FUNDING.—
(1) AWARDS.—Of the amounts made available to carry out paragraphs (4) through (7) of subsection (b) (A) at least 40 percent shall be used for the bonus amount of awards under subsection (b)(7)(D); and

(B) more than 10 percent shall be used for the administrative costs of carrying out this section, including—
(I) the assignment of staff under subsection (b)(5); and

(ii) if the Secretaries determine appropriate, the sharing of best practices from regional partnerships by parties to cooperative agreements entered into under this section.

(2) STATE ENERGY OFFICES.—Funds provided to a State under this section shall be provided to the office within the State that is responsible for developing the State energy plan for the State under section III of the Energy Policy and Conservation Act (42 U.S.C. 6231 et seq.).

(i) MAINTENANCE OF FUNDING.—It is the intent of Congress that funding provided to States under this section shall supplement (and not supplant) funding provided under the Energy Policy and Conservation Act (42 U.S.C. 6231 et seq.).

SA 3257. Ms. CANTWELL (for herself and Mr. GRAHAM) submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 1203, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; and

At the end of subtitle C of title IV, add the following:

SEC. 42. SENSE OF THE SENATE ON ACCELERATING ENERGY INNOVATION.

(a) FINDINGS.—The Senate finds that—
(I) although important progress has been made in cost reduction and deployment of clean energy technologies, accelerating clean energy innovation will meet critical competitiveness, energy security, and environmental goals;

(II) many of the greatest advancements in the field of energy innovation have taken place in the United States, where key Federal investment, public private partnerships,
and a robust, diverse energy industry have helped to power and fuel the United States economy; (3) the United States is home to the most advanced energy research institutions in the world, and those institutions attract the brightest and most talented individuals to study and develop energy solutions to meet the energy needs of the United States and the world; (4) early-stage involvement of the private sector is critical to ensuring commercialization and cost-effectiveness of energy breakthroughs; (5) the Secretary is working with international partners and institutions, including units of government, private investors, and technology innovators—

(A) to make data available;
(B) to aggregate technology expertise, if possible;
(C) to share facilities and analysis;
(D) to promote development, commercialization, and dissemination of clean energy technologies; and
(E) to dramatically increase the range of technology options for private sector investment and commercialization;

(6) the Secretary is working closely with other committed nations and the private sector to increase access to investment for early-stage, cleantech innovations that emerge from government research and development programs;

(7) the Secretary is building and improving technology innovation roadmaps and other tools—

(A) to help innovation efforts;
(B) to understand where research and development is happening;
(C) to identify gaps and opportunities for new kinds of innovation;

(8) accelerating the pace of clean energy innovations that the United States, and for other purposes; which was ordered to lie on the table; as follows:

On page 21, line 14, strike "life-cycle". On page 25, strike line 11 and insert the following:

"(4) PAYBACK.—Any proposal submitted by the Secretary under paragraph (3) shall have a simple payback (the time in years that is required for energy savings to exceed the incremental first cost of a new requirement) of 10 years or less."
relevant sectors of academia, to evaluate the technologies to be eligible for funding under this section.

(B) ANNUAL REVIEWS.—The advisory board established under subparagraph (A) shall, not less frequently than once each year—

(i) review relevant technologies to determine whether the technologies should be eligible to receive funding under this section; and

(ii) submit to the Secretary recommendations regarding the allocation of funding for each technology determined to be eligible under clause (i).

(d) ALLOCATION.—

(1) IN GENERAL.—For each applicable fiscal year, of the amounts in the Fund, the Secretary shall allocate—

(A) 50 percent to make grants to national laboratories that are federally funded research and development centers or institutions of higher education to enhance the ability of the national laboratories to create opportunities for relevant public-private research partnerships;

(B) 15 percent to the Secretary of Defense to fund research and development programs of the Department of Defense that are focused on reducing transportation-related oil consumption; and

(C) 35 percent to make grants to eligible entities described in subparagraph (A) to enhance existing research programs and establish new fields of research relevant to the eligible technologies described in subsection (c)(3)(B).

(2) LIMITATIONS.—

(A) MAXIMUM AMOUNT.—The amount of a grant provided under this section shall not exceed $50,000.

(B) PER PROJECT.—Not more than 1 grant shall be provided for a single project under this subsection.

(c)(3)(B).]

(e) USE OF GRANTS.—

(1) IN GENERAL.—A national laboratory or other eligible entity described in subparagraph (A) or (C) of subsection (d)(1) may use a grant provided under this section to carry out activities relating to—

(A) research or development regarding vehicles and fuels that has a demonstrable market application, such as advanced-technology vehicle components and associated infrastructure, including—

(i) concept tanks for compressed natural gas vehicles;

(ii) onboard energy storage for electric and plug-in hybrid electric vehicles;

(iii) fuel cells;

(iv) advanced liquid fuels;

(v) increased fuel efficiency in combustion engines; and

(vi) advancements to alternative fuel storage and dispensing.

(B) field or market research and development of infrastructure using assistance provided under this section shall develop and maintain an infrastructure system.

SEC. 4801. DRINKING WATER INFRASTRUCTURE.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term ‘‘Administrator’’ means the Administrator of the Environmental Protection Agency.

(2) ELIGIBLE STATE.—The term ‘‘eligible State’’ means a State that shall, in determining the presence of lead or other contaminants in drinking water, including repair and replacement of public and private drinking water infrastructure.

(b) S TATE REVOLVING LOAN FUND ASSISTANCE.—

(1) IN GENERAL.—An eligible State may make a secured loan to an eligible entity to carry out a project to address lead or other contaminants in drinking water in an eligible system.

(2) AMOUNT.—Notwithstanding section 502(b)(2) of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3908(b)(2)), the amount of a secured loan provided under subparagraph (A) may be equal to not more than 80 percent of the reasonably anticipated costs of the projects.

(c) N ODUPLICATION OF WORK.—An activity carried out pursuant to this section shall not duplicate the work or activity of any other Federal or State department or agency.

(d) FUNDING.—

(1) ADDITIONAL SRF CAPITALIZATION GRANTS.—

(A) RESCISION.—There is rescinded the unobligated balance of amounts made available
to carry out the advanced technology vehicles manufacturing incentive program established under section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013).

(B) AVAILABILITY OF RESCINDED FUNDS.—Of the amounts rescinded under subparagraph (A), $2,200,000,000 shall be made available to the Director to provide additional grants to eligible States pursuant to section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–30) for fiscal year 2016 for the purposes described in subsection (b)(2).

(C) SUPPLEMENTED INTENDED USE PLANS.—The Administrator shall disburse to an eligible State the available amount under paragraph (B) by not later than 30 days after the date on which the eligible State submits to the Administrator a supplemented intended use plan under section 1452(b)(3) of the Safe Drinking Water Act (42 U.S.C. 300j–12(b)) that includes preapplication information regarding projects to be funded using the additional assistance, including, with respect to each such project—

(i) a description of the project;
(ii) an explanation of the means by which the project will address a situation causing a declared emergency in the eligible State;
(iii) the estimated cost of the project; and
(iv) the projected start date for construction of the project.

(D) UNOBLIGATED AMOUNTS.—Any amounts made available to the Administrator under subparagraph (B) that are unobligated on the date on which the eligible State submits the amounts are made available shall be available to carry out the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3901 et seq.).

(E) APPLICABILITY.—Section 1452(b)(1) of the Safe Drinking Water Act (42 U.S.C. 300j–12(b)) shall be construed to include an intended use plan under subparagraph (C).

(2) WIFIA FUNDING.—

(A) IN GENERAL.—For fiscal year 2016, out of amounts rescinded under paragraph (1)(A), the Secretary of the Treasury shall make available to the Administrator $60,000,000, to remain available until expended, to provide credit subsidies, in consultation with the Director of the Office of Management and Budget, for secured loans under subsection (c)(1)(A) in an amount equal to not more than 20 percent of the funds made available under the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3901 et seq.).

(B) DEADLINE.—The Administrator and the Director of the Office of Management and Budget shall provide to an eligible State a credit subsidy under subparagraph (A) by not later than 30 days after the date of receipt of a loan application from the eligible State.

(C) USE.—A credit subsidy provided pursuant to subparagraph (A) shall be available for activities to address lead and other contaminants in drinking water, including repair and replacement of public and private drinking water infrastructure.

(3) APPLICABILITY.—Unless explicitly waived, provisions under section 1454(e) of the Safe Drinking Water Act (42 U.S.C. 300j–9(e)) and the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3901 et seq.) shall apply to funding provided under this subsection.

(g) HEALTH EFFECTS EVALUATION.—Pursuant to section 1414(i)(1)(E) of the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601(i)(1)(E)), and on receipt of a request of an affected State or local health official of an eligible State, the Director of the Agency for Toxic Substances and Disease Registry of the National Center for Environmental Health, and the Secretary of Health and Human Services, as appropriate, shall—

(i) review the findings of the Environmental Protection Agency in the report issued under section 1412 of the Safe Drinking Water Act (42 U.S.C. 300g–3(c));

(ii) provide additional guidance and assistance in the development and use of a risk-based public health intervention and response program for drinking water systems which present a lead hazard to consumers;

(iii) provide assistance for State or local health departments of a locality or State in which the public water system is located.

(2) LOAN FORGIVENESS.—The amounts made available to an eligible State under section 1452(h) of the Safe Drinking Water Act shall be forgivable under this subsection.

(iii) as subparagraphs (E) and (F), respectively; and
(iv) by inserting after subparagraph (D) ''subparagraph (D)'' and inserting ''subparagraph (D)'' and inserting as paragraphs (4) and (5), respectively; and
(v) by inserting after paragraph (2) the following:

(3) NOTIFICATION OF THE PUBLIC RELATING TO LEAD.

(A) EXCEEDANCE OF LEAD ACTION LEVEL.—Not later than 15 days after the date of being notified by the primary agency of an exceedance of a lead action level or any other prescribed level of lead in a regulation issued under section 1412, including the concentrations of lead found in a monitoring activity or any other level of lead determined by the Administrator to warrant notice, either on a case-specific or more general basis.

(B) RESULTS OF LEAD MONITORING.—

(i) IN GENERAL.—The Administrator may provide notice of any result of lead monitoring conducted by a public water system to—

(D) Person that is served by a public water system;

(E) the Secretary of Health and Human Services; and

(ii) other forms of communication, including local media.

(b) CONFORMING AMENDMENTS.—Section 1452(c) of the Safe Drinking Water Act (42 U.S.C. 300j–3(c)) is amended—

(1) in paragraph (1)(C), by striking ''paragraph (2)(E)'' and inserting ''paragraph (2)(E)''

and

(2) in paragraph (2)(B)(ii)(I), by striking ''subsection (D)'' and inserting ''subparagraph (E)''.

(c) Center of Excellence on Lead Exposure.

(1) DEFINITIONS.—In this section:

(A) CENTER.—The term ‘‘Center’’ means the Center of Excellence on Lead Exposure established under subsection (b).

(B) CITY.—The term ‘‘City’’ means a City that has been exposed to lead through a water system or other source.

(2) ESTABLISHMENT.—The Secretary may, by contract, grant, or cooperative agreement, establish a center to be known as the ‘‘Center of Excellence on Lead Exposure’’.

(3) COLLABORATION.—The Center shall collaborate with relevant Federal agencies, research institutions, hospitals, Federally qualified health centers, school-based health centers, community behavioral health providers, and State and local public health agencies in the development and operation of the Center.

(d) ADVISORY COMMITTEE.—The Secretary shall establish an advisory committee to provide scientific and technical support for the Center and to advise the Secretary, consisting of, at a minimum—

(A) an epidemiologist;

(B) a toxicologist;

(C) a mental health professional;

(D) a pediatrician;

(E) an early childhood education expert;

(F) a special education expert;

(G) a dietician;

(H) an environmental health expert; and

(I) 2 community representatives.

(2) APPLICATION OF FACA.—The advisory committee shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.).

(e) RESPONSIBILITIES.—The Center shall, at minimum, develop and carry out the following:

(1) Establish a health registry with the following responsibilities:

(A) Survey City residents on a voluntary basis about exposure to lead, and inform City residents of the health and developmental impacts that may have resulted from that exposure;

(B) Identify and provide ongoing monitoring for City residents on a voluntary basis who have been exposed to lead.

(2) Collect and analyze clinical data related to the monitoring and treatment of City residents.

(D) Provide culturally and linguistically relevant personnel and materials necessary for City residents.

(2) Without duplicating other Federal research efforts, conduct or recommend that the Secretary conduct research, through a grant or contract, research on physical, behavioral, and developmental impacts, as well
as other health or educational impacts associated with lead exposure, including cancer, heart disease, liver disease, neurological impacts, developmental delays, reproductive health impacts, and maternal and fetal health impacts.

(3) Without duplicating other Federal efforts, conduct or recommend that the Secretary develop an interagency agreement with the Director of the Environmental Protection Agency, as appropriate, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

SEC. 220. MARKET-DRIVEN RESTATEMENT OF OIL EXPORT BAN.

(a) DEFINITIONS.—In this section:

(1) AVERAGE NATIONAL PRICE OF GASOLINE.—The term ‘‘average national price of gasoline’’ means the average of retail regular gasoline prices in the United States, as calculated (on a weekday basis) by, and published on the Internet website of, the Energy Information Administration.

(2) GASOLINE INDEX PRICE.—The term ‘‘gasoline index price’’ means the average of retail regular gasoline prices in the United States, as calculated (on a monthly basis) by, and published on the Internet website of, the Energy Information Administration, during the 60-month period preceding the date of the calculation.

(b) RESTATEMENT OF OIL EXPORT BAN.—

(1) IN GENERAL.—Effective on the date on which the event described in paragraph (2) occurs, subsection (a) of section 101 of division O of the Consolidated Appropriations Act, 2016 (Public Law 114–113), are repealed, and the provisions of law amended or repealed by those subsections are restored or revived as if those subsections had not been enacted.

(2) EVENT DESCRIBED.—The event referred to in paragraph (1) is the date on which the average national price of gasoline has been 50 percent greater than the gasoline index price for 30 consecutive days.

(c) IMPLEMENTATION.—Notwithstanding subsection (b), the President may affirmatively allow the export of crude oil from the United States to continue for a period of 1 year after the date of the reinstatement described in subsection (b), if the President—

(1) declares a national emergency and formally notices the declaration of a national emergency in the Federal Register; or

(2) finds and reports to Congress that a ban on the export of crude oil pursuant to this section has caused undue economic hardship.

(d) EFFECTIVE DATE.—This section takes effect on the date that is 10 years after the date of enactment of this Act, provided by the Committees on Appropriations, Energy and Commerce, Transportation and Infrastructure, and Oversight and Government Reform of the House of Representatives a report on the status of any ongoing investigations into the Federal government’s role in the contamination of the drinking water supply of the City of Flint, Michigan.

(b) REVIEW.—Not later than 30 days after the completion of the investigations described in subsection (a), the Comptroller General of the United States shall conduct a review of issues addressed by the investigations and relating to—

(1) the adequacy of the response by the State of Michigan and the City of Flint to the drinking water crisis in Flint, Michigan, including the timeliness and transparency of the response, as well as the capacity of the State and City to manage the drinking water system; and

(2) the adequacy of the response by Region 5 of the Environmental Protection Agency to the drinking water crisis in Flint, Michigan, including the timeliness and transparency of the response.

(c) CONTENTS OF REPORT.—Not later than 1 year after engaging each review under subsection (b), the Secretary shall submit to Congress a report that includes—

(1) a statement of the principal findings of the review; and

(2) recommendations for Congress and the President to take any actions to prevent a similar situation in the future and to protect public health.

SEC. 2264. Mr. WYDEN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle C of title II, add the following:

SEC. 2265. ESTABLISHMENT OF CENTER FOR RECURRENT FLOoding.

(a) PURPOSE.—This section is to encourage intergovernmental cooperation among State, local, and regional units...
of government, institutions of higher education in the Commonwealth of Virginia (referred to in this section as the “Commonwealth”), and the Federal Government, in addressing recurrent flooding and sea level rise in the Hampton Roads region of the Commonwealth, through the Commonwealth Center for Recurrent Flooding (referred to in this section as the “Center”).

(b) MEMBERSHIP.—The Center shall be composed of representatives of—

(1) the counties and cities composing the Virginia Beach-Norfolk-Newport News Metropolitan Statistical Area;
(2) Accomack County, Virginia;
(3) Northampton County, Virginia;
(4) including institutions of higher education in the Commonwealth;
(5) other participants in the missions and activities described in the Hampton Roads Sea Level Rise Preparedness and Resilience Intergovernmental Planning Pilot Project Charter, dated October 10, 2014; and
(6) the Federal partner agencies described in subsection (c).

(c) FEDERAL PARTNER AGENCIES.—The Federal partner agencies referred to in subsection (b) shall include—

(1) the Department).
(2) the Department of Defense;
(3) the Department of Housing and Urban Development;
(4) the Department of the Interior;
(5) the Department of Transportation;
(6) the Environmental Protection Agency;
(7) the Federal Emergency Management Agency;
(8) the National Oceanic and Atmospheric Administration; and
(9) the National Aeronautics and Space Administration.

(d) FEDERAL PARTICIPATION.—The Federal partner agencies shall participate in the activities of the Center by—

(1) consulting on policies, programs, studies, plans, and best practices relating to recurrent flooding and sea level rise in Hampton Roads, Virginia; and
(2) making available to the Center, as appropriate, physical, biological, and socioeconomic data sources that facilitate informed decision-making on the activities described in paragraph (1).

(e) EFFECT.—Nothing in this section shall require additional spending by any Federal partner agency.

SA 3268. Mr. WHITEHOUSE submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 385, strike line 11 and all that follows through page 389, line 18, and insert the following: provide notice of a plan to collect information identifying all oil inventories, and other physical oil assets (including all petroleum-based products and the storage of such products in off-shore tankers), that are owned by the 50 largest traders of oil contracts (including derivative contracts), and

(B) not later than 90 days after the date on which notice is provided under subparagraph (A), implement the plan described in that subparagraph.

(2) INFORMATION.—The plan required under paragraph (1) shall include a description of the plan of the Administrator for collecting company-specific data, including—

(A) volumes of product under ownership; and
(B) storage and transportation capacity (including owned and leased capacity).

(3) PROTECTION OF PROPRIETARY INFORMATION.—Section 12(f) of the Federal Energy Administration Act of 1974 (15 U.S.C. 771(f)) shall apply to information collected under this subsection.

(4) COLLECTION OF INFORMATION ON STORAGE CAPACITY FOR OIL AND NATURAL GAS.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this subsection, the Administrator of the Energy Information Administration shall collect information quantifying the commercial storage capacity for oil and natural gas in the United States.

(2) UPDATES.—The Administrator shall update annually the information required under paragraph (1).

(3) PROTECTION OF PROPRIETARY INFORMATION.—Section 12(f) of the Federal Energy Administration Act of 1974 (15 U.S.C. 771(f)) shall apply to information collected under this subsection.

(4) FINANCIAL MARKET ANALYSIS OFFICE.—

(1) ESTABLISHMENT.—There shall be within the Energy Information Administration a Financial Market Analysis Office.

(2) DUTIES.—The Office shall—

(A) be responsible for analysis of the financial aspects of energy markets;
(B) review the reports required by section 45b(c) of the Energy Policy Modernization Act of 2016 in advance of the submission of the reports to Congress; and
(C) not later than 1 year after the date of enactment of this subsection—

(i) make recommendations to the Administrator of the Energy Information Administration that identify and quantify any additional resources that are required to improve the ability of the Energy Information Administration to more fully integrate financial market information into the analyses and forecasts of the Energy Information Administration; and
(ii) conduct a review of implications of policy changes (including changes in export or import policies) and changes in how crude oil and refined petroleum products are transported with respect to price formation of crude oil and refined petroleum products; and

(iii) notify the Committee on Energy and Natural Resources, the Committee on Appropriations, and the Committee on Agriculture of the Senate and the Committee on Energy and Commerce, the Committee on Appropriations, and the Committee on Agriculture of the House of Representatives of the recommendations described in clause (1)

(5) ANALYSES.—The Administrator of the Energy Information Administration shall take analyses by the Office into account in conducting financial analyses and forecasting of energy prices.

SEC. 4502. WORKING GROUP ON ENERGY MARKETS.

(a) ESTABLISHMENT.—There is established a Working Group on Energy Markets (referred to in this section as the “Working Group”).

(b) COMPOSITION.—The Working Group shall be composed of—

(1) the Secretary;
(2) the Secretary of the Treasury;
(3) the Chairman of the Federal Energy Regulatory Commission;
(4) the Chairman of Federal Trade Commission;
(5) the Chairman of the Securities and Exchange Commission; and
(6) the Administrator of the Energy Information Administration.

SA 3270. Mr. MANCHIN submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. MURKOWSKI to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 304, strike line 11 and all that follows through page 311, line 7, and insert the following:

(1) LARGE-SCALE PILOT PROJECT .—The term ‘large-scale pilot project’ means a pilot project that—

(A) represents the scale of technology development beyond laboratory development and bench scale to a test advanced to the point of being tested under real operational conditions at commercial scale;

(B) represents the scale of technology necessary to gain the operational data needed to understand the technical and performance risks of the technology before the application of the technology at commercial scale or in commercial-scale demonstration; and

(C) is large enough—

(i) to validate scaling factors; and
(ii) to demonstrate the interaction between major components so that control philosophies for a new process can be developed from large-scale pilot plant application to commercial-scale demonstration or application.
“(2) NET-NEGATIVE CARBON DIOXIDE EMISSIONS PROJECT.—The term ‘net-negative carbon dioxide emissions project’ means a project that—

(A) that employs a technology for thermochemical coconversion of coal and biomass fuels that—

(i) uses a carbon capture system; and

(ii) produces electricity, fuels, or chemicals with net-negative carbon dioxide emissions from production and consumption of the end products, while removing atmospheric carbon dioxide and

(B) that will proceed initially through a large-scale pilot project for which front-end engineering, design, and construction are performed for bituminous, subbituminous, and lignite coals; and

(C) through which each use of coal will be combined with the use of a regionally indigenous, subbituminous, and lignite coals; and

(D) demonstrates and validates full-scale energy production processes, while removing atmospheric carbon dioxide and support the development of the infrastructure needed to support a carbon dioxide use and storage industry.

(3) PROGRAM.—The term ‘program’ means the program established under subsection (b)(1).

(4) TRANSFORMATIONAL TECHNOLOGY.—

(A) IN GENERAL.—The term ‘transformational technology’ means a power generation technology that represents an entirely new way to convert energy that will enable a step change in performance, efficiency, and cost of electricity as compared to the technology in existence on the date of enactment of this section.

(B) INCLUSIONS.—The term ‘transformational technology’ includes a broad range of technology improvements, including—

(i) thermodynamic improvements in energy conversion and heat transfer, including—

(I) oxygen combustion;

(II) chemical looping; and

(III) the replacement of steam cycles with supercritical carbon dioxide cycles;

(ii) improvements in turbine technology;

(iii) improvements in carbon capture systems technology; and

(iv) any other technology the Secretary recognizes as transformational technology.

(C) COAL TECHNOLOGY PROGRAM.—

(1) REQUIREMENTS.—The Secretary shall establish a coal technology program to ensure the continued use of the abundant, domestic coal resources of the United States through the development of technologies that will significantly improve the efficiency, effectiveness, costs, and environmental performance of coal use.

(2) REQUIREMENTS.—The program shall include—

(A) a research and development program;

(B) large-scale pilot projects; and

(D) net-negative carbon dioxide emissions projects.

(D) PROGRAM GOALS AND OBJECTIVES.—In consultation with the interested entities described in paragraph (4)(C), the Secretary shall develop goals and objectives for the program to be applied to the technologies developed within the program, taking into consideration the following objectives:

(A) Ensure reliable, low-cost power from new and existing coal plants.

(B) Maintain high conversion efficiencies.

(C) Address emissions of carbon dioxide through high-efficiency platforms and carbon capture from new and existing coal plants.

(D) Support small-scale and modular technologies to enable incremental capacity additions and load growth and large-scale generation technologies.

(E) Support flexible baseload operations for new and existing applications of coal generation.

(F) Further reduce emissions of criteria pollutants and reduce the use and manage the discharge of water in power plant operations.

(G) Accelerate the development of technologies that have transformational energy conversion characteristics.

(H) Validate geological storage of large volumes of anthropogenic sources of carbon dioxide and support the development of the infrastructure needed to support a carbon dioxide use and storage industry.

(I) Examine methods of converting coal to other valuable products and commodities in addition to electricity.

(J) CONSULTATIONS REQUIRED.—In carrying out the program, the Secretary shall—

(A) undertake international collaborations, as recommended by the National Coal Council;

(B) use existing authorities to encourage international cooperation; and

(C) consult with interested entities, including—

(i) coal producers;

(ii) industries that use coal;

(iii) organizations that promote coal and advanced coal technologies;

(iv) environmental organizations;

(v) organizations representing workers; and

(vi) organizations representing consumers.

(3) REPORT.—

(A) IN GENERAL.—Not later than 18 months after the date of enactment of this section, the Secretary shall submit to Congress a report describing the performance standards adopted under subsection (b)(2).

(B) UPDATES.—Not less frequently than once every 2 years after the initial report is submitted under paragraph (1), the Secretary shall submit to Congress a report describing the progress made towards achieving the objectives and performance standards adopted under subsection (b)(3).

(D) FUNDING.—

(1) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this title, to remain available until September 30, 2020.

(B) APPROPRIATIONS.—For fiscal years 2017 through 2020—

(i) $50,000,000 for each of fiscal years 2017 through 2020; and

(ii) $125,000,000 for each of fiscal years 2017 through 2020; and

(C) APPROPRIATIONS.—For activities under the demonstration projects program component described in subsection (b)(2)(C) for fiscal years 2017 through 2021—

(i) $50,000,000 for each of fiscal years 2017 through 2020; and

(ii) $75,000,000 for fiscal year 2021; and

(D) APPROPRIATIONS.—For activities under the demonstration projects program component described in subsection (b)(2)(D) for fiscal years 2017 through 2021—

(i) $275,000,000 for each of fiscal years 2017 through 2020; and

(ii) $200,000,000 for fiscal year 2021; and

(E) APPROPRIATIONS.—For activities under the demonstration projects program component described in subsection (b)(2)(D) for fiscal years 2017 through 2021—

(i) $275,000,000 for each of fiscal years 2017 through 2020; and

(ii) $50,000,000 for fiscal year 2021; and

(F) APPROPRIATIONS.—For activities under the demonstration projects program component described in subsection (b)(2)(D) for fiscal years 2017 through 2021—

(i) $275,000,000 for each of fiscal years 2017 through 2020; and

(ii) $50,000,000 for fiscal year 2021; and

(G) APPROPRIATIONS.—For activities under the demonstration projects program component described in subsection (b)(2)(D) for fiscal years 2017 through 2021—

(i) $275,000,000 for each of fiscal years 2017 through 2020; and

(ii) $50,000,000 for fiscal year 2021.

(4) COST SHARING FOR LARGE-SCALE PILOT PROJECTS.—Activities under subsection (b)(2)(B) shall be subject to the cost-sharing requirements of section 908(b).

SA 3272. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. Murkowski to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows: Strike section 2303.

SA 3273. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. Murkowski to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows: Strike section 2307.

SA 3274. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. Murkowski to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows: Strike section 2309.

SA 3275. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. Murkowski to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows: Strike section 2306.

SA 3276. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. Murkowski to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows: Strike section 2304.
to amendment SA 3253 proposed by Ms. Murkowski to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 2303.
Strike section 3009.
Strike section 3017.

SA 3277. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 2953 proposed by Ms. Murkowski to the bill S. 2012, to provide for the modernization of the energy policy of the United States, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 1004.
Strike section 2303.
Strike section 3009.
Strike section 3017.

SA 3278. Mr. McCONNELL (for Mr. Rubio (for himself and Mr. Cardin)) proposed an amendment to the bill H.R. 907, to improve defense cooperation, including research funded by the Institute of Health, and related activities under this Act, the Hashemite Kingdom of Jordan; as follows:

(a) I N GENERAL.—During the 3-year period beginning on the date of enactment of this Act, the Hashemite Kingdom of Jordan shall be treated as if it were a country listed in the provisions of law described in subsection (b) for purposes of providing and administering such provisions of law.
(b) ARMS EXPORT CONTROL ACT.—The provisions of law described in subsection (a) are—
(1) subsections (b)(2), (d)(2)(B), (d)(3)(A)(i), and (d)(5) of section 3 of the Arms Export Control Act (22 U.S.C. 2776(b));
(2) subsections (a)(2)(A), (d)(1)(A), and (b)(2) of section 21 of such Act (22 U.S.C. 2761);
(3) subsections (b)(1), (b)(2), (b)(6), (c), and (d)(2)(A) of section 3 of such Act (22 U.S.C. 2776); and
(4) section 62(c)(1) of such Act (22 U.S.C. 2796a(c)(1)); and
(5) section 63(a)(2) of such Act (22 U.S.C. 2796a(a)(2)).

SEC. 6. MEMORANDUM OF UNDERSTANDING.
Subject to the availability of appropriations, the Secretary of State is authorized to enter into a memorandum of understanding with the Hashemite Kingdom of Jordan to—
(1) to support the Hashemite Kingdom of Jordan in its response to the Syrian refugee crisis;
(2) to provide assistance to the Hashemite Kingdom of Jordan in its response to the terrorist threat from the Islamic State of Iraq and the Levant (ISIL) or other terrorist organizations; and
(3) to cooperate with Jordan to combat the terrorist threat from the Islamic State of Iraq and the Levant (ISIL) or other terrorist organizations.

It should be the policy of the United States—
(a) to support the Hashemite Kingdom of Jordan in its response to the Syrian refugee crisis;
(2) to provide necessary assistance to alleviate the domestic burden to provide basic needs for the assimilated Syrian refugees;
(3) to cooperate with Jordan to combat the terrorist threat from the Islamic State of Iraq and the Levant (ISIL) or other terrorist organizations; and
(4) to help to ease the border between Jordan and its neighbors Syria and Iraq.

SEC. 4. SENSE OF CONGRESS.
It is the sense of Congress that—
(a) expeditious consideration of certification of Jordan as a major non-NATO ally status;
(b) the announcement of Jordan as a major non-NATO ally status;
(c) Jordan is suffering from the Syrian refugee crisis and the threat of the Islamic State of Iraq and the Levant (ISIL);
(d) the announcement of Jordan as a major non-NATO ally status;
(e) the announcement of Jordan as a major non-NATO ally status;
(f) the announcement of Jordan as a major non-NATO ally status;
(g) the announcement of Jordan as a major non-NATO ally status;
(h) the announcement of Jordan as a major non-NATO ally status;
(i) the announcement of Jordan as a major non-NATO ally status;
(j) the announcement of Jordan as a major non-NATO ally status;
(k) the announcement of Jordan as a major non-NATO ally status;
(l) the announcement of Jordan as a major non-NATO ally status;
(m) the announcement of Jordan as a major non-NATO ally status;
(n) the announcement of Jordan as a major non-NATO ally status;
(o) the announcement of Jordan as a major non-NATO ally status;
(p) the announcement of Jordan as a major non-NATO ally status;
(q) the announcement of Jordan as a major non-NATO ally status;
(r) the announcement of Jordan as a major non-NATO ally status;
(s) the announcement of Jordan as a major non-NATO ally status;
(t) the announcement of Jordan as a major non-NATO ally status;
(u) the announcement of Jordan as a major non-NATO ally status;
(v) the announcement of Jordan as a major non-NATO ally status;
(w) the announcement of Jordan as a major non-NATO ally status;
(x) the announcement of Jordan as a major non-NATO ally status;
(y) the announcement of Jordan as a major non-NATO ally status;
(z) the announcement of Jordan as a major non-NATO ally status.

SEC. 5. ENHANCED DEFENSE COOPERATION.
(a) IN GENERAL.—During the 3-year period beginning on the date of enactment of this Act, the Hashemite Kingdom of Jordan shall be treated as if it were a country listed in the provisions of law described in subsection (b) for purposes of providing and administering such provisions of law.
(b) ARMS EXPORT CONTROL ACT.—The provisions of law described in subsection (a) are—
(1) subsections (b)(2), (d)(2)(B), (d)(3)(A)(i), and (d)(5) of section 3 of the Arms Export Control Act (22 U.S.C. 2776(b));
(2) subsections (a)(2)(A), (d)(1)(A), and (b)(2) of section 21 of such Act (22 U.S.C. 2761);
(3) subsections (b)(1), (b)(2), (b)(6), (c), and (d)(2)(A) of section 3 of such Act (22 U.S.C. 2776); and
(4) section 62(c)(1) of such Act (22 U.S.C. 2796a(c)(1)); and
(5) section 63(a)(2) of such Act (22 U.S.C. 2796a(a)(2)).

SEC. 6. MEMORANDUM OF UNDERSTANDING.
Subject to the availability of appropriations, the Secretary of State is authorized to enter into a memorandum of understanding with the Hashemite Kingdom of Jordan to—
(1) support the Hashemite Kingdom of Jordan in its response to the Syrian refugee crisis;
(2) provide necessary assistance to alleviate the domestic burden to provide basic needs for the assimilated Syrian refugees;
(3) cooperate with Jordan to combat the terrorist threat from the Islamic State of Iraq and the Levant (ISIL) or other terrorist organizations;
(4) help to ease the border between Jordan and its neighbors Syria and Iraq.

SEC. 4. SENSE OF CONGRESS.
It is the sense of Congress that—
(a) expeditious consideration of certification of Jordan as a major non-NATO ally status;
(b) the announcement of Jordan as a major non-NATO ally status;
(c) Jordan is suffering from the Syrian refugee crisis and the threat of the Islamic State of Iraq and the Levant (ISIL);
(d) the announcement of Jordan as a major non-NATO ally status;
(e) the announcement of Jordan as a major non-NATO ally status;
(f) the announcement of Jordan as a major non-NATO ally status;
(g) the announcement of Jordan as a major non-NATO ally status;
(h) the announcement of Jordan as a major non-NATO ally status;
(i) the announcement of Jordan as a major non-NATO ally status;
(j) the announcement of Jordan as a major non-NATO ally status;
(k) the announcement of Jordan as a major non-NATO ally status;
(l) the announcement of Jordan as a major non-NATO ally status;
(m) the announcement of Jordan as a major non-NATO ally status;
(n) the announcement of Jordan as a major non-NATO ally status;
(o) the announcement of Jordan as a major non-NATO ally status;
(p) the announcement of Jordan as a major non-NATO ally status;
(q) the announcement of Jordan as a major non-NATO ally status;
(r) the announcement of Jordan as a major non-NATO ally status;
(s) the announcement of Jordan as a major non-NATO ally status;
(t) the announcement of Jordan as a major non-NATO ally status;
(u) the announcement of Jordan as a major non-NATO ally status;
(v) the announcement of Jordan as a major non-NATO ally status;
(w) the announcement of Jordan as a major non-NATO ally status;
(x) the announcement of Jordan as a major non-NATO ally status;
(y) the announcement of Jordan as a major non-NATO ally status;
(z) the announcement of Jordan as a major non-NATO ally status.

SEC. 5. ENHANCED DEFENSE COOPERATION.
(a) IN GENERAL.—During the 3-year period beginning on the date of enactment of this Act, the Hashemite Kingdom of Jordan shall be treated as if it were a country listed in the provisions of law described in subsection (b) for purposes of providing and administering such provisions of law.
(b) ARMS EXPORT CONTROL ACT.—The provisions of law described in subsection (a) are—
(1) subsections (b)(2), (d)(2)(B), (d)(3)(A)(i), and (d)(5) of section 3 of the Arms Export Control Act (22 U.S.C. 2776(b));
(2) subsections (a)(2)(A), (d)(1)(A), and (b)(2) of section 21 of such Act (22 U.S.C. 2761);
(3) subsections (b)(1), (b)(2), (b)(6), (c), and (d)(2)(A) of section 3 of such Act (22 U.S.C. 2776); and
(4) section 62(c)(1) of such Act (22 U.S.C. 2796a(c)(1)); and
(5) section 63(a)(2) of such Act (22 U.S.C. 2796a(a)(2)).

SEC. 6. MEMORANDUM OF UNDERSTANDING.
Subject to the availability of appropriations, the Secretary of State is authorized to enter into a memorandum of understanding with the Hashemite Kingdom of Jordan to—
(1) support the Hashemite Kingdom of Jordan in its response to the Syrian refugee crisis;
(2) provide necessary assistance to alleviate the domestic burden to provide basic needs for the assimilated Syrian refugees;
(3) cooperate with Jordan to combat the terrorist threat from the Islamic State of Iraq and the Levant (ISIL) or other terrorist organizations;
(4) help to ease the border between Jordan and its neighbors Syria and Iraq.

SEC. 4. SENSE OF CONGRESS.
It is the sense of Congress that—
(a) expeditious consideration of certification of Jordan as a major non-NATO ally status;
(b) the announcement of Jordan as a major non-NATO ally status;
(c) Jordan is suffering from the Syrian refugee crisis and the threat of the Islamic State of Iraq and the Levant (ISIL);
PRIVILEGES OF THE FLOOR

Mr. MERRILEY. Mr. President, I ask unanimous consent that my intern, Sebastian Gomez-Divine, have the privileges of the floor for the balance of the day.

The PRESIDING OFFICER. Without objection, it is so ordered.

NOTICE OF ADOPTION OF REGULATIONS AND SUBMISSION FOR APPROVAL

Mr. HATCH. Mr. President, I ask unanimous consent that the attached documentation from the Office of Compliance be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

U.S. CONGRESS,
OFFICE OF COMPLIANCE,

Hon. Orrin Hatch,
President Pro Tempore of the U.S. Senate,
Washington, DC

Dear Mr. President: Section 304(b)(3) of the Congressional Accountability Act ("CAA"), 2 U.S.C. § 1384(b)(3), requires that, with regard to "adoption for approvals under the CAA," after the Board of Directors of the Office of Compliance ("Board") has published a general notice of proposed rulemaking as required by subsection (b)(1), and received comments as required by subsection (b)(2), "the Board shall adopt regulations and shall transmit notice of such action together with a copy of such regulations to the Speaker of the House of Representatives and the President pro tempore of the Senate for publication in the Congressional Record on the first day on which both Houses are in session following such transmission."

The Board has adopted the regulations in the Notice of Adoption of Substantive Regulations and "Transmittal for Congressional Approval" which accompany this transmittal letter. The Board requests that the accompanying Notice be published in the Senate version of the Congressional Record on the first day on which both Houses are in session following receipt of this transmittal.

The Board has adopted the same regulations for the Senate, the House of Representatives, and the other covered entities and facilities, and therefore recommends that the adopted regulations be approved by concurrent resolution of both Houses.

All inquiries regarding this notice should be addressed to Barbara J. Sapin, Executive Director of the Office of Compliance, Room LA-200, 119 2nd Street, SE, Washington, DC 20540; (202) 744-9250.

Sincerely,

Barbara L. Camens, Chair of the Board of Directors, Office of Compliance.

FROM THE BOARD OF DIRECTORS OF THE OFFICE OF COMPLIANCE

NOTICE OF ADOPTION OF REGULATIONS AND SUBMISSION FOR APPROVAL

Regulations Extending Rights and Protections Under the Americans with Disabilities Act ("ADA") Relating to Public Services, Programs, Activities of Public Entities and Accommodations, Notice of Adoption of Regulations for Approval as Required by 2 U.S.C. § 1331, the Congressional Accountability Act of 1995, as Amended ("CAA").

Summary:

The Congressional Accountability Act of 1995, PL 104-1 ("CAA"), was enacted into law on January 23, 1996. The CAA, as amended, applies the rights and protections of thirteen federal labor and employment statutes to covered employees and employers within the legislative branch of the federal government. Section 303 of the CAA provides that the rights and protections against discrimination in the provision of public services, programs, and activities shall apply to legislative branch entities covered by the CAA. The above provisions of section 210 became effective on January 1, 1997. 2 U.S.C. §1331(h).

The Board of Directors, Office of Compliance, after considering comments to its Notice of Proposed Rulemaking (NPRM) published on September 9, 2014 in the Congressional Record, has adopted, and is submitting for approval by the Congress, final regulations implementing section 210 of the CAA.

Supplementary Information:
Background and Summary

Section 210(b) of the CAA provides that the rights and protections against discrimination in the provision of public services and activities of public entities covered by the provisions of Titles II and III (sections 201 through 230, 302, 303, and 309) of the Americans With Disabilities Act of 1990, 42 U.S.C. §§ 12131 et seq. ("ADA") shall apply to specified legislative branch offices, 2 U.S.C. § 1331(b). Title II of the ADA prohibits discrimination on the basis of disability in the provision of public services, programs, or activities by any "public entity." Title II of the ADA defines the term "public entity" for Title II purposes as any of the listed legislative branch offices that provide public services, programs, or activities. 2 U.S.C. § 1331(b)(2). Title III of the ADA prohibits discrimination on the basis of disability by public accommodations and requires places of public accommodation and commercial facilities to be designed, constructed, and altered in compliance with the accessibility standards of the CAA.

Section 210(e) of the CAA requires the Board of Directors of the Office of Compliance to issue regulations implementing section 210, 2 U.S.C. § 1331(e). Section 210(e) further states that such regulations shall be the same as substantive regulations promulgated by the Attorney General and the Secretary of Transportation to implement the statutory provisions referred to in section 210(b) of the CAA except to the extent that the Board may determine, for good cause shown and stated together with the regulation, that a modification of such regulations would be more effective for the implementation of the rights and protections under this section." Id. Section 210(e) further provides that the regulations shall include a method of identifying, for purposes of this section and for different categories of violations of subsection (b), the entity responsible for the violation. 2 U.S.C. § 1331(o)(3). On September 9, 2014, the Board published in the Congressional Record a NPRM, 160 Cong. Rec. TH636 & 160 Cong. Rec. (daily ed., Sept. 9, 2014). In response to the NPRM, the Board received four sets of written comments. After due consideration of the comments received in response to the proposed regulations, the Board has adopted and is submitting these final regulations for approval by Congress.
1. Compliance with both Titles II and III of the ADA.

Several commenters questioned whether it was necessary to adopt regulations under both Title II and Title III when Title II typically applies only to public entities and Title III typically applies only to private entities. Section 210 of the CAA can be confusing because it requires public and nonpublic accommodative barriers (which are “public entities”) to comply with the regulations in existence on the adoption date rather than the issuance date. In addition, to further avoid any confusion, the adopted regulations require that the full text of the incorporated regulations be published on the Office of Compliance website.

2. Providing services, programs, activities or accommodations directly to the public out of a leased facility.

Several commenters raised questions regarding how the regulations would be applied when a legislative branch office is leasing space from a private landlord. Under the DOJ’s Title II regulation, when the office is located, the building site, the parking lots and the interior and exterior walkways are considered facilities of the public entity and therefore the landlord must make the space being leased a “public place of public accommodation” by providing access barriers if such removal is “readily achievable.”

As noted in the NPRM, Congress applied provisions of both Title II and Title III of the ADA to legislative branch offices to ensure that individuals with disabilities are provided with accommodations, programs, activities and accommodations provided by law. To that end, the NPRM proposed an admittedly simple rule for deciding whether title II and III regulations are diff erent between the applicable Title II and Title III regulations: the regulation providing the most access shall be followed. In response to this concern expressed by the commenters, the Board has further reviewed the Title II and III regulations and determined that, when addressed the same subject, compliance with the applicable Title II regulation will be sufficient to meet the requirements of both Title II and Title III. For this reason, and to eliminate the potential confusion expressed by the commenters, the Board has adopted only the DOJ’s Title II regulation when the DOJ’s Title II and Title III regulations address the same subject.

3. Access requirements in rural and urban areas.

One commenter suggested that the Board should recognize that the applicable ADA requirements in rural areas differ from those in urban areas and should therefore adopt regulations that recognize this distinction. The Board has determined that the public entity to a place of public accommodation, the private landlord will also have to comply with the DOJ’s Title II regulations, subject to enforcement by the DOJ or by an individual with a disability through legal action. The private landlord is not covered by the CAA.

Under the DOJ regulations that are incorporated by the adopted regulations, the obligation to remove access barriers to public accommodations operated by a public entity and therefore the office must meet the obligations imposed by those sections of Titles II and III of the ADA applied to legislative branch offices under the CAA. Because the private landlord is leasing a facility to a place of public accommodation, the private landlord will also have to comply with the DOJ’s Title II regulations, subject to enforcement by the DOJ or by an individual with a disability through legal action. The private landlord is not covered by the CAA.
construction in rural areas may not be regulated by local building codes, under the ADA, the individuals with disabilities living in those areas are entitled to the same rights and protections provided in all other areas. This means that public entities and public accommodations must comply with the same applicable ADA access requirements regardless of their location. For this reason, following the DOJ and DOT, the Board has not made any changes in the proposed regulations to reflect distinctions between rural and urban areas.

4. Accessibility requirements for leased facilities.

In the NPRM, the Board proposed adoption of an Access Board regulation based on 28 C.F.R. § 1190.34 (2004) which since July 23, 2004 has been incorporated into the Access Board’s Architectural Barriers Act Accessibility Guidelines (“ABAAG”). This regulation provides that buildings and facilities leased with federal funds shall contain certain specified accessible features. Buildings or facilities leased for 12 months or less are not required to comply with the regulation as long as the lease cannot be renewed or renewed.

The Access Board’s leasing regulation implements a key provision of the Architectural Barriers Act (ABA) which Congress originally passed in 1968 and amended in 1976. The ABA was originally enacted “to insure that all public buildings constructed in the future by the Federal Government are designed and constructed in such a way that they will be accessible to and usable by the physically handicapped.” S.Rep. No. 538, 90th Cong., 1st Sess., reprinted in 1968 U.S. Code Cong. & Admin. News at 2151. As amended in 1976, the ABA covered only leased facilities that were “to be leased in whole or in part by the United States after [August 10, 1968] construction, or after alteration, the [ABA’s] coverage is incomplete to the extent that those buildings are excluded.”

The Board’s proposal to require compliance with the ABA for all buildings and facilities leased with federal funds does not identify themselves as disabled. OOC’s Board of Directors (“the Board”) is authorized to propose a rule that does not follow the DOJ regulations when it determines “for good cause that the rules so promulgated do not comport with the requirements of this subsection.” The Board has decided to require the leasing of accessible spaces as required in § 202.6 of the ABA.

5. Regulations regarding the investigation and prosecution of charges of discrimination and regarding periodic inspections and reporting.

Several commenters suggested that the regulations in Part 2, regarding the investigation and prosecution of charges of discrimination, and in Part 5, regarding periodic inspections and reporting, describe powers of the General Counsel that are beyond what is provided in the CAA. These commenters suggested that, under the ABA, the General Counsel does not have the discretion to determine how to conduct investigations and inspections or the authority to act upon requests for inspection from persons who request anonymity or persons who do not identify themselves as disabled.

Section 210(d) of the CAA requires the General Counsel to accept and investigate charges of discrimination filed by qualified individuals with disabilities who allege a violation of Section 504 of the CAA and Section 1190 of the ABA. The CAA provides no details regarding how charges shall be investigated. Similarly, while Section 210(d) of the CAA requires that the General Counsel, on a regular basis, at least once each Congress, inspect the facilities of covered entities to ensure compliance with Section 216 of the CAA and submit a report to Congress containing the results of such periodic inspections, the statute provides no details regarding how the inspections are to be conducted.

The authority of an administrative agency to administer a congressionally created program, a congressionally created . . . program, and to establish and administer a congressionally created . . . program, see, Public Buildings Co-operative Use: Hearings on HR 15134 Before the Subcommittee on Public Buildings and Grounds of the House Committee on Public Works and Transportation, 94th Cong., 2d Sess. 107 (1968) (statement of Representative Edgar).

Consequently, since 1976, a hallmark of federal policy regarding people with disabilities has been to require public accommodations and facilities constructed or leased using federal funds. Although, in the CAA, Congress required compliance with only the public access provisions of the ADA rather than the Rehabilitation Act of 1973 or the ABA, the ADA itself was enacted in 1990 to expand the rights of individuals with disabilities beyond what was previously provided by the Rehabilitation Act and the ABA. One of the sections of the ADA that Congress added to the ABA is Section 201. Section 204 requires that the regulations promulgated under the ADA with respect to existing facilities “shall be consistent” with the regulations promulgated by the DOJ in 28 C.F.R. Part 39, 42 U.S.C. § 12134(b). Under 28 C.F.R. § 39.150(b), a covered entity is required to meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended, and any regulations implementing it.

As several commenters noted, when the DOJ promulgated its ADA regulations in 1991, it stated in its guidelines that it had intended the requirements that required public entities to lease only accessible facilities because to do so “would significantly restrict the options of State and local governments in seeking leased space, which would be particularly burdensome in rural or sparsely populated areas.” 29 C.F.R. Pt. 35, App. B § 35.151. In these same guidelines, however, the DOJ also noted that, under the Access Board’s regulations, the federal government may not lease facilities unless they meet the minimum accessibility requirements of 28 C.F.R. § 1190.34 (2004) (and now in ABAAG § 202.6). This is true even if the facility is located in rural or sparsely populated areas. None of the commenters provided any specific examples of how complying with a regulation regarding leased facilities otherwise applicable to the federal government would be unduly burdensome. Since the supply of accessible facilities has increased during the past twenty-four years through alterations and new construction, the burdensomeness of this regulation is certainly much less than it was in 1991.

A commenter also noted that under the current regulations the OOC may not use representative funds to obtain reimbursement for capital improvements and this might affect the removal of barriers in facilities already covered by an ABAAG rule. While it is likely that the landlord will recover some of the costs associated with these alterations by increasing the rent paid by federal tenants, Congress determined when it amended the ABA to provide for coverage all leased facilities that the increased cost associated with requiring the federal government to lease only accessible facilities would be minimal and well worth the benefit gained by improving accessibility to all federal facilities. H.R. Rep. No. 1584—Part II, 94th Cong., 2d Sess. 107 (1976) (statement of Representative Herschel.)
ADA inspections of all facilities used by the covered entities at least once each Congress. The General Counsel is unable to inspect all of the facilities located in the Washington, D.C. area, or of the facilities covered by the district and state offices that are also covered by Section 210 of the CAA. In light of the General Counsel’s limited resources and the large number of facilities covered by the CAA, the General Counsel must prioritize its ADA inspections. The proposed regulations allow the General Counsel to conduct inspections of facilities covered by the CAA, the General Counsel must recognize the potential for giving priority to inspection of areas that have raised concerns from constituents. By allowing anyone to file a complaint and by allowing requesters to remain anonymous to the covered office (the requester is required to provide his or her identity to the General Counsel), 7. Comments to specific regulations. a. Sec. 1.101—Purpose and Scope. One commenter suggested that the authority of the Capitol Police Board by regulation and therefore does not find good cause to modify the language of the DOJ or DOT regulations in the manner requested. In response, the Board notes that this has been accomplished by defining the “ADA” as including only those sections incorporated by the CAA. Another comment requested a definition of the term “enforcement” in the last sentence of Section 1.104(d). In response, this word has been deleted in the adopted regulation. b. Sec. 1.105—Title II Regulations incorporated by reference. The Architect of the Capitol suggested a slight modification to the definitions of “historic property” in Sec. 1.105(a)(4) which would add the word “properties” to the list including “facilities” and “buildings.” The Board has made this change in the adopted regulations. c. Sec. 1.106—Definitions. One commenter suggested that the definition of "historic" properties be modified to include properties designated as historic by state or local law not incorporated in such buildings. In response, the Board notes that the definition contained in Sec. 1.105(a)(4) merely supplements the definition of historic properties contained in Section 35.104, which includes those properties designated as historic under state or local law. To further clarify this, the Board has added the words “or designated as historic under state or local law” to the adopted regulation. Another comment suggested that, rather than providing a general rule of interpretation, all potentially controversial regulations be rewritten to reconcile all possible conflicts. In response, as noted earlier in response to the general comments, the Board has adopted only the Title II Regulations into the CAA. Consequently, this provision remains in the adopted regulations.

(1) Section 35.104(a). A comment suggested that this regulation should not be adopted because it references Title V of the Rehabilitation Act which includes employment discrimination issues. In response, the Board notes that Section 35.104(a) in Section 204 of the ADA, 42 U.S.C. §12134, which is incorporated by reference into the CAA; consequently, this provision remains in the adopted regulations.

(2) Section 35.104. A comment suggested that this regulation should be rewritten to delete all terms that are irrelevant, duplicative, or otherwise inapplicable. In response, the Board notes that definitions of terms that are not used in the incorporated regulations are not incorporated by reference, as made clear by the additional language added in §1.105(a); consequently, there is no need to rewrite the regulation.

(3) Section 35.105 (Self-Evaluation) and Section 35.106 (Notice). A comment suggested that these regulations should not be adopted because they might require covered entities to report findings to the OOCR or keep and maintain certain records. The Board does not find this reason to be “good cause” for modifying the existing DOJ regulation. Under the CAA, the Capitol Police Board is incorporated by the CAA, the ADA does not contain a specific section about recordkeeping that Congress declined to apply to legislative branch entities.

(4) Section 35.107 (Designation of responsible employee and adoption of grievance procedures) A commenter suggested that this regulation should not be adopted because the CAA contains other enforcement provisions. The Board does not find “good cause” for modifying the existing DOJ regulation. The DOJ placed these provisions in the regulations even though the ADA contains enforcement provisions. These regulations provide procedures for addressing access issues by allowing individuals with disabilities to complain directly to the covered entity about an access problem.

February 3, 2016 CONGRESSIONAL RECORD — SENATE S627
Fourth Amendment issues. The Board finds that there is not "good cause" for modifying the existing DOJ regulation. The Fourth Amendment also applies to state and local government entities. The Board finds that this regulation is not necessary because the adopted regulations define the term "Americans with Disabilities Act" as including only those sections of the Act incorporated by the CAA.

(2) Section 36.103 (Relationship with Other Laws). A comment suggested deleting this section because it references Title V of the Rehabilitation Act. In response, the Board notes that Section 36.103 is based in part on Section 204 of the ADA, 42 U.S.C. 12134, which is incorporated by reference and therefore finds no cause for deleting this regulation.

(3) Section 36.104 (Definitions). Several comments suggested modifying this regulation to clarify that it references Title V of the Rehabilitation Act. In response, the Board notes that Section 36.104 is based in part on Section 204 of the ADA, 42 U.S.C. 12134, which is incorporated by reference and therefore finds no cause for deleting this regulation.

(4) Section 36.209 (Illegal use of drugs). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(5) Section 36.211 (Maintenance of accessible features). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(6) Section 36.212 (Removal of Barriers). A comment suggested modifying this regulation to include barriers that are not physically removable. The Board finds that such a narrow definition is not appropriate for this regulation because it has not been incorporated into the adopted regulations.

(7) Section 36.213 (Effective communication). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(8) Section 36.214 (Enforcement). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(9) Section 36.215 (Inspections and Reporting). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(10) Section 36.216 (Compliance with Other Laws). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.

(11) Appendices to Part 35 Regulations. A comment suggested correcting the titles of the Appendices to Parts 35 and 36. The titles have been corrected in the adopted regulations.

(12) Section 1.105—Title III Regulations incorporated by reference. (1) Section 3.101 (Purpose). A comment suggested that this regulation be modified to state that only those sections of Title III incorporated by the CAA are being implemented in this regulation. The Board finds that these sections are not necessary because the adopted regulations define the term "Americans with Disabilities Act" as including only those sections of the Act incorporated by the CAA.

(2) Section 3.103 (Relationship with other Laws). A comment suggested deleting this section because it references Title V of the Rehabilitation Act. In response, the Board notes that Section 3.103 is based in part on Section 204 of the ADA, 42 U.S.C. 12134, which is incorporated by reference and therefore finds no cause for deleting this regulation.

(3) Section 3.104 (Definitions). Several comments suggested modifying this regulation to clarify that it references Title V of the Rehabilitation Act. In response, the Board notes that Section 3.104 is based in part on Section 204 of the ADA, 42 U.S.C. 12134, which is incorporated by reference and therefore finds no cause for deleting this regulation.

(4) Section 3.209 (Illegal use of drugs). The Board has not responded to comments regarding this regulation because it has not been incorporated into the adopted regulations.
be inconsistent with the DOJ regulations and the purpose of the statutory mandate to inspect facilities for compliance with Titles II and III of the ADA; therefore, it has not modified this definition in the adopted regulations.

(3) Section 3.103 (Inspection Authority). Commenters suggested that the General Counsel ought to conduct an inspection or investigation initiated by someone who wishes to remain anonymous. For the reasons stated earlier in response to the general comments, the Board rejects this suggestion and has therefore not changed this section in the adopted regulations. The Architect of the Capitol suggested that, in the interest of timeliness and to facilitate the implementation of the CAA, the Board should adopt and set forth herein, there are other substantive regulations promulgated by the Attorney General and the Secretary of Transportation to implement the statutory provisions referred to in subsection (b) of § 12101 of the CAA that are not adopted.

In promulgating these regulations, the Board has made certain technical and nomenclature changes to the regulations as promulgated by the Board and the Secretary of Transportation. Such changes are intended to make the provisions adopted accord more naturally to situations in the Legislative Branch. However, by making these changes, the Board does not intend a substantive difference between these regulations and those of the Attorney General and/or the Secretary of Transportation from which they are derived. Moreover, such changes, in and of themselves, are not intended to constitute an interpretation of the regulations or of the statutory provisions of the CAA upon which they are based.

§ 1.104 Method for identifying the entity responsible for correction of violations of § 210.

(a) Purpose and scope. Section 210(e)(3) of the CAA provides that regulations under Section 210(e) include a method for identifying the entity responsible for correcting violations of the CAA and for categories of violations of Section 210(b), the entity responsible for correcting a particular violation. This section sets forth the method for identifying responsible entities for the purpose of allocating responsibility for correcting violations of Section 210(b).

(b) Violations. A covered entity may violate Section 210(b) if it discriminates against a qualified individual with a disability within the meaning of Title II or Title III of the ADA.

(c) Entities Responsible for Correcting Violations. Correction of a violation of the rights and protections against discrimination is the responsibility of the covered entity that discriminates against a qualified individual with a disability. Such a discrimination may occur in a number of settings, including in the provision of public services and accommodations. Paragraph (b)(1) of § 12133, 12150, 12182, 12183, and 12189 ("ADA") includes the following entities:

(1) each office of the Senate, including each office of a Senator and each committee;

(2) each office of the House of Representatives, including each office of a Member of the House of Representatives and each committee;

(3) each joint committee of the Congress;

(4) the Office of Congressional Accessible Services;

(5) the United States Capitol Police;

(6) the Congressional Budget Office;

(7) the Office of the Architect of the Capitol (including the Botanic Garden);

(8) the Office of the Attending Physician; and

(9) the Office of Compliance.

Title II of the ADA prohibits discrimination on the basis of disability in the provision of public services, programs, activities, and/or the Secretary of Transportation from which they are derived. Moreover, such changes, in and of themselves, are not intended to constitute an interpretation of the regulations or of the statutory provisions of the CAA upon which they are based.

§ 1.105 Regulations incorporated by reference.

(a) Technical and Nomenclature Changes to Regulations Incorporated by Reference. The definitions and exemptions in the regulations incorporated by reference ("incorporated regulations") shall be used to interpret these regulations except: (1) when they differ from the definition in § 1.102 or the definition listed below, in which case the definition in § 1.102 or the modification listed below shall be
used; or (2) when they define terms that are not used in the incorporated regulations.

The incorporated regulations are hereby modified as follows:

(1) When the incorporated regulations refer to “Assistant Attorney General,” “Department of Justice,” “FTA Administrator,” “FTA regional office,” “Administrator, Secretary,” or any other executive branch office or officer, “General Counsel” is hereby substituted.

(2) When the incorporated regulations refer to the date “January 26, 1992,” the date “January 1, 1997” is hereby substituted.

(3) When the incorporated regulations otherwise specify a date by which some action must be completed, the date that is three years from the effective date of these regulations is hereby substituted.

(4) When the incorporated regulations contain an exception for an “historic” property, building, or facility, that exception shall also apply to properties, buildings, or facilities designated as an historic or heritage asset by the Office of the Architect of the Capitol in accordance with its preservation policy and standards and where, in accordance with its preservation policy and standards, the Office of the Architect of the Capitol determines that compliance with the requirements for accessible routes, entrances, or toilet facilities (as defined in 28 C.F.R. Parts 35 and 36) would threaten or destroy the historic significance of the property, building or facility, the exceptions for alterations to qualified historic property, buildings or facilities for that element shall be permitted to apply.

(b) Rules of Interpretation. When regulations in (c) conflict, the regulation providing the most access shall apply. The Board’s Notice of Adoption shall be used to interpret these regulations and shall be made part of these Regulations as Appendix A.

(c) Incorporated Regulations from 28 C.F.R. Parts 35 and 36. The Office shall publish on its website the full text of all regulations incorporated by reference. The following regulations from 28 C.F.R. Parts 35 and 36 that are published in the Code of Federal Regulations on the date of the Board’s adoption of these regulations are hereby incorporated by reference as though stated in detail herein:

§ 35.101 Purpose.

§ 38.21 General.
§ 38.23 Mobility aid accessibility.
and accommodations means all of the rights and protections provided by Section 210(b)(1) of the CAA through incorporation of Sections 201 through 203, 302, 303, and 309 of the ADA and by the regulations I used by the Board to implement Section 210 of the CAA.

§ 2.103 Investigatory Authority.
(a) Investigatory Methods. When investigating charges of discrimination and conducting investigations, the General Counsel is authorized to use all the modes of inquiry and investigation traditionally employed or useful to execute this investigatory authority. The methods of investigation include, but are not limited to, the following: (1) requiring the parties to provide or produce ready access to; all physical areas subject to an inspection or investigation, individuals with relevant knowledge concerning the inspection or investigation who can be interviewed or questioned, and documents believed to be relevant to a potential violation or demonstrating compliance, and (2) requiring the parties to provide written answers to questions, statements of position, and any other information relating to a potential violation or demonstrating compliance.

(b) Duty to Cooperate with Investigations. Charging individuals and covered entities shall cooperate with investigations conducted by the General Counsel. Cooperation includes providing timely responses to reasonable requests for information and documents, allowing the General Counsel to review documents and interview relevant witnesses confidentially without interference or influence, and granting the General Counsel access to facilities and records. When conducting inspections, the General Counsel shall inspect the facilities of covered entities and all facilities used to provide public services, programs, activities, or accommodations, describing any violations, assessing any limitations in accessibility, and providing the estimated cost and time needed for abatement. Part 3 of these regulations contains the provisions pertaining to these inspection and reporting duties.

§ 2.107 Remedies and compliance.
(a) Remedies. The remedy for a violation of Section 210 of the CAA shall be such remedy as would be appropriate if awarded under Section 203 or 308(a) of the ADA.

(b) Compliance Date. Compliance shall take place as soon as possible, but no later than the fiscal year following the end of the fiscal year in which the order requiring correction becomes final and not subject to further review.

§ 2.108 Judicial Review.
A charging individual who has intervened or any respondent to the complaint, if aggrieved by a final decision of the Board, may file a petition for review in the United States Court of Appeals for the Sixth Circuit, pursuant to Section 407 of the CAA.

PART 3—MATTERS PERTAINING TO PERIODIC IN- SPCTIONS AND REPORTING

§ 3.101 Purpose and Scope.
(a) General scope of authority. On a regular basis, at least once each Congress, the General Counsel shall inspect the facilities of covered entities to ensure compliance with the Titles II and III of the ADA and to prevent or reduce any potential violation or demonstrating compliance.

(b) Estimated cost and time needed for abatement. The estimated cost and time needed for abatement means cost and time estimates that can be reported as falling within a range of dollar amounts and dates.

§ 3.102 Definitions.
(a) The facilities of covered entities means all facilities used to provide public programs, activities, services or accommodations that are designed, maintained, altered, or constructed by a covered entity and all facilities where covered entities provide public programs, activities, services or accommodations.

(b) Violation means any barrier to access caused by noncompliance with the applicable standards.

(c) Estimated cost and time needed for abatement means cost and time estimates that can be reported as falling within a range of dollar amounts and dates.

§ 3.103 Inspection authority.
(a) General scope of authority. On a regular basis, at least once each Congress, the General Counsel shall inspect the facilities of covered entities to ensure compliance with the Titles II and III of the ADA and to prevent any potential violation or demonstrating compliance.

(b) Duty to cooperate. Covered entities shall cooperate with any inspection conducted by the General Counsel in the manner provided by § 3.10(b).

(d) Pre-construction review of alteration and construction projects. Any project involving alteration or new construction of any facilities of covered entities subject to inspection by the General Counsel for compliance with Titles II and III of the ADA during
the design, pre-construction, construction, and post construction phases of the project. The Office of the Architect of the Capitol shall, within one year from the effective date of these regulations, develop a process with the General Counsel to identify potential barriers to access prior to the completion of alteration and construction projects that may bring the following provisions:

1. Design review or approval;
2. Inspections of ongoing alteration and construction projects;
3. Training on the applicable ADA standards;
4. Final inspections of completed projects for compliance; and
5. Assistance from the General Counsel that would likely reduce the number of ADA barriers in alterations and new construction and the costs associated with correcting them.

§ 3.104 Reporting, estimating cost & time, and compliance date.

(a) Reporting duty. On a regular basis, at least once each Congress, the General Counsel shall prepare and submit a report to Congress containing the results of the periodic inspections conducted under § 3.103(a), describing any violations, assessing any limitations in accessibility, and providing the estimated time needed for abatement in the manner provided by § 2.103(b).

(b) Estimated cost & time. Covered entities shall cooperate with the General Counsel by providing information needed to provide the estimated time needed for abatement.

(c) Compliance date. All barriers to access identified by the General Counsel in its periodic reports shall be removed or otherwise corrected as soon as possible, but no later than the fiscal year following the end of the fiscal year in which the report describing the barrier to access was issued by the General Counsel.

Recommended Method of Approval:
The Board has adopted the same regulations for the Senate, the House of Representatives, and the other covered entities and facilities, and therefore recommends that the adopted regulations be approved by concurrent resolution of the Congress.

SIGNED at Washington, D.C., on this 3rd day of February, 2016.

BARRIE L. CAMENS,
CHAIR OF THE BOARD, OFFICE OF COMPLIANCE.

ENDNOTES

1. 28 C.F.R. § 36.201(b) reads as follows: “Landlord and tenant responsibilities. Both the landlord who owns the building that houses public accommodation and the tenant who owns or operates the place of public accommodation are public accommodations subject to the requirements of this part. As between the parties, allocation of responsibility for complying with the obligations of this part may be determined by lease or other contract.”

2. The DOA's illustrations and descriptions in its Technical Assistance Manuals regarding compliance with Titles II and Title III by tenants and landlords make this clear. See, U.S. Dep’t of Justice, ADA Title III Technical Assistance Manual III–1.2000 (Nov. 1993) (“The title III regulation permits the landlord and the tenant to allocate responsibility for complying with particular provisions of the regulation. However, any allocation made in a lease or other contract is only effective as between the parties, and both landlord and tenant remain fully liable for compliance with all provisions of the ADA relating to that place of public accommodation.”); U.S. Dep’t of Justice, Technical Assistance Manual II–1.3000 (Nov. 1993) (Both manuals are available online at www.ada.gov). Also see, Gabrielle P. Whelan, Comment, The “Public Access” Provisions of Title III of the Americans with Disabilities Act, 34 Santa Clara L. Rev. 215, 217–18 (1993).

3. Several commentators correctly noted that the NPRM contains a technical error because the year (2001) was omitted from the C.F.R. citation, which was a potential source of confusion because the regulation was removed from the C.F.R. in 2004 when the substance of the regulation became part of the AGD Guidelines, at § 202.6. Fortunately, all of the commenters were sufficiently able to ascertain the subject matter of the proposed regulation to participate fully in the rule-making process by providing detailed comments about the proposed regulation, which is all that is required of a NPRM. See, e.g., Am. Iron & Steel Inst. v. EPA, 569 F.2d 284, 293 (3d Cir. 1982); U.S. Air Marshal, 647 F.2d 1189, 1121 (D.C. Cir. 1981); and Am. Med. Ass’n v. United States, 867 F.2d 760, 787 (7th Cir. 1989).

4. Under §202.6 of the ABAAG, “Buildings or facilities for which new leases are negotiated by the Federal government after the effective date of the revised standards issued pursuant to the Architectural Barriers Act, including new leases for buildings or facilities previously occupied by the Federal government, shall become fully compliant within three years after adoption of the revised standards.” The ABAAG then proceeds to describe the requirements for an accessible route to primary function areas, toilet and bathing facilities, parking, and the like. After the ABAAG became the ABA Accessibility Standards (“ABAAS”) on May 17, 2005 when the GSA adopted them as the standards. See 41 C.F.R. §102.76.65(a) (2005).

5. These features include at least one accessible route to primary function areas, at least one accessible toilet facility for each sex (or an accessible unisex toilet facility if only one toilet is provided), accessible parking spaces, and, where provided, accessible drinking fountains, public telephones, dining and work surfaces, assembly areas, sales and service counters, vending and change machines, and mail boxes.

RESEARCH EXCELLENCE AND ADVANCEMENTS FOR DYSLEXIA ACT

Ma. MURKOWSKI. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be discharged from further consideration of H.R. 3033 and the Senate proceed to its immediate consideration of the same.

THE PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The senior assistant legislative clerk read as follows:

A bill (H.R. 3033) to require the President's annual budget request to Congress each year to include a line item for the Research in Disabilities Education program of the National Science Foundation and to require the National Science Foundation to conduct research on dyslexia.

There being no objection, the Senate proceeded to consider the bill.

Mr. MITT ROMNEY. Mr. President, I ask unanimous consent that the Lee-Murray amendment, which is at the desk, be agreed to; I ask that the bill, as amended, be read a third time and passed and the motion to reconsider be considered made and laid upon the table.

THE PRESIDING OFFICER. Without objection, it is so ordered.

The amendment was ordered to be thirded, and the bill to be read a second time.

The bill was read the third time.

The bill (H.R. 3033), as amended, was passed.

The amendment (No. 3279) was agreed to, as follows:

(Purpose: To amend the National Science Foundation program on research on the science of dyslexia.)

Strike section 4 of the bill and insert the following:

SEC. 4. DYSLEXIA.

(a) IN GENERAL.—Consistent with subsection (c), the National Science Foundation shall support multidisciplinary, merit-reviewed, and competitively awarded research on the science of specific learning disability, including dyslexia, such as research on the early identification and intervention for children with dyslexia, professional development for teachers and administrators of students with dyslexia, curricula and educational tools needed for children with dyslexia, and implementation and scaling of successful models of dyslexia intervention. Research supported under this subsection shall be conducted with the goal of practical application.

(b) AWARDS.—To promote development of early career researchers, in awarding funds under subsection (a) the National Science Foundation shall prioritize applications for funding submitted by early career researchers.

(c) COORDINATION.—To prevent unnecessary duplication of research, activities under this subsection shall be coordinated with similar activities supported by other Federal agencies, including research funded by the Institute of Education Sciences and the National Institutes of Health.

(d) FUNDING.—The National Science Foundation shall devote not less than 5,000,000 to research described in subsection (a), which shall include not less than 2,500,000 for research on the science of dyslexia, for each of fiscal years 2017 through 2021, subject to the availability of appropriations, to come from amounts made available for the Research and Related Activities account or the Education and Human Resources Directorate under subsection (e). This section shall be carried out using funds otherwise appropriated by law after the date of enactment of this Act.

(e) AUTHORIZATION.—For each of fiscal years 2016 through 2021, there are authorized out of funds appropriated to the National Science Foundation, $5,000,000 to carry out the activities described in subsection (a).

SEC. 5. DEFINITION OF SPECIFIC LEARNING DISABILITY.

In this Act, the term “specific learning disability for (1) means a disorder in 1 or more of the basic psychological processes involved in understanding or in using language, spoken or written, which disorder may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations; (2) includes such conditions as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia; and (3) does not include a learning problem that is primarily the result of visual, hearing, or motor disabilities, of intellectual disability, of emotional disturbance, or of environmental, cultural, or economic disadvantage.

The amendment was ordered to be thirded, and the bill to be read a second time.
ORDERS FOR THURSDAY,
FEBRUARY 4, 2016

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m., Thursday, February 4; that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, and the time for the two leaders be reserved for their use later in the day; that following leader remarks, the Senate then resume consideration of S. 2012; finally, that the time until 11 a.m. be equally divided between the two managers or their designees.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 10 A.M.
TOMORROW

Ms. MURKOWSKI. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order.

There being no objection, the Senate, at 7:23 p.m., adjourned until Thursday, February 4, 2016, at 10 a.m.
HOUSING OPPORTUNITY THROUGH MODERNIZATION ACT OF 2015

SPEECH OF
HON. SHEILA JACKSON LEE
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 2, 2016

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 3700) to provide housing opportunities in the United States through modernization of various housing programs, and for other purposes:

Ms. JACKSON LEE. Mr. Chair, I thank Chairman LUETKEMEYER and Ranking Member CLEAVER for their leadership, commitment and effort to modernizing and improving Federal Housing programs for millions of Americans who are working their way up to economic empowerment and stability.

I wish to thank Chairman SESSIONS, Ranking Member SLAUGHTER, and the members of the Rules Committee.

I acknowledge and appreciate the bipartisan efforts by my colleagues across the aisle to modernize and improve Federal housing programs as anticipated in H.R. 3700, the Housing Opportunity Through Modernization Act of 2015.

For instance, H.R. 3700 contains provisions that would modify core rental assistance programs such as the Housing Choice Vouchers, Public Housing, and Project-Based Rental Assistance, homelessness prevention and assistance programs, and Federal Housing Administration (FHA) mortgage insurance for condominiums.

Additionally, H.R. 3700 amends the Rural Housing Service program in the Department of Agriculture.

Some of its provisions would help streamline the administration of HUD programs.

For instance, this legislation will facilitate income determination for tenants and housing quality inspections for assisted rental housing.

Another provision of the bill seeks to expand flexibility between public housing operating and capital funds.

The legislation seeks to provide additional flexibility to public housing agencies to conditionally approve housing voucher units with non-life threatening deficiencies in order to allow families immediate access.

Although these many provisions of the legislation are commendable, we hope to see improvements in provisions that have been identified as potentially increasing administrative burden and have unintended consequences.

We want to make sure that deductions for child care and medical expense deductions would not adversely impact the lowest income households.

I share the Administration’s concern with the delegation of the authority to grant exceptions to HUD requirements to the lenders approving projects under the Direct Endorsement Lender Review and Approval Process.

Another major issue appears to be that the delegation of authority does not appear to provide HUD with sufficient ability to set standards for exceptions and oversee their application and procedure.

There are also concerns that other FHA requirements in the bill may create future difficulties for HUD in implementing timely and consistent program changes in response to market conditions.

I look forward to working with my colleagues across the aisle as we are working to continue to improve the bill as it moves forward.

RESTORING AMERICANS’ HEALTHCARE FREEDOM RECONCILIATION ACT OF 2015—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

SPEECH OF
HON. RUBÉN HINOJOSA
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 2, 2016

Mr. HINOJOSA. Mr. Speaker, I rise today in agreement with President Obama’s decision to veto H.R. 3762. If enacted, the bill would have repealed the Patient Protection and Affordable Care Act and defunded Planned Parenthood, limiting healthcare options for millions of americans.

ACA is working. The Affordable Care Act and its health exchanges are helping previously uninsured people acquire access to high-quality, affordable health insurance plans. The ACA expands coverage to include patients with pre-existing conditions, allows young adults to stay on their parent’s family plan until age 26, and provides financial subsidies towards insurance premiums. In the days leading up to the deadline for the Federal Health Insurance Marketplace’s third open enrollment season, the Centers for Medicare and Medicaid Services reported over 8.9 million people had signed up for health insurance coverage.

To meet demand, I facilitated several enrollment and education fairs throughout my south Texas district in collaboration with local partners in the Enroll Rio Grande Valley Coalition. Community members had the opportunity to speak to certified application counselors and sign up for insurance before the January 31st deadline.

I am disappointed that my Republican colleagues want to return to a time when women paid more for medical insurance than men and where patients could be denied coverage based on their previous health history. We cannot in good conscience strip affordable medical coverage from over an estimated 22 million people that have gained peace of mind since ACA’s passage in 2010.

Instead of enacting destructive legislation such as H.R. 3762, we must work together and build upon the Affordable Care Act and its successes. I am confident that we can collaborate to improve the current law and continue to expand protections for our country’s most vulnerable populations.

UNION OF THE UNITED STATES

This “bullet” symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.
Mr. Speaker, in my home state of Texas, a law that would have cut off access to 75 percent of reproductive healthcare clinics in the state was challenged before the U.S. Supreme Court in 2014 and 2015.

On October 2, 2014, the Supreme Court made unconstitutional a Texas law that required all abortion-inducing healthcare facilities that provided the full range of services would be required to have a hospital-style surgery center building and staffing requirements. This requirement meant only 7 clinics would be allowed to continue to provide a full spectrum of reproductive health care to women.

In 2015, the State of Texas once again threatened women’s access to reproductive health care when it attempted to shutter all but 10 healthcare providers in the state of Texas. The Supreme Court once again intervened on behalf of Texas women to block the move to close clinics in my state.

New attacks on women are now being couched with renewed attacks against the Affordable Care Act, which the majority has attempted to overturn with over 50 votes since its enactment. The attacks against Planned Parenthood is a social and economic statement that if you are a woman with money you have the right to think for yourself regarding your healthcare choices, but if you are poor or lack healthcare options you do not have that same right. Millions of women now have free coverage for comprehensive women’s preventive medical services. The reality is women who face difficult health care decisions do not do so lightly. Women in this nation have a right to self-determination. It is fundamental human right and one that should be cherished.

The most important right is the ability of each person to determine their destiny and this right has to be freely exercised. Healthcare has become a fundamental right for our nation’s citizens with the best possible outcomes for the millions of people who had no healthcare due to pre-existing illnesses or were penalized with higher premiums for pre-existing conditions.

Because of the Affordable Healthcare Act:
1. 100 million Americans no longer have a life-time limit on healthcare coverage.
2. 17 million children with pre-existing conditions can no longer be denied coverage by insurers.
3. 6.6 million young adults up to age 26 can stay on their parents’ health insurance plans.
4. 6.3 million Seniors in the “donut hole” have saved $6.1 billion on their prescription drugs.
5. 3.2 million Seniors have access to free annual wellness visits under Medicare, and
6. 360,000 Small Businesses are using the Health Care Tax Credit to help them provide health insurance to their workers.

Statistics on Texas and the Affordable Care Act reveal that:
1. 3.8 million Texas residents receive preventative care services.
2. 7 million Texans no longer have lifetime limits on their healthcare insurance.
3. 300,731 young adults can remain on their parent’s health insurance until age 26.
4. 4 million Texans residents can receive a rebate check from their insurance company if it does not spend 80 percent of premium dollars on healthcare.
5. 4,029 people with pre-existing conditions now have health insurance. This year for the first time insurance companies are banned from:
   1. discriminating against anyone with a pre-existing condition;
   2. charging higher rates based on gender or health status;
   3. enforcing lifetime dollar limits; and
   4. enforcing annual dollar limits on health benefits.

Few people knew that health insurers viewed pregnancy as a pre-existing condition. Because of the Affordable Care Act women can no longer be charged a higher rate just because they are women. Attempts to weaken or end the ACA are wrong.

A January 2015, Gallup poll revealed that nationally the uninsured rate in the United States was reduced to 12.9%.

The uninsured rate nationally dropped 4.2% since the enactment of the Affordable Care Act.

We are becoming a nation of equals when it comes to access to affordable healthcare insurance. I urge all Members to join me in voting to sustain President Obama’s veto of this latest Republican effort to turn the clock back on women’s rights and the healthcare safety-net that is assuring longer and healthier lives for millions of Americans.

The viable path consists of shelving disputes, integrated planning, and zonal development. The two essential elaborations are: First, all parties concerned in the region should be included in the consultation mechanism for this initiative so that they can engage in cooperation and negotiations on integrated planning for the South China Sea. Second, the cooperation and consultation mechanism proposed in this initiative should be a provisional arrangement of a practical nature, and should not undermine the position of any party concerned or jeopardize or hamper the reaching of the agreement on the South China Sea.

As a member of the Taiwan Congressional Caucus, I am glad to see that the national leader of Taiwan is willing to provide a peaceful approach to decrease the tension in this region.

IN RECOGNITION OF LIEUTENANT MATTHEW VANDERSLICE

HON. WILLIAM R. KEATING
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016
Mr. KEATING. Mr. Speaker, I rise today to recognize Lieutenant Vanderslice of the United States Coast Guard for his extraordinary actions on February 15, 2015.

Lieutenant Vanderslice, a native of Stonington, Connecticut, was accepted into the prestigious U.S. Coast Guard Academy, where he graduated with a Bachelor of Science in Operations Research and Computer Analysis. While at the Academy, he was known to be an avid member of the rowing team and served as the team captain his senior year.

Following commissioning, Lieutenant Vanderslice served as a Deck Watch Officer aboard the USCGC Hollyhock, a 225-foot ice breaking buoy tender home ported near Detroit, Michigan. During his two year tenure, he sailed all five Great Lakes before being accepted to the flight training program. Upon completion of helicopter pilot training, Lieutenant Vanderslice was stationed at Coast Guard Air Station Cape Cod Massachusetts for three years as a duty standing helicopter pilot. It was during this time, assigned as the co-pilot of the helicopter CGNR 6093, that Lieutenant Vanderslice, along with three other crewmembers, were tasked with responding to a distress signal picked up by the Coast Guard Rescue Coordination Center in Boston from the fishing vessel Sedona. The Sedona was stranded 200 nautical miles off the coast of Cape Cod.

Lieutenant Vanderslice and the aircraft commander, Lieutenant Hess, exhibited exceptional skill as they safely navigated through near-zero visibility, 55 knot winds, and relentless snow and sleet. Even when extreme weather conditions was in place the crew managed to locate the vessel by making precise fuel calculations. His calm and quick thinking was essential to successful mission completion. In addition to his calm yet quick thinking, he remained confident and focused, which was expected of the United States Coast Guard for his extraordinary actions on February 15, 2015.

Mr. Speaker, in my home state of Texas, a law that would have cut off access to 75 percent of reproductive healthcare clinics in the state was challenged before the U.S. Supreme Court in 2014 and 2015.

On October 2, 2014, the Supreme Court made unconstitutional a Texas law that required all abortion-inducing healthcare facilities that provided the full range of services would be required to have a hospital-style surgery center building and staffing requirements. This requirement meant only 7 clinics would be allowed to continue to provide a full spectrum of reproductive health care to women.

In 2015, the State of Texas once again threatened women’s access to reproductive health care when it attempted to shutter all but 10 healthcare providers in the state of Texas. The Supreme Court once again intervened on behalf of Texas women to block the move to close clinics in my state.

New attacks on women are now being couched with renewed attacks against the Affordable Care Act, which the majority has attempted to overturn with over 50 votes since its enactment. The attacks against Planned Parenthood is a social and economic statement that if you are a woman with money you have the right to think for yourself regarding your healthcare choices, but if you are poor or lack healthcare options you do not have that same right. Millions of women now have free coverage for comprehensive women’s preventive medical services. The reality is women who face difficult health care decisions do not do so lightly. Women in this nation have a right to self-determination. It is fundamental human right and one that should be cherished.

The most important right is the ability of each person to determine their destiny and this right has to be freely exercised. Healthcare has become a fundamental right for our nation’s citizens with the best possible outcomes for the millions of people who had no healthcare due to pre-existing illnesses or were penalized with higher premiums for pre-existing conditions.

Because of the Affordable Healthcare Act:
1. 100 million Americans no longer have a life-time limit on healthcare coverage.
2. 17 million children with pre-existing conditions can no longer be denied coverage by insurers.
3. 6.6 million young adults up to age 26 can stay on their parents’ health insurance plans.
4. 6.3 million Seniors in the “donut hole” have saved $6.1 billion on their prescription drugs.
5. 3.2 million Seniors have access to free annual wellness visits under Medicare, and
6. 360,000 Small Businesses are using the Health Care Tax Credit to help them provide health insurance to their workers.

Statistics on Texas and the Affordable Care Act reveal that:
1. 3.8 million Texas residents receive preventative care services.
2. 7 million Texans no longer have lifetime limits on their healthcare insurance.
3. 300,731 young adults can remain on their parent’s health insurance until age 26.
4. 4 million Texans residents can receive a rebate check from their insurance company if it does not spend 80 percent of premium dollars on healthcare.
5. 4,029 people with pre-existing conditions now have health insurance. This year for the first time insurance companies are banned from:
   1. discriminating against anyone with a pre-existing condition;
   2. charging higher rates based on gender or health status;
   3. enforcing lifetime dollar limits; and
   4. enforcing annual dollar limits on health benefits.

Few people knew that health insurers viewed pregnancy as a pre-existing condition. Because of the Affordable Care Act women can no longer be charged a higher rate just because they are women. Attempts to weaken or end the ACA are wrong.

A January 2015, Gallup poll revealed that nationally the uninsured rate in the United States was reduced to 12.9%.

The uninsured rate nationally dropped 4.2% since the enactment of the Affordable Care Act.

We are becoming a nation of equals when it comes to access to affordable healthcare insurance. I urge all Members to join me in voting to sustain President Obama’s veto of this latest Republican effort to turn the clock back on women’s rights and the healthcare safety-net that is assuring longer and healthier lives for millions of Americans.

SUPPORTING PRESIDENT MA OF TAIWAN AND THE PROPOSED SOUTH CHINA SEA PEACE INITIATIVE ROAD MAP

HON. BLAKE FARENTHOLD
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016
Mr. FARENTHOLD. Mr. Speaker, on January 28, President Ma Ying-jeou of the Republic of China (Taiwan) visited Taiping Island in the Nansha Islands ahead of the Lunar New Year to see the guards and medical staff stationed there. He unveiled “the South China Sea Peace Initiative Road Map” which could be applied as a reference to the parties concerned in the region. The content of the South China Sea Peace Initiative Road Map is stated as below:
1. “Yes” to cooperation, “no” to confrontation: A cooperation and development mechanism that contributes to peace and prosperity in the South China Sea should first be established, and sovereignty disputes should be set aside for future resolution through peaceful means.
2. “Yes” to sharing, “no” to monopolizing: A cooperation and development mechanism should ensure equal participation and resource sharing among all parties concerned in the region in order to avoid undermining the rights and interests of any party.
3. “Yes” to pragmatism, “no” to intransigence: The initial focus should be on aspects which are beneficial to all parties concerned and on which consensus can be easily achieved; various cooperation items should be successively and gradually promoted so as to avoid missing out on cooperation opportunities as a result of any party insisting on its position.
clear of the Sedona as it was tossed about in the violent seas, and carefully manage fuel burn rates—giving Lieutenant Hess the ability to focus all of his attention on keeping the aircraft in a safe hoisting position. As CGNR 6033 returned to base, Lieutenant Vanderslice communicated with air traffic control and the operational commander to coordinate arrival procedures and initiate medical treatment for the survivors. Lieutenant Vanderslice maintained exceptional composure for the entirety of the mission.

Lieutenant Vanderslice has since received orders to Coast Guard Air Station Sitka, Alaska, where he continues to fly the MH-60T on various Coast Guard missions. Lieutenant Vanderslice is married to Stephanie, his wife of 3 years. In his spare time, he is a passionate guitar player and roasts the best coffee in Sitka.

Mr. Speaker, I am proud to rise in honor of Lieutenant Matthew Vanderslice, who perfectly exemplifies the highest standards of the United States Coast Guard. I ask my colleagues to join me in congratulating him on this well-deserved achievement.

Mr. Speaker, I urge my colleagues to join me in congratulating Brianna Duda on receiving the Citizen Scholar Award from Missouri State University.

Mr. Speaker, I rise today in recognition of Lieutenant John D. Hess of the United States Coast Guard and his extraordinary actions on February 15, 2015.

Lieutenant Hess, a native of Pittsburgh, Pennsylvania, enlisted in the U.S. Coast Guard after completing Coast Guard basic training in 1997. He went on to prove himself extremely capable on assignments aboard the USCGC Victorious and at Coast Guard Stations Ashtabula and Chatham. Upon receiving his commission in 2004, Lieutenant Hess attended Officer Candidate School (OCS) in New London, Connecticut, and went on to receive his wings of gold in 2006.

As an aviator, Lieutenant Hess's first assignment was as an M-60 Jayhawk pilot at Air Station Clearwater, Florida. There, he served as an Instructor Pilot and subsequently a Flight Examiner. He transferred to Air Station Cape Cod in Massachusetts where he served in the same role, as well as Aircraft Commander aboard CGNR 6033.

It was during this time, on February 15, 2015, that Lieutenant Hess—along with the other three crewmembers aboard CGNR 6033—responded to a distress signal picked up by the Coast Guard Rescue Coordination Center in Boston from the fishing vessel Sedona, which was floundering two hundred nautical miles off the coast of Cape Cod.

Lieutenant Hess and his copilot, Lieutenant Matthew Vanderslice, showed exemplary aeronautical skill as they navigated through extreme conditions, facing no overhead cover through ice, lightning, and unrelenting snow squalls, all of which resulted in very little visibility. After finding the Sedona, he directed the survivors to abandon ship and swim toward the awaiting rescue swimmer, Petty Officer Staph. Upon failure of the primary hoist system, he expertly maneuvered the aircraft to coordinate with Petty Officer Suba, the onboard flight mechanic, to successfully lift Petty Officer Staph and the survivors out of the frigid, stormy seas. He then safely brought everyone back to the airfield, landing the aircraft despite whiteout conditions and extremely low
visually, Lieutenant Hess’ extraordinary skill and quick thinking under desperate conditions were instrumental in saving lives.

Today, Lieutenant Hess continues to serve in the Coast Guard at Air Station Kodiak, Alaska as a MH-60 Jayhawk Aircraft Commander. His wife, Kimberly, is also a Coast Guard pilot, and they have one daughter.

Mr. Speaker, I am proud to rise in honor of Lieutenant John Hess, who perfectly exemplifies the highest standards of the United States Coast Guard. I ask my colleagues to join me in recognizing this distinguished member of our Armed Services and wishing him the best of luck in his future endeavors.

IN RECOGNITION OF STAN MORTON UPON RECEIVING THE DR. BETTYE MYERS HUMANITARIAN AWARD

HON. MICHAEL C. BURGESS OF TEXAS IN THE HOUSE OF REPRESENTATIVES Wednesday, February 3, 2016

Mr. BURGESS. Mr. Speaker, I rise today to recognize and congratulate Stan Morton on receiving the United Way Dr. Bettye Myers Humanitarian Award for his service to the local community.

Prior to his retirement last month, Stan Morton served as the President of Texas Health Presbyterian Hospital, Denton since March 2003. His impact in the community rivals his accomplishments as the leader of the hospital. Stan served on the board of directors for United Way of Denton County for nine years, is a past board chair and, upon completing his service on the board, was honored with the distinction of Lifetime Member.

In addition to serving as United Way of Denton County’s board chair, Stan also served as the 2006 Campaign Chair. Under Stan’s leadership, the organization reached the $2 million fundraising threshold for the first time in the organization’s history.

While serving on the Health Services of North Texas Board of Directors, Stan was instrumental in positioning them to successfully apply for Federally Qualified Health Center designation.

Recipients of this prestigious Dr. Bettye Myers Humanitarian Award are dedicated to helping others and promoting human welfare and have shown active engagement in the community. I would like to congratulate Stan Morton who is well deserving of this award and thank him for his tireless service to our community.

PASTOR IRENE STAGGERS HARRIS

HON. CARLOS CURBELO OF FLORIDA IN THE HOUSE OF REPRESENTATIVES Wednesday, February 3, 2016

Mr. CURBELO of Florida. Mr. Speaker, I rise today to recognize Pastor Irene Staggers Harris. Pastor Irene Staggers Harris was canonized a Bishop in December of 2013 and has been selected as the first woman president of the South East Dade Ministerial Alliance.

God placed Bishop Harris in a position to make a difference in her family, her church, and in the community-at-large. After receiving her education in Miami-Dade County Public Schools and graduating from the South Dade Senior High School, she sought higher education and attended the Miami Dade Community College. Following her academic endeavors, Bishop Harris was employed at the Turkey Point Nuclear Plant for numerous years before hearing the call from God to embrace full-time ministry in the Lord’s Church.

After being licensed and ordained an Elder by the House of God Saints in Christ, Inc., Bishop Harris led the congregation of the Greater St. Matthews Holiness Church where she extended the church name to include and embrace the “Temple of Love.” In October of 1997, Bishop Harris became the Shepherd of Greater St. Matthews Holiness Church and communicated to her congregation a message of dependence on the Word of the Lord.

Bishop Irene Staggers Harris has dedicated her life to the Call of God. Her invaluable contributions to the Miami-Dade community serve as the embodiment of her selflessness. I commend Bishop Harris for her unyielding commitment to the work of God and love for all people. She will undoubtedly continue to serve admirably as the president of the South East Dade Ministerial Alliance.

RECOGNIZING JIM HARRIGER FOR HIS LEADERSHIP OF THE VICTORY MISSION OF SPRINGFIELD, MO

HON. BILLY LONG OF MISSOURI IN THE HOUSE OF REPRESENTATIVES Wednesday, February 3, 2016

Mr. LONG. Mr. Speaker, I rise today to thank Jim Harriger for his role in leading the Victory Mission of Springfield, Missouri, for the last 23 years.

The Victory Mission is a non-denominational ministry which offers educational and emergency services to the community of Springfield. The ministry offers rehabilitative and conciliatory services, as well as providing food and education for those struggling with financial turmoil. It is a certified member of the national Association of Gospel Rescue Missions and has been a pillar of the Springfield community since its founding in 1976.

Under Harriger’s leadership, the Victory Mission has expanded and improved in significant ways. He was instrumental in the establishment of the Victory Trade School, which has helped countless citizens on their way to obtaining a productive career. The Mission has also drastically expanded their ability to help the needy in Springfield, feeding thousands of hungry people and offering a safe and supportive environment for those who needed help in their daily lives.

Jim retired from his position as Executive Director of the Victory Mission after a 23-year career. Far from being the type of man to sit idly in retirement, Jim believes that his next step in life will be just as exciting as his time with the Victory Mission, and will likely involve helping others improve their lives.

Mr. Speaker, Jim Harriger is not only a dedicated member of the Springfield community, but an embodiment of the ideals that we hold dear in Missouri. He has demonstrated compassion, a commitment to helping his fellow man and has gone above and beyond to lead the Victory Mission in their admirable goals. I urge my fellow colleagues to join me in appreciation for his accomplishments.

HONORING THE VETERANS OF FOREIGN WARS WILLIE BARRAZA POST 9173

HON. BETO O’ROURKE OF TEXAS IN THE HOUSE OF REPRESENTATIVES Wednesday, February 3, 2016

Mr. O’ROURKE. Mr. Speaker, I rise today in honor and recognition of the Veterans of Foreign Wars Willie Barraza Post 9173 in my district of El Paso, Texas. The Post was founded in 1949 and is named after Mr. Willie Barraza, an Army Sergeant from an area in El Paso known as Smeltiertown who went Missing in Action during World War II. Smeltiertown is tied to El Paso as a historical location where workers of the American Smelting and Refining Company (ASARCO) resided and from where many of these workers decided to serve our country during WWII. The Willie Barraza Post is an important veteran service organization that has a longstanding tradition of aiding veterans, their families and the El Paso community.

The Willie Barraza Post is a leader among El Paso’s veteran service organization community, with 300 members dedicated to serving Veterans, Active Duty, Reservists and their families as well as others in my district. The Post has helped fund and organize the VFW Voice of Democracy essay contest in the El Paso region, providing scholarships for students and a chance for these students to compete and showcase their writing talents at the state and national levels.

The Willie Barraza Post also works to ensure that Service Members at Fort Bliss are supported. Recently, the Post adopted a regiment from Fort Bliss and corresponded with these Soldiers while they were stationed in Afghanistan. Members also honor Active Duty Service Members with welcome back and farewell picnics.

I am proud to know that great veteran service organizations such as Veterans of Foreign Wars Willie Barraza Post 9173 are present in my district. The Post strives year-after-year to honor veterans, care for America’s Service Members and their families at Fort Bliss and support our community, and for that I thank them.

IN RECOGNITION OF THOMAS P. RUFER UPON HIS RETIREMENT FROM THE UNIVERSITY OF NORTH TEXAS

HON. MICHAEL C. BURGESS OF TEXAS IN THE HOUSE OF REPRESENTATIVES Wednesday, February 3, 2016

Mr. BURGESS. Mr. Speaker, I rise today to recognize and thank Thomas P. Ruffer for his service at the University of North Texas since his arrival in August of 2006. Retiring as Associate Vice President of Auxiliary Services, Tom, as he is known on campus, has been responsible for the leadership and management
of seven auxiliary service operations on UNT’s Denton Campus. In this role, he oversaw the operations of Student Housing and Residence Life, the University Union, Summer Conferences, Campus Vending Services. Tom also served as the contract administrator for the UNT Bookstore and Food Services, the Gateway Center and Coliseum. It is in the Gateway Center and Coliseum where I have experienced first-hand the quality and service UNT students and staff provide under his capable direction.

Prior to arriving in Denton, Tom worked in the hospitality and higher education industries for over 25 years, which proved to be excellent preparation for effectively managing all aspects of his position with UNT overseeing a breadth and variety of services necessary on a campus with over 37,000 students. Serving during a time of continued growth, Tom’s efforts in expanding operations have allowed him to leave an indelible mark on the campus in the day-to-day operations management of food and facilities, but also in the campus facilities with the construction of Rawlins Hall and the opening of the new $137 million Student Union Building—the largest construction project in the university’s 125 year history.

Due to Tom’s professionalism and commitment to service, the students and the greater Denton Community have reaped the benefits of the efficiency and discipline he has brought to the campus. As chair of the 26th Congressional District, I also thank him for his service years to our nation in the Air Force and wish him the best in his well-earned retirement.

JOHN AND PATRICIA MANSON’S 50TH WEDDING ANNIVERSARY

HON. THOMAS J. ROONEY
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. ROONEY of Florida. Mr. Speaker, I would like to wish John and Patricia Manson of Sun City Center, in the 17th District of Florida, a happy 50th wedding anniversary.

On January 29, 2016, John and Patricia celebrated their golden anniversary. Fifty years together is a remarkable accomplishment and a testament to the love and devotion John and Patricia share. Nothing attests to their love better than the lives of their six children and eleven grandchildren.

John and Patricia also share a long history of service. John spent his career as an agent for the Bureau of Alcohol, Tobacco, Firearms and Explosives and came out of retirement to serve in every role possible from Den Lead- Troop Committee Chairman. In retirement they have continued their volunteer work in the Sun City Center area with their local Catholic church as leaders in St. Vincent de Paul, serving the poor and vulnerable in the surrounding areas. In addition to their work with the Catholic Church, they also volunteer with the Florida Guardian Ad Litem program serving as court-appointed advocates for vulnerable children appearing in Florida’s dependency courts.

Patricia and John insisted their commitment to serving in the children, four of which served in the United States Marine Corps—where all but one Manson Marine saw combat in either Afghanistan or Iraq.

It is with deep respect that I commend John and Patricia for their dedication to one another as well as their nation and community. It is an honor to represent them in Congress, and to be a part of this celebration. I join their chil- dren John, Christopher, Patrick, Andrew, Peter and Sarah in wishing them a very happy 50th wedding anniversary and many blessings in the years ahead.

ANNUVERARY OF THE BATTLE FOR HILL 64

HON. E. SCOTT RIGELL
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. RIGELL. Mr. Speaker, I rise today on behalf of the family of the late Corporal Jerry Clark Burkhead, to commemorate the brave sacrifice of Corporal Burkhead and his fellow Marines who were lost in the Battle for Hill 64 on February 8, 1968 during the Vietnam War. His family asked me to submit the following remarks:

Corporal (CPL) Jerry Clark Burkhead, United States Marine Corps, will forever be remembered by family and friends for his caring heart, unwavering loyalty, mischievous nature, and wry sense of humor. Those who knew Jerry well lived fuller lives because of his presence in theirs. Jerry was born in Justisville, Virginia. Jerry is the youngest son of Mr. and Mrs. J. J. Burkhead and brother to Maxine Cherrix (Esley), Colleen Walker (Brice), Janet Williams (Alton), Shirley Johnson (Aaron), Vir- ginia Burkhead, Judi Zimmerman (Doug), Edwy Burkhead (Karen), Linda Pat), Joe (Shirley), and John Daniel (JD). Jerry’s large family was the center of his life and the source of his strong character and values. He was a 1966 graduate of Parksville High School and a member of Zion Baptist Church. He united the United States Marine Corps and deployed from Camp Pendleton, California to the Republic of Vietnam (ROV) in November 1967. On February 8, 1968, during the Tet Of- fensive by the North Vietnamese Army, Jerry was killed in action in Quang Tri, South Viet- nam—officially the Republic of Vietnam (1955- to 1975). This is the story of Corporal Jerry Burkhead and the brave Marines who fought for Hill 64 during the Vietnam War.

CPL Jerry Burkhead was an M-60 Machine-Gun Squad Leader in Weapons Platoon rein- forcing 1st Rifle Platoon of Alpha Company 1st Battalion, 9th Marine Regiment (A CO 1/ 9) in I Corps, the ROV. The 1/9, the “Walking Dead”, were rapidly moved from Camp Evans and flown in by helicopter to the Khe Sanh Combat Base (KSCB) on January 22, 1968. Their mission was to protect the southern pe- rimeter of the 26th Marines (reinforced) at the KSCB.

The 1st Platoon of A CO 1/9 (reinforced) was assigned a forward defensive position called the Alpha-1 outpost. The Alpha-1 out- post was a small hill named Hill 64 because of the 62 Marines, including Jerry, and two Navy Corpsmen, who were dug in at a defen- sive position. Hill 64 was 60 meters long, 40 meters wide, and 20 meters in height. In other words, Hill 64 was shaped like a football with a perimeter of concertina wire, tangle-foot- single strand barbed wire, and Claymore mines connected by integrated and concentric trenches with bunkers throughout, dug deep and lined with sand bags. The Hill 64 Marines defended and fortified their position for two weeks while the North Vietnamese Army (NVA) was frequently trying to kill them with artillery and sniper rounds. Somehow, these Marines sur- vived with minimum water, food, sleep, and were exposed to the elements while sur- rounded by tens of thousands of NVA assault troops. Hill 64, manned by 64 young and brave Americans, was detached from any friendly forces, due to its location 600 meters west of the 1/9 Command Post Perimeter and a hand combat. The 1st Platoon (reinforced) of A CO 1/9 Marines held against a numerically superior NVA force on Hill 64.

From the USMC, 1/9 perimeter, Alpha Com- pany Commander Captain “Mac” Radcliffe brought twenty volunteers of the 325C NVA Division against the “Walking Dead” platoon.

The overwhelming attack by the NVA on the waiting 1st Platoon (reinforced) of A CO 1/9 Marines on Hill 64 is an example of some of the most brutal combat of the Vietnam War. These tenacious foes were locked in savage trench warfare, and often engaged in hand-to-hand combat. The 1st Platoon (reinforced) of A CO 1/9 Marines held against a numerically superior NVA force on Hill 64.

The USMC, 1/9 perimeter, Alpha Com- pany Commander Captain “Mac” Radcliffe brought twenty volunteers of the 325C NVA Division against the “Walking Dead” platoon.

Captain “Mac” Radcliffe of the 1st Platoon of A CO 1/9 Marines described the battle on Hill 64 as follows: “There is a price for freedom, it is called obedience. Obe- dience to country, to the call it places upon its citizens. The men in this story paid that price, some with their very lives. We honor them with the memory of their sacrifice. May it never be for- gotten.”
PERSONAL EXPLANATION

HON. LUIS V. GUTIÉRREZ
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. GUTIÉRREZ. Mr. Speaker, I was unavoidably absent in the House Chamber for roll call vote 50 on Tuesday, February 2, 2016. Had I been present, I would have voted "nay."

CONGRATULATING CAITLIN KEMP-SHUKWIT ON RECEIVING THE CITIZEN SCHOLAR AWARD FROM MISSOURI STATE UNIVERSITY

HON. BILLY LONG
OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. LONG. Mr. Speaker, I rise today to recognize and congratulate Caitlin Kemp-Shukwit, an outstanding student at Missouri State University, on her selection to receive the Citizen Scholar Award.

Each year, this prestigious award is given by Missouri State University’s Board of Governors to students who have contributed to the university, furthered the university’s public affairs mission, and have been significantly engaged in extra-curricular accomplishments and/or in important service activities in the community. Since the award was created in 2007, only forty-seven students have been recognized for their stellar achievements.

Caitlin, from St. Louis, Missouri, is one of only six students to receive the Citizen Scholar award this year. She is a senior majoring in both Dance Performance and Public Relations at Missouri State University. She hopes to travel the world and explore different cultures after graduation, which is emblematic of her drive for cultural enrichment and appreciation. Her professors praise her exemplary leadership skills, which she uses to benefit both the college and local communities.

Mr. Speaker, Caitlin Kemp-Shukwit’s accomplishments have set a great example of what a Citizen Scholar should be, this award represents a great deal of her hard work and dedication. I am proud to represent students like her and I urge my colleagues to join me in congratulating her on this well-deserved achievement.

COMMEMORATING JULIE BAKER DOBSKI, RECIPIENT OF ILLINOIS STATE UNIVERSITY FOUNDERS DAY HONORARY DEGREE

HON. DARIN LaHOOD
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. LAHOOD. Mr. Speaker, I would like to honor Julie Baker Dobski, the 2016 Honorary Degree Recipient of Illinois State University Founders Day.

Julie Baker Dobski, a citizen of Bloomington-Normal since 1988, is a successful business person and philanthropist who serves her fellow citizens in more ways than one. In 1982, she and her husband, Bob, opened their first McDonald’s in Farmington, Missouri and has since expanded their franchise to serve Big Macs and Happy Meals in Bloomington, Normal, McLean and Gibson City. However, she soon realized that local boys and girls were hungry for something greater such as knowledge. In 2004, Julie fulfilled those needs by opening her first of three Little Jewels Learning Centers. These centers provide family-oriented child care with a variety of programs and activities that engage the children and prepare them for school in a safe, loving, and nurturing environment.

Julie continued her service and devotion in the community by serving on various executive boards such as the McLean County Chamber of Commerce, American Red Cross, United Way as well as many others. She currently serves on the Baby Fold, BN Advantage Leadership Council, and the Illinois State University College of Business Advisory Board.

In addition, her great leadership does not go unrecognized as she was awarded with the McDonald’s People Award and the McDonald’s Ronald Award twice. Under her tenure as president of the Bloomington-Normal Sunrise Rotary, her club was named the Club of the Year. Because of her values of leadership, hard work, and passion to help others, those around her also achieve success. In short, where ever she goes, success ultimately follows.

Again, I want to congratulate Julie Baker Dobski and her continued service to the 18th District.

CONGRATULATING WEST VALLEY HIGH SCHOOL STUDENTS WHO PARTICIPATED IN THE WE THE PEOPLE: THE CITIZEN AND THE CONSTITUTION PROGRAM

HON. DON YOUNG
OF ALASKA

IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. YOUNG of Alaska. Mr. Speaker, I would like to congratulate a group of outstanding students from West Valley High School in Fairbanks, Alaska who participated in the We the People: The Citizen and the Constitution program.

The We the People: The Citizen and the Constitution program, administered by the Center for Civic Education, complements regular school curricula by providing upper elementary, middle, and high school students...
with an innovative course of instruction on the history and principles of U.S. constitutional democracy. The We the People program’s culminating activity is a simulated Congressional hearing in which students evaluate and defend positions on relevant historical and contemporary issues. Constitutional experts from West Valley High School won the state competition in Alaska on December 2, 2015 and qualified for the We the People national finals competition held in Washington, D.C. The students from West Valley High School who qualified to compete at the national competition are:

I would like to recognize their teacher Amy Gallaway for her dedication and contributions as one of the top civics teachers in the country. I would also like to recognize Alaska’s We the People state coordinator, Maida Buckley, who has done such an outstanding job throughout the years organizing and directing the program for our state.

TRIBUTE TO DR. ARTHUR OBERMAYER

HON. JOSEPH P. KENNEDY III
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. KENNEDY. Mr. Speaker, I rise today in memory of a dear friend and mentor who passed away recently.

Dr. Arthur Obermayer was a talented entrepreneur, generous philanthropist, and a passionate advocate. He committed his life to making his community, our country and the world a better place.

Throughout his life, he showed how words like justice and opportunity were not just words, but principles to be pursued and, if necessary, fought for.

He was a man of many accomplishments, among them, advocating for federal investment in small businesses and focusing on and fostering research and development. In 1982, due in large part to the efforts of Dr. Obermayer the US Small Business Innovation Research grant was created with the support of my late uncle, Senator Ted Kennedy. In a true testament to this remarkable accomplishment, the Obermayer family was inducted into the Small Business Innovation Research Hall of Fame for their pioneering efforts in a White House ceremony last June.

Dr. Obermayer inspired many, and though our country has lost a champion his values and vision live on through all those he touched.

My thoughts and prayers are with the Obermayer Family during this difficult time. May his memory be a blessing for us all.

HON. BILLY LONG
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. LONG. Mr. Speaker, I rise today to honor Bill Barnett, for his service as County Commissioner to Christian County for more than twenty years.

After two decades, Bill has now decided to retire from this long held position. Bill began a career of outstanding service in 1994, and is now one of less than a handful of county employees who has more than twenty years of experience. His passion for his work stemmed from his passion for helping fellow residents.

During his time serving as Commissioner, Bill has contributed to his community in many ways and accomplished much, but none he is more proud of than the barn that was built for the county’s road crews, finally providing them with a central location to better serve the community. Over the years he handled adversity with disdain and dignity, balancing the community’s need for services and the community’s desire to maintain a low cost of living.

Bill saw taxes as a last resort, traditionally setting the property tax of his district at zero.

Mr. Speaker, Bill Barnett’s work as County Commissioner has set a great example of exceptional public service for the people of Christian County. I am proud to represent citizens like him and I urge my colleagues to join me in congratulating him on his well-deserved retirement from service.

HON. MIKE COFFMAN
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was $10,626,877,048,913.08.

Today, it is $19,975,719,827,131.21. We’ve added $9,349,942,778,218.13.11 to our debt in 6 years. This is over $7.5 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

PERSONAL EXPLANATION

HON. BILL HUIZENGA
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. HUIZENGA of Michigan. Mr. Speaker, I rise today regarding missed votes on Tuesday, February 2, 2016. Had I been present for roll call number 50, the Palazzo Amendment to H.R. 3700, I would have voted “yea.” Had I been present for roll call vote number 51, the Green Amendment to H.R. 3700, I would have voted “nay.”

RUSSIAN INCURSION OF TURKISH AIRSPACE

HON. EDDIE BERNICE JOHNSON
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today to call our attention to Russia’s unprovoked aggression against a friend and NATO ally of the United States.

As you may know, in recent months, the Republic of Turkey has reported several incidents of Russian incursion of Turkish airspace. As my colleagues will remember, in November 2015, the Turkish military was forced to shoot down a Russian warplane that entered its airspace. That action was condemned by the Russian Federation, but Turkish officials have repeatedly disclosed that they provided significant warnings to those pilots, as well as allowed ample time for a plane to correct its course. This shows the Russian incursion into Turkish airspace was no incursion.

This weekend, the Pentagon confirmed another such incident of a Russian fighter jet entering Turkish airspace without authorization. While this incident did not result in any violence or loss of life, it is disappointing to see continued disrespect from Russia towards the Turkish boundary. The Department of Defense released a statement calling on the Russians “to respect Turkish airspace and cease activities that risk further heightening instability in the region.”

Mr. Speaker, I applaud the Pentagon and the Obama Administration for standing with Turkey and the rest of our NATO allies in condemning Russia’s unprovoked aggression. The world is most stable when the United States acts in conjunction with its partners around the world in standing up to those who would do them harm. I urge the Administration to continue to stand strong with our friends in Turkey as well as with our NATO allies around the world in condemning this unprovoked encroachment and protecting allies’ borders.

CONGRATULATING MELANIE MORGAN ON RECEIVING THE CITIZEN SCHOLAR AWARD FROM MISSOURI

HON. BILLY LONG
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. LONG. Mr. Speaker, I rise today to recognize and congratulate Melanie Morgan, an outstanding student at Missouri State University, on her selection to receive the Citizen Scholar Award from Missouri.

Each year, this prestigious award is given by Missouri State University to students who have contributed to the university, furthered the university’s public affairs mission, and have been significantly engaged in extra-curricular accomplishments and in important service activities in the community. Since the award was created in 2007, only forty-seven students have been recognized for their stellar achievements.

Melanie, from Springfield, Missouri, was one of a handful of exceptional students to receive
the award this year. She is currently a senior dietetics major with minors in biomedical sciences and international nutrition. Melanie has been recognized for her dedication to help and serve the community, never focusing on herself and demonstrating a strong desire to help others.

Mr. Speaker, Melanie Morgan’s accomplishments have set a great example of what a Citizen Scholar should be. This award represents a great deal of her hard work and dedication. I am proud to represent students like her and I urge my colleagues to join me in congratulating her on this well-deserved achievement.

IN HONOR OF HUGH VICTOR BROWNE II

HON. DONALD NORCROSS
OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 3, 2016

Mr. NORCROSS. Mr. Speaker, I rise today to offer my sincere condolences and to honor the memory of Cpl. Hugh Victor Browne II for his achievements, contributions, and service to his community as a Marine, loving husband, father, grandfather, and great-grandfather.

A life-long Woodbury resident, Cpl. Browne graduated from Woodbury High School in June 1943 and was recruited into the Montford Point Marines, the military’s first all-black Marine unit. Among the first from New Jersey recruited as a black Marine, Cpl. Browne, along with other 20,000 black men, dealt with racism and segregation and ultimately helped to break the Marine color barrier in the midst of World War II.

In 1942, Cpl. Browne, along with his fellow servicemen in the Montford Point Marines, was awarded the Congressional Gold Medal, our nation’s highest civilian honor for distinguished achievement in the military.

Cpl. Browne, the only surviving sibling of six children born to Baptist minister Rev. Sylvanus and Lovie Browne, was predeceased by his wife, Erma, and son Hugh Victor Browne III. However, his legacy will continue to serve as an inspiration to millions of Americans through his surviving children, 12 grandchildren, and 6 great-grandchildren.

Mr. Speaker, Cpl. Hugh Victor Browne II was an extraordinary man and proud United States Marine. He and his fellow black servicemen fought not only our nation’s external enemies, but the scourge of racism and segregation and conquered them both. I join with my community and all of New Jersey in honoring the achievements and selfless service of this truly exceptional man.

IN APPRECIATION FOR THE LIFE, AND SERVICE OF ROGER HAGGINS

HON. JOHN CONYERS, JR.
OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 3, 2016

Mr. CONYERS. Mr. Speaker, today, I wish to ask my colleagues to join me in celebrating the esteemed life of Roger Haggins, a clerk for the House Office Buildings. A kind and generous man, Roger’s life was tragically cut short on January 8. For a dozen years Roger was our coworker in the halls of Congress. After graduating from high school as an honors student in 2003, he began working for the Architect of the Capitol as an elevator operator and continued to assist the Members and staff of this body admirably. This honorable young man was senselessly killed and was, as far too many of our citizens are, victimized by the epidemic of gun violence that infects the United States.

Roger was among the many whose exemplary work and commitment supporting the functioning of the House is rarely given its just appreciation and recognition. To his family, friends, and coworkers in this time of grief, I extend my heartfelt sympathy. In the words of President Lincoln, “I feel how weak and fruitless must be any word of mine which should attempt to beguile you from the grief of a loss so overwhelming. Roger will be missed.

TRIBUTE TO WILLIAM CLAYTON CALDWELL

HON. JOHN L. MICA
OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 3, 2016

Mr. MICA. Mr. Speaker, I rise to recognize both the life and humanitarian efforts of William C. Caldwell, III. He is the son of Bill and Marion Caldwell, scion of Wica Manufacturing. Mr. William Caldwell is a generous Christian of known faith and good deed and I take this opportunity to commend him for both.

William C. Caldwell, III, a lay expert on amateur and professional basketball, baseball, and football teams, and Duke University’s number one sports fan, grew up in Cocoa Beach, FL prior to graduating from Rollins College and, later, attending Duke Business School. A private investor, philanthropist, and internationally-respected numismatist, Bill Caldwell recently bequeathed a record gift to be divided equally between Rollins College in Winter Park, FL and Duke University’s Fuqua School of Business in Durham, NC.

Along with his gift he stated, “I want to shine a spotlight on these beloved, but demanding, institutions that I have been so proud to be a part of and to align this joyous announcement with the July 1, 2015 start date for incoming Rollins president, Grant Cornwell, who brings his international prominence as a liberal arts champion and scholar to the Winter Park, FL campus which also includes the highly-ranked Crummer Graduate School of Business.

Mr. Caldwell’s bequests are fixed portions of his estate and each beneficiary will eventually expect to receive a generous donation amounting to seven figures.

Fellow Rollins graduate, William M. Graves, Jr., who is an executor of Mr. Caldwell’s estate as well as his personal representative and spokesperson, explains why he was moved to assist his friend in giving back to institutions that played very significant roles in his life:

The reason I volunteered to help my best friend, Bill Caldwell, with all of this is that I’ve found him to be the most loving, caring, loyal, and generous individual imaginable. Now, Winter Park and Durham are finding out what I’ve known for more than 40 years. Bill Caldwell is an extremely humble, unsung hero who deserves to be widely-applauded for his selfless compassion and kind-hearted philanthropy. In addition to his bequests to Rollins College and Duke University, he is also championing with his philanthropy: The American Diabetes Association, The American Lung Association, The American Numismatic Association, and The Billy Graham Evangelistic Association.

Andrew Carnegie gave away most of his wealth. Warren Buffett has given away most of his wealth. You can add Bill Caldwell to the list. God Bless You, Bill Caldwell.

PASSING OF DOCTOR CYNTHIA GORALNIK

HON. DAVID SCHWEIKERT
OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 3, 2016

Mr. SCHWEIKERT. Mr. Speaker, on December 29th, 2015, Phoenix lost a dedicated doctor, beloved mother and friend. Dr. Cynthia Goralnik worked as a revered radiologist who served the community for many years. She was much loved by all who knew her, from the patients she cared for, her coworkers to whom she was an inspiration, her family, and her friends.

CONGRATULATING NADIA PSHONYAK ON RECEIVING THE CITIZEN SCHOLAR AWARD FROM MISSOURI STATE UNIVERSITY

HON. BILLY LONG
OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 3, 2016

Mr. LONG. Mr. Speaker, I rise today to recognize and congratulate Nadia Pshonyak, an outstanding student at Missouri State University, on her selection to receive the Citizen Scholar Award.

Each year, this prestigious award is given by Missouri State University’s Board of Governors to students who have contributed to the university, furthered the university’s public affairs mission, and have been significantly engaged in extra-curricular accomplishments and/or in important service activities in the community. Since the award was created in 2007, only forty-seven students have been recognized for their stellar achievements.

Nadia, from West Plains, Missouri, is one of only six students to receive the Citizen Scholar award this year. She has obtained her Associates degree from Missouri State University, and plans to enlist in the Peace Corps and to eventually obtain a Ph.D. in a related field. This is evidence of her passion to not only better herself, but also to better the situation of people worldwide.

Mr. Speaker, Nadia Pshonyak’s accomplishments have set a great example of what a Citizen Scholar should be, this award represents a great deal of her hard work and dedication. I am proud to represent students like her and I urge my colleagues to join me in congratulating her on this well-deserved achievement.
HON. MARK DeSALNIER
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. DeSALNIER. Mr. Speaker, I was unavoidably detained yesterday during the last series of votes. Had I been here, I would have voted in the following manner: Roll Call Vote No. 51, I would have voted "aye."

RECOGNIZING THE CAREER AND RETIREMENT OF MABEL MCCLANAHAN MURPHREE, DISTRICT DIRECTOR FOR THE FIRST CONGRESSIONAL DISTRICT OF MISSISSIPPI

HON. TRET KELLY
OF MISSISSIPPI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. KELLY of Mississippi. Mr. Speaker, today I rise to recognize the career and retirement of Mabel McClanahan Murphree, Ph.D., who has served as the District Director for the First Congressional District of Mississippi for the past five years. Not only has Dr. Murphree been an essential asset as District Director, but her involvement and active participation in the community is commendable and far-reaching.

Dr. Murphree, is a former director of the Appalachian Regional Commission Office for Mississippi and a former senior vice president of the CREATE Foundation. In addition, Dr. Murphree served as the first Director of the Mississippi Corridor Consortium, which is a partnership among East Mississippi Community College, Itawamba Community College, and Northeast Mississippi Community College. This partnership was formed to strengthen the institutions’ ability to provide services on a regional basis in the areas of workforce, community, and economic development as well as to increase the opportunities to leverage funding for regional initiatives at the local, state, and federal levels. Dr. Murphree has been involved in a variety of educational, economic development, community development, and telecommunication projects that range from designing teacher technology training programs to helping bring broadband access to Northeast Mississippi.

She holds a doctorate degree from Mississippi State University in education with an emphasis in technology and a minor in curriculum and instruction. She also holds degrees from Mississippi University for Women and the University of Mississippi, and has received post-graduate training from Harvard University. Dr. Murphree was honored in 2014 by being awarded the Distinguished Alumni Achievement Award by Mississippi University for Women.

Dr. Murphree serves or has served on the Boards of Directors for the Mississippi Economic Growth Alliance and Point of Presence (MEGAPOP), North Mississippi Medical Center, The Learning Skills Center, CATCH Kids, The Link Center, and the Community Development Foundation as well as the City of Tupelo’s Planning Committee. She is a past President of the Natchez Trace Parkway Association and a Life Member of the Tupelo Junior Auxiliary.

She was born and raised in Columbus, Mississippi. Presently she resides with her husband in Tupelo, Mississippi, where they are members of First United Methodist Church. They have two sons and three grandchildren.

The people of the First Congressional District of Mississippi were well served under Dr. Murphree’s leadership and her wisdom and positive attitude will be greatly missed. Her achievements will have a lasting impact on the First Congressional District and our state, and I know she will continue to accomplish great things for the state of Mississippi. I would like to thank Dr. Murphree for her years of dedication and service to the First Congressional District and our state, and wish her the best of luck in the next chapter of her life.

ST. PAUL MISSIONARY BAPTIST CHURCH

HON. CARLOS CURBELO
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. CURBELO of Florida. Mr. Speaker, I rise today to recognize St. Paul Missionary Baptist Church for its designation as the oldest African-American church in South Miami-Dade County. The church property was identified by the City of Homestead as a significant historic structure and I truly believe it warrants this recognition.

The first permanent church was built in 1911 by Linton Connors and the wooden frame building was given the name “Saint Paul Missionary Baptist Church”. Reverend W.M. Baker served as the first pastor of the church and during his tenure, the reverend organized their first choir and established the missionary society ‘Home Mission’ to aid those in need within the community. This Mission continues to be in existence to this day.

Since then, the Saint Paul Missionary Church has continued to give back to the community through its organization of programs that allow its faithful members to serve. I would like to express my gratitude to church leaders and congregations, past and present. You have all been essential in sustaining the fortitude of this truly historic place of worship. May God continue to bless you.

IN RECOGNITION OF CHRISTINA ANTON

HON. BARBARA COMSTOCK
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mrs. COMSTOCK. Mr. Speaker, I rise today to recognize Christina Anton, a student in my district who was chosen to receive a grant to do a community service project through GenerationOn and the National Rural Electric Cooperative Association. GenerationOn is a global youth service movement with the goal to empower youth to change the world around them through service to both their communities and countries abroad. GenerationOn is the culmination of a number of youth service organizations that was formed five years ago in 2010. The National Rural Electric Cooperative is very selective, choosing only one Youth Tour student from each state to receive a grant. Christina Anton is an exceptional student and strives to create a better world for herself and her peers through community service. Her community service project is one that is of great importance to Virginia’s 10th Congressional District, and concerns an issue I have been working on for a number of years, Lyme disease.

The town of Clifton has a beautiful park that gives the community access to a number of trails. The amount of ticks has grown quickly in recent years and has caused people to avoid the area. As a direct result of the increase in ticks, a campsite in the park has become overgrown. Christina aims to partner with my former colleague in the Virginia House of Delegates, Delegate Tim Hugo, Fairfax County Supervisor Pat Herrity, and the Clifton Betterment Association to assist with Lyme disease prevention and clean up the campsite. This is an admirable project that will greatly contribute to the prevention of Lyme disease, a terrible and debilitating disease that affects so many. I truly appreciate all that Christina is doing to help our community.

IN RECOGNITION OF OUR ALLY TURKEY

HON. PETE SESSIONS
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 3, 2016

Mr. SESSIONS. Mr. Speaker, I rise today in support of our allies in Turkey as they face encroachment on their territorial integrity and recovery from devastating terror attacks in Istanbul and cities across the country.

Turkey is a longstanding friend and ally of the United States. From the Cold War to the fight against international terror, we have stood together against challenges and threats. During the Cold War, Turkey held down NATO’s longest border with the Soviet Union. After the Soviet Union fell, greater threats such as terrorism, drug and human trafficking and extremism emerged. Again, Turkey remained on the front line of NATO, exposed to these threats.

The suicide attacks in Istanbul perpetrated by ISIS are yet another reminder of the dangers our allies face caused by the instability and uncertainty in the Middle East. Syria has become a breeding ground for terrorism and extremism, and is proof that inaction also carries a cost. The inability of the Administration to show leadership in the face of rising threats has caused the situation to spiral even further out of control.

Our ally Turkey has suffered from numerous acts of terrorism including suicide bombings in Suruc, Ankara, and others, which have cost thousands of lives. This situation cannot continue. The U.S. must show leadership.

These recent developments highlight the importance of Turkey as an ally and call for stronger U.S.-Turkish relations to help counter the threats faced by NATO and our allies.
Prioritizing 11 roads that were in most need of repair.

Randy Minchew, worked with the Virginia Department of Transportation to initiate a repair and restoration project on gravel roads, prioritizing 11 roads that were in most need of repair.

To protect and enhance the quality of life of her constituents, Supervisor Clarke took on another vexing problem. Many of the people she represented could not obtain adequate connectivity to the Internet. Collaborating with those who had an interest in improving the situation, she and Supervisor Higgins held a Broadband Summit at Woodgrove High School, that included a panel discussion consisting of members of the Loudoun County Communications Commission, Loudoun County Public Schools and other county experts and various improvements are taking place. While the broadband problem has not been fully solved, Supervisor Clarke and Supervisor Higgins are to be commended for initiating the Let’s Virginia for Association movement, that is gradually resulting in better educational opportunities for students, expanding economic opportunities for businesses and providing greater public safety for western Loudoun residents.

Shortly after taking office, Supervisor Clarke immersed herself in another complex problem affecting the quality of life of her constituents. Although Lyme Disease is generally under-reported, in 2011 alone, 261 cases of the disease from Loudoun County were reported to the Virginia Department of Health. Realizing that Loudoun was at the epicenter of this epidemic, and after months of gathering information and speaking with Lyme experts and citizens, then Vice Chairman Clarke, along with her colleagues Supervisors Higgins and Ken Reid, put forth a Resolution and Proclamation declaring 2012 as Lyme Disease Awareness Year, as well as a 10-Point Action Plan to Mitigate Lyme Disease in Loudoun County. One of the action plan items was the creation of the Loudoun Lyme Disease Commission which is made up of citizens and health care professionals with a strong interest in Lyme Disease prevention and education. The commission has been instrumental in implementing other provisions of the 10-point plan, including the development of educational materials for schools, information for the county website, and the launching of Lyme Education Forums throughout the county.

In August, 2013, the initiative of Supervisor Clarke and her two colleagues, entitled “Loudoun Targets Lyme,” was recognized by the Virginia Association of Counties as a model government program in the area of Health and Human Services. Janet Clarke was also a great champion of capital improvements for the people of her magisterial district. Her efforts included advancing the construction project for Loudoun Valley High School into the budget and onto the ballot for approval. She also secured funding to assist the town of Purcellville with improvements to Fireman’s Field and to design the Purcellville to Franklin Park trail. Supervisor Clarke also sponsored legislation to require the construction of the second entrance and exit to Woodgrove High School, the sidewalks in Middleburg and Purcellville, the hillsboro water improvement project, the Upper Loudoun Youth Football League facility, and lighted fields at Franklin Park.

Supervisor Clarke’s desire to protect and enhance the quality of life of the people she represented included standing with Delegate Randy Minchew and the Green Mill Preserve residents in stopping the expansion of the gas compression station and tirelessly working to gain the Red Hill water tower. These types of controversies often pitted one group of constituents against another, but Supervisor Clarke did not hesitate to take a stand and advocate for what she believed was in the best interests of her constituents.

At Thanksgiving in 2011, shortly after being elected to the office of County Supervisor, Janet Clarke wrote a message to her Blue Ridge District constituents promising three things: First, that she would work hard to preserve their community’s culture and heritage; second, that she would represent their diverse interests and needs with an open door policy; and third, that because our “children are watching,” she would attempt to do her work “in a respectful manner that they can be proud of as they grow.” Mr. Speaker, in my view, Janet Clarke managed to fulfill these promises with grace, courage and compassion and our children and grandchildren will be the ultimate beneficiaries.

After having given so much of herself to protect and preserve the quality of life of others, it is understandable that Janet Clarke has decided to focus on her own quality of life, by spending more time with family, church and her own health and well-being, not to mention the job that helps provide financial sustenance for her and her family. Whatever she does in the next chapter of her life, whether it is in the area of education, mental health or some other societal need, I know that Janet Clarke will approach it with total commitment and effort and will continue to leave a lasting positive influence on the lives she will touch.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, February 4, 2016 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED FEBRUARY 9

9:30 a.m.
Committee on Armed Services
To hold hearings to examine worldwide threats.
SD-405

10 a.m.
Committee on Health, Education, Labor, and Pensions
Business meeting to consider S. 8, 2030, to allow the sponsor of an application for the approval of a targeted drug to rely upon data and information with respect to such sponsor’s previously approved targeted drug, to amend the Federal Food, Drug, and Cosmetic Act with respect to devices,

SD–366

MARCH 8
10 a.m.
Committee on Energy and Natural Resources
To hold hearings to examine the President’s proposed budget request for fiscal year 2017 for the Forest Service.

SD–366
Chamber Action

Measures Introduced: Twelve bills and five resolutions were introduced, as follows: S. 2485–2496, and S. Res. 357–361.

Measures Reported:

S. 553, to marshal resources to undertake a concerted, transformative effort that seeks to bring an end to modern slavery, with an amendment in the nature of a substitute.

S. 2040, to deter terrorism, provide justice for victims, with an amendment in the nature of a substitute.

Measures Passed:

United States-Jordan Defense Cooperation Act: Committee on Foreign Relations was discharged from further consideration of H.R. 907, to improve defense cooperation between the United States and the Hashemite Kingdom of Jordan, and the bill was then passed, after agreeing to the following amendment proposed thereto:

McConnell (for Rubio/Cardin) Amendment No. 3278, in the nature of a substitute.

Catholic Schools Week: Senate agreed to S. Res. 357, recognizing the goals of Catholic Schools Week and honoring the valuable contributions of Catholic schools in the United States.

National School Counseling Week: Senate agreed to S. Res. 358, designating February 1 through 5, 2016, as “National School Counseling Week”.

Customs and Border Protection Air and Marine Operations 10th Anniversary: Senate agreed to S. Res. 359, celebrating the 10th anniversary of the unification of the air and marine assets of U.S. Customs and Border Protection to establish the Air and Marine Operations of U.S. Customs and Border Protection.

National Association of State Departments of Agriculture 100th Anniversary: Senate agreed to S. Res. 360, congratulating the National Association of State Departments of Agriculture on the celebration of its 100th anniversary.

READ Act: Committee on Health, Education, Labor, and Pensions was discharged from further consideration of H.R. 3033, to require the President’s annual budget request to Congress each year to include a line item for the Research in Disabilities Education program of the National Science Foundation and to require the National Science Foundation to conduct research on dyslexia, and the bill was then passed, after agreeing to the following amendment proposed thereto:

Murkowski (for Lee/Murray) Amendment No. 3279, to amend the National Science Foundation program on research on the science of dyslexia.

Measures Considered:

Energy Policy Modernization Act—Agreement: Senate continued consideration of S. 2012, to provide for the modernization of the energy policy of the United States, and taking action on the following amendments proposed thereto:

Pending:

Murkowski Amendment No. 2953, in the nature of a substitute.

Murkowski (for Cassidy/Markey) Amendment No. 2954 (to Amendment No. 2953), to provide for certain increases in, and limitations on, the drawdown and sales of the Strategic Petroleum Reserve.

Murkowski Amendment No. 2963 (to Amendment No. 2953), to modify a provision relating to bulk-power system reliability impact statements.

A unanimous-consent agreement was reached providing for further consideration of the bill at approximately 10 a.m., on Thursday, February 4, 2016, and that the time until 11 a.m. be equally divided between the two managers, or their designees.

North Korea Sanctions Enforcement Act—Agreement: A unanimous-consent-time agreement
was reached providing that following morning business on Wednesday, February 10, 2016, Senate begin consideration of H.R. 757, to improve the enforcement of sanctions against the Government of North Korea, that there be up to seven hours of debate, equally divided in the usual form; that following the use or yielding back of that time, the committee reported amendment be agreed to; and Senate vote on passage of the bill, with no intervening action or debate.

Message from the President: Senate received the following message from the President of the United States:

Transmitting, pursuant to law, a report on the continuation of the national emergency that was declared in Executive Order 13396 on February 7, 2006, with respect to the situation in or in relation to Cote d’Ivoire; which was referred to the Committee on Banking, Housing, and Urban Affairs. (PM—40)

Committee Meetings

(Committees not listed did not meet)

U.S. DEFENSE POLICY IN ASIA AND THE PACIFIC

Committee on Indian Affairs: Committee concluded an oversight hearing to examine the substandard quality of Indian health care in the Great Plains, after receiving testimony from former Senator Byron L. Dorgan, The Aspen Institute Center for Native American Youth; Mary Wakefield, Acting Deputy Secretary, Andy Slavitt, Acting Administrator, and Thomas Hamilton, Director, Survey and Certification Group, Center for Clinical Standards and Quality, both of the Centers for Medicare and Medicaid Services, and Robert McSwain, Principal Deputy Director, Indian Health Service, all of the Department of Health and Human Services; Victoria Kitcheyan, Winnebago Tribe of Nebraska, Winnebago; Sonia Little Hawk-Weston, Oglala Sioux Tribe, Pine Ridge, South Dakota; William Bear Shield, Rosebud Sioux Tribe, Gregory, South Dakota; and L. Jace Killback, Northern Cheyenne Tribal Board of Health, Lame Deer, Montana.

TRANSPARENCY IN THE ASBESTOS TRUSTS

Committee on the Judiciary: Committee concluded a hearing to examine the need for transparency in the asbestos trusts, including S. 357, to amend title 11 of the United States Code to require the public disclosure by trusts established under section 524(g) of such title, of quarterly reports that contain detailed information regarding the receipt and disposition of claims for injuries based on exposure to asbestos, after receiving testimony from Peggy L. Ableman, McCarter and English LLP, Wilmington, Delaware; former Washington State Attorney General Robert M. McKenna, Orrick, Herrington and Sutcliffe LLP, Seattle; Mark Behrens, Shook, Hardy and Bacon L.L.P., Washington, D.C.; Elihu Inselbuch, Caplin and Drysdale, Chartered, New York, New York; and Susan Vento, St. Paul, Minnesota.

House of Representatives

Chamber Action

Public Bills and Resolutions Introduced: 19 public bills, H.R. 4441–4459; and 2 resolutions, H. Res. 600–601, were introduced. Pages H566–67

Additional Cosponsors: Pages H567–68

Reports Filed: There were no reports filed today.

Speaker: Read a letter from the Speaker wherein he appointed Representative Jolly to act as Speaker pro tempore for today. Page H499

Recess: The House recessed at 10:55 a.m. and reconvened at 12 noon. Page H505

Encouraging Employee Ownership Act: The House passed H.R. 1675, to direct the Securities and Exchange Commission to revise its rules so as to increase the threshold amount for requiring issuers to provide certain disclosures relating to compensatory benefit plans, by a yea-and-nay vote of 265 yeas to 159 nays, Roll No. 61. Pages H519–39

Rejected the Frankel (FL) motion to recommit the bill to the Committee on Financial Services with instructions to report the same back to the House forthwith with an amendment, by a recorded vote of 184 ayes to 241 noes, Roll No. 60. Pages H537–38

Pursuant to the Rule, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 114–43 shall be considered as an original bill for the purpose of amendment under the five-minute rule. Pages H526–28

Agreed to:

Huizenga (MI) amendment (No. 2 printed in part A of H. Rept. 114–414) that clarifies the disqualification from the exemption of any broker or associated person who is subject to suspension or revocation of registration, and the inapplicability of the exemption to any M&A transaction where one party or more is a shell company. Pages H529–30

Rejected:

Sherman amendment (No. 3 printed in part A of H. Rept. 114–414) that sought to provide exclusions
for when a mergers and acquisitions broker is not exempt from registration with the SEC;

DeSaulnier amendment (No. 1 printed in part A of H. Rept. 114–414) that sought to direct the SEC to study and report to Congress the prevalence of employee ownership plans within companies that include a flexible or social benefit component in their articles of incorporation, as allowed under relevant state laws (by a recorded vote of 180 ayes to 243 noes, Roll No. 57);

Issa amendment (No. 6 printed in part A of H. Rept. 114–414) that sought to limit all exemptions granted therein only to companies obligated to begin submitting financial disclosures to the Securities and Exchange Commission after the date of enactment (by a recorded vote of 194 ayes to 221 noes, Roll No. 58); and

Carolyn B. Maloney (NY) amendment (No. 7 printed in part A of H. Rept. 114–414) that sought to repeal the Small Company Disclosure Act (H.R. 1965) in its entirety from the bill thus preserving the SEC requirement that public companies report their information related to corporate financial performance as searchable data (by a recorded vote of 173 ayes to 248 noes, Roll No. 59).

H. Res. 595, the rule providing for consideration of the bills (H.R. 1675) and (H.R. 766) was agreed to by a recorded vote of 242 ayes to 175 noes, Roll No. 56, after the previous question was ordered by a recorded vote of 240 ayes to 176 noes, Roll No. 55.

Establishing the Joint Congressional Committee on Inaugural Ceremonies: The House agreed to take from the Speaker's table and agree to S. Con. Res. 28, to establish the Joint Congressional Committee on Inaugural Ceremonies for the inauguration of the President-elect and Vice President-elect of the United States on January 20, 2017.

Authorizing the use of the rotunda and Emancipation Hall of the Capitol by the Joint Congressional Committee on Inaugural Ceremonies: The House agreed to take from the Speaker's table and agree to S. Con. Res. 29, to authorize the use of the rotunda and Emancipation Hall of the Capitol by the Joint Congressional Committee on Inaugural Ceremonies in connection with the proceedings and ceremonies conducted for the inauguration of the President-elect and the Vice President-elect of the United States.

Authorizing the use of Emancipation Hall in the Capitol Visitor Center for a ceremony to present the Congressional Gold Medal to the foot soldiers who participated in the 1965 Selma to Montgomery marches.

Meeting Hour: Agreed by unanimous consent that when the House adjourns today, it adjourn to meet at 10 a.m. tomorrow, February 4.

Presidential Message: Read a message from the President wherein he notified Congress that the national emergency declared in Executive Order 13396 of February 7, 2006 with respect to the situation in or in relation to Cote d'Ivoire is to continue in effect beyond February 7, 2016—referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 114–97).

Senate Message: Message received from the Senate by the Clerk and subsequently presented to the House today appears on page 509.

Senate Referral: S. 2306 was referred to the Committee on Energy and Commerce and the Committee on Transportation and Infrastructure.

Quorum Calls—Votes: One yea-and-nay vote and six recorded votes developed during the proceedings of today and appear on pages H517–18, H518, H535, H536, H536–37, H538, and H538–39. There were no quorum calls.

Adjournment: The House met at 10 a.m. and adjourned at 7:40 p.m.

Committee Meetings

INCENTIVE PROGRAMS AIMED AT INCREASING LOW-INCOME FAMILIES' PURCHASING POWER FOR FRUITS AND VEGETABLES

The Congressional Record (USPS 087-390). The Periodicals postage is paid at Washington, D.C. The public proceedings of each House of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United States Code, and published for each day that one or both houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed one time. Public access to the Congressional Record is available online through the U.S. Government Publishing Office, at www.fdsys.gov, free of charge to the user. The information is updated online each day the Congressional Record is published. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office, Phone 202-512-1800, or 866-512-1800 (toll-free). E-Mail, contactcenter@gpo.gov. To place an order for any of these products, visit the U.S. Government Online Bookstore at: bookstore.gpo.gov. Mail orders to: Superintendent of Documents, P.O. Box 979050, St. Louis, MO 63197-9000, or phone orders to 866-512-1800 (toll-free), 202-512-1800 (D.C. area), or fax to 202-512-2104. Remit check or money order, made payable to the Superintendent of Documents, or use VISA, MasterCard, Discover, American Express, or GPO Deposit Account. Following each session of Congress, the daily Congressional Record is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. With the exception of copyrighted articles, there are no restrictions on the republication of material from the Congressional Record.
POSTMASTER: Send address changes to the Superintendent of Documents, Congressional Record, U.S. Government Publishing Office, Washington, D.C. 20402, along with the entire mailing label from the last issue received.
