

INTRODUCTION OF THE PIPELINE  
INSPECTION ENFORCEMENT ACT  
OF 2016

**HON. JANICE HAHN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 25, 2016*

Ms. HAHN. Mr. Speaker, today, I am reintroducing the Pipeline Inspection Enforcement Act to prevent oil pipeline leaks like the one that greatly damaged the community of Wilmington, California in my district.

Los Angeles is home to one of the most vast pipeline networks in the United States. Both oil and gas pipelines connect the Port of Los Angeles and the Port of Long Beach with the refineries in the area. Therefore, pipeline safety is a very important topic for me and the communities which make up the neighborhoods surrounding the Port of Los Angeles—including Wilmington, a primarily working class community. I have represented Wilmington for over 10 years—first on the Los Angeles City Council, and now as a Member of Congress.

Since Wilmington sits on top of one of the largest oil fields in the nation and a complex system of pipelines, this community lives with a heightened threat of a pipeline leaking or exploding. This became an unfortunate reality for many residents of Wilmington two years ago when a pipeline ruptured, causing thousands of gallons of crude oil to spill onto a residential street wreaking havoc on the lives of families who live in the community.

When Phillips purchased the pipeline, they were told that it was empty. In 15 years, the pipeline was not inspected to ensure that it was true.

As a result, the people in Wilmington paid the price.

I remember racing over there the morning it happened and discovering that yards were destroyed and homes were damaged. The smell of oil made people sick. The residents had to deal with the noise of jackhammers tearing up streets to locate the leak. Some people could not leave their houses and get to work.

The legislation I am reintroducing today would have prevented the damage these families experienced by forcing companies like Phillips 66 to simply have firsthand knowledge of what their pipelines contain. My legislation will ensure that a company purchasing a pipeline does its due diligence and inspects the status of the pipelines they purchase within 180 days of the sale. This inspection needs to have third party verification by either PHMSA or a state authority.

It is neglectful not to inspect the pipelines. The oil spill endangered the health and safety of many of my constituents as well as property damage and costs to the local economy.

These basic improvements to federal policy would protect countless communities like Wilmington. I look forward to working with my colleagues in Congress to make this legislation law.

IN HONOR OF THE 100TH BIRTH-  
DAY OF SALLIE PAULINE  
NAUGHER PUTNAM

**HON. MIKE ROGERS**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 25, 2016*

Mr. ROGERS of Alabama. Mr. Speaker, I ask for the House's attention today to recognize the birthday of Sallie Pauline Naugher Putnam of Piedmont, Alabama. She will turn 100 on March 28th.

Pauline was born to Jennie Elizabeth Warren Naugher and William Morris Naugher. She had two brothers, both World War II Veterans, and one sister who married a World War II Veteran. She married Volyer C. Putnam (deceased), also a World War II Veteran, on March 2, 1940. She is the proud aunt of her nephew Michael Naugher and niece Susan Ponder.

Pauline attended school in Oxford, Alabama until 7th grade and then finished 8th–12th grades at Piedmont High School. She was Salutatorian in 1934. She attended a year and a half at Jacksonville State University.

After her time at JSU, she worked at Stand-ard Coosa Thatcher, a cotton mill in Piedmont. There she worked as a spinner, in the lab and in the payroll department before retiring.

She attends First Baptist Church of Piedmont where she has been a member since 1955.

In the fall, she cheers on the Piedmont Bulldogs and Alabama Crimson Tide. She still drives and goes to the beauty shop each week.

Mr. Speaker, please join me in recognizing the life and achievements of Sallie Pauline Naugher Putnam and wishing her a happy 100th birthday.

HONORING THE 168 INVENTORS IN-  
DUCTED AS THE 2015 FELLOWS  
OF THE NATIONAL ACADEMY OF  
INVENTORS

**HON. DAVID W. JOLLY**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 25, 2016*

Mr. JOLLY. Mr. Speaker, I rise today to honor the 168 inventors who will soon be recognized at the United States Patent and Trademark Office and inducted as the 2015 Fellows of the National Academy of Inventors (NAI) in an induction ceremony that will feature a keynote address by U.S. Commissioner for Patents Andrew Hirshfeld. In order to be named as a Fellow, these men and women were nominated by their peers and have undergone the scrutiny of the NAI Selection Committee, having had their innovations deemed as making significant impact on quality of life, economic development, and welfare of society. Collectively, this elite group holds nearly 5,400 patents.

The individuals making up this year's class of Fellows include individuals from 109 research universities and non-profit research institutes spanning the United States and the world. The now 582-member group of Fellows is composed of more than 80 presidents and senior leadership of research universities and

non-profit research institutes, 310 members of the other National Academies, 27 inductees of the National Inventors Hall of Fame, 36 recipients of the U.S. National Medal of Technology and Innovation and the U.S. National Medal of Science, 27 Nobel Laureates, 14 Lemelson-MIT prize recipients, and 170 AAAS Fellows, among other awards and distinctions.

The NAI was founded in 2010 by Paul R. Sanberg at the University of South Florida. Its mission is to recognize and encourage inventors with patents issued from the United States Patent and Trademark Office, enhance the visibility of academic technology and innovation, encourage the disclosure of intellectual property, educate and mentor innovative students, and translate the inventions of its members to benefit society.

We are greatly indebted to innovators such as these for contributions to society through their inventions. I commend these individuals, and the organizations that support them, for the work they do to revolutionize the world we live in. As the following inventors are inducted, may it encourage future generations to strive to meet this high honor and continue the spirit of discovery and innovation.

The 2015 NAI Fellows include; C. Mauli Agrawal, The University of Texas at San Antonio; Dean P. Alderucci, The University of Chicago; Jayakrishna Ambati, University of Kentucky; Iver E. Anderson, Iowa State University; Kristi S. Anseth, University of Colorado Boulder; Allen W. Applett, Oklahoma State University; Charles J. Arntzen, Arizona State University; Harry A. Atwater, Jr., California Institute of Technology; Lorne A. Babiuk, University of Alberta; John M. Ballato, Clemson University; John S. Baras, University of Maryland; Issa Batarseh, University of Central Florida; Ray H. Baughman, The University of Texas at Dallas; Angela M. Belcher, Massachusetts Institute of Technology; Stephen J. Benkovic, The Pennsylvania State University; Shekhar Bhansali, Florida International University; Sangeeta N. Bhatia, Massachusetts Institute of Technology; J. Douglas Birdwell, The University of Tennessee, Knoxville; Kenneth J. Blank, Rowan University; Dale L. Boger, The Scripps Research Institute.

Charles A. Bouman, Purdue University; John E. Bowers, University of California, Santa Barbara; Gary L. Bowlin, University of Memphis; C. Jeffrey Brinker, The University of New Mexico; Emery N. Brown, Massachusetts Institute of Technology; Milton L. Brown, Georgetown University; Richard B. Brown, The University of Utah; Steven R.J. Brueck, The University of New Mexico; Joe C. Campbell, University of Virginia; Selim A. Chacour, University of South Florida; Mau-Chung Frank Chang, National Chiao Tung University; Shu Chien, University of California, San Diego; Mary-Dell Chilton, Washington University in St. Louis; Diana S. Chow, University of Houston; Chung K. Chu, University of Georgia; Yoginder P. Chugh, Southern Illinois University; William J. Clancey, Institute for Human and Machine Cognition; Katrina Cornish, The Ohio State University; Delos M. Cosgrove III, Cleveland Clinic; Alan W. Cramb, Illinois Institute of Technology.

Benjamin F. Cravatt III, The Scripps Research Institute; Roy Curtiss III, University of Florida; P. Daniel Dapkus, University of Southern California; John G. Daugman, University of Cambridge; Mark E. Davis, California Institute of Technology; Robert C. Dean, Jr., Dartmouth

College; Atam P. Dhawan, New Jersey Institute of Technology; Duane B. Dimos, The University of Texas at Arlington; David M. Eddy, University of South Florida; Nader Engheta, University of Pennsylvania; Antonio Facchetti, Northwestern University; Rudolf Faust, University of Massachusetts Lowell; Robert E. Fischell, University of Maryland; Christodoulos A. Floudas, Texas A&M University; Gabor Forgacs, University of Missouri; Scott E. Fraser, University of Southern California; Jean M.J. Fréchet, King Abdullah University of Science and Technology; Richard H. Frenkiel, Rutgers, The State University of New Jersey; Sanjiv S. Gambhir, Stanford University; Shubhra Gangopadhyay, University of Missouri; Sir Andre K. Geim, The University of Manchester; George Georgiou, The University of Texas at Austin.

John C. Gore, Vanderbilt University; Venu Govindaraju, University at Buffalo, The State University of New York; Ali Hajimiri, California Institute of Technology; Naomi J. Halas, Rice University; Andrew D. Hamilton, New York University; Wayne W. Hanna, University of Georgia; Florence P. Haseltine, National Institutes of Health; Charlotte A.E. Hauser, King Abdullah University of Science and Technology; Craig J. Hawker, University of California, Santa Barbara; M. Frederick Hawthorne, University of Missouri; Barton F. Haynes, Duke University; Richard F. Heck, University of Delaware; Andrew B. Holmes, The University of Melbourne; Rush D. Holt, American Association for the Advancement of Science; H. Robert Horvitz, Massachusetts Institute of Technology; Chenming C. Hu, University of California, Berkeley; Leon D. Isemidis, Louisiana Tech University; Mir Imran, University of Pittsburgh; Donald E. Ingber, Harvard University; Chennupati Jagadish, The Australian National University.

Anil K. Jain, Michigan State University; Kristina M. Johnson, University of Colorado Boulder; Joseph S. Kalinowski, East Carolina University; Aaron V. Kaplan, Dartmouth College; Usha N. Kasid, Georgetown University; Kenneth W. Kinzler, Johns Hopkins University; Brian K. Kobilka, Stanford University; Steven J. Kubisen, The George Washington University; Donald W. Landry, Columbia University; Se-Jin Lee, Johns Hopkins University; Sunggyu Lee, Ohio University; Robert J. Lefkowitz, Duke University; G. Douglas Letson, H. Lee Moffitt Cancer & Research Institute; Jennifer A. Lewis, Harvard University; Guifang Li, University of Central Florida; James C. Liao, University of California, Los Angeles; John S. Lollar III, Emory University; Anthony M. Lowman, Rowan University; Rodney S. Markin, University of Nebraska Medical Center; Tobin J. Marks, Northwestern University; Dean F. Martin, University of South Florida.

Helen S. Mayberg, Emory University; Edith G. McGeer, The University of British Columbia; Patrick L. McGeer, The University of British Columbia; Meyya Meyyappan, NASA Ames Research Center; Thomas E. Milner, The University of Texas at Austin; Umesh K. Mishra, University of California, Santa Barbara; Somenath Mitra, New Jersey Institute of Technology; Andreas F. Molisch, University of Southern California; Ramani Narayan, Michigan State University; Alan C. Nelson, Arizona State University; Kyriacos C. Nicolaou, Rice University; David R. Nygren, The University of Texas at Arlington; Richard M. Osgood, Jr.,

Columbia University; Alyssa Panitch, Purdue University; H. Anne Pereira, The University of Oklahoma Health Sciences Center; William M. Pierce, Jr., University of Louisville; John M. Poate, Colorado School of Mines; H. Vincent Poor, Princeton University; Ann Progulsk-Fox, University of Florida; Suzie H. Pun, University of Washington; Kaushik Rajashekara, The University of Texas at Dallas; Jahangir S. Rastegar, Stony Brook University.

A. Hari Reddi, University of California, Davis; E. Albert Reece, University of Maryland; Kenneth L. Reifsnider, The University of Texas at Arlington; Jasper D. Rine, University of California, Berkeley; Ajeet Rohatgi, Georgia Institute of Technology; Stephen D. Russell, Space and Naval Warfare Systems Command; Michael J. Sailor, University of California, San Diego; Bahgat G. Sammakia, Binghamton University; Andrew V. Schally, University of Miami; Paul R. Schimmel, The Scripps Research Institute; Peter G. Schultz, The Scripps Research Institute; Marian O. Scully, Texas A&M University; Jonathan L. Sessler, The University of Texas at Austin; Mohsen Shahinpoor, University of Maine; Ben Shneiderman, University of Maryland; Marvin J. Slepian, The University of Arizona; Kwok-Fai So, The University of Hong Kong; Richard A. Soref, University of Massachusetts Boston; Pramod K. Srivastava, University of Connecticut; Andrew J. Steckl, University of Cincinnati.

Valentino J. Stella, The University of Kansas; Galen D. Stucky, University of California, Santa Barbara; Bala Subramaniam, The University of Kansas; R. Michael Tanner, Association of Public and Land-grant Universities; Guillermo J. Tearney, Harvard University; Stephen Tomlinson, Medical University of South Carolina; James M. Tour, Rice University; Kalliat T. Valsaraj, Louisiana State University; Bert Vogelstein, Johns Hopkins University; Sherry L. Harbin, Purdue University; Norman J. Wagner III, University of Delaware; Yong Wang, Washington State University; James A. Wells, University of California, San Francisco; Caroline C. Whitacre, The Ohio State University; Jay F. Whitacre, Carnegie Mellon University; Helena S. Wisniewski, University of Alaska Anchorage; Edward D. Wolf, Cornell University; Paul K. Wright, University of California, Berkeley; James C. Wyant, The University of Arizona; Pan-Chyr Yang, National Taiwan University; Yu-Dong Yao, Stevens Institute of Technology; Martin L. Yarmush, Rutgers, The State University of New Jersey; and Jianping Zheng, Florida State University.

TRIBUTE TO THE COMMUNITY  
COLLEGES OF IOWA

**HON. DAVID YOUNG**

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 25, 2016*

Mr. YOUNG of Iowa. Mr. Speaker, Mr. LOEBSACK and I rise today to recognize and congratulate the community colleges of Iowa for 50 years of outstanding service to the state. The community colleges of Iowa have expanded to become our largest provider of postsecondary education.

On June 7, 1965, Iowa Governor Harold Hughes signed the first bill into law allowing for the opening and operation of community

colleges in the state of Iowa. The following institutions were officially designated the next year: Northeast Iowa, North Iowa Area, Iowa Lakes, Northwest Iowa, Iowa Central, Iowa Valley, Hawkeye, Eastern Iowa, Kirkwood, Des Moines Area, Western Iowa Tech, Iowa Western, Southwestern, Indian Hills, and Southeast Iowa.

These fine institutions now provide accessible and affordable education, not only to Iowans, but to students across the country and the world. Their offerings include a wide-ranging, diverse curriculum that serves Iowa's specific workforce needs, including Iowa businesses competing in a global market. Iowa businesses in need of highly trained, specialized workers turn to our community colleges to fill the new, high-paying, high-skilled positions of tomorrow.

Mr. Speaker, it is our honor to represent Iowa's community colleges in the United States Congress and it is with great pride that we recognize them today. We ask that our colleagues in the United States House of Representatives join us in congratulating Iowa's community colleges on celebrating their 50th year and for providing a high quality, affordable education for all Iowans. We wish them nothing but continued success in the years to come.

IN RECOGNITION OF KRYSTA  
HARDEN

**HON. SANFORD D. BISHOP, JR.**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 25, 2016*

Mr. BISHOP of Georgia. Mr. Speaker, it is my honor and pleasure to extend my congratulations and best wishes to an outstanding leader, personal friend, and constituent, Ms. Krysta Harden, Deputy Secretary of Agriculture for the U.S. Department of Agriculture (USDA). Ms. Harden has excelled at this position since she took office in August of 2013. She will be leaving her post at the end of February 2016.

A Georgia native, Ms. Harden was born and raised in Camilla, Georgia and earned a Bachelor of Arts degree in Journalism from the University of Georgia in 1981. Her career began on Capitol Hill, where she worked for former Congressman Charles Hatcher as Legislative Director, Press Secretary, and Chief of Staff for more than ten years. Ms. Harden went on to serve as Staff Director for the Subcommittee on Peanuts and Tobacco of the House Committee on Agriculture.

In 1993, Ms. Harden left the public sector to work for Gordley Associates, a government relations firm focused on agricultural policy. Ms. Harden left the company in 2004 as Senior Vice President. From 2004 to 2009, she served as the Chief Executive Officer of the National Association of Conservation Districts.

In 2009, Ms. Harden began her influential career at the U.S. Department of Agriculture as the Assistant Secretary for Congressional Relations. In this role, Ms. Harden was instrumental in securing passage of and implementing the Healthy, Hunger-Free Kids Act of 2010, which increased the nutritional quality of school lunch programs and provides access for children of all economic backgrounds.

In 2011, she was promoted to Chief of Staff of the Department of Agriculture. And in 2013,
