

country gathered at this beautiful venue located on the Detroit River off of Jefferson Avenue in the City of Detroit. Governors, mayors, local officials, celebrities, business leaders and community members looked forward to the occasions being feted or the evening out. When first founded, it was a happening place, and its path would follow the peaks and valleys that the region itself has experienced over the years.

The Roostertail has witnessed the history of the region and has been the scene of many firsts, including the opening night for the Supremes and Bobby Darin. The venue has also hosted many of the greats over the years such as Tony Bennett, Eric Clapton, The Rolling Stones, and Aretha Franklin. From the beginning, everyone was welcome through their doors, and they gave a helping hand to many who just needed someone to care or believe. In the 60's, when the Motown sound was just beginning, they created Motown Mondays which starred the Temptations, Marvalettes, Stevie Wonder, Diana Ross, Martha Reeves, Marvin Gaye, Smokey Robinson and the Spinners among many others. Tom and Diane helped to break down barriers during the civil rights era, making it clear there was always a place there for those who needed it and providing the platform for those who needed a simple break.

Tom and Diane Schoenith, the owners of the Roostertail, have lived through the ups and downs of Detroit and Southeast Michigan and never doubted, gave up or quit. Whether it was the riots, recession, or bankruptcy, or the rise of Motown, Motor City, and the ebbs and flows of the American middle class, they have witnessed it all. After the Detroit Riots in 1968, people were afraid to come into downtown Detroit. Tom and Diane knew they had to help bring them back and bring their customer base back as well. They organized parties with performers everyone knew and drew people back. The young people came—and others followed.

Beyond the memories and moments of the Roostertail itself, Tom and Diane have also planned and led many events and parties over the years. Many were colorful, vibrant and flashy—unique and one of a kind. Tom and Diane have been the first call for many of the most prominent non-profits and cultural institutions in Metro Detroit, helping the DIA, WTVS, the Children's Hospital of Michigan, the Detroit Symphony Opera, Gleaners, the Salvation Army, and the NAACP. These groups and more owe a thank you to Tom and Diane for their creativity, memory creating events and dedication to our community over the years.

Tom is a member of Detroit's Schoenith family, well known for decades for being successful, interesting and sometimes controversial. His twin Jerry is well known for American boat racing with hydroplanes. Together—they are a part of Michigan's unique history.

Mr. Speaker, I ask my colleagues to join me today in honoring Tom and Diane Schoenith and the Roostertail as they celebrate this evening. It is my sincere hope that they will continue to bring smiles for many years to come.

CELEBRATING GENENTECH'S 40TH ANNIVERSARY

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 12, 2016

Ms. SPEIER. Mr. Speaker, I rise today to celebrate the 40th anniversary of Genentech in South San Francisco—also known as the birthplace of biotechnology. Forty years ago, on April 7, 1976, Herb Boyer and Bob Swanson decided to start the first biotech company, Genentech, and sparked an industry that continues to push the boundaries of science today.

What began as a conversation over a couple of beers at a Union Street watering hole has evolved into an industry that has helped billions of people, and has ushered in new frontiers of research—such as personalized healthcare and cancer immunotherapy—that have fundamentally changed the way certain serious diseases are treated.

During the past six years alone, Genentech has brought to market nine new treatments for patients who needed them. These include the first FDA-approved medicine for people with advanced forms of B-Cell Carcinoma, the most common skin cancer, the first biologic for cystic fibrosis, the first personalized medicine that treats women with HER2+ breast cancer, and the first drug to be approved using FDA's breakthrough therapy designation—a treatment for Chronic Lymphocytic Lymphoma (CLL).

And like all of biotech, Genentech has continued to evolve over the past 4 decades. They have invested in uncharted areas of science, expanded their manufacturing capabilities, grown into a global organization, and partnered with other companies and research institutions to find breakthrough treatments for people with serious diseases who need new and improved options.

Today, Genentech's founders' spirit of taking bold risks and celebrating both successes and failures continues to drive their daily work. This year, the company will celebrate its 40th anniversary with initiatives such as 40 Defining Moments—a storytelling project to reflect on the history of Genentech through articles, pictures, and videos. And in order to recognize the role nearby communities and science education have had in its success, Genentech will also commit \$1 million to STEM-focused non-profits that provide hands-on science education to underserved students in local communities.

Mr. Speaker, I am honored to recognize the hard work and dedication of Genentech and its employees. Genentech has always been a cutting edge company from research to workplace accommodations to creating one of the first on-site child care centers. I'm proud to represent a company that has so positively contributed to the health and wellness of our society, and to the world. I look forward to seeing what new breakthroughs the next 40 years will bring.

HONORING MADELEINE MORLINO

HON. THOMAS MacARTHUR

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 12, 2016

Mr. MACARTHUR. Mr. Speaker, I rise today to honor Madeleine Morlino, of the Third Congressional District, on her recent acceptance into all four United States Service Academies, and to commend her for her community service and accomplishments.

Madeleine, who is a resident of Moorestown, has worked diligently to succeed academically while simultaneously engaging with her community. Madeleine maintains a 4.23 weighted grade-point average at Moorestown High School. She is an accomplished violinist, and plays for the Moorestown High School orchestra and for a local church ensemble. Additionally, she was honored with the Good Citizenship Award from the Union League of Philadelphia and volunteers for many different charitable causes and organizations.

Madeleine has a profound level of respect for our armed service men and women, and has become very involved in the veteran community. In the fall, she organized the Veterans Benefits and Job Expo at the Moorestown Community House, where national and local businesses met with veterans about meaningful employment. She also volunteers at the Disabled Veterans Physiotherapy Clinic in Philadelphia. Madeleine has worked extremely hard to follow her goal of serving the military in whatever capacity possible. She will be attending the Air Force Academy in Colorado Springs, Colorado after graduation.

Mr. Speaker, the people of New Jersey's Third Congressional District are tremendously honored to have Madeleine Morlino as a member of their community. Ms. Morlino has shown a desire to serve her nation and to give back to her community, and has worked continuously to do so at the best of her ability. I am honored to recognize her acceptance into all four United States Service Academies and to commend her for her outstanding service to her community and our veterans, before the United States House of Representatives.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 12, 2016

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was \$10,626,877,048,913.08.

Today, it is \$19,223,197,501,336.14. We've added \$8,596,320,452,423.06 to our debt in 6 years. This is over \$7.5 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.
