

of the so-called reform through labor camps.

After moving to the United States in 1985, Wu began returning to China to secretly document the labor camps, known as laogai. His work was showcased both on CBS and on the BBC in the early 1990s and continued through his Laogai Research Foundation and museum in Washington. He testified before Congress on China's unfulfilled promises of reform, forced abortions and sterilizations, Internet censorship, and religious repression.

We can honor his tremendous work by ensuring the truths he revealed are not forgotten and by continuing to defend human rights in China and across the world.

DR. CASTRO AND THE CONSUL OF MEXICO AWARD

(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Mr. Speaker, I rise to recognize Dr. Joseph Castro, the president of Fresno State University. Dr. Castro is the president of one of the finest universities in the Western United States. It also happens to be my alma mater.

Since Dr. Castro has been president, it has been clear that he wants to make a positive difference in the lives of all students, especially of those who are from California's San Joaquin Valley. Over 60 percent of the students are the first in their families to attend a university, and it has over 25,000 students today.

This is one of the many reasons the Consul General of Mexico honored Dr. Castro with the Ohtli Award, which is the highest award given to exceptional leaders who improve the lives of the Hispanic community abroad.

Dr. Castro is truly deserving of this award. He understands the immigrant communities throughout the valley and throughout the region and my home, which we are also proud to represent. It is a special place. It is where he was from originally, from California, and he is the first Hispanic president to be appointed at Fresno State.

Please join me in honoring Dr. Joseph Castro and the entire Fresno State faculty and staff for all they do for the students to ensure that they have access to a high quality, affordable college education, because they are the future of America.

NATIONAL WOMEN'S HEALTH WEEK

(Ms. LORETTA SANCHEZ of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LORETTA SANCHEZ of California. Mr. Speaker, I rise in honor of National Women's Health Week.

Our goal this week is to empower women to prioritize and to take charge

of their health. Thanks to the Affordable Care Act, women can access preventative care for little or no cost, but there still are concerning gaps in women's health.

One out of four women reports not visiting a doctor because of the cost, and nearly two out of three women in America die from chronic diseases like diabetes, heart disease, cancer, which is why women need quality, affordable, and accessible health care.

Protecting and improving the health of American women is one of my top priorities in Congress. I fought to insert language in the annual defense bill to ensure that our brave servicewomen and female veterans have access to adequate health services that fully address their specific medical needs, including preventative care and infertility treatments.

We have seen increasing attacks on women's health in Congress. So it is important, more than ever, that we ensure women's access to contraception and to their constitutionally protected right to choose.
