

2006 changed the Older Americans Act funding formula to ensure states received a guaranteed funding level. This is known as the "Hold Harmless Funding Formula." Due to Colorado's growing senior population and this provision from 2006, Colorado (among other states) saw massive cuts during sequestration when other states did not.

Instead of allowing the funding to go to states with growing senior populations, the hold harmless funding formula in the current reauthorization continues the disproportionate trend. It prevents funding in states with lower senior populations from going to states with growing levels of senior citizens. While I am supportive of the services provided by the Older Americans Act, Congress' priority should be ensuring the stability of the programs upon which millions of seniors around the country depend.

I believe that moving forward, it is imperative that steps are taken in future reauthorizations to safeguard services for all seniors regardless of their state of residence. It is my hope that as Congress continues to address issues that are important to all senior citizens, we find a path forward to address the issue I've raised today.

HON. KEN BUCK

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 6, 2016

Mr. BUCK. Mr. Speaker, as a member of the Colorado Delegation of the U.S. House of Representatives, I am highlighting an issue of importance to Colorado and its community of senior citizens. Earlier this year, Congress passed the Older Americans Act Reauthorization Act of 2016 and sent it to the President for his signature. This reauthorization ensures that a wide range of social and nutritional services, directed to assist senior citizens, is not disrupted. While the reauthorization improves the status quo for the state of Colorado, I still have concerns about the continuing inequity in funding going to our state in comparison to the rest of the country.
