In lieu of the matter proposed to be inserted, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “GMO Labeling Act of 2016”.

SEC. 2. PURPOSES.

The purposes of this Act are to—

(1) establish a system by which people may make informed decisions about the food they purchase and consume and by which, if they choose, people may avoid food produced from genetic engineering;

(2) inform the purchasing decisions of consumers who are concerned about the potential environmental effects of the production of food from genetic engineering;

(3) reduce and prevent consumer confusion and deception by prohibiting the labeling of products produced from genetic engineering as “natural” and by promoting the disclosure of factual information on food labels to allow consumers to make informed decisions; and

(4) provide consumers with data from which they may make informed decisions for religious reasons.

SEC. 3. LABELING REQUIREMENTS.

(a) **IN GENERAL.**—Chapter IV of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341 et seq.) is amended by adding at the end the following:

“SEC. 424. LABELING OF FOOD PRODUCED WITH GENETIC ENGINEERING.

“(a) **IN GENERAL.**—Except as provided in subsection (d), any food that is entirely or partially produced with genetic engineering and offered for retail sale after January 1, 2017, shall be labeled or shall be displayed, as applicable, in accordance with subsection (b).

“(b) **LABELING REQUIREMENTS.**—In the case of a food described in subsection (a), the manufacturer or retailer shall ensure that such food is labeled or displayed in accordance with the following:

“(1) **MANUFACTURERS.**—

“(A) **RAW AGRICULTURAL COMMODITIES.**—In the case of a packaged raw agricultural commodity, the manufacturer shall label the package offered for retail sale, in a clear and conspicuous manner, with the words ‘produced with genetic engineering’.

“(B) **PROCESSED FOOD.**—In the case of any processed food that contains a product or products of genetic engineering, the manufacturer shall label the package in which the processed food is offered for sale, in a clear and conspicuous manner, with the words: ‘Partially produced with genetic engineering’, ‘May be produced with genetic engineering’, or ‘Produced with genetic engineering’, as applicable.

“(2) **RETAILERS.**—In the case of any raw agricultural commodity that is not separately packaged, the retailer shall post a label appearing on the retail store shelf or bin in which the commodity is displayed for sale, in a clear and conspicuous manner, with the words ‘produced with genetic engineering’.

“(c) **PROHIBITED LABELING.**—Except as provided in subsection (d), a manufacturer or retailer of a food produced entirely or in part from genetic engineering shall not label the product on the package, in signage, or in advertising as ‘natural’, ‘naturally made’, ‘naturally grown’, ‘all natural’, or using any words of similar import that would have a tendency to mislead a consumer.

“(d) **EXEMPTIONS.**—The labeling requirements of subsection (b) shall not apply with respect to the following:

“(1) Food consisting entirely of, or derived entirely from, an animal that has not itself been produced with genetic engineering, regardless of whether the animal has been fed or injected with any food, drug, or other substance produced with genetic engineering.

“(2) A raw agricultural commodity or processed food derived from a raw agricultural commodity that has been grown, raised, or produced without the knowing or intentional use of food or seed produced with genetic engineering, except that the exception described in this paragraph shall apply only if the person otherwise responsible for complying with the requirements of subsection (b) with respect to a raw agricultural commodity or processed food obtains, from whomever sold the raw agricultural commodity or processed food to that person, a sworn statement that the raw agricultural commodity or processed food has not been knowingly or intentionally produced with genetic engineering and has been segregated from and has not been knowingly or intentionally commingled with food that may have been produced with genetic engineering at any time. In providing such a sworn statement, any person may rely on a sworn statement from a direct supplier that contains such an affirmation.

“(3) Animal feed.

“(4) A processed food that would be subject to such requirements solely because such food includes one or more processing aids or enzymes produced with genetic engineering.

“(5) Alcoholic beverages.

“(6) A processed food that would be subject to such requirements solely because such food includes one or more materials that have been produced with genetic engineering, provided that the genetically engineered materials in the aggregate do not account for more than 0.9 percent of the total weight of the processed food.

“(7) Food that an independent organization has verified has not been knowingly or intentionally produced from or commingled with food or seed produced with genetic engineering. The Secretary, shall approve, by regulation, any independent organizations from which verification shall be acceptable under this paragraph.

“(8) Food that is not packaged for retail sale and that is—

“(A) a processed food prepared and intended for immediate human consumption; or

“(B) served, sold, or otherwise provided in a restaurant or other establishment in which food is served for immediate human consumption.

“(9) Medical food, as that term is defined in section 5(b) of the Orphan Drug Act.
