

did. The overwhelming majority of Republicans voted for this bill, and I am glad they did. The Zika compromise passed, as I said, with 89 votes. Only the most extreme, conservative Members of this body voted against it. That was 2 months ago. But since then, it has become increasingly clear in the last 2 months that Republicans are not serious. They are playing games again because they are not responding to the threat posed by these mosquitoes and by this horrible, horrible condition that they are causing for human beings.

Instead of working to send the bill to the President's desk, the Republicans derailed the bipartisan response—89 Senators who voted—to send that to the House of Representatives. There was a conference. The Republicans chose a very reckless approach. They ignored what went on here in the Senate, even as more and more Americans are getting infected every day. There are almost 4,000 people in the United States and territories that have Zika right now. At least 600 pregnant women have shown evidence of infection. We don't know how many of those pregnant women who have this infection—this virus—are going to bear very, very sick babies. We don't know how many, but it is going to be a lot.

We should be working to fight Zika. We should be working together. We should be providing public health experts with the tools they need to fight this virus. It is not being done, as the Republican leader says. In the Senate, we are stuck in limbo as the Republican leader forces an unnecessary revote on this failed proposal we got from the House of Representatives and approved by the Republicans in the Senate—this conference report. We don't need to vote on this again. It was already rejected. It will be rejected again. Why? For very good reasons.

It is an abomination of a conference report. It restricts funding for birth control provided by Planned Parenthood. My friend talked about pregnant women. If we want to talk about pregnant women, we ought to talk about women who don't want to get pregnant. Where do they go? The vast majority of women in America go to Planned Parenthood. Millions go. This legislation that the Republicans are trying to foist on the American people stops them from being able to do that. It restricts funding for birth control provided by Planned Parenthood. Planned Parenthood is a whipping boy for the Republicans.

This legislation also exempts pesticide spraying from the Clean Water Act. They had to get Planned Parenthood, and they had to do something to the environmental community. Here is what they are going to do to whack the environmental community: We will just not have the Clean Water Act apply.

Veterans—my friend the Republican leader talks about veterans funding. Understand that the legislation being

proposed to help fight Zika takes \$500 million—one-half billion dollars—from the veterans program. That money was to be used for processing claims for veterans, which are way behind. We need that extra money. That is going to be gone.

The so-called salvation of the Zika problem also rescinds \$543 million from ObamaCare. Right now, I could raise a point of order, and that would go. That would be gone. It rescinds \$543 million from ObamaCare. They have to do this.

They are so ideological: Let's go after Planned Parenthood; let's go after the environmental community; let's make sure we do something about ObamaCare; and, just for good measure, because Ebola is not an emergency this very second, let's take more money from that. Two years ago, Ebola was a big emergency, and it will be again. And, just for good measure, to satisfy the right-wing—as Speaker Boehner called them—crazies over there, they said: We will strike a provision on the Confederate flag that was in the House bill.

How is that for an effort to do something constructive? We all know the Senate will not pass this Republican conference report. President Obama will not sign it into law. So why waste more time on this? We should pass the bipartisan Senate compromise as soon as possible. My friend said: Well, we can't amend the conference report. Of course, we can do anything here. With unanimous consent, we can do all kinds of good things.

That is obviously the responsible path forward, and we need to get this legislation to the President's desk. In order to do that, we must bring the Zika compromise legislation before the Senate as a stand-alone. I tried yesterday to do that. I asked unanimous consent that the Senate move to the compromise legislation and the Senate vote on that passage. But despite his previous support for this bipartisan legislation, the Republican leader objected. Senate Democrats are not going to be deterred.

Is there a State in the Union that is going to suffer more than Florida? No. So the senior Senator from Florida is going to come to the floor in a little while this morning, and he is going to ask consent that the Senate proceed to the Zika compromise as a stand-alone bill. It can be done. We should do that. Florida has been hit really hard, and the worst is yet to come. Yesterday alone, as I indicated, there were new cases reported. According to the Palm Beach Post, that brings the number of Floridians—just Floridians—affected with Zika today to almost 300, including 43 pregnant women. So I hope they are going to consider the request by Senator NELSON. We are willing to work with Republicans to get this done. The Senate is going to adjourn for the long, 7-week vacation once we get this done.

Our country is facing an emergency. It is time for the Republicans to start

treating it as such. "Opioids," "Zika" are only words from the Republicans. I repeat for the third time this morning, it is so clear why the Republicans are going to lose the majority in the U.S. Senate. All you have to do is listen to what the Republican leader had to say today.

Will the Chair announce the business of the Senate this morning.

RESERVATION OF LEADER TIME

The PRESIDING OFFICER. Under the previous order, the leadership time is reserved.

COMPREHENSIVE ADDICTION AND RECOVERY ACT OF 2016—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the conference report to accompany S. 524, which the clerk will report.

The assistant bill clerk read as follows:

Conference report to accompany S. 524, a bill to authorize the Attorney General to award grants to address the national epidemics of prescription opioid abuse and heroin use.

The PRESIDING OFFICER. Under the previous order, the time until 12:30 p.m. will be equally divided between the two leaders or their designees.

The Senator from Illinois.

ZIKA VIRUS FUNDING

Mr. DURBIN. Mr. President, 5 months—5 months—that is how long it has been since the National Institutes of Health and the Centers for Disease Control and Prevention formally asked the U.S. Congress to respond to a public health emergency to combat the Zika virus—5 months.

In that time, we have seen the number of Americans infected with Zika soar to 3,667. Of those, 599 are pregnant women. In Illinois, there are 26 confirmed cases of Zika—5 months. To date, seven infants have been born with Zika-related birth defects in the United States. Five pregnancies have ended because of Zika-related birth defects—5 months. Last week, Utah health officials announced the first U.S. death related to the Zika virus—5 months. In Puerto Rico, where this situation gets worse by the day, officials reported a 1-week jump of 40 percent in the number of pregnant women on the island diagnosed with Zika—5 months. Three thousand, six hundred sixty-seven Americans to date are infected with Zika that we know of, 599 pregnant women, 7 babies born with severe birth defects, 5 ended because of the virus, and the first Zika-related death—5 months since the President of the United States said this was a public health crisis.

The Republican-controlled Congress has waited 5 months to respond to this crisis, and now we are on the verge of leaving town for 7 more weeks—until
