

INTRODUCTION OF H.R. 6483, THE SWINE WASTE INFRASTRUCTURE AND NATURAL ENVIRONMENT ACT (THE SWINE ACT)

HON. DAVID E. PRICE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 13, 2016

Mr. PRICE of North Carolina. Mr. Speaker, as the 114th Congress comes to a close, I have introduced the Swine Waste Infrastructure and Natural Environment Act (the SWINE Act, or H.R. 6483). I am hopeful that this bill will provoke constructive discussions and suggestions in the coming weeks from stakeholders in the agricultural and environmental communities, so that I can introduce an improved version early next year.

The SWINE Act builds on efforts in North Carolina and elsewhere to develop new technologies to manage and dispose of waste from animal agricultural production, replacing the current “lagoon and spray-field” method used by many swine producers. In 1999, the environmental impact of lagoon and spray-field waste disposal systems was made particularly acute by Hurricane Floyd, an unusually large storm which caused poorly-regulated hog lagoons to overflow and discharge untreated animal waste into water systems across Eastern North Carolina. But for years prior to the storm, large animal feeding operations had emitted noxious odor and threatened the air and water quality of small rural communities across the Southeast.

In the aftermath of Hurricane Floyd, forward-thinking leaders in North Carolina initiated a process in which industry, academia, and the environmental community worked together to identify waste disposal technologies that would mitigate the worst environmental effects of the lagoon and spray-field system. The effort sparked a vigorous public discussion on issues related to swine waste while fostering a period of technological innovation in waste processing technology. For nearly a decade, I helped secure federal assistance for the research and development of environmentally sound methods of processing swine waste and for technical assistance to producers who sought to adopt such technologies. While this process resulted in significant progress toward a viable alternative to lagoon and spray-fields, the technologies developed thus far fell short of the established threshold for economic feasibility and have thus not been widely adopted by producers.

The environmental and social threats posed by the lagoon and spray-field method are not limited to North Carolina, and thus require a national solution. With additional investments in research and development and incentives for technology adoption, the technologies developed in North Carolina and elsewhere—or new technologies yet to be developed—can be made market-ready, producing an affordable and environmentally superior replacement for lagoon and spray-field. We should not be forced to choose between a clean environment and a successful, innovative animal agriculture industry. With this bill, I believe we can improve the environment while remaining the world leader in animal agricultural production.

URGING PRESIDENT-ELECT TO RESCIND APPOINTMENT OF STEVEN BANNON TO SENIOR WHITE HOUSE POSITION

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 13, 2016

Ms. JACKSON LEE. Mr. Speaker, I rise today to urge the President-Elect to rescind his controversial appointment of Steven Bannon as White House Senior Counselor and Strategist.

If the President-Elect takes seriously his Election Night pledge to be a president to “all Americans,” he must immediately renounce his intention to appoint Steven Bannon as White House Senior Counselor and Strategist.

Steven Bannon has a long history promoting racial and ethnic bigotry, sexism, religious intolerance, and misogyny.

He has insinuated that African-Americans are ‘naturally aggressive and violent,’ and under his leadership, Breitbart’s publishing strategy turned to one that has made it the media arm of the racist “Alt-Right” movement, publishing articles promoting popular white nationalist tropes such as “black on white crime” and that “rape culture” is inherent in Islam.

In selecting Steven Bannon as one of his two most trusted White House advisors, the President-Elect is signaling to the American people that the inflammatory, reckless, and insensitive rhetoric and tactics employed by his campaign can be expected to become part of his Administration’s standard operating procedure.

This is not the way to begin healing the wounds opened by the recently concluded presidential campaign and or to bring the American people together.

I strongly urge the President-Elect to reconsider his decision and rescind his controversial appointment of Steven Bannon as White House Senior Counselor and Strategist.
