R E P O R T

[To accompany H. Res. 333]

The Committee on Rules, having had under consideration House Resolution 333, by a record vote of 9 to 4, report the same to the House with the recommendation that the resolution be adopted.

SUMMARY OF PROVISIONS OF THE RESOLUTION

The resolution provides for consideration of H.R. 2822, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2016, under a modified-open rule. The resolution provides one hour of general debate equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations. The resolution waives all points of order against consideration of the bill. The resolution waives points of order against provisions in the bill for failure to comply with clause 2 of rule XXI. The resolution provides that after general debate the bill shall be considered for amendment under the five-minute rule except that: 1) amendments shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent and shall not be subject to amendment; and 2) no pro forma amendments shall be in order except that the chair and ranking minority member of the Committee on Appropriations or their respective designees may offer up to 10 pro forma amendments each at any point for the purpose of debate. The resolution authorizes the Chair to accord priority in recognition to Members who have pre-printed

their amendments in the Congressional Record. The resolution provides one motion to recommit with or without instructions.

The resolution provides for consideration of H.R. 2042, the Ratepayer Protection Act, under a structured rule. The resolution provides one hour of general debate equally divided and controlled by the chair and ranking minority member of the Committee on Energy and Commerce. The resolution waives all points of order against consideration of the bill. The resolution makes in order as original text for purpose of amendment an amendment in the nature of a substitute consisting of the text of Rules Committee Print 114–20 and provides that it shall be considered as read. The resolution waives all points of order against that amendment in the nature of a substitute. The resolution makes in order only those further amendments printed in this report. Each such amendment may be offered only in the order printed in this report, may be offered only by a Member designated in this report, shall be considered as read, shall be debatable for the time specified in this report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. The resolution waives all points of order against the amendments printed in this report. The resolution provides one motion to recommit with or without instructions.

Section 3 of the resolution provides for consideration of concurrent resolutions providing for adjournment during the month of July, 2015.

Section 4 of the resolution provides that on any legislative day during the period from June 26, 2015, through July 6, 2015: the Journal of the proceedings of the previous day shall be considered as approved; and the Chair may at any time declare the House adjourned to meet at a date and time to be announced by the Chair in declaring the adjournment.

Section 5 of the resolution provides that the Speaker may appoint Members to perform the duties of the Chair for the duration of the period addressed by section 4.

EXPLANATION OF WAIVERS

The waiver of all points of order against consideration of H.R. 2822 includes a waiver of clause 3(e)(1) of rule XIII (“Ramseyer”), requiring a committee report accompanying a bill amending or repealing statutes to show, by typographical device, parts of statute affected. The waiver is provided because the submission provided by the committee was insufficient to meet the standards established by the rule in its current form. The Committee on Rules continues to work with the House Office of Legislative Counsel and committees to determine the steps necessary to comply with the updated rule.

The resolution includes a waiver of points of order against provisions in H.R. 2822 for failure to comply with clause 2 of rule XXI, which prohibits unauthorized appropriations or legislative provisions in an appropriations bill. This waiver is necessary because H.R. 2822 contains unauthorized appropriations and legislative provisions.

Although the resolution waives all points of order against consideration of H.R. 2042, the Committee is not aware of any points of order. The waiver is prophylactic in nature.

Although the resolution waives all points of order against the amendment in the nature of a substitute to H.R. 2042 made in order as original text, the committee is not aware of any points of order. The waiver is prophylactic in nature.

Although the resolution waives all points of order against the amendments to H.R. 2042 printed in this report, the Committee is not aware of any points of order. The waiver is prophylactic in nature.

Section 3 of the resolution includes a waiver of all points of order against consideration of a July 4th adjournment resolution. While adjournment resolutions are ordinarily privileged, a point of order could be raised against the July 4th district work period adjournment resolution for failure to comply with sections 309 and 310(f) of the Budget Act. Section 309 prohibits the House from adjourning for more than three days in July unless the House has completed action on all appropriations bills. Since the House has not yet completed all action on appropriations bills, this provision is necessary. Section 310(f) prohibits the House from adjourning for more than three days in July unless the House has completed action on the reconciliation legislation for the first fiscal year of the concurrent resolution on the Budget. Since the House has not yet completed all action on reconciliation legislation, this provision is necessary.
