Russell National School Lunch Act (42 U.S.C. 1766) by issuing guidance to States to—

(1) reduce duplicative monitoring or oversight practices among such child and adult care food program, the programs under the Child Care and Development Block Grant Act of 1990 (42 U.S.C. 9858 et seq.) and the Head Start Act (42 U.S.C. 9831 et seq.), and other applicable programs; and

(2) provide recommendations in cases in which separate State agencies administer such programs, including practices for streamlining the monitoring of Federal requirements (including compliance, operations, and financial requirements as a result of multiple Federal programmatic regulations), in order to reduce the burden on participants and States while enhancing levels of health, safety, and program integrity.

SUMMARY

NSLA and CNA authorize several nutrition programs with mandatory spending implications, notably the school lunch and breakfast programs and CACFP. Most recently reauthorized through HHFKA, the authorization of many of the programs expired on September 30, 2015.

Congress vastly expanded the federal government’s role in child nutrition through HHFKA and provided USDA broad authority to create regulations regarding nutrition standards and meal patterns, including specific requirements regarding whole-grains, so-

dium, calories, and fruit and vegetable servings. Since the regulations were implemented, schools, students, and families have experienced a number of harmful consequences. For example, participation in the school lunch program has decreased by 1.2 million meals per day.¹ Additionally, a study by the National School Boards Association in 2014 found 84 percent of districts have seen an increase in plate waste; 77 percent have seen a decrease in participation; and 82 percent have experienced an increase in cost, largely due to the implementation of these new federal meal standards.² School districts have found the requirements to be burdensome, costly, and difficult to implement, leading to greater strain on school budgets and fewer students being served.

Without responsible reform, schools will continue to face these burdens and additional challenges as federal requirements become even more stringent. For example, the current mandated sodium levels make it difficult for schools to purchase low-sodium food kids will eat. As sodium restrictions increase, it will become more difficult to produce food that appeals to kids, which will result in more food being wasted and more kids dropping out of the school lunch program. Additionally, food safety will be affected as certain foods expire more quickly, further increasing costs for schools.

In order to address these issues and provide viable solutions, Subcommittee Chairman Rokita introduced H.R. 5003. The legislation helps address these issues by giving states, schools, and providers the flexibility they need to ensure children have access to healthy meals without additional or prohibitive costs. Specifically, the legislation offers a better way forward in the following areas:

- **Reviewing Nutrition Standards.** The legislation requires USDA to review and update federal meal patterns and nutrition standards every three years and then update the standards as necessary. The first review is to be completed within 90 days of enactment of the bill. In conducting these reviews, USDA is to consult with school leaders. The Department must ensure federal standards do not limit student participation, are appropriate for school-age children, and do not increase costs for schools.
- **Reining in the Secretary's Authority.** The legislation limits the Secretary's authority by prohibiting the Secretary from imposing additional requirements not included in the law or dictating educational content around nutrition.
- **Reducing Administrative Burdens.** Under current law, overly prescriptive federal rules dictate when schools may serve certain foods, and different rules apply depending on how the meal is served. These federal requirements have created confusion and administrative challenges for school lunch officials. The bill allows all foods that qualify to be served as part of a reimbursed meal to also be served in a la carte lines, enabling school officials to more easily plan school meals.
- **Strengthening Verification.** Current law requires schools to verify the accuracy of student participation by reviewing a

small percentage of applications, focusing on those applications that are prone to error. To decrease fraud and abuse, the bill raises the standard verification sample to 10 percent *of all applications*. Schools that perform well based on school district-specific metrics will be able to reduce their verification sample by certain amounts. Schools that perform in the top 20 percent in the state will be able to drop their sample size to the bottom threshold, 2.5 percent, immediately. Schools performing in the bottom 10 percent will be required to take additional verification steps to address their error rate.

- **Improving Community Eligibility.** CEP allows schools to provide free breakfasts and lunches to *all* students if the school or school district is in an area of high poverty. This option is allowed when 40 percent or more of the student population are (among other factors) homeless, in foster care, or in a family eligible for other means-tested benefit programs. The legislation would raise the CEP percentage to 60 percent in order to better target resources to those students in need, while also ensuring all students who are eligible for assistance continue to receive assistance.

- **Repealing the Middle-Class “Tax” Increase.** The 2010 reauthorization of child nutrition assistance forces schools to increase prices for students and families who do not rely on federal assistance when purchasing school meals (also known as “full-paid” students). The bill repeals this mandated increase in the price of full-paid meals.

- **Repealing the Ban on Student Bake Sales.** Current law requires the Secretary to issue regulations covering all foods sold in school, including food sold in student-led activities such as bake sales and fundraisers. This has undermined the ability of students to raise funds to support academic and extracurricular activities. The bill exempts student group fundraisers from federal nutrition standards.

- **Streamlining State Audits.** The bill requires states to audit school programs once every five years, rather than once every three years as mandated by current law. This change will ensure states have more time to help schools in need of assistance instead of focusing solely on complying with burdensome paperwork requirements imposed by the federal government.

- **Increasing Breakfast Reimbursement.** The bill provides the first increase for breakfast reimbursement in over 25 years by providing schools an additional \$0.02 for breakfast without adding any additional cost to taxpayers. For the school year beginning in 2020, the added reimbursement amount will increase to \$0.03.

- **Providing Flexibility in SFSP Distribution.** SFSP helps provide low-income children with access to healthy meals when they are not in school. Food is served at designated sites (also known as “congregate sites”), which can be difficult for children who live in rural areas or lack transportation. The bill allows states to provide summer meals away from a congregate site in rural or low-income areas without access to summer service. It also streamlines the process for states to allow congregate sites to provide meals for off-site consumption in the case of extreme or emergency circumstances.

- **Reducing Burdens and Improving Access to CACFP.** CACFP supports meals and snacks served to children and adults in home-based and center-based daycare. To reduce administrative burdens and paperwork, the bill lengthens eligibility determinations from one to four months after approval. The bill requires USDA to improve its program integrity measures to ensure a fair, accurate, and consistent review process. It requires the Secretary to convene and implement recommendations from an advisory committee that will propose ways to reduce unnecessary or duplicative paperwork. Additionally, it allows public or licensed nonprofit private residential child care institutions, as well as any boarding school funded by the Bureau of Indian Education, to participate in the program if they are not participating in the school lunch or breakfast programs.

- **Streamlining Service Provider Applications.** Children currently may receive meals through both SFSP and the at-risk afterschool meals component of the CACFP. It is common for service providers to participate in both programs, but under current law, they must apply for and comply with the various requirements in each of the individual programs. The bill empowers states to streamline the programs by simplifying administration and operations and by reimbursing providers for year-round service at CACFP levels.

- **Strengthening the Integrity of the WIC Program.** The bill authorizes the WIC program at the current appropriation for the next five years. The bill strengthens the integrity of the program by encouraging states to move to EBT more quickly. Additionally, the bill improves the process for state moratoriums on the addition of new vendors to ensure there are clear guidelines in place to help states control costs and improve program integrity. The bill includes changes to the rebate process for infant formula to provide greater fairness and accountability. Additionally, GAO is required to review how adjunctive eligibility through Medicaid impacts WIC participation and costs.

Supporting innovation

- **Current law authorizes certain demonstration projects to determine more effective ways to eliminate hunger and deliver healthy food to children in and out of school.** To help spur local innovation, the bill includes a number of reforms around demonstration projects: Summer Electronic Benefit Transfer for Children. Ten states are currently able to provide benefits through the Summer Electronic Benefit Transfer for Children (SEBTC) program.³ Those states can use either SNAP or WIC EBT technology to allow families to purchase food in the summer rather than eat at a congregate site. The bill continues the project for states that are currently operating with WIC or SNAP technology but changes requirements and adds new limitations. The bill requires a robust evaluation to determine the

³ Connecticut, Delaware, Michigan, Missouri, Nevada, Oregon, Texas, Washington, Cherokee Nation and Chickasaw Nation.

effects of EBT as an alternate delivery method during the summer months.

- **Farm to School.** The bill requires a greater focus on nutrition education for children and families and increases support for the program to help address high demand.
- **Local Business Participation.** The bill authorizes a competitive grant program allowing local businesses in four states to act as sponsors in SFSP in low-income or rural areas where there currently are no meal services in order to evaluate the benefit of partnering with local employers to address hunger issues.

Other notable provisions

- **Family Meal Days.** Under the legislation, federal nutrition standards can be waived up to four days in a year so schools can provide Family Meal Days. This would be a voluntary option for schools. **Fruits and Vegetables Mandates.** The bill removes a federal mandate in the fruits and vegetables snack program that dictates the types of produce school nutrition officials can serve. **Improvements to School Lunch Facilities.** The legislation continues to provide assistance to improve school kitchens and cafeterias, which requires matching funds by recipients who receive assistance. **Sharing Best Practices.** The bill requires the Secretary to establish a centralized exchange network to facilitate the sharing of information and best practices between the states to enhance efficiency, improve compliance, and reduce waste, fraud, and abuse. **Paperwork Reduction and Use of Technology.** The bill requires the Secretary to review regulations, guidance, and other federal requirements to identify ways to streamline and reduce the paperwork burden on states and schools and to review the current use of technology in the school lunch program.

COMMITTEE VIEWS

Introduction

Helping children access healthy meals has long been a national priority. With the goal of improving access while ensuring accountability, the Committee worked with numerous organizations—including those representing school leaders and school nutrition professionals—to develop a legislative proposal that will improve child nutrition programs.⁴ The bill includes commonsense reforms to give schools the flexibility and assistance they need to better serve their students healthy meals. As Ms. Megan Schaper, director of Food Service and Nutrition for the State College Area School District in State College, Pennsylvania, said in her testimony before the Subcommittee, “a program that cannot remain fiscally solvent due to decreased participation, decreased opportunities to generate revenue, and mandated increases in program costs is not positioned to provide high-quality, healthful meals to students.”⁵ H.R. 5003 pro-

vides the relief schools need, maintains healthy standards for students' meals, and provides greater investments in other important programs that help fight hunger while reducing waste, fraud, and abuse.

Title I—Richard B. Russell National School Lunch Act

Title I of the bill amends NSLA. First, the definition of “state agency” is broadened to reflect how states have chosen to operate these programs. While many state departments of education run these programs, others utilize the state departments of agriculture or other agencies and offices to run child nutrition programs. The Committee believes states should decide which state agency is best able to run these programs without adding additional paperwork.

Addressing waste, fraud, and abuse

Child nutrition programs struggle with waste, fraud, and abuse. The Office of Management and Budget (OMB) has “designated the National School Lunch Program as 1 of 13 federal ‘high-error’ programs due to its large estimated improper payments—approximately \$1.7 billion in fiscal year 2014.”⁶

Ms. Jessica Lucas-Judy, Acting Director, Forensic Audits and Investigative Services at GAO, noted in her testimony before the Subcommittee:

“USDA estimates that approximately \$959 million of its fiscal year 2014 improper payments represents certification errors and approximately \$789 million represents school-district counting and claiming errors. USDA estimates that the School Breakfast Program had approximately \$923 million in improper payments in fiscal year 2014.”⁷

Several instances of fraud were discovered by GAO through an audit. GAO discovered several of its employees received federal assistance, even though they exceeded the income limit.⁸ That audit led to five individuals being indicted, one of whom was also a school board member.⁹

Verification is an area Secretary Vilsack pinpointed could be reformed to increase accountability. Testifying before the Committee, he stated it would be “more helpful if we could get up to 10 percent [of free and reduced price lunch applications in each school district] reviewed.” The Secretary further stated that increasing the percentage would certainly send a message and would begin to focus

on the importance of making sure we are accurate on all of this.”¹⁰ The Committee agrees with the Secretary and included language in the legislation for a new verification process. This process will require school districts to review more applications and focus on those schools with persistent problems. By requiring greater interventions for poorly performing school districts, states will be able to focus technical assistance and support on the districts in need of the most help in improving the verification process to ensure students are receiving the correct level of assistance for school meals. Higher performing school districts will be allowed to automatically drop their verification from 10 percent of all applications to the lowest required verification percentage of 2.5 percent. To further ease any administrative burdens accompanying the new verification requirements, H.R. 5003 incentivizes school districts to adopt best practices to modernize the process. These changes ensure the issues raised by GAO and the Secretary are addressed, while minimizing additional burdens on school districts.

Nutrition standards

As soon as the new regulations governing meal patterns and nutrition standards were published, those responsible for implementing the meal programs raised concerns about timetables and costs. The School Nutrition Association (SNA) commented, “We are concerned that the timeframes within the rule are ambitious given the significant changes which will have to be made to school menus that will, at the same time, meet the rule’s requirements, while also retaining student participation.”¹¹ AASA, The School Superintendents Association, also expressed concerns about the cost of the new rule and the rules yet to be offered, stating, “Beyond the anticipated unfunded costs of adopting the higher nutrition standards, we anticipate local education agencies (LEAs) will face similar burdens with the regulations relating to the training and certification requirements, the indirect cost component, and setting a national paid-lunch price.”¹²

At a hearing held by the Subcommittee to examine the impact of the new rules, witnesses described concerns about costs and participation in the programs. Ms. Megan Schaper said:

“My school district was well on the way to meeting the new nutrition standards when we ended the 2011/12 school year. We served an abundance of fruits and vegetables every day, our breads were whole-grain rich, and we knew that our meals were well within the fat and calorie ranges as required. That said, we still had extremely negative reactions from students and families with the meals planned to be in compliance with the meat and grain caps.

Sandwiches and entree salads could not be offered five days a week at our elementary schools without respectively exceeding or not reaching the grain limits. At secondary schools, popular entrees had to be eliminated or substantially reduced in size and in our customers' opinions, the larger fruits and vegetables did not make up for this."¹³

She continued to discuss the decline in participation in her district and the state overall, saying:

"Participation dropped in my schools by 34,000 meals or 3 percent. Anticipating negative reactions to the new standards, my district opted to utilize nonfederal funding to justify not raising our lunch prices this year as would have been required under Section 205, and therefore I believe we avoided larger decreases in participation. The lunch price equity rule required many other districts to raise meal prices. Higher meal prices combined with less satisfaction with the meals in general dealt the proverbial one-two punch to the participation levels in many districts. Statewide in Pennsylvania participation has dropped by 5.6 percent through March with the majority of that loss in the paid-meal category."¹⁴

At the same hearing, GAO noted new rules required some schools to replace popular items with less popular alternatives, which led to greater food waste and students remaining hungry because the food provided was not enough to sustain them throughout the day.¹⁵

Providing all students access to healthy meals in a cost-effective manner is a priority shared by Republicans and Democrats. Unfortunately, the status quo has made it harder for states and schools to serve the needs of their students and families. The bill provides a different approach, one that ensures federal policies (1) reflect the input of school leaders, (2) do not increase costs for schools, (3) meet the needs of all students, (4) are based on sound science, and (5) lead to better participation. Further, the legislation sets up a permanent process to ensure standards are reviewed over time to make certain the needs of students and schools are still being met and, when necessary, changes are considered in a responsible way.

Key aspects of the new process for establishing nutrition standards are increasing transparency and providing the public adequate time to consider the policy changes. H.R. 5003 requires and supports transparency throughout the process, including through consultation with local stakeholders when the new rules are being developed, mandated notice to Congress on the new requirements, and the creation of the School Nutrition Advisory Committee, a

committee created to advise the Secretary on child nutrition programs.

Sodium targets

Schools are in dire need of additional flexibility so they can provide food that kids will eat. Under the current regulations, the next sodium target will take effect in the 2017–18 school year. H.R. 5003 requires the first review of the regulations to be completed by December 31, 2016. During this review, the Secretary will consult with local officials, dietitians, parents, and physicians to determine what changes should be made to the regulations, specifically addressing the whole-grain requirements and the sodium targets to ensure schools can provide food that kids will eat. Because of the impending deadline, the bill requires the sodium target to be frozen at the current level while the Secretary reviews evidenced-based studies to determine the appropriate sodium targets. The new target will go into effect three years from when it is finalized. The three-year implementation is necessary to ensure food producers have time to adapt their food to the new targets, schools have time to purchase the food, and students have time to adapt to changes in the food being served.

Highlighting the need for additional flexibility, Ms. Schaper stated, “To be most effective at ending hunger and curbing childhood obesity, schools need the flexibility to provide healthful lunches that students actually want to purchase and eat.”¹⁶

Milk varieties

Nutrients in milk are important to children’s growth and development. H.R. 5003 provides schools with flexibility to offer additional varieties of milk to encourage students to drink milk. The Committee notes H.R. 5003 continues the longstanding statutory requirement to offer milk with each school lunch. The Committee expects USDA to reaffirm this requirement through the updated manuals and guidance.

Potable water

Current law includes a requirement for schools to make potable water available to students during meal service. In the case of an emergency, access to clean water might not be possible, so the bill authorizes the Secretary to provide access to bottled water to schools that have been affected by a nationally-declared emergency.

Special dietary needs

The legislation requires the Secretary to issue guidance to schools on addressing food-related medical issues, including food allergies and other special dietary needs (such as religious accommodations) when providing school meals or food in other programs. Guidance is needed to ensure kids are not excluded due to special dietary needs.

Family Meal Days

H.R. 5003 requires the Secretary to allow schools or LEAs to waive meal standards up to four days per year to facilitate Family Meal Days.” During the Family Meal Days, schools invite families to share school meals, such as a Thanksgiving meal, with their children. In implementing this provision, the Secretary is prohibited from adding any mandates or requirements to the provision. Schools are provided flexibility to determine when and how best to host these days to maximize family participation.

Community eligibility

HHFKA added the community eligibility provision” (CEP) that provides free meals to all students at a school when a certain percentage of the student population is identified as categorically or automatically eligible for free meals. This provision of current law allows taxpayer dollars to subsidize meals for students who are not otherwise eligible to receive free school meals. H.R. 5003 maintains the provision but increases the threshold to 60 percent, making this provision of the law consistent with other policies affecting the school lunch program. It is important to note this change will not affect eligibility for one single student; every child who is eligible to receive assistance today will still be eligible for assistance under the reauthorized law. The change in the provision, however, allows for more effective use of taxpayer dollars and more help for those students who need it most.

Summer food service program for children

The Committee agrees with the intent of the SFSP in addressing the needs of vulnerable children who might be at a higher risk of hunger during the summer when they are not receiving meals at school. Dr. Kathy Krey, director of research at the Texas Hunger Initiative at Baylor University, testified before the Committee on the importance of the program, stating:

“Regular access to healthy meals in the summer months is important, not just for health but for students’ academic well-being. We know that inadequate nutrition can intensify the learning loss that can occur over the summer. This particularly affects low-income students who can lose up to twice the ground of other students during the summer months.”¹⁷

While some low-income children receive meals at home or through another care arrangement during the summer months, others do not, and meeting the needs of these children can be particularly challenging. H.R. 5003 continues SFSP with fundamental improvements to give states and providers more flexibility to provide meals, especially in rural and low-income areas where children may be more vulnerable, and strengthens existing programs by requiring states to prioritize applications with an educational or enrichment activity.

Streamlining and improving efficiencies

H.R. 5003 continues the Seamless Summer Option (SSO), which allows schools to provide summer meals in a capacity similar to their school-year operations, while providing educational enrichment. H.R. 5003 establishes opportunities to streamline and improve operations of out-of-school meal programs throughout the year. SFSP and CACFP programs work together to provide meals to children beyond the typical school day, whether during the summer or in afterschool programs. Some providers operate both programs to serve children throughout the year but in doing so must navigate through burdensome red tape and expensive and time-consuming hurdles.

USDA has provided guidance to help states simplify and streamline requirements between the two programs so providers can better serve at-risk children.¹⁸ These are steps in the right direction; however, the Committee has heard from numerous providers of both SFSP and CACFP regarding the need to simplify operations and encourage states to improve operations of these programs. H.R. 5003 encourages states to remove expensive and time-consuming hurdles to help community groups serve meals in a more cost-efficient manner. The bill requires the Secretary to provide guidance to help states reduce paperwork and streamline applications, reporting requirements, inspections, and other potential duplications.

Non-congregate site flexibility

Currently, SFSP assists organizations serving meals to children in supervised congregate settings such as summer camps and recreational programs (referred to as the “congregate feeding requirement”). The program works well in many places, helping children access healthy meals in safe, interactive environments. However, this model can be a barrier for families who lack transportation, live in rural areas, or do not have a safe place for children to access help. Mr. Duke Storen, senior director of Research, Advocacy, and Partner Development at Share Our Strength, testified on this point, noting, “States and communities need more options in terms of the way that summer benefits are delivered. Now, there is a single, sort of uniform congregate feeding model, and that works great for some but it doesn’t work at all for most.”¹⁹ H.R. 5003 allows states and providers flexibility from the congregate feeding requirement in rural and low-income areas, or when the existing congregate site is closed due to extreme weather conditions, violence or other safety concerns, or other emergency circumstances, as determined by the state.

This flexibility should be complementary to the existing site-based model—not a complete shift away from an approach that is working for many students. H.R. 5003 limits this allowance to the

areas where there are barriers to successful operation of the current program. Further, the limit of two meals per service and 10 meals per week ensures food and resources are not wasted. States should periodically reevaluate the potential for children to be served at a congregate site as a way to determine whether children might have new opportunities at supervised locations. The approach in H.R. 5003 offers responsible flexibility to states and programs so they may better reach children while protecting the intent of the program.

Child and adult care food program

CACFP supports working parents by ensuring children enrolled in participating child care centers, family child care homes, Head Start facilities, or afterschool programs have access to nutritious meals and important nutrition education. The program helps improve the wellness, healthy growth, and development of young children, older adults, and chronically impaired or disabled persons.

H.R. 5003 extends the definition of “institution” to include any (1) public residential child care institution; (2) private residential child care institution that is licensed and nonprofit; and (3) boarding school funded by the Bureau of Indian Education that is not participating in the school lunch or breakfast programs. This provides flexibility for such institutions to participate in the program that best fits the needs of the children in their care.

While there are many successful aspects of CACFP, substantial hurdles prevent some providers from administering the program effectively, including administrative burdens caused by extensive paperwork requirements, duplicative monitoring, and other requirements. USDA has failed to enact or change policies to reduce the paperwork burden. A 2015 USDA report to Congress found:

Despite broad agreement by USDA and CACFP stakeholders with the 2007 report’s priorities, the current feedback to the Work Group suggests that concrete action to address many of the recommendations has not been effective or fully utilized. Although implementation of provisions of the Healthy, Hunger-Free Kids Act offered further streamlining of application and oversight requirements, it became increasingly clear to members of the Work Group that additional actions would be needed.²⁰

H.R. 5003 includes reforms to reduce paperwork by lengthening eligibility for private centers from one month to four months. The bill also improves financial operations by allowing sponsors to carry-over 10 percent of their administrative funds for administrative purposes, while ensuring proper oversight through accurate reporting. The legislation further reduces administrative burdens by re-convening a paperwork reduction task force.

Another area of improvement is the review and issuance of guidance or regulations regarding the serious deficiency process. This provision will help offer clarity for providers and state agencies, and ensure oversight is fair, uniform, and effective, while retaining program integrity. Improving accountability and integrity will protect federal funds and equip providers to operate more effectively.

Information should be shared with the Department of Health and Human Services (HHS), as many facilities operating CACFP are administered by HHS, to ensure proper oversight.

H.R. 5003 further improves oversight and monitoring for child care providers participating in the CACFP who are, more often than not, participating in a variety of other federal programs with their own sets of monitoring, oversight, and other programmatic requirements. Duplicative paperwork wastes the time and resources of providers and state agencies. H.R. 5003 encourages reviews to be coordinated, streamlined, and consolidated. Lastly, current law allows the Secretary to provide additional state audit funds. H.R. 5003 ensures these funds are used to improve program management and oversight, including by improving practices across state agencies.

Demonstration projects

Current law authorizes demonstration projects to identify more effective ways to eliminate hunger, deliver healthy food to children in and out of school, and help spur local innovation. H.R. 5003 builds on effective demonstrations and includes promising new methods for funding and delivering child nutrition programs. Before investing wholesale in new ideas or widely expanding current practices, alternate delivery methods must be tested and measured for effectiveness.

Access to local foods: Farm to school program

The existing Farm to School Program has led to more agricultural producers being involved in child nutrition programs, better nutrition education, and more local foods being served in schools. The grants from this program act as one-time capital infusions to schools so they can invest in the infrastructure and operations needed to promote long-lasting nutrition education and procure regional foods. Ensuring these grants are awarded to a variety of grantees across the country is important; therefore, H.R. 5003 limits entities to one grant at a time. In addition, the legislation provides a grant period of up to three years, which streamlines the process to combine the current “planning” and “implementation” periods into one award cycle.

Summer meal service through business partnership

Many children and families benefit from the healthy meals supported by SFSP during the summer when school meals are not available. The Committee includes commonsense reforms in H.R. 5003 to strengthen this program. These reforms ensure local governments, camps, and nonprofit organizations can better serve children in the summer. In addition, businesses are taking initiatives to address hunger in their communities. Mr. Storen testified:

“For decades, public-private partnerships have been at the core of this solution, allowing community organizations, schools, faith-based groups, and private companies to come together to address the issue. Through our work to end childhood hunger in all 50 states, we see the power

that comes from all sectors working together to solve this problem.”²¹

When local communities and businesses leverage resources to develop innovative approaches, they create solutions to address hunger in ways the government cannot. That is why H.R. 5003 authorizes a demonstration project that would allow four states to approve businesses as sponsors to provide summer meals in low-income or rural areas without current meal service.

The Committee views this demonstration project as a promising approach that builds upon the work businesses are already doing to help increase access to summer meals for eligible children. H.R. 5003 limits the project to four states as a way to assess the impacts these businesses can have on addressing childhood hunger with less federal involvement while also examining taxpayer funds are used more efficiently and effectively than other methods.

Summer electronic benefit transfer for children

The *Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010* (P.L. 111–80) authorized and provided funding for the USDA to implement and evaluate demonstrations to reduce summer hunger for children. USDA developed the SEBTC demonstration to study the use of SNAP and WIC electronic benefits transfer technology to provide food assistance to low-income children during the summer.

The existing project demonstrated some promise in addressing food insecurity in the summer, but questions remain whether this method produces the best results in the most cost-effective manner. Participation rates, consumption rates, and the cost of the program compared to the benefits need to be understood before the program is expanded. For this reason, H.R. 5003 allows states that are currently participating in SEBTC to continue operating and evaluating this project. It is the Committee’s intent that states participating in the demonstration, as amended through H.R. 5003, will study additional parameters to improve the program and determine whether it is an effective delivery method for providing access to meals in the summer.

The Committee is concerned that “administrative costs for SEBTC in its early demonstration years were higher than for most ongoing nutrition assistance programs.”²² States should seek to minimize such administrative costs, so H.R. 5003 limits these funds for participating states.

State administration of child nutrition programs

This demonstration project would provide up to three states with the opportunity to develop programs and policies to best meet the nutritional needs of the school-aged children in their states, free from specific federal requirements and regulations. States will be

awarded a grant to administer this provision for a three-year period, which will be equal to the funds provided to the state in FY 2016 for free and reduced price meals through the school lunch, school breakfast, special milk, state administrative expenses, and team nutrition network programs. Participating states will provide additional non-federal resources to meet the needs of children in the state. To participate, states will have to (1) provide healthy meals to children; (2) ensure each child has access to at least one affordable meal during the school day; (3) determine income thresholds for such meals; (4) provide technical assistance to ensure maximum participation; and (5) ensure all funds received by the state are used to provide meals and carry out the activities provided in this demonstration. It is important to explore new ways to fund and operate existing programs to ensure taxpayer funds are being used efficiently and effectively. This project will help states and Congress identify better ways to provide healthy meals to students.

Fruit and vegetable program

To help provide students access to fruits and vegetables, H.R. 5003 opens the Fruit and Vegetable Program to all forms of fruits and vegetables. When providing guidance on this expanded option, the Secretary shall ensure all forms of fruits and vegetables—fresh, frozen, canned, and dried—are treated equally and schools will be able to select the form best for their students and schools.

Compliance and accountability

While accountability is critical for federal programs, federal nutrition policies currently include compliance requirements that have increased paperwork and costs for participants with little benefit for taxpayers. Some of these provisions have left states without time to focus on schools and school districts that need extra support to improve verification and prevent waste, fraud, and abuse. H.R. 5003 includes provisions that focus on poorly performing districts, removes unnecessary requirements that increase costs, and reverts back to the five-year audit cycle to ensure states have time to assist school districts in need rather than simply check boxes on paperwork. The legislation also strikes the requirement for a minimum price to be charged for paid meals, because this is a decision that should be left to local leaders.

Improvements to school lunch facilities

According to the Pew Charitable Trusts, 88 percent of school districts are in need of at least one piece of kitchen equipment, and 55 percent of school districts need to make changes to their kitchen infrastructure.²³ H.R. 5003 continues funding and guaranteed loans for schools to improve kitchen facilities.

Prohibitions

Recent federal regulations governing child nutrition are often far overreaching and too burdensome for schools. H.R. 5003 includes a new section that prohibits the Secretary from placing additional

burdens on schools as the reforms in the legislation are enacted. In implementing the provisions of this bill, the Committee expects the Secretary to follow the letter and spirit of the law.

Title II—Child Nutrition Act

Title II of the bill amends the CNA and addresses several major issues.

School Breakfast Program

According to the SNA, one in five children live in food insecure households. The School Breakfast Program is critical to helping these students receive the nutrition they need to succeed at school.²⁴ Unfortunately, the federal meal pattern requirements updated after HHFKA added an estimated \$0.27 per breakfast served but provided no additional funding to help schools cover those costs.²⁵ As previously noted, the changes to the meal standards will significantly curtail the additional costs for providing school meals, yet providing a healthy breakfast is still a cost every participating school faces. H.R. 5003 provides the first increase in the breakfast reimbursement rate for schools in more than 25 years. This will mean an additional \$0.03 by the end of the authorization for schools for each breakfast served. This critical assistance to schools is made possible through other reforms in the legislation and at no additional cost to taxpayers.

State administrative expenses

Some local school systems have explored alternative food delivery models through the use of private contracts. The bill encourages this practice by providing greater flexibility with respect to the use of federal funds, which will help ensure states coordinate with and reimburse entities for utilizing cost saving strategies. The Committee recognizes the training requirements for school food service personnel and supports efforts to offer this training at times that are most convenient for the staff, therefore minimally disrupting other duties or jobs and requirements.

Smart snack rule

HHFKA required the Secretary to issue new rules covering the sale of foods not reimbursed by the federal government, referred to as “competitive foods.” The rule introduced new requirements covering when certain foods could be served outside of the paid meal lines. USDA did not establish the cost of these new regulatory requirements, stating, “The magnitude of these effects is subject to considerable uncertainty; the ultimate impact of the rule will be determined by the manner in which schools implement the new standards and how students respond.”²⁶ School officials raised seri-

ous concerns about the impact of these rules. For example, testifying before the Subcommittee, Ms. Sandra Ford, director of Food and Nutrition Services with Manatee County School District in Bradenton, Florida, stated the new rule was estimated to cost the district roughly \$1 million in annual revenue.²⁷ This rule was issued as schools struggled to implement new nutrition standards, which resulted in disrupting many school fundraisers. To protect the ability of students to fund class trips, run career and technical education programs involving food programs and workforce education, and other school-based activities, the bill requires the Secretary to improve current rules. The Committee expects that new regulatory policies will make it easier for schools to plan their menus and provide food kids will eat, limit the financial impact of the rule for schools, and ensure student-led fundraisers are allowed to operate.

Special Supplemental Nutrition Program for Women, Infants, and Children

WIC provides supplemental nutritious foods, nutrition education, and counseling at WIC clinics—as well as screening and referrals to other health, welfare, and social services—for income-eligible women who are pregnant or post-partum, infants, and children up to five years of age. The bill strengthens the program for taxpayers and vulnerable mothers and children by improving the contracting, sole source bidding, and anti-waste, fraud, and abuse provisions. The changes to the moratorium process will properly balance the need to prevent fraudulent and wasteful activity with the need to ensure local businesses, WIC participants, and non-participants are not unduly harmed.

As the Secretary reviews allowable foods under WIC, it is important they do not limit access to fruits and vegetables. H.R. 5003 includes language to ensure the Secretary does not arbitrarily limit children's access to fruit.

H.R. 5003 includes a provision regarding certain food for infants. This provision is intended to ensure states consider the full range of costs and benefits associated with single-supplier rebate contracts for infant foods. Administrative costs and potentially higher retail prices for products offered through single-supplier agreements reduce the “savings” achieved through these agreements. Higher retail prices also negatively affect non-WIC consumers. Single-supplier contracts reduce variety and choice for WIC participants and may contribute to lower redemptions in this product category. Lower redemption rates diminish the goals of increasing consumption of fruits and vegetables. In November 2015, the Institute of Medicine released its “Review of WIC Food Packages: Proposed Framework for Revisions: Interim Report,” and stated:

“On the one hand, containing costs is essential for maximizing program funds to serve as many WIC-eligible individuals as possible. Yet strategies that limit cost are often

synonymous with strategies that limit choice. Cost-containment practices that restrict participant choice in such a way that some foods become undesirable for purchase undermine WIC's goal to provide healthy and nutritious foods to low-income individuals. As a result, states attempt to balance containing cost with promoting enough variety and choice among healthy WIC foods that families will want to purchase those foods.”²⁸

Improving the contracting provisions is a critical reform to the WIC program in H.R. 5003. Providers of infant formula fund just over 20 percent of the WIC program through the infant formula rebate program. Infant formula rebates totaled approximately \$1.8 billion in FY 2015. The proposed reforms seek to achieve a better balance in the rights and obligations of the contracting parties when entering into WIC rebate contracts. These reforms are necessary to ensure a fair process during the bid solicitation and contract review process.

In addition, the bill requires GAO to study the impact of adjunctive eligibility on the WIC program and participants. Data used to evaluate this provision must be fair, accurate, and examine how many states have eligibility requirements above the WIC statutory eligibility requirement of 185 percent of poverty. The Committee included a timeframe of 18 months for completion of the report.

Team nutrition network

Team Nutrition is an initiative run by USDA's Food and Nutrition Service to provide training and technical assistance to food service workers, nutrition education to children and their caregivers, and school and community support for healthy eating and physical activity.²⁹ The bill makes improvements to better support nutrition education and improve coordination of activities in this area. This will include guidance from the Secretary for schools to coordinate work with their “farm to school” grants and plans for the newly allowed Family Meal Days. The prohibitions included in Title I of the bill are critical to ensuring the Secretary does not overreach and does not dictate curriculum, standards, or other activities that are best left to state and local officials to determine and develop.

Title III—Miscellaneous

Title III of the bill addresses miscellaneous provisions.

Reviews

H.R. 5003 includes many areas the Secretary shall review to improve child nutrition programs. Of particular note is a requirement to determine if there are more appropriate data sources to use other than the school meal eligibility data for other federal programs that are means tested.

Additionally, the requirement to look at crediting in school meals is important to ensure the process is neutral in its application and does not arbitrarily leave foods ineligible for the program or a part of the program. The Food and Nutrition Service should properly apply the exemptions in its 2013 regulations to nut, seed, or nut/seed butter (separate or combined with other ingredients) on competitive foods sold in U.S. schools. Additionally, USDA should review the allowance of jerky products that provide significant protein in a form kids will consume. It is important that USDA not exclude foods that provide a good source of nutrition in a cost effective manner that are enjoyed by students, therefore limiting food waste.

Another important review the Secretary shall conduct is an evaluation of the number of incidences and types of unlawful activity that have occurred over the last three years, including a review of the agencies responses, and to take action preventing further fraud. Finally, it is important the Secretary review the regulations regarding infant formula and update them appropriately to reflect the current scientific knowledge.

Program delivery

It is important for the Secretary to continually review federal policies and the impact they have on states, school districts, and schools. The Secretary should also recognize that federal rules are often in addition to rules state leaders place on school districts and schools. The Secretary must work with states to coordinate and streamline requirements and reduce duplication.

School nutrition advisory committee

The Secretary must engage all stakeholders in the implementation of child nutrition programs. As part of this engagement, the Secretary should pay particular attention to those who pay for and run these programs. The advisory committee will make recommendations to the Secretary on important issues and provide local stakeholders a role in the decision-making process. By requiring the appropriate congressional committees to provide recommendations for membership, the bill will ensure that a diverse range of thought and opinion is adequately reflected. The Secretary and USDA staff must not inappropriately interfere in the work of the committee. The committee's role is to provide thoughtful and deliberative feedback and recommendations on policies, free from influence of the Secretary and administration.

Conclusion

Helping children succeed in the classroom is a priority of both Republicans and Democrats, and children cannot learn in the classroom if they are hungry. That is why federal policies have long supported states, schools, and other institutions as they work to meet the nutritional needs of low-income children and families in their communities. Unfortunately, federal rules and mandates issued in recent years make serving vulnerable children harder for state and local leaders. The current one-size-fits-all approach has resulted in higher costs for schools and fewer students being served. This bill provides a better way for children and families who rely on nutrition assistance. Through a number of positive re-

forms, this bill will deliver the flexibility, accountability, and additional support students, families, schools, and taxpayers need. The bill reflects the Committee’s ongoing effort to ensure the federal government spends taxpayer resources responsibly and all children have equal opportunities to achieve a lifetime success.

Title I—Richard B. Russell National School Lunch Act

Section 100—Authorized State agency

Changes “State educational agency” to “State agency.”

Section 101—Apportionment to states

Returns to the Treasury any administrative funds provided to states to implement the new school meal rules unspent by September 30, 2016, and requires the Secretary to announce the reimbursement rate for the upcoming school year and any necessary guidance by February 15, 2017.

Strikes a provision to inform families of what the income threshold is to qualify for reduced priced meals and requires the inclusion of a provision on the notice to families to clarify individuals may report alleged fraud to the USDA Inspector General (IG) and requires the USDA to have a prominent link to the USDA IG website and a phone number which can be used to report alleged fraud. Also requires the Secretary to review school meal applications and provide states best practices and guidance to improve the application process and clarifies school food authorities’ interactions with families regarding applications.

Makes changes to the meal application verification process to help reduce the error rate for approved applications. Phases in these changes after one year.

Amends the nutrition standards requirements to require a triennial review of the standards, with the first review occurring by December 31, 2016.

Includes an allowance for Family Meal Days. Also includes a requirement for guidance to schools allowing school food authorities to substitute food items, including in-season, locally-produced fruits and vegetables when there is difficulty in procuring food to comply with the regulations, provided the school food authority continues to meet the nutrition standards.

Section 105—Miscellaneous provisions

Amends the CEP, updates the procurement training requirements from 2015 to 2021, and repeals paid meal equity requirements.

Section 106—Summer food service program for children

Prioritizes applications with an educational or enrichment activity and requires states to include in their administration and management plan how they will strengthen the congregate feeding model.

Encourages all states to streamline and simplify operations for institutions eligible to participate in the At-Risk Afterschool component of CACFP and allows states that have demonstrated such streamlining to be reimbursed for meals both in summer and throughout the school year as a way to further streamline meal delivery and reduce burden on providers and states. The funding in this provision is phased in by allowing five states in May 2017, an additional five states in October 2018, and to any state in May 2020. These meals will be reimbursed consistent with rates in CACFP.

Requires the Secretary to grant state requests to allow children already participating in the program to consume meals off-site when the existing congregate site is closed due to extreme weather conditions, violence or other safety concerns, or other emergency circumstances as determined by the state.

Permits a state to elect for service organizations to provide summer meals to children that may be consumed away from the congregate site. The child being served such meals must live in a rural area or an area where more than 80 percent of students are certified as eligible to receive free- or reduced-price lunch.

Section 107—Commodity Distribution process

Makes technical corrections to the Commodity Distribution program and strikes a mandate for a notice of irradiated food products.

Section 108—Child and adult care food program

Extends the definition of “institution” to include any (1) public residential child care institution; (2) private residential child care institution that is licensed and nonprofit; and (3) boarding school funded by the Bureau of Indian Education, so long as the institution does not participate in the school lunch or breakfast programs. Lengthens eligibility for private centers from one month to four months. Allows sponsoring organizations to carry over 10 percent of their administrative funds for any succeeding fiscal year for ad-

ministrative purposes and requires reporting on the amount retained for administrative costs.

Requires the Secretary to review, and issue guidance or regulations regarding, the serious deficiency process. Requires relevant information to be shared with the HHS during the review of the serious deficiency process as well as when reviewing program participants. Requires the Secretary to convene an advisory committee to examine the feasibility of reducing unnecessary or duplicative paperwork and implement changes resulting from recommendations. Ensures states use any additional audit funds provided by the Secretary to improve program management and oversight, including across state agencies.

Section 109—Demonstration projects

Strikes outdated projects and authorizes the following four projects:

- Access to Local Foods: Farm to School Program;
- Summer Meal Service through Business Partnership;
- Summer Electronic Benefit Transfer for Children; and
- State Administration of Child Nutrition Programs.

Section 110—Fruit and vegetable program

Removes the limitation to provide fresh fruit and vegetables thereby opening the program to all forms, but includes clarification that states have the option to elect offering all forms. Encourages schools to introduce fruits and vegetables to children in new contexts, including allowing schools to offer combinations of fruits and vegetables with tree nuts.

Section 111—Compliance and accountability

Reverts the required audit cycle back to five years (rather than three years) and requires states to work with LEAs on “Error Reduction Plans.”

Section 112—Repeal of State Childhood Hunger Challenge Grants

Repeals the State Childhood Hunger Challenge Grants.

Section 113—Duties of the Secretary relating to non-procurement debarment

Title III—Miscellaneous

Section 301—Reviews

Establishes an advisory committee to provide input from stakeholders to the Secretary on the administration of the programs under these laws.

Section 306—Paperwork reduction

Requires the Secretary to review regulations, guidance and other requirements in order to identify ways to streamline and reduce paperwork requirements, and if appropriate, act on such review to streamline or otherwise reduce the paperwork burden on states and schools. Requires a report on the paperwork burden to Congress after two years, and every three years thereafter (or upon any guidance or updated federal requirements).

Section 307—Technology

Requires the Secretary to review the current use of technology in the school lunch program and identify opportunities to make improvements and encourage greater use.

Section 308—Improving health and safety oversight and monitoring for the Child and Adult Care Food Program

Requires the Secretary and the Secretary of HHS to work together to improve health and safety oversight and monitoring practices required under CACFP by issuing guidance to states to reduce duplicative monitoring or oversight activities that are a result of multiple federal regulations, including through CACFP, the *Head Start Act*, and the Child Care and Development Fund.

COMMITTEE ON THE BUDGET

December 7, 2016

The Honorable John Kline
Chairman
Committee on Education and the Workforce
U.S. House of Representatives
2176 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Kline,

I am writing regarding H.R. 5003, the *Improving Child Nutrition and Education Act of 2016*, which the Committee on Education and the Workforce ordered reported in the nature of a substitute on May 18, 2016.

The bill contains provisions that fall within the exclusive jurisdiction of the Committee on the Budget. In order to expedite House consideration of H.R. 5003, the Committee will forgo action on the bill. This is being done with the understanding that it does not in any way prejudice the Committee with respect its jurisdictional prerogatives on this or similar legislation. I also ask that the Committee on the Budget be appropriately consulted and involved as this bill or similar legislation moves forward so that the Committee may address any remaining issues that fall within its jurisdiction.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 5003 and would ask that a copy of our exchange of letters on this matter be included in the *Congressional Record* during floor consideration.

Sincerely,

Tom Price, M.D.
Chairman

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

In accordance with clause (3)(c) of House Rule XIII, the goal of H.R. 5003 is to improve child nutrition programs by examining federal investments, reducing burdensome requirements, and strengthening programs.

DUPLICATION OF FEDERAL PROGRAMS

No provision of H.R. 5003 establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111-139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

DISCLOSURE OF DIRECTED RULE MAKINGS

The committee estimates that enacting H.R. 5003 does not specifically direct the completion of any specific rule makings within the meaning of 5 U.S.C. 551.

STATEMENT OF OVERSIGHT FINDINGS AND RECOMMENDATIONS OF THE COMMITTEE

In compliance with clause 3(c)(1) of rule XIII and clause 2(b)(1) of rule X of the Rules of the House of Representatives, the committee's oversight findings and recommendations are reflected in the body of this report.

NEW BUDGET AUTHORITY AND CBO COST ESTIMATE

With respect to the requirements of clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974 and with respect to requirements of clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 402 of the Congressional Budget Act of 1974, the committee has received the following estimate for H.R. 5003 from the Director of the Congressional Budget Office:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, June 30, 2016.

Hon. JOHN KLINE,
*Chairman, Committee on Education and the Workforce,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 5003, the Improving Child Nutrition and Education Act of 2016.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Jennifer Gray.

Sincerely,

KEITH HALL.

Enclosure.

H.R. 5003—Improving Child Nutrition and Education Act of 2016

Summary: H.R. 5003 would amend and reauthorize child nutrition programs and the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC). Those authorizations would extend through 2021.

CBO estimates that enacting this legislation would decrease direct spending by \$128 million over the 2017–2021 period and by \$59 million over the 2017–2026 period for the child nutrition programs. Enacting the bill would increase revenues by \$8 million over the same period.

Additionally, CBO estimates that implementing H.R. 5003 would increase discretionary costs by \$29.8 billion over the 2017–2021 period, assuming appropriation of the necessary amounts. Most of those costs would be for the reauthorization of WIC.

Pay-as-you-go procedures apply because enacting the legislation would affect direct spending and revenues. CBO estimates that enacting the legislation would not increase net direct spending or on-budget deficits by more than \$5 billion in any of the four consecutive 10-year periods beginning in 2027.

The bill would impose new requirements on states and on school districts that implement child nutrition programs. Those requirements would be intergovernmental mandates as defined in the Unfunded Mandates Reform Act (UMRA). In aggregate, CBO estimates that the costs of intergovernmental mandates in the bill would fall below the threshold established in UMRA (\$77 million in 2016, adjusted annually for inflation). The bill contains no private-sector mandates as defined in UMRA.

Estimated cost to the Federal Government: The estimated budgetary effect of H.R. 5003 is shown in the following table. The costs of this legislation fall within budget function 600 (income security).

Background

The child nutrition programs include several programs that benefit mainly school-age children. Schools can provide meals to stu-

dents through the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). The federal government reimburses participating schools for at least part of the cost of each meal served through those programs. Schools receive a relatively small subsidy for meals served to students from households with incomes above 185 percent of the federal poverty level (referred to as paid meals) and larger subsidies for meals served to students from lower income households.

Students from households with incomes below 185 percent of the federal poverty level can apply to receive free or reduced-price meals, depending on their level of household income. Those students also can qualify for free meals based on household participation in other assistance programs (the Supplemental Nutrition Assistance Program, Temporary Assistance to Needy Families, Food Distribution Program on Indian Reservations, or in some cases, Medicaid) or their status as a homeless, runaway, migrant, or foster child. State or local agencies can directly certify that students meet those criteria based on documentation from the appropriate agencies or authorized individuals.

The Child and Adult Care Food Program (CACFP) provides reimbursement for meals and snacks served to children and adults in participating child and adult care centers, day care homes, Head Start programs, afterschool programs in low-income areas, and emergency shelters. Organizations participating in the At-Risk Afterschool Meals component of CACFP can receive reimbursement for meals and snacks served to children 18 years of age or younger after school, on weekends and holidays, and during school vacations during the regular school year. The Summer Food Service Program (SFSP) provides reimbursement for meals and snacks served to children at qualifying sites during the summer when school is not in session.

Direct Spending

CBO estimates that enacting H.R. 5003 would, on net, reduce direct spending by \$59 million over the 2017–2026 period (see Table 2).

Community Eligibility Provision (CEP). Under the Community Eligibility Provision, participating schools must serve all breakfasts and lunches free of charge. They do not collect applications from students and reimbursements for meals are based on a formula specified in law. Under CEP, school districts, groups of schools within a district, or individual schools can opt to participate in the program if the percentage of enrolled students that are directly certified for free meals without an application—known as the identified student percentage (ISP)—is at least 40 percent.

The bill would increase the minimum ISP for schools or groups of schools participating in CEP to 60 percent beginning July 1, 2017. Schools already participating in CEP when the provision becomes effective would have until the beginning of school year 2018–2019 to comply with the new ISP threshold.

Based on the characteristics of schools currently participating in CEP, CBO estimates that this provision would affect more than 8,500 schools. CBO estimates that about 2,000 of those schools would continue participating in CEP by forming new groups with an ISP that would meet the 60-percent threshold. The other 6,500 schools would no longer participate in CEP. Those schools would revert to the system of collecting applications for free and reduced-price meals and receiving reimbursements based on the number of free, reduced-price, and paid meals that the schools served. Additionally, CBO expects that participation in the school meals programs would decline in those schools as students eligible for reduced-price and paid meals would no longer receive meals free of charge. CBO estimates that enacting this provision would reduce direct spending by about \$1.6 billion over the 2017–2026 period.

Summer Food Service Program. H.R. 5003 contains several provisions related to SFSP. In total, CBO estimates that enacting those provisions would increase direct spending by \$889 million over the 2017–2026 period.

Summer and CACFP At-Risk Streamlining. Section 106 would allow sites that are not schools to provide meals and snacks to at-risk students year-round under a single program. Eligible sites could serve lunch and either breakfast or a snack during the summer months and up to one meal and one snack during the school year after school, on weekends, and on school holidays. All meals served during the year would be reimbursed at the rates provided through the CACFP At-Risk Afterschool Program. The year-round option would be available for up to five states beginning in May 2017, up to five additional states beginning in October 2018, and all states beginning in May 2020.

California currently operates a similar program that allows non-school SFSP sites to serve snacks after school, on weekends, and on school holidays. Based on data from the California program and consultation with states and policy experts, CBO expects that ultimately one-quarter of eligible SFSP sites would participate in the year-round program. Some of those sites currently operate programs through both SFSP and the CACFP at-risk afterschool program. Additionally, CBO expects that some sites that only operate through the CACFP at-risk afterschool program would add a SFSP site. By 2026, CBO estimates that nearly 9,000 sites would operate a year-round program through this option. In total, CBO estimates that by 2026, about 29 million snacks and 57 million suppers would be served during the school year and 31 million meals and snacks would be served during the summer months through this program. CBO estimates that enacting this provision would increase direct spending by \$758 million over the 2017–2026 period.

Off-Site Consumption Option. Under current law, all SFSP meals must be served in a congregate setting, where all meals are consumed where they are served. Section 106 would allow SFSP sites to provide off-site meals to children in rural or high-poverty areas if the area is not served by a congregate site. For example, a demonstration project allowed participating sponsors to provide off-site meals through a delivery service in selected rural areas. The bill would limit the number of meals served to each child to two meals per service and 10 meals per week.

Based on consultation with states and policy experts, CBO estimates that SFSP sponsors would serve a little less than 10 percent of eligible children living in eligible areas under this option. CBO estimates that enacting this provision would increase direct spending by \$131 million over the 2017–2026 period.

Health Inspections. Section 106 also would allow states to use SFSP state administrative funds for health inspections. Because states have historically obligated most of their administrative funds, CBO expects that increased expenditures from administrative funds would total less than \$500,000 in each year and over the 2017–2026 period.

Breakfast Reimbursement Rates. Section 202 would increase federal reimbursements for all breakfasts served through the SBP by 2 cents in the 2018–2019 school year and by an additional 1 cent in the 2020–2021 school year. Those increases would incorporate inflation each year. Breakfasts served in child and adult care centers through the CACFP are reimbursed at the SBP rates, so those breakfasts also would receive higher reimbursements. CBO estimates enacting that this provision would increase direct spending by \$801 million over the 2017–2026 period.

Income Verification Procedures. Under current law, local educational agencies (LEAs) are required every school year to verify the eligibility of individuals from a sample of household applications for free and reduced-price meals that have been approved. For most LEAs, the sample they must verify is the lesser of 3,000 applications or 3 percent of all approved applications. The applications are selected from among error-prone applications, which are applications with a monthly income that is within \$100 of the income threshold to be eligible for free or reduced-price meals. If there are not enough error-prone applications to complete the sample, LEAs can select applications at random.

The bill would increase the sample size to the lesser of 10,000 applications or 10 percent of approved household applications. The bill also would expand the types of applications and students that LEAs select for verification, including, for example, applications with information that is inconsistent with other information provided by the household and directly certified students. The bill also would provide several mechanisms to reduce the sample size to less than 10 percent. Finally, the bill would make other changes to the verification process, such as extending the deadline for completing verification activities from November 15 to December 15 of each year.

CBO expects that more applications would be selected for verification under the bill than under current law. Because the verification process uncovers more instances of households reporting too little income than too much income, verifying more applications would, on average, reduce the number of students who are eligible for free and reduced-price meals. In addition, some eligible students would lose meal benefits because they failed to provide the necessary documents for verification. Under the bill, CBO estimates that 12 million fewer free lunches and breakfasts and 5 million more paid lunches and breakfasts would be served in 2026; there would be little change in the number of reduced-price meals served. Those estimates are based on data from FNS on the results and response rates from the verification process and on the number

of students in LEAs that meet the criteria for reducing the sample size. CBO estimates that implementing the new verification procedures would reduce direct spending by \$261 million over the 2017–2026 period.

Farm to School Program. Section 109 would increase from \$5 million to \$10 million the annual funding for the program, which aims to improve access to local foods in certain schools. Thus, CBO estimates that enacting this provision would increase direct spending by \$49 million over the 2017–2026 period.

Equipment Grants. Section 114 would authorize appropriations totaling \$25 million over the 2017–2019 period for grants to schools to build infrastructure and purchase equipment to serve healthier meals and improve food safety. CBO expects that some grant recipients would use those funds to purchase equipment that would allow them to begin or expand breakfast operations through initiatives such as grab-and-go breakfast or breakfast in the classroom. Based on information on the operation of similar programs, CBO estimates that a little more than 700 schools would use grant funding for SBP and would thus serve more breakfasts. CBO estimates that appropriating the authorized amounts would increase direct spending for school breakfasts by \$42 million over the 2017–2026 period.

Demonstration Projects. Section 109 would create several new demonstration projects. In total, CBO estimates that enacting those provisions would cost \$40 million over the 2017–2026 period.

Summer Electronic Benefit Transfer (EBT) Demonstration Project. Under the bill, states that have operated a summer EBT demonstration project under a previous authority could continue operating that project. Such states would be able to provide a summer EBT card to children in certain areas who are in households where at least one school-aged child is eligible for free or reduced-price meals. The bill also would require the Secretary of Agriculture to complete an evaluation of the demonstration project. Finally, the bill would provide \$10 million per year for each of fiscal years 2018 through 2020 for that project. CBO estimates that enacting this provision would increase direct spending by \$30 million over the 2017–2026 period.

Business Partnership Demonstration Project. Under the bill, a maximum of four states could receive grants to reimburse for-profit food vendors for meals they serve through the SFSP in areas with unmet needs. The grants would be available to the participating states for three years. Based on information from policy experts and food vendors that currently sell meals to SFSP sponsors, CBO estimates that this provision would increase direct spending by \$10 million.

State Administration of Child Nutrition Programs Demonstration Project. Under the bill, up to three states could receive a block grant with a fixed level of funding for several child nutrition programs. The grant period would be three years, with the possibility of an additional three-year extension. The annual funding level for each participating state would equal the amount the state received in fiscal year 2016 for free and reduced-price meals served through NSLP and SBP (excluding the amounts received through the six-cent reimbursement for schools in compliance with nutrition standards) and the amounts the state received through the Special Milk

Program, state administrative expenses, and Team Nutrition. The participating states would not be able to receive additional federal funds for those programs. Under the block grant program states would have broad flexibility in administering those programs.

Based on consultation with state officials and policy experts, CBO does not expect that any state would take up this option. As a result, enacting this program would not affect direct spending.

Child and Adult Care Food Program. H.R. 5003 contains provisions that change the types of institutions that may participate and the terms of participation for CACFP. In total, CBO estimates that enacting those provisions would save \$33 million over the 2017–2026 period.

New Institutions in CACFP. Section 108 would allow residential child care institutions (RCCIs) and boarding schools funded by the Bureau of Indian Education (BIE) to serve meals through CACFP. Those institutions can currently serve meals through NSLP and SBP. The bill would prohibit RCCIs and such boarding schools from receiving reimbursements through those programs while concurrently receiving reimbursements through CACFP. The bill would allow RCCIs to serve meals to children 18 years of age and younger through CACFP. Boarding schools funded by BIE would be permitted to serve meals to children 12 years of age and younger, except meals served through the At-Risk Afterschool program, which has a higher age limitation.

Institutions serving meals through CACFP comply with different administrative and nutrition requirements than those under NSLP and SBP. Based on information from policy experts, CBO estimates that ultimately half of the meals and snacks RCCIs serve through the school lunch and breakfast programs would switch to CACFP. CBO does not expect that boarding schools would switch to CACFP because they would not receive reimbursement for meals served to children 13 years of age or older.

Institutions meeting the nutrition standards in NSLP receive an additional per-meal reimbursement for lunches served, and institutions in high-poverty areas receive additional per-meal reimbursements for meals served through NSLP and SBP. Meals served through CACFP are not eligible for these additional reimbursements. As a result, RCCIs switching from the school lunch and breakfast programs to CACFP would receive lower reimbursements for each meal they serve. However, the increase in CACFP meals served would result in increased funding for states to audit CACFP institutions. On net, CBO estimates that this provision would decrease direct spending by \$42 million over the 2017–2026 period.

Eligibility for For-Profit Institutions. Under current law, child care centers that operate on a for-profit basis are eligible to receive reimbursements for meals served through CACFP if they meet certain requirements related to the income or program participation of children they serve. For-profit centers must certify that they meet those eligibility requirements each month in order to receive meal reimbursements. Section 108 would increase the period of eligibility to four months for those institutions. During that four-month period, for-profit centers would be eligible to receive reimbursements for meals served to children even if they did not meet certain program requirements during the certification period.

Based on data on participation patterns in the program and information from policy experts, CBO estimates that, by 2026, about 225 child care centers would maintain eligibility for at least one additional month. CBO estimates that this provision would increase direct spending by \$9 million over the 2017–2026 period.

Team Nutrition. Section 207 would provide \$17 million for Team Nutrition each year. Current law authorizes such sums as maybe necessary for the program. CBO projects the funding for Team Nutrition by adjusting the most recent funding level for inflation. In 2016, \$17 million was provided for Team Nutrition and CBO projects that funding will increase to \$22 million by 2026. CBO estimates that the bill would lower the projected funding level each year relative to CBO's baseline and would reduce direct spending by \$22 million over the 2017–2026 period.

Commodity Reimbursement Calculation. Under current law, the Food and Nutrition Service (FNS) is required to spend at least 12 percent of the total cash assistance in NSLP on commodities. Through fiscal year 2020, the value of bonus commodities can count toward the requirement. (Bonus commodities are purchases made by the Department of Agriculture and donated to NSLP.) Including the value of those commodities reduces the amount of additional commodity purchases that FNS must make to reach the required level. Based on recent levels of donations, CBO estimates that under current law, the program will receive \$6 million per year in bonus commodities through 2020.

H.R. 5003 would change the current formula for commodity reimbursement, but CBO estimates that the amount of commodity spending would remain essentially the same under the new formula. However, the value of bonus commodities would no longer count toward total commodity spending (although schools would still be able to receive bonus commodities). Therefore, CBO estimates that enacting this provision would increase direct spending for commodity purchases by \$24 million over the 2017–2026 period.

Other Provisions. The bill includes several other provisions that would increase direct spending by less than \$500,000 in any year.

- Section 104 would provide \$475,000 per year to purchase bottled water during emergencies and when public water poses a risk to the health of school children. CBO estimates that enacting this provision would increase direct spending by about \$5 million over the 2017–2026 period.

- Section 105 would remove requirements related to the price that schools charge for full-price lunches. Under current law, schools charging less than the difference between the federal reimbursement for a free lunch and the federal reimbursement for a paid lunch are required to increase the price they charge for a lunch, unless the state ensures that there are sufficient nonfederal funds to cover the gap. The bill would remove those requirements. CBO expects that some schools would reduce the amount they charge for a full-price lunch, leading to an increase in participation in NSLP. CBO estimates that this provision would increase costs by less than \$500,000 in each year and over the 2017–2026 period.

- Section 203 would require the Secretary to establish a centralized exchange network that would allow states to exchange

information about the child nutrition programs. The bill would limit spending on the network to \$450,000.

- Section 302 would require the Secretary to conduct a study on business involvement by the private sector in the school meal programs. The bill also would require the Secretary to submit a report to the Congress on the findings from that study and recommendations for legislative action that would improve efficiency and lower administrative costs for the school meal programs. The bill would limit spending on the study and report to \$475,000.

Interaction Effects. The bill includes several provisions that would interact with each other. For example, the provision in section 105 that would increase the threshold for participation in CEP would interact with the provision in section 202 that would increase breakfast reimbursement rates. CBO expects that the CEP change would decrease the number of breakfasts served; that decrease in reimbursable breakfasts would thus reduce the costs of increasing breakfast reimbursement rates. In total, CBO estimates that interactions would reduce costs by \$35 million over the 2017–2026 period.

Revenues

Section 113 would require the Secretary to levy civil monetary penalties against contractors of a child nutrition program who are found guilty of certain criminal activities that have harmed the program. Those activities include undertaking anticompetitive behavior, such as price-fixing; making false statements; committing fraud, bribery, or embezzlement; and knowingly receiving stolen property. CBO estimates that enacting H.R. 5003 would increase revenues by \$8 million over the 2017–2026 period.

Spending subject to appropriation

The bill would make changes to discretionary programs previously authorized by the Richard B. Russell National School Lunch Act and the Child Nutrition Act of 1966, as amended, and would authorize new and existing discretionary programs through 2021. CBO estimates that implementing H.R. 5003 would cost \$29.8-billion—primarily for the WIC program over the 2017–2021 period, assuming the appropriation of the necessary amounts.

WIC. The WIC program is administered by the states and provides supplemental foods, health care referrals, and nutrition education to pregnant and post-partum women with low income, and infants and children up to age five. The bill would make several changes to the program, such as excluding certain household payments when calculating income, rounding the value of the WIC benefit to the nearest whole dollar, changing state contracts with infant formula providers, and authorizing a pilot project to test alternative methods for certifying the eligibility of participants and delivering food.

The bill would:

- Authorize the appropriation of \$6.35 billion per year for WIC for fiscal years 2017 through 2021. The program was authorized through 2015 at such sums as may be necessary; the Congress provided \$6.35 billion for WIC in 2016.

- Authorize the appropriation of \$18.5 million per year for the WIC Farmers’ Market Nutrition Program for fiscal years 2017 through 2021. The program was authorized through 2015 at such sums as may be necessary; the Congress provided \$18.5 million for that program in 2016.
- Authorize \$25 million per year in grants for three years to assist states with the transition from paper coupons for WIC benefits to electronic benefit transfer systems.
- Require the Government Accountability Office (GAO) to study the effects of allowing Medicaid participants to be automatically eligible for WIC. Based on the cost of similar studies conducted by the GAO, CBO estimates that study would cost \$1 million over the 2017–2021 period.

In total, CBO estimates that enacting those WIC provisions would increase discretionary outlays by \$29.6 billion over the 2017–2021 period.

Notes: Components may not sum to totals because of rounding; WIC = Special Supplemental Nutrition Program for Women, Infants, and Children.

Grants and Other Activities. The bill would reauthorize two existing grant programs; authorize a new grant program, a new loan guarantee program, and two new advisory committees; and eliminate a number of grant programs that have not received funding in recent years. Specifically, the bill would:

- Reauthorize grants to states to make technological improvements in the administration of most child nutrition programs, and allow states to use those funds to improve direct certification rates. The grants were authorized through 2015 at such sums as may be necessary; the Congress did not provide any funds for those grants in 2016. Based on the cost of a similar grant program, CBO estimates that such grants would require appropriations of \$22 million annually.
- Authorize a new grant program for schools to purchase equipment to serve healthier meals and improve food safety. The bill would authorize appropriations of \$25 million in total over three fiscal years, 2017 through 2019, for those grants. As discussed above under the heading Direct Spending, CBO expects some of the grants would be used for purchases that would increase participation in SBP and thus increase direct spending.

- Permanently authorize \$5 million per year for loan guarantees for local school food authorities to make infrastructure improvements and durable equipment purchases.
- Repeal the authorization of appropriations for a number of grant programs, none of which received appropriations in fiscal year 2016. Because the authorization for most of those grant programs has already expired, CBO estimates that repealing their authorizations would not affect the federal budget. (Two of the programs whose discretionary authorizations would be repealed under the bill, the Farm to School grant program and the Fresh Fruit and Vegetable Program, also receive mandatory funding. Those programs would continue to receive mandatory funding under the bill.)
- Reauthorize the appropriation of \$1 million per year through 2021 for training and technical assistance on procurement procedures.
- Authorize two new advisory committees. CBO estimates that implementing those committees would not have a significant effect on the federal budget.

CBO estimates that enacting those provisions would result in discretionary outlays of \$145 million over the 2017–2021 period.

Pay-As-You-Go considerations: The Statutory Pay-As-You-Go Act of 2010 establishes budget-reporting and enforcement procedures for legislation affecting direct spending or revenues. The net changes in outlays and revenues that are subject to those pay-as-you-go procedures are shown in the following table.

Increase in long-term direct spending and deficits: CBO estimates that enacting the legislation would not increase net direct spending or on-budget deficits by more than \$5 billion in any of the four consecutive 10-year periods beginning in 2027.

Estimated impact on state, local, and tribal governments: For large entitlement programs that provide \$500 million or more annually to state, local, and tribal governments, UMRA defines an increase in the stringency of conditions as an intergovernmental mandate if the affected entity lacks the flexibility to offset the costs of the new conditions. The bill would impose new requirements on states and on schools that implement the child nutrition program. Because states and schools have limited flexibility to amend their programmatic or financial responsibilities in the program, the new requirements, which are mostly administrative, would be intergovernmental mandates. In aggregate, CBO estimates that the costs to governmental entities would fall below the annual threshold established in UMRA.

Unique Student Identification System. Section 307 would require the Secretary of Agriculture to review the feasibility of implementing a unique student identification system in the school lunch and breakfast programs and would require the Secretary to submit the results of the review to the Congress. The Secretary could implement such a system unless it is determined not to be in the best interest of the programs or does not adequately protect student privacy.

Many states use unique student identifiers in their student information systems to track attendance and other educational information. Local educational agencies (LEAs) also may use identifiers to indicate a student's qualification status for meals in school lunch programs and for other purposes, but those identifiers may not necessarily be linked. Simply requiring states and LEAs to establish that they have unique identifiers in place would yield much smaller costs than a requirement to adopt a unified system of unique identifiers where local identifiers are completely replaced. The broader option would result in millions of dollars of upfront costs to upgrade technology, change point of sale systems, and provide additional administrative support.

The costs of the mandate would largely depend on how broadly FNS chooses to implement a new identification system under the new requirements, but assuming the agency does not require major systemic changes, CBO estimates that the costs would fall below \$50 million. Most of those costs would occur in the first or second year after implementation.

New Verification Requirements. The bill would impose additional duties on states and LEAs when they review applications and verify eligibility in school meal programs. While some state agencies and LEAs may be able to offset the costs of the additional requirements using administrative funds or funds from school food service accounts, some smaller districts may not be able to absorb such costs. Those districts would likely face pressure to hire additional staff. Using information from FNS on past LEA verification activities and the National Center for Education Statistics on the number of children eligible for free and reduced lunch, CBO estimates that the incremental increase in costs for this mandate could total less than \$10 million annually.

Raising the Threshold under the Community Eligibility Provision (CEP). Under current law school districts, groups of schools within a district, or individual schools may serve free meals to all students if at least 40 percent of students are directly certified in school meals programs, and participating schools are reimbursed for those meals based on a formula specified in law. Schools and school districts that qualify for such assistance also realize administrative savings because they do not have to verify the eligibility of as many students. The bill would increase the threshold for participation to 60 percent beginning on July 1, 2017. Schools, school districts, and groups of schools with fewer than 60 percent of their students directly certified would no longer be eligible for federal reimbursements under this program, and they would face higher administrative costs to verify more students. Using information from FNS and industry sources, CBO estimates that the costs for conducting verification and other activities for the population of students that are not directly certified but still qualify under the school meals programs would result in costs of roughly \$10 million annually; those costs would begin after 2017.

Other Requirements. The bill would extend a number of other requirements through 2021, including reports about food safety inspections by state agencies and other administrative requirements. CBO estimates that the costs of extending these requirements would be covered with authorized funding.

Other Impacts. States and schools would benefit from other provisions in the bill that authorize grant funds for the WIC program. New requirements on state WIC programs would not constitute intergovernmental mandates because they would result from participation in a voluntary federal program.

Estimated impact on the private sector. This bill contains no private-sector mandates as defined in UMRA.

Previous CBO estimate. On March 11, 2016, CBO transmitted a cost estimate for the Improving Child Nutrition Integrity and Access Act of 2016, as ordered reported by the Senate Committee on Agriculture, Nutrition, and Forestry on January 20, 2016 and posted on the committee's website. That bill contains provisions similar to those in H.R. 5003. The Senate bill was estimated relative to CBO's March 2015 baseline; H.R. 5003 was estimated relative to CBO's March 2016 baseline. Any differences in the estimates reflect differences in both the language of the legislation and in the baselines used for the estimates.

Estimate approved by: H. Samuel Papenfuss; Deputy Assistant Director for Budget Analysis.

COMMITTEE COST ESTIMATE

Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison of the costs that would be incurred in carrying out H.R. 5003. However, clause 3(d)(2)(B) of that rule provides that this requirement does not apply when the committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Con-

gressional Budget Office under section 402 of the Congressional Budget Act.

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (new matter is printed in italic and existing law in which no change is proposed is shown in roman):

[SEC. 5. NUTRITION PROMOTION.

[(a) IN GENERAL.—Subject to the availability of funds made available under subsection (g), the Secretary shall make payments to State agencies for each fiscal year, in accordance with this section, to promote nutrition in food service programs under this Act and the school breakfast program established under the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.).

[(b) TOTAL AMOUNT FOR EACH FISCAL YEAR.—The total amount of funds available for a fiscal year for payments under this section shall equal not more than the product obtained by multiplying—

[(1) ½ cent; by

[(2) the number of lunches reimbursed through food service programs under this Act during the second preceding fiscal year in schools, institutions, and service institutions that participate in the food service programs.

[(c) PAYMENTS TO STATES.—

[(1) ALLOCATION.—Subject to paragraph (2), from the amount of funds available under subsection (g) for a fiscal year, the Secretary shall allocate to each State agency an amount equal to the greater of—

[(A) a uniform base amount established by the Secretary; or

[(B) an amount determined by the Secretary, based on the ratio that—

[(i) the number of lunches reimbursed through food service programs under this Act in schools, institutions, and service institutions in the State that participate in the food service programs; bears to

[(ii) the number of lunches reimbursed through the food service programs in schools, institutions, and service institutions in all States that participate in the food service programs.

[(2) REDUCTIONS.—The Secretary shall reduce allocations to State agencies qualifying for an allocation under paragraph (1)(B), in a manner determined by the Secretary, to the extent necessary to ensure that the total amount of funds allocated under paragraph (1) is not greater than the amount appropriated under subsection (g).

[(d) USE OF PAYMENTS.—

[(1) USE BY STATE AGENCIES.—A State agency may reserve, to support dissemination and use of nutrition messages and material developed by the Secretary, up to—

[(A) 5 percent of the payment received by the State for a fiscal year under subsection (c); or

DIRECT FEDERAL EXPENDITURES

SEC. 6. (a) The funds provided by appropriation or transfer from other accounts for any fiscal year for carrying out the provisions of this Act, and for carrying out the provisions of the Child Nutrition Act of 1966, other than section 3 thereof, less

(1) not to exceed 3½ per centum thereof which per centum is hereby made available to the Secretary for the Secretary's administrative expenses under this Act and under the Child Nutrition Act of 1966;

(2) the amount apportioned by the Secretary pursuant to section 4 of this Act and the amount appropriated pursuant to sections 11 and 13 of this Act and sections 4 and 7 of the Child Nutrition Act of 1966; and

(3) not to exceed 1 per centum of the funds provided for carrying out the programs under this Act and the programs under the Child Nutrition Act of 1966, other than section 3, which per centum is hereby made available to the Secretary to supplement the nutritional benefits of these programs through grants to States and other means for nutritional training and education for workers, cooperators, and participants in these programs, for pilot projects and the cash-in-lieu of commodities study required to be carried out under section 18 of this Act, and for necessary surveys and studies of requirements for food service programs in furtherance of the purposes expressed in section 2 of this Act and section 2 of the Child Nutrition Act of 1966,

shall be available to the Secretary during such year for direct expenditure by the Secretary for agricultural commodities and other foods to be distributed among the States and schools and service institutions participating in the food service programs under this Act and under the Child Nutrition Act of 1966 in accordance with the needs as determined by the local school and service institution authorities. Except as provided in the next 2 sentences, any school participating in food service programs under this Act may refuse to accept delivery of not more than 20 percent of the total value of agricultural commodities and other foods tendered to it in any school year; and if a school so refuses, that school may receive, in lieu of the refused commodities, other commodities to the extent that other commodities are available to the State during that year. Any school food authority may refuse some or all of the fresh fruits and vegetables offered to the school food authority in any school year and shall receive, in lieu of the offered fruits and vegetables, other more desirable fresh fruits and vegetables that are at least equal in value to the fresh fruits and vegetables refused by the

school food authority. The value of any fresh fruits and vegetables refused by a school under the preceding sentence for a school year shall not be used to determine the 20 percent of the total value of agricultural commodities and other foods tendered to the school food authority in the school year under the second sentence. The provisions of law contained in the proviso of the Act of June 28, 1937, facilitating operations with respect to the purchase and disposition of surplus agricultural commodities under section 32 of the Act approved August 24, 1935, shall, to the extent not inconsistent with the provisions of this Act, also be applicable to expenditures of funds by the Secretary under this Act. In making purchases of such agricultural commodities and other foods, the Secretary shall not issue specifications which restrict participation of local producers unless such specifications will result in significant advantages to the food service programs authorized by this Act and the Child Nutrition Act of 1966.

(b) The Secretary shall deliver, to each State participating in the school lunch program under this Act, commodities valued at the total level of assistance authorized under subsection (c) for each school year for the school lunch program in the State, not later than September 30 of the following school year.

[(c)(1)(A) The national average value of donated foods, or cash payments in lieu thereof, shall be 11 cents, adjusted on July 1, 1982, and each July 1 thereafter to reflect changes in the Price Index for Food Used in Schools and Institutions. The Index shall be computed using 5 major food components in the Bureau of Labor Statistics' Producer Price Index (cereal and bakery products, meats, poultry and fish, dairy products, processed fruits and vegetables, and fats and oils). Each component shall be weighed using the same relative weight as determined by the Bureau of Labor Statistics.

[(B) The value of food assistance for each meal shall be adjusted each July 1 by the annual percentage change in a 3-month average value of the Price Index for Foods Used in Schools and Institutions for March, April, and May each year. Such adjustment shall be computed to the nearest $\frac{1}{4}$ cent.

[(C) For each school year, the total commodity assistance or cash in lieu thereof available to a State for the school lunch program shall be calculated by multiplying the number of lunches served in the preceding school year by the rate established by subparagraph (B). After the end of each school year, the Secretary shall reconcile the number of lunches served by schools in each State with the number of lunches served by schools in each State during the preceding school year and increase or reduce subsequent commodity assistance or cash in lieu thereof provided to each State based on such reconciliation.

[(D) Among those commodities]

(c) *CALCULATION OF TOTAL ASSISTANCE.—*

(1) *NATIONAL AVERAGE VALUE.—*

(A) *IN GENERAL Subject to subparagraphs (B) and (C), the national average value of donated foods, or cash payments in lieu thereof, shall be equal to the quotient obtained by dividing, not later than February 15 of each year for the upcoming school year—*

(i) the total funds available in the preceding school year under section 4, this section, and section 11; by

(ii) the number of lunches served in the preceding school year in all schools participating in the school lunch program under this Act.

(B) ADJUSTMENT.—

(i) *IN GENERAL.*—The value determined under subparagraph (A) shall be adjusted by the annual percentage change in a 3-month average value of the Producer Price Index for Foods Used in Schools and Institutions of the Bureau of Labor Statistics (in this subparagraph referred to as the “Index”) for the preceding September, October, and November.

(ii) *REQUIREMENT.*—An adjustment under clause (i) shall be computed to the nearest $\frac{1}{4}$ cent.

(iii) *INDEX.*—

(I) *IN GENERAL.*—The Index shall be computed using 5 major food components in the Index (cereal and bakery products, meats, poultry and fish, dairy products, processed fruits and vegetables, and fats and oils).

(II) *COMPONENTS.*—Each component described in subclause (I) shall be weighted using the same relative weight as determined by the Bureau of Labor Statistics.

(iv) *MINIMUM AMOUNT OF COMMODITY ASSISTANCE.*—Not less than 12 percent of the value adjusted in accordance with this subparagraph shall be provided in the form of commodity assistance.

(C) INSUFFICIENT AMOUNTS.—If amounts available to carry out section 4, this section, and section 11 are insufficient to meet the requirements of such sections for a school year, the Secretary shall, to the extent necessary, use the authority provided under section 14(a) to meet the requirements for the school year.

(D) AMOUNT FOR EACH STATE.—For each school year, the total commodity assistance or cash in lieu thereof available to a State for the school lunch program shall be equal to the product obtained by multiplying—

(i) the number of lunches served in such State in the most recent school year for which data are available; by

(ii) the rate determined under subparagraphs (A) and (B).

(E) SPECIAL EMPHASIS.—Among those commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates (which may include domestic seafood commodities and their products).

[(E) Notwithstanding]

(F) MINIMUM QUANTITY OF DONATED FOODS.—Notwithstanding any other provision of this section, not less than 75 percent of the assistance provided under this subsection shall be in the form of donated foods for the school lunch program.

(2) To the maximum extent feasible, each State agency shall offer to each school food authority under its jurisdiction that participates in the school lunch program and receives commodities, agricultural commodities and their products, the per meal value of which is not less than the national average value of donated foods established under paragraph (1). Each such offer shall include the full range of such commodities and products that are available from the Secretary to the extent that quantities requested are sufficient to allow efficient delivery to and within the State.

(d) Beginning with the school year ending June 30, 1981, the Secretary shall not offer commodity assistance based upon the number of breakfasts served to children under section 4 of the Child Nutrition Act of 1966.

[(e)(1) Subject to paragraph (2), in each school year the Secretary shall ensure that not less than 12 percent of the assistance provided under section 4, this section, and section 11 shall be in the form of—

[(A) commodity assistance provided under this section, including cash in lieu of commodities and administrative costs for procurement of commodities under this section; or

[(B) during the period beginning October 1, 2003, and ending September 30, 2020, commodities provided by the Secretary under any provision of law.

[(2) If amounts available to carry out the requirements of the sections described in paragraph (1) are insufficient to meet the requirement contained in paragraph (1) for a school year, the Secretary shall, to the extent necessary, use the authority provided under section 14(a) to meet the requirement for the school year.]

[(f)] (e) PILOT PROJECT FOR PROCUREMENT OF UNPROCESSED FRUITS AND VEGETABLES.—

(1) IN GENERAL.—The Secretary shall conduct a pilot project under which the Secretary shall facilitate the procurement of unprocessed fruits and vegetables in not more than 8 States receiving funds under this Act.

(2) PURPOSE.—The purpose of the pilot project required by this subsection is to provide selected States flexibility for the procurement of unprocessed fruits and vegetables by permitting each State—

(A) to utilize multiple suppliers and products established and qualified by the Secretary; and

(B) to allow geographic preference, if desired, in the procurement of the products under the pilot project.

(3) SELECTION AND PARTICIPATION.—

(A) IN GENERAL.—The Secretary shall select States for participation in the pilot project in accordance with criteria established by the Secretary and terms and conditions established for participation.

(B) REQUIREMENT.—The Secretary shall ensure that at least 1 project is located in a State in each of—

(i) the Pacific Northwest Region;

(ii) the Northeast Region;

(iii) the Western Region;

(iv) the Midwest Region; and

(v) the Southern Region.

(4) PRIORITY.—In selecting States for participation in the pilot project, the Secretary shall prioritize applications based on—

(A) the quantity and variety of growers of local fruits and vegetables in the States on a per capita basis;

(B) the demonstrated commitment of the States to farm-to-school efforts, as evidenced by prior efforts to increase and promote farm-to-school programs in the States; and

(C) whether the States contain a sufficient quantity of local educational agencies, various population sizes, and geographical locations.

(5) RECORDKEEPING AND REPORTING REQUIREMENTS.—

(A) RECORDKEEPING REQUIREMENT.—States selected to participate in the pilot project, and participating school food authorities within those States, shall keep records of the fruits and vegetables received under the pilot project in such manner and form as requested by the Secretary.

(B) REPORTING REQUIREMENT.—Each participating State shall submit to the Secretary a report on the success of the pilot project in the State, including information on—

(i) the quantity and cost of each type of fruit and vegetable received by the State under the pilot project; and

(ii) the benefit provided by those procurements in conducting school food service in the State, including meeting school meal requirements.

PAYMENTS TO STATES

SEC. 7. (a)(1) Funds appropriated to carry out section 4 of this Act during any fiscal year shall be available for payment to the States for disbursement by [State educational agencies] *State agencies* in accordance with such agreements, not inconsistent with the provisions of this Act, as may be entered into by the Secretary and such [State educational agencies] *State agencies* for the purpose of assisting schools within the States in obtaining agricultural commodities and other foods for consumption by children in furtherance of the school lunch program authorized under this Act. For any school year, such payments shall be made to a State only if, during such school year, the amount of the State revenues (excluding State revenues derived from the operation of the program) appropriated or used specifically for program purposes (other than any State revenues expended for salaries and administrative expenses of the program at the State level) is not less than 30 percent of the funds made available to such State under section 4 of this Act for the school year beginning July 1, 1980.

(2) If, for any school year, the per capita income of a State is less than the average per capita income of all the States, the amount required to be expended by a State under paragraph (1) for such year shall be an amount bearing the same ratio to the amount equal to 30 percent of the funds made available to such State under section 4 of this Act for the school year beginning July 1, 1980, as the per capita income of such State bears to the average per capita income of all the States.

(b) The State revenues provided by any State to meet the requirement of subsection (a) shall, to the extent the State deems

practicable, be disbursed to schools participating in the school lunch program under this Act. No State in which the [State educational agency] *State agency* is prohibited by law from disbursing State appropriated funds to private schools shall be required to match Federal funds made available for meals served in such schools, or to disburse, to such schools, any of the State revenues required to meet the requirements of subsection (a).

(c) The Secretary shall certify to the Secretary of the Treasury, from time to time, the amounts to be paid to any State under this section and shall specify when such payments are to be made. The Secretary of the Treasury shall pay to the State, at the time or times fixed by the Secretary, the amounts so certified.

(d) Notwithstanding any other provision of law, the Secretary may enter into an agreement with a State agency, acting on the request of a school food service authority, under which funds payable to the State under section 4 or 11 may be used by the Secretary for the purpose of purchasing commodities for use by the school food service authority in meals served under the school lunch program under this Act.

STATE DISBURSEMENT TO SCHOOLS

SEC. 8. (a) Funds paid to any State during any fiscal year pursuant to section 4 shall be disbursed by the [State educational agency] *State agency*, in accordance with such agreements approved by the Secretary as may be entered into by such State agency and the schools in the State, to those schools in the State which the [State educational agency] *State agency*, taking into account need and attendance, determines are eligible to participate in the school lunch program.

(b) The agreements described in subsection (a) shall be permanent agreements that may be amended as necessary.

(c) The [State educational agency] *State agency* may suspend or terminate any such agreement in accordance with regulations prescribed by the Secretary.

(d) Use of funds paid to States may include, in addition to the purchase price of agricultural commodities and other foods, the cost of processing, distributing, transporting, storing, or handling thereof.

(e) In no event shall such disbursement for food to any school for any fiscal year exceed an amount determined by multiplying the number of lunches served in the school in the school lunch program under this Act during such year by the maximum per meal reimbursement rate for the State, for the type of lunch served, as prescribed by the Secretary.

(f) In any fiscal year in which the national average payment per lunch determined under section 4 is increased above the amount prescribed in the previous fiscal year, the maximum per meal reimbursement rate for the type of lunch served, shall be increased by a like amount.

(g) Lunch assistance disbursements to schools under this section and under section 11 of this Act may be made in advance or by way of reimbursement in accordance with procedures prescribed by the Secretary.

【NUTRITIONAL AND OTHER PROGRAM REQUIREMENTS

【SEC. 9. (a)(1)(A) Lunches served by schools participating in the school lunch program under this Act shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research, except that the minimum nutritional requirements—

【(i) shall not be construed to prohibit the substitution of foods to accommodate the medical or other special dietary needs of individual students; and

【(ii) shall, at a minimum, be based on the weekly average of the nutrient content of school lunches.

【(B) The Secretary shall provide technical assistance and training, including technical assistance and training in the preparation of lower-fat versions of foods commonly used in the school lunch program under this Act, to schools participating in the school lunch program to assist the schools in complying with the nutritional requirements prescribed by the Secretary pursuant to subparagraph (A) and in providing appropriate meals to children with medically certified special dietary needs. The Secretary shall provide additional technical assistance to schools that are having difficulty maintaining compliance with the requirements.】

SEC. 9. NUTRITIONAL AND OTHER PROGRAM REQUIREMENTS.

(a) *REQUIREMENTS.*—

(1) *TECHNICAL ASSISTANCE AND TRAINING.*—*The Secretary shall provide—*

(A) technical assistance and training to schools participating in the school lunch program to assist the schools in complying with the nutritional requirements prescribed by the Secretary pursuant to subsection (f) and in providing appropriate meals to children with medically certified special dietary needs, including food allergies or other special dietary needs of individual children, including religious dietary restrictions; and

(B) additional technical assistance to schools that are having difficulty maintaining compliance with the requirements.

The Secretary shall forward any remaining payments due pursuant to subsection (b) of this section not later than sixty days following receipt of valid claims therefor.

(e)(1) Not later than June 1, July 15, and August 15 of each year, or, in the case of service institutions that operate under a continuous school calendar, the first day of each month of operation, the State shall forward advance program payments to each service institution. The State shall not release the second month's advance program payment to any service institution (excluding a school) that has not certified that it has held training sessions for its own personnel and the site personnel with regard to program duties and responsibilities. No advance program payment may be made for any month in which the service institution will operate under the program for less than ten days.

(2) The amount of the advance program payment for any month in the case of any service institution shall be an amount equal to (A) the total program payment for meals served by such service institution in the same calendar month of the preceding calendar year, (B) 50 percent of the amount established by the State to be needed by such service institution for meals if such service institution contracts with a food service management company, or (C) 65 percent of the amount established by the State to be needed by such service institution for meals if such service institution prepares its own meals, whichever amount is greatest: *Provided*, That the advance program payment may not exceed the total amount estimated by the State to be needed by such service institution for meals to be served in the month for which such advance program payment is made or \$40,000, whichever is less, except that a State may make a larger advance program payment to such service institution where the State determines that such larger payment is necessary for the operation of the program by such service institution and sufficient administrative and management capability to justify a larger payment is demonstrated. The State shall forward any remaining payment due a service institution not later than seventy-five days following receipt of valid claims. If the State has reason to believe that a service institution will not be able to submit a valid claim for reimbursement covering the period for which an advance program payment has been made, the subsequent month's advance program payment shall be withheld until such time as the State has received a valid claim. Program payments advanced to

service institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance program payment.

(f)(1) Service institutions receiving funds under this section shall serve meals consisting of a combination of foods and meeting minimum nutritional standards prescribed by the Secretary on the basis of tested nutritional research.

(2) The Secretary shall provide technical assistance to service institutions and private nonprofit organizations participating in the program to assist the institutions and organizations in complying with the nutritional requirements prescribed by the Secretary pursuant to this subsection.

(3) Meals described in paragraph (1) shall be served without cost to children attending service institutions approved for operation under this section, except that, in the case of camps, charges may be made for meals served to children other than those who meet the eligibility requirements for free or reduced price meals in accordance with subsection (a)(5) of this section.

(4) To assure meal quality, States shall, with the assistance of the Secretary, prescribe model meal specifications and model food quality standards, and ensure that all service institutions contracting for the preparation of meals with food service management companies include in their contracts menu cycles, local food safety standards, and food quality standards approved by the State.

(5) Such contracts shall require (A) periodic inspections, by an independent agency or the local health department for the locality in which the meals are served, of meals prepared in accordance with the contract in order to determine bacteria levels present in such meals, and (B) conformance with standards set by local health authorities.

(6) Such inspections and any testing resulting therefrom shall be in accordance with the practices employed by such local health authority.

(7) OFFER VERSUS SERVE.—A school food authority participating as a service institution may permit a child to refuse one or more items of a meal that the child does not intend to consume, under rules that the school uses for school meals programs. A refusal of an offered food item shall not affect the amount of payments made under this section to a school for the meal.

(g) The Secretary shall publish proposed regulations relating to the implementation of the program by November 1 of each fiscal year, final regulations by January 1 of each fiscal year, and guidelines, applications and handbooks by February 1 of each fiscal year. In order to improve program planning, the Secretary may provide that service institutions be paid as startup costs not to exceed 20 percent of the administrative funds provided for in the administrative budget approved by the State under subsection (b)(3) of this section. Any payments made for startup costs shall be subtracted from amounts otherwise payable for administrative costs subsequently made to service institutions under subsection (b)(3) of this section.

(h) Each service institution shall, insofar as practicable, use in its food service under the program foods designated from time to

time by the Secretary as being in abundance. The Secretary is authorized to donate to States, for distribution to service institutions, food available under section 416 of the Agricultural Act of 1949, or purchased under section 32 of the Act of August 24, 1935 or section 709 of the Food and Agriculture Act of 1965. Donated foods may be distributed only to service institutions that can use commodities efficiently and effectively, as determined by the Secretary.

(j) Expenditures of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under this section.

(k)(1) The Secretary shall pay to each State for its administrative costs incurred under this section in any fiscal year an amount equal to (A) 20 percent of the first \$50,000 in funds distributed to that State for the program in the preceding fiscal year; (B) 10 percent of the next \$100,000 distributed to that State for the program in the preceding fiscal year; (C) 5 percent of the next \$250,000 in funds distributed to that State for the program in the preceding fiscal year, and (D) 2½ percent of any remaining funds distributed to that State for the program in the preceding fiscal year: *Provided*, That such amounts may be adjusted by the Secretary to reflect changes in the size of that State's program since the preceding fiscal year.

(2) The Secretary shall establish standards and effective dates for the proper, efficient, and effective administration of the program by the State. If the Secretary finds that the State has failed without good cause to meet any of the Secretary's standards or has failed without good cause to carry out the approved State management and administration plan under subsection (n) of this section, the Secretary may withhold from the State such funds authorized under this subsection as the Secretary determines to be appropriate.

[(3) To provide]

(3) NUTRITIONAL AND FOOD QUALITY MONITORING.—

(A) *IN GENERAL.—To provide for adequate nutritional and food quality monitoring, and to further the implementation of the program, an additional amount, not to exceed the lesser of actual costs or 1 percent of program funds, shall be made available by the Secretary to States to pay for State or local health department inspections, and to reinspect facilities and deliveries to test meal quality.*

(B) INSUFFICIENT FUNDS.—

except that a food service management company entering into a contract with a service institution under this section may not subcontract with a single company for the total meal, with or without milk, or for the assembly of the meal. The Secretary shall prescribe additional conditions and limitations governing assignment of all or any part of a contract entered into by a food service management company under this section. Any food service management company shall, in its bid, provide the service institution information as to its meal capacity.

(2) Each State may provide for the registration of food service management companies.

(3) In accordance with regulations issued by the Secretary, positive efforts shall be made by service institutions to use small businesses and minority-owned businesses as sources of supplies and services. Such efforts shall afford those sources the maximum feasible opportunity to compete for contracts using program funds.

(4) Each State, with the assistance of the Secretary, shall establish a standard form of contract for use by service institutions and food service management companies. The Secretary shall prescribe requirements governing bid and contract procedures for acquisition of the services of food service management companies, including, but not limited to, bonding requirements (which may provide exemptions applicable to contracts of \$100,000 or less), procedures for review of contracts by States, and safeguards to prevent collusive bidding activities between service institutions and food service management companies.

(m) States and service institutions participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

[(n) Each State desiring to participate in the program shall notify the Secretary by January 1 of each year of its intent to administer the program and shall submit for approval by February 15 a management and administration plan for the program for the fiscal year, which shall include, but not be limited to, (1) the State's administrative budget for the fiscal year, and the State's plans to comply with any standards prescribed by the Secretary under subsection (k) of this section; (2) the State's plans for use of program funds and funds from within the State to the maximum extent practicable to reach needy children; (3) the State's plans for providing technical assistance and training eligible service institutions; (4) the State's plans for monitoring and inspecting service institutions, feeding sites, and food service management companies and for ensuring that such companies do not enter into contracts for more meals than they can provide effectively and efficiently; (5) the State's plan for timely and effective action against program violators; and (6) the State's plan for ensuring fiscal integrity by auditing service institutions not subject to auditing requirements prescribed by the Secretary.]

(n) *STATE PLAN.*—Each State desiring to participate in the program shall notify the Secretary by January 1 of each year of its in-

(2) Whoever being a partner, officer, director, or managing agent connected in any capacity with any partnership, association, corporation, business, or organization, either public or private, that receives benefits under the program, knowingly or willfully embezzles, misapplies, steals, or obtains by fraud, false statement, or forgery, any benefits provided by this section or any money, funds, assets, or property derived from benefits provided by this section, shall be fined not more than \$10,000 or imprisoned for not more than five years, or both (but, if the benefits, money, funds, assets, or property involved is not over \$200, then the penalty shall be a fine or not more than \$1,000 or imprisonment for not more than one year, or both).

(3) If two or more persons conspire or collude to accomplish any act made unlawful under this subsection, and one or more of such persons to any act to effect the object of the conspiracy or collusion,

(q) TERMINATION AND DISQUALIFICATION OF PARTICIPATING ORGANIZATIONS.—

(1) IN GENERAL.—Each State agency shall follow the procedures established by the Secretary for the termination of participation of institutions under the program.

(2) FAIR HEARING.—The procedures described in paragraph (1) shall include provision for a fair hearing and prompt determination for any service institution aggrieved by any action of the State agency that affects—

(A) the participation of the service institution in the program; or

(B) the claim of the service institution for reimbursement under this section.

(3) LIST OF DISQUALIFIED INSTITUTIONS AND INDIVIDUALS.—

(8) Such adjustment shall be computed to the nearest one-fourth cent.

(9) Notwithstanding any other provision of this section, in no event shall the minimum rate of reimbursement exceed the cost to the school or institution of milk served to children.

(10) The [State educational agency] *State agency* shall disburse funds paid to the State during any fiscal year for purposes of carrying out the program under this section in accordance with such agreements approved by the Secretary as may be entered into by such State agency and the schools in the State. Nothing in the preceding sentence shall be construed to limit the ability of the [State educational agency] *State agency* to suspend or terminate any such agreement in accordance with regulations prescribed by the Secretary.

(b) Commodity only schools shall not be eligible to participate in the special milk program under this section. For the purposes of the preceding sentence, the term "commodity only schools" means schools that do not participate in the school lunch program under the Richard B. Russell National School Lunch Act, but which receive commodities made available by the Secretary for use by such schools in nonprofit lunch programs.

SCHOOL BREAKFAST PROGRAM AUTHORIZATION

SEC. 4. (a) There is hereby authorized to be appropriated such sums as are necessary to enable the Secretary to carry out a program to assist the States and the Department of Defense through grants-in-aid and other means to initiate, maintain, or expand nonprofit breakfast programs in all schools which make application for assistance and agree to carry out a nonprofit breakfast program in accordance with this Act. Appropriations and expenditures for this Act shall be considered Health and Human Services functions for budget purposes rather than functions of Agriculture.

APPORTIONMENT TO STATES

(b)(1)(A)(i) The Secretary shall make breakfast assistance payments to each [State educational agency] *State agency* each fiscal year, at such times as the Secretary may determine, from the sums appropriated for such purpose, in an amount equal to the product obtained by multiplying—

(I) the number of breakfasts served during such fiscal year to children in schools in such States which participate in the school breakfast program under agreements with such [State educational agency] *State agency*; by

(II) the national average breakfast payment for free breakfasts, for reduced price breakfasts, or for breakfasts served to children not eligible for free or reduced price meals, as appropriate, as prescribed in clause (B) of this paragraph.

(ii) The agreements described in clause (i)(I) shall be permanent agreements that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the [State educational agency] *State agency* to suspend or terminate any such agreement in accordance with regulations prescribed by the Secretary.

The national average payment for each breakfast served to a child not eligible for free or reduced price meals shall be 8.25 cents (as adjusted pursuant to section 11(a) of the Richard B. Russell National School Lunch Act).

(C) No school which receives breakfast assistance payments under this section may charge a price of more than 30 cents for a reduced price breakfast.

(D) No breakfast assistance payment may be made under this subsection for any breakfast served by a school unless such breakfast consists of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary under subsection (e) of this section.

(E) FREE AND REDUCED PRICE POLICY STATEMENT.—After the initial submission, a local educational agency shall not be required to submit a free and reduced price policy statement to a [State educational agency] *State agency* under

this Act unless there is a substantive change in the free and reduced price policy of the local educational agency. A routine change in the policy of a local educational agency, such as an annual adjustment of the income eligibility guidelines for free and reduced price meals, shall not be sufficient cause for requiring the local educational agency to submit a policy statement.

(F) INCREASED REIMBURSEMENT.—(i) For school year 2018–2019, the Secretary shall increase by 2 cents the annually adjusted payment for each breakfast (free, reduced price, and paid) described in subparagraph (B).

(ii) For school year 2019–2020, the national average payment for each breakfast referred to in clause (i) of this subparagraph shall equal the result obtained under such clause (i) applicable to such breakfast, as annually adjusted for the school year in accordance with subparagraph (B).

(iii) For school year 2020–2021, the national average payment for each breakfast referred to in clause (i) of this subparagraph shall equal the annually adjusted payment for such breakfast, as determined under clause (ii) of this subparagraph, plus 1 cent.

(iv) For school year 2021–2022, and each succeeding school year, the national average payment for each breakfast referred to in clause (i) of this subparagraph shall equal the result obtained under clause (iii) of this subparagraph applicable to such breakfast, as annually adjusted for the school year in accordance with subparagraph (B).

(2)(A) The Secretary shall make additional payments for breakfasts served to children qualifying for a free or reduced price meal at schools that are in severe need.

(B) The maximum payment for each such free breakfast shall be the higher of—

(i) the national average payment established by the Secretary for free breakfasts plus 10 cents, or

(ii) 45 cents (as adjusted pursuant to section 11(a)(3)(B) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1759a(a)(3)(B))).

(C) The maximum payment for each such reduced price breakfast shall be thirty cents less than the maximum payment for each free breakfast as determined under clause (B) of this paragraph.

(3) The Secretary shall increase by 6 cents the annually adjusted payment for each breakfast served under this Act and section 17 of the Richard B. Russell National School Lunch Act. These funds shall be used to assist States, to the extent feasible, in improving the nutritional quality of the breakfasts.

(4) Notwithstanding any other provision of law, whenever stocks of agricultural commodities are acquired by the Secretary or the Commodity Credit Corporation and are not likely to be sold by the Secretary or the Commodity Credit Corporation or otherwise used in programs of commodity sale or distribution, the Secretary shall make such commodities available to school food authorities and eligible institutions serving breakfasts under this Act in a quantity equal in value to not less than 3 cents for each breakfast served

under this Act and section 17 of the Richard B. Russell National School Lunch Act.

(5) Expenditures of funds from State and local sources for the maintenance of the breakfast program shall not be diminished as a result of funds or commodities received under paragraph (3) or (4).

STATE DISBURSEMENT TO SCHOOLS

(c) Funds apportioned and paid to any State for the purpose of this section shall be disbursed by the [State educational agency] *State agency* to schools selected by the [State educational agency] *State agency* to assist such schools in operating a breakfast program and for the purpose of subsection (d). Disbursement to schools shall be made at such rates per meal or on such other basis as the Secretary shall prescribe. In selecting schools for participation, the [State educational agency] *State agency* shall, to the extent practicable, give first consideration to those schools drawing attendance from areas in which poor economic conditions exist, to those schools in which a substantial proportion of the children enrolled must travel long distances daily, and to those schools in which there is a special need for improving the nutrition and dietary practices of children of working mothers and children from low-income families. Breakfast assistance disbursements to schools under this section may be made in advance or by way of reimbursement in accordance with procedures prescribed by the Secretary.

(d) SEVERE NEED ASSISTANCE.—

(1) IN GENERAL.—Each [State educational agency] *State agency* shall provide additional assistance to schools in severe need, which shall include only those schools (having a breakfast program or desiring to initiate a breakfast program) in which—

(A) during the most recent second preceding school year for which lunches were served, 40 percent or more of the lunches served to students at the school were served free or at a reduced price; or

(B) in the case of a school in which lunches were not served during the most recent second preceding school year, the Secretary otherwise determines that the requirements of subparagraph (A) would have been met.

(2) ADDITIONAL ASSISTANCE.—A school, on the submission of appropriate documentation about the need circumstances in that school and the eligibility of the school for additional assistance, shall be entitled to receive the meal reimbursement rate specified in subsection (b)(2).

NUTRITIONAL AND OTHER PROGRAM REQUIREMENTS

(e)(1)(A) Breakfasts served by schools participating in the school breakfast program under this section shall consist of a combination of foods and shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research, except that the minimum nutritional requirements shall be measured by not less than the weekly average of the nutrient content of school breakfasts. Such breakfasts shall be served free or at a reduced price to children in school under the same terms and conditions as are set forth with respect to the service of lunches free

or at a reduced price in section 9 of the Richard B. Russell National School Lunch Act.

(B) The Secretary shall provide through [State educational agencies] *State agencies* technical assistance and training[, including technical assistance and training in the preparation of foods high in complex carbohydrates and lower-fat versions of foods commonly used in the school breakfast program established under this section,] to schools participating in the school breakfast program to assist the schools in complying with the nutritional requirements prescribed by the Secretary pursuant to subparagraph (A) and in providing appropriate meals to children with medically certified special dietary needs.

(2) At the option of a local school food authority, a student in a school under the authority that participates in the school breakfast program under this Act may be allowed to refuse not more than one item of a breakfast that the student does not intend to consume. A refusal of an offered food item shall not affect the full charge to the student for a breakfast meeting the requirements of this section or the amount of payments made under this Act to a school for the breakfast.

DISBURSEMENT TO SCHOOLS BY THE SECRETARY

SEC. 5. (a) The Secretary shall withhold funds payable to a State under this Act and disburse the funds directly to schools or institutions within the State for the purposes authorized by this Act to the extent that the Secretary has so withheld and disbursed such funds continuously since October 1, 1980, but only to such extent (except as otherwise required by subsection (b)). Any funds so withheld and disbursed by the Secretary shall be used for the same purposes, and shall be subject to the same conditions, as applicable to a State disbursing funds made available under this Act. If the Secretary is administering (in whole or in part) any program authorized under this Act, the State in which the Secretary is administering the program may, upon request to the Secretary, assume administration of that program.

(b) If a [State educational agency] *State agency* is not permitted by law to disburse the funds paid to it under this Act to any of the nonpublic schools in the State, the Secretary shall disburse the funds directly to such schools within the State for the same purposes and subject to the same conditions as are authorized or required with respect to the disbursements to public schools within the State by the [State educational agency] *State agency*.

The Secretary shall take affirmative action to ensure that the program is instituted in areas most in need of supplemental foods. The existence of a commodity supplemental food program under section 4 of the Agriculture and Consumer Protection Act of 1973 shall not preclude the approval of an application from an eligible local agency to participate in the program under this section nor the operation of such program within the same geographic area as that of the commodity supplemental food program, but the Secretary shall issue such regulations as are necessary to prevent dual receipt of

A nutritional risk evaluation of such a woman shall be completed not later than 60 days after the woman is certified for participation. If it is subsequently determined that the woman does not meet nutritional risk criteria, the certification of the woman shall terminate on the date of the determination.

 - (bb) is receiving ongoing health care;
- (II) an infant or child who—

Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(B) REVIEW.—The Secretary shall periodically review State and local agency compliance with the approved plan of operation and administration of the applicable State.

(6)(A) Local agencies participating in the program under this section shall notify persons of their eligibility or ineligibility for the program within twenty days of the date that the household, during office hours of a local agency, personally makes an oral or written request to participate in the program. (B) State agencies may provide for the delivery of vouchers to any participant who is not scheduled for nutrition education and breastfeeding counseling or a recertification interview through means, such as mailing, that do not require the participant to travel to the local agency to obtain vouchers. The State agency shall describe any plans for issuance of vouchers by mail in its plan submitted under paragraph (1). The Secretary may disapprove a State

plan with respect to the issuance of vouchers by mail in any specified jurisdiction or part of a jurisdiction within a State only if the Secretary finds that such issuance would pose a significant threat to the integrity of the program under this section in such jurisdiction or part of a jurisdiction.

(7)(A) The State agency shall, in cooperation with participating local agencies, publicly announce and distribute information on the availability of program benefits (including the eligibility criteria for participation and the location of local agencies operating the program) to offices and organizations that deal with significant numbers of potentially eligible individuals (including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworker organizations, Indian tribal organizations, organizations and agencies serving homeless individuals and shelters for victims of domestic violence, and religious and community organizations in low income areas).

(B) The information shall be publicly announced by the State agency and by local agencies at least annually.

(C) The State agency and local agencies shall distribute the information in a manner designed to provide the information to potentially eligible individuals who are most in need of the benefits, including pregnant women in the early months of pregnancy.

(D) Each local agency operating the program within a hospital and each local agency operating the program that has a cooperative arrangement with a hospital shall—

(i) advise potentially eligible individuals that receive inpatient or outpatient prenatal, maternity, or postpartum services, or accompany a child under the age of 5 who receives well-child services, of the availability of program benefits; and

(ii) to the extent feasible, provide an opportunity for individuals who may be eligible to be certified within the hospital for participation in such program.

(8)(A) The State agency shall grant a fair hearing, and a prompt determination thereafter, in accordance with regulations issued by the Secretary, to any applicant, participant, or local agency aggrieved by the action of a State or local agency as it affects participation.

(B) Any State agency that must suspend or terminate benefits to any participant during the participant's certification period due to a shortage of funds for the program shall first issue a notice to such participant.

(9) If an individual certified as eligible for participation in the program under this section in one area moves to another area in which the program is operating, that individual's certification of eligibility shall remain valid for the period for which the individual was originally certified.

[(10) The Secretary]

(10) STANDARDS FOR ADMINISTRATION.—

(A) *IN GENERAL.*—*The Secretary* shall establish standards for the proper, efficient, and effective administration of the program. If the Secretary determines that a State agency has failed without good cause to administer the program in a manner consistent with this section or to implement the approved plan of operation and administration under this subsection, the Secretary may withhold such

amounts of the State agency's funds for nutrition services and administration as the Secretary deems appropriate. Upon correction of such failure during a fiscal year by a State agency, any funds so withheld for such fiscal year shall be provided the State agency.

(B) NOTIFICATION TO STATE AUTHORITY.—If, on reviewing the administration by a State of the program, the Secretary determines there is a need to temporarily halt the State from approving new vendors to address deficiencies in proper administration, the Secretary may issue a moratorium on the authority of the State to approve new vendors, subject to the condition that the Secretary shall provide the State with reasoning behind such determination and shall establish—

(i) a timeframe under which the moratorium will be issued, including any renewal or lifting of the moratorium;

(ii) a process to approve vendors for the State in a manner that does not impede—

(I) the sale of a business; or

(II) the establishment of any new business; and

(iii) a review process to be conducted by the Secretary to ensure that participants, nonparticipants, and vendors are not adversely impacted by the implementation of the moratorium.

(11) SUPPLEMENTAL FOODS.—

(A) IN GENERAL.—The Secretary shall prescribe by regulation the supplemental foods to be made available in the program under this section.

(B) APPROPRIATE CONTENT.—To the degree possible, the Secretary shall assure that the fat, sugar, and salt content of the prescribed foods is appropriate.

(C) REVIEW OF AVAILABLE SUPPLEMENTAL FOODS.—As frequently as determined by the Secretary to be necessary to reflect the most recent scientific knowledge, but not less than every 10 years, the Secretary shall—

(i) conduct a scientific review of the supplemental foods available under the program which, beginning not later than 60 days after the date of enactment of the Improving Child Nutrition and Education Act of 2016, shall include an examination of criteria relating to fluid milk (in consideration of the most recent Dietary Guidelines for Americans published under section 301 of the National Nutrition Monitoring and Related Research Act of 1990 (7 U.S.C. 5341)), and an examination of the consumption and redemption rates of milk beginning on May 5, 2014; [and]

(ii) amend the supplemental foods available, as necessary, to reflect nutrition science, public health concerns, [and cultural eating patterns.] cultural eating patterns, commercial availability, and participant demand, except that any changes made under this clause shall not limit the overall fruit intake of children; and

(iii) consider accommodations for medical, including food allergies, or other special dietary needs of individuals, including religious dietary restrictions.

(D) *PRODUCT PACKAGE SIZES.*—In promulgating or revising regulations under this paragraph, the Secretary shall allow a range of product package sizes to be selected by participants.

(E) *CASH VALUE VOUCHERS.*—In adjusting annually for food cost inflation in the food package under this paragraph, the Secretary shall round to the nearest dollar increment.

(F) *PARTICIPANT CHOICE OPTIONS.*—The Secretary shall maximize opportunities for State agency flexibility to ensure adequate and appropriate participant choice to meet participant needs and cultural preferences in supplemental foods made available under this section.

(12) A competent professional authority shall be responsible for prescribing the appropriate supplemental foods, taking into account medical and nutritional conditions and cultural eating patterns, and, in the case of homeless individuals, the special needs and problems of such individuals.

(13) The State agency may (A) provide nutrition education, breastfeeding promotion, and drug abuse education materials and instruction in languages other than English and (B) use appropriate foreign language materials in the administration of the program, in areas in which a substantial number of low-income households speak a language other than English.

(14) If a State agency determines that a member of a family has received an overissuance of food benefits under the program authorized by this section as the result of such member intentionally making a false or misleading statement or intentionally misrepresenting, concealing, or withholding facts, the State agency shall recover, in cash, from such member an amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.

(15) To be eligible to participate in the program authorized by this section, a manufacturer of infant formula that supplies formula for the program shall—

(A) register with the Secretary of Health and Human Services under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321 et seq.); and

(B) before bidding for a State contract to supply infant formula for the program, certify with the State health department that the formula complies with such Act and regulations issued pursuant to such Act.

(16) The State agency may adopt methods of delivering benefits to accommodate the special needs and problems of homeless individuals.

(17) Notwithstanding subsection (d)(2)(A)(i), not later than July 1 of each year, a State agency may implement income eligibility guidelines under this section concurrently with the implementation of income eligibility guidelines under the medicaid program established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.).

(18) Each local agency participating in the program under this section may provide information about other potential sources of food assistance in the local area to individuals who apply in person to participate in the program under this section, but who cannot be served because the program is operating at capacity in the local area.

(19) The State agency shall adopt policies that—

(A) require each local agency to attempt to contact each pregnant woman who misses an appointment to apply for participation in the program under this section, in order to reschedule the appointment, unless the phone number and the address of the woman are unavailable to such local agency; and

(B) in the case of local agencies that do not routinely schedule appointments for individuals seeking to apply or be recertified for participation in the program under this section, require each such local agency to schedule appointments for each employed individual seeking to apply or be recertified for participation in such program so as to minimize the time each such individual is absent from the workplace due to such application or request for recertification.

(20) Each State agency shall conduct monitoring reviews of each local agency at least biennially.

(21) USE OF CLAIMS FROM LOCAL AGENCIES, VENDORS, AND PARTICIPANTS.—A State agency may use funds recovered from local agencies, vendors, and participants, as a result of a claim arising under the program, to carry out the program during—

(A) the fiscal year in which the claim arises;

(B) the fiscal year in which the funds are collected; and

(C) the fiscal year following the fiscal year in which the funds are collected.

(22) The Secretary and the Secretary of Health and Human Services shall carry out an initiative to assure that, in a case in which a State medicaid program uses coordinated care providers under a contract entered into under section 1903(m), or a waiver granted under section 1915(b), of the Social Security Act (42 U.S.C. 1396b(m) or 1396n(b)), coordination between the program authorized by this section and the medicaid program is continued, including—

(A) the referral of potentially eligible women, infants, and children between the 2 programs; and

(B) the timely provision of medical information related to the program authorized by this section to agencies carrying out the program.

(23) INDIVIDUALS PARTICIPATING AT MORE THAN ONE SITE.—Each State agency shall implement a system designed by the State agency to identify individuals who are participating at more than one site under the program.

(24) HIGH RISK VENDORS.—Each State agency shall—

(A) identify vendors that have a high probability of program abuse; and

(B) conduct compliance investigations of the vendors.

(25) INFANT FORMULA BENEFITS.—A State agency may round up to the next whole can of infant formula to allow all participants under the program to receive the full-authorized nutritional benefit specified by regulation.

(26) NOTIFICATION OF VIOLATIONS.—If a State agency finds that a vendor has committed a violation that requires a pattern of occurrences in order to impose a penalty or sanction, the State agency shall notify the vendor of the initial violation in writing prior to documentation of another violation, unless the State agency determines that notifying the vendor would compromise an investigation.

(g) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—

[(A) AUTHORIZATION.—There are authorized to be appropriated to carry out this section such sums as are necessary for each of fiscal years 2010 through 2015.]

(A) AUTHORIZATION.—*There are authorized to be appropriated to carry out this section \$6,350,000,000 for each of fiscal years 2017 through 2021.*

(B) ADVANCE APPROPRIATIONS; AVAILABILITY.—As authorized by section 3 of the Richard B. Russell National School Lunch Act, appropriations to carry out the provisions of this section may be made not more than 1 year in advance of the beginning of the fiscal year in which the funds will become available for disbursement to the States, and shall remain available for the purposes for which appropriated until expended.

(2)(A) Notwithstanding any other provision of law, unless enacted in express limitation of this subparagraph, the Secretary—

(i) in the case of legislation providing funds through the end of a fiscal year, shall issue—

(I) an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 15-day period beginning on the date of the enactment of such legislation; and

(II) subsequent allocations of funds provided by the enactment of such legislation not later than the beginning of each of the second, third, and fourth quarters of the fiscal year; and

(ii) in the case of legislation providing funds for a period that ends prior to the end of a fiscal year, shall issue an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 10-day period beginning on the date of the enactment of such legislation.

(B) In any fiscal year—

(i) unused amounts from a prior fiscal year that are identified by the end of the first quarter of the fiscal year shall be recovered and reallocated not later than the beginning of the second quarter of the fiscal year; and

(ii) unused amounts from a prior fiscal year that are identified after the end of the first quarter of the fiscal year shall be recovered and reallocated on a timely basis.

(3) Notwithstanding any other provision of law, unless enacted in express limitation of this paragraph—

(A) the allocation of funds required by paragraph (2)(A)(i)(I) shall include not less than $\frac{1}{3}$ of the amounts appropriated by the legislation described in such paragraph;

(B) the allocations of funds required by paragraph (2)(A)(i)(II) to be made not later than the beginning of the sec-

ond and third quarters of the fiscal year shall each include not less than $\frac{1}{4}$ of the amounts appropriated by the legislation described in such paragraph; and

(C) in the case of the enactment of legislation providing appropriations for a period of not more than 4 months, the allocation of funds required by paragraph (2)(A)(ii) shall include all amounts appropriated by such legislation except amounts reserved by the Secretary for purposes of carrying out paragraph (5).

(4) Of the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations. The migrant services shall be provided in a manner consistent with the priority system of a State for program participation.

(5) Of the sums appropriated for any fiscal year for the program under this section, one-half of 1 percent, not to exceed \$15,000,000, shall be available to the Secretary for the purpose of evaluating program performance, evaluating health benefits, preparing reports on program participant characteristics, providing technical assistance to improve State agency administrative systems, administration of pilot projects, including projects designed to meet the special needs of migrants, Indians, and rural populations, and carrying out technical assistance and research evaluation projects of the programs under this section.

(h)(1)(A) Each fiscal year, the Secretary shall make available, from amounts appropriated for such fiscal year under subsection (g)(1) and amounts remaining from amounts appropriated under such subsection for the preceding fiscal year, an amount sufficient to guarantee a national average per participant grant to be allocated among State agencies for costs of nutrition services and administration incurred by State and local agencies for such year.

(B)(i) The amount of the national average per participant grant for nutrition services and administration for any fiscal year shall be an amount equal to the amount of the national average per participant grant for nutrition services and administration issued the preceding fiscal year, as adjusted.

(ii) Such adjustment, for any fiscal year, shall be made by revising the national average per participant grant for nutrition services and administration for the preceding fiscal year to reflect the percentage change between—

(I) the value of the index for State and local government purchases, as published by the Bureau of Economic Analysis of the Department of Commerce, for the 12-month period ending June 30 of the second preceding fiscal year; and

(II) the best estimate that is available as of the start of the fiscal year of the value of such index for the 12-month period ending June 30 of the previous fiscal year.

(C) REMAINING AMOUNTS.—

(i) IN GENERAL.—Except as provided in clause (ii), in any fiscal year, amounts remaining from amounts appropriated for such fiscal year under subsection (g)(1) and from amounts appropriated under such section for the preceding fiscal year, after carrying out subparagraph (A), shall be made available for food benefits

under this section, except to the extent that such amounts are needed to carry out the purposes of subsections (g)(4) and (g)(5).

(ii) BREAST PUMPS.—A State agency may use amounts made available under clause (i) for the purchase of breast pumps.

(2)(A) The Secretary shall allocate to each State agency from the amount described in paragraph (1)(A) an amount for costs of nutrition services and administration on the basis of a formula prescribed by the Secretary. Such formula—

(i) shall be designed to take into account—

(I) the varying needs of each State;

(II) the number of individuals participating in each State; and

(III) other factors which serve to promote the proper, efficient, and effective administration of the program under this section;

(ii) shall provide for each State agency—

(I) an estimate of the number of participants for the fiscal year involved; and

(II) a per participant grant for nutrition services and administration for such year;

(iii) shall provide for a minimum grant amount for State agencies; and

(iv) may provide funds to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(B)(i) Except as provided in clause (ii) and subparagraph (C), in any fiscal year, the total amount allocated to a State agency for costs of nutrition services and administration under the formula prescribed by the Secretary under subparagraph (A) shall constitute the State agency's operational level for such costs for such year even if the number of participants in the program at such agency is lower than the estimate provided under subparagraph (A)(ii)(I).

(ii) If a State agency's per participant expenditure for nutrition services and administration is more than 10 percent (except that the Secretary may establish a higher percentage for State agencies that are small) higher than its per participant grant for nutrition services and administration without good cause, the Secretary may reduce such State agency's operational level for costs of nutrition services and administration.

(C) In any fiscal year, the Secretary may reallocate amounts provided to State agencies under subparagraph (A) for such fiscal year. When reallocating amounts under the preceding sentence, the Secretary may provide additional amounts to, or recover amounts from, any State agency.

(3)(A) Except as provided in subparagraphs (B) and (C), in each fiscal year, each State agency shall expend—

(i) for nutrition education activities and breastfeeding promotion and support activities, an aggregate amount that is not less than the sum of—

(I) $\frac{1}{6}$ of the amounts expended by the State for costs of nutrition services and administration; and

- (II) except as otherwise provided in subparagraphs (F) and (G), an amount equal to a proportionate share of the national minimum breastfeeding promotion expenditure, as described in subparagraph (E), with each State's share determined on the basis of the number of pregnant women and breastfeeding women in the program in the State as a percentage of the number of pregnant women and breastfeeding women in the program in all States; and
- (ii) for breastfeeding promotion and support activities an amount that is not less than the amount determined for such State under clause (i)(II).
- (B) The Secretary may authorize a State agency to expend an amount less than the amount described in subparagraph (A)(ii) for purposes of breastfeeding promotion and support activities if—
- (i) the State agency so requests; and
- (ii) the request is accompanied by documentation that other funds will be used to conduct nutrition education activities at a level commensurate with the level at which such activities would be conducted if the amount described in subparagraph (A)(ii) were expended for such activities.
- (C) The Secretary may authorize a State agency to expend for purposes of nutrition education an amount that is less than the difference between the aggregate amount described in subparagraph (A) and the amount expended by the State for breastfeeding promotion and support programs if—
- (i) the State agency so requests; and
- (ii) the request is accompanied by documentation that other funds will be used to conduct such activities.
- (D) The Secretary shall limit to a minimal level any documentation required under this paragraph.
- (E) For each fiscal year, the national minimum breastfeeding promotion expenditure means an amount that is—
- (i) equal to \$21 multiplied by the number of pregnant women and breastfeeding women participating in the program nationwide, based on the average number of pregnant women and breastfeeding women so participating during the last 3 months for which the Secretary has final data; and
- (ii) adjusted for inflation on October 1, 1996, and each October 1 thereafter, in accordance with paragraph (1)(B)(ii).

(4) REQUIREMENTS.—

(A) IN GENERAL.—The Secretary shall—

- (i) in consultation with the Secretary of Health and Human Services, develop a definition of breastfeeding for the purposes of the program under this section;
- (ii) authorize the purchase of breastfeeding aids by State and local agencies as an allowable expense under nutrition services and administration;
- (iii) require each State agency to designate an agency staff member to coordinate breastfeeding promotion efforts identified in the State plan of operation and administration;
- (iv) require the State agency to provide training on the promotion and management of breastfeeding to staff members of local agencies who are responsible for

counseling participants in the program under this section concerning breastfeeding;

(v) not later than 1 year after the date of enactment of this subparagraph, develop uniform requirements for the collection of data regarding the incidence and duration of breastfeeding among participants in the program;

(vi) partner with communities, State and local agencies, employers, health care professionals, and other entities in the private sector to build a supportive breastfeeding environment for women participating in the program under this section to support the breastfeeding goals of the Healthy People initiative; **[and]**

(vii) annually compile and publish breastfeeding performance measurements based on program participant data on the number of partially and fully breast-fed infants, including breastfeeding performance measurements for—

(I) each State agency; and

(II) each local agency;

(viii) in accordance with subparagraph (B), implement a program to recognize exemplary breastfeeding support practices at local agencies or clinics participating in the special supplemental nutrition program established under this section; and

(ix) in accordance with subparagraph (C), implement a program to provide performance bonuses to State agencies.

(B) EXEMPLARY BREASTFEEDING SUPPORT PRACTICES.—

(i) **IN GENERAL.**—In evaluating exemplary practices under subparagraph (A)(viii), the Secretary shall consider—

(I) performance measurements of breastfeeding;

(II) the effectiveness of a peer counselor program;

(III) the extent to which the agency or clinic has partnered with other entities to build a supportive breastfeeding environment for women participating in the program; and

(IV) such other criteria as the Secretary considers appropriate after consultation with State and local program agencies.

(ii) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out the activities described in clause (viii) of subparagraph (A) such sums as are necessary.

(C) PERFORMANCE BONUSES.—

(i) **IN GENERAL.**—Following the publication of breastfeeding performance measurements under subparagraph (A)(vii), the Secretary shall provide performance bonus payments to not more than 15 State agencies that demonstrate, as compared to other State agencies participating in the program—

- (I) the highest proportion of breast-fed infants;
- or
- (II) the greatest improvement in proportion of breast-fed infants.

(ii) CONSIDERATION.—In providing performance bonus payments to State agencies under this subparagraph, the Secretary shall consider the proportion of fully breast-fed infants in the States.

(iii) USE OF FUNDS.—A State agency that receives a performance bonus under clause (i)—

- (I) shall treat the funds as program income; and

- (II) may transfer the funds to local agencies for use in carrying out the program.

(iv) IMPLEMENTATION.—The Secretary shall provide the first performance bonuses not later than 1 year after the date of enactment of this clause and may subsequently revise the criteria for awarding performance bonuses[; and].

(5)(A) Subject to subparagraph (B), in any fiscal year that a State agency submits a plan to reduce average food costs per participant and to increase participation above the level estimated for the State agency, the State agency may, with the approval of the Secretary, convert amounts allocated for food benefits for such fiscal year for costs of nutrition services and administration to the extent that such conversion is necessary—

- (i) to cover allowable expenditures in such fiscal year; and

- (ii) to ensure that the State agency maintains the level established for the per participant grant for nutrition services and administration for such fiscal year.

(B) If a State agency increases its participation level through measures that are not in the nutritional interests of participants or not otherwise allowable (such as reducing the quantities of foods provided for reasons not related to nutritional need), the Secretary may refuse to allow the State agency to convert amounts allocated for food benefits to defray costs of nutrition services and administration.

(C) For the purposes of this paragraph, the term “acceptable measures” includes use of cost containment measures, curtailment of vendor abuse, and breastfeeding promotion activities.

(D) REMOTE INDIAN OR NATIVE VILLAGES.—For noncontiguous States containing a significant number of remote Indian or Native villages, a State agency may convert amounts allocated for food benefits for a fiscal year to the costs of nutrition services and administration to the extent that the conversion is necessary to cover expenditures incurred in providing services (including the full cost of air transportation and other transportation) to remote Indian or Native villages and to provide breastfeeding support in remote Indian or Native villages.

(6) In each fiscal year, each State agency shall provide, from the amounts allocated to such agency for such year for costs of nutrition services and administration, an amount to each local agency for its costs of nutrition services and administration. The amount to be provided to each local agency under the preceding sentence shall be determined under allocation standards developed by the State agency in cooperation with the several local agencies, taking

into account factors deemed appropriate to further proper, efficient, and effective administration of the program, such as—

- (A) local agency staffing needs;
- (B) density of population;
- (C) number of individuals served; and
- (D) availability of administrative support from other sources.

(7) The State agency may provide in advance to any local agency any amounts for nutrition services and administration deemed necessary for successful commencement or significant expansion of program operations during a reasonable period following approval of—

- (A) a new local agency;
- (B) a new cost containment measure; or
- (C) a significant change in an existing cost containment measure.

(8)(A)(i) Except as provided in subparagraphs (B) and (C)(iii), any State that provides for the purchase of foods under the program at retail grocery stores shall, with respect to the procurement of infant formula, use—

- (I) a competitive bidding system; or
- (II) any other cost containment measure that yields savings equal to or greater than savings generated by a competitive bidding system when such savings are determined by comparing the amounts of savings that would be provided over the full term of contracts offered in response to a single invitation to submit both competitive bids and bids for other cost containment systems for the sale of infant formula.

(ii) In determining whether a cost containment measure other than competitive bidding yields equal or greater savings, the State, in accordance with regulations issued by the Secretary, may take into account other cost factors (in addition to rebate levels and procedures for adjusting rebate levels when wholesale price levels change), such as—

(I) the number of infants who would not be expected to receive the primary contract infant formula under a competitive bidding system;

(II) the number of cans of infant formula for which no rebate would be provided under another rebate system; and

(III) differences in administrative costs relating to the implementation of the various cost containment systems (such as costs of converting a computer system for the purpose of operating a cost containment system and costs of preparing participants for conversion to a new or alternate cost containment system).

(iii) **COMPETITIVE BIDDING SYSTEM.**—A State agency using a competitive bidding system for infant formula shall award contracts to bidders offering the lowest net price for a specific infant formula for which manufacturers submit a bid unless the State agency demonstrates to the satisfaction of the Secretary that the weighted average retail price for different brands of infant formula in the State does not vary by more than 5 percent.

(iv) **SIZE OF STATE ALLIANCES.**—

(I) **IN GENERAL.**—Except as provided in subclauses

(II) through (IV), no State alliance may exist among

States if the total number of infants served by States participating in the alliance as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, would exceed 100,000.

(II) ADDITION OF INFANT PARTICIPANTS.—In the case of a State alliance that exists on the date of enactment of this clause, the alliance may continue and may expand to serve more than 100,000 infants but, except as provided in subclause (III), may not expand to include any additional State agency.

(III) ADDITION OF SMALL STATE AGENCIES AND INDIAN STATE AGENCIES.—Except as provided in paragraph (9)(B)(i)(II), any State alliance may expand to include any State agency that served less than 5,000 infant participants as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, or any Indian State agency, if the State agency or Indian State agency requests to join the State alliance.

(IV) SECRETARIAL WAIVER.—The Secretary may waive the requirements of this clause not earlier than 30 days after submitting to the Committee on Education and the Workforce of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a written report that describes the cost-containment and competitive benefits of the proposed waiver.

(v) FIRST CHOICE OF ISSUANCE.—The State agency shall use the primary contract infant formula as the first choice of issuance (by formula type), with all other infant formulas issued as an alternative to the primary contract infant formula.

(vi) REBATE INVOICES.— **[Effective beginning]**

(I) *IN GENERAL.*—*Effective beginning* October 1, 2004, each State agency shall have a system to ensure that infant formula rebate invoices, under competitive bidding, provide a reasonable estimate or an actual count of the number of units sold to participants in the program under this section.

(II) *INFANT FORMULA.*—*Effective beginning on the date of the enactment of the Improving Child Nutrition and Education Act of 2016, a State agency that has fully implemented electronic benefits transfer systems throughout the State shall have in effect a system to ensure that infant formula rebate invoices, under competitive bidding, provide an actual count of the number of units sold to participants in the program under this section.*

(vii) SEPARATE SOLICITATIONS.—In soliciting bids for infant formula under a competitive bidding system, any State agency, or State alliance, that served under the program a monthly average of more than 100,000 infants during the preceding 12-month period shall solicit bids from infant formula manufacturers under procedures that re-

quire that bids for rebates or discounts are solicited for milk-based and soy-based infant formula separately.

(viii) CENT-FOR-CENT ADJUSTMENTS.—A bid solicitation for infant formula under the program shall require the manufacturer to adjust for price changes subsequent to the opening of the bidding process in a manner that requires—

(I) a cent-for-cent increase in the rebate amounts if there is an increase in the lowest national wholesale price for a full truckload of the particular infant formula; and

(II) a cent-for-cent decrease in the rebate amounts if there is a decrease in the lowest national wholesale price for a full truckload of the particular infant formula.

(ix) LIST OF INFANT FORMULA WHOLESALERS, DISTRIBUTORS, RETAILERS, AND MANUFACTURERS.—The State agency shall maintain a list of—

(I) infant formula wholesalers, distributors, and retailers licensed in the State in accordance with State law (including regulations); and

(II) infant formula manufacturers registered with the Food and Drug Administration that provide infant formula.

(x) PURCHASE REQUIREMENT.—A vendor authorized to participate in the program under this section shall only purchase infant formula from the list described in clause (ix).

(xi) CONTRACT DURATION.—*The contracts awarded under clause (iii) shall specify that—*

(I) *if the income eligibility limit under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) for pregnant women or infants is substantially increased, the contractor may terminate the existing contract effective on the later of—*

(aa) *the date that is 1 year after the date on which the State decision to increase the eligibility limit by amending the State plan is made by—*

(AA) *adopting State legislation;*

(BB) *issuing a State executive order or administrative rule; or*

(CC) *any other applicable State process, as determined by the Secretary; and*

(bb) *the first day of the month during which the increase takes effect; and*

(II) *if a contractor elects to terminate a contract pursuant to subclause (I), the contractor shall notify the State agency by not later than the date that is 1 year before the proposed date of termination.*

(B)(i) The Secretary shall waive the requirement of subparagraph (A) in the case of any State that demonstrates to the Secretary that—

(I) compliance with subparagraph (A) would be inconsistent with efficient or effective operation of the program operated by such State under this section; or

(II) the amount by which the savings yielded by an alternative cost containment system would be less than the savings yielded by a competitive bidding system is sufficiently minimal that the difference is not significant.

(ii) The Secretary shall prescribe criteria under which a waiver may be granted pursuant to clause (i).

(iii) The Secretary shall provide information on a timely basis to the **【Committee on Education and Labor】** *Committee on Education and the Workforce* of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on waivers that have been granted under clause (i).

(C)(i) The Secretary shall provide technical assistance to small Indian State agencies carrying out this paragraph in order to assist such agencies to achieve the maximum cost containment savings feasible.

(ii) The Secretary shall also provide technical assistance, on request, to State agencies that desire to consider a cost containment system that covers more than 1 State agency.

(iii) The Secretary may waive the requirement of subparagraph (A) in the case of any Indian State agency that has not more than 1,000 participants.

(D) No State may enter into a cost containment contract (in this subparagraph referred to as the original contract") that prescribes conditions that would void, reduce the savings under, or otherwise limit the original contract if the State solicited or secured bids for, or entered into, a subsequent cost containment contract to take effect after the expiration of the original contract.

(E) The Secretary shall offer to solicit bids on behalf of State agencies regarding cost-containment contracts to be entered into by infant formula manufacturers and State agencies. The Secretary shall make the offer to State agencies once every 12 months. Each such bid solicitation shall only take place if two or more State agencies request the Secretary to perform the solicitation. For such State agencies, the Secretary shall solicit bids and select the winning bidder for a cost containment contract to be entered into by State agencies and infant formula manufacturers or suppliers.

(F) In soliciting bids for contracts for infant formula for the program authorized by this section, the Secretary shall solicit bids from infant formula manufacturers under procedures in which bids for rebates or discounts are solicited for milk-based and soy-based infant formula, separately, except where the Secretary determines that such solicitation procedures are not in the best interest of the program.

(G) To reduce the costs of any supplemental foods, the Secretary may make available additional funds to State agencies out of the funds otherwise available under paragraph (1)(A) for nutrition services and administration in an amount not exceeding one half of 1 percent of the amounts to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(H)(i) Any person, company, corporation, or other legal entity that submits a bid to supply infant formula to carry out the program authorized by this section and announces or otherwise discloses the amount of the bid, or the rebate or discount practices of such entities, in advance of the time the bids are opened by the

Secretary or the State agency, or any person, company, corporation, or other legal entity that makes a statement (prior to the opening of bids) relating to levels of rebates or discounts, for the purpose of influencing a bid submitted by any other person, shall be ineligible to submit bids to supply infant formula to the program for the bidding in progress for up to 2 years from the date the bids are opened and shall be subject to a civil penalty of up to \$100,000,000, as determined by the Secretary to provide restitution to the program for harm done to the program. The Secretary shall issue regulations providing such person, company, corporation, or other legal entity appropriate notice, and an opportunity to be heard and to respond to charges.

(ii) The Secretary shall determine the length of the disqualification, and the amount of the civil penalty referred to in clause (i) based on such factors as the Secretary by regulation determines appropriate.

(iii) Any person, company, corporation, or other legal entity disqualified under clause (i) shall remain obligated to perform any requirements under any contract to supply infant formula existing at the time of the disqualification and until each such contract expires by its terms.

(I) Not later than the expiration of the 180-day period beginning on the date of enactment of this subparagraph, the Secretary shall prescribe regulations to carry out this paragraph.

(J) A State shall not incur any interest liability to the Federal Government on rebate funds for infant formula and other foods if all interest earned by the State on the funds is used for program purposes.

(K) REPORTING.—Effective beginning October 1, 2011, each State agency shall report rebate payments received from manufacturers in the month in which the payments are received, rather than in the month in which the payments were earned.

(9) COST CONTAINMENT MEASURE.—

(A) DEFINITION OF COST CONTAINMENT MEASURE.—In this subsection, the term “cost containment measure” means a competitive bidding, rebate, direct distribution, or home delivery system implemented by a State agency as described in the approved State plan of operation and administration of the State agency.

(B) SOLICITATION AND REBATE BILLING REQUIREMENTS.—Any State agency instituting a cost containment measure for any authorized food, including infant formula, shall—

(i) in the bid solicitation—

(II) verify that no additional States shall be added to the State alliance between the date of the bid solicitation and the end of the contract;

(V) agree—

(aa) to receive an annual audit of infant formula rebate invoices by a contractor; and

(bb) to provide to each contractor accurate monthly redemption files; and

(VI) agree not to provide any State preference to any bidder in evaluating bids;

(ii) have a system to ensure that rebate invoices under competitive bidding provide a reasonable estimate or an actual count of the number of units sold to participants in the program under this section;

(iii) for any State agency that has fully implemented electronic benefits transfer systems throughout the State, have a system to ensure that rebate invoices under competitive bidding provide an actual count of the number of units lawfully sold to participants in the program under this section;

[(iii)] (iv) open and read aloud all bids at a public proceeding on the day on which the bids are due; [and]

[(iv)] (v) unless otherwise exempted by the Secretary, provide a minimum of [30] 45 days between the publication of the solicitation and the date on which the bids are due[.];

(vi) provide a process to negotiate the amount of funds to be returned to the bidder by the State agency, and the method of return, on determining and verifying that rebates were paid on any food, including infant formula, sold under fraudulent means;

(vii) open bids and enter into a contract under paragraph (8)(A)(iii) only after making a reasonable effort to confirm in writing, via email or other means, that the manufacturers on the list the State agency maintains under paragraph (8)(A)(ix) received the initial request for proposals or other bid solicitation document by not later than the date that is 45 days before the date on which the bids are due;

(viii) agree to provide to contractors supporting documentation for monthly invoices, subject to the participant and vendor confidentiality protections under program rules; and

(ix) not later than the date that is 90 days after the date for opening bids, submit to the Secretary a copy of the bid solicitation and any other contract documents.

(C) STATE ALLIANCES FOR AUTHORIZED FOODS OTHER THAN INFANT FORMULA.—Program requirements relating to the size of State alliances under paragraph (8)(A)(iv) shall apply to cost containment measures established for any authorized food under this section.

(D) CERTAIN FOOD FOR INFANTS.—Before any State agency solicits bids for a contract for infant fruits, vegetables,

cereal, or meat under a competitive bidding system, the State agency shall—

(i) consider—

(I) the impact of the contract on—

(aa) participation or redemption rates;

(bb) costs to the State agency for infant fruits, vegetables, cereal, or meat, including product, administrative, and procurement costs; and

(cc) the ability of the State agency—

(AA) to achieve the purpose described in subsection (a);

(BB) to provide infants with a variety of developmentally appropriate infant fruits, vegetables, cereal, or meat; and

(CC) to serve the nutritional needs of program participants; and

(dd) consumers who are not participants, including the availability of alternate brands and potential effects on retail pricing of infant fruits, vegetables, cereal, or meat; and

(II) whether the contract is compatible with—

(aa) the management information and food instrument system of the State agency;

(bb) eligible vendors; and

(cc) the capacity of the manufacturer to meet technical specifications; and

(ii) provide to the Secretary—

(I) a written explanation of how the considerations described in clause (i) affected the decision of the State agency to solicit bids for a contract; and

(II) not later than 15 months after the start of such contract, a report that shall include—

(aa) the net savings to date from the contract;

(bb) an assessment of the impact on eligible stores, non-participants, and retail prices for infant fruits, vegetables, cereal, and meat; and

(cc) an analysis of the costs and benefits of the contract, including an examination of retail prices of infant fruits, vegetables, cereal, and meat.

(10) FUNDS FOR INFRASTRUCTURE, MANAGEMENT INFORMATION SYSTEMS, AND SPECIAL NUTRITION EDUCATION.—

(A) IN GENERAL.—For each of fiscal years 2010 through 2015, the Secretary shall use for the purposes specified in subparagraph (B) \$139,000,000 (as adjusted annually for inflation by the same factor used to determine the national average per participant grant for nutrition services and administration for the fiscal year under paragraph (1)(B)).

(B) PURPOSES.—Subject to subparagraph (C), of the amount made available under subparagraph (A) for a fiscal year—

(i) \$14,000,000 shall be used for—

(I) infrastructure for the program under this section;

(II) special projects to promote breastfeeding, including projects to assess the effectiveness of particular breastfeeding promotion strategies; and

(III) special State projects of regional or national significance to improve the services of the program;

(ii) \$35,000,000 shall be used to establish, improve, or administer management information systems for the program, including changes necessary to meet new legislative or regulatory requirements of the program, of which up to \$5,000,000 may be used for Federal administrative costs; and

(iii) \$90,000,000 shall be used for special nutrition education (such as breastfeeding peer counselors and other related activities), of which not more than \$10,000,000 of any funding provided in excess of \$50,000,000 shall be used to make performance bonus payments under paragraph (4)(C).

(C) ADJUSTMENT.—Each of the amounts referred to in clauses (i), (ii), and (iii) of subparagraph (B) shall be adjusted annually for inflation by the same factor used to determine the national average per participant grant for nutrition services and administration for the fiscal year under paragraph (1)(B).

(D) PROPORTIONAL DISTRIBUTION.—The Secretary shall distribute funds made available under subparagraph (A) in accordance with the proportional distribution described in subparagraphs (B) and (C).

(11) VENDOR COST CONTAINMENT.—

(A) PEER GROUPS.—

(i) IN GENERAL.—The State agency shall—

(I) establish a vendor peer group system;

(II) in accordance with subparagraphs (B) and (C), establish competitive price criteria and allowable reimbursement levels for each vendor peer group; and

(III) if the State agency elects to authorize any types of vendors described in subparagraph (D)(ii)(I)—

(aa) distinguish between vendors described in subparagraph (D)(ii)(I) and other vendors by establishing—

(AA) separate peer groups for vendors described in subparagraph (D)(ii)(I); or

(BB) distinct competitive price criteria and allowable reimbursement levels for vendors described in subparagraph (D)(ii)(I) within a peer group that contains both vendors described in subparagraph (D)(ii)(I) and other vendors; and

(bb) establish competitive price criteria and allowable reimbursement levels that comply with subparagraphs (B) and (C), respectively,

and that do not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

Nothing in this paragraph shall be construed to compel a State agency to achieve lower food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(ii) EXEMPTIONS.—The Secretary may exempt from the requirements of clause (i)—

(I) a State agency that elects not to authorize any types of vendors described in subparagraph (D)(ii)(I) and that demonstrates to the Secretary that—

(aa) compliance with clause (i) would be inconsistent with efficient and effective operation of the program administered by the State under this section; or

(bb) an alternative cost-containment system would be as effective as a vendor peer group system; or

(II) a State agency—

(aa) in which the sale of supplemental foods that are obtained with food instruments from vendors described in subparagraph (D)(ii)(I) constituted less than 5 percent of total sales of supplemental foods that were obtained with food instruments in the State in the year preceding a year in which the exemption is effective; and

(bb) that demonstrates to the Secretary that an alternative cost-containment system would be as effective as the vendor peer group system and would not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(B) COMPETITIVE PRICING.—

(i) IN GENERAL.—The State agency shall establish competitive price criteria for each peer group for the selection of vendors for participation in the program that—

(I) ensure that the retail prices charged by vendor applicants for the program are competitive with the prices charged by other vendors; and

(II) consider—

(aa) the shelf prices of the vendor for all buyers; or

(bb) the prices that the vendor bid for supplemental foods, which shall not exceed the shelf prices of the vendor for all buyers.

(ii) PARTICIPANT ACCESS.—In establishing competitive price criteria, the State agency shall consider participant access by geographic area.

(iii) SUBSEQUENT PRICE INCREASES.—The State agency shall establish procedures to ensure that a retail store selected for participation in the program does not, subsequent to selection, increase prices to levels that would make the store ineligible for selection to participate in the program.

(C) ALLOWABLE REIMBURSEMENT LEVELS.—

(i) IN GENERAL.—The State agency shall establish allowable reimbursement levels for supplemental foods for each vendor peer group that ensure—

(I) that payments to vendors in the vendor peer group reflect competitive retail prices; and

(II) that the State agency does not reimburse a vendor for supplemental foods at a level that would make the vendor ineligible for authorization under the criteria established under subparagraph (B).

(ii) PRICE FLUCTUATIONS.—The allowable reimbursement levels may include a factor to reflect fluctuations in wholesale prices.

(iii) PARTICIPANT ACCESS.—In establishing allowable reimbursement levels, the State agency shall consider participant access in a geographic area.

(D) EXEMPTIONS.—The State agency may exempt from competitive price criteria and allowable reimbursement levels established under this paragraph—

(i) pharmacy vendors that supply only exempt infant formula or medical foods that are eligible under the program; and

(ii) vendors—

(I)(aa) for which more than 50 percent of the annual revenue of the vendor from the sale of food items consists of revenue from the sale of supplemental foods that are obtained with food instruments; or

(bb) who are new applicants likely to meet the criteria of item (aa) under criteria approved by the Secretary; and

(II) that are nonprofit.

(E) COST CONTAINMENT.—**[If a State]**

(i) IN GENERAL.—*If a State* agency elects to authorize any types of vendors described in subparagraph (D)(ii)(I), the State agency shall demonstrate to the Secretary, and the Secretary shall certify, that the competitive price criteria and allowable reimbursement levels established under this paragraph for vendors described in subparagraph (D)(ii)(I) do not result in average payments per voucher to vendors described in subparagraph (D)(ii)(I) that are higher than average

payments per voucher to comparable vendors other than vendors described in subparagraph (D)(ii)(I).

(ii) *REQUIREMENT.*—Effective not later than 120 days after the date of the enactment the Improving Child Nutrition and Education Act of 2016, in calculating average payments per voucher under clause (i), a State agency shall exclude food instruments not fully redeemed, based on an actual count or a reasonable estimate.

(F) *LIMITATION ON PRIVATE RIGHTS OF ACTION.*—Nothing in this paragraph may be construed as creating a private right of action.

(G) *IMPLEMENTATION.*—A State agency shall comply with this paragraph not later than 18 months after the date of enactment of this paragraph.

(12) *ELECTRONIC BENEFIT TRANSFER.*—

(A) *DEFINITIONS.*—In this paragraph:

(i) *ELECTRONIC BENEFIT TRANSFER.*—The term “electronic benefit transfer” means a [food delivery system that provides] *method to deliver* benefits using a card or other access device approved by the Secretary that permits electronic access to program benefits.

(ii) *PROGRAM.*—The term “program” means the special supplemental nutrition program established by this section.

(B) *REQUIREMENTS.*—

(i) *IN GENERAL.*—Not later than October 1, 2020, each State agency shall be required to implement electronic benefit transfer systems throughout the State, unless the Secretary grants an exemption under subparagraph (C) for a State agency that is facing unusual barriers to implement an electronic benefit transfer system.

(ii) *RESPONSIBILITY.*—The State agency shall be responsible for the coordination and management of the electronic benefit transfer system of the agency.

(C) *EXEMPTIONS.*—

(i) *IN GENERAL.*—To be eligible for an exemption from the statewide implementation requirements of subparagraph (B)(i), a State agency shall demonstrate to the satisfaction of the Secretary 1 or more of the following:

(I) There are unusual technological barriers to implementation.

(II) Operational costs are not affordable within the nutrition services and administration grant of the State agency.

(III) It is in the best interest of the program to grant the exemption.

(ii) *SPECIFIC DATE.*—A State agency requesting an exemption under clause (i) shall specify a date by which the State agency anticipates statewide implementation described in subparagraph (B)(i).

(D) *REPORTING.*—

(i) IN GENERAL.—Each State agency shall submit to the Secretary electronic benefit transfer project status reports to demonstrate the progress of the State toward statewide implementation.

(ii) CONSULTATION.—If a State agency plans to incorporate additional programs in the electronic benefit transfer system of the State, the State agency shall consult with the State agency officials responsible for administering the programs prior to submitting the planning documents to the Secretary for approval.

(iii) REQUIREMENTS.—At a minimum, a status report submitted under clause (i) shall contain—

(I) an annual outline of the electronic benefit transfer implementation goals and objectives of the State;

(II) appropriate updates in accordance with approval requirements for active electronic benefit transfer State agencies; and

(III) such other information as the Secretary may require.

(E) IMPOSITION OF COSTS ON VENDORS.—

(i) COST PROHIBITION.—Except as otherwise provided in this paragraph, the Secretary may not impose, or allow a State agency to impose, the costs of any equipment or system required for electronic benefit transfers on any authorized vendor in order to transact electronic benefit transfers if the vendor equipment or system is used solely to support the program.

(ii) COST-SHARING.—The Secretary shall establish criteria for cost-sharing by State agencies and vendors of costs associated with any equipment or system that is not solely dedicated to transacting electronic benefit transfers for the program.

(iii) FEES.—

(I) IN GENERAL.—A vendor that elects to accept electronic benefit transfers using multifunction equipment shall pay commercial transaction processing costs and fees imposed by a third-party processor that the vendor elects to use to connect to the electronic benefit transfer system of the State.

(II) INTERCHANGE FEES.—No interchange fees shall apply to electronic benefit transfer transactions under this paragraph.

(iv) STATEWIDE OPERATIONS.—After completion of statewide expansion of a system for transaction of electronic benefit transfers—

(I) a State agency may not be required to incur ongoing maintenance costs for vendors using multifunction systems and equipment to support electronic benefit transfers; and

(II) any retail store in the State that applies for authorization to become a program vendor shall be required to demonstrate the capability to accept program benefits electronically prior to au-

thorization, unless the State agency determines that the vendor is necessary for participant access.

(F) MINIMUM LANE COVERAGE.—

(i) IN GENERAL.—The Secretary shall establish minimum lane coverage guidelines for vendor equipment and systems used to support electronic benefit transfers.

(ii) PROVISION OF EQUIPMENT.—If a vendor does not elect to accept electronic benefit transfers using its own multifunction equipment, the State agency shall provide such equipment as is necessary to solely support the program to meet the established minimum lane coverage guidelines.

(G) TECHNICAL STANDARDS.—The Secretary shall—

(i) establish technical standards and operating rules for electronic benefit transfer systems; and

(ii) require each State agency, contractor, and authorized vendor participating in the program to demonstrate compliance with the technical standards and operating rules.

(H) REGULATIONS.—*As State agencies transition to electronic benefit transfer for the program, the Secretary shall update regulations to account for the fact that State agencies—*

(i) are receiving transaction pricing more frequently than twice a year from vendors; and

(ii) should adjust vendor reimbursement levels more frequently to reflect program food price changes in the marketplace.

(I) AUTHORIZATION OF APPROPRIATIONS.—

(i) IN GENERAL.—*There is authorized to be appropriated to carry out this paragraph \$25,000,000 for each of fiscal years 2017 through 2019.*

(ii) USE.—*The Secretary shall allocate the funds made available under this subparagraph to States for purposes of enhancing and accelerating the implementation of electronic benefit transfer systems.*

(J) PENALTY FOR NONCOMPLIANCE.—*For any State agency that fails to comply with subparagraph (B), including a State agency receiving an exemption under subparagraph (C), the Secretary shall—*

(i) withhold such amounts otherwise required to be allocated to the State agency for nutrition services and administration as the Secretary determines to be appropriate; and

(ii) direct the amounts withheld for use by the State agency solely for achieving compliance with subparagraph (B).

(13) UNIVERSAL PRODUCT CODES DATABASE.—

(A) IN GENERAL.—Not later than 2 years after the date of enactment of the Healthy, Hunger-Free Kids Act of 2010, the Secretary shall establish a national universal product code database to be used by all State agencies in carrying out the requirements of paragraph (12).

(B) FUNDING.—

(i) IN GENERAL.—On October 1, 2010, and on each October 1 thereafter, out of any funds in the Treasury not otherwise appropriated, the Secretary of the Treasury shall transfer to the Secretary to carry out this paragraph \$1,000,000, to remain available until expended.

(ii) RECEIPT AND ACCEPTANCE.—The Secretary shall be entitled to receive, shall accept, and shall use to carry out this paragraph the funds transferred under clause (i), without further appropriation.

(iii) USE OF FUNDS.—The Secretary shall use the funds provided under clause (i) for development, hosting, hardware and software configuration, and support of the database required under subparagraph (A).

(C) ACCESS.—*The Secretary shall make available upon request the national universal product code database to vendors approved for participation in the special supplemental food program established under this section.*

(14) INCENTIVE ITEMS.—A State agency shall not authorize or make payments to a vendor described in paragraph (11)(D)(ii)(I) that provides incentive items or other free merchandise, except food or merchandise of nominal value (as determined by the Secretary), to program participants unless the vendor provides to the State agency proof that the vendor obtained the incentive items or merchandise at no cost.

(i)(1) By the beginning of each fiscal year, the Secretary shall divide, among the State agencies, the amounts made available for food benefits under subsection (h)(1)(C) on the basis of a formula determined by the Secretary.

(2) Each State agency's allocation, as so determined, shall constitute the State agency's authorized operational level for that year, except that the Secretary shall reallocate funds periodically if the Secretary determines that a State agency is unable to spend its allocation.

(3)(A) Notwithstanding paragraph (2) and subject to subparagraph (B)—

(i)(I) not more than 1 percent (except as provided in subparagraph (C)) of the amount of funds allocated to a State agency under this section for supplemental foods for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods during the preceding fiscal year; and

(II) not more than 1 percent of the amount of funds allocated to a State agency under this section for nutrition services and administration for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods and nutrition services and administration during the preceding fiscal year; and

(ii)(I) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than 3 percent of the amount allocated to the State agency under this section for the fiscal year may be expended by the State agency for allowable expenses incurred

under this section for nutrition services and administration during the subsequent fiscal year; and

(II) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than $\frac{1}{2}$ of 1 percent of the amount allocated to the State agency under this section for the fiscal year may be expended by the State agency, with the prior approval of the Secretary, for the development of a management information system, including an electronic benefit transfer system, during the subsequent fiscal year.

(B) Any funds made available to a State agency in accordance with subparagraph (A)(ii) for a fiscal year shall not affect the amount of funds allocated to the State agency for such year.

(C) The Secretary may authorize a State agency to expend not more than 3 percent of the amount of funds allocated to a State under this section for supplemental foods for a fiscal year for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that there has been a significant reduction in infant formula cost containment savings provided to the State agency that would affect the ability of the State agency to at least maintain the level of participation by eligible participants served by the State agency.

(4) For purposes of the formula, if Indians are served by the health department of a State, the formula shall be based on the State population inclusive of the Indians within the State boundaries.

(5) If Indians residing in the State are served by a State agency other than the health department of the State, the population of the tribes within the jurisdiction of the State being so served shall not be included in the formula for such State, and shall instead be included in the formula for the State agency serving the Indians.

(6) Notwithstanding any other provision of this section, the Secretary may use a portion of a State agency's allocation to purchase supplemental foods for donation to the State agency under this section.

(7) In addition to any amounts expended under paragraph (3)(A)(i), any State agency using cost containment measures as defined in subsection (h)(9) may temporarily use amounts made available to such agency for the first quarter of a fiscal year to defray expenses for costs incurred during the final quarter of the preceding fiscal year. In any fiscal year, any State agency that uses amounts made available for a succeeding fiscal year under the authority of the preceding sentence shall restore or reimburse such amounts when such agency receives payment as a result of its cost containment measures for such expenses.

(8) TEMPORARY SPENDING AUTHORITY.—During each of fiscal years 2012 and 2013, the Secretary may authorize a State agency to expend more than the amount otherwise authorized under paragraph (3)(C) for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that—

(A) there has been a significant reduction in reported infant formula cost containment savings for the preceding fiscal year due to the implementation of subsection (h)(8)(K); and

(B) the reduction would affect the ability of the State agency to serve all eligible participants.

(j)(1) The Secretary and the Secretary of Health and Human Services (referred to in this subsection as the “Secretaries”) shall jointly establish and carry out an initiative for the purpose of providing both supplemental foods, nutrition education, and breastfeeding support and promotion under the special supplemental nutrition program and health care services to low-income pregnant, postpartum, and breastfeeding women, infants, and children at substantially more community health centers and migrant health centers.

(2) The initiative shall also include—

(A) activities to improve the coordination of the provision of supplemental foods, nutrition education, and breastfeeding support and promotion under the special supplemental nutrition program and health care services at facilities funded by the Indian Health Service; and

(B) the development and implementation of strategies to ensure that, to the maximum extent feasible, new community health centers, migrant health centers, and other federally supported health care facilities established in medically underserved areas provide supplemental foods, nutrition education, and breastfeeding support and promotion under the special supplemental nutrition program.

(3) The initiative may include—

(A) outreach and technical assistance for State and local agencies and the facilities described in paragraph (2)(A) and the health centers and facilities described in paragraph (2)(B);

(B) demonstration projects in selected State or local areas; and

(C) such other activities as the Secretaries find are appropriate.

(4) As used in this subsection:

(A) The term “community health center” has the meaning given the term in section 330(a) of the Public Health Service Act (42 U.S.C. 254c(a)).

(B) The term “migrant health center” has the meaning given the term in section 329(a)(1) of such Act (42 U.S.C. 254b(a)(1)).

[(k)(1) There is hereby established a National Advisory Council on Maternal, Infant, and Fetal Nutrition (referred to in this subsection as the “Council”) composed of 24 members appointed by the Secretary. One member shall be a State director of a program under this section; one member shall be a State official responsible for a commodity supplemental food program under section 1304 of the Food and Agriculture Act of 1977; one member shall be a State fiscal officer of a program under this section (or the equivalent thereof); one member shall be a State health officer (or the equivalent thereof); one member shall be a local agency director of a program under this section in an urban area; one member shall be a local agency director of a program under this section in a rural area; one member shall be a project director of a commodity supplemental food program; one member shall be a State public health nutrition director (or the equivalent thereof); one member shall be a representative of an organization serving migrants; one member shall be an official from a State agency predominantly serving Indi-

ans; three members shall be parent participants of a program under this section or of a commodity supplemental food program; one member shall be a pediatrician; one member shall be an obstetrician; one member shall be a representative of a nonprofit public interest organization that has experience with and knowledge of the special supplemental nutrition program; one member shall be a person involved at the retail sales level of food in the special supplemental nutrition program; two members shall be officials of the Department of Health and Human Services appointed by the Secretary of Health and Human Services; two members shall be officials of the Department of Agriculture appointed by the Secretary; 1 member shall be an expert in the promotion of breast feeding; one member shall be an expert in drug abuse education and prevention; and one member shall be an expert in alcohol abuse education and prevention.

[(2) Members of the Council appointed from outside the Department of Agriculture and the Department of Health and Human Services shall be appointed for terms not exceeding three years. State and local officials shall serve only during their official tenure, and the tenure of parent participants shall not exceed two years. Persons appointed to complete an unexpired term shall serve only for the remainder of such term.

[(3) The Council shall elect a Chairman and a Vice Chairman. The Council shall meet at the call of the Chairman, but shall meet at least once a year. Eleven members shall constitute a quorum.

[(4) The Secretary shall provide the Council with such technical and other assistance, including secretarial and clerical assistance, as may be required to carry out its functions.

[(5) Members of the Council shall serve without compensation but shall be reimbursed for necessary travel and subsistence expenses incurred by them in the performance of the duties of the Council. Parent participant members of the Council, in addition to reimbursement for necessary travel and subsistence, shall, at the discretion of the Secretary, be compensated in advance for other personal expenses related to participation on the Council, such as child care expenses and lost wages during scheduled Council meetings.]

[(1)] (k) Foods available under section 416 of the Agriculture Act of 1949, including, but not limited to, dry milk, or purchased under section 32 of the Act of August 24, 1935 may be donated by the Secretary, at the request of a State agency, for distribution to programs conducted under this section. The Secretary may purchase and distribute, at the request of a State agency, supplemental foods for donation to programs conducted under this section, with appropriated funds, including funds appropriated under this section.

[(m)] (l)(1) Subject to the availability of funds appropriated for the purposes of this subsection, and as specified in this subsection, the Secretary shall award grants to States that submit State plans that are approved for the establishment or maintenance of programs designed to provide recipients of assistance under subsection (c), or those who are on the waiting list to receive the assistance, with coupons that may be exchanged for fresh, nutritious, unprepared foods at farmers' markets and (at the option of a State) roadside stands, as defined in the State plans submitted under this subsection.

(2) A grant provided to any State under this subsection shall be provided to the chief executive officer of the State, who shall—

(A) designate the appropriate State agency or agencies to administer the program in conjunction with the appropriate non-profit organizations; and

(B) ensure coordination of the program among the appropriate agencies and organizations.

(3) The Secretary shall not make a grant to any State under this subsection unless the State agrees to provide State, local, or private funds for the program in an amount that is equal to not less than 30 percent of the administrative cost of the program, which may be satisfied from program income or State contributions that are made for similar programs. The Secretary may negotiate with an Indian State agency a lower percentage of matching funds than is required under the preceding sentence, but not lower than 10 percent of the administrative cost of the program, if the Indian State agency demonstrates to the Secretary financial hardship for the affected Indian tribe, band, group, or council.

(4) Subject to paragraph (6), the Secretary shall establish a formula for determining the amount of the grant to be awarded under this subsection to each State for which a State plan is approved under paragraph (6), according to the number of recipients proposed to participate as specified in the State plan. In determining the amount to be awarded to new States, the Secretary shall rank order the State plans according to the criteria of operation set forth in this subsection, and award grants accordingly. The Secretary shall take into consideration the minimum amount needed to fund each approved State plan, and need not award grants to each State that submits a State plan.

(5) Each State that receives a grant under this subsection shall ensure that the program for which the grant is received complies with the following requirements:

(A) Individuals who are eligible to receive Federal benefits under the program shall only be individuals who are receiving assistance under subsection (c), or who are on the waiting list to receive the assistance.

(B) Construction or operation of a farmers' market may not be carried out using funds—

(i) provided under the grant; or

(ii) required to be provided by the State under paragraph (3).

(C) The value of the Federal share of the benefits received by any recipient under the program may not be—

(i) less than \$10 per year; or

(ii) more than \$30 per year.

(D) The coupon issuance process under the program shall be designed to ensure that coupons are targeted to areas with—

(i) the highest concentration of eligible individuals;

(ii) the greatest access to farmers' markets; and

(iii) certain characteristics, in addition to those described in clauses (i) and (ii), that are determined to be relevant by the Secretary and that maximize the availability of benefits to eligible individuals.

(E) The coupon redemption process under the program shall be designed to ensure that the coupons may be—

(i) redeemed only by producers authorized by the State to participate in the program; and

(ii) redeemed only to purchase fresh nutritious unprepared food for human consumption.

MINORITY VIEWS

INTRODUCTION

Committee Democrats strongly oppose H.R. 5003, *the Improving Child Nutrition and Education Act of 2016*. During its consideration by the Full Committee on May 18, 2016, all Democratic Members in attendance voted in opposition to reporting the legislation. Committee Democrats strongly feel that efforts to reauthorize child nutrition programs present a valuable opportunity to continue to improve the eating habits of children, expand their access to nutritious meals, and alleviate the child hunger crisis in our country. A responsible reauthorization would make progress toward these goals and improve the school meals programs for the benefit of those they are intended to serve.

A child nutrition reauthorization that makes progress toward eliminating childhood hunger and food insecurity is not and should not be an impossible nor partisan goal. Rather than moving us forward, H.R. 5003 would roll back access to and availability of nutritious meals, putting at risk the current and future health of millions of schoolchildren. The partisan legislation introduced by Committee Republicans charts a path that ignores scientific research and uses rhetoric of reduced federal involvement to justify broad, irresponsible changes to programs with demonstrated efficacy. The Republican reauthorization means increased burden on schools and families who participate in school meals programs, the ability for states to restrict who is eligible for school meals through a pilot block grant program, and weakened nutrition standards for the foods that fuel our nation's children and students.

THE IMPORTANCE OF FEDERAL CHILD NUTRITION PROGRAMS

The passage of the Richard B. Russell National School Lunch Act, signed by President Harry S. Truman in 1946, created the National School Lunch Program (NSLP) to bolster national security threatened by rampant malnutrition among prospective military recruits. Over the last seventy years, this established federal role has expanded to include nutritional support for eligible children during breakfast and after school, over the summer, and in child care centers or provider homes, as well as nutritional support for mothers, infants, and young children through the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC).

The national security purpose for which the National School Lunch Program was first created remains as important today as it was seventy years ago. In the twenty-first century, malnutrition and food insecurity remain a threat to our nation's youth. According to the Department of Agriculture's Economic Research Service, 7.8 percent of U.S. households with children (3 million households)

experienced food insecurity in 2015. These households were at times unable to provide adequate, nutritious food for their children during the year.¹ School meal programs serve as a major component of the nutrition safety net for our nation's students and families, providing them with nutritious foods and protecting them from falling further into poverty. In fact, the Census Bureau's Supplemental Poverty Measure demonstrates that nutrition programs, such as the school lunch program and the WIC program, have a tangible and measurable impact in alleviating poverty.²

There is a federal role in ensuring every child has access to healthy and nutritious food and is able to learn without the burden of hunger. Child nutrition programs provide not only a health benefit to children, but these programs also help ensure students are able to grow, both physically and intellectually. Studies from peer-reviewed journals on cognitive function and pediatrics describe how nutritional deficiencies and increases in the intake of nutrients can affect various brain functions, including cognition, concentration, perception, intuition, and reasoning. These studies also find that healthier students are likely to have fewer absences and disciplinary issues. Research published in the *Journal of School Health and American Journal of Diseases of Children* found that programs focused on improving students' health are associated with increased test scores.³

The benefits of a healthy diet at a young age extend beyond childhood. There is a large body of research demonstrating the importance of consistent access to nutritious food to support the health and wellbeing of children from early childhood through adulthood, which could result in substantial long-term savings in health care and education.⁴

H.R. 5003 ERODES SCIENCE-BASED NUTRITION STANDARDS

The previous bipartisan reauthorization of child nutrition programs, *the Healthy, Hunger-Free Kids Act of 2010*, introduced strong meal nutrition standards for foods served at schools, both during and outside the traditional meal service. The improvements in nutrition standards ensure that children are exposed to healthy foods and can begin forming healthy eating habits while in school. The new standards are based on scientific evidence—the Dietary Guidelines for Americans as well as the recommendations from nutrition experts at the Institute of Medicine. The standards are tailored to age groups and maintain flexibility for schools in their meal planning process. In short, the standards reflect the best available evidence about how to design and offer healthy and nutri-

tious meals, snacks, and beverages for students, while still allowing for flexibility for schools on how to achieve compliance.

The standards enacted in the wake of the 2010 reauthorization have resulted in healthier school environments across the country. According to researchers at the Harvard School of Public Health, the new federal standards have led to increased fruit and vegetable consumption.⁵ Further, according to a three year study conducted by the Center for Public Health Nutrition at the University of Washington's School of Public Health, after the healthier standards were in place, the overall nutritional quality of the foods chosen by students increased by 29 percent and the calorie content per gram decreased by 13 percent. In spite of claims to the contrary, this study also found that there was no impact on participation rates.⁶

Through the hard work of many actors at the local, state, and federal levels, the improved nutrition standards are in place at over 98 percent of NSLP-participating schools.⁷ The standards are not only widely adopted by schools, but are also widely supported by families; 90 percent of Americans support the current national school nutrition standards, with similar levels of support for maintaining or strengthening the nutrition standards.⁸

Ignoring the widespread success and adoption of the new nutrition standards, H.R. 5003 contains provisions that threaten these federal standards. The legislation proposes a three-year review of the nutrition standards by the United States Department of Agriculture, with the first review to be conducted almost immediately. The reviews would require the Department to certify that the regulations meet specific criteria. For example, certification must prove that nutrition standards are not responsible for either increased costs or decreased program participation. This shortsighted approach allows other factors—that could be entirely unrelated to the nutrition programs themselves, such as population changes, inflation, or demographic shifts—to negate the fundamental importance of science-based standards. The nutrition of students' meals could therefore be compromised by a regulatory process devoid of science. Ranking Member Scott offered an amendment to strike the three-year review, keeping the current apolitical, science-based review system in place, but this amendment was defeated by a partisan vote.

H.R. 5003 also makes changes to current law and regulations regarding the service of "à la carte" items. H.R. 5003 would allow any entree that was part of a reimbursable meal to be served as an à la carte item any day of the week. This allowance undermines the structure of the current nutrition standards, where average weekly meal targets for fat, calories, and sodium must be met. This provision has the effect of allowing high-fat, high-calorie, and/or high-

sodium food items that might be an appropriate part of a weekly average—but not a daily meal component—to be served at any point, eroding the intent of the nutrition standards that students be served nutritionally balanced meals each day. Ms. Bonamici offered an amendment striking the a la carte change, but it was defeated by a partisan vote.

Committee Democrats recognize that legislators are not, in general, nutrition experts or medical professionals and that any changes to federal nutrition standards should be grounded in scientific data. Congress is not the appropriate venue for the current science-based process for determining nutrition standards. The above-mentioned changes to nutrition standards proposed in H.R. 5003, among others, represent a challenge to the standards as a whole, allowing less healthy foods in schools. Subcommittee Ranking Member Fudge also offered an amendment that would prohibit the bill from taking effect if it would: (1) lead to less healthy foods being available in schools; or, (2) make it more difficult for schools to serve free meals to all students. Committee Democrats unanimously supported this amendment, but it was also defeated.

H.R. 5003 THREATENS ACCESS TO SCHOOLS MEALS

Community eligibility provision

H.R. 5003 proposes drastic changes to a successful provision in the 2010 reauthorization that provides access to free, nutritious meals to millions of students from low-income families. In the 2015–2016 school year, the Community Eligibility Provision (CEP) allowed more than 18,000 schools across the country to serve free, universal, healthy school meals to 8.5 million children without the stigma or burden of paperwork.⁹ Now in just its third year of nationwide availability, CEP has proven to be a powerful tool that allows school districts to provide easier access to nutritious meals for children in high-poverty schools and high-poverty areas. It simplifies the meal program eligibility for schools and administrators by allowing schools to offer breakfast and lunch at no charge to all students while eliminating applications and tracking eligibility in the lunch line. Additionally, CEP simplifies the process for students and families by alleviating the burden of filling out a school meals application that is often redundant for families who are receiving benefits from a similar income-based program.

Under federal law, certain students are automatically enrolled for free meals without an application because they are at special risk for food insecurity and other consequences of living in poverty, such as children living in households receiving SNAP benefits or children who are homeless. These especially vulnerable students are referred to as “identified students” because they have been identified by other programs as especially vulnerable. Schools in which 40 percent or more of the students are identified students can adopt community eligibility. But identified students are only a subset of those who would qualify for free or reduced-price meals if the school collected school meal applications. Schools in which 40

⁹Food Research Action Council & Center on Budget and Policy Priorities. *Community Eligibility Adoption Rises for the 2015–2016 School Year, Increasing Access to School Meals*, (May 13, 2016) available at: <http://frac.org/pdf/take-up-of-cep-report.pdf>.

to 60 percent of students are identified as automatically eligible for free meals typically have 64 to 96 percent of their students approved for free or reduced-price meals.¹⁰ This difference occurs because some children, for example, do not participate in one of the programs that confer automatic eligibility. H.R. 5003 would increase this threshold to 60 percent, potentially affecting the eligibility of thousands of schools and taking away free, healthy meals from millions of children.¹¹

Committee Republicans argued that the CEP threshold change in the bill is needed to better target resources to those students most in need. However, this belief is misguided. Committee Democrats recognize that the program, as designed, *already* targets vulnerable students and schools most in need. CEP has become a vital part of the nutrition safety net in the fight to reduce food insecurity and improve access to healthy meals. The change proposed in the legislation would severely damage the progress made in reducing stigma, paperwork burden, and other obstacles to school meal access. Children’s HealthWatch asserts that raising the threshold for the Community Eligibility Provision would likely increase—rather than decrease—the risk of food insecurity among these students and their families.¹² The nonpartisan Congressional Budget Office confirmed that the CEP change in the bill would threaten participation in the school meals program for many students currently receiving free school meals.¹³

Committee Democrats offered a series of amendments that sought to preserve access to healthy meals for low-income families and school districts through CEP. Subcommittee Ranking Member Fudge offered an amendment to strike the CEP threshold change and offered an amendment to prohibit the implementation of the legislation should it make it more difficult for schools to provide free meals. Ranking Member Scott offered an amendment that called for a study on the efficacy of providing universal free meals to all students nationwide.

Unfortunately, each of these amendments offered to protect current access to school meals programs through CEP was defeated.

Outreach restrictions and increased verification

Committee Democrats strongly believe that the integrity of federal child nutrition programs is critically important and must be protected. The Republican proposal to increase the verification requirements in school meal programs as a response to reports of error rates in the program however is misguided. In addition to restricting community eligibility, the bill dramatically increases verification requirements for school meal applications in ways that could cause eligible students to lose access to the free or reduced-price school meals to which they are eligible. Under the proposal,

many school districts would be required to verify significantly more applications, creating burdens for schools and families. The most troublesome element of the increased verification requirement is that, coupled with the loss of community eligibility, the two provisions would work in concert to impact a disproportionate number of the most vulnerable families, such as those who are homeless, migrant, immigrant or have limited English proficiency. Children in these families are the most likely to fall through the cracks and lose access to these school meals even though they are eligible. To mitigate the harm caused by this proposal, Mr. Polis offered an amendment to protect free and reduced-price eligibility in households where the language accessibility requirement was not met. That amendment was not adopted. Further, Mr. Takano offered an amendment to maintain the current verification procedures, which was also defeated.

H.R. 5003 also interferes with school districts' ability to conduct effective outreach to enroll families eligible for free and reduced-price meals. The bill prohibits school districts from including the eligibility requirements for school meals on the school meal applications and places an arbitrary cap on the number of times that schools can ask families to fill out applications. This proposal would reduce the number of eligible children applying for school meals and particularly impact the many working poor families who become eligible during the school year due to fluctuations in income. Ms. Davis offered an amendment to remove the senseless cap on outreach that school districts can conduct. That amendment was not adopted.

H.R. 5003 ERODES THE FEDERAL ROLE IN ENSURING ACCESS TO
HEALTHY, NUTRITIOUS MEALS

H.R. 5003 takes direct aim at the federal role in child nutrition programs by weakening federal nutrition standards, limiting Secretarial authority to administer the programs, and introducing a three-state pilot block grant program that is devoid of any meaningful federal oversight.

Section 115 of the legislation would prohibit the Secretary of the Department of Agriculture from issuing or establishing, "any regulations or requirements not explicitly authorized" by the Act. This policy would not only challenge the authorities granted to the Executive Branch under Article II of the Constitution but also prevent a necessary response by the federal government, even in an emergency situation. For example, should food contamination or a public health crisis in a school or schools occur, the Secretary could not issue guidance to assist states and school districts in their response to such crisis. Ranking Member Scott offered an amendment to strike this limitation on the Secretary's authority. This amendment was supported unanimously by Committee Democrats, but was still defeated.

The three-state block grant proposal in the bill represents an even more egregious challenge to the federal role in school meals programs. This proposal coincides with the broader Republican effort to give states blank checks of federal taxpayer money under the guise of flexibility. The block grant would allow three states nearly unfettered access to federal money for the purpose of imple-

menting child nutrition programs. Under this pilot program, states would only be required to provide an “assurance” that they provide access to at least one affordable and healthy meal paid for out of one general fund provided to the state, rather than reimbursed on a per meal basis. The terms “healthy” and “affordable” are not defined, so there are virtually no guarantees that children would actually receive affordable and healthy meals.

Block grants are capped funding streams that cannot respond to either increases or decreases in demand. Therefore, during a recession the block grant would be unable to absorb the increased demand and serve more needy children. The current structure ensures that every eligible child gets a meal reimbursed in full or in part by the USDA. Further, block grants tend to dramatically lose value over time because they are not adjusted for inflation. As a result, the vast majority of major block grant programs have actually shrunk in inflation-adjusted terms since their inception. For example, inflation-adjusted funding for the Temporary Assistance for Needy Families (TANF) program has decreased 32 percent and the Maternal and Child Health Block Grant has decreased 29 percent.¹⁴ Therefore, it is deeply concerning that capping the school meals funding could result in fewer children having access to school meals through the loss of funding alone. Coupled with the fact that the pilot program would only require a loose assurance that children are actually fed healthy meals, the block grant pilot erodes the very intention of school-based feeding programs.

The inclusion of the three state block grant pilot in the bill serves as the first step in moving to block grant school meal programs across all fifty states, as evidenced by a Republican amendment offered to do just that, earning the support of nearly half of Committee Republicans. The intent of the block grant pilot is clear—to limit the number of children served by federal nutrition programs and limit the federal investment in these programs. Committee Democrats are steadfast in unanimous rejection of any efforts to turn child nutrition programs into a block grant. The amendment offered by Ranking Member Scott to strike the block grant pilot was rejected on a party line vote.

H.R. 5003 FAILS TO ADEQUATELY IMPROVE FOODS SERVED OUTSIDE OF SCHOOL MEALS

The summer months bring with them reduced access to school meal programs provided during the school year for millions of children; they are periods of increased risk for food insecurity and consumption of excessive unhealthy foods. Millions of children lose access to school breakfast, lunch, and afterschool meals that are available during the regular school year. The Summer Food Service Program (SFSP) fills this gap by providing free and nutritious meals and snacks to low-income children when school is not in session.

H.R. 5003 made various changes to SFSP. The legislation included certain provisions to streamline provider eligibility, a con-

¹⁴Center on Budget and Policy Priorities. *Funding for Housing, Health, and Social Services Block Grants Has Fallen Markedly Over Time*, (March 24, 2016) available at: <http://www.cbpp.org/research/federal-budget/funding-for-housing-health-and-social-services-block-grants-has-fallen>.

cept widely supported by both Democrats and Republicans. However, the legislation failed to make investments necessary for successful implementation of this provision. In order to build on the underlying provisions in H.R. 5003, Democrats offered amendments to expand the range of the SFSP allowing more low-income children to be served. Specifically, Ms. Adams offered an amendment to modernize the area eligibility test to allow community-based organizations to participate if 40 percent of the children in the area are eligible for free or reduced-price meals. Currently, the 50 percent area qualification is inconsistent with other federally funded programs that support services for low-income children and require 40 percent, such as the 21st Century Community Learning Center program and Title I–A of the ESEA, which require at least 40 percent. The amendment offered by Ms. Adams to use a 40 percent standard was not adopted.

The Summer Electronic Benefit Transfer for Children (Summer EBT) program is also an important tool in combatting summer hunger and enjoys widespread bipartisan support. The Summer EBT program began as a demonstration program and studies have shown success in reducing the most severe forms of food insecurity and enabling participating families to procure and eat more fruits, vegetables, dairy, and whole grains.¹⁵ In fact, a Summer EBT benefit of \$60 per month per child has been shown to reduce the most severe category of food insecurity among children during the summer by one-third.¹⁶ In April, the program received nearly \$27 million in grants to expand these benefits to new rural areas, Tribal Nations, and areas of extreme need, including Flint, Michigan. While H.R. 5003 continues the authorization of this important program, the annual investment in the Summer EBT program is reduced by over fifty percent from the FY 2016 appropriated amount, therefore limiting the reach and the success of the Summer EBT program. An amendment, introduced by Ms. Davis and co-sponsored by Ms. Bonamici, sought to go beyond maintenance of current funding levels and increase funding to expand the program nationwide. Despite the successes of the program, the amendment was voted down along partisan lines.

Outside of SFSP, the Child and Adult Care Food Program (CACFP) also provides healthy foods outside the school day by providing nutritious meals and snacks to children in day care or after-school. But many sites participating in either the SFSP or the CACFP program also provide full-day educational and enrichment activities. These programs provide a dual benefit, providing both healthy foods and educational support to children when not in school. For example, summer education programs are valuable in addressing the academic slide that can occur over the summer. As effective as these programs can be, most are unable to provide a third meal to all-day participants, despite the need for this additional meal among many in the communities these sites serve.

Recognizing the essential role of SFSP and CACFP sites that provide all-day enrichment activities to participants, Committee

Democrats sought to expand these providers' ability to nourish those participants throughout the day. Amendments proposed by Ranking Member Scott and Ms. Bonamici would allow the provision of a third meal in the Summer Food Service Program and the Child and Adult Care Food Program, respectively. These amendments, despite their merits, unanimous Democratic support, and even bipartisan support for similar legislation introduced in this Congress, failed to gain more than a handful of Committee Republican votes.

H.R. 5003 IGNORES THE PUBLIC HEALTH NEEDS OF THE NATION'S CHILDREN

No amount of lead is a safe amount of lead. Yet children in Flint, Michigan were exposed to astronomical levels of lead in their drinking water. The seepage of lead into the drinking water in Flint generated a public health crisis and prompted President Obama to declare a federal state of emergency. The research is clear on the impact of exposure to lead on young children. The adverse effects of lead exposure range from decreased academic attainment, damage to the brain and nervous system, slowed growth and development, learning and behavior problems, such as juvenile delinquency and criminal behavior, and hearing and speech problems.¹⁷ These effects can result in a significant decline in earnings for those impacted, loss of tax revenues, additional burdens to the criminal justice system and special education system, and increased stress on the health care system.

The tragedy in Flint resulted from irresponsible local and state decisions made in an effort to cut costs, sacrificing the health of a community in the process. The poisoning of Flint residents, especially all of its 29,000 children, should serve as catalyst for legislators to take action to both respond to the families and children affected in Flint, and to also take steps to prevent other children from lead exposure. Unfortunately, Flint is not the only community suffering from lead contamination in its water; other communities across the country are also facing extremely elevated lead levels in drinking water.

Federal nutrition programs are a powerful tool in responding to the crisis in Flint, since the programs provide the healthy foods with the vitamins and nutrients necessary to help mitigate the effects of lead poisoning, such as vitamin C, iron, and calcium.¹⁸ In its federal response to Flint, the USDA provided: summertime nutrition assistance through the Summer EBT program to the more than 39,000 children who live or attend schools in the area affected by lead-contaminated water, an additional \$62,700 for the Fresh Fruit and Vegetable Program to help schools purchase fruit and vegetable snacks, and leveraged the WIC program to provide blood lead testing at clinics for WIC participants and allowed WIC bene-

fits to include ready-to-feed infant formula.¹⁹ The approximately 7,600 Flint residents participating in the WIC program (including around 1,500 women, 1,800 infants, and 4,300 children) were also offered supportive services as well as nutrition education on mitigating lead absorption through dietary changes.²⁰

Committee Democrats recognize the importance of federal nutrition programs in responding to a crisis, such as the one residents of Flint experienced, as well as responding to the everyday needs of our nation's mothers and children. Therefore, in the wake of Flint, it is even more important that Congress does not cut corners in federal nutrition programs. These programs are relied upon every day, but even more so when a situation like the water contamination in Flint emerges.

To prevent similar disasters, Democrats believe that any reauthorization must address the immediate risk to mental and physical health from contaminated water by ensuring that all schools and CACFP providers have potable drinking water, as required by current law. To that end, Democrats offered two amendments related to water testing and safety. An amendment offered by Ranking Member Scott provided funding for nationwide water testing in schools and child care settings. Committee Democrats recognize that addressing the prevalence of lead in drinking water will require an upfront investment, but firmly believe that this investment is both cost-effective and a moral imperative. Research has shown that for every dollar spent on controlling lead hazards, \$17 to \$221 would be returned on that investment through health benefits, increased IQ, higher lifetime earnings, tax revenue, reduced spending on special education, and reduced criminal activity.²¹ Mr. DeSaulnier also offered a water safety amendment requiring the USDA to set up a process to ensure state compliance with potable water requirements. This no-cost, commonsense amendment would have been the first step in ensuring kids across the country are not exposed to unsafe drinking water. Unfortunately, these amendments failed to garner the support of Committee Republicans and neither of these amendments was adopted by the Committee.

ROLL CALL VOTE TO REPORT H.R. 5003

H.R. 5003 was reported by a vote of 20 yeas and 14 nays. No Democratic Committee Members voted in favor of the bill.

CONCLUSION

Regrettably, H.R. 5003 represents a missed opportunity to make continued improvements in the health and wellbeing of our country. H.R. 5003 threatens the long-established federal role in school meals programs, weakens nutrition standards, and makes it more difficult for schools to provide students with access to free, healthy meals. These policies put at risk the progress made by the last reauthorization in improving both the nutritional quality of, and access to meals served, in federal nutrition programs for millions of students and their families.

Rather than proposing policies that would introduce unhealthy foods in schools, burdensome paperwork requirements, and troubling limits on federal oversight, the Education and the Workforce Committee should bolster and expand programs and policies supported by stakeholders and advocacy groups that provide needed support for the populations they serve. We, as a nation, have the resources to ensure all children, especially those in need, are able to access regular and healthy meals. But we, as a Committee, must find the will to come together to achieve that goal.

Despite opposition to the majority of amendments offered by Democrats during mark-up, Committee Democrats will continue to push for a comprehensive reauthorization that makes it easier for schools to provide meals without unnecessary burden or stigma, strengthens the nutrition safety net both inside and outside of schools, and puts first the future health of our country.

For these reasons, among others, Committee Democrats stand in strong opposition to H.R. 5003, and respectfully ask the full House of Representatives to oppose this bill.
