## CONCURRENT RESOLUTION

Expressing support for strengthening engagement between  
the United States and the Asia-Pacific Economic Co-  
operation.

Whereas the United States and the other members of the  
Asia-Pacific Economic Cooperation (in this preamble re-  
ferred to as “APEC”) have, since 1989, worked collabo-  
ratively to advance commercial and trade interests in the  
Asia-Pacific region;

Whereas the Asia-Pacific region accounts for 41 percent of  
the world’s population, 54 percent of the world’s gross  
domestic product, and 44 percent of the world’s trade;

Whereas expanding trade and investment between the United States and the Asia-Pacific region has created new commercial opportunities and jobs in the United States;

Whereas United States businesses in the Asia-Pacific region face obstacles to doing business in the region as a result of tariff and nontariff barriers, including discriminatory policies and regulations;

Whereas strengthening trade and investment between the United States and other APEC members and addressing tariff and nontariff barriers to United States exports has the potential to benefit United States businesses, manufacturers, farmers, ranchers, workers, and consumers;

Whereas APEC was established as a regional economic forum to leverage the growing interdependence of the Asia-Pacific region to create greater prosperity for the people of the region and serves as a forum for the United States to address business concerns, promote high standards, and facilitate economic growth in the region;

Whereas APEC contributes to United States economic policies that promote fairness, due process, and the rule of law by supporting trade rules embodied in the World Trade Organization (in this preamble referred to as the “WTO”) and the establishment of new WTO commitments, developing model measures for high quality trade agreements in the Asia-Pacific region, encouraging coherence in regulations and standards in the region, and encouraging policies to promote development of the digital economy; and

Whereas the APEC Leaders’ Meeting in November 2017 in Da Nang, Vietnam, and preparatory meetings at the ministerial level, including the meeting in May 2017 of

the APEC Ministers Responsible for Trade, provide important opportunities to demonstrate to the world the commitment of the United States to increasing prosperity and security in the Asia-Pacific region: Now, therefore, be it

1        *Resolved by the House of Representatives (the Senate*  
2 *concurring)*, That it is the sense of Congress that—

3            (1) the continuing success of the Asia-Pacific  
4        Economic Cooperation (in this resolution referred to  
5        as “APEC”) is in the national economic interest of  
6        the United States;

7            (2) APEC should be a part of the diplomatic  
8        and economic strategy of the United States for the  
9        Asia-Pacific region; and

10          (3) the United States should continue to engage  
11        APEC in promoting economic growth through the  
12        adoption of rules-based policies to strengthen trade  
13        and investment between the United States and other  
14        APEC members.
