---

## A BILL

To improve the integrity and safety of horseracing by requiring a uniform anti-doping and medication control program to be developed and enforced by an independent Horseracing Anti-Doping and Medication Control Authority.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Horseracing Integrity  
5 Act of 2017”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1           (1) Recognizing the substantial relation that  
2 horseracing has to interstate commerce, Congress  
3 enacted the Interstate Horseracing Act of 1978 (15  
4 U.S.C. 3001 et seq.) to regulate pari-mutuel wager-  
5 ing on horseracing in order to protect and further  
6 the horseracing industry of the United States. This  
7 Act does not modify or supplement the Interstate  
8 Horseracing Act of 1978 or impair or restrict the  
9 operation and enforcement of State law or regulation  
10 of horseracing with respect to matters unrelated to  
11 anti-doping and medication control or for violations  
12 of State or Federal criminal law.

13           (2) Approximately 40 percent of the 740,239  
14 starts by Thoroughbred, Quarter Horse, and  
15 Standardbred racehorses in 2015 were made by  
16 horses that competed in more than one State. Those  
17 Thoroughbred, Quarter Horse, and Standardbred  
18 racehorses which participated in races in more than  
19 one State in 2015 made over 55 percent of all  
20 United States racing starts that year.

21           (3) Uniform adoption of national anti-doping  
22 and medication control standards for horseracing in  
23 the United States will promote interstate commerce,  
24 encourage fair competition and a level playing field,  
25 assure full and fair disclosure of information to pur-

1 chasers of breeding stock and to the wagering pub-  
2 lic, will improve the marketplace for domestic and  
3 international sales of United States horses, will pro-  
4 vide a platform for consistency with all major inter-  
5 national horseracing standards, address growing do-  
6 mestic concerns over disparities with international  
7 rules, and provide for the safety and welfare of  
8 horses and jockeys.

9 (4) The use of therapeutic medications in horse-  
10 racing in the United States must place the health  
11 and welfare of the horse at the highest level of pri-  
12 ority while achieving consistency with the uses per-  
13 mitted in major international horseracing jurisdic-  
14 tions. Because the various States have been unable  
15 to adopt a national uniform anti-doping and medica-  
16 tion control program, national uniform regulations  
17 with respect to the use of, and testing for, drugs ca-  
18 pable of affecting the results of a horse race and  
19 therapeutic medications used in horseracing, such  
20 rules, procedures, and enforcement policies should be  
21 implemented, consistent with internationally accept-  
22 ed best practices, by an independent anti-doping and  
23 medication control organization authorized by an act  
24 of Congress.

1           (5) For human sports, Congress has dem-  
2           onstrated its commitment to fair competition  
3           through legislation, oversight, funding, and by its  
4           execution of an international treaty, the UNESCO  
5           International Convention Against Doping in Sport.  
6           By ratifying the UNESCO Convention, the United  
7           States agreed to adopt appropriate measures con-  
8           sistent with the principles of the World Anti-Doping  
9           Code and to take appropriate action, including legis-  
10          lation, regulation, policies, or administrative prac-  
11          tices to implement that commitment.

12          (6) In the context of Olympic sports, Congress  
13          has recognized the United States Anti-Doping Agen-  
14          cy as an independent anti-doping and medication  
15          control organization possessing high-level expertise  
16          and credibility in the development and administra-  
17          tion of an anti-doping and medication control pro-  
18          gram.

19          (7) Congress supports the establishment of an  
20          independent anti-doping and medication control or-  
21          ganization to ensure the wagering public's con-  
22          fidence in the fairness of horseracing and to  
23          strengthen and harmonize anti-doping and medica-  
24          tion control rules and sanctions for horseracing in  
25          order to ensure fair and transparent horseraces and

1 to deter the commission of anti-doping and medica-  
2 tion control rule violations.

3 (8) The movement of horses among the States  
4 for the purpose of participating in covered  
5 horseraces, the widespread acceptance, receipt, and  
6 transmission of wagers on covered horseraces in  
7 interstate commerce, and the need to ensure integ-  
8 rity of competition in, and wagering on, covered  
9 horseraces warrant congressional action as set forth  
10 in this Act.
