

115TH CONGRESS
1ST SESSION

H. R. 273

To amend the Internal Revenue Code of 1986 to provide an income tax credit for the costs of certain infertility treatments.

IN THE HOUSE OF REPRESENTATIVES

JANUARY 4, 2017

Mr. LEWIS of Georgia introduced the following bill; which was referred to the Committee on Ways and Means

A BILL

To amend the Internal Revenue Code of 1986 to provide an income tax credit for the costs of certain infertility treatments.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Family Act of 2017”.

5 **SEC. 2. FINDINGS.**

6 Congress finds the following:

7 (1) The American Society of Reproductive Med-
8 icine recognizes infertility as a disease, and the Cen-
9 ters for Disease Control and Prevention have de-
10 scribed infertility as an emerging public health pri-

1 ority in the United States. Globally, the World
2 Health Organization also formally recognizes infer-
3 tility as a disease.

4 (2) According to the National Survey of Family
5 Growth of the Centers for Disease Control and Pre-
6 vention, approximately 3,000,000 women in the
7 United States had trouble conceiving or carrying a
8 pregnancy to term.

9 (3) A portion of those 3,000,000 women are
10 cancer survivors who were diagnosed as infants, chil-
11 dren, or young adults. Their treatments included
12 chemotherapy, radiation, and surgery which have led
13 to irreparable damage to their reproductive systems.

14 (4) Military families notably are also impacted
15 by infertility as a result of lower extremity war inju-
16 ries arising from the perils of modern warfare. For
17 active duty individuals, frequent changes in perma-
18 nent duty station, combat deployments, and training
19 rotations complicate access to fertility treatments. In
20 addition, active duty individuals or veterans have no
21 coverage for in vitro fertilization (IVF) through their
22 military health insurance and must pay out of pock-
23 et for those expenses, even within military treatment
24 facilities.

1 (5) For many, the cost of treatment for the dis-
2 ease of infertility is prohibitive. According to the
3 American Society for Reproductive Medicine, the
4 cost per cycle of IVF is approximately \$12,500, and
5 on average couples require at least 2 cycles. Many
6 couples have to choose between their desire to estab-
7 lish a family and their future financial well-being.

8 (6) Medical insurance coverage for infertility
9 treatments is sparse and inconsistent at the State
10 level. Only 8 States have passed laws to require com-
11 prehensive infertility coverage, and under those
12 State laws employer-sponsored plans are exempt;
13 therefore, coverage for treatments such as IVF is
14 limited. According to Mercer's 2005 National Survey
15 of Employer-Sponsored Health Plans, IVF was vol-
16 untarily covered by 19 percent of large employer-
17 sponsored health plans and only 11 percent of small
18 employer-sponsored health plans. Even in States
19 with coverage mandates, out-of-pocket expenses for
20 these treatments are significant.

21 (7) According to the latest National Survey of
22 Family Growth, African-American and Hispanic
23 women are more likely to be infertile than Caucasian
24 women, yet studies indicate that they are less likely
25 to use infertility services.

1 **SEC. 3. CREDIT FOR CERTAIN INFERTILITY TREATMENTS.**

2 (a) IN GENERAL.—Subpart A of part IV of sub-
3 chapter A of chapter 1 of the Internal Revenue Code of
4 1986 is amended by inserting before section 24 the fol-
5 lowing new section:

15 “(1) DOLLAR LIMITATION.—The amount of the
16 credit under subsection (a) for any taxable year shall
17 not exceed the excess (if any) of—

3 duced (but not below zero) by an amount which
4 bears the same ratio to the amount so allowable
5 as—

6 “(i) the amount (if any) by which the
7 taxpayer’s adjusted gross income exceeds
8 the dollar amount in effect under clause (i)
9 of section 23(b)(2)(A), bears to

10 “(ii) \$40,000.

8 “(1) RULE FOR YEARS IN WHICH ALL PER-

11 able under subsection (a) exceeds the limitation im-
12 posed by section 26(a)(2) for such taxable year re-
13 duced by the sum of the credits allowable under this
14 subpart (other than this section), such excess shall
15 be carried to the succeeding taxable year and added
16 to the credit allowable under subsection (a) for such
17 succeeding taxable year.

18 “(2) LIMITATION.—No credit may be carried
19 forward under this subsection to any taxable year
20 after the 5th taxable year after the taxable year in
21 which the credit arose. For purposes of the pre-

23 a first-in, first-out basis.

24 “(d) QUALIFIED INFERTILITY TREATMENT EX-
25 PENSES.—For purposes of this section:

6 censed surgeon, or other licensed medical prac-
7 titioner, and

14 nosis of infertility for fertility preservation proce-
15 dures which are conducted prior to medical proce-
16 dures that, as determined by a physician licensed in
17 the United States, may cause involuntary infertility
18 or sterilization, such expenses shall be treated as
19 qualified infertility treatment expenses—

20 “(A) notwithstanding paragraph (1)(B),

21 and

22 “(B) without regard to whether a diagnosis
23 of infertility subsequently results.

24 Expenses for fertility preservation procedures in ad-
25 vance of a procedure designed to result in infertility

1 or sterilization shall not be treated as qualified infer-
2 tility treatment expenses.

4 means the inability to conceive or to carry a preg-
