### 7 **SEC. 121. AIRCRAFT CARRIERS.**

8 (a) SENSE OF CONGRESS ON INCREASE IN NUMBER  
9 OF OPERATIONAL AIRCRAFT CARRIERS.—

10 (1) FINDINGS.—Congress finds the following:

11 (A) Aircraft carriers are an essential ele-  
12 ment of the Navy’s core missions of forward  
13 presence, sea control, ensuring safe sea lanes,  
14 and power projection, and provide the flexibility  
15 and versatility necessary for the execution of a  
16 wide range of additional missions.

17 (B) Forward airpower is integral to the se-  
18 curity and joint forces operations of the United  
19 States. Carriers play a central role in delivering  
20 forward airpower from sovereign territory of the  
21 United States in both permissive and non-  
22 permissive environments.

23 (C) Aircraft carriers provide the Nation  
24 the ability to rapidly and decisively respond to  
25 national threats, to conduct worldwide, on-sta-

tion diplomacy, and to deter threats to allies, partners, and friends of the United States.

(D) Since the end of the cold war, aircraft carrier deployments have increased while the aircraft carrier force structure has declined.

(E) Due to the increased array of complex threats across the globe, the Navy's aircraft carriers are operating at maximum capacity, increasing deployment lengths and decreasing maintenance periods in order to meet operational requirements.

(F) To meet global peacetime and wartime requirements, the Navy has indicated a requirement to maintain two aircraft carriers deployed overseas and to have three additional aircraft carriers capable of deploying within 90 days. However, the Navy has indicated that the existing aircraft carrier force structure cannot support these military requirements.

(G) Despite the requirement to maintain an aircraft carrier strike group in both the United States Central Command and the United States Pacific Command, the Navy has been unable to generate sufficient capacity to support combatant commanders and has devel-

1           oped significant carrier gaps in these critical  
2           areas.

3           (H) The continued use of a diminished air-  
4           craft carrier force structure has resulted in ex-  
5           tensive maintenance availabilities which typi-  
6           cally exceed program costs and increase time in  
7           shipyards. These expansive maintenance avail-  
8           abilities exacerbate existing carrier gaps.

9           (I) Because of maintenance overhaul ex-  
10          tensions, the Navy is truncating basic aircraft  
11          carrier training to expedite the deployment of  
12          available aircraft carriers. Limiting aircraft car-  
13          rier training decreases operational capabilities  
14          and increases risks to sailors.

15          (J) Despite the objections of the Navy, the  
16          Under Secretary of Defense for Acquisition,  
17          Technology, and Logistics directed the Navy on  
18          August 7, 2015, to perform shock trials on the  
19          U.S.S. Gerald R. Ford (CVN-78). The Assist-  
20          ant Deputy Chief of Naval Operations for Oper-  
21          ations, Plans and Strategy indicated that this  
22          action could delay the introduction of the  
23          U.S.S. Gerald R. Ford (CVN-78) to the fleet  
24          by up to two years, exacerbating existing car-  
25          rier gaps.

1           (K) The Navy has adopted a two-phase ac-  
2           quisition strategy for the U.S.S. John F. Ken-  
3           nedy (CVN-79), an action that will delay the  
4           introduction of this aircraft carrier by up to two  
5           years, exacerbating existing carrier gaps.

6           (L) Developing an alternative design to the  
7           Ford class aircraft carrier is not cost beneficial.  
8           A smaller design is projected to incur signifi-  
9           cant design and engineering cost while signifi-  
10          cantly reducing magazine size, carrier air wing  
11          size, sortie rate, and on-station effectiveness  
12          among other vital factors as compared to the  
13          Ford class. Furthermore, a new design will  
14          delay the introduction of future aircraft car-  
15          riers, exacerbating existing carrier gaps and  
16          threatening the national security of the United  
17          States.

18          (M) The 2016 Navy Force Structure As-  
19          sessment states “A minimum of 12 aircraft car-  
20          riers are required to meet the increased  
21          warfighting response requirements of the De-  
22          fense Planning Guidance Defeat/Deny force  
23          sizing direction.” Furthermore, a new National  
24          Defense Strategy is being prepared that will as-  
25          sess the defeat/deny force sizing direction and

1           may increase the force structure associated with  
2           aircraft carriers.

3           (2) SENSE OF CONGRESS.—It is the sense of  
4   Congress that—

5           (A) the United States should expedite de-  
6           livery of 12 aircraft carriers;

7           (B) an aircraft carrier should be author-  
8           ized every three years;

9           (C) shock trials should be conducted on  
10          the U.S.S. John F. Kennedy (CVN-79), as ini-  
11          tially proposed by the Navy;

12          (D) construction for the U.S.S. John F.  
13          Kennedy (CVN-79) should be accomplished in  
14          a single phase; and

15          (E) the United States should continue the  
16          Ford class design for the aircraft carrier des-  
17          ignated CVN-81.

18          (b) INCREASE IN NUMBER OF OPERATIONAL AIR-  
19   CRAFT CARRIERS.—

20           (1) INCREASE.—Section 5062(b) of title 10,  
21   United States Code, is amended by striking “11  
22   operational aircraft carriers” and inserting “12  
23   operational aircraft carriers”.

1           (2) EFFECTIVE DATE.—The amendment made  
2       by paragraph (1) shall take effect on September 30,  
3       2023.

4       (c) SHOCK TRIALS FOR CVN-78.—Section 128 of  
5       the National Defense Authorization Act for Fiscal Year  
6       2016 (Public Law 114-92; 129 Stat. 751) is amended—

7           (1) by striking subsections (a) and (b); and

8           (2) by redesignating subsections (c) and (d) as  
9       subsections (a) and (b), respectively.

10       (d) PROCUREMENT AUTHORITY FOR AIRCRAFT CAR-  
11       RIER PROGRAMS.—

12           (1) PROCUREMENT AUTHORITY IN SUPPORT OF  
13       CONSTRUCTION OF FORD CLASS AIRCRAFT CAR-  
14       RIERS.—

15           (A) AUTHORITY FOR ECONOMIC ORDER  
16       QUANTITY.—The Secretary of the Navy may  
17       procure materiel and equipment in support of  
18       the construction of the Ford class aircraft car-  
19       riers designated CVN-81 and CVN-82 in eco-  
20       nomic order quantities when cost savings are  
21       achievable.

22           (B) LIABILITY.—Any contract entered into  
23       under subparagraph (A) shall provide that any  
24       obligation of the United States to make a pay-  
25       ment under the contract is subject to the avail-

1 ability of appropriations for that purpose, and  
2 that total liability to the Government for termi-  
3 nation of any contract entered into shall be lim-  
4 ited to the total amount of funding obligated at  
5 time of termination.

6 (2) REFUELING AND COMPLEX OVERHAUL OF  
7 NIMITZ CLASS AIRCRAFT CARRIERS.—

8 (A) IN GENERAL.—The Secretary of the  
9 Navy may carry out the nuclear refueling and  
10 complex overhaul of each of the following Nim-  
11 itz class aircraft carriers:

13 (ii) U.S.S. Harry S. Truman (CVN-  
14 75).

15 (iii) U.S.S. Ronald Reagan (CVN-  
16 76).

17 (iv) U.S.S. George H.W. Bush (CVN-  
18 77).

19 (B) USE OF INCREMENTAL FUNDING.—

20 With respect to any contract entered into under  
21 subparagraph (A) for the nuclear refueling and  
22 complex overhaul of a Nimitz class aircraft car-  
23 rier, the Secretary may use incremental funding  
24 for a period not to exceed six years after ad-  
25 vance procurement funds for such nuclear re-

1           fueling and complex overhaul effort are first ob-  
2           ligated.

3                   (C) CONDITION FOR OUT-YEAR CONTRACT  
4           PAYMENTS.—Any contract entered into under  
5           subparagraph (A) shall provide that any obliga-  
6           tion of the United States to make a payment  
7           under the contract for a fiscal year after fiscal  
8           year 2018 is subject to the availability of appro-  
9           priations for that purpose for that later fiscal  
10          year.

17 the Department in which the Coast Guard is operating  
18 for the purpose of entering into a contract on behalf of  
19 such Department, beginning with the fiscal year 2018 pro-  
20 gram year, for the procurement of the following:

23                   (2) Not more than three medium icebreaker  
24           vessels.

1       (b) CONDITION FOR OUT-YEAR CONTRACT PAY-  
2 MENTS.—A contract entered into under subsection (a)

23           speed of three knots; and

24           (B) to operate continuously for 80 days  
25           without replenishment.

1 **SEC. 123. LIMITATION ON AVAILABILITY OF FUNDS FOR**  
2 **PROCUREMENT OF ICEBREAKER VESSELS.**

3 (a) LIMITATION.—Except as provided in subsection  
4 (b), none of the funds authorized to be appropriated by  
5 this Act or otherwise made available for the Department  
6 of Defense for fiscal year 2018 may be obligated or ex-  
7 pended for the procurement of an icebreaker vessel.

8 (b) EXCEPTION.—Notwithstanding the limitation in  
9 subsection (a), the Secretary of the Navy may use funds  
10 described in such subsection to act as general agent for  
11 the Department in which the Coast Guard is operating

16 (a) AUTHORITY FOR MULTIYEAR PROCUREMENT.—  
17 Subject to section 2306b of title 10, United States Code,  
18 the Secretary of the Navy may enter into one or more

23 (b) BASELINE ESTIMATE.—Before entering into any  
24 contract for the procurement of a Virginia class submarine  
25 under subsection (a), the Secretary of Navy shall deter-

1 mine a baseline estimate for the submarine in accordance  
2 with section 2435 of title 10, United States Code.

3 (c) LIMITATION.—The Secretary of the Navy may not  
4 enter into a contract for the procurement of a Virginia  
5 class submarine under subsection (a) if the contract would  
6 increase the cost of the submarine by more than 10 per-  
7 cent above the baseline estimate for the submarine deter-  
8 mined under subsection (b).

9 (d) AUTHORITY FOR ADVANCE PROCUREMENT.—The  
10 Secretary may enter into one or more contracts, beginning  
11 in fiscal year 2018, for advance procurement—

3 Code.

4 (c) LIMITATION.—The Secretary of the Navy may not  
5 enter into a contract for the procurement of a Arleigh  
6 Burke class destroyer or any major subprogram under  
7 subsection (a) if the contract would increase the cost of  
8 the destroyer by more than 10 percent above the baseline  
9 estimate for the destroyer determined under subsection  
10 (b).

11 (d) AUTHORITY FOR ADVANCE PROCUREMENT.—The  
12 Secretary may enter into one or more contracts, beginning  
13 in fiscal year 2018, for advance procurement associated  
14 with the vessels and systems for which authorization to

16 under subsection (a).

17 (e) CONDITION FOR OUT-YEAR CONTRACT PAY-  
18 MENTS.—A contract entered into under subsection (a)  
19 shall provide that any obligation of the United States to

23 (f) COVERED PERIOD DEFINED.—The term “covered  
24 period” means the 5-year period beginning with the fiscal

1 year 2018 program year and ending with the fiscal year  
2 2022 program year.

3 **SEC. 126. LIMITATION ON AVAILABILITY OF FUNDS FOR**  
4 **ARLEIGH BURKE CLASS DESTROYER.**

5 (a) LIMITATION.—None of the funds authorized to  
6 be appropriated by this Act or otherwise made available  
7 for fiscal year 2017 for procurement, that are unobligated  
8 as of the date of the enactment of this Act, may be obli-  
9 gated or expended to procure an Arleigh Burke class de-  
10 stroyer (DDG–51) unless the two covered destroyers in-  
11 clude an AN/SPY–6(V) air and missile defense radar sys-  
12 tem.

13 (b) WAIVER.—The Secretary of the Navy may waive  
14 the limitation in subsection (a) if the Secretary determines  
15 that the cost or schedule risk associated with the integra-  
16 tion of the AN/SPY–6(V) air and missile defense radar  
17 is unacceptable or incongruous with a business case that  
18 relies on stable design, technology maturity, and realistic  
19 cost and schedule estimates.

20 (c) COVERED DESTROYER DEFINED.—In this sec-  
21 tion, the term “covered destroyer” means an Arleigh  
22 Burke class destroyer (DDG–51) for which funds were au-  
23 thorized to be appropriated by the National Defense Au-  
24 thorization Act for Fiscal Year 2017 (Public Law 114–  
25 328) and that was fully funded.

1 (d) SENSE OF CONGRESS.—It is the sense of Con-  
2 gress that—

3 (1) destroyers authorized to be appropriated by  
4 the National Defense Authorization Act for Fiscal  
5 Year 2016 (Public Law 114–92) should be config-  
6 ured as Arleigh Burke class Flight IIA guided mis-  
7 sile destroyers, as initially authorized in section 123  
8 of the National Defense Authorization Act for Fiscal  
9 Year 2013 (Public Law 112–239; 126 Stat. 1655 );  
10 and

11 (2) the Department of the Navy should bear  
12 the majority risk associated with the share line on  
13 a covered destroyer.

14 **SEC. 127. EXTENSIONS OF AUTHORITIES RELATING TO**  
15 **CONSTRUCTION OF CERTAIN VESSELS.**

16 (a) EXTENSION OF AUTHORITY TO USE INCRE-  
17 MENTAL FUNDING FOR LHA REPLACEMENT.—Section  
18 122(a) of the National Defense Authorization Act for fis-  
19 cal year 2017 (114–328; 130 Stat. 2030) is amended by  
20 striking “for fiscal years 2017 and 2018” and inserting  
21 “for fiscal years 2017, 2018, and 2019”.

22 (b) EXTENSION OF FORD CLASS AIRCRAFT CARRIER  
23 CONSTRUCTION AUTHORITY.—Section 121(a) of the John  
24 Warner National Defense Authorization Act for Fiscal  
25 Year 2007 (Public Law 109–364; 120 Stat. 2104), as

1 most recently amended by section 121 of the National De-  
 2 fense Authorization Act for Fiscal Year 2013 (Public Law  
 3 112–239; 126 Stat. 1654), is amended by striking “five  
 4 fiscal years” and inserting “seven fiscal years”.

5 **SEC. 128. MULTIYEAR PROCUREMENT AUTHORITY FOR V-22**  
 6 **OSPREY AIRCRAFT.**

7 (a) **AUTHORITY FOR MULTIYEAR PROCUREMENT.**—  
 8 Subject to section 2306b of title 10, United States Code  
 9 (except as provided in subsection (b)), the Secretary of  
 10 the Navy may enter into one or more multiyear contracts,  
 11 beginning with the 2018 program year, for the procure-  
 12 ment of the following:

13 (1) V-22 Osprey aircraft.

14 (2) Common configuration-readiness and mod-  
 15 ernization upgrades for V-22 Osprey aircraft.

16 (b) **CONTRACT PERIOD.**—Notwithstanding section  
 17 2306b(k) of title 10, United States Code, the period cov-  
 18 ered by a contract entered into on a multiyear basis under  
 19 the authority of subsection (a) may exceed five years, but  
 20 may not exceed seven years.

21 (c) **CONDITION FOR OUT-YEAR CONTRACT PAY-**  
 22 **MENTS.**—A contract entered into under subsection (a)  
 23 shall provide that any obligation of the United States to  
 24 make a payment under the contract for a fiscal year after

1 fiscal year 2018 is subject to the availability of appropria-  
2 tions or funds for that purpose for such later fiscal year.

3 **SEC. 129. LIMITATION ON AVAILABILITY OF FUNDS FOR**  
4 **THE ENHANCED MULTI MISSION PARACHUTE**  
5 **SYSTEM.**

6 (a) LIMITATION.—None of the funds authorized to  
7 be appropriated by this Act or otherwise made available  
8 for the Department of Defense for fiscal year 2018 for  
9 the enhanced multi mission parachute system may be used  
10 to enter into, or to prepare to enter into, a contract for  
11 the procurement of such parachute system until the date  
12 on which the Secretary of the Navy submits to the con-  
13 gressional defense committees the certification described  
14 in subsection (b) and the report described in subsection  
15 (c).

16 (b) CERTIFICATION.—The certification described in  
17 this subsection is a certification by the Secretary of the  
18 Navy that—

19 (1) neither the Marine Corps' currently fielded  
20 enhanced multi mission parachute system nor the  
21 Army's RA-1 parachute system meet the Marine  
22 Corps requirements;

23 (2) the Marine Corps' PARIS, Special Applica-  
24 tion Parachute does not meet the Marine Corps re-  
25 quirements;

1           (3) the testing plan for the enhanced multi mis-  
2           sion parachute system meets all regulatory require-  
3           ments; and

4           (4) the Department of the Navy has performed  
5           an analysis and determined that a high glide canopy  
6           parachute system is not more prone to malfunctions  
7           than the currently fielded free fall parachute sys-  
8           tems.

9           (c) REPORT.—The report described in this subsection  
10          is a report that includes—

11           (1) an explanation of the rationale for using the  
12           Parachute Industry Association specification nor-  
13           mally used for sports parachutes that are employed  
14           from relatively slow flying civilian aircraft at alti-  
15           tudes below 10,000 feet for a military parachute;

16           (2) an inventory and cost estimate for any new  
17           equipment and training that the Marine Corps will  
18           have to be acquire in order to employ a high glide  
19           parachute;

20           (3) an explanation of why the Department of  
21           the Navy is conducting a paper down select and not  
22           conducting any testing until first article testing; and

23           (4) a discussion of the risk assessment for high  
24           glide canopies, and specifically how the Department

1 of the Navy is mitigating the risk for malfunctions  
2 experienced in other high glide canopy programs.

#### 4 **SEC. 131. STREAMLINING ACQUISITION OF INTERCONTI-** 5 **NENTAL BALLISTIC MISSILE SECURITY CAPA-** 6 **BILITY.**

7 (a) FINDINGS.—Congress finds the following:

8 (1) On September 25, 2014, then Secretary of  
9 the Air Force, Deborah Lee James, submitted a re-  
10 port to Congress on the replacement strategy of the  
11 Air Force for the UH–1N helicopter, which included  
12 the following information:

13 (A) On the age of the airframe: “The UH–  
14 1N is a versatile utility helicopter that was ac-  
15 cepted into service from 1968-1969.”.

16 (B) On the ability to meet requirements:  
17 “The entire fleet supports five general home-  
18 land security missions. . .The ability of the  
19 UH–1N to accomplish these missions was eval-  
20 uated in 2006, and the aircraft was found to be  
21 ‘not effective.’ The shortcomings of the UH–1N  
22 were derived from specific mission requirements  
23 for carrying capacity, airspeed, unrefueled en-  
24 durance, mission range, force protection for the  
25 floor, specific protection for all aircrew and pas-

1           sengers, survivability, and materiel avail-  
2           ability.”.

3           (C) Regarding previous efforts to acquire a  
4           replacement aircraft, the report identified ef-  
5           forts that date back to 2006, including—

6                   (i) an initial analysis of alternatives  
7                   by Air Force Space Command in 2006;

8                   (ii) the common vertical lift support  
9                   platform program, which was cancelled in  
10                  2013;

11                  (iii) two RAND corporation studies  
12                  funded in 2013; and

13                  (iv) the then-current proposal of the  
14                  Air Force to procure modified Army UH-  
15                  60 helicopters.

16           (2) On February 24, 2016, at a hearing before  
17           the Committee on Armed Services of the House of  
18           Representatives, in response to concerns related to  
19           lift, capacity, and hover time of the UH-1N, then  
20           Commander of the United States Strategic Com-  
21           mand, Admiral Cecil Haney stated: “Congressman,  
22           absolutely, in terms of thinking very crisply associ-  
23           ated with what we need to do to improve security of  
24           our missile fields. . . the attributes you listed are

1 the attributes that concern me in terms of the capa-  
2 bility, not just now, but into the future.”.

3 (3) On March 2, 2016, at a hearing before the  
4 Committee on Armed Services of the House of Rep-  
5 resentatives, the Commander of Air Force Global  
6 Strike Command, General Robin Rand stated: “We  
7 will not meet the emergency security response with  
8 the present helicopter.”.

9 (4) On April 4, 2017, at a hearing before the  
10 Committee on Armed Services of the Senate, the  
11 Commander of the United States Strategic Com-  
12 mand, General John E. Hyten stated: “Of all the  
13 things in my portfolio, I can’t even describe how  
14 upset I get about the helicopter replacement pro-  
15 gram. It’s a helicopter, for gosh sakes. We ought to  
16 be able to go out and buy a helicopter and put it in  
17 the hands of the people that need it. And we should  
18 be able to do that quickly. We’ve been building com-  
19 bat helicopters for a long time in this country. I  
20 don’t understand why the heck it is so hard to buy  
21 a helicopter.”.

22 (b) SENSE OF CONGRESS.—It is the sense of Con-  
23 gress that, based on the findings under subsection (a), the  
24 Secretary of Defense should have the authority to expedite

1 the procurement of a replacement aircraft for the UH-  
2 1N helicopter.

3 (c) WAIVER AND CONTRACT AUTHORITY.—Subject  
4 to subsection (d), in procuring a replacement aircraft for  
5 the UH-1N helicopter, the Secretary of Defense may—

6 (1) waive any provision of law requiring the use  
7 of competitive procedures for the procurement; and

8 (2) enter into a contract for the procurement on  
9 a sole-source basis.

10 (d) NOTICE AND CERTIFICATION.—Not later than 15  
11 days before exercising the authority under subsection (c),  
12 the Secretary shall submit to the congressional defense  
13 committees, in writing—

14 (1) notice of the intent of the Secretary to exer-  
15 cise such authority; and

16 (2) a certification that—

17 (A) the Secretary has reviewed—

18 (i) the threshold requirements for the  
19 UH-1N replacement aircraft program; and

20 (ii) any delays that may have occurred  
21 while the Air Force pursued strategies for  
22 the procurement of such aircraft on an  
23 other than sole-source basis; and

24 (B) after conducting such review, the Sec-  
25 retary has determined that entering into a con-

1           tract on a sole-source basis under subsection  
2           (c)—

3                   (i) is in the national security interests  
4                   of the United States; and

5                   (ii) is necessary to ensure that a UH-  
6                   1N replacement aircraft enters service by  
7                   not later than September 30, 2020.

8   **SEC. 132. LIMITATION ON SELECTION OF SINGLE CON-**  
9                   **TRACTOR FOR C-130H AVIONICS MODERNIZA-**  
10                  **TION PROGRAM INCREMENT 2.**

11       (a) LIMITATION.—The Secretary of the Air Force  
12   may not select only a single prime contractor to carry out  
13   increment 2 of the C-130H avionics modernization pro-  
14   gram until the Secretary submits to the congressional de-  
15   fense committees a written certification that, in selecting  
16   such a single prime contractor—

17           (1) the Secretary will ensure, to the extent  
18       practicable, that commercially available off-the-shelf  
19       items are used under the program, including tech-  
20       nology solutions and nondevelopmental items; and

21           (2) excessively restrictive military specification  
22       standards will not be used to restrict or eliminate  
23       full and open competition in the selection process.

24       (b) DEFINITIONS.—In this section, the terms “com-  
25   mercially available off-the-shelf item”, “full and open com-

1 petition”, and “nondevelopmental item” have the mean-  
 2 ings given the terms in chapter 1 of title 41, United States  
 3 Code.

4 **SEC. 133. LIMITATION ON AVAILABILITY OF FUNDS FOR EC-**  
 5 **130H COMPASS CALL RECAPITALIZATION**  
 6 **PROGRAM.**

7 (a) LIMITATION.—None of the funds authorized to  
 8 be appropriated by this Act or otherwise made available  
 9 for any fiscal year for the EC–130H Compass Call recap-  
 10 italization program of the Air Force may be obligated or  
 11 expended until a period of 30 days has elapsed following  
 12 the date on which the Under Secretary of Defense for Ac-  
 13 quisition, Technology, and Logistics submits to the con-  
 14 gressional defense committees the certification described  
 15 in subsection (b).

16 (b) CERTIFICATION.—The certification described in  
 17 this subsection is a written statement certifying that—

18 (1) an independent review of the acquisition  
 19 process for the EC–130H Compass Call recapitaliza-  
 20 tion program of the Air Force has been conducted;  
 21 and

22 (2) as a result of such review, it has been deter-  
 23 mined that the acquisition process for such program  
 24 complies with all applicable laws, guidelines, and  
 25 best practices.

1 **SEC. 134. COST-BENEFIT ANALYSIS OF UPGRADES TO MQ-9**  
2 **REAPER AIRCRAFT.**

3 (a) IN GENERAL.—The Secretary of Defense, in con-  
4 sultation with the Secretary of the Air Force, shall con-  
5 duct an analysis that compares the costs and benefits of  
6 the following:

7 (1) Upgrading fielded MQ-9 Reaper aircraft to  
8 a Block 5 configuration.

9 (2) Proceeding with the procurement of MQ-9B  
10 aircraft instead of upgrading fielded MQ-9 Reaper  
11 aircraft to a Block 5 configuration.

12 (b) REPORT REQUIRED.—

13 (1) IN GENERAL.—Not later than 180 days  
14 after the date of the enactment of this Act, the Sec-

17 of the cost-benefit analysis conducted under sub-  
18 section (a).

19 (2) FORM OF REPORT.—The report required by  
20 paragraph (1) shall be submitted in unclassified  
21 form, but may include a classified annex.

22 **SEC. 135. INCREASE IN AMOUNTS FOR ENHANCING INTEL-**  
23 **LIGENCE, SURVEILLANCE, AND RECONNAIS-**

15 **SEC. 141. AUTHORITY FOR PROCUREMENT OF ECONOMIC**  
16 **ORDER QUANTITIES FOR THE F-35 AIRCRAFT**  
17 **PROGRAM.**

18 (a) AUTHORITY FOR PROCUREMENT OF ECONOMIC  
19 ORDER QUANTITIES.—Subject to subsection (c), the Sec-  
20 retary of Defense may enter into one or more contracts,  
21 beginning with the fiscal year 2018 program year, for the  
22 procurement of economic order quantities of the material  
23 and equipment described in subsection (b).

1 (b) MATERIAL AND EQUIPMENT DESCRIBED.—The  
2 material and equipment described in this subsection is ma-  
3 terial and equipment—

4 (1) that has completed formal hardware quali-  
5 fication testing for the F-35 aircraft program; and

6 (2) is to be used in procurement contracts to be  
7 awarded under the F-35 aircraft program in fiscal  
8 years 2019 and 2020.

9 (c) LIMITATIONS.—

10 (1) MAXIMUM AMOUNT.—Of the funds author-  
11 ized to be appropriated by this Act or otherwise  
12 made available for the Department of Defense for  
13 fiscal year 2018 or any fiscal year thereafter for the  
14 F-35 aircraft program, not more than \$661,000,000  
15 may be obligated or expended to enter into contracts  
16 under subsection (a).

17 (2) CERTIFICATION.—The Secretary of Defense  
18 may not enter into a contract under subsection (a)  
19 until a period of 15 days has elapsed following the  
20 date on which the Secretary submits to the congres-  
21 sional defense committees a written certification that  
22 the contract to be entered into under such sub-  
23 section meets the following conditions:

24 (A) The contract will result in significant  
25 cost savings as compared to the total antici-

1       pated costs of procuring the property through  
2       contracts that are not for economic order quan-  
3       tities.

4               (B) The estimates of the cost of the con-  
5       tract and the anticipated cost savings resulting  
6       from the contract are realistic.

7               (C) The minimum need for the property  
8       that is to be procured under the contract is ex-  
9       pected to remain substantially unchanged dur-  
10      ing the contract period.

11              (D) There is a reasonable expectation that,  
12      throughout the contract period, the head of the  
13      relevant military department or defense agency  
14      will request funding for the contract at the level  
15      required to avoid contract cancellation.

16              (E) The design of the property that is to  
17      be procured under the contract is expected to  
18      remain substantially unchanged and the tech-  
19      nical risks associated with such design are not  
20      excessive.

21              (F) Entering into the contract will pro-  
22      mote the national security interests of the  
23      United States.

24              (G) The contract satisfies the conditions  
25      described in subparagraphs (C) through (F) of

1           section 2306b(i)(3) of title 10, United States  
2           Code.

3   **SEC. 142. LIMITATION ON DEMILITARIZATION OF CERTAIN**  
4           **CLUSTER MUNITIONS.**

5           (a) **LIMITATION.**—Except as provided in subsection  
6 (c), the Secretary of Defense may not demilitarize any  
7 cluster munitions until the date on which the Secretary  
8 of Defense submits to the congressional defense commit-  
9 tees the certification described in subsection (b).

10          (b) **CERTIFICATION.**—The certification described in  
11 this subsection is a written certification that the Depart-  
12 ment of Defense has an inventory of covered munitions  
13 that meets not less than 75 percent of the operational re-  
14 quirements of the Department with respect to cluster mu-  
15 nitions across the full range of military operational envi-  
16 ronments.

17          (c) **EXCEPTION FOR SAFETY.**—The limitation under  
18 subsection (a) shall not apply to the demilitarization of  
19 cluster munitions that the Secretary determines—

20               (1) are unserviceable as a result of an inspec-  
21               tion, test, field incident, or other significant failure  
22               to meet performance or logistics requirements; or

23               (2) are unsafe or could pose a safety risk if not  
24               demilitarized or destroyed.

25          (d) **DEFINITIONS.**—In this section:

1           (1) CLUSTER MUNITION.—The term “cluster  
2           munition” means a munition that is composed of a  
3           nonreusable canister or delivery body that contains  
4           multiple, conventional submunitions, without regard  
5           to the mode by which the munition is delivered. The  
6           term does not include—

7                   (A) nuclear, chemical, or biological weap-  
8                   ons;

9                   (B) obscurants;

10                  (C) pyrotechnics;

11                  (D) non-lethal systems;

12                  (E) non-explosive kinetic effect submuni-  
13                  tions;

14                  (F) electronic effects; or

15                  (G) landmines.

16           (2) COVERED MUNITIONS.—The term “covered  
17           munitions” means cluster munitions containing sub-  
18           munitions that, after arming, do not result in more  
19           than 1 percent unexploded ordnance (as that term is  
20           defined in section 101(e)(5) of title 10, United  
21           States Code) across the range of intended oper-  
22           ational environments.

23           (3) DEMILITARIZE.—The term “demilitarize”,  
24           when used with respect to a cluster munition or  
25           components of a cluster munition—

1 (A) means to destroy the military offensive  
2 or defensive advantages inherent in the muni-  
3 tion or its components; and

4 (B) includes any mutilation, scrapping,  
5 melting, burning, or alteration that prevents the  
6 use of the munition or its components for the  
7 military purposes for which the munition or its  
8 components was designed or for a lethal pur-  
9 pose.

10 **SEC. 143. REINSTATEMENT OF REQUIREMENT TO PRE-**  
11 **SERVE CERTAIN C-5 AIRCRAFT.**

18 “(d) PRESERVATION OF CERTAIN RETIRED C-5 AIR-  
19 CRAFT.—The Secretary of the Air Force shall preserve  
20 each C-5 aircraft that is retired by the Secretary during  
21 a period in which the total inventory of strategic airlift  
22 aircraft of the Secretary is less than 301, such that the  
23 retired aircraft—

24 “(1) is stored in flyable condition;

25 “(2) can be returned to service; and

1 “(3) is not used to supply parts to other air-  
2 craft unless specifically authorized by the Secretary  
3 of Defense upon a request by the Secretary of the  
4 Air Force.”.

5 **SEC. 144. REQUIREMENT THAT CERTAIN AIRCRAFT AND**  
6 **UNMANNED AERIAL VEHICLES USE SPECI-**

8 Section 157 of the National Defense Authorization  
9 Act for Fiscal Year 2013 (Public Law 112–239; 126 Stat.

18 military department or a contractor with respect to  
19 a subcontract—

20 “(A) conforms to a Department of Defense  
21 specification standard, including interfaces and  
22 waveforms, existing as of the date of the solici-  
23 tation; and

24 “(B) does not include any proprietary or  
25 undocumented waveforms or control interfaces

1 or data interfaces as a requirement or criterion  
 2 for evaluation; and

3 “(2) notify the congressional defense commit-  
 4 tees not later than 15 days after issuing a solicita-  
 5 tion for a Common Data Link to be sunset (CDL-  
 6 TBS) waveform.”; and

7 (2) in subsection (c), in the matter preceding  
 8 paragraph (1)—

9 (A) by striking “Under Secretary of De-

7 (a) FINDINGS.—Congress finds the following:

8 (1) Jobs in science, technology, engineering,  
9 and math in addition to maintenance and manufac-  
10 turing (collectively referred to in this section as  
11 “STEM(MM)”) make up a significant portion of the  
12 workforce of the Department of Defense.

13 (2) These jobs exist within the organic indus-  
14 trial base, research, development, and engineering  
15 centers, life-cycle management commands, and logis-  
16 tics centers of the Department.

17 (3) Vital to the continued support of the mis-  
18 sion of all of the military services, the Department  
19 needs to maintain its STEM(MM) workforce.

20 (4) It is known that the demographics of per-  
21 sonnel of the Department indicate that many of the  
22 STEM(MM) personnel of the Department will be eli-  
23 gible to retire in the next few years.

24 (5) Decisive action is needed to replace  
25 STEM(MM) personnel as they retire to ensure that

1 the military does not further suffer a skill and  
2 knowledge gap and thus a serious readiness gap.

3 (b) ASSESSMENTS AND PLAN OF ACTION.—The Sec-  
4 retary of Defense, in conjunction with the Secretary of  
5 each military department, shall —

6 (1) perform an assessment of the STEM(MM)  
7 workforce for organizations within the Department  
8 of Defense, including the numbers and types of posi-  
9 tions and the expectations for losses due to retire-  
10 ments and voluntary departures;

11 (2) identify the types and quantities of  
12 STEM(MM) jobs needed to support future mission  
13 work;

14 (3) determine the shortfall between lost  
15 STEM(MM) personnel and future requirements;

16 (4) analyze and explain the appropriateness and  
17 impact of using reimbursable and working capital  
18 fund dollars for new STEM(MM) hires;

19 (5) identify a plan of action to address the  
20 STEM(MM) jobs gap, including hiring strategies  
21 and timelines for replacement of STEM(MM) em-  
22 ployees; and

23 (6) deliver to Congress, not later than Decem-  
24 ber 31, 2018, a report specifying such plan of ac-  
25 tion.

6 the military departments and Defense Agencies respon-  
7 sible for managing requests for studies and analysis re-  
8 search are required to coordinate annual research requests

14 **SEC. 336. REPORT ON EFFECTS OF CLIMATE CHANGE ON**  
15 **DEPARTMENT OF DEFENSE.**

16           (a) FINDINGS.—Congress makes the following find-  
17 ings:

18           (1) Secretary of Defense James Mattis has  
19 stated: “It is appropriate for the Combatant Com-  
20 mands to incorporate drivers of instability that im-  
21 pact the security environment in their areas into  
22 their planning.”.

23           (2) Secretary of Defense James Mattis has  
24 stated: “I agree that the effects of a changing cli-  
25 mate — such as increased maritime access to the

1 Arctic, rising sea levels, desertification, among oth-  
2 ers — impact our security situation.”.

3 (3) Chairman of the Joint Chiefs of Staff Jo-  
4 seph Dunford has stated: “It’s a question, once  
5 again, of being forward deployed, forward engaged,  
6 and be in a position to respond to the kinds of nat-  
7 ural disasters that I think we see as a second or  
8 third order effect of climate change.”.

9 (4) Former Secretary of Defense Robert Gates  
10 has stated: “Over the next 20 years and more, cer-  
11 tain pressures-population, energy, climate, economic,  
12 environmental-could combine with rapid cultural, so-  
13 cial, and technological change to produce new  
14 sources of deprivation, rage, and instability.”.

15 (5) Former Chief of Staff of the U.S. Army  
16 Gordon Sullivan has stated: “Climate change is a  
17 national security issue. We found that climate insta-  
18 bility will lead to instability in geopolitics and impact  
19 American military operations around the world.”.

20 (6) The Office of the Director of National Intel-  
21 ligence (ODNI) has stated: “Many countries will en-  
22 counter climate-induced disruptions—such as weath-  
23 er-related disasters, drought, famine, or damage to  
24 infrastructure—that stress their capacity to respond,  
25 cope with, or adapt. Climate-related impacts will also

1 contribute to increased migration, which can be par-  
2 ticularly disruptive if, for example, demand for food  
3 and shelter outstrips the resources available to assist  
4 those in need.”.

5 (7) The Government Accountability Office  
6 (GAO) has stated: “DOD links changes in precipita-  
7 tion patterns with potential climate change impacts  
8 such as changes in the number of consecutive days  
9 of high or low precipitation as well as increases in  
10 the extent and duration of droughts, with an associ-  
11 ated increase in the risk of wildfire. . . this may re-  
12 sult in mission vulnerabilities such as reduced live-  
13 fire training due to drought and increased wildfire  
14 risk.”.

15 (8) A three-foot rise in sea levels will threaten  
16 the operations of more than 128 United States mili-  
17 tary sites, and it is possible that many of these at-  
18 risk bases could be submerged in the coming years.

19 (9) As global temperatures rise, droughts and  
20 famines can lead to more failed states, which are  
21 breeding grounds of extremist and terrorist organi-  
22 zations.

23 (10) In the Marshall Islands, an Air Force  
24 radar installation built on an atoll at a cost of

1       \$1,000,000,000 is projected to be underwater within  
2       two decades.

3           (11) In the western United States, drought has  
4       amplified the threat of wildfires, and floods have  
5       damaged roads, runways, and buildings on military  
6       bases.

7           (12) In the Arctic, the combination of melting  
8       sea ice, thawing permafrost, and sea-level rise is  
9       eroding shorelines, which is damaging radar and  
10      communication installations, runways, seawalls, and  
11      training areas.

12          (13) In the Yukon Training Area, units con-  
13      ducting artillery training accidentally started a wild-  
14      fire despite observing the necessary practices during  
15      red flag warning conditions.

16      (b) SENSE OF CONGRESS.—It is the sense of Con-  
17      gress that—

18           (1) climate change is a direct threat to the na-  
19      tional security of the United States and is impacting  
20      stability in areas of the world both where the United  
21      States Armed Forces are operating today, and where  
22      strategic implications for future conflict exist;

23           (2) there are complexities in quantifying the  
24      cost of climate change on mission resiliency, but the  
25      Department of Defense must ensure that it is pre-

1       pared to conduct operations both today and in the  
2       future and that it is prepared to address the effects  
3       of a changing climate on threat assessments, re-  
4       sources, and readiness; and

5           (3) military installations must be able to effec-  
6       tively prepare to mitigate climate damage in their  
7       master planning and infrastructure planning and de-  
8       sign, so that they might best consider the weather  
9       and natural resources most pertinent to them.

10      (c) REPORT.—

11           (1) REPORT REQUIRED.—Not later than one  
12       year after the date of the enactment of this Act, the  
13       Secretary of Defense shall submit to the Committees  
14       on Armed Services of the Senate and the House of  
15       Representatives a report on vulnerabilities to mili-  
16       tary installations and combatant commander re-  
17       quirements resulting from climate change over the  
18       next 20 years.

19           (2) ELEMENTS.—The report on vulnerabilities  
20       to military installations and combatant commander  
21       requirements required by paragraph (1) shall include  
22       the following:

23           (A) A list of the ten most vulnerable mili-  
24       tary installations within each service based on  
25       the effects of rising sea tides, increased flood-

1 ing, drought, desertification, wildfires, thawing  
2 permafrost, and any other categories the Sec-  
3 retary determines necessary.

4 (B) An overview of mitigations that may  
5 be necessary to ensure the continued oper-  
6 ational viability and to increase the resiliency of  
7 the identified vulnerable military installations  
8 and the cost of such mitigations.

9 (C) A discussion of the climate-change re-  
10 lated effects on the Department, including the  
11 increase in the frequency of humanitarian as-  
12 sistance and disaster relief missions and the  
13 theater campaign plans, contingency plans, and  
14 global posture of the combatant commanders.

15 (D) An overview of mitigations that may  
16 be necessary to ensure mission resiliency and  
17 the cost of such mitigations.

18 (3) FORM.—The report required subparagraph  
19 (1) shall be submitted in unclassified form, but may  
20 contain a classified annex.

21 **SEC. 337. UPDATED GUIDANCE REGARDING BIENNIAL**  
22 **CORE REPORT.**

23 To ensure that the biennial core reporting procedures  
24 of the Department of Defense align with the requirements  
25 of section 2464 of title 10, United States Code, and that

1 each reporting agency provides accurate and complete in-  
2 formation, the Secretary of Defense should direct the  
3 Under Secretary of Defense for Acquisition, Technology  
4 and Logistics to update the Department of Defense Guid-  
5 ance, in particular Department of Defense Instruction  
6 4151.20, to require future biennial core reports include  
7 instructions to the reporting agencies on how to—

- 8 (1) report additional depot workload performed  
9 that has not been identified as a core requirement;
- 10 (2) accurately capture inter-service workload;
- 11 (3) calculate shortfalls; and
- 12 (4) estimate the cost of planned workload.

13 **SEC. 338. REPORT ON ARCTIC READINESS.**

14 (a) REPORT REQUIRED.—The Secretary of Defense  
15 shall submit to Congress a report on arctic readiness.  
16 Such report shall include—

- 17 (1) an analysis of the challenges posed by the  
18 rapidly changing arctic region, including the reasons  
19 why the arctic region is changing at such a rapid  
20 rate;
- 21 (2) an analysis of how the changes will affect  
22 other regions, particularly coastal communities;
- 23 (3) an analysis of how the changes will affect  
24 military infrastructure; and

1           (4) recommendations for congressional action to  
2       address the needs of the Armed Forces, in consulta-  
3       tion with the Secretary of Homeland Security with

5       as a service in the Navy, resulting from changes in  
6       the arctic.

7       (b) FORM OF REPORT.—The report required under  
8       this section shall be unclassified, but may include a classi-  
9       fied annex.

10   **SEC. 339. REPORT ON CYBER CAPABILITY AND READINESS**

11                   **SHORTFALLS.**

15 **SEC. 580. ESTABLISHMENT OF SEPARATION OATH FOR**  
16 **MEMBERS OF THE ARMED FORCES.**

17      (a) FINDINGS.—Congress makes the following find-  
18      ings:

19          (1) The United States Armed Forces is the  
20      largest, all-volunteer military force in the world, yet  
21      less than one percent of the American population  
22      serves in the Armed Forces.

23          (2) Each branch of the Armed Forces (Army,  
24      Navy, Air Force, Marine Corps, Coast Guard) in-  
25      stills in its members a sense of duty and obligation

1 to the United States, their branch of service, and  
2 their comrades-in-arms.

3 (3) The Department of Veterans Affairs esti-  
4 mates that approximately 20 veterans of the Armed  
5 Forces commit suicide each day and a veteran's risk  
6 of suicide is 21 percent higher compared to an adult  
7 who has not served in the Armed Forces.

8 (4) The Department of Veterans Affairs is ag-  
9 gressively undertaking measures to prevent these  
10 tragic outcomes, yet suicide rates among veterans  
11 remain unacceptably high.

12 (5) Upon enlistment or appointment in the  
13 Armed Forces, a new member is obligated to take an  
14 oath of office or oath of enlistment.

15 (6) Most members of the Armed Forces view  
16 this oath not as an imposition, but as a promise that  
17 they are bound to fulfill.

18 (b) ESTABLISHMENT OF SEPARATION OATH.—Sec-  
19 tion 502 of title 10, United States Code, is amended—

20 (1) by redesignating subsection (b) as sub-  
21 section (c) and, in such subsection, by striking “The  
22 oath” and inserting “An oath established by this  
23 section”; and

24 (2) by inserting after subsection (a) the fol-  
25 lowing new subsection (b):

1       “(b) SEPARATION OATH.—Prior to retirement or  
 2 other separation from the armed forces, other than sepa-  
 3 ration pursuant to the sentence of a court-martial, a mem-  
 4 ber of an armed force may take the following oath:

5               “‘I, — — — — —, recog-  
 6 nizing that my oath to support and defend the Con-  
 7 stitution of the United States against all enemies,  
 8 foreign and domestic, has involved me and my fellow  
 9 members in experiences that few persons, other than  
 10 our peers, can understand, do solemnly swear (or af-  
 11 firm) to continue to be the keeper of my brothers-  
 12 and sisters-in-arms and protector of the United  
 13 States and the Constitution; to preserve the values  
 14 I have learned; to maintain my body and my mind;  
 15 and to not bring harm to myself without speaking to  
 16 my fellow veterans first. I take this oath freely and  
 17 without purpose of evasion, so help me God.’”.

12 in a housing unit acquired or constructed under the alter-

2 tion Initiative (MHPI).

3 (2) An analysis of projected revenue for the  
4 MHPI, considering projected reductions in such  
5 basic allowance for housing, which compares pro-  
6 jected revenue under the assumption that members  
7 of the armed forces will make out-of-pocket pay-  
8 ments in addition to rent and under the assumption  
9 that members will not make such out-of-pocket pay-  
10 ments.

11 (3) An analysis of the extent to which the De-  
12 partment of Defense has relied and continues to rely  
13 on the assumption that members of the armed forces  
14 who live in housing units acquired or constructed  
15 under the MHPI will make out-of-pocket payments  
16 in addition to basic rent in order to offset reductions  
17 in such basic housing allowance.

18 (4) An analysis of the future military construc-  
19 tion costs that will be necessary to offset reduced re-  
20 investment account distributions as a result of re-  
21 ductions in such basic housing allowance, consistent  
22 with the requirement included in project ground  
23 leases under the MHPI that all assets will be in like-  
24 new condition at the end of the lease.

1           (5) The impact on maintenance of housing  
 2           units acquired or constructed under the MHPI be-  
 3           cause of the reductions in revenue for the MHPI  
 4           that will result from reductions in such basic hous-  
 5           ing allowance.

6           (6) The impacts of the costs described in para-  
 7           graph (4) and the reduction in revenue described in  
 8           paragraph (5) on occupancy and revenue generated  
 9           by occupancy under the MHPI, and the impact of  
 10          changes in occupancy and associated revenue on the  
 11          costs described in paragraph (4) and the reduction  
 12          in revenue described in paragraph (5).

14   phasis to sustainment factors, particularly those factors  
15   that are affected principally by the design of a weapon  
16   system, in the development of a weapon system.

17       “(b) REQUIREMENTS PROCESS.—The Secretary shall  
18   ensure that reliability and maintainability are included in

8       for the decision.

9               “(3) SOURCE SELECTION CRITERIA.—The Sec-  
10      retary shall ensure that sustainment factors, includ-

17 quirements for reliability and maintainability of the  
18 contract by the date of acceptance of the last item  
19 under the contract. Terms for such amounts shall be  
20 included in the solicitation for the contract. Such  
21 terms shall include provisions providing that—

2 case of a production contract, modifies all end  
3 items to be delivered or already delivered under  
4 the contract; or

5 “(ii) the contractor provides the Govern-  
6 ment—

7 “(I) a refund in the amount required  
8 to identify the cause of the failure in the  
9 system design, develop an engineering

19 United States.

20 “(4) MEASUREMENT OF RELIABILITY AND  
21 MAINTAINABILITY.—In carrying out paragraphs (2)  
22 and (3), the program manager shall base determina-

18 economic, and energy security at risk.

19 (2) High-quality American steel products are  
20 vital to the success of the United States military and  
21 are used in a variety of applications from aircraft

24 products are dependent on the overall financial

1 health of the iron ore and steel industries in the  
2 United States.

3 (4) The loss of a strong domestic iron ore and  
4 steel industry would make the United States dan-  
5 gerously dependent upon foreign sources of steel,  
6 such as China.

12 **SEC. 923. BRIEFING ON FORCE MANAGEMENT LEVEL POL-**  
13 **ICY.**

14 (a) FINDINGS; SENSE OF CONGRESS.—

15 (1) FINDINGS.—Congress finds the following:

16 (A) The force management level policy that  
17 previously restricted the total number of mem-  
18 bers of the Armed Forces of the United States  
19 deployed to Afghanistan increased the cost of  
20 operations in Afghanistan.

21 (B) The restriction meant that the Depart-  
22 ment of Defense had to substitute available  
23 military personnel for costlier contract support.

24 (2) SENSE OF CONGRESS.—It is the sense of  
25 Congress that the Department of Defense should  
26 discourage the practice of substituting contractor

1 personnel for available members of the Armed  
2 Forces when a unit deploys overseas and should re-  
3 vise this practice as it pertains to unit deployment  
4 to Afghanistan.

5 (b) BRIEFING.—Not later than March 31, 2018, the  
6 Secretary of Defense shall provide to the congressional de-  
7 fense committees a briefing detailing—

8 (1) the steps that the Secretary is taking to re-  
9 vise deployment guidelines to ensure that readiness,  
10 unit cohesion, and maintenance are prioritized; and

11 (2) the plan of the Secretary to establish a pol-  
12 icy that will avoid to the extent practicable these  
13 costly practices in the future.

14 **SEC. 924. SENSE OF CONGRESS ON COOPERATIVE PRO-**  
15 **GRAM FOR INFORMATION SECURITY EDU-**  
16 **CATION.**

17 It is the sense of Congress that—

18 (1) the Secretary of Defense should provide  
19 adequate resources to the Office of the Chief Infor-  
20 mation Officer of the Department of Defense and  
21 the Defense Procurement Acquisition Policy to en-  
22 able such entities to establish a cooperative program  
23 with the National Institute of Standards and Tech-  
24 nology-Manufacturing Extension Partnership; and

1           (2) the cooperative program described in para-  
2 graph (1) should—

3           (A) educate and assist small- and medium-  
4 sized manufacturing firms in the Department of  
5 Defense supply chain in achieving compliance  
6 with NIST Special Publication 800–171 titled  
7 “Protecting Controlled Unclassified Information  
8 in Nonfederal Information Systems and Organi-  
9 zations” as such publication is incorporated  
10 into the Defense Federal Acquisition Regulation  
11 Supplement;

12           (B) highlight the resources available to  
13 businesses that have contracts with the Depart-  
14 ment or that are applying for such contracts;  
15 and

16           (C) educate such businesses on—

17           (i) the System Security Plan of the  
18 National Institute of Standards and Tech-  
19 nology;

20           (ii) the procurement toolbox of the  
21 Defense Procurement Acquisition Policy;

22           (iii) the Cyber Security Evaluation  
23 Tool of the Department of Homeland Se-  
24 curity; and

1 (iv) the risks of using third party  
2 companies in assessing compliance with  
3 NIST Special Publication 800–171.

4 **SEC. 925. COMPLETION OF DEPARTMENT OF DEFENSE DI-**  
5 **RECTIVE 2310.07E REGARDING MISSING PER-**  
6 **SONS.**

7 (a) IN GENERAL.—The Secretary of Defense shall  
8 make the completion of Department of Defense Directive  
9 2310.07E a top priority in order to improve the efficiency  
10 of locating missing persons.

11 (b) DEFINITION.—In this section, the term “missing  
12 person” has the meaning given such term in section 1513  
13 of title 10, United States Code.

14 **SEC. 926. RESPONSIBILITY FOR DEVELOPMENTAL TEST**  
15 **AND EVALUATION WITHIN THE OFFICE OF**  
16 **THE SECRETARY OF DEFENSE.**

17 (a) BRIEFING ON PLANS TO ADDRESS DEVELOP-  
18 MENTAL TEST AND EVALUATION RESPONSIBILITIES  
19 WITHIN THE OFFICE OF THE SECRETARY OF DE-  
20 FENSE.—

21 (1) IN GENERAL.—Not later than 60 days after  
22 the date of the enactment of this Act, the Secretary  
23 of Defense shall provide a briefing to the Committee  
24 on Armed Services of the House of Representatives  
25 on a strategy to ensure that there is sufficient exper-

1       tise, oversight, and policy direction on developmental  
2       test and evaluation within the Office of the Sec-  
3       retary of Defense after the completion of the reorga-  
4       nization of such Office required under section 901 of  
5       the National Defense Authorization Act for Fiscal  
6       Year 2017 (Public Law 114–328; 130 Stat. 2339).

7               (2) ELEMENTS.—The briefing required by  
8       paragraph (1) shall address the following:

9               (A) The structure of the roles and respon-  
10       sibilities of the senior Department of Defense  
11       official responsible for developmental test and  
12       evaluation.

13              (B) The location of the senior Department  
14       of Defense official responsible for developmental  
15       test and evaluation within the organizational  
16       structure of the Office of the Secretary of De-  
17       fense.

18              (C) An estimate of personnel and other re-  
19       sources that should be made available to the  
20       senior Department of Defense official respon-  
21       sible for developmental test and evaluation to  
22       ensure that such official can provide inde-  
23       pendent expertise, oversight, and policy direc-  
24       tion and guidance Department of Defense-wide.

1           (D) Methods to ensure that the senior De-  
2           partment of Defense official responsible for de-  
3           velopmental test and evaluation will be empow-  
4           ered to facilitate Department of Defense-wide  
5           efficiencies by helping programs to optimize test  
6           designs.

7           (E) Methods to ensure that an advocate  
8           for test and evaluation workforce will continue  
9           to exist within the acquisition workforce.

10       (b) SENSE OF CONGRESS.—It is the sense of Con-  
11       gress that—

12           (1) developmental testing is critical to reducing  
13           acquisition program risk by providing valuable infor-  
14           mation to support sound decision making;

15           (2) major defense acquisition programs often do  
16           not conduct enough developmental testing, so too  
17           many problems are first identified during oper-  
18           ational testing, when they are expensive and time-  
19           consuming to fix; and

20           (3) in order to ensure that effective develop-  
21           mental testing is conducted on major defense acqui-  
22           sition programs, the Secretary should—

23           (A) carefully consider where the senior De-  
24           partment of Defense official responsible for de-  
25           velopmental test and evaluation is located with-

1 in the organizational structure of the Office of  
2 the Secretary of Defense; and

3 (B) ensure that such official has sufficient  
4 authority and resources to provide oversight  
5 and policy direction on developmental test and

14 **SEC. 1036. RESTRICTION ON USE OF CERTAIN FUNDS PEND-**  
15 **ING SOLICITATION OF BIDS FOR WESTERN**  
16 **PACIFIC DRY DOCK.**

17 (a) FINDINGS.—Congress makes the following find-  
18 ings:

19 (1) Following closure of the Department of the  
20 Navy ship repair facility in Guam in 1997 following  
21 the Base Realignment and Closure round of 1995,  
22 operation of the facility was turned over to a private  
23 company.

24 (2) While streamlining operations, resulting in  
25 savings to the Navy of approximately \$38,000,000

1 each year, the company was able to maintain the  
2 depot-level capabilities of the facility with dry-dock-  
3 ing capability that had existed in Apra Harbor since  
4 World War II.

5 (3) From 1997 to 2012, the private operator  
6 successfully performed 28 major overhauls with dry-  
7 dockings of Navy, Military Sealift Command, and  
8 Coast Guard vessels, 27 mid-term availabilities, as  
9 well as the emergency dry-docking of USS San  
10 Francisco (SSN-711) after the nuclear powered sub-  
11 marine collided with a seamount off the coast of  
12 Guam in 2005.

13 (4) While the privately owned dry-dock, Ma-  
14 chinist, was undergoing upgrades and refurbishment  
15 in 2013, the Navy announced that it would split the  
16 long-standing depot-level capability in Guam into  
17 two pieces, awarding an initial contract for pier-side  
18 ship repair, to be followed by a contract for dry-dock  
19 ship repair.

20 (5) At this time, the Committee on Armed  
21 Services of the House of Representatives, including  
22 the Delegate from Guam, as well as the Governor of  
23 Guam, objected to this plan, and a conditional  
24 agreement was made wherein the Navy committed to

1 restoring dry-docking capabilities expeditiously fol-  
2 lowing issuance of the pier-side contract.

3 (6) Despite repeated requests from the Com-  
4 mittee on Armed Services of the House of Rep-  
5 resentatives, the Delegate from Guam, and the Gov-  
6 ernor of Guam over the past four years, the Sec-  
7 retary of the Navy has failed to issue the dry-dock  
8 contract.

9 (7) The Navy conducted a business case anal-  
10 ysis to assess options for a dry-docking capability in  
11 Guam in 2014 and agreed to provide a copy of the  
12 report to Congress upon completion. The draft busi-  
13 ness case analysis was provided to the Committee on  
14 Armed Services of the House of Representatives on  
15 March 3, 2016, but a final document was not pro-  
16 duced.

17 (8) The draft business case analysis evaluated  
18 200 potential options for restoring a dry-docking ca-  
19 pability in Guam, recommending seven potential  
20 courses of action, with estimated costs ranging from  
21 \$324,000,000 to \$398,000,000 over a 50-year life  
22 cycle. The business case analysis concluded that any  
23 of these options are significant savings when com-  
24 pared with the cost of not having a dry-docking ca-

1       pability in Guam, which exceeds \$700,000,000 over  
2       a 50-year period.

3           (9) The Navy has removed machinery and  
4       equipment needed to perform major overhauls from  
5       the former ship repair facility, and shifted ship re-  
6       pair work previously performed in Guam to various  
7       foreign locations in the Western Pacific. The total  
8       cost of Navy ship repair contracts in Guam have  
9       gone from \$45,00,000 in 2010 to \$16,000,000 in  
10      2016.

11          (10) As a result of Navy actions over the past  
12      five years, the number of skilled workers engaged in  
13      ship repair in Guam has been reduced from a com-  
14      bined total of approximately 550 at three ship-repair  
15      companies in Guam to the current level of 150. Due  
16      to this degraded workforce and equipment capabili-  
17      ties, the Navy is now forced to rely almost exclu-  
18      sively on foreign ship repair instead at a time when  
19      the Committee believes tensions and threats of crisis  
20      in the Western Pacific can put access to foreign  
21      shipyards at risk.

22          (11) Navy leadership has long acknowledged  
23      the importance of a depot-level, dry-docking capa-  
24      bility in Guam, as evidenced by the following:

1 (A) “Robust depot-level ship repair capa-  
2 bility in Guam is a matter of strategic impor-  
3 tance and remains an operational necessity be-  
4 cause ships of the 7th Fleet have high oper-  
5 ational tempo and experience vast distances be-  
6 tween repair facilities.” (Letter from the Com-  
7 mander of the Pacific Fleet to the Governor of  
8 Guam, dated February 15, 2013).

9 (B) “We must maintain a viable ship  
10 maintenance capability in Guam to include dry-  
11 docking in support of operations and contin-  
12 gency plans (OPLANs and CONPLANs) and  
13 the U.S. Navy rebalance to the Pacific. Guam  
14 is a strategic in-theater location for depot-level  
15 ship maintenance on sovereign U.S. territory.  
16 This is a significant factor given that commer-  
17 cial dry docks available in foreign countries con-  
18 sidered friendly to the United States may be-  
19 come unavailable to SEVENTH Fleet ships in  
20 time of crisis or war. Availability of CPF ships  
21 would be stressed if assets are required to dry  
22 dock in CONUS due to the non-availability of  
23 a secure dry docking capability in the Western  
24 Pacific. Dry-docking in Guam is a critical com-  
25 ponent of depot-level ship repair. The capability

1 must be maintained and regularly exercised so  
2 that a capability and expertise are available to  
3 support ships of the SEVENTH Fleet in peace  
4 and war.” (Letter from the Commander of the  
5 Pacific Fleet to the Chief of Naval Operations,  
6 dated February 7, 2014).

7 (C) On February 24, 2016, in testimony  
8 before the Committee on Armed Services of the  
9 House of Representatives, Admiral Harry Har-  
10 ris, Commander of the United States Pacific  
11 Command, affirmed that he continues to view  
12 robust ship repair capabilities as a matter of  
13 strategic importance and an operational priority  
14 for United States Pacific Fleet.

15 (12) The Navy currently has four fast-attack  
16 nuclear submarines homeported in Guam.

17 (13) The Navy homeports submarine squadrons  
18 at seven locations in the United States, each of  
19 which has a dry-docking capability, with the excep-  
20 tion of Guam.

21 (14) The Committee on Armed Services of the  
22 House of Representatives believes that dry-docking  
23 capability in Guam is a strategic requirement and a  
24 cost-effective means of ensuring the Forward De-

1       ployed Fleet has depot-level repair capabilities at a  
2       United States port in the Western Pacific.

3           (15) Amounts were authorized to be appro-  
4       priated in the National Defense Authorization Act  
5       for Fiscal Year 2017 (Public Law 114–328) and ap-  
6       propriated in the Consolidated Appropriations Act,  
7       2017 (Public Law 115–31) for funds be applied to  
8       chartering a dry dock to meet fleet maintenance re-  
9       quirements in the Western Pacific.

10       (b) LIMITATION ON USE OF FUNDS.—Not more than  
11   75 percent of the funds authorized to be appropriated or  
12   otherwise made available for the Office of the Secretary  
13   of the Navy may be obligated or expended until the Sec-  
14   retary submits to Congress notice that a request for pro-  
15   posals has been issued to solicit bids for the chartering  
16   of a dry dock in the Western Pacific that satisfies the min-  
17   imum requirements for heavy ship depot-level repair.

18   **SEC. 1037. NATIONAL GUARD FLYOVERS OF PUBLIC**  
19                   **EVENTS.**

20       (a) STATEMENT OF POLICY.—It shall be the policy  
21   of the Department of Defense that flyovers of public  
22   events in support of community relations activities may  
23   only be flown as part of an approved training mission at  
24   no additional expense to the Federal Government.

1       (b) NATIONAL GUARD FLYOVER APPROVAL PROC-  
2   ESS.—The Adjutant General of a State or territory in  
3   which an Army National Guard or Air National Guard  
4   unit is based will be the approval authority for all Air Na-  
5   tional Guard and Army National Guard flyovers in that  
6   State or territory, including any request for a flyover in  
7   any civilian domain at a nonaviation related event.

8       (c) FLYOVER RECORD MAINTENANCE; REPORT.—

9           (1) RECORD MAINTENANCE.—The Secretary of  
10   Defense shall keep and maintain records of flyover  
11   requests, approvals, and the total costs of all flyover  
12   missions, including the costs of fuel, maintenance,  
13   and manpower, in a publicly accessible database that  
14   is updated annually.

15          (2) GAO REPORT.—Not later than one year  
16   after the date of the enactment of this Act, the  
17   Comptroller General of the United States shall sub-  
18   mit to the Committee on Armed Services of the  
19   House of Representatives and the Committee on  
20   Armed Services of the Senate a report on flyovers  
21   and the process whereby flyover requests are made  
22   and evaluated, including—

23           (A) whether there is any cost to taxpayers  
24   associated with flyovers;

1 (B) whether there is any appreciable public  
2 relations or recruitment value that comes from  
3 flyovers; and

4 (C) the impact flyovers have to aviator  
5 training and readiness.

6 (d) FLYOVER DEFINED.—In this section, the term  
7 “flyover” means aviation support—

8 (1) in which a straight and level flight limited  
9 to one pass by a single military aircraft, or by a sin-  
10 gle formation of four or fewer military aircraft of  
11 the same type, from the same military department  
12 over a predetermined point on the ground at a spe-  
13 cific time;

14 (2) that does not involve aerobatics or dem-  
15 onstrations; and

16 (3) uses bank angles of up to 90 degrees if re-  
17 quired to improve the spectator visibility of the air-  
18 craft.

19 **SEC. 1038. TRANSFER OF FUNDS TO WORLD WAR I CENTEN-**  
20 **NIAL COMMISSION.**

21 (a) AUTHORITY TO TRANSFER FUNDS.—The Sec-  
22 retary of Defense may transfer to the World War I Cen-

25 World War I Centennial Commission consider appropriate

12 the Secretary pursuant to subsection (a) shall be derived  
13 from amounts authorized to be appropriated for fiscal year  
14 2018 for Civil Military Programs as provided in section  
15 4301 of this Act.

9 defense systems (MANPADs) to the vetted Syrian opposi-  
10 tion pursuant to the authority in section 1209 of the Carl  
11 Levin and Howard P. “Buck” McKeon National Defense  
12 Authorization Act for Fiscal Year 2015 (Public Law 113–

14 that purpose until—

4 fense and the Secretary of State jointly consider ap-

16 used to procure or transfer man-portable air defense sys-  
17 tems (MANPADS).

18 **SEC. 1040. DETERMINATION REGARDING TRANSFER OF DE-**

21 (a) DETERMINATION REQUIRED.—In carrying out  
22 the Golden Sentry program to monitor end-use compliance  
23 of the government of a foreign state to which defense arti-  
24 cles and services have been provided, the Director of the  
25 Defense Security Cooperation Agency, in consultation with

1 the appropriate United States embassy personnel in the  
2 foreign state, shall determine whether the government of  
3 the foreign state has transferred any defense article to a

9 described in paragraph (2) under this section, the Sec-

4 effect on biological defense capabilities and would not re-  
5 sult in a lapse of biological defense capabilities.

6 (b) COVERED CONGRESSIONAL COMMITTEES.—In  
7 this section, the term “covered congressional committees”

16 **SEC. 1066. SENSE OF CONGRESS REGARDING AIRCRAFT**  
17 **CARRIERS.**

18 (a) FINDINGS.—Congress makes the following find-  
19 ings:

20 (1) Naval aviation was born in the United  
21 States when Eugene Ely launched from the deck of  
22 a United States Navy ship on November 14, 1910,  
23 in a Curtiss Model D.

24 (2) In 1915, Cpt. Henry C. Mustin made the  
25 first catapult launch and first take off in a ship un-

1 derway in a Curtiss Model AB-2, beginning a cen-  
2 tury of technological advancements that have led to  
3 today's Electromagnetic Aircraft Launch System  
4 which has replaced the steam pistons with powerful  
5 magnets to launch jet aircraft.

6 (3) In 1924, Lt. Dixie Kiefer made the first  
7 night catapult launch in a Vought UO-1 in San  
8 Diego harbor, leading to today's aircraft carriers  
9 being a floating city at sea with a 24-hour airport.

10 (4) The first nuclear-powered aircraft carrier,  
11 USS Enterprise (CVN 65), was commissioned in  
12 1961, ushering in a new era of the world's most  
13 dominant and capable warships.

14 (5) In 2013, the first of the next generation of  
15 aircraft carriers, Gerald R. Ford, was christened,  
16 marking a continuation of the innovative naval avia-  
17 tion spirit, technological advancement, and war  
18 fighting capabilities of aircraft carriers.

19 (6) In 2013, aircraft carrier USS George Wash-  
20 ington (CVN 73) provided humanitarian assistance,  
21 medical supplies, food, and water to the victims in  
22 the Philippines of Super Typhoon Haiyan, once  
23 again demonstrating versatility of the aircraft car-  
24 rier for combat, diplomatic and humanitarian oper-  
25 ations.

1           (7) For over 70 years, aircraft carriers have  
2       been employed in every major and many smaller con-  
3       flicts, including World War II, Korea, Vietnam, Gre-  
4       nada, Lebanon, Libya, Operation Desert Storm, Af-  
5       ghanistan, Iraq, and the fight against terrorism.

6           (8) The United States Navy's aircraft carriers  
7       are a cornerstone of the Nation's ability to project  
8       its power and strength.

9           (9) When aircraft carriers sail the globe they  
10      are a statement of national purpose and a symbol of  
11      the Nation's industrial strength, competitive edge,  
12      and economic prosperity.

13          (10) Aircraft carriers are 4.5 acres of sovereign  
14      United States territory enabling the Nation to re-  
15      duce its dependency on other nations while it pur-  
16      sues its national security interests.

17          (11) Aircraft carriers enable the United States  
18      Armed Forces to carry out operations from inter-  
19      national waters, avoiding the complications of secur-  
20      ing fly-over rights and land-base rights from other  
21      nations.

22          (12) Aircraft carriers are a modern, very mobile  
23      United States military base complete with airfield,  
24      hospital, and communications systems from which  
25      the United States can strike at its enemies.

1           (13) Over 90 percent of world trade is moved  
2       by sea, including much of the world's gas and oil  
3       supply, and aircraft carriers and their strike forces  
4       are constantly on patrol in vital regions of the world  
5       to keep shipping lanes open and protect the interests  
6       of the United States and its allies.

7           (14) There are more than 2,450 companies in  
8       48 States and over 364 congressional districts, and  
9       more than 13,100 shipbuilders who proudly con-  
10      tribute to the construction and maintenance of these  
11      complex and technologically advanced ships.

12          (15) Thousands of members of the United  
13      States Armed Forces have served the Nation aboard  
14      aircraft carriers in war, peace, and times of crisis.

15          (16) When crisis occurs the first question that  
16      comes to everyone's lips is "Where is the nearest  
17      carrier?".

18      (b) SENSE OF CONGRESS.—It is the sense of Con-  
19      gress that—

20          (1) United States aircraft carriers are the pre-  
21      eminent power projection platform and have served  
22      the Nation's interests in times of war and in times  
23      of peace, adapting to the immediate and ever-chang-  
24      ing nature of the world for over 90 years;

1           (2) aircraft carrier contributions and heritage  
2           should be celebrated; and

3           (3) the people of the United States should be  
4           encouraged to celebrate the history of aircraft car-  
5           riers in the United States and to always remember  
6           the vital role these vessels play in defending the Na-  
7           tion's freedom.

22       Secretary, in consultation with the Attorney General, the  
23       terms of the settlement agreement affect the congressional  
24       authorization or appropriations process with respect to the  
25       Department of Defense.

2 a request under subsection (a)—

13 **UNITED STATES NAVY SEABEES.**

14 (a) FINDINGS.—Congress makes the following find-  
15 ings:

16 (1) On March 5, 1942, Navy Construction Bat-  
17 talion personnel were officially named Seabees by  
18 the Navy Department.

19 (2) The purpose of the Navy Seabees is to  
20 build, maintain, and support base infrastructure in  
21 remote locations for the Navy and Marine Corps,  
22 while simultaneously being capable of engaging in  
23 combat operations.

1           (3) The Navy Seabees dual-role is exemplified  
2       by the Seabee motto *Construimus, Batuimus*: We  
3       Build, We Fight.

4           (4) Throughout their history, the Navy Seabees  
5       have answered the call of duty to protect the United  
6       States and its democratic values both in times of  
7       war and peace.

8           (5) The Navy Seabees support United States  
9       national security at combatant commands worldwide,  
10      through the construction, both on land and under-  
11      water, of bases, airfields, roads, bridges, and other  
12      infrastructure.

13          (6) Members of the Navy Seabees and their  
14      families have demonstrated unmatched courage and  
15      dedication to sacrifice for the United States, from  
16      service in World War II, Korea, and Vietnam to the  
17      recent conflicts in Afghanistan, Iraq, and elsewhere.

18          (7) The Navy Seabees exhibit honor, personal  
19      courage, and commitment as they sacrifice their per-  
20      sonal comfort to keep the United States safe from  
21      threats.

22          (8) The Navy Seabees continue to display  
23      strength, professionalism, and bravery in the all-vol-  
24      unteer force.

1       (b) SENSE OF CONGRESS.—Congress recognizes the  
2 United States Navy Seabees and the Navy personnel who  
3 comprise the construction force for the Navy and the Ma-  
4 rine Corps as critical elements in deterring conflict, over-  
5 coming aggression, and rebuilding democratic institutions.

6 **SEC. 1069. RECOGNITION OF THE UNITED STATES SPECIAL**  
7 **OPERATIONS COMMAND.**

8       (a) FINDINGS.—Congress makes the following find-  
9 ings:

10           (1) On April 16, 1987, Congress required the  
11 establishment of a Special Operations Command,  
12 which was to be an elite fighting force drawn from  
13 all of the branches of the Armed Forces.

14           (2) As a headquarters organization, USSOCOM

19 (5) USSOCOM has an unequalled ability to ana-  
20 lyze and respond to terrorist threats and USSOCOM  
21 has led many successful missions globally.

22 (6) Many USSOCOM missions are classified, so  
23 the American people may never know the details and  
24 extent of the bravery of Special Operations Forces,  
25 but a sample of missions provide a glimpse into the

1       bravery and talents of these members of the Armed  
2       Forces:

3               (A) On May 2, 2011, Osama bin Laden  
4       was killed in a special operations mission in  
5       Pakistan, for which the outstanding men and  
6       women in America's intelligence and Armed  
7       Forces, especially those from SOCOM, re-

1           (E) On January 17, 1991, as Operation  
2           Desert Storm began, Special Operations Forces  
3           slipped hundreds of miles into Iraq to identify  
4           Iraqi Scud missiles as targets for American  
5           fighter jets.

6           (F) On December 20, 1989, in Operation

15          Tampa, its four service-component commands, and  
16          eight sub-unified commands.

17          (8) The heroism, skill, and patriotism of  
18          USSOCOM personnel and their families are without  
19          parallel.

20          (9) The responsibilities of USSOCOM are grow-  
21          ing and its mission is now and will continue to be  
22          central to the defense of the United States in future  
23          decades.

1           (10) The sacrifices of many, the service of all,  
2           and the talents of the Special Operations Forces are  
3           cause for confidence and optimism.

4           (b) SENSE OF CONGRESS.—It is the sense of Con-  
5           gress that the soldiers, sailors, airmen, Marines, and civil-  
6           ians who, together with their family members, comprise  
7           the United States Special Operations Forces community

10   **SEC. 1070. SENSE OF CONGRESS REGARDING WORLD WAR I.**

11           (a) FINDINGS.—Congress makes the following find-  
12           ings:

13           (1) The United States declared war against  
14           Germany on April 6, 1917, to redress wrongs, in-  
15           cluding Germany's resumption of unrestricted sub-  
16           marine warfare, violation of United States neu-  
17           trality, and denial of freedom of the seas to non-  
18           belligerent nations.

19           (2) The United States associated itself with the  
20           allied powers of the United Kingdom and its Com-  
21           monwealth, France and its colonies, Russia, Italy,  
22           and Japan to defeat the German Empire

23           (3) The United States Army, consisting of the  
24           Regular Army, National Guard, and Reserve Corps,  
25           with the addition of volunteers and the draftees of

1 the National Army, underwent a transformation  
2 from a frontier constabulary and coastal defense  
3 force to a modern land warfare force.

4 (4) Early 20th century military and techno-  
5 logical advances resulted in the incorporation of  
6 motor transport, aviation, anti-aircraft artillery,  
7 tanks, chemical weapons, aircraft carriers, sub-  
8 marines and anti-submarine warfare, sonar, under-  
9 water mines, and other innovations into the military  
10 arsenal of the United States.

11 (5) The need to quickly build a military  
12 strength of four million soldiers and half a million  
13 sailors required the mobilization of the human re-  
14 sources of the United States, during which members  
15 of diverse ethnic groups, races, and creeds, both na-  
16 tive-born and immigrant, forged a new American  
17 identity.

18 (6) The United States Army maintained its de-  
19 fense of American seacoasts, southern border, and  
20 overseas possessions, while the Army American Ex-  
21 peditionary Forces deployed “Over There” for com-  
22 bat operations in Europe starting in June 1917.

23 (7) By the end of World War I, almost two mil-  
24 lion members of the Army served overseas in the  
25 American Expeditionary Forces; Whereas, during

1 World War I, the United States Navy increased in  
2 strength from approximately 69,000 officers and  
3 sailors and 342 vessels to more than 533,000 offi-  
4 cers and sailors and 774 vessels.

5 (8) The Navy operated in the Atlantic and Pa-  
6 cific Oceans, and the North and Mediterranean Seas  
7 in cooperation with allied navies.

8 (9) The Navy began the fight against the Ger-  
9 man U-boat menace by dispatching destroyers,  
10 which eventually totaled 70 in number, and 169  
11 other vessels to counter the submarine threat.

12 (10) Navy vessels escorted troop transports car-  
13 rying 1,250,000 passengers and escorted supply  
14 transports carrying 27 percent of all cargo shipped  
15 to Europe.

16 (11) The Navy deployed five batteries of large-  
17 caliber battleship guns mounted on railroad trains to  
18 France for service as long-range artillery for the  
19 Army;.

20 (12) The United States Coast Guard trans-  
21 ferred to the operational control of the Navy, and  
22 augmented that service with approximately 5,000 of-  
23 ficers and sailors, 47 vessels of all types, and 279  
24 shore stations;.

1           (13) The United States Marine Corps, with an  
2           eventual wartime strength of 75,000 officers and  
3           men, detached two regiments and a machine gun  
4           battalion to constitute an infantry brigade integrated  
5           into the Army's 2d Division for service in France;.

6           (14) On July 4, 1917, Colonel Charles E. Stan-  
7           ton, one of the officers on the staff of General John  
8           Pershing, commander of the American Expedi-  
9           tionary Forces in Europe, famously announced  
10          America's commitment to the fight when Colonel  
11          Stanton proclaimed upon his arrival in France, "La-  
12          fayette, we are here!".

13          (15) Whereas the American Expeditionary  
14          Forces formed three field armies, nine corps and  
15          forty-three divisions, plus various units of the Serv-  
16          ices of Supply.

17          (16) The American Expeditionary Forces suf-  
18          fered 244,000 casualties in fighting in thirteen  
19          named campaigns in World War I;.

20          (17) Participation in World War I resulted in  
21          the completion of a period of reform and profes-  
22          sionalism that transformed the Armed Forces from  
23          a small dispersed organization to a modern industri-  
24          alized fighting force capable of global reach and in-  
25          fluence.

1 (b) SENSE OF CONGRESS.—Congress—

2 **ING THE NATIONAL GUARD YOUTH CHAL-**  
3 **LENCE PROGRAM.**

4 (a) FINDINGS.—Congress finds the following:

5 (1) Fewer than 30 percent of youth in the  
6 United States qualify for military service, either be-  
7 cause of poor physical health, a criminal record, or  
8 lack of a high school degree.

9 (2) The National Guard Youth Challenge Pro-  
10 gram provides the Department of Defense an oppor-  
11 tunity to work with State and local governments to  
12 engage with the youth of the nation, providing mili-  
13 tary-based training, the opportunity to earn a high  
14 school degree, and high physical fitness standards.

15 (b) SENSE OF CONGRESS.—It is the sense of Con-  
16 gress that it is critical to allocate the necessary resources  
17 to the National Guard Youth Challenge Program of the  
18 Department of Defense as it plays a critical role in pre-

20 service.

4       in the shape of a heart in purple cloth or silk.

5               (3) While the award of the Badge of Military

1 **SEC. 1214. SENSE OF CONGRESS RELATING TO DR. SHAKIL**

2 **AFRIDI.**

3 (a) FINDINGS.—Congress finds the following:

4 (1) The attacks of September 11, 2001, killed  
5 approximately 3,000 people, most of whom were  
6 Americans, but also included hundreds of individuals  
7 with foreign citizenships, nearly 350 New York Fire  
8 Department personnel, and about 50 law enforce-  
9 ment officers.

10 (2) Downed United Airlines flight 93 was re-  
11 portedly intended, under the control of the al-Qaeda  
12 high-jackers, to crash into the White House or the  
13 Capitol in an attempt to kill the President of the  
14 United States or Members of the United States Con-  
15 gress.

16 (3) The September 11, 2001, attacks were  
17 largely planned and carried out by the al-Qaeda ter-  
18 rorist network led by Osama bin Laden and his dep-  
19 uty Ayman al Zawahiri, after which Osama bin  
20 Laden enjoyed safe haven in Pakistan from where he  
21 continued to plot deadly attacks against the United  
22 States and the world.

23 (4) Since 2001, the United States has provided  
24 more than \$30 billion in security and economic aid  
25 to Pakistan.

1           (5) The United States very generously and  
2           swiftly responded to the 2005 Kashmir Earthquake  
3           in Pakistan with more than \$200 million in emer-  
4           gency aid and the support of several United States  
5           military aircraft, approximately 1,000 United States  
6           military personnel, including medical specialists,  
7           thousands of tents, blankets, water containers and a  
8           variety of other emergency equipment.

9           (6) The United States again generously and  
10          swiftly contributed approximately \$150 million in  
11          emergency aid to Pakistan following the 2010 Paki-  
12          stan flood, in addition to the service of nearly twenty  
13          United States military helicopters, their flight crews,  
14          and other resources to assist the Pakistan Army's  
15          relief efforts.

16          (7) The United States continues to work tire-  
17          lessly to support Pakistan's economic development,  
18          including millions of dollars allocated towards the  
19          development of Pakistan's energy infrastructure,  
20          health services and education system.

21          (8) The United States and Pakistan continue to  
22          have many critical shared interests, both economic  
23          and security related, which could be the foundation  
24          for a positive and mutually beneficial partnership.

1           (9) Dr. Shakil Afridi, a Pakistani physician, is  
2       a hero to whom the people of the United States,  
3       Pakistan and the world owe a debt of gratitude for  
4       his help in finally locating Osama bin Laden before  
5       more innocent American, Pakistani and other lives  
6       were lost to this terrorist leader.

7           (10) Pakistan, the United States and the inter-  
8       national community had failed for nearly 10 years  
9       following attacks of September 11, 2001, to locate  
10      and bring Osama bin Laden, who continued to kill  
11      innocent civilians in the Middle East, Asia, Europe,  
12      Africa and the United States, to justice without the  
13      help of Dr. Afridi.

14          (11) The Government of Pakistan's imprison-  
15      ment of Dr. Afridi presents a serious and growing  
16      impediment to the United States' bilateral relations  
17      with Pakistan.

18          (12) The Government of Pakistan has leveled  
19      and allowed baseless charges against Dr. Afridi in a  
20      politically motivated, spurious legal process.

21          (13) Dr. Afridi is currently imprisoned by the  
22      Government of Pakistan, a deplorable and uncon-  
23      scionable situation which calls into question Paki-  
24      stan's actual commitment to countering terrorism

1 and undermines the notion that Pakistan is a true  
2 ally in the struggle against terrorism.

3 (b) SENSE OF CONGRESS.—It is the sense of Con-  
4 gress that Dr. Shakil Afridi is an international hero and  
5 that the Government of Pakistan should release him im-  
6 mediately from prison.

19 **SEC. 1230A. STRATEGY FOR SYRIA AND IRAQ.**

7 (2) the Committee on Foreign Relations and  
8 the Committee on Armed Services of the Senate.

9 **Subtitle D—Matters Relating to the**  
10 **Russian Federation**

11 **SEC. 1231. EXTENSION OF LIMITATION ON MILITARY CO-**  
12 **OPERATION BETWEEN THE UNITED STATES**  
13 **AND THE RUSSIAN FEDERATION.**

14 Section 1232(a) of the National Defense Authoriza-  
15 tion Act for Fiscal Year 2017 (Public Law 114–328; 130  
16 Stat. 2488) is amended by striking “fiscal year 2017” and  
17 inserting “fiscal year 2018”.

18 **SEC. 1232. PROHIBITION ON AVAILABILITY OF FUNDS RE-**  
19 **LATING TO SOVEREIGNTY OF THE RUSSIAN**  
20 **FEDERATION OVER CRIMEA.**

21 (a) PROHIBITION.—None of the funds authorized to  
22 be appropriated by this Act or otherwise made available  
23 for fiscal year 2018 for the Department of Defense may  
24 be obligated or expended to implement any activity that

1 recognizes the sovereignty of the Russian Federation over  
2 Crimea.

3 (b) WAIVER.—The Secretary of Defense, with the  
4 concurrence of the Secretary of State, may waive the re-  
5 striction on the obligation or expenditure of funds required  
6 by subsection (a) if the Secretary—

7 (1) determines that to do so is in the national  
8 security interest of the United States; and

9 (2) submits a notification of the waiver, at the  
10 time the waiver is invoked, to the Committee on  
11 Armed Services and the Committee on Foreign Af-  
12 fairs of the House of Representatives and the Com-  
13 mittee on Armed Services and the Committee on  
14 Foreign Relations of the Senate.

15 **SEC. 1233. STATEMENT OF POLICY ON THE RUSSIAN FED-**  
16 **ERATION.**

17 (a) FINDINGS.—Congress makes the following find-  
18 ings:

19 (1) The Russian Federation, under the leader-  
20 ship of President Vladimir Putin, continues to dem-  
21 onstrate its malign activities to expand its sphere of  
22 influence and undermine international norms and in-  
23 stitutions both regionally and globally, including  
24 through the following activities:

1 (A) An assessment of the United States in-  
2 telligence community stated “. . . Russian  
3 President Vladimir Putin ordered an influence  
4 campaign in 2016 aimed at the U.S. presi-  
5 dential election”, presented in the intelligence  
6 community’s January 6, 2017, declassified re-  
7 port, “Assessing Russian Activities and Inten-  
8 tions in Recent U.S. Elections”.

9 (B) The Russian Federation has interfered  
10 in the April 2017 election and runoff election in  
11 May 2017 of the French Presidential elections.  
12 As confirmed by Admiral Mike Rogers, Director  
13 of the National Security Agency, at a Senate  
14 Committee on Armed Services hearing on May  
15 9, 2017, “If you look at the French elections .  
16 . . we had become aware of Russian activity.”

17 (C) The Russian Federation has threat-  
18 ened stability in their sphere of influence. As  
19 stated by General Curtis M. Scaparrotti, Com-  
20 mander of the United States European Com-  
21 mand, in testimony at a House Committee on  
22 Armed Services hearing on March 28, 2017,  
23 “In the east, a resurgent Russia has turned  
24 from partner to antagonist. Countries along  
25 Russia’s periphery, especially Ukraine and

1 Georgia, are under threat from Moscow's ma-  
2 lign influence and military aggression.”.

3 (D) The Russian Federation has occupied  
4 and attempted to annex Crimea from Ukraine.

5 (E) The Russian Federation has employed  
6 hybrid warfare tactics, including cyber warfare,  
7 electronic warfare, and information warfare to  
8 gain influence. This includes the use of hybrid  
9 tactics in assisting combined Russian-separatist  
10 forces in eastern Ukraine and, in 2008, the  
11 Russian incursion in Georgia.

12 (F) Military intervention in the civil war in  
13 Syria.

14 (2) Both the Secretary of Defense, James  
15 Mattis, and the Chairman of the Joint Chiefs of  
16 Staff, General Joseph Dunford, highlight the Rus-  
17 sian Federation as the number one geo-strategic  
18 threat to the United States.

19 (3) The Government of the Russian Federation  
20 continues its decades' long modernization of its con-  
21 ventional military force with the buildup of large  
22 numbers of professionalized forces on Russia's bor-  
23 ders with Europe, re-establishing military presence  
24 in the Arctic, investment in its nuclear triad, ad-

1 vanced weapons systems, fighter jets, and naval ves-  
2 sels.

3 (4) In June 2016, the Center for Strategic and  
4 International Studies released its report, “Evalu-  
5 ating U.S. Army Force Posture in Europe: Phase  
6 II”, which included the recommendation that an  
7 Armed Brigade Combat Team and a combat aviation  
8 brigade should be permanently assigned to Europe.  
9 The report also recommends additional prepositioned  
10 equipment in Western Europe.

11 (5) In January 2016, the National Commission  
12 on the Future of the Army released its findings and  
13 recommendations, which included Recommendation  
14 14, calling for permanently stationing an Armored  
15 Brigade Combat Team Forward in Europe and Rec-  
16 ommendation 15 calling for the conversion of Army  
17 Europe Aviation Headquarters to a warfighting mis-  
18 sion command.

19 (6) In the National Defense Authorization Act  
20 for Fiscal Year 2015 (Public Law 113–291), the  
21 National Defense Authorization Act for Fiscal Year  
22 2016 (Public Law 114–92), and the National De-  
23 fense Authorization Act for Fiscal Year 2017 (Pub-  
24 lic Law 114–328), Congress authorized approxi-  
25 mately \$5,200,000 for the European Reassurance

1 Initiative, now the European Deterrence Initiative,  
2 to reassure partners and allies and begin building a  
3 credible deterrence to the Russian Federation  
4 through—

5 (A) large increases in conventional re-  
6 sources, including additional rotational deploy-  
7 ments of United States troops and  
8 prepositioning of equipment into Europe; and

9 (B) increased funding for unconventional  
10 warfare resources, including cyber and special  
11 operations forces, and for intelligence and indi-  
12 cators and warnings.

13 (b) STATEMENT OF POLICY.—

14 (1) IN GENERAL.—It is the policy of the United  
15 States to develop, implement, and sustain credible  
16 deterrence against aggression by the Government of  
17 the Russian Federation, in order to enhance regional  
18 and global security and stability.

19 (2) CONDUCT OF POLICY.—The policy described  
20 in paragraph (1) shall, among other things, be car-  
21 ried out through a comprehensive defense strategy  
22 and guidance to outline and resource the necessary  
23 defense capabilities in the European theater. Such  
24 policy shall include the following:

1 (A) Increased United States presence in  
2 Europe through additional permanently sta-  
3 tioned forces.

4 (B) Continued United States presence in  
5 Europe through additional rotational forces.

6 (C) Increased United States prepositioned  
7 military equipment to include logistics enablers  
8 and a division headquarters.

9 (D) Sufficient and necessary infrastructure  
10 additions and improvements throughout the Eu-  
11 ropean theater.

12 (E) Increased investment and priority to  
13 counter unconventional methods of warfare, in-  
14 cluding sufficient cyber warfare resources, in-  
15 formation operations resources, and intelligence  
16 resources.

17 (F) Effective security cooperation re-  
18 sources and opportunities with partners and al-  
19 lies, including NATO member countries.

20 **SEC. 1234. MODIFICATION AND EXTENSION OF UKRAINE SE-**  
21 **CURITY ASSISTANCE INITIATIVE.**

22 Section 1250 of the National Defense Authorization  
23 Act for Fiscal Year 2016 (Public Law 114–92; 129 Stat.  
24 1068), as amended by section 1237 of the National De-

1 fense Authorization Act for Fiscal Year 2017 (Public Law  
2 114–328; 130 Stat. 2494), is further amended—

3 (1) in subsection (c)—

4 (A) in paragraph (1), by striking  
5 “\$175,000,000 of the funds available for fiscal  
6 year 2017 pursuant to subsection (f)(2)” and  
7 inserting “\$75,000,000 of the funds available  
8 for fiscal year 2018 pursuant to subsection  
9 (f)(3)”; and

10 (B) in paragraph (3)—

11 (i) by striking “fiscal year 2017” and  
12 inserting “fiscal year 2018”; and

13 (ii) by striking “\$100,000,000” and  
14 inserting “\$50,000,000”;

15 (2) in subsection (f), by adding at the end the  
16 following:

17 “(3) For fiscal year 2018, \$150,000,000.”; and

18 (3) in subsection (h), by striking “December  
19 31, 2018” and inserting “December 31, 2019”.

20 **SEC. 1235. LIMITATION ON AVAILABILITY OF FUNDS RELAT-**  
21 **ING TO IMPLEMENTATION OF THE OPEN**  
22 **SKIES TREATY.**

23 (a) **LIMITATION ON CONDUCT OF FLIGHTS.—**

24 (1) **IN GENERAL.—**None of the funds author-  
25 ized to be appropriated by this Act or otherwise

1       made available for any fiscal year after fiscal year  
2       2017 for the Department of Defense for operation  
3       and maintenance, Defense-wide, or operation and  
4       maintenance, Air Force, may be obligated or ex-  
5       pended to conduct any flight during such fiscal year  
6       for purposes of implementing the Open Skies Treaty  
7       until the date that is seven days after the date on  
8       which the President submits to the appropriate con-  
9       gressional committees a plan described in paragraph  
10      (2) with respect to such fiscal year.

11           (2) PLAN DESCRIBED.—The plan described in  
12      this paragraph is a plan developed by the Secretary  
13      of Defense, in coordination with the Secretary of  
14      State, the Chairman of the Joint Chiefs of Staff,  
15      and the Director of National Intelligence, that con-  
16      tains a description of the objectives for all planned  
17      flights described in paragraph (1) during such fiscal  
18      year.

19           (3) UPDATE.—To the extent necessary and ap-  
20      propriate, the Secretary of Defense, in coordination  
21      with the Secretary of State, the Chairman of the  
22      Joint Chiefs of Staff, and the Director of National  
23      Intelligence, may update the plan described in para-  
24      graph (2) with respect to a fiscal year and submit

1 the updated plan to the appropriate congressional  
2 committees.

3 (4) APPROPRIATE CONGRESSIONAL COMMIT-  
4 TEES DEFINED.—In this section, the term “appro-  
5 priate congressional committees” means—

6 (A) the congressional defense committees;  
7 and

8 (B) the Select Committee on Intelligence  
9 and Committee on Foreign Relations of the  
10 Senate and the Permanent Select Committee on  
11 Intelligence and the Committee on Foreign Af-  
12 fairs of the House of Representatives.

13 (5) SUNSET.—The requirements of this sub-  
14 section shall terminate on the date that is five years  
15 after the date of the enactment of this Act.

16 (b) PROHIBITION ON ACTIVITIES TO MODIFY  
17 UNITED STATES AIRCRAFT.—None of the funds author-  
18 ized to be appropriated by this Act or otherwise made  
19 available for fiscal year 2018 for research, development,  
20 test, and evaluation, Air Force, for arms control imple-  
21 mentation (PE 0305145F) or procurement, Air Force, for  
22 digital visual imaging system (BA–05, Line Item #1900)  
23 may be obligated or expended to carry out any activities  
24 to modify any United States aircraft for purposes of im-  
25 plementing the Open Skies Treaty.

1       (c) OPEN SKIES TREATY DEFINED.—In this section,  
2 the term “Open Skies Treaty” means the Treaty on Open  
3 Skies, done at Helsinki March 24, 1992, and entered into  
4 force January 1, 2002.

5   **SEC. 1236. SENSE OF CONGRESS ON IMPORTANCE OF NU-**  
6                   **CLEAR CAPABILITIES OF NATO.**

7       (a) FINDINGS.—Congress finds the following:

8           (1) The Warsaw Summit Communique, issued  
9 on July 9, 2016, by the North Atlantic Treaty Orga-  
10 nization (in this section referred to as “NATO”)  
11 clearly defines the need for, and the importance of,  
12 the nuclear mission of NATO.

13          (2) The Warsaw Summit Communique states—

14           (A) with respect to the nuclear deterrence  
15 capability of NATO, “As a means to prevent  
16 conflict and war, credible deterrence and  
17 defence is essential. Therefore, deterrence and  
18 defence, based on an appropriate mix of nu-  
19 clear, conventional, and missile defence capabili-  
20 ties, remains a core element of our overall strat-  
21 egy. . . The fundamental purpose of NATO’s  
22 nuclear capability is to preserve peace, prevent  
23 coercion, and deter aggression. Nuclear weap-  
24 ons are unique. Any employment of nuclear  
25 weapons against NATO would fundamentally

1 alter the nature of a conflict. The cir-  
2 cumstances in which NATO might have to use  
3 nuclear weapons are extremely remote”;

4 (B) with respect to the nature of the nu-  
5 clear deterrence posture of NATO, “NATO  
6 must continue to adapt its strategy in line with  
7 trends in the security environment—including  
8 with respect to capabilities and other measures  
9 required—to ensure that NATO’s overall deter-  
10 rence and defence posture is capable of address-  
11 ing potential adversaries’ doctrine and capabili-  
12 ties, and that it remains credible, flexible, resil-  
13 ient, and adaptable.”; and

14 (C) with respect to the importance of con-  
15 tributions to the nuclear deterrence mission  
16 from across the NATO alliance, “The strategic  
17 forces of the Alliance, particularly those of the  
18 United States, are the supreme guarantee of  
19 the security of the Allies. The independent stra-  
20 tegic nuclear forces of the United Kingdom and  
21 France have a deterrent role of their own and  
22 contribute to the overall security of the Alli-  
23 ance. These Allies’ separate centres of decision-  
24 making contribute to deterrence by compli-  
25 cating the calculations of potential adversaries.

1 NATO's nuclear deterrence posture also relies,  
2 in part, on United States' nuclear weapons for-  
3 ward-deployed in Europe and on capabilities  
4 and infrastructure provided by Allies concerned.  
5 These Allies will ensure that all components of  
6 NATO's nuclear deterrent remain safe, secure,  
7 and effective. That requires sustained leader-  
8 ship focus and institutional excellence for the  
9 nuclear deterrence mission and planning guid-  
10 ance aligned with 21st century requirements.  
11 The Alliance will ensure the broadest possible  
12 participation of Allies concerned in their agreed  
13 nuclear burden-sharing arrangements.”.

14 (3) Secretary of Defense James Mattis, in re-  
15 sponse to the advance policy questions for his Senate  
16 confirmation hearing on January 12, 2017, stated  
17 that—

18 (A) “NATO's nuclear deterrence posture  
19 relies in part on U.S. nuclear weapons forward-  
20 deployed in Europe and on capabilities and in-  
21 frastructure provided by NATO allies. These  
22 capabilities include dual-capable aircraft that  
23 contribute to current burden-sharing arrange-  
24 ments within NATO. In general, we must take  
25 care to maintain this particular capability, and

1 to modernize it appropriately and in a timely  
2 fashion.”; and

3 (B) the role of the nuclear weapons of the  
4 United States is “to deter nuclear war and to  
5 serve as last resort weapons of self-defense. In  
6 this sense, U.S. nuclear weapons are funda-  
7 mental to our nation’s security and have his-  
8 torically provided a deterrent against aggression  
9 and security assurance to U.S. allies. A robust,  
10 flexible, and survivable U.S. nuclear arsenal un-  
11 derpins the U.S. ability to deploy conventional  
12 forces worldwide.”.

13 (4) On March 28, 2017, General Curtis  
14 Scaparrotti, Commander of the United States Euro-  
15 pean Command and the Supreme Allied Com-  
16 mander, Europe, testified to the Committee on  
17 Armed Services of the House of Representatives that  
18 “NATO and U.S. nuclear forces continue to be a  
19 vital component of our deterrence. Our moderniza-  
20 tion efforts are crucial; we must preserve a ready,  
21 credible, and safe nuclear capability.”.

22 (5) The Russian Federation is currently under-  
23 going significant modernization and recapitalization  
24 of all three legs of its nuclear triad, continues to  
25 field and modernize a large variety of non-strategic

1 nuclear weapons, and is developing and deploying  
2 new and unique nuclear capabilities.

3 (6) Russia remains in violation of the INF  
4 Treaty due to the development, testing, and, most  
5 recently, the operational deployment of ground-  
6 launched cruise missiles in violation of the INF  
7 Treaty.

8 (7) On March 28, 2017, General Paul Selva,  
9 Vice Chairman of the Joint Chiefs of Staff, de-  
10 scribed the security consequences of the deployment  
11 of such INF Treaty-violating missiles, testifying to  
12 the Committee on Armed Services of the House of  
13 Representatives that “our assessment of the impact  
14 is that it more threatens NATO and infrastructure  
15 within the European continent than any other...area  
16 of the world that we have national interests in or al-  
17 liance interests in.”.

18 (8) On March 28, 2017, General Curtis  
19 Scaparrotti, in testimony before the Committee on  
20 Armed Services of the House of Representatives, re-  
21 sponded to a question asking if Russia intends to re-  
22 turn to compliance with the INF Treaty by stating,  
23 “I don’t have any indication that they will at this  
24 time.”.

1           (9) Rhetoric from Russian officials has dem-  
2           onstrated that Moscow has sought to leverage its nu-  
3           clear arsenal to threaten and intimidate neighboring  
4           countries, including members of NATO, as was the  
5           case when the Russian Ambassador to Denmark  
6           stated, “Danish warships will be targets for Russian  
7           nuclear missiles” in response to Denmark’s potential  
8           cooperation in the NATO missile defense system.

9           (b) SENSE OF CONGRESS.—It is the sense of Con-  
10          gress that—

11           (1) the nuclear and conventional deterrence ca-  
12           pabilities of NATO are of critical importance to the  
13           security of the United States and of the NATO alli-  
14           ance, and must continue to adapt to the changed se-  
15           curity environment in Europe;

16           (2) the ability of the United States to forward-  
17           deploy dual-capable aircraft and nuclear weapons,  
18           and of select members of NATO to participate in the  
19           nuclear deterrence mission of NATO by hosting for-  
20           ward-deployed nuclear weapons of the United States  
21           or operating dual-capable aircraft, is central to the  
22           credibility of the nuclear deterrence and defense pos-  
23           ture of NATO;

24           (3) the strategic forces of the United States,  
25           the independent nuclear forces of the United King-

1 dom and the French Republic, and the dual-capable  
2 aircraft operated by the United States and other  
3 members of NATO constitute foundational elements  
4 of the nuclear deterrence and defense posture of  
5 NATO;

6 (4) NATO should modernize its nuclear-related  
7 infrastructure to ensure the highest-level of safety  
8 and security;

9 (5) effective deterrence requires NATO to con-  
10 duct nuclear planning and exercises aligned with  
11 21st century requirements and modernize nuclear-re-  
12 lated capabilities and infrastructure, including dual-  
13 capable aircraft, command and control networks,  
14 and facilities; and

15 (6) to ensure the continued credibility of the de-  
16 terrence and defense posture of NATO, the planned  
17 completion of F-35A aircraft development and test-  
18 ing, as well as the delivery of such aircraft to mem-  
19 bers of NATO, must not be delayed.

20 (c) INF TREATY DEFINED.—In this section, the  
21 term “INF Treaty” means the Treaty Between the United  
22 States of America and the Union of Soviet Socialist Re-  
23 publics on the Elimination of Their Intermediate-Range  
24 and Shorter-Range Missiles, commonly referred to as the  
25 “Intermediate- Range Nuclear Forces (INF) Treaty”,

1 signed at Washington December 8, 1987, and entered into  
2 force June 1, 1988.

3 **SEC. 1237. SENSE OF CONGRESS ON SUPPORT FOR GEOR-**  
4 **GIA.**

5 (a) FINDINGS.—Congress finds the following:

6 (1) Georgia is a valued friend of the United  
7 States and has repeatedly demonstrated its commit-  
8 ment to advancing the mutual interests of both  
9 countries, including the deployment of Georgian  
10 forces as part of the NATO-led International Secu-  
11 rity Assistance Force (ISAF) in Afghanistan and the  
12 Multi-National Force in Iraq.

13 (2) The European Deterrence Initiative builds  
14 the partnership capacity of Georgia so it can work  
15 more closely with the United States and NATO, as  
16 well as provide for its own defense.

17 (3) In addition to the European Deterrence Ini-  
18 tiative, Georgia's participation in the NATO initia-  
19 tive Partnership for Peace is paramount to inter-  
20 operability with the United States and NATO, and  
21 establishing a more peaceful environment in the re-  
22 gion.

23 (4) Despite the losses suffered, as a NATO  
24 partner of ISAF, Georgia is engaged in the Resolute

1 Support Mission in Afghanistan with the second  
2 largest contingent on the ground.

3 (b) SENSE OF CONGRESS.—Congress—

4 (1) reaffirms United States support for Geor-  
5 gia’s sovereignty and territorial integrity within its  
6 internationally-recognized borders, and does not rec-  
7 ognize the independence of the Abkhazia and South  
8 Ossetia regions currently occupied by the Russian  
9 Federation; and

10 (2) supports continued cooperation between the  
11 United States and Georgia and the efforts of the  
12 Government of Georgia to provide for the defense of  
13 its people and sovereign territory.

14 **SEC. 1238. SENSE OF CONGRESS ON SUPPORT FOR ESTO-**  
15 **NIA, LATVIA, AND LITHUANIA.**

16 (a) FINDINGS.—Congress finds the following:

17 (1) The Baltic States of Estonia, Latvia, and  
18 Lithuania are highly valued allies of the United  
19 States, and they have repeatedly demonstrated their  
20 commitment to advancing our mutual interests as  
21 well as those of the NATO Alliance.

22 (2) Operation Atlantic Resolve is a series of ex-  
23 ercises and coordinating efforts demonstrating the  
24 United States’ commitment to its European partners  
25 and allies, including the Baltic States of Estonia,

1 Latvia, and Lithuania, with the shared goal of peace  
2 and stability in the region. Operation Atlantic Re-  
3 solve strengthens communication and understanding,  
4 and is an important effort to deter Russian aggres-  
5 sion in the region.

6 (3) Through Operation Atlantic Resolve, the  
7 European Deterrence Initiative undertakes exercises,  
8 training, and rotational presence necessary to reas-  
9 sure and integrate our allies, including the Baltic  
10 States, into a common defense framework.

11 (4) All three Baltic States contributed to the  
12 NATO-led International Security Assistance Force  
13 in Afghanistan, sending disproportionate numbers of  
14 troops and operating with few caveats. The Baltic  
15 States continue to engage in Operation Resolute  
16 Support in Afghanistan.

17 (b) SENSE OF CONGRESS.—Congress—

18 (1) reaffirms its support for the principle of col-  
19 lective defense in Article 5 of the North Atlantic  
20 Treaty for our NATO allies, including Estonia, Lat-  
21 via, and Lithuania;

22 (2) supports the sovereignty, independence, ter-  
23 ritorial integrity, and inviolability of Estonia, Latvia,  
24 and Lithuania as well as their internationally recog-  
25 nized borders, and expresses concerns over increas-

1        ingly aggressive military maneuvering by the Rus-  
2        sian Federation near their borders and airspace;

3            (3) expresses concern over and condemns sub-  
4        versive and destabilizing activities by the Russian  
5        Federation within the Baltic States; and

6            (4) encourages the Administration to further  
7        enhance defense cooperation efforts with Estonia,  
8        Latvia, and Lithuania and supports the efforts of  
9        their Governments to provide for the defense of their  
10       people and sovereign territory.

11 **SEC. 1239. REPORT ON DEFENSE COOPERATION BETWEEN**  
12 **SERBIA AND THE RUSSIAN FEDERATION.**

17       Committees on Foreign Relations of the Senate and the  
18       Committee on Foreign Affairs of the House of Representa-  
19       tives a report on the defense and security relationship be-  
20       tween Serbia and the Russian Federation.

21        (b) MATTERS TO BE INCLUDED.—The report re-  
22       quired under subsection (a) shall include the following:

23            (1) A list of Russian weapons systems and  
24        other military hardware and technology valued at

1       \$1,000,000 or more that have been provided to Ser-  
2       bia since 2012.

3           (2) A description of the participation by Ser-  
4       bian armed forces in Russian military training or ex-  
5       ercises since 2012.

6           (3) A list of any defense and security coopera-  
7       tion agreements between Serbia and Russia entered  
8       into since 2012.

9           (4) An assessment of how the countries bor-  
10      dering Serbia assess the risk the Serbian armed  
11      forces pose to their national security.

12          (5) An assessment of intelligence cooperation  
13      between Serbia and Russia.

14          (6) An assessment of defense and security co-  
15      operation between Serbia and the United States.

16          (7) An assessment of how military relations be-  
17      tween Serbia and Russia affect United States de-  
18      fense and security cooperation with Serbia and co-  
19      operation between Serbia and the North Atlantic  
20      Treaty Organization.

21      (c) FORM.—The report required under subsection (a)  
22      shall be submitted in unclassified form, but may include  
23      a classified annex.

1 **SEC. 1240. PLAN TO RESPOND IN CASE OF RUSSIAN NON-**  
2 **COMPLIANCE WITH THE NEW START TREATY.**

3 (a) IN GENERAL.—Not later than 30 days after the  
4 date of the enactment of this Act, the President shall sub-  
5 mit to the congressional defense committees, the Com-  
6 mittee on Foreign Affairs of the House of Representatives,  
7 and the Committee on Foreign Relations of the Senate  
8 a report—

9 (1) describing the options available in response  
10 to a failure by Russia to achieve the reductions re-  
11 quired by the New START Treaty before February  
12 5, 2018; and

13 (2) including the assessment of the Secretary of  
14 Defense whether such a failure would constitute a  
15 material breach of the New START Treaty, pro-  
16 viding grounds for the United States to withdraw  
17 from the treaty.

18 (b) OPTIONS DESCRIBED.—The report required  
19 under subsection (a) shall specifically describe options to  
20 respond to such a failure relating to the following:

21 (1) Economic sanctions.

22 (2) Diplomacy.

23 (3) Additional deployment of ballistic or cruise  
24 missile defense capabilities, or other United States  
25 capabilities that would offset any potential Russian  
26 military advantage from such a failure.

1           (4) Redeployment of United States nuclear  
2           forces beyond the levels required by the New  
3           START Treaty, and the associated costs and im-  
4           pacts on United States operations.

5           (5) Legal countermeasures available under  
6           other treaties between the United States and Russia,  
7           including under the Treaty on Open Skies, done at  
8           Helsinki March 24, 1992, and entered into force  
9           January 1, 2002.

10          (c) NEW START TREATY.—In this section, the term  
11          “New START Treaty” means the Treaty between the  
12          United States of America and the Russian Federation on  
13          Measures for the Further Reduction and Limitation of  
14          Strategic Offensive Arms, signed at Prague April 8, 2010,  
15          and entered into force February 5, 2011.

16          **Subtitle       E—Intermediate-Range**  
17          **Nuclear Forces (INF) Treaty**  
18          **Preservation Act of 2017**

19          **SEC. 1241. SHORT TITLE.**

20          This subtitle may be cited as the “Intermediate-  
21          Range Nuclear Forces (INF) Treaty Preservation Act of  
22          2017”.

23          **SEC. 1242. FINDINGS.**

24          Congress makes the following findings:

1           (1) The 2014, 2015, and 2016 Department of  
2       State reports entitled, “Adherence to and Compli-  
3       ance with Arms Control, Nonproliferation, and Dis-  
4       armament Agreements and Commitments”, all stat-  
5       ed that the United States has determined that “the  
6       Russian Federation is in violation of its obligations  
7       under the INF Treaty not to possess, produce, or  
8       flight-test a ground-launched cruise missile (GLCM)  
9       with a range capability of 500 km to 5,500 km, or  
10      to possess or produce launchers of such missiles”.

11          (2) The 2016 report also noted that “the cruise  
12      missile developed by Russia meets the INF Treaty  
13      definition of a ground-launched cruise missile with a  
14      range capability of 500 km to 5,500 km, and as  
15      such, all missiles of that type, and all launchers of  
16      the type used or tested to launch such a missile, are  
17      prohibited under the provisions of the INF Treaty”.

18          (3) Potential consistency and compliance con-  
19      cerns regarding the INF Treaty noncompliant  
20      GLCM have existed since 2008, were not officially  
21      raised with the Russian Federation until 2013, and  
22      were not briefed to the North Atlantic Treaty Orga-  
23      nization (NATO) until January 2014.

1           (4) The United States Government is aware of  
2           other consistency and compliance concerns regarding  
3           Russia actions vis-à-vis its INF Treaty obligations.

4           (5) Since 2013, senior United States officials,  
5           including the President, the Secretary of State, and  
6           the Chairman of the Joint Chiefs of Staff, have  
7           raised Russian noncompliance with the INF Treaty  
8           to their counterparts, but no progress has been  
9           made in bringing the Russian Federation back into  
10          compliance with the INF Treaty.

11          (6) In April 2014, General Breedlove, the Su-  
12          preme Allied Commander Europe, correctly stated,  
13          “A weapon capability that violates the INF, that is  
14          introduced into the greater European land mass, is  
15          absolutely a tool that will have to be dealt with . . .  
16          It can’t go unanswered.”.

17          (7) The Department of Defense in its Sep-  
18          tember 2013 report, Report on Conventional Prompt  
19          Global Strike Options if Exempt from the Restric-  
20          tions of the Intermediate-Range Nuclear Forces  
21          Treaty Between the United States of America and  
22          the Union of Soviet Socialist Republics, stated that  
23          it has multiple validated military requirement gaps  
24          due to the prohibitions imposed on the United States  
25          as a result of its compliance with the INF Treaty.

1           (8) It is not in the national security interests  
2           of the United States to be unilaterally legally prohib-  
3           ited from developing dual-capable ground-launched  
4           cruise missiles with ranges between 500 and 5,500  
5           kilometers, while Russia makes advances in devel-  
6           oping and fielding this class of weapon systems, and  
7           such unilateral limitation cannot be allowed to con-  
8           tinue indefinitely.

9           (9) Admiral Harry Harris, Jr., Commander of  
10          the United States Pacific Command, testified before  
11          the Senate Armed Services Committee on April 27,  
12          2017, that “[W]e’re in a multi-polar world where we  
13          have a lot of countries who are developing these  
14          weapons, including China, that I worry about. And  
15          I worry about their DF-21 and DF-26 missile pro-  
16          grams, their anti-carrier ballistic missile programs,  
17          if you will. INF doesn’t address missiles launched  
18          from ships or airplanes, but it focuses on those land-  
19          based systems. I think there’s goodness in the INF  
20          treaty, anything you can do to limit nuclear weapons  
21          writ-large is generally good. But the aspects of the  
22          INF Treaty that limit our ability to counter Chinese  
23          and other countries’ land-based missiles, I think, is  
24          problematic.”.

1           (10) A material breach of the INF Treaty by  
2           the Russian Federation affords the United States  
3           the right to invoke legal countermeasures which in-  
4           clude suspension of the treaty in whole or in part.

5           (11) Article XV of the INF Treaty provides  
6           that “Each Party shall, in exercising its national  
7           sovereignty, have the right to withdraw from this  
8           Treaty if it decides that extraordinary events related  
9           to the subject matter of this Treaty have jeopardized  
10          its supreme interests.”.

11 **SEC. 1243. COMPLIANCE ENFORCEMENT REGARDING RUS-**  
12 **SIAN VIOLATIONS OF THE INF TREATY.**

13          (a) STATEMENT OF UNITED STATES POLICY.—It is  
14 the policy of the United States as follows:

15           (1) The actions undertaken by the Russian  
16 Federation in violation of the INF Treaty constitute  
17 a material breach of the treaty.

18           (2) In light of the Russian Federation’s mate-  
19 rial breach of the INF Treaty, the United States is  
20 legally entitled to suspend the operation of the INF  
21 Treaty in whole or in part for so long as the Russian  
22 Federation continues to be in material breach.

23           (3) For so long as the Russian Federation re-  
24 mains in noncompliance with the INF Treaty, the  
25 United States should take actions to encourage the

1 Russian Federation return to compliance, including  
2 by—

3 (A) providing additional funds for the ca-  
4 pabilities identified in section 1243(d) of the  
5 National Defense Authorization Act for Fiscal  
6 Year 2016 (Public Law 114–92; 129 Stat.  
7 1062); and

8 (B) seeking additional missile defense as-  
9 sets in the European theater to protect United  
10 States and NATO forces from ground-launched  
11 missile systems of the Russian Federation that  
12 are in noncompliance with the INF Treaty.

13 (b) AUTHORIZATION OF ADDITIONAL APPROPRIA-  
14 TIONS.—

15 (1) IN GENERAL.—Of the funds authorized to  
16 be appropriated by this Act for fiscal year 2018 for  
17 research, development, test, and evaluation, as speci-  
18 fied in the funding table in division D, \$50,000,000  
19 shall be made available for—

20 (A) the development of active defenses to  
21 counter ground-launched missile systems with  
22 ranges between 500 and 5,500 kilometers;

23 (B) counterforce capabilities to prevent at-  
24 tacks from these missiles; and

1 (C) countervailing strike capabilities to en-  
2 hance the capabilities of the United States iden-  
3 tified in section 1243(d) of the National De-  
4 fense Authorization Act for Fiscal Year 2016  
5 (Public Law 114–92; 129 Stat. 1062).

6 (2) DEVELOPMENT.—Of the amount authorized  
7 to be appropriated by paragraph (1), \$25,000,000 is  
8 authorized to be appropriated for activities under-  
9 taken to carry out section 1244(a), including with  
10 respect to research and development activities.

11 **SEC. 1244. DEVELOPMENT OF INF RANGE GROUND-**  
12 **LAUNCHED MISSILE SYSTEM.**

13 (a) ESTABLISHMENT OF A PROGRAM OF RECORD.—  
14 The Secretary of Defense shall establish a program of  
15 record to develop a conventional road-mobile ground-  
16 launched cruise missile system with a range of between  
17 500 to 5,500 kilometers.

18 (b) REPORT.—Not later than 120 days after the date  
19 of the enactment of this Act, the Secretary of Defense  
20 shall submit to the congressional defense committees, the  
21 Committee on Foreign Affairs of the House of Representa-  
22 tives, and the Committee on Foreign Relations of the Sen-  
23 ate a report on the cost, schedule, and feasibility to modify  
24 existing and planned missile systems, including the toma-  
25 hawk land attack cruise missile, the standard missile-3,

1 the standard missile-6, and Army tactical missile system  
2 missiles for ground launch with a range of between 500  
3 and 5,500 kilometers in order to provide any of the capa-  
4 bilities identified in section 1243(d) of the National De-  
5 fense Authorization Act for Fiscal Year 2016 (Public Law  
6 114–92; 129 Stat. 1062).

7 **SEC. 1245. NOTIFICATION REQUIREMENT RELATED TO RUS-**  
8 **SIAN FEDERATION DEVELOPMENT OF NON-**  
9 **COMPLIANT SYSTEMS AND UNITED STATES**  
10 **ACTIONS REGARDING MATERIAL BREACH OF**  
11 **INF TREATY BY THE RUSSIAN FEDERATION.**

12 (a) DECLARATION OF POLICY.—Congress declares  
13 that because of the Russian Federation’s violations of the  
14 INF Treaty, including the flight-test, production, and pos-  
15 session of prohibited systems, its actions have defeated the  
16 object and purpose of the INF Treaty, and thus constitute  
17 a material breach of the INF Treaty.

18 (b) NOTIFICATION BY DIRECTOR OF NATIONAL IN-  
19 TELLIGENCE.—

20 (1) IN GENERAL.—The Director of National In-  
21 telligence shall notify the appropriate congressional  
22 committees of any development, deployment, or test  
23 of a system by the Russian Federation that the Di-  
24 rector determines is inconsistent with the INF Trea-  
25 ty.

1           (2) DEADLINE.—A notification under this sub-  
2           section shall be made not later than 15 days after  
3           the date on which the Director makes the determina-  
4           tion under this subsection with respect to which the  
5           notification is required.

6           (c) REPORT BY PRESIDENT.—Not later than 15  
7           months after the date of the enactment of this Act, the  
8           President shall submit to the appropriate congressional  
9           committees a report that contains a determination of the  
10          President of whether the Russian Federation has flight-  
11          tested, produced, or is in possession of a ground-launched  
12          cruise missile or ground-launched ballistic missile with a  
13          range of between 500 and 5,500 kilometers during each  
14          of the three consecutive 120-day periods beginning on the  
15          date of the enactment of this Act.

16          (d) UNITED STATES ACTIONS.—If the determination  
17          of the President contained in the report required to be  
18          submitted under subsection (c) is that the Russian Fed-  
19          eration has flight-tested, produced, or is in possession of  
20          any missile described in subsection (c) during each of the  
21          periods described in subsection (c), the prohibitions set  
22          forth in Article VI of the INF Treaty shall no longer be  
23          binding on the United States as a matter of United States  
24          law.

1 **SEC. 1246. LIMITATION ON AVAILABILITY OF FUNDS TO EX-**  
2 **TEND THE IMPLEMENTATION OF THE NEW**  
3 **START TREATY.**

4 None of the funds authorized to be appropriated or  
5 otherwise made available for fiscal year 2018 for the De-  
6 partment of Defense may be obligated or expended to ex-  
7 tend the implementation of the New START Treaty un-  
8 less the President certifies to the appropriate congres-  
9 sional committees that the Russian Federation has  
10 verifiably eliminated all missiles that are in violation of  
11 or may be inconsistent with the INF Treaty.

12 **SEC. 1247. REVIEW OF RS-26 BALLISTIC MISSILE.**

13 (a) IN GENERAL.—The President, in consultation  
14 with the Secretary of State, the Secretary of Defense, the  
15 Chairman of the Joint Chiefs of Staff, and the Director  
16 of National Intelligence, shall conduct a review of the RS-  
17 26 ballistic missile of the Russian Federation.

18 (b) REPORT REQUIRED.—Not later than 90 days  
19 after the date of the enactment of this Act, the President,  
20 in consultation with the Secretary of State, the Secretary  
21 of Defense, the Chairman of the Joint Chiefs of Staff, and  
22 the Director of National Intelligence, shall submit to the  
23 appropriate congressional committees a report on the re-  
24 view conducted under subsection (a). The report shall in-  
25 clude—

1           (1) a determination whether the RS–26 ballistic  
2       missile is covered under the New START Treaty or  
3       would be a violation of the INF Treaty because Rus-  
4       sia has flight-tested such missile to ranges covered  
5       by the INF Treaty in more than one warhead con-  
6       figuration; and

7           (2) if the President determines that the RS–26  
8       ballistic missile is covered under the New START  
9       Treaty, a determination whether the Russian Fed-  
10      eration—

11           (A) has agreed through the Bilateral Con-  
12           sultative Commission that such a system is lim-  
13           ited under the New START Treaty central lim-  
14           its; and

15           (B) has agreed to an exhibition of such a  
16           system.

17      (c) EFFECT OF DETERMINATION.—If the President,  
18      with the concurrence of the Secretary of State, the Sec-  
19      retary of Defense, the Chairman of the Joint Chiefs of  
20      Staff, and the Director of National Intelligence, deter-  
21      mines that the RS–26 ballistic missile is covered under  
22      the New START Treaty and that the Russian Federation  
23      has not taken the steps described under subsection (b)(2),  
24      the United States Government shall consider for purposes  
25      of all policies and decisions that the RS–26 ballistic mis-

1 sile of the Russian Federation is a violation of the INF  
2 Treaty.

14 **Subtitle F—Fostering Unity**  
 15 **Against Russian Aggression Act**  
 16 **of 2017**

17 **SEC. 1251. SHORT TITLE.**

18 This subtitle may be cited as the “Fostering Unity  
 19 Against Russian Aggression Act of 2017”.

20 **SEC. 1252. FINDINGS AND SENSE OF CONGRESS.**

21 (a) FINDINGS.—Congress finds the following:

22 (1) General Curtis M. Scaparrotti, Commander  
 23 of the United States European Command, testified  
 24 before the House Armed Services Committee on  
 25 March 27, 2017, that “Today we face the most dy-

1        namic European security environment in history.”  
2        and that “Russia’s malign actions are supported by  
3        its diplomatic, information, economic, and military  
4        initiatives.”.

5            (2) The Russian Federation has shifted to a  
6        military doctrine that envisions using nuclear weap-  
7        ons in an attempt to end a failing regional conven-  
8        tional conflict. On June 25, 2015, Deputy Secretary  
9        of Defense Robert Work and then-Vice-Chairman of  
10       the Joint Chiefs of Staff Admiral James Winnefeld  
11       testified before the House Armed Services Com-  
12       mittee that “Russian military doctrine includes what  
13       some have called an ‘escalate to de-escalate’ strat-  
14       egy—a strategy that purportedly seeks to deescalate  
15       a conventional conflict through coercive threats, in-  
16       cluding limited nuclear use. We think that this label  
17       is dangerously misleading. Anyone who thinks they  
18       can control escalation through the use of nuclear  
19       weapons is literally playing with fire. Escalation is  
20       escalation, and nuclear use would be the ultimate es-  
21       calation.”.

22            (3) General Scaparrotti noted in his March 27,  
23        2017, testimony before the House Armed Services  
24        Committee that “Moscow’s provocative rhetoric and

1 nuclear threats increase the likelihood of misunder-  
2 standing and miscalculation.”.

3 (4) The Russian Federation continues to con-  
4 duct ongoing influence campaigns aimed at under-  
5 mining democracies around the world. According to  
6 an assessment by the intelligence community, “Rus-  
7 sian President Vladimir Putin ordered an influence  
8 campaign in 2016 aimed at the U.S. presidential  
9 election”, which included the use of the Russian  
10 military intelligence organization. The intelligence  
11 community also assessed that Russia would apply  
12 lessons learned to future influence efforts worldwide,  
13 including against United States allies and their elec-  
14 tion systems.

15 (5) The Russian Federation continues its ag-  
16 gression on its periphery. In 2008, the Russian Fed-  
17 eration fomented conflict in Georgia. Further, the  
18 Russian Federation is directing combined Russian-  
19 Separatist units in eastern Ukraine, actively inciting  
20 violence and prolonging the most significant conflict  
21 in Europe.

22 (6) The investment of over \$5 billion in the Eu-  
23 ropean Reassurance Initiative (ERI), now the Euro-  
24 pean Deterrence Initiative (EDI), has proven suc-  
25 cessful in significantly enhancing the ability of

1 United States forces, NATO allies, and regional  
2 partners to deter Russian aggression. EDI has not  
3 only assured our European allies and partners but  
4 supported essential investments in NATO's military  
5 capacity, interoperability, and agility.

6 (b) SENSE OF CONGRESS.—It is the sense of Con-  
7 gress that—

8 (1) the risks of miscalculation in a crisis are ex-  
9 acerbated by the Russian Federation's shift to a  
10 military doctrine of “escalate to de-escalate”, low-  
11 ering the threshold for Russian use of nuclear weap-  
12 ons and thereby increasing the risk of using nuclear  
13 weapons, potentially escalating in to a massive nu-  
14 clear exchange;

15 (2) subversive and destabilizing activities by the  
16 Russian Federation targeting NATO allies and part-  
17 ners causes concern and should be condemned;

18 (3) European Deterrence Initiative (EDI) in-  
19 vestments are long-term and, as such, Congress ex-  
20 pects future budgets to reflect United States com-  
21 mitment by planning for funding in the base budget,  
22 and further EDI should build on United States pres-  
23 ence by increasing the United States permanent  
24 force posture; and

1           (4) credible deterrence requires steadfast co-  
2           operation and joint action with NATO allies and  
3           partners and other United States allies and partners  
4           in Europe.

5   **SEC. 1253. STRATEGY TO COUNTER THREATS BY THE RUS-**

4 plements the National Defense Strategy and  
5 the National Military Strategy.

8 (E) A discussion of the strategy's objec-

14 strategy.

16 presence, and readiness requirements inherent  
17 to the strategy.

24 source requirements needed to implement and

1 sustain the strategy through December 31,  
2 2030.

7 (3) FORM.—The report required by this sub-  
8 section shall be submitted in unclassified form but  
9 may contain a classified annex.

10 **SEC. 1254. STRATEGY TO INCREASE CONVENTIONAL PRECI-**  
11 **SION STRIKE WEAPON STOCKPILES IN THE**  
12 **UNITED STATES EUROPEAN COMMAND'S**  
13 **AREAS OF RESPONSIBILITY.**

14 (a) STRATEGY REQUIRED.—

15 (1) IN GENERAL.—The Secretary of Defense, in  
16 coordination with the Secretary of State, shall de-  
17 velop and implement a strategy to increase conven-  
18 tional precision strike weapon stockpiles in the  
19 United States European Command's areas of re-  
20 sponsibility.

21 (2) ELEMENTS.—The strategy required by this  
22 subsection shall include necessary increases in the  
23 quantities of such stockpiles that the Secretary de-  
24 termines will enhance deterrence and warfighting ca-

1 pability of the North Atlantic Treaty Organization  
2 forces.

3 (b) REPORT REQUIRED.—

4 (1) IN GENERAL.—Not later than April 1,  
5 2018, the Secretary of Defense shall submit to the  
6 appropriate congressional committees a report on  
7 the strategy required by subsection (a).

8 (2) FORM.—The report required by this sub-  
9 section shall be submitted in unclassified form but  
10 may contain a classified annex.

11 **SEC. 1255. PLAN TO COUNTER THE MILITARY CAPABILITIES**  
12 **OF THE RUSSIAN FEDERATION.**

13 (a) PLAN REQUIRED.—

14 (1) IN GENERAL.—The Secretary of Defense  
15 shall develop and implement a plan to counter the  
16 military capabilities of the Russian Federation.

17 (2) ELEMENTS.—The plan required by this  
18 subsection shall include the following:

19 (A) Accelerating programs to improve the  
20 capability of United States military forces to  
21 operate in a Global Positioning System (GPS)-  
22 denied or GPS-degraded environment.

23 (B) Accelerating programs of the Depart-

4           and hybrid threats from the Russian Federa-

13          (2) FORM.—The report required by this sub-  
14          section shall be submitted in unclassified form but  
15          may contain a classified annex.

16       (c) SENSE OF CONGRESS.—It is the sense of Con-  
17       gress that concerns persist over the growing sophistication  
18       of unconventional and hybrid state-sponsored threats by  
19       the Russian Federation as demonstrated through its ad-  
20       vancement and integration of conventional warfare, eco-  
21       nomic warfare, cyber and information operations, intel-  
22       ligence operations, and other activities to undermine  
23       United States national security objectives.

1 **SEC. 1256. PLAN TO INCREASE CYBER AND INFORMATION**  
2 **OPERATIONS, DETERRENCE, AND DEFENSE.**

3 (a) PLAN.—The Secretary of Defense and the Sec-

6 within larger United States joint planning exercises  
7 in the European region;

9 mation operations and strategic communication  
10 strategies to counter Russian Federation informa-

18 date of the enactment of this Act, the Secretary of Defense  
19 shall provide to the appropriate congressional committees  
20 a briefing on the plan required under subsection (a).

21 **SEC. 1257. SENSE OF CONGRESS ON ENHANCING MARITIME**  
22 **CAPABILITIES.**

23 Congress notes the 2016 Force Structure Assessment  
24 (FSA) that increased the requirement for fast attack sub-  
25 marine (SSN) from 48 to 66 and supports an acquisition

1 plan that enhances maritime capabilities that address this  
2 requirement.

3 **SEC. 1258. PLAN TO REDUCE THE RISKS OF MISCALCULA-**  
4 **TION AND UNINTENDED CONSEQUENCES**  
5 **THAT COULD PRECIPITATE A NUCLEAR WAR.**

6 (a) FINDINGS.—Congress finds that—

7 (1) the Russian Federation has adopted a dan-  
8 gerous nuclear doctrine that includes a strategy of  
9 “escalate to de-escalate”, which could lower the  
10 threshold for Russian use of nuclear weapons in a  
11 regional conflict; and

12 (2) such nuclear doctrine exacerbates the risks  
13 of miscalculation and unintended consequences that  
14 could precipitate a nuclear war.

15 (b) PLAN REQUIRED.—

16 (1) IN GENERAL.—Not later than March 1,  
17 2018, the Secretary of Defense, in coordination with  
18 the Chairman of the Joint Chief of Staff, the Com-  
19 mander of the United States Strategic Command,  
20 and the Commander of the United States European  
21 Command, shall submit to the congressional defense  
22 committees a plan that includes options to reduce  
23 the risk of miscalculation and unintended con-  
24 sequences that could precipitate a nuclear war.

1           (2) ELEMENTS.—The plan required under this  
2 subsection shall include—

3                   (A) an assessment of the value of military-  
4 to-military dialog to reduce such risk; and

5                   (B) any other recommendations the Sec-  
6 retary determines to be appropriate.

20 **Indo-Asia-Pacific Region**

21 **SEC. 1261. SENSE OF CONGRESS ON THE INDO-ASIA-PA-**  
22 **CIFIC REGION.**

23       It is the sense of Congress that—

1           (1) the security, stability, and prosperity of the  
2       Indo-Asia-Pacific region are vital to the national in-  
3       terests of the United States;

4           (2) the United States should maintain a mili-  
5       tary capability in the region that is able to project  
6       power, deter acts of aggression, and respond, if nec-  
7       essary, to regional threats;

8           (3) continuing efforts by the Department of De-  
9       fense to realign forces, commit additional assets, and  
10      increase investments to the Indo-Asia-Pacific region  
11      are necessary to maintain a robust United States  
12      commitment to the region;

13          (4) the Secretary of Defense should—

14                (A) assess the current United States force  
15                posture in the Indo-Asia-Pacific region to en-  
16                sure that the United States maintains an ap-  
17                propriate forward presence in the region;

18                (B) invest in critical munitions, undersea  
19                warfare capabilities, amphibious capabilities, re-  
20                silient space architectures, missile defense, of-  
21                fensive and defensive cyber capabilities, and  
22                other capabilities conducive to operating effec-  
23                tively in contested environments; and

24                (C) enhance regional force readiness  
25                through joint training and exercises, consid-

1           ering contingencies ranging from grey zone to  
2           high-end near-peer conflict; and

3           (5) the United States should continue to engage  
4           in the Indo-Asia-Pacific region by strengthening alli-  
5           ances and partnerships, supporting regional institu-  
6           tions and bodies such as the Association of South-  
7           east Asian Nations (ASEAN), building cooperative  
8           security arrangements, addressing shared challenges,  
9           and reinforcing the role of international law, includ-  
10          ing respect for human rights.

11 **SEC. 1262. REPORT ON STRATEGY TO PRIORITIZE UNITED**  
12 **STATES DEFENSE INTERESTS IN THE INDO-**  
13 **ASIA-PACIFIC REGION.**

14          (a) REQUIRED REPORT.—Not later than February 1,  
15 2018, the Secretary of Defense, in consultation with the

6 in the Indo-Asia-Pacific region regarding secu-  
7 rity challenges posed by China;

8               (C) the primary objectives and priorities  
9 for combating terrorism in the Indo-Asia-Pa-

15 tives and priorities.

16           (5) Actions the Department of Defense could  
17 take, in cooperation with other Federal departments  
18 or agencies, to advance United States national secu-

2 through the Director of the Office of Management and  
3 Budget, shall ensure that the annual budget submitted to  
4 Congress under section 1105 of title 31, United States  
5 Code, clearly highlights programs and projects that are  
6 being funded in the annual budget of the United States  
7 Government that relate to the strategy referred to in sub-  
8 section (a).

9       (d) REPEAL.—Section 1251 of the Carl Levin and  
10 Howard P. “Buck” McKeon National Defense Authoriza-  
11 tion Act for Fiscal Year 2015 (Public Law 113–291; 128  
12 Stat. 3570) is hereby repealed.

13 **SEC. 1263. ASSESSMENT OF UNITED STATES FORCE POS-**

23 graph (1) shall be submitted in unclassified form,  
24 but may contain a classified annex.

1 **SEC. 1264. EXTENDED DETERRENCE COMMITMENT TO THE**  
2 **ASIA-PACIFIC REGION.**

3 (a) FINDINGS.—Congress finds the following:

4 (1) The 2010 Nuclear Posture Review re-  
5 affirmed the commitment of the United States to ex-  
6 tended deterrence and continued protection of the  
7 treaty allies of the United States under the United  
8 States nuclear umbrella.

9 (2) The United States-Republic of Korea Deter-  
10 rence Strategy Committee and the United States-  
11 Japan Extended Deterrence Dialogue provide valu-  
12 able communication channels for ensuring the com-  
13 mitment of the United States to the policy of ex-  
14 tended nuclear deterrence and allow for bilateral dis-  
15 cussions on how United States capabilities can be le-  
16 veraged to credibly deter, and if necessary, defeat,  
17 North Korean nuclear weapons, weapons of mass de-  
18 struction, and missile threats and aggression.

19 (3) Statements by officials of the United States  
20 have consistently emphasized the United States com-  
21 mitment to providing extended deterrence and de-  
22 fense across the full spectrum of military capabili-  
23 ties, including nuclear capabilities.

24 (4) On September 9, 2016, President Obama  
25 responded to a North Korean nuclear test by issuing  
26 the following statement, “I restated to President

1 Park and Prime Minister Abe the unshakable U.S.  
2 commitment to take necessary steps to defend our  
3 allies in the region, including through our deploy-  
4 ment of a Terminal High Altitude Area Defense  
5 (THAAD) battery to the ROK, and the commitment  
6 to extended deterrence, guaranteed by the full spec-  
7 trum of U.S. defense capabilities.”.

8 (5) On October 14, 2016, Chairman of the  
9 Joint Chiefs of Staff, General Joseph Dunford, “re-  
10 affirmed the ironclad commitment of the U.S. to de-  
11 fend both the ROK and Japan and provide extended  
12 deterrence guaranteed by the full spectrum of U.S.  
13 military capabilities, including conventional, nuclear,  
14 and missile defense capabilities”.

15 (6) On October 19, 2016, Secretary of Defense  
16 Ashton Carter, stated, “the U.S. commitment to the  
17 defense of South Korea is unwavering. This includes  
18 our commitment to provide extended deterrence,  
19 guaranteed by the full spectrum of U.S. defense ca-  
20 pabilities. Make no mistake: Any attack on America  
21 or our allies will not only be defeated, but any use  
22 of nuclear weapons will be met with an over-  
23 whelming and effective response.”.

24 (7) On October 19, 2016, Secretary of State  
25 John Kerry, during a joint press conference with the

1 South Korean Foreign Minister, confirmed the  
2 United States would “defend South Korea through  
3 a robust combined defense posture and through ex-  
4 tended deterrence, including the US nuclear um-  
5 brella, conventional strike and missile defense capa-  
6 bilities.”.

7 (8) On February 3, 2017, Secretary of Defense  
8 James Mattis, during a visit to South Korea, stated,  
9 “America’s commitments to defending our allies and  
10 to upholding our extended deterrence guarantees re-  
11 main ironclad: Any attack on the United States, or  
12 our allies, will be defeated, and any use of nuclear  
13 weapons would be met with a response that would  
14 be effective and overwhelming.”.

15 (b) SENSE OF CONGRESS.—It is the sense of Con-  
16 gress that—

17 (1) the defense of the Republic of Korea and  
18 Japan must remain a top priority for the adminis-  
19 tration;

20 (2) the United States maintains an unwavering  
21 and steadfast commitment to the policy of extended  
22 deterrence, especially with respect to South Korea  
23 and Japan;

17 (1) The Democratic People’s Republic of Korea,  
18 also known as North Korea, continues to develop a

20 that poses a grave threat to the United States,  
21 United States allies the Republic of Korea, Japan,  
22 and Australia, and to regional and global security.

24 and number of its ballistic missile launches, and to  
25 date has conducted five nuclear tests.

1           (3) On July 4, 2017, North Korea conducted  
2           the first test of an intercontinental ballistic missile  
3           (ICBM) it claims is capable of reaching United  
4           States territory, which, if reliable and effective, con-  
5           stitutes a new threat to America’s security.

6           (4) On June 3, 2017, Secretary of Defense  
7           James Mattis stated, during remarks at the  
8           Shangri-La Dialogue, that “the current North Korea  
9           program signals a clear intent to acquire nuclear  
10          armed ballistic missiles, including those of inter-  
11          continental range that pose direct and immediate  
12          threats to our allies, our partners and all the world”.

25               siles;

1           (2) the development of a functional and oper-  
2           ational North Korean nuclear and intercontinental  
3           ballistic missile program constitutes a threat to the  
4           security of the United States and to our allies and  
5           partners in the region;

6           (3) the defense of the United States and our al-  
7           lies against North Korean aggression remains a top  
8           priority, and the United States maintains an unwav-  
9           ering and steadfast commitment to the policy of ex-  
10          tended deterrence, especially with respect to South  
11          Korea and Japan;

12          (4) the United States supports the deployment  
13          of the Terminal High Altitude Area Defense  
14          (THAAD) system in South Korea to counter North  
15          Korea's missile threat and the deployment of bal-  
16          listic missile defense systems to allies in the Indo-  
17          Asia-Pacific region to protect from the growing  
18          threat of North Korea's nuclear weapons and bal-  
19          listic missile programs;

20          (5) the United States should encourage further  
21          multilateral security cooperation and dialogue among  
22          South Korea, Japan, and Australia to address the  
23          North Korea threat;

24          (6) the United States calls upon the People's  
25          Republic of China to use its leverage to pressure

1 North Korea to cease its provocative behavior and  
2 abandon and dismantle its nuclear and ballistic mis-  
3 sile programs, and comply with all relevant United  
4 Nations Security Council resolutions;

5 (7) the United States should fully enforce all  
6 existing sanctions on North Korea and undertake a  
7 comprehensive diplomatic effort to urge allies and  
8 other countries to fully enforce, and build upon, ex-  
9 isting international sanctions; and

10 (8) the United States should retain diplomatic,  
11 economic, and military options to defend against and

2 **TREATY ORGANIZATION.**

3 (a) FINDINGS.—Congress finds the following:

4 (1) The North Atlantic Treaty Organization  
5 (NATO) has been the cornerstone of transatlantic  
6 security cooperation and an enduring instrument for  
7 promoting stability in Europe and around the world  
8 for over 65 years.

9 (2) NATO currently faces a range of security  
10 challenges, including Russian aggression in Eastern  
11 Europe and instability and conflict in the Middle  
12 East and North Africa.

13 (3) In light of these and other threats, NATO  
14 must have a credible deterrence to defend NATO  
15 members, if necessary, against adversaries or  
16 threats.

17 (4) Since the 2014 NATO summit in Wales and  
18 the 2016 summit in Warsaw, NATO has made  
19 progress in implementing a Readiness Action Plan  
20 to enhance allied readiness and collective defense in  
21 response to Russian aggression. However, much  
22 work remains to be done.

23 (5) NATO's solidarity is strengthened by bol-  
24 stering its conventional and nuclear deterrence, in-  
25 creasing defense spending by NATO members, and  
26 continuing the enlargement of NATO.

1 (b) SENSE OF CONGRESS.—It is the sense of Con-  
2 gress that—

3 (1) NATO members should—

8 are seeking to join NATO to prepare for entry;

19 (G) implement specific plans to ensure that  
20 sufficient investments are made to meet NATO  
21 responsibilities, including by allocating at least  
22 2 percent of each member’s gross domestic  
23 product to defense spending, 20 percent of  
24 which should be dedicated to major equipment  
25 procurement, as agreed at the 2014 Wales

1 Summit and reaffirmed at the 2016 Warsaw  
2 Summit;

3 (H) continue to build on efforts to identify  
4 and address, through consensus, the security  
5 threats facing the alliance, such as by enhance-  
6 ing counterterrorism activities;

7 (I) continue to bolster deterrence efforts  
8 and promote the Enhanced Forward Presence  
9 in Eastern Europe;

10 (J) as decided at the 2016 Warsaw Sum-  
11 mit, use the new rotational deployments of four  
12 multinational combat battalions in Poland,  
13 Lithuania, Latvia, and Estonia to promote sta-  
14 bility in that region as well as to deter Russian  
15 aggression; and

16 (K) invest in infrastructure projects nec-  
17 essary to guarantee free and efficient movement  
18 throughout the territories of NATO members;  
19 and

20 (2) the United States should commit to main-  
21 taining a robust military presence in Europe as a  
22 means of promoting allied interoperability, providing  
23 visible assurance to NATO allies, and deterring Rus-  
24 sian aggression in the region.

22 (a) FINDINGS.—Congress finds the following:

23 (1) . The members of Jama’atu Ahlis Sunna  
24 Lidda’awati wal-Jihad, commonly known as Boko  
25 Haram, have terrorized the people of Nigeria with

1 increasing violence since 2009, targeting military,  
2 government, and civilian sites in Nigeria, including  
3 schools, mosques, churches, markets, villages, and  
4 agricultural centers, and killing thousands and ab-  
5 ducting hundreds of civilians in Nigeria and the sur-

9 were abducted by Boko Haram from the Chibok

12 lic of Nigeria.

13 (3) While some Chibok girls have fled their cap-

13 tives have both passed legislation and undertaken  
14 other initiatives to condemn Boko Haram and sup-  
15 port the Chibok schoolgirls.

16 (8) In addition to legislation, members of Con-  
17 gress have traveled to Nigeria to meet with freed  
18 Chibok schoolgirls and their families, held briefings,  
19 press conferences, and hearings, and, every week

21 Something Red Wednesday, a bipartisan campaign  
22 led by Democratic Leader Nancy Pelosi, Republican  
23 Conference Chair Cathy McMorris Rodgers, and  
24 Congresswoman Frederica Wilson, during which law-  
25 makers wear a red outfit or accessory and take

1 group photos to share on social media to raise  
2 awareness about the kidnapped Chibok schoolgirls.

3 (9) The 114th Congress unanimously passed S.  
4 1632, which President Barack Obama signed into  
5 law on December 14, 2016, to direct the Secretary

13      (b) PLAN.—The Secretary of Defense shall develop  
14      a plan to—

14 (b) ELEMENTS.—The report under subsection (a)  
15 shall include, with respect to any decision to terminate the  
16 dual-hat arrangement as described in section 1642 of the  
17 National Defense Authorization Act for Fiscal Year 2017

15   **SEC. 1656. STRATEGY FOR THE OFFENSIVE USE OF CYBER**  
16                           **CAPABILITIES.**

17       (a) FINDINGS.—

18           (1) The North Atlantic Treaty Organization  
19       (commonly known as “NATO”) remains a critical  
20       alliance for the United States and a cost-effective,  
21       flexible means of providing security to the most im-  
22       portant allies of the United States.

23           (2) The regime of Russian President Vladimir  
24       Putin is actively working to erode democratic sys-

1        tems of NATO member states, including the United  
2        States.

3            (3) According to the report of the Office of the  
4        Director of National Intelligence dated January 6,  
5        2017, on the Russian Federation’s hack of the  
6        United States presidential election: “Russian efforts  
7        to influence the 2016 presidential election represent  
8        the most recent expression of Moscow’s longstanding  
9        desire to undermine the US-led liberal democratic  
10       order.”.

11           (4) As recently as May 4, 2017, the press re-  
12       ported a massive cyber hack of French President  
13       Emmanuel Macron’s campaign, likely attributable to  
14       Russian actors.

15           (5) It is in the core interests of the United  
16       States to enhance the offensive and defensive cyber  
17       capabilities of NATO member states to deter and  
18       defend against Russian cyber and influence oper-  
19       ations.

20           (6) Enhanced offensive cyber capabilities would  
21       enable the United States to demonstrate strength  
22       and deter the Russian Federation from threatening  
23       NATO, while reassuring allies, without a provocative  
24       buildup of conventional military forces.

1       (b) SENSE OF CONGRESS ON CYBER STRATEGY OF  
2 THE DEPARTMENT OF DEFENSE.—It is the sense of Con-  
3 gress that —

4           (1) the Secretary of Defense should update the  
5 cyber strategy of the Department of Defense (as  
6 that strategy is described in the Department of De-  
7 fense document titled “The Department of Defense  
8 Cyber Strategy” dated April 15, 2015); and

9           (2) in updating the cyber strategy of the De-  
10 partment, the Secretary should—

11           (A) specifically develop an offensive cyber  
12 strategy that includes plans for the offensive  
13 use of cyber capabilities, including computer  
14 network exploitation and computer network at-  
15 tacks, to thwart air, land, or sea attacks by the  
16 regime of Russian President Vladimir Putin  
17 and other adversaries;

18           (B) provide guidance on integrating offen-  
19 sive tools into the cyber arsenal of the Depart-  
20 ment; and

21           (C) assist NATO partners, through the  
22 NATO Cooperative Cyber Center of Excellence  
23 and other entities, in developing offensive cyber  
24 capabilities.

1       (c) STRATEGY FOR OFFENSIVE USE OF CYBER CA-  
2 PABILITIES.—

3           (1) STRATEGY REQUIRED.—The President shall  
4       develop a written strategy for the offensive use of  
5       cyber capabilities by departments and agencies of the

7           (2) ELEMENTS.—The strategy developed under  
8       paragraph (1) shall include, at minimum—

9           (A) a description of enhancements that are

11       ties of the United States and partner nations,  
12       including NATO member states; and

13          (B) a statement of principles concerning  
14       the appropriate deployment of offensive cyber  
15       capabilities.

16          (3) SUBMISSION TO CONGRESS.—

17          (A) IN GENERAL.—Not later than 180

20       sional defense committees (as that term is de-  
21       fined in section 101(a)(16) of title 10, United  
22       States Code) the strategy developed under para-  
23       graph (1).

2 submitted under subparagraph (A) may be sub-  
3 mitted in classified form.

6 SISTANCE.—The President, acting through the Sec-  
7 retary of Defense and with the concurrence of the  
8 Secretary of State, is authorized to provide technical  
9 assistance to NATO member states to assist such  
10 states in developing and enhancing offensive cyber  
11 capabilities.

12 (2) TECHNICAL EXPERTS.—In providing tech-  
13 nical assistance under paragraph (1), the President,  
14 acting through the NATO Cooperative Cyber Center  
15 of Excellence, may detail technical experts in the  
16 field of cyber operations to NATO member states.

17 (3) RULE OF CONSTRUCTION.—Nothing in this  
18 section shall be construed to preclude or limit the  
19 authorities of the President or the Secretary of De-  
20 fense to provide cyber-related assistance to foreign  
21 countries, including the authority of the Secretary to  
22 provide such assistance under section 333 of title  
23 10, United States Code.

4 CEPT.—The Secretary of the Air Force may not award  
5 a contract for engineering and manufacturing development  
6 for the ground-based strategic deterrent program that  
7 would result in a command and control concept for such  
8 program that consists of less than 15 fixed launch control  
9 centers per missile wing unless the Commander of the  
10 United States Strategic Command—

11 (1) determines that—

12 (A) the plans of the Secretary for a com-  
13 mand and control concept consisting of less  
14 than 15 fixed launch control centers per missile  
15 wing are appropriate, meet requirements, and

17 (B) the risks to schedules and costs from  
18 such concept are minimized and manageable;

17 contracts for the ground-based strategic deterrent pro-  
18 gram.

19 **SEC. 1669. PROCUREMENT AUTHORITY FOR CERTAIN**  
20 **PARTS OF INTERCONTINENTAL BALLISTIC**  
21 **MISSILE FUZES.**

22 (a) AVAILABILITY OF FUNDS.—Notwithstanding sec-  
23 tion 1502(a) of title 31, United States Code, of the

25 by section 101 and available for Missile Procurement, Air

1 Force, as specified in the funding table in division D,  
2 \$6,334,000 shall be available for the procurement of cov-  
3 ered parts pursuant to contracts entered into under sec-  
4 tion 1645(a) of the Carl Levin and Howard P. “Buck”  
5 McKeon National Defense Authorization Act for Fiscal

8 term “covered parts” means commercially available off-  
9 the-shelf items as defined in section 104 of title 41, United  
10 States Code.

11 **SEC. 1670. SENSE OF CONGRESS ON IMPORTANCE OF INDE-**  
12 **PENDENT NUCLEAR DETERRENT OF UNITED**  
13 **KINGDOM.**

14 It is the sense of Congress that—

15 (1) nuclear deterrence is foundational to the de-  
16 fense and security of the United States and the se-  
17 curity of the United States is enhanced by a nuclear-  
18 armed ally with common values and security prior-  
19 ities;

20 (2) the United States sees the nuclear deterrent  
21 of the United Kingdom as central to transatlantic  
22 security and welcomes the commitment of the  
23 United Kingdom to the North Atlantic Treaty Orga-  
24 nization (NATO) to continue to spend two percent  
25 of gross domestic product on defense;

1           (3) in the face of increasing threats, the pres-  
2           ence of credible nuclear deterrent forces of the  
3           United Kingdom is essential to international sta-  
4           bility and for NATO;

5           (4) the commitment of the United Kingdom to  
6           sustaining an independent nuclear deterrent, de-  
7           ployed continuously at sea, provides a vital second  
8           decision-making point within the deterrent capability  
9           of NATO, creating essential uncertainty in the mind  
10          of any potential adversary;

11          (5) the United States Navy must continue to  
12          execute the Columbia-class submarine program on  
13          time and within budget to ensure that the sea-based  
14          leg of the nuclear triad of the United States is sus-  
15          tained and the program delivers a Common Missile  
16          Compartment, the Trident II (D5) Strategic Weap-  
17          on System, and associated equipment and produc-  
18          tion capabilities, to support the successful develop-  
19          ment and deployment of the Dreadnought sub-  
20          marines of the United Kingdom;

21          (6) the support that the United Kingdom pro-  
22          vides to deployments of strategic ships and aircraft  
23          of the United States at specialized facilities enables  
24          a vital part of the deterrence posture of the United  
25          States as well as mutual deterrence of adversaries

1 and assurance to the allies and partners of the  
2 United States; and

3 (7) the collaboration of the United Kingdom  
4 with the United States on the military use of atomic  
5 energy ensures a peer in the technology and science  
6 of nuclear weapons and provides independent expert  
7 peer review of the nuclear programs of the United  
8 States, ensuring resilience, and cost effectiveness to  
9 the nuclear defense programs of both nations.

10 **SEC. 1671. PROHIBITION ON AVAILABILITY OF FUNDS FOR**

17 mobile variant of the ground-based strategic deterrent  
18 missile.

19 (b) CONFORMING REPEAL.—Section 1664 of the Na-  
20 tional Defense Authorization Act for Fiscal Year 2017  
21 (Public Law 114–328; 130 Stat. 2615) is repealed.

22 **SEC. 1672. REPORT ON IMPACTS OF NUCLEAR PROLIFERA-**  
23 **TION.**

24 (a) SENSE OF CONGRESS.—It is the sense of Con-  
25 gress that—

1           (1) nuclear proliferation continues to be a seri-  
2           ous threat to the security of the United States;

3           (2) it is critical for the United States to under-  
4           stand the impacts of nuclear proliferation and en-  
5           sure the necessary policies and resources are in place  
6           to prevent the proliferation of nuclear materials and  
7           weapons;

8           (3) effectively addressing the danger of states  
9           and non-state actors acquiring nuclear weapons or  
10          nuclear-weapons-usable material should be a clear  
11          priority for United States national security; and

12          (4) Secretary of Defense James Mattis testified  
13          before Congress on June 12, 2017, that “nuclear  
14          nonproliferation has not received enough attention  
15          over quite a few years”.

19          port containing—

20                (1) a description of the impacts of nuclear pro-  
21                liferation on the security of the United States;

22                (2) a description of how the Department of De-  
23                fense is contributing to the current strategy to re-  
24                spond to the threat of nuclear proliferation, and

1        what resources are being applied to this effort, in-  
2        cluding whether there are any funding gaps; and

3            (3) if and how nuclear proliferation is being ad-  
4        dressed in the Nuclear Posture Review and other  
5        pertinent strategy reviews.

2 **FENSE CAPACITY OF THE ARMY.**

3 (a) LIMITATION.—None of the funds authorized to  
4 be appropriated by this Act or otherwise made available  
5 for fiscal year 2018 or any fiscal year thereafter for the  
6 Army may be obligated or expended to demilitarize any  
7 GEM–T interceptor or remove any such interceptor from

13 Staff of the Army shall jointly conduct an evaluation of  
14 the ability of the Army to meet warfighter requirements  
15 and operational needs if GEM–T interceptors are removed  
16 from the operational inventory of the Army. In conducting  
17 such evaluation, the Secretary and the Chief of Staff shall  
18 evaluate whether the Army can maintain an inventory of  
19 interceptors necessary to retain the capability provided by  
20 GEM–T interceptors and to meet such operational needs  
21 by either—

22 (1) recertifying GEM–T interceptors (either  
23 with or without modification); or

24 (2) developing, testing, and fielding a new low-

7        tion, the term “GEM–T interceptor” means the Patriot  
8        guidance enhanced missile TBM.

10        **MISSILE DEFENSE SENSOR.**

11        (a) APPROVAL OF ACQUISITION STRATEGY.—

12                (1) IN GENERAL.—Not later than April 15,  
13        2018, the Secretary of the Army shall issue an ac-  
14        quisition strategy for a 360-degree lower tier air and  
15        missile defense sensor that achieves initial operating  
16        capability by not later than January 1, 2022.

17                (2) REQUIREMENTS.—The acquisition strategy  
18        under paragraph (1) shall—

19                        (A) ensure the use of competitive proce-  
20        dures;

21                        (B) clearly describe the open-architecture  
22        design to be used;

23                        (C) provide a comprehensive fielding plan  
24        that provides 360-degree lower tier air and mis-

1           sile defense sensor capability to all units of the  
2           Army by not later than January 1, 2026;

3           (D) define the operation and sustainment  
4           cost savings of the acquisition strategy and  
5           other acquisition options of the Army;

7           ance that could be achieved through co-produc-  
8           tion, co-development, or foreign military sales;

9           (F) ensure the fielding of an interim gap-  
10          filler capability to the highest priority forces  
11          (consisting of not less than three battalions) for  
12          imminent threats; and

13          (G) identify the estimated cost to field  
14          both the 360-degree lower tier air and missile  
15          defense sensor capability and the interim capa-  
16          bility pursuant to subparagraph (E).

17          (3) LIMITATION.—If the Secretary of the Army  
18          does not issue the acquisition strategy under sub-  
19          section (a) by April 15, 2018, none of the funds au-  
20          thorized to be appropriated by this Act or otherwise  
21          made available for fiscal year 2018 for the lower tier  
22          air and missile defense sensor of the Army that are  
23          unobligated as of such date may be obligated or ex-  
24          pended.

8                   later than December 15, 2018; and

9                   (B) beginning on the date of such ap-  
10                  proval, the responsibility to implement such ac-  
11                  quisition strategy to procure a 360-degree lower  
12                  tier air and missile defense sensor.

13           (2) ARMY.—If the Secretary of Defense carries  
14           out the transfer under paragraph (1), after the 360-  
15           degree lower tier air and missile defense sensor  
16           achieves Milestone B approval (or equivalent), but  
17           before such sensor achieves Milestone C approval (or  
18           equivalent), the Secretary of Defense shall transfer  
19           from the Director of the Missile Defense Agency to  
20           the Secretary of the Army the responsibility to pro-  
21           cure such sensor.

22           (c) DEFINITIONS.—The terms “Milestone B ap-  
23           proval” and “Milestone C approval” have the meanings  
24           given those terms in section 2366 of title 10, United

3 **FENSE SYSTEM.**

4 (a) INTEGRATION OF PATRIOT MISSILES INTO INTE-  
5 GRATED MASTER TEST PLAN.—Not later than 90 days  
6 after the date of the enactment of this Act, the Director  
7 of the Missile Defense Agency, the Director of Operational  
8 Test and Evaluation, the Secretary of the Army, and the  
9 Secretary of the Navy shall jointly ensure that—

10 (1) the test plans of the Integrated Master Test  
11 Plan of the ballistic missile defense system include  
12 planned tests activity of the lower tier ballistic mis-  
13 sile defenses of the Army;

14 (2) such plans prioritize the integration of such  
15 defenses with elements of the ballistic missile de-  
16 fense system; and

17 (3) such plans are clearly described in such In-  
18 tegrated Master Test Plan.

19 (b) NORMALIZING OPERATIONAL TEST AND EVALUA-  
20 TION.—

21 (1) CONDITION FOR PROCEEDING BEYOND  
22 LOW-RATE INITIAL PRODUCTION.—Section  
23 2399(a)(1) of title 10, United States Code, is  
24 amended by striking “or a covered designated major  
25 subprogram” and inserting “a covered designated

1 major subprogram, or an element of the ballistic  
2 missile defense system”.

7 is repealed.

8 **SEC. 1685. DEFENSE OF HAWAII FROM NORTH KOREAN**  
9 **BALLISTIC MISSILE ATTACK.**

10 (a) FINDINGS; SENSE OF CONGRESS.—

11 (1) FINDINGS.—Congress finds the following:

12 (A) The North Korean ballistic missile  
13 threat to the United States, including Hawaii,  
14 is growing rapidly.

15 (B) Since Kim Jong-un took power in  
16 2012, North Korea has conducted 78 ballistic  
17 missile tests, of which 61 are considered to have  
18 been successful.

19 (C) The existing ballistic missile defense  
20 protection for Hawaii, including the ground-  
21 based midcourse defense system in Alaska, and  
22 the sea-based x-band radar, provide limited bal-  
23 listic missile defense capabilities today.

24 (D) Through use of existing ballistic mis-  
25 sile defense assets, including AN/TPY–2 radars

1 and the Aegis Ashore Site located on the Pa-  
2 cific Missile Range Facility, the ballistic missile  
3 defense of Hawaii could benefit from a near-  
4 term improvement by adding a layer of defense.

5 (E) The proposed program of record for a  
6 medium range discriminating radar to be fully  
7 mission capable after 2023 would leave the de-  
8 fense of Hawaii dependent only on the ground-  
9 based midcourse defense system in Alaska, and  
10 the sea-based x-band radar until that time,  
11 while the threat to the United States, including  
12 Hawaii, from North Korean ballistic missiles  
13 continues to grow.

14 (F) The National Defense Authorization  
15 Act for Fiscal Year 2017 (Public Law 114–  
16 328) required that the Missile Defense Agency  
17 plan to provide additional ballistic missile de-  
18 fense sensor coverage for the defense of Hawaii  
19 and “field such radar or equivalent sensor by  
20 not later than December 31, 2021”.

21 (G) When asked at a hearing of the Com-  
22 mittee on Armed Services of the House of Rep-  
23 resentatives on April 26, 2017, about the threat  
24 to Hawaii from North Korean ballistic missiles,  
25 the Commander of the United States Pacific

1           Command, Admiral Harry Harris, testified that  
2           “Kim Jong-un is clearly in a position to threat-  
3           en Hawaii today. . .I believe that our ballistic  
4           missile (defense) architecture is sufficient to  
5           protect Hawaii today. But it can be over-  
6           whelmed” and “I think that we would be better  
7           served, my personal opinion, is that we would  
8           be better served with a defensive Hawaii radar  
9           and interceptors in Hawaii. I know that is  
10          being discussed”.

11          (2) SENSE OF CONGRESS.—It is the sense of  
12          Congress that Congress supports assessing the feasi-  
13          bility of improving the missile defense of Hawaii  
14          from the evolving ballistic missile threat, including  
15          from North Korea, through a permanent missile de-  
16          fense sensor capability and the possible introduction  
17          of interim missile defense coverage.

18          (b) SEQUENCED APPROACH.—The Secretary of De-  
19          fense shall protect the test and training operations of the  
20          Pacific Missile Range Facility, and assess the siting and  
21          functionality of a discrimination radar for homeland de-  
22          fense throughout the Hawaiian Islands before assessing  
23          the feasibility of improving the missile defense of Hawaii  
24          by using existing missile defense assets that could materi-  
25          ally improve the defense of Hawaii.

1       (c) TEST.—The Director of the Missile Defense  
2 Agency shall—

3           (1) not later than 270 days after the date of  
4 the enactment of this Act, conduct a test to evaluate  
5 and demonstrate, if technologically feasible, the ca-  
6 pability to defeat a simple intercontinental ballistic  
7 missile threat using the standard missile 3 block IIA  
8 missile interceptor; and

9           (2) as part of the integrated master test plan  
10 for the ballistic missile defense system, develop a  
11 plan to demonstrate a capability to defeat a complex  
12 intercontinental ballistic missile threat, including a  
13 complex threat posed by the intercontinental ballistic  
14 missiles of North Korea.

15       (d) REPORT.—Not later than 120 days after the date  
16 of the enactment of this Act, the Secretary of Defense  
17 shall submit to the congressional defense committees a re-  
18 port—

19           (1) that indicates whether demonstrating an  
20 intercontinental ballistic missile defense capability  
21 against North Korean ballistic missiles by the stand-  
22 ard missile 3 block IIA missile interceptor poses any  
23 risks to strategic stability; and

24           (2) if the Secretary determines under para-  
25 graph (1) that such demonstration poses such risks

1 to strategic stability, a description of the plan devel-  
2 oped and implemented by the Secretary to address  
3 and mitigate such risks, as determined appropriate  
4 by the Secretary.

5 **SEC. 1686. AEGIS ASHORE ANTI-AIR WARFARE CAPABILITY.**

6 (a) **AUTHORIZATION.**—Using funds authorized to be  
7 appropriated by sections 101 and 201 of this Act or other-  
8 wise made available for fiscal year 2018 for procurement  
9 and research, development, test, and evaluation, as speci-  
10 fied in the funding tables in division D, the Secretary of  
11 Defense shall continue the development, procurement, and  
12 deployment of anti-air warfare capabilities at each Aegis  
13 Ashore site in Romania and Poland. The Secretary shall  
14 ensure the deployment of such capabilities—

15 (1) at such sites in Romania by not later than  
16 one year after the date of the enactment of this Act;  
17 and

18 (2) at such sites in Poland by not later than  
19 one year after the declaration of operational status  
20 for such sites.

21 (b) **REPROGRAMMING AND TRANSFERS.**—Any re-  
22 programming or transfer made to carry out subsection (a)  
23 shall be carried out in accordance with established proce-  
24 dures for reprogramming or transfers.

3 tions by the Missile Defense Agency and the  
4 Missile Defense Organization of the Govern-  
5 ment of Israel regarding such production, the  
6 goal of the United States is to maximize oppor-

9 space-based sensor layer can contribute that other  
10 sensor layers do not contribute;

11 (4) how the Director will leverage the use of na-  
12 tional technical means, commercially available space  
13 and terrestrial capabilities, hosted payloads, small

9 **TURE RECAPITALIZATION AND REPAIR.**

10 (a) FINDINGS.—Congress finds the following:

11 (1) On September 7, 2016, during testimony  
12 before the Subcommittee on Strategic Forces of the  
13 Committee on Armed Services of the House of Rep-  
14 resentatives—

15 (A) the Administrator for Nuclear Secu-  
16 rity, Frank Klotz, said—

17 (i) “Our infrastructure is extensive,  
18 complex, and, in many critical areas, sev-  
19 eral decades old. More than half of  
20 NNSA’s approximately 6,000 real property  
21 assets are over 40 years old, and nearly 30  
22 percent date back to the Manhattan  
23 Project era. Many of the enterprise’s crit-  
24 ical utility, safety, and support systems are  
25 failing at an increasing and unpredictable

1 rate, which poses both programmatic and  
2 safety risk.”; and

3 (ii) “I can think of no greater threat  
4 to the nuclear security enterprise than the  
5 state of NNSA’s infrastructure.”;

6 (B) the President and Chief Executive Of-  
7 ficer of Consolidated Nuclear Security, Morgan  
8 Smith, said, “Many key facilities at both  
9 [Pantex and Y-12] were constructed in the  
10 1940s and were intended to operate for as little  
11 as one decade. Many facilities and their sup-  
12 porting infrastructure have exceeded or far ex-  
13 ceeded their expected life, and major systems  
14 within the facilities are beginning to fail.”; and

15 (C) the Director of Los Alamos National  
16 Laboratory, Dr. Charlie McMillan, said, “One  
17 of the things that keeps me up at night is the  
18 realization that essential capabilities are held at  
19 risk by the possibility of such failures; in many  
20 cases, our enterprise has a single point of fail-  
21 ure.”.

22 (2) In a letter sent on December 23, 2015, by  
23 the Secretary of Energy, Ernest Moniz, to the Direc-  
24 tor of the Office of Management and Budget, Shaun  
25 Donovan, the Secretary said, “A majority of the Na-

1        tional Nuclear Security Administration's (NNSA) fa-  
2        cilities and systems are well beyond end-of-life. . .  
3        Infrastructure problems such as falling ceilings are  
4        increasing in frequency and severity, unacceptably  
5        risking the safety and security of both personnel and  
6        material at NNSA facilities, as well as in some in-  
7        stances, potential offsite risks. The entire complex  
8        could be placed at risk if there is a single failure  
9        where a single point would disrupt a critical link in  
10       infrastructure.”.

11            (3) The Nuclear Posture Review published in  
12        April 2010 stated that “In order to sustain a safe,  
13        secure, and effective U.S. nuclear stockpile as long  
14        as nuclear weapons exist, the United States must  
15        possess a modern physical infrastructure. . . To-  
16        day's nuclear complex, however, has fallen into ne-  
17        glect. Although substantial science, technology, and  
18        engineering investments were made over the last  
19        decade under the auspices of the Stockpile Steward-  
20        ship Program, the complex still includes many over-  
21        sized and costly-to maintain facilities built during  
22        the 1940s and 1950s. Some facilities needed for  
23        working with plutonium and uranium date back to  
24        the Manhattan Project. Safety, security, and envi-  
25        ronmental issues associated with these aging facili-

1       ties are mounting, as are the costs of addressing  
2       them.”.

3           (4) In 2009, the bipartisan Congressional Com-  
4       mission on the Strategic Posture of the United  
5       States established by section 1062 of the National  
6       Defense Authorization for Fiscal Year 2008 (Public  
7       Law 110–181; 122 Stat. 319) stated, with regards  
8       to key production facilities, that “existing facilities  
9       are genuinely decrepit and are maintained in a safe  
10      and secure manner only at high cost”.

11          (5) Previous efforts to address the deferred  
12      maintenance and repair challenges within the nu-  
13      clear security enterprise, such as the Facilities In-  
14      frastructure and Recapitalization Program and the  
15      recent halt in the growth of backlog metrics, are  
16      laudable but insufficient for the magnitude of the  
17      problem.

18          (6) Recent figures provided by the Adminis-  
19      trator for Nuclear Security estimate the backlog of  
20      deferred maintenance and repair needs of the nu-  
21      clear security enterprise to be approximately  
22      \$3,700,000,000.

23      (b) FACILITIES AND INFRASTRUCTURE RECAPITAL-  
24      IZATION AND REPAIR PROGRAM.—

1           (1) ESTABLISHMENT.—Not later than 30 days  
2       after the date of the enactment of this Act, the Ad-  
3       ministrator for Nuclear Security shall establish and  
4       carry out a program known as the Facilities and In-  
5       frastructure Recapitalization and Repair Program to  
6       reduce the backlog of deferred maintenance and re-  
7       pair needs of the nuclear security enterprise (as de-  
8       fined in section 4002(6) of the Atomic Energy De-  
9       fense Act (50 U.S.C. 2501(6)). The Administrator  
10      shall ensure that, by not later than five years after  
11      the date of the enactment of this Act, the program  
12      achieves the goal of reducing such backlog of de-  
13      ferred maintenance and repair needs by 50 percent.

14           (2) AUTHORITIES.—

15           (A) PROCESS.—

16                   (i) IN GENERAL.—The Secretary of  
17           Energy shall provide to the Administrator  
18           a process that will enhance or streamline  
19           the ability of the Administrator to carry  
20           out the program under paragraph (1) in  
21           an efficient and effective manner, including  
22           with respect to—

23                           (I) the demolition or construction  
24                           of non-nuclear facilities of the Admin-  
25                           istration that have a total estimated

1 project cost of less than  
2 \$100,000,000; and

3 (II) the decontamination, decom-  
4 missioning, and demolition (to be per-  
5 formed in accordance with applicable  
6 health and safety standards used by  
7 the Defense Environmental Cleanup  
8 Program) of process-contaminated fa-  
9 cilities of the Administration that  
10 have a total estimated project cost of  
11 less than \$50,000,000.

12 (ii) FUNDING.—Clause (i) may be car-  
13 ried out using amounts authorized to be  
14 appropriated for fiscal year 2018 or any  
15 subsequent fiscal year.

16 (B) APPLICATION OF CERTAIN REQUIRE-  
17 MENTS.—For purposes of the Management Pro-  
18 cedures Memorandum 2015–01 of the Office of  
19 Management and Budget, or such successor  
20 memorandum, in carrying out the program  
21 under paragraph (1), the Administrator may—

22 (i) perform new construction during a  
23 fiscal year that differs from the fiscal year  
24 of corresponding facility demolition;

1                   (ii) perform demolition of different fa-  
2                   cility category codes and have that demoli-  
3                   tion credit count towards the construction  
4                   of new facilities with a different facility  
5                   category code; and

6                   (iii) have the net reduction in infra-  
7                   structure footprint for the five fiscal years  
8                   prior to the date of the enactment of this  
9                   Act, and the demolition during the five fis-  
10                  cal years following such date of enactment,  
11                  considered as a factor for the purpose of  
12                  meeting the intent of such memorandum.

13               (3) PLAN.—Together with the budget of the  
14               President submitted to Congress under section  
15               1105(a) of title 31, United States Code, for fiscal  
16               year 2019, the Secretary and the Administrator  
17               shall jointly submit to the Committees on Armed  
18               Services of the House of Representatives and the  
19               Senate a plan to carry out the program under para-  
20               graph (1) to achieve the goal specified in such para-  
21               graph. Such plan shall include—

22                   (A) the funding required to carry out the  
23                   program during the period covered by the fu-  
24                   ture-years nuclear security program under sec-

1           tion 3253 of the National Nuclear Security Ad-  
2           ministration Act (50 U.S.C. 2453);

3           (B) the criteria for selecting and  
4           prioritizing projects within the program under  
5           paragraph (1);

6           (C) mechanisms for ensuring the robust  
7           management and oversight of such projects;

8           (D) a description of the process provided  
9           to the Administrator to carry out the program  
10          pursuant to paragraph (2)(A);

11          (E) a description of any legislative actions  
12          the Secretary recommends to further enhance  
13          or streamline authorities or processes relating  
14          to the program; and

15          (F) a certification by the Secretary that  
16          such budget will enable the program to meet  
17          the goal specified in paragraph (1).

18          (4) TERMINATION.—The Administrator shall  
19          terminate the program under paragraph (1) on the  
20          date that is five years after the date of the enact-  
21          ment of this Act.

22          (c) INCLUSION IN BIENNIAL DETAILED REPORT.—  
23          Section 4203(d)(4) of the Atomic Energy Defense Act (50  
24          U.S.C. 2523) is amended—

1           (1) in subparagraph (B), by striking “; and”  
2           and inserting a semicolon;

3           (2) in subparagraph (C), by striking the period  
4           at the end and inserting “; and”; and

5           (3) by adding at the end the following new sub-  
6           paragraph:

7                     “(D)(i) a description of—

8                             “(I) the metrics (based on industry  
9                             best practices) used by the Administrator  
10                            to determine the infrastructure deferred  
11                            maintenance and repair needs of the nu-  
12                            clear security enterprise; and

13                           “(II) the percentage of replacement  
14                            plant value being spent on maintenance  
15                            and repair needs of the nuclear security  
16                            enterprise; and

17                           “(ii) an explanation of whether the annual  
18                            spending on such needs complies with the rec-  
19                            ommendation of the National Research Council  
20                            of the National Academies of Sciences, Engi-  
21                            neering, and Medicine that such spending be in  
22                            an amount equal to four percent of the replace-  
23                            ment plant value, and, if not, the reasons for  
24                            such noncompliance and a plan for how the Ad-  
25                            ministrator will ensure facilities of the nuclear

1 security enterprise are being properly sus-  
2 tained.”.

3 (d) REQUIREMENTS RELATING TO CRITICAL DECI-  
4 SIONS.—

5 (1) IN GENERAL.—Subtitle A of title XLVII of  
6 the Atomic Energy Defense Act (50 U.S.C. 2741 et  
7 seq.) is amended by adding at the end the following  
8 new section:

9 **“SEC. 4715. MATTERS RELATING TO CRITICAL DECISIONS.**

10 “(a) POST-CRITICAL DECISION 2 CHANGES.—After  
11 the date on which a plant project specifically authorized  
12 by law achieves critical decision 2, the Administrator may  
13 not change the requirements for such project if such  
14 change increases the scope, schedule, or budget of such  
15 project unless—

16 “(1) the Administrator submits to the congres-  
17 sional defense committees—

18 “(A) a certification that the Administrator,  
19 without delegation, authorizes such proposed  
20 change; and

21 “(B) a cost-benefit and risk analysis of  
22 such proposed change, including with respect  
23 to—

1 “(i) the effects of such proposed  
2 change on the project cost and schedule;  
3 and

4 “(ii) any mission risks and operational  
5 risks from making such change or not  
6 making such change; and

7 “(2) a period of 15 days elapses following the  
8 date of such submission.

9 “(b) REVIEW AND APPROVAL.—The Administrator  
10 shall ensure that critical decision packages are timely re-  
11 viewed and either approved or disapproved.”.

12 (2) CLERICAL AMENDMENT.—The table of con-  
13 tents at the beginning of such Act is amended by in-  
14 serting after the item relating to section 4714 the  
15 following new item:

“Sec. 4715. Matters relating to critical decisions.”.

16 (e) SENSE OF CONGRESS.—It is the sense of Con-  
17 gress that—

18 (1) the nuclear security enterprise, comprised of  
19 the infrastructure and capabilities of the laboratories  
20 and plants coupled with the dedicated and talented  
21 scientists, engineers, technicians, and administrators  
22 who form the backbone of the enterprise, are a cen-  
23 tral component of the nuclear deterrent of the  
24 United States;

1           (2) if left unaddressed, the state of the infra-  
2           structure within the nuclear security enterprise rep-  
3           resents a direct, long-term threat to the credibility  
4           of the nuclear deterrent of the United States;

5           (3) both Congress and the President must take  
6           strong, sustained action to recapitalize and repair  
7           this infrastructure;

8           (4) the Administrator must continue to carry  
9           out expeditious demolition of old facilities of the Ad-  
10          ministration to reduce long-term costs and improve  
11          safety; and

12          (5) each budget of the President submitted to  
13          Congress under section 1105(a) of title 31, United  
14          States Code, for fiscal year 2019 and each fiscal  
15          year thereafter during the life of the program estab-  
16          lished pursuant to subsection (b)(1) should include  
17          funding in an amount sufficient to carry out the  
18          program to achieve the goal specified in such sub-  
19          section.

20 **SEC. 3112. INCORPORATION OF INTEGRATED SURETY AR-**  
21 **CHITECTURE IN TRANSPORTATION.**

22          (a) INCORPORATION.—Subtitle A of title XLII of the  
23          Atomic Energy Defense Act (50 U.S.C. 2521 et seq.) is  
24          amended by adding at the end the following new section:

1   **“SEC. 4222. INCORPORATION OF INTEGRATED SURETY AR-**  
2                           **CHITECTURE.**

3           “(a) SHIPMENTS.—(1) The Administrator shall en-  
4   sure that shipments described in paragraph (2) incor-  
5   porate surety technologies relating to transportation and  
6   shipping developed by the Integrated Surety Architecture  
7   program of the Administration.

8           “(2) A shipment described in this paragraph is an  
9   over-the-road shipment of the Administration that involves  
10  any nuclear weapon planned to be in the active stockpile  
11  after 2025.

12          “(b) CERTAIN PROGRAMS.—(1) The Administrator,  
13  in coordination with the Chairman of the Nuclear Weap-  
14  ons Council, shall ensure that each program described in  
15  paragraph (2) incorporate integrated designs compatible  
16  with the Integrated Surety Architecture program.

17          “(2) A program described in this subsection is a pro-  
18  gram of the Administration that is a warhead development  
19  program, a life extension program, or a warhead major  
20  alteration program.

21          “(c) DETERMINATION.—(1) If, on a case-by-case  
22  basis, the Administrator determines that a shipment  
23  under subsection (a) will not incorporate some or all of  
24  the surety technologies described in such subsection, or  
25  that a program under subsection (b) will not incorporate  
26  some or all of the integrated designs described in such

1 subsection, the Administrator shall submit such deter-  
2 mination to the congressional defense committees, includ-  
3 ing the results of an analysis conducted pursuant to para-  
4 graph (2).

5 “(2) Each determination made under paragraph (1)  
6 shall be based on a documented, system risk analysis that  
7 considers security risk reduction, operational impacts, and  
8 technical risk.

9 “(e) TERMINATION.—The requirements of sub-  
10 sections (a) and (b) shall terminate on December 31,  
11 2029.”.

12 (b) CLERICAL AMENDMENT.—The table of contents  
13 for such Act is amended by inserting after the item relat-  
14 ing to section 4221 the following new item:

“Sec. 4222. Incorporation of integrated surety architecture.”.

15 (c) IMPLEMENTATION OF CERTAIN DIRECTION.—  
16 The Administrator shall implement the direction relating  
17 to this section contained in the classified annex accom-  
18 panying this Act.

19 **SEC. 3113. COST ESTIMATES FOR LIFE EXTENSION PRO-**  
20 **GRAM AND MAJOR ALTERATION PROJECTS.**

22 Defense Act (50 U.S.C. 2537(b)) is amended to read as  
23 follows:

24 “(b) INDEPENDENT COST ESTIMATES AND RE-  
25 VIEWS.—(1) The Secretary, acting through the Adminis-

1 trator, shall submit to the congressional defense commit-  
2 tees and the Nuclear Weapons Council the following:

3 “(A) An independent cost estimate of the fol-  
4 lowing:

5 “(i) Each nuclear weapon system under-  
6 going life extension at the completion of phase  
7 6.2A, relating to design definition and cost  
8 study.

9 “(ii) Each nuclear weapon system under-  
10 going life extension at the completion of phase  
11 6.3, relating to development engineering.

12 “(iii) Each nuclear weapon system under-  
13 going life extension at the completion of phase  
14 6.4, relating to production engineering, and be-

16 production.

17 “(iv) Each new nuclear facility within the  
18 nuclear security enterprise that is estimated to  
19 cost more than \$500,000,000 before such facil-  
20 ity achieves critical decision 1 and before such  
21 facility achieves critical decision 2 in the acqui-  
22 sition process.

23 “(v) Each nuclear weapons system under-  
24 going a major alteration project (as defined in  
25 section 2753(a)(2) of this title).

7           “(A) whether the cost baseline or the budget es-  
8           timate for the period covered by the future-years nu-  
9           clear security program has changed, and the ration-  
10          ale for any such change; and

11          “(B) any views of the Secretary or the Adminis-  
12          trator regarding such estimate or review.

13          “(3) The Administrator shall review and consider the  
14          results of any independent cost estimate or independent  
15          cost review of a nuclear weapon system or a nuclear facil-

17          ing the next phase of the development process of such sys-  
18          tem or the acquisition process of such facility.

20          cost review of a nuclear weapon system or a nuclear facil-  
21          ity, as the case may be, under this subsection shall be sub-  
22          mitted not later than 30 days after the date on which—

23               “(A) such system completes a phase specified in  
24               paragraph (1); or

1           “(B) such facility achieves critical decision 1 as  
2           specified in subparagraph (A)(iv) of such paragraph.

3           “(5) Each independent cost estimate or independent  
4           cost review submitted under this subsection shall be sub-  
5           mitted in unclassified form, but may include a classified  
6           annex if necessary.”.

1 (A) an alternative option for carrying out  
2 the plutonium disposition program exists;

5           “\$10,000,000” and inserting “\$20,000,000, subject  
6           to adjustment under subsection (b)”;

7           (3) by adding at the end the following new sub-  
8           section:

9           “(b) ADJUSTMENT OF MINOR CONSTRUCTION  
10          THRESHOLD FOR INFLATION.—(1) The Secretary of En-  
11          ergy shall adjust the amount of the minor construction  
12          threshold on October 1, 2017, and at the beginning of  
13          each fiscal year thereafter, to reflect the percentage (if  
14          any) of the increase in the average of the Consumer Price  
15          Index for the preceding 12-month period compared to the  
16          Consumer Price Index for fiscal year 2016.

24          sumer Price Index’ means the Consumer Price Index for

1 All Urban Consumers published by the Bureau of Labor  
2 Statistics of the Department of Labor.”.

3 **SEC. 3121. DESIGN COMPETITION.**

4 (a) FINDINGS.—Congress finds the following:

5 (1) In January 2016, the co-chairs of a con-  
6 gressionally-mandated study panel from the National  
7 Academies of Science testified before the House  
8 Committee on Armed Services that:

9 (A) “The National Nuclear Security Ad-  
10 ministration (NNSA) complex must engage in  
11 robust design competitions in order to exercise  
12 the design and production skills that underpin  
13 stockpile stewardship and are necessary to meet  
14 evolving threats.”

15 (B) “To exercise the full set of design  
16 skills necessary for an effective nuclear deter-  
17 rent, the NNSA should develop and conduct the  
18 first in what the committee envisions to be a se-  
19 ries of design competitions that integrate the  
20 full end-to-end process from novel design con-  
21 ception through engineering, building, and non-  
22 nuclear testing of a prototype.”

23 (2) In March 2016 testimony before the House  
24 Committee on Armed Services regarding a December  
25 2016 Defense Science Board (DSB) report titled,

1 “Seven Defense Priorities for the New Administra-  
2 tion”, members of the DSB said:

3 (A) “A key contributor to nuclear deter-  
4 rence is the continuous, adaptable exercise of  
5 the development, design, and production func-  
6 tions for nuclear weapons in both the DOD and  
7 DOE... Yet the DOE laboratories and DOD  
8 contractor community have done little inte-  
9 grated design and development work outside of  
10 life extension for 25 years, let alone concept de-  
11 velopment that could serve as a hedge to sur-  
12 prise.”

13 (B) “The Defense Science Board believes  
14 that the triad’s complementary features remain  
15 robust tenets for the design of a future force.  
16 Replacing our current, aging force is essential,  
17 but not sufficient in the more complex nuclear  
18 environment we now face to provide the adapt-  
19 ability or flexibility to confidently hold at risk  
20 what adversaries value. In particular, if the  
21 threat evolves in ways that favorably change the  
22 cost/benefit calculus in the view of an adver-  
23 sary’s leadership, then we should be in a posi-  
24 tion to quickly restore a credible deterrence pos-  
25 ture.”

1           (3) In a memorandum dated May 9, 2014,  
2 then-Secretary of Energy Ernie Moniz said:

3           (A) “If nuclear military capabilities are to  
4 provide deterrence for the nation they need to  
5 be relevant to the emerging global strategic en-  
6 vironment. The current stockpile was designed  
7 to meet the needs of a bipolar world with roots  
8 in the Cold War era. A more complex, chaotic,  
9 and dynamic security environment is emerging.  
10 In order to uphold the Department’s mission to  
11 ensure an effective nuclear deterrent... we must  
12 ensure our nuclear capabilities meet the chal-  
13 lenges of known and potential geopolitical and  
14 technological trends. Therefore we must look  
15 ahead, using the expertise of our laboratories,  
16 to how the capabilities that may be employed by  
17 other nations could impact deterrence over the  
18 next several decades.”

19           (B) “We must challenge our thinking  
20 about our programs of record in order to permit  
21 foresighted actions that may reduce, in the  
22 coming decades, the chances for surprise and  
23 that buttress deterrence.”

24       (b) DESIGN COMPETITION.—

1           (1) IN GENERAL.—In accordance with para-  
2           graph (2), the Administrator for Nuclear Security,  
3           in coordination with the Chairman of the Nuclear  
4           Weapons Council, shall carry out a new and com-  
5           prehensive design competition for a nuclear warhead  
6           that could be employed on ballistic missiles of the  
7           United States by 2030. Such competition shall—

8                   (A) examine options for warhead design  
9                   and related delivery system requirements in the  
10                  2030s, including—

11                           (i) life extension of existing weapons;

12                           (ii) new capabilities; and

13                           (iii) such other concepts that the Ad-  
14                   ministrator and Chairman determine nec-  
15                   essary to fully exercise and create respon-  
16                   sive design capabilities in the enterprise  
17                   and ensure a robust nuclear deterrent into  
18                   the 2030s;

19                   (B) assess how the capabilities and de-  
20                   fenses that may be employed by other nations  
21                   could impact deterrence in 2030 and beyond  
22                   and how such threats could be addressed or  
23                   mitigated in the warhead and related delivery  
24                   systems;

1 (C) exercise the full set of design skills  
2 necessary for an effective nuclear deterrent and  
3 responsive enterprise through production of  
4 conceptual designs and, as the Administrator  
5 determines appropriate, production of non-nu-  
6 clear prototypes of components or subsystems;  
7 and

8 (D) examine and recommend actions for  
9 significantly shortening timelines and signifi-  
10 cantly reducing costs associated with design, de-  
11 velopment, certification, and production of the  
12 warhead, without reducing worker or public  
13 health and safety.

14 (2) TIMING.—The Administrator shall—

15 (A) during fiscal year 2018 develop a plan  
16 to carry out paragraph (1); and

17 (B) during fiscal year 2019 implement  
18 such plan.

19 (c) BRIEFING.—Not later than March 1, 2018, the  
20 Administrator, in coordination with the Chairman of the  
21 Nuclear Weapons Council, shall provide a briefing to the  
22 Committees on Armed Services of the Senate and House  
23 of Representatives on the plan of the Administrator to  
24 carry out the warhead design competition under sub-  
25 section (b). Such briefing shall include an assessment of

1 the costs, benefits, risks, and opportunities of such plan,  
2 particularly impacts to ongoing life extension programs  
3 and infrastructure projects.

10 shall ensure that the persons subject to the counterintel-  
11 ligence polygraph program required by subsection (a) in-  
12 clude any person who is—

4 is a United States national who also has the nationality  
5 of a foreign state that is on the list maintained by the  
6 Secretary of Energy under subsection (a) and who is ap-  
7 pointed to or hired for a position designated by the Office

16 ment under subsection (a).

17               “(2) FOREIGN STATES.—The Director of Na-  
18 tional Intelligence shall identify foreign states that  
19 permit citizens or nationals of the United States to  
20 serve in positions of trust equivalent to positions  
21 identified by the Office of Personnel Management as  
22 critical sensitive or special sensitive.”.

23          (b) CLERICAL AMENDMENT.—The table of contents  
24 at the beginning of such Act is amended by inserting after

1 **SEC. 3124. ANNUAL REPORTS ON UNFUNDED PRIORITIES**  
2 **OF THE NATIONAL NUCLEAR SECURITY AD-**  
3 **MINISTRATION.**

4 (a) ANNUAL REPORTS.—Not later than 10 days after  
5 the date on which the budget of the President for a fiscal  
6 year is submitted to Congress pursuant to section 1105  
7 of title 31, the Administrator for Nuclear Security shall  
8 submit to the Secretary of Energy and the congressional  
9 defense committees a report on the unfunded priorities of  
10 the National Nuclear Security Administration.

11 (b) ELEMENTS.—

12 (1) IN GENERAL.—Each report under sub-  
13 section (a) shall specify, for each unfunded priority  
14 covered by such report, the following:

15 (A) A summary description of such pri-  
16 ority, including the objectives to be achieved if  
17 such priority is funded (whether in whole or in  
18 part).

19 (B) The additional amount of funds rec-  
20 ommended in connection with the objectives  
21 under subparagraph (A).

22 (C) Account information with respect to

2       port shall present the unfunded priorities covered by  
3       such report in order of urgency of priority.

4           (c) UNFUNDED PRIORITY DEFINED.—In this section,  
5       the term “unfunded priority”, in the case of a fiscal year,  
6       means a program, activity, or mission requirement that—

7           (1) is not funded in the budget of the President  
8       for the fiscal year as submitted to Congress pursu-  
9       ant to section 1105 of title 31;

10          (2) is necessary to fulfill a requirement associ-  
11       ated with the National Nuclear Security Administra-  
12       tion; and

13          (3) would have been recommended for funding  
14       through the budget referred to in paragraph (1) by  
15       the Administrator in connection with the budget if—

16                (A) additional resources had been available  
17       for the budget to fund the program, activity, or  
18       mission requirement; or

19                (B) the program, activity, or mission re-  
20       quirement has emerged since the budget was  
21       formulated.

2 General of the United States a report on the recommended  
3 alternative endorsed by the Administrator for recapitaliza-  
4 tion of plutonium science and production capabilities of  
5 the nuclear security enterprise. The report shall identify  
6 the recommended alternative endorsed by the Adminis-  
7 trator and contain the analysis of alternatives, including  
8 costs, upon which the Administrator relied in making such  
9 endorsement.

15 man regarding whether the recommended alternative en-  
16 dored by the Administrator—

17 (1) is acceptable to the Secretary of Defense  
18 and the Nuclear Weapons Council and meets the re-  
19 quirements of the Secretary for plutonium pit pro-  
20 duction capacity and capability;

21 (2) is likely to meet the pit production timelines  
22 and milestones required by section 4219 of the  
23 Atomic Energy Defense Act (50 U.S.C. 2538a);

1           (3) is likely to meet pit production timelines  
2           and requirements responsive to military require-  
3           ments;

4           (4) is cost effective and has reasonable near-  
5           term and lifecycle costs that are minimized, to the  
6           extent practicable, as compared to other alternatives,  
7           and has tested and documented the sensitivity of the  
8           cost estimates for each alternative to risks and  
9           changes in key assumptions;

10          (5) contains minimized and manageable risks as  
11          compared to other alternatives;

12          (6) can be acceptably reconciled with any dif-  
13          ferences in the conclusions made by the Office of  
14          Cost Assessment and Program Evaluation of the  
15          Department of Defense in the business case analysis  
16          of plutonium pit production capability issued in  
17          2013; and

18          (7) has documented the assumptions and con-  
19          straints used in the analysis of alternatives.

20          (c) FAILURE TO CERTIFY.—If the Chairman is un-

22          Chairman shall submit to the congressional defense com-  
23          mittees and the Administrator written notification describ-  
24          ing why the Chairman is unable to make such certification  
25          and what steps the Administrator should take to improve

1 the plan of the Administrator to recapitalize plutonium pit  
2 production capacity and capability to enable certification.

3 (d) ASSESSMENT.—Not later than 120 days after the  
4 date on which the Comptroller General receives the notifi-  
5 cation under subsection (a), the Comptroller General shall

8 the analysis of alternatives conducted by the Adminis-  
9 trator to select a preferred alternative for recapitalizing  
10 plutonium science and production capabilities.

11 **SEC. 3126. PLAN FOR VERIFICATION, DETECTION, AND**  
12 **MONITORING OF NUCLEAR WEAPONS AND**  
13 **FISSILE MATERIAL.**

14 (a) FINDINGS AND SENSE OF CONGRESS.—

15 (1) FINDINGS.—Congress finds the following:

16 (A) A January 2014 Defense Science  
17 Board report found that “The nuclear future  
18 will not be a linear extrapolation of the  
19 past. . . [and] [t]he technologies and processes  
20 designed for current treaty verification and in-  
21 spections are inadequate to future monitoring  
22 realities”.

23 (B) Section 3133 of the Carl Levin and  
24 Howard P. “Buck” McKeon National Defense  
25 Authorization Act for Fiscal Year 2015 (Public

1 Law 113–291) required an interagency plan for  
2 nuclear monitoring of nuclear weapons and  
3 fissile material, and section 3132 of the Na-  
4 tional Defense Authorization Act for Fiscal  
5 Year 2017 (Public Law 114–328) required an  
6 update of such plan. In both instances, the re-  
7 ports submitted failed to answer the congres-  
8 sional requirements, and instead provided only  
9 a brief summary of the National Security Coun-  
10 cil structure and processes.

11 (2) SENSE OF CONGRESS.—It is the sense of  
12 Congress that verification, detection, and monitoring  
13 of nuclear weapons and fissile material should be a  
14 priority for national security, and that the reports  
15 submitted to date do not reflect this priority, or the  
16 current and planned initiatives related to nuclear  
17 verification and detection.

18 (b) PLAN.—The President, in consultation with the  
19 Secretary of State, the Secretary of Defense, the Secretary  
20 of Energy, the Secretary of Homeland Security, and the  
21 Director of National Intelligence, shall develop a plan for  
22 verification and monitoring relating to the potential pro-  
23 liferation of nuclear weapons, components of such weap-  
24 ons, and fissile material.

1       (c) ELEMENTS.—The plan developed under sub-  
2 section (b) shall include the following:

3           (1) A plan and road map for verification, detec-  
4 tion and monitoring, with respect to policy, oper-  
5 ations, and research, development, testing, and eval-  
6 uation, including—

7               (A) identifying requirements;

8               (B) costs and funding requirements over  
9               10 years for such nuclear verification, detection  
10              and monitoring; and

11              (C) identifying and integrating roles, re-  
12              sponsibilities, and planning for such nuclear  
13              verification, detection and monitoring.

14           (2) A detailed international engagement plan  
15           for building cooperation and transparency, including  
16           bilateral and multilateral efforts, to improve inspec-  
17           tions, detection, and monitoring.

18           (3) A detailed description of—

19               (A) current and planned research and de-  
20               velopment efforts to improve monitoring, detec-  
21               tion, and in-field inspection and analysis capa-  
22               bilities, including persistent surveillance, remote  
23               monitoring, and rapid analysis of large data  
24               sets, including open-source data; and

1 (B) measures to coordinate technical and  
2 operational requirements early in the process.

3 (4) Engagement of relevant departments and  
4 agencies of the Federal Government and the military  
5 departments (including the Open Source Center and  
6 the United States Atomic Energy Detection Sys-  
7 tem), national laboratories, industry, and academia.

8 (d) DESIGNATION OF DOE.—The President shall  
9 designate the Department of Energy as the lead agency  
10 for development of the plan under subsection (b).

11 (e) BRIEFING.—Not later than 30 days after the date  
12 of the enactment of this Act, the Secretary of Energy, act-  
13 ing through the Administrator for Nuclear Security, shall  
14 provide to the appropriate congressional committees an in-  
15 terim briefing on the plan under subsection (b).

16 (f) LIMITATION.—Of the funds authorized to be ap-  
17 propriated by this Act or otherwise made available for fis-  
18 cal year 2018 for the Department of Defense for sup-  
19 porting the Executive Office of the President,  
20 \$10,000,000 may not be obligated or expended until the  
21 date on which the President submits to the appropriate  
22 congressional committees the plan under subsection  
23 (g)(1).

24 (g) SUBMISSION.—

1           (1) DEADLINE.—Not later than April 15, 2018,  
2           the President shall submit to the appropriate con-  
3           gressional committees the plan developed under sub-  
4           section (b).

5           (2) FORM.—The plan under subsection (b) shall  
6           be transmitted in unclassified form, but, consistent  
7           with the protection of intelligence sources and meth-  
8           ods, may include a classified annex.

9           (h) APPROPRIATE CONGRESSIONAL COMMITTEES  
10          DEFINED.—In this section, the term “appropriate con-  
11          gressional committees” means the following:

12           (1) The congressional defense committees.

13           (2) The Select Committee on Intelligence of the  
14          Senate and the Permanent Select Committee on In-  
15          telligence of the House of Representatives.

16           (3) The Committee on Foreign Relations of the  
17          Senate and the Committee on Foreign Affairs of the  
18          House of Representatives.

19           (4) The Committee on Homeland Security and  
20          Governmental Affairs of the Senate and the Com-  
21          mittee on Homeland Security of the House of Rep-  
22          resentatives.

23           (5) The Committee on Commerce, Science, and  
24          Transportation of the Senate and the Committee on

1 Energy and Commerce of the House of Representa-  
2 tives.

9 efficiency, and effectiveness of the strategy of the Admin-  
10 istrator with respect to management and operating con-  
11 tracts for national security laboratories. The Adminis-  
12 trator may not award such contract to a federally funded

7               security laboratories, and whether such strat-  
8               egy, process, and contractors provide the best  
9               outcomes to the Federal Government with re-  
10              spect to performance, cost, efficiency, and effec-  
11              tiveness.

12             (B) An assessment of the total costs, for
