

115TH CONGRESS
2D SESSION

H. R. 5509

AN ACT

To direct the National Science Foundation to provide grants for research about STEM education approaches and the STEM-related workforce, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Innovations in Men-
3 toring, Training, and Apprenticeships Act”.

4 **SEC. 2. FINDINGS.**

5 Congress finds the following:

6 (1) To remain competitive in the global econ-
7 omy, foster greater innovation, and provide a foun-
8 dation for shared prosperity, the United States
9 needs a workforce with the right mix of skills to
10 meet the diverse needs of the economy.

11 (2) Evidence indicates that the returns on in-
12 vestments in technical skills in the labor market are
13 strong when students successfully complete their
14 education and gain credentials sought by employers.

15 (3) The responsibility for developing and sus-
16 taining a skilled technical workforce is fragmented
17 across many groups, including educators, students,
18 workers, employers, Federal, State, and local govern-
19 ments, civic associations, and other stakeholders.
20 Such groups need to be able to coordinate and co-
21 operate successfully with each other.

22 (4) Coordination among students, community
23 colleges, secondary and post-secondary institutions,
24 and employers would improve educational outcomes.

1 (5) Promising experiments currently underway
2 may guide innovation and reform, but scalability of
3 some of those experiments has not yet been tested.

4 (6) Evidence suggests that integration of aca-
5 demic education, technical skills development, and
6 hands-on work experience improves outcomes and re-
7 turn on investment for students in secondary and
8 post-secondary education and for skilled technical
9 workers in different career stages.

10 (7) Outcomes show that mentoring can increase
11 STEM student engagement and the rate of comple-
12 tion of STEM post-secondary degrees.
