RESOLUTION

Affirming a commitment to elevate the voices, leadership, and needs of historically and currently disenfranchised and underserved communities in the effort to end sexual violence and support all survivors of sexual violence, including immigrant survivors, survivors with disabilities,

survivors of color, survivors of child sexual abuse, and lesbian, gay, bisexual, and transgender survivors.

Whereas sexual violence is a tool of oppression and a form of discrimination that can deprive individuals of equal access to educational opportunities;

Whereas discrimination on the basis of sex includes discrimination on the basis of sexual orientation, gender identity, sex stereotypes, pregnancy, termination of pregnancy, childbirth, and related medical conditions;

Whereas the 2015 United States Transgender Survey found that—

(1) 47 percent of transgender people are sexually assaulted; and

(2) among transgender people of color, 65 percent of Native Americans, 59 percent of multiracial people, 58 percent of Middle Eastern people, and 53 percent of African Americans are likely to have been sexually assaulted;

Whereas the 2010 Centers for Disease Control National Intimate Partner and Sexual Violence Survey found that—

(1) 44 percent of lesbians and 61 percent of bisexual women experience rape, physical violence, or stalking by an intimate partner, compared to 35 percent of heterosexual women; and

(2) 40 percent of gay men and 47 percent of bisexual men have experienced sexual violence other than rape, compared to 21 percent of heterosexual men;

Whereas the National Women's Law Center 2017 Let Her Learn Survey found that 38 percent of lesbian, gay, bisexual, or transgender teen girls reported experiencing sexual violence compared to 21 percent of all girls;

Whereas data reveals that people with disabilities are at an increased risk of being sexually assaulted;

Whereas according to End Rape on Campus, children with disabilities are 2.9 times more likely than children without disabilities to be sexually abused;

Whereas according to the Vera Institute of Justice, 83 percent of women and 32 percent of men with cognitive disabilities reported being victims of sexual assault;

Whereas women of all races and ethnicities face some risk of sexual assault, and according to the 2010 Centers for Disease Control National Intimate Partner and Sexual Violence Survey, 33 percent of multiracial non-Hispanic women, nearly 27 percent of indigenous women, 22 percent of Black women, nearly 19 percent of White non-Hispanic women, more than 14 percent of Hispanic women, and 7 percent of Asian American and Pacific Islander women in the United States have experienced rape;

Whereas according to a research report by the National Institute of Justice, 56.1 percent of American Indian and Alaska Native women have experienced sexual violence;

Whereas sexual violence also affects adolescent girls, and according to the National Women's Law Center 2017 Let Her Learn Survey, 1 in 5 girls aged 14 to 18 has been kissed or touched without consent, including 24 percent of Latina girls, 23 percent of Native American girls, and 22 percent of Black girls;

Whereas studies show that sexual violence is an under-reported crime, indicating that the rates of sexual violence may be even higher than these estimates;

Whereas too many survivors from historically and currently disenfranchised and underserved communities are ignored, blamed, and cast aside when seeking support after experiencing a form of sexual violence;

Whereas, according to the Department of Justice, 31 percent of young women in the juvenile justice system have been sexually abused;

Whereas youth of color, youth with disabilities, and youth who identify as lesbian, gay, bisexual, transgender, or gender non-conforming are overrepresented in the child welfare system;

Whereas, according to the GLSEN 2015 National School Climate Survey—

(1) 59.6 percent of lesbian, gay, bisexual, transgender, and queer (referred to in this preamble as “LGBTQ”) secondary students have been sexually harassed at school and are more likely to experience sexual harassment than non-LGBTQ students; and

(2) students with nontraditional gender expression are more likely to experience sexual harassment than students with traditional gender expression;

Whereas high-quality sexuality education is critical in the effort to eliminate sexual violence by teaching young people about sexual assault, harassment, and consent;

Whereas less than half of all high schools and only 20 percent of middle schools in the United States teach all of the topics identified by the Centers for Disease Control and Prevention as important sexual health education topics;

Whereas, according to the Rape, Abuse & Incest National Network, there is an increased likelihood that an indi-

vidual will suffer from suicidal or depressive thoughts after experiencing sexual violence;

Whereas, at a time of prioritized mass detention and deportation and the rescinding of the Deferred Action for Childhood Arrivals Program, it is less safe for immigrants to report sexual violence;

Whereas a history of systemic inequality and discrimination as well as incomplete solutions has resulted in a lack of resources to meet the needs of diverse survivor populations;

Whereas according to the National Alliance to End Sexual Violence—

(1) there is a lack of resources for sexual violence prevention for youth;

(2) many rape crisis centers have waiting lists for prevention programs; and

(3) more investment is needed in the Rape Prevention and Education Program;

Whereas April is National Sexual Assault Awareness Month;

Whereas sexual violence will only end if survivors of color, lesbian, gay, bisexual and transgender survivors, survivors with disabilities, and immigrant survivors are respected and supported;

Whereas current support systems mandated by Federal law for survivors of sexual violence are neither comprehensive nor fully representative of the vast and pervasive elements within rape culture; and

Whereas Congress is working to confront pervasive sexual violence in the workplace, in schools, and in every area of life: Now, therefore, be it
