To amend the Communications Act of 1934 to require multi-line telephone systems to have a default configuration that permits users to directly initiate a call to 9–1–1 without dialing any additional digit, code, prefix, or post-fix, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JANUARY 12, 2017

Ms. KLOBUCHAR (for herself, Mrs. FISCHER, Mr. SCHATZ, Mr. CORNYN, Mr. THUNE, and Mr. CRUZ) introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

JULY 10, 2017

Reported by Mr. THUNE, without amendment

A BILL

To amend the Communications Act of 1934 to require multi-line telephone systems to have a default configuration that permits users to directly initiate a call to 9–1–1 without dialing any additional digit, code, prefix, or post-fix, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
SECTION 1. SHORT TITLE.

This Act may be cited as the “Kari’s Law Act of 2017”.

SEC. 2. DEFAULT CONFIGURATION OF MULTI-LINE TELEPHONE SYSTEMS FOR DIRECT DIALING OF 9-1-1.

(a) IN GENERAL.—Title VII of the Communications Act of 1934 (47 U.S.C. 601 et seq.) is amended by adding at the end the following:

“SEC. 721. DEFAULT CONFIGURATION OF MULTI-LINE TELEPHONE SYSTEMS FOR DIRECT DIALING OF 9-1-1.

“(a) DEFINITIONS.—In this section—

“(1) the term ‘multi-line telephone system’ has the meaning given the term in section 6502 of the Middle Class Tax Relief and Job Creation Act of 2012 (47 U.S.C. 1471); and

“(2) the term ‘public safety answering point’ has the meaning given the term in section 222(h).

“(b) MULTI-LINE TELEPHONE SYSTEM FUNCTIONALITY.—A person engaged in the business of manufacturing, importing, selling, or leasing multi-line telephone systems may not manufacture or import for use in the United States or sell or lease or offer to sell or lease in the United States a multi-line telephone system
unless the technology of the system has the capabilities
described in subsections (c) and (e).

“(c) Multi-Line Telephone System Installation.—A person engaged in the business of installing
multi-line telephone systems serving locations in the
United States may not install such a system in the United
States unless, upon installation, the system allows a call
that is initiated when a user dials 9–1–1 from any station
equipped with dialing facilities to be transmitted to the
appropriate public safety answering point—

“(1) without requiring the user to dial any ad-
ditional digit, code, prefix, or post-fix, including any
trunk-access code (such as the digit 9); and

“(2) regardless of whether the user is required
to dial a digit, code, prefix, or post-fix described in
paragraph (1) for other calls.

“(d) Other 9–1–1 Emergency Dialing Patterns.—Nothing in this section shall prohibit the con-
figuration of a multi-line telephone system so that other
9–1–1 emergency dialing patterns will also initiate a call
to a public safety answering point, provided that the dial-
ing pattern 9–1–1 remains available to users.

“(e) On-Site Notification.—

“(1) In General.—A person engaged in the
business of installing multi-line telephone systems
serving locations in the United States, in installing
a system described in paragraph (2) in the United
States, shall configure the system so that when a
person at the facility where the system is installed
initiates a call to 9–1–1 using the system, the sys-
tem provides a notification to—

“(A) a central location at the facility; or

“(B) a person or organization with respon-
sibility for safety or security for the location as
designated by the manager or operator of the
system.

“(2) APPLICATION.—A system described in this
paragraph is a multi-line telephone system that is
able to be configured to provide the notification de-
scribed in paragraph (1) without any improvement
to the system.

“(f) REGULATIONS.—

“(1) AUTHORITY.—The Commission may pre-
scribe regulations to carry out this section.

“(2) TECHNOLOGICALLY NEUTRAL.—Regula-
tions prescribed under paragraph (1) shall, to the
extent practicable, promote the purposes of this sec-
tion in a technologically neutral manner.

“(g) ENFORCEMENT.—This section shall be enforced
under title V, except that section 501 applies only to the
extent that the section provides for the imposition of a fine.

“(h) EFFECT ON STATE LAW.—Nothing in this section or in regulations prescribed under this section shall be construed to prevent any State from enforcing any State law that is not inconsistent with this section.”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to a multi-line telephone system that is manufactured, imported, offered for first sale or lease, first sold or leased, or installed after the date that is 2 years after the date of the enactment of this Act.
A BILL

To amend the Communications Act of 1934 to require multi-line telephone systems to have a default configuration that permits users to directly initiate a call to 9-1-1 without dialing any additional digits or code, prefix, or post-fix, and for other purposes.
