

The Associated Press analyzed:

There's one number you will almost never hear: more than 1,030 seats. That's the number of spots in State legislatures, Governor's mansions, and Congress lost by Democrats during Obama's Presidency. It is a statistic that reveals an unexpected twist of the Obama years.

The Associated Press went on to say:

The defeats have all but wiped out a generation of young Democrats, leaving the party with limited power in statehouses and a thin bench to challenge an ascendant GOP majority eager to undo many of the President's policies . . . but, say experts, Obama's tenure has marked the greatest number of losses under any President in decades.

When it comes time to the battle of programs, American families overwhelmingly choose limited government and expanded freedom over the alternative: Big Government and lesser freedom. This is clear with the failing of ObamaCare destroying jobs.

In conclusion, God bless our troops, and may the President, by his actions, never forget September the 11th in the global war on terrorism.

Congratulations to our colleague Congressman TED POE on his remission under treatment of cancer. God bless TED POE.

OPPOSITION TO GOP AGENDA TO REPEAL THE AFFORDABLE CARE ACT

(Ms. EDDIE BERNICE JOHNSON of Texas asked and was given permission to address the House for 1 minute.)

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise in opposition of the GOP agenda which will repeal the Affordable Care Act and cause 30 million Americans to lose healthcare coverage.

Mr. Speaker, I ask the Republicans to please examine the harm that this will do. Because of the Affordable Care Act, the uninsured rate in Texas has fallen by 28 percent and still has the largest number of uninsured Americans, allowing 1.7 million Texans to gain coverage.

While Texas did not expand Medicaid, the State still benefits from many other reforms brought by the Affordable Care Act. For instance, Sean, a Ph.D. candidate in economic development at the University of Texas at Dallas and his wife, Jamie, relied on the Affordable Care Act when their son was born prematurely and with a heart defect that required surgery and a transfer to another Dallas hospital. Sean was reassured that, with his family's ACA marketplace plan, his newborn son would not be denied coverage for lifesaving treatment.

It is unconscionable to me that the GOP refuses to look at what works and what needs improvement in this law instead of a full repeal as the only option. This will deeply harm American families.

ENDING THE REGULATION NATION

(Mr. EMMER asked and was given permission to address the House for 1 minute.)

Mr. EMMER. Mr. Speaker, I rise today to talk about the problem of excessive government.

The United States of America, the land of the free and the brave, a country created to provide everyone an equal opportunity to survive and thrive, has now become the regulation Nation.

In my travels across the great State of Minnesota, I have met and talked with people from all walks of life: farmers and manufacturers, teachers and entrepreneurs, community bankers and credit unions, and they are all crying out for relief from the excessive, overly burdensome, and duplicative regulation that is stifling growth and stealing opportunity.

For the past 8 years, opportunity in America has been under attack by regulations and unelected regulators from Washington. If every American is to have the opportunity to pursue the American Dream, this must end. That is why policy reforms such as the REINS Act are so important.

Under this vital legislation, any major rules from a Federal agency will require congressional approval. This is a great step to end the regulation Nation. We in the people's House must continue to work together to make life easier for the American people, not more difficult.

In the 115th Congress, we must—and we will—work with the incoming administration to roll back excessive and unnecessary regulation so that American families and businesses not only survive but can once again thrive.

DON'T REPEAL THE AFFORDABLE CARE ACT

(Mr. PALLONE asked and was given permission to address the House for 1 minute.)

Mr. PALLONE. Mr. Speaker, Americans today have better health coverage and health care, thanks to the Affordable Care Act.

The ACA has expanded and protected coverage for millions of Americans. More than 20 million previously uninsured Americans have newfound health security, including 95 percent of America's children.

I just want to mention two of my constituents who tweeted me within the last day or so about the ACA. One is from Laurence Harbor. It said: "The ACA provided additional health care for my autistic son who had aged out on my employer's health plan. Attempts in the interim to find a healthcare plan for him were thwarted by insurance companies that did not want to cover him."

Another one of my constituents from Marlboro, New Jersey, said: The "ACA helped me to stay on my parent's healthcare for 3 years after college, which was a huge relief in a tough job market."

There are so many cases, Mr. Speaker. I could go on all afternoon. The bottom line is the Affordable Care Act is

also controlling costs for millions of Americans. Premium growth has slowed over the last 6 years, compared to the years before the ACA.

Mr. Speaker, if Republicans proceed with repealing the ACA, they will make America sick again. They will rip health care away from 30 million people and raise premiums for millions of others.

Repealing the ACA will move us from true care to total chaos. Republicans are blinded to the success of the Affordable Care Act. Repealing the Affordable Care Act is not logical, it is ideological, and I would strongly urge my Republican colleagues to start looking at this practically rather than ideologically.

REMEMBERING RONNIE HAWKINS

(Mr. MCHENRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCHENRY. Mr. Speaker, I rise today to honor a dear friend, constituent, and tremendous public servant in North Carolina, Cleveland County Commissioner Ronnie Hawkins.

Ronnie passed away right before Christmas, after a lengthy illness, but it wasn't one that slowed him. Throughout his illness, Ronnie displayed the same passion for helping others he showed throughout his career of public service.

A native of Cleveland County, Ronnie was an Army veteran and devoted husband to his wife, Libby. He was a respected and compassionate funeral director, comforting families in their time of need and grief. He took the same type of caring and compassionate approach to his service as one of Cleveland County's longest-serving elected officials, serving 16 years on the Cleveland County Commission, as well as 12 years on the Kings Mountain School Board. He never forgot who was actually his boss at home: his constituents.

Ronnie was a dear friend, and I extend my thoughts and prayers to his wife, Libby, his family, and his friends.

FEDERAL WORKERS

(Mr. KILMER asked and was given permission to address the House for 1 minute.)

Mr. KILMER. Mr. Speaker, I rise today to defend jobs.

In my region, Federal workers at Olympic National Park, which brings millions of visitors to our area, help that park run smoothly. They provide needed health services and care for our veterans at local VA facilities. Federal workers serve our Nation and help our sailors and submariners be safe through their work at the Puget Sound Naval Shipyard, which has been operating for 125 years.

We should have admiration and respect for the work they do. I don't think that this Chamber did right by them this week. That is because the
