

the Cities program is fully implemented, it will protect nearly 100 million people across this country.

I would like to thank the Department of Homeland Security for its hard work and commitment to this program. Given the alarming terrorist threat from ISIS and al Qaeda and their willingness to carry out an attack using a weapon of mass destruction, this program could not be more vital.

Mr. Speaker, I urge my colleagues to join me in supporting H.R. 655.

I reserve the balance of my time.

Mr. RICHMOND. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 655.

For over a decade, the Securing the Cities program has provided a growing number of first responders from New York City and Newark, New Jersey to Los Angeles and Long Beach to Washington, D.C., Houston, and Chicago with the tools they need to detect radiological and nuclear threats.

Securing the Cities is administered by the Department of Homeland Security's Domestic Nuclear Detection Office, DNDO, which houses the Department's experts on preparing for and responding to rad/nuc events.

The program makes funding available to participating jurisdictions for planning and analysis related to radiological and nuclear threats, as well as equipment purchases, training, and exercises.

Through this program, DNDO supports grantees by providing subject matter expertise, training, coordination, and technological support. H.R. 655 would formally authorize the existing Securing the Cities program and improve it by directing the Government Accountability Office to assess the program and offer recommendations for how it could become more effective.

Mr. Speaker, this bill passed the House last Congress by a vote of 441-4.

Mr. Speaker, the Securing the Cities program plays a critical role in protecting communities across America from the threat posed by radiological and nuclear weapons.

H.R. 655 will ensure that this important program continues and becomes more robust in future years. I urge my colleagues to support H.R. 655.

Mr. Speaker, I yield back the balance of my time.

Mr. DONOVAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I once again urge my colleagues to support H.R. 655, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. DONOVAN) that the House suspend the rules and pass the bill, H.R. 655.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

#### MEDICAL PREPAREDNESS ALLOWABLE USE ACT

Mr. DONOVAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 437) to amend the Homeland Security Act of 2002 to codify authority under existing grant guidance authorizing use of Urban Area Security Initiative and State Homeland Security Grant Program funding for enhancing medical preparedness, medical surge capacity, and mass prophylaxis capabilities.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 437

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Medical Preparedness Allowable Use Act".

#### SEC. 2. USE OF CERTAIN HOMELAND SECURITY GRANT FUNDS FOR ENHANCING MEDICAL PREPAREDNESS, MEDICAL SURGE CAPACITY, AND MASS PROPHYLAXIS CAPABILITIES.

Section 2008 of the Homeland Security Act of 2002 (6 U.S.C. 609) is amended—

(1) in subsection (a)—

(A) by redesignating paragraphs (10) through (14) as paragraphs (11) through (15), respectively; and

(B) by inserting after paragraph (9) the following new paragraph (10):

"(10) enhancing medical preparedness, medical surge capacity, and mass prophylaxis capabilities, including the development and maintenance of an initial pharmaceutical stockpile, including medical kits, and diagnostics sufficient to protect first responders, their families, immediate victims, and vulnerable populations from a chemical or biological event;" and

(2) in subsection (b)(3)(B), by striking "subsection (a)(10)" and inserting "subsection (a)(11)".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. DONOVAN) and the gentleman from Louisiana (Mr. RICHMOND) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

#### GENERAL LEAVE

Mr. DONOVAN. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and include any extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. DONOVAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as chairman of the Committee on Homeland Security's Subcommittee on Emergency Preparedness, Response, and Communications, I rise today in support of H.R. 437, the Medical Preparedness Allowable Use Act. H.R. 437 was introduced by Congressman BILIRAKIS, a former chairman of the Emergency Preparedness, Response, and Communications Subcommittee.

This bill amends the Homeland Security Act of 2002 to make it clear that

State Homeland Security Grant Program and Urban Area Security Initiative Grant funds may be used to enhance medical preparedness and purchase medical countermeasures.

H.R. 437 codifies current grant guidance to ensure that recipients of the State Homeland Security Grant Program and Urban Area Security Initiative Grants will continue to be able to use these funds for medical preparedness equipment and activities.

Mr. Speaker, the threat of a terrorist attack using a chemical or biological agent is real. We must ensure our first responders have the tools and capabilities they need should such an event occur.

In my district, the City of New York has put their Homeland Security grants to good use for this purpose. In 2014, they held a full-scale exercise which simulated an anthrax attack on the city. Participants from agencies across the city, including the health department, the New York City Police Department, and the Office of Emergency Management worked to set up locations to quickly distribute life-saving medical countermeasures to city residents across the five boroughs.

We must ensure that the State Homeland Security Grant Program and the Urban Areas Security Initiative funds continue to be available, despite any changes to yearly grant guidance, for exercises like the one conducted by New York City and other important medical preparedness activities. This bill does just that.

Identical language to H.R. 437 passed the House last Congress by a vote of 377-2.

Mr. Speaker, I thank Congressman BILIRAKIS for introducing this commonsense bill. I urge all Members to join me in supporting this bill.

I reserve the balance of my time.

□ 1630

Mr. RICHMOND. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 437. Whether the result of a naturally occurring outbreak, like Zika or Ebola, or an intentional release of bio-pathogens, like anthrax attacks that shook Washington immediately after 9/11, we must ensure that our public health and medical response communities are prepared to respond to events that may stretch their capabilities.

In recent years, the Metropolitan Medical Response System Program has been eliminated, and grants supported by the Department of Health and Human Services, such as the Hospital Preparedness Program, have been cut. As a result, many jurisdictions have been forced to make tough choices and, in many cases, divert other limited funding to support medical preparedness.

Under current law, the Urban Area Security Initiative and the State Homeland Security Grant Program funding can be used to bolster medical preparedness capabilities, but the ability to use funds for that purpose is contingent on the grant guidance issued

every year. H.R. 437 would make enhancing medical preparedness and medical surge capacity and capabilities eligible uses of Homeland Security Grant funds under the law.

This measure passed in the House last Congress, and I urge my colleagues to again support this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. DONOVAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida (Mr. BILIRAKIS).

Mr. BILIRAKIS. Mr. Speaker, I thank the ranking member for his support.

I rise today in support of critical legislation to support public safety and first responders, the Medical Preparedness Allowable Use Act, H.R. 437.

My bill will help secure medical countermeasures for first responders, ensuring we are prepared for any type of emergency. For instance, last year, in Florida, we faced the outbreak of the Zika virus.

The Medical Preparedness Allowable Use Act means that reliable grant funding would be available to conduct medical preparedness activities such as planning, training, and purchasing protective equipment to combat Zika or other public health threats going forward nationwide. When the worst occurs, our first responders are there for us on the front lines.

I consistently find myself in awe of these brave men and women and the sacrifices they make on the public's behalf. They are heroes. The least we can do is make sure they have the tools they need to do their jobs and keep us safe. That is what my bill seeks to accomplish. We want to keep them safe as well, Mr. Speaker.

The legislation authorizes grant funds for the stockpiling of countermeasures, including medical kits, protective gear, ventilators, and more. This should give us all peace of mind to know this vital equipment will be there in case of a crisis.

Importantly, the grant fund used in H.R. 437 already exists. The bill does not require new or additional funding. Also significant, this bill has received strong bipartisan support.

I thank my colleagues, Representatives SUSAN BROOKS and PETER KING, for being original cosponsors of H.R. 437.

I was inspired to write this legislation during my time as subcommittee chairman on the Homeland Security Committee after a series of hearings with folks from the emergency response community. They expressed the urgent need for stockpiling these medical countermeasures and for providing first responders the assurance that grant funding may be used to support them now and in the future. They need certainty, Mr. Speaker.

I am proud to have the support of the Emergency Services Coalition for Medical Preparedness and the International Association of Fire Chiefs on

this issue. The Medical Preparedness Allowable Use Act is going to make a difference to protect the public and protect our protectors. I strongly urge passage today.

Mr. RICHMOND. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I strongly support H.R. 437. Developing and maintaining medical preparedness is an important part of national preparedness. State and local governments should not have to wonder whether they will be able to use DHS grant funds for this purpose from year to year.

I urge my colleagues to support H.R. 437.

Mr. Speaker, I yield back the balance of my time.

Mr. DONOVAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I once again urge my colleagues to support H.R. 437.

I yield back the balance of my time. The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. DONOVAN) that the House suspend the rules and pass the bill, H.R. 437.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

#### UNITED STATES-ISRAEL CYBERSECURITY COOPERATION ENHANCEMENT ACT OF 2017

Mr. RATCLIFFE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 612) to establish a grant program at the Department of Homeland Security to promote cooperative research and development between the United States and Israel on cybersecurity.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 612

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "United States-Israel Cybersecurity Cooperation Enhancement Act of 2017".

#### SEC. 2. UNITED STATES-ISRAEL CYBERSECURITY COOPERATION.

##### (a) GRANT PROGRAM.—

(1) ESTABLISHMENT.—The Secretary, in accordance with the agreement entitled the "Agreement between the Government of the United States of America and the Government of the State of Israel on Cooperation in Science and Technology for Homeland Security Matters", dated May 29, 2008 (or successor agreement), and the requirements specified in paragraph (2), shall establish a grant program at the Department to support—

(A) cybersecurity research and development; and

(B) demonstration and commercialization of cybersecurity technology.

##### (2) REQUIREMENTS.—

(A) APPLICABILITY.—Notwithstanding any other provision of law, in carrying out a research, development, demonstration, or com-

mercial application program or activity that is authorized under this section, the Secretary shall require cost sharing in accordance with this paragraph.

##### (B) RESEARCH AND DEVELOPMENT.—

(i) IN GENERAL.—Except as provided in clause (ii), the Secretary shall require not less than 50 percent of the cost of a research, development, demonstration, or commercial application program or activity described in subparagraph (A) to be provided by a non-Federal source.

(ii) REDUCTION.—The Secretary may reduce or eliminate, on a case-by-case basis, the percentage requirement specified in clause (i) if the Secretary determines that such reduction or elimination is necessary and appropriate.

(C) MERIT REVIEW.—In carrying out a research, development, demonstration, or commercial application program or activity that is authorized under this section, awards shall be made only after an impartial review of the scientific and technical merit of the proposals for such awards has been carried out by or for the Department.

(D) REVIEW PROCESSES.—In carrying out a review under subparagraph (C), the Secretary may use merit review processes developed under section 302(14) of the Homeland Security Act of 2002 (6 U.S.C. 182(14)).

(3) ELIGIBLE APPLICANTS.—An applicant shall be eligible to receive a grant under this subsection if the project of such applicant—

(A) addresses a requirement in the area of cybersecurity research or cybersecurity technology, as determined by the Secretary; and

(B) is a joint venture between—

(i) (I) a for-profit business entity, academic institution, National Laboratory (as defined in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801)), or nonprofit entity in the United States; and

(II) a for-profit business entity, academic institution, or nonprofit entity in Israel; or

(ii) (I) the Federal Government; and

(II) the Government of Israel.

(4) APPLICATIONS.—To be eligible to receive a grant under this subsection, an applicant shall submit to the Secretary an application for such grant in accordance with procedures established by the Secretary, in consultation with the advisory board established under paragraph (5).

##### (5) ADVISORY BOARD.—

(A) ESTABLISHMENT.—The Secretary shall establish an advisory board to—

(i) monitor the method by which grants are awarded under this subsection; and

(ii) provide to the Secretary periodic performance reviews of actions taken to carry out this subsection.

(B) COMPOSITION.—The advisory board established under subparagraph (A) shall be composed of three members, to be appointed by the Secretary, of whom—

(i) one shall be a representative of the Federal Government;

(ii) one shall be selected from a list of nominees provided by the United States-Israel Binational Science Foundation; and

(iii) one shall be selected from a list of nominees provided by the United States-Israel Binational Industrial Research and Development Foundation.

(6) CONTRIBUTED FUNDS.—Notwithstanding any other provision of law, the Secretary may accept or retain funds contributed by any person, government entity, or organization for purposes of carrying out this subsection. Such funds shall be available, subject to appropriation, without fiscal year limitation.

(7) REPORT.—Not later than 180 days after the date of completion of a project for which a grant is provided under this subsection, the
