

into the United States, shut off the illegal traffic into America, shut off the terrorists who are sneaking into America because the easiest and most reliable way for them to get here is across our southern border. If we do all of that, there will be respect for both countries that will be established.

And I would say this to President Trump. And that is, he is a builder, I am a builder. I don't have any doubt about how to build that wall or to build the fences on the south and north side of that so that we have two no-man's lands to patrol. I don't know that he has any doubt about it either. He has said that he will build a big, beautiful wall.

Well, I am looking for the architect's ideas on beauty. That is not my forte. But the structural functionality and the efficiency of its construction is my forte. And I encourage that we draw up the plans and designs for this and let contracts to those contractors who can effectively and efficiently do this in a competitive low-bid fashion with a proper inspection, and we will build that barrier that can stand for a long time, designed to keep people and contraband out, as every other wall in the history of the world, including the Great Wall of China and the walls that were built in northern England and those across northern Germany. The Romans built walls there to protect themselves as well.

Each wall, with the exception of those designed by communists to keep their subjects in, has been designed to keep people out. There is a huge moral difference between a wall to keep people in and a wall to keep criminals, terrorists, and also decent people, and contraband out. It is a simple equation.

Mr. Speaker, I appreciate your attention here this evening on this topic. I look forward to the construction of the fence, the wall, and the fence on our southern border, and the restoration of the respect for the rule of law.

I yield back the balance of my time.
