

per capita veteran populations in the Nation, with many Montanans serving in the Guard or Reserve. The distances between homes and training sites can be challenging. As the son of a marine, I understand the costs associated with service.

With a deep appreciation for the commitment and sacrifice expected from members of Guard and Reserve, I offer the Tax Relief for Guard and Reserve Training Act. This bill lowers the mileage threshold from 100 to 50 for tax-deductible expenses. This change would put the Guard and Reserve on equal footing with most government and military travel regulations.

The Tax Relief for Guard and Reserve Training Act is a reasonable reform, specifically targeted at those who are often asked to shoulder burdens for the common good.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

Whereas Henrietta Lacks, an African-American woman born on August 1, 1920, in Roanoke, Virginia, was raised by her grandfather on a tobacco farm in Clover, Virginia;

Whereas Henrietta Lacks married David "Day" Lacks in 1941 in Halifax County, Virginia, and they later moved to the Baltimore County, Maryland, community of Turner Station, to build a life for themselves and their 5 children, Lawrence, Elsie, David, Deborah, and Joseph (Zakariyya);

Whereas Henrietta Lacks died 8 months after her cancer diagnosis, leaving behind her children, husband, and "immortal cells" that would change the world;

Whereas HeLa cells were the first immortal line of human cells, doubling every 24 hours, dividing and replenishing indefinitely in a laboratory, and successfully growing outside of the human body for longer than 36 hours;

Whereas Henrietta Lacks' cells are unique, grow by the millions, and are commercialized and distributed worldwide to researchers, resulting in advances in medicine;

Whereas the advances made possible by Henrietta Lacks' cells and the revenues the advances generated were not known to her family for more than 20 years;

Whereas an estimated 50,000,000 metric tons of HeLa cells have been distributed around the world to become the subject of more than 74,000 studies;

Whereas Henrietta Lacks' prolific cells continue to grow and contribute to remarkable advances in medicine, including the development of the polio vaccine, and drugs for treating the effects of cancer, HIV/AIDS, hemophilia, leukemia, and Parkinson's disease;

Whereas Henrietta Lacks' cells have been used in research that has contributed to the understanding of the effects of radiation and zero gravity on human cells;

Whereas Henrietta Lacks' immortal cells have informed research on chromosomal conditions, cancer, gene mapping, and precision medicine;

Whereas Henrietta Lacks' legacy has been recognized around the world through memorials, conferences, museum exhibitions, libraries, and print and visual media;

Whereas Henrietta Lacks and her family's experience is fundamental to modern bioethics policies and informed consent laws that benefit patients nationwide by building patient trust and protecting research participants;

Whereas the family of Henrietta Lacks entered the groundbreaking HeLa Genome Data Use Agreement in 2013 with the medical, scientific, and bioethics communities, giving the family a role in regulating HeLa genome sequences and discoveries;
