

force for political stability and economic progress in the Middle East.

The facilities being constructed are similar to other facilities built in the past by USACE in other Middle Eastern countries. These facilities replace existing facilities and will provide autonomous airbase operations to the Kuwait Air Force. The new airbase will ensure the continued readiness of the Kuwait Air Force and allow for the continued education of current and future Kuwait Air Force personnel. The construction of this airbase will enable Kuwait to enhance the operational effectiveness of its military and promote security and stability throughout Kuwait. Kuwait will have no difficulty absorbing this additional capability into its armed forces.

The proposed sale of this infrastructure and support will not alter the basic military balance in the region.

USACE is the principal organization that will direct and manage this program. USACE will provide services through both in-house personnel and contract services. The estimated number of U.S. Government and contractor representatives to be assigned to Kuwait to implement the provisions of this proposed sale will be determined as a result of program definitization.

There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Kuwait.

REMEMBERING SHAWN GILBERT

• Mr. DAINES. Mr. President, today I wish to honor the life of Shawn Gilbert. Shawn was a prominent member of Montana's Little Shell Tribal community who tragically lost his battle with cancer this past January. Even in his final days, Shawn maintained a positive attitude, and all who knew him fondly remember the constant smile on his face. As is the Montana way, Shawn loved the great outdoors. He enjoyed snowmobiling, four-wheeling, and hunting with his family, as well as reloading his own ammunition and target practice with his pistols. Shawn served his people as a member of the tribal council and dreamt of the day his nation, Little Shell Nation, would be formally recognized. It is our duty and my honor to keep that dream alive as my colleague, Senator TESTER, and I work to enact into law legislation to do just that. I had the pleasure of meeting Shawn while he was in office at the Little Shell Tribal headquarters. Along with his fellow tribal leaders, Shawn presented me with a beautiful beaded bolo tie which sits on display in my office. It serves as a daily reminder of the Little Shell people and of Shawn. May God watch over his soul as his light lives on through the memories of his loved ones.●

RECOGNIZING THE LEWISTON HIGH SCHOOL COMPETITION CHEERLEADING TEAM

• Mr. KING. Mr. President, each year high school student-athletes from

across the country compete for their State championship title. The journey of a championship team is not merely a story of glory or success, but rather an aggregation of hard work, sportsmanship, and persistence. Today I wish to extend recognition to a team in Maine whose perseverance and teamwork have made them a force to be reckoned with each season. I am proud to highlight the achievements of the Lewiston High School Blue Devils competition cheerleading team who, on the path to their third consecutive Class A State title for the sixth time in the last seven seasons, have demonstrated a remarkable level of drive, ambition, and pride towards achieving success.

Lewiston High School's nationally recognized and distinguished competition cheer program has a long history of talent and teamwork symbolic of the pride felt for the Blue Devils throughout the community. As the eighth consecutive Class A North/East Regional Champions, the cheer team has experienced few losses in recent years, but the program and student-athletes see each challenging loss as an opportunity to work harder and be stronger. The Blue Devils fulfilled that promise and more this past season. After a loss in the Kennebec Valley Athletic Conference, KVAC, the team responded with an impressive display of discipline and grit when they exceeded expectations and won the State title with a score of 95—representative of a nearly seamless routine.

The Lewiston cheer program is much more than a team of exceptional student-athletes. These talented and aspiring young people have contributed to a cheer dynasty that inspires young athletes and is recognized as a premier program throughout the State. The pride felt for the program, team members, peers, and the Lewiston community at large shows the level of dedication and ambition that has led to so many impressive successes.

I wish to join the city of Lewiston and the entire Maine community in congratulating the Lewiston High School competition cheering team for their well-earned recognition. The program has built a legacy of success, instilling core values of hard work, perseverance, and sportsmanship and imbues all that is significant about participation and competition in sport at any level. For this and so much more, the Blue Devils competition cheer team are true champions.●

RECOGNIZING GARBAGE TO GARDEN

• Mr. KING. Mr. President, today I wish to honor the work of Tyler Frank and his award-winning company Garbage to Garden—a curbside composting service that was founded in Portland, ME. In August 2012, Tyler Frank was living in Portland and wanted to start a compost pile, but didn't have the space in his urban surroundings. He and his roommates wondered why they

couldn't put compost out on the curb like they do with their trash and recycling, and with that, Garbage to Garden was born. Tyler set up a table on Congress Street during a First Friday Artwalk, and by the end of the day, 17 Portland residents had signed on to his curbside composting service. Today one in seven Portland households participates in Garbage to Garden. Tyler and his partners have expanded their service to eight other Maine communities and three communities in Massachusetts.

Tyler was able to create a unique and effective composting company, and with more than 8,000 households, schools, restaurants, and businesses using their services, they are the most successful curbside composting company in the country. Tyler has created a sustainable and local experience. Food scraps are composted by Benson Farms in Gorham, and all food waste can be incorporated into Garbage to Garden's compost, due to the high-heat process they use. Garbage to Garden also collects used cooking oil, and Maine Standard Biofuels turns it into biofuel and soap, which is then used to wash the composting buckets. Using clean composting buckets is a key part of Garbage to Garden's process, eliminating the "ick factor" that turns many people off from composting. Garbage to Garden even offers free service to those who volunteer for the company or for one of their partner organizations. Every day, Garbage to Garden diverts 20 tons of food scraps from landfills, and over a 3-year period, the average household will divert 1 ton of food waste from landfills.

Garbage to Garden is a shining example of what can happen when you have a little determination, a great idea, and passion to make a difference. Tyler is an excellent example of a hard-working Mainer who is making a difference in our State and beyond. I look forward to following the company's continued growth and remarkable service to Maine communities. Thank you, Tyler, for all you have already done for the greater Portland community and our great State of Maine. We are lucky to have people like you working to better our communities.●
