

Girls of Steel Robotics team on winning the Engineering Inspiration Award at the 2017 Greater Pittsburgh Regional FIRST Robotics Competition in California, PA. This award celebrates outstanding success in advancing respect and appreciation for engineering within a team's school and community, and it qualified them to attend Championships in St. Louis April 26–29, 2017 for the seventh year in a row. This was their best year at Championships, where they ranked 28 out of 68, with 6 wins, 3 losses, and 1 tie match.

I think that placing so high nationally and winning the Engineering Inspiration award at the regional competition speaks volumes about the dedication these young women have demonstrated in pursuing Science, Technology, Engineering, and Math careers, sustaining their team, and collectively spending thousands of hours doing outreach in the community. Girls of Steel are often referred to as the hometown favorite robotics group and continue to be featured in videos, print media, and blog posts. In October 2016, they were represented at The White House Frontiers Conference in Pittsburgh where President Obama recognized the Girls of Steel teams.

George Kantor, Senior Systems Scientist at Carnegie Mellon University's Field Robotics Center, won the prestigious Woodie Flowers Finalist Award at the Greater Pittsburgh Regional competition. This award is presented to mentors in the robotics competition who best lead, inspire, and empower their teams using excellent communication skills.

FIRST, which stands for "For Inspiration and Recognition of Science and Technology," is an organization dedicated to engaging students in Science, Technology, Engineering, and Math (STEM) fields. The FIRST Robotics Competition allows students to apply creativity and critical thinking in the demanding and competitive field of robotics, all while instilling a strong sense of pride in the participants. Hundreds of thousands of students gain practical, team-based engineering experience through FIRST every year.

As a founder and co-chair of the Congressional Robotics Caucus, I believe competitions like these are important tools for helping young people to explore potential careers in STEM. I've witnessed firsthand the remarkable economic growth and job creation that these fields can bring in my home district, and I strongly believe that these fields are crucial to our nation's future prosperity. I want to commend organizations like FIRST for the important work they do in encouraging young people to pursue STEM careers.

Sixty-three young women from 8th through 12th grades associated with schools located in and around Pittsburgh represent this year's Girls of Steel program, and in recognition of their hard work, intelligence, and teamwork, I would like to mention each of these inspiring young ladies by name. They are Alexandria Adams, Abhi Ajay, Aeryn Anderson, Peyton Balkovec, Arushi Bandi, Emilia Bianchini, Emma Burnett, Rosy Chen, Maya Cranor, Maansi Dasari, Hope DiGioia, Riley Doyle, Sofia Heller, Kristina Hilko, Madelyn Human, Rozie Fero, Corinne Hartman, Anna Jablonowski, Caroline Kenney, Isabelle Kowenhoven, Mary Laird, Jisue Lee, Agathe Legault, Rosie Li, Alice Liu, Sally Liu, Gayathri Manchella, Eve Mango, Jordan Martinez, Maia McCabe, Svea McCann, Sree Mekala, Cheyenne Meyers, Abbey Murcek, Anna Nesbitt,

Anne Kailin Northam, Jimin Oh, Helen Paulini, Lehka Pendyala, Ananya Rao, Priya Ray, Maité Sadeh, Rachel Sadeh, Lauren Scheller-Wolf, Sarah Seay, Alexa Selwood, Swathi Senthil, Kriti Shah, Vivian Shao, Lauren Shovlin, Makayla Shreve, Amari Smith, Imani Smith, Kavya Soman, Ace Song, Adison Staskiewicz, JeanMarie Trichel, Mikayla Trost, Langley Turcsanyi, Anja Vogt, Janet Wang, Rebecca Wettergreen, and Ziya Xu.

Additionally, I want to convey my sincere appreciation to the faculty and staff of Carnegie Mellon University's Field Robotics Center, who have mentored the Girls of Steel since 2010. Because of their efforts, more young women experience real-world technological challenges and learn from some of the nation's best at solving such problems. These experiences will certainly benefit these young women in the future, no matter what careers they eventually choose to pursue.

I congratulate the Girls of Steel and wish them all continued success in their academic and professional endeavors.

HONORING KATHY KRUSE

HON. JOSEPH P. KENNEDY III

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 2, 2017

Mr. KENNEDY. Mr. Speaker, I rise today to recognize Kathleen Kruse, a long-time member of Senator Ted Kennedy's staff and a tireless advocate for arts and cultural policy. Kathy is stepping down from her role as Vice President of Institutional Affairs and Assistant Secretary of the Board of Trustees of the John F. Kennedy Center for the Performing Arts, where she has served with distinction for the past seven years.

Kathy had a long and accomplished career in the Senate as the Cultural Policy Advisor and Senior Counselor for Senator Kennedy for 30 years. In this capacity and throughout her tenure, she was the staff liaison for Senator Kennedy to the Kennedy Center's Board of Trustees. During her time in the Senate, she was a fierce advocate for arts organizations nationally, authored key Kennedy Center legislation and served as a trusted liaison to and friend of the Kennedy family.

I would also like to acknowledge the generosity of Kathy's daughter, Sasha, who has supported her mother's work in public service, and shared her with us during her many late nights in the Senate and at the Kennedy Center.

Kathy is a fixture in the arts and cultural landscape in Washington, DC and across the country, and she will be dearly missed. We are certain that she will find tremendous success in her next professional ventures and that she will enjoy spending more time with her family. On behalf of the Kennedy Center's Board of Trustees, I offer my sincere gratitude to Kathy for her many contributions to the United States Congress, the Kennedy Center and our nation.

REMEMBERING FORMER BOULDER CITY MAYOR ROBERT STANLEY FERRARO

HON. JACKY ROSEN

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 2, 2017

Ms. ROSEN. Mr. Speaker, I rise today to remember and commemorate the life of Robert Stanley Ferraro, a pillar in our community and one of the longest-serving public officials in Nevada history, who passed away last week at the age of 81.

Robert Ferraro served on the Boulder City Council for 31 years and was Boulder City's first elected mayor, and successfully stood for election nine times. He knocked on every voter's door, and provided leadership to one of the most unique communities in our state.

Bob led the effort to maintain Boulder City's character as a special community, and to be the "Clean, Green Boulder City" that many of my constituents call home, and thousands visit each year.

He was named Nevada Public Official of the Year in 1986, Community Leader of the Year in 2001, and led a life that was a true American success story, coming from humble beginnings to be one of the great civic leaders in our state. He will be greatly missed, and my thoughts and prayers are with his family and friends.

PIMA COUNCIL ON AGING—50TH ANNIVERSARY

HON. RAÚL M. GRIJALVA

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 2, 2017

Mr. GRIJALVA. Mr. Speaker, I rise today to honor and congratulate Pima Council on Aging on its 50th anniversary of service to older adults and their families in Congressional District Three.

As one of the nation's oldest Area Agencies on Aging, Pima Council on Aging (PCOA) has advocated on behalf of older adults since the days when 30 percent of Americans aged 60 and older lived in poverty. That number has been reduced by nearly two-thirds over the past five decades, but there is much work still to be done. PCOA's efforts are tireless and they continue to be at the forefront of advocacy and services to older adults in Pima County.

The work done by PCOA and the aging services network is more critical now than ever before. Each day, up to 10,000 baby boomers are turning 65 and over the next twenty years, 75 million baby boomers will reach retirement age. In Pima County, older adults are the fastest growing portion of the population. Continuing to work towards solutions and support systems to combat pressing concerns like the fear of falling and understanding the Medicare system are paramount to PCOA's success and our communal success.

Over the years, I've come to know the organization well. Since the beginning, Marian Lupu was the zealous driving force behind better care and programs for older adults in Pima County, the State of Arizona, nationally,
