

EXTENSIONS OF REMARKS

CONGRATULATING PRESIDENT
TSAI ING-WEN OF TAIWAN

HON. JOE BARTON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, May 19, 2017

Mr. BARTON. Mr. Speaker, tomorrow, May 20th, is the first anniversary of President Tsai Ing-wen's inauguration. Having met President Tsai twice during her first year in office, I would like to congratulate her and the people of Taiwan on this occasion.

Taiwan has become a vibrant democracy, where power at the presidential level has been peacefully transferred from one political party to another three times—most recently in last year's election. Taiwan's democracy is a shining example for both the Asia-Pacific region, and for the world. At the same time, Taiwan has endeavored to be a good global citizen.

Mr. Speaker, I treasure the U.S.-Taiwan relationship, which is one between like-minded friends who share the same values. I admire the distance the people of Taiwan have come in the face of many challenges. As a friend to Taiwan, I commend its people and President Tsai on this anniversary.

RAPID DNA ACT OF 2017

SPEECH OF

HON. HENRY C. "HANK" JOHNSON, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 16, 2017

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today in support of H.R. 510, the Rapid DNA Act of 2017.

The Rapid DNA Act, or H.R. 510, will aid law enforcement in its effort to solve cases and bring justice to the victims of crimes. In particular, victims of rape and sexual assault will be able to regain peace of mind because this legislation increases the likelihood that these perpetrators will be captured. The language of the Rapid DNA Act gives law enforcement investigators the ability to facilitate the quick testing of DNA tests, such as rape kits. DNA material is sensitive and has only a limited time before it is rendered useless. This act addresses the issue by removing some of the preexisting regulations and red tape that have hindered this process in the past.

It is a disservice to the American people to deny them the results from a Rape Kit. They deserve the truth. The Constitution of the United States ensures that every citizen of the United States of America has the right to privacy, as stated in the Fourth Amendment to the Bill of Rights of the U.S. Constitution. The Rapid DNA Act of 2017 will increase the chance that those who committed such wrongs and those who have inhumanely violated the basic rights and dignity of another

person are brought to justice by streamlining the process and by reducing regulations around the testing of these kits.

H.R. 510 would provide amendments to the DNA Identification Act of 1994 and the DNA Backlog Analysis Backlog Act of 2000 that require more external regulation for all Rapid DNA tests. Organizations performing such tests would still be audited by the Federal government to ensure the quality of test. It will also be accredited by credible, nonprofit institutions that will lend the imprimatur of reliability.

I fully support this measure and I am firmly committed to bringing justice to offenders of these crimes. This bill will provide relief to the countless victims of sexual assault. Rape kits often go untested because of existing regulations that make it more difficult to test such time sensitive data. I support this legislation.

Their ability to work as a team, striving toward a common goal, will prove to be a lifelong skill. The encouragement to reach that goal is CE All-Stars passion.

Spirit Xplosion Home of CE All Stars competitive teams are not recreational. They train to compete at a high level of intensity. Two of their main goals are to create award winning routines, and to be an active group in the community. This type of goal requires commitment to attendance and structured workouts. Spirit Xplosion Home of CE All-Stars athletes commit twelve months to the program. CE All-Stars is a family and love building new relationships with everyone that walks through their doors.

Mr. Speaker, I ask my colleagues to join me in recognizing an outstanding minority business in the Mississippi Delta.
