

shut down four Iowa health clinics because of the law signed by Governor Branstad that blocked its funding. These clinics served 15,000 patients over the past 3 years—not providing abortions. The great majority of these 15,000 patients got primary care, preventive care, contraceptive coverage—all the things that women in every community in this country demand.

Many live in rural areas. Many have nowhere else to turn for care. Now, where do all of these women go for cancer screenings, diabetes screenings, and other preventive care? Yet Governor Branstad has signed legislation taking it away, forcing the shutdown of these clinics.

Access to healthcare is a basic right in this country, and it should be in all 50 States. We need to take care of American patients and American workers and set an example for the world. Our diplomats must be that example. But, instead, we now have a man at the negotiating table who again and again and again has proven that he wants to turn back the clock on healthcare and on workers' rights.

We need an ambassador with a record of championing American values. Only then can we be confident that he will stand up to China and put Ohio workers and American workers first. Frankly, I question Governor Branstad's ability to be that ambassador—to represent the people of this great country in the People's Republic of China.
