

[From the Lexington Herald-Leader, June 16, 2017]

R.J. CORMAN WAS "LARGER THAN LIFE:" HE'S GONE, BUT HIS BUSINESS KEEPS GROWING
(By Tom Eblen)

One of the hardest things for a company to do is survive and grow after the death of a larger-than-life founder like Richard Jay Corman.

Carol Loomis, a legendary business journalist who interviewed America's most famous executives, wrote in a 2011 profile that Corman "just might be . . . the most unforgettable character I've ever met in my more than half-century at Fortune (magazine) . . . In the way he operates—and faces the world—Rick Gorman is truly larger than life."

Corman, 58, died in August 2013 after a dozen years of fighting multiple myeloma, a blood cancer. But R.J. Corman Railroad Group, the Nicholasville company he started in 1973 with a backhoe and a dump truck, doesn't seem to have missed a beat.

"Rick built a heck of a company and a nationally known and recognized organization," said Ed Quinn, who worked seven years for Corman and returned to the company last year as president and CEO after the retirement of Craig King, who led the company after Corman's death and remains on the board. "That's what we trade on every day and that's why we continue to grow."

The company, owned by a trust controlled by Corman's sister and three of his five children, has continued growing and acquiring businesses over the past four years. It also continues to be a major benefactor to Central Kentucky charities.

Probate documents filed in November 2013 valued R.J. Corman Railroad Group at \$226.7 million. Since then, employment has grown from 1,100 to more than 1,600. Although the company doesn't release financials, executives say annual revenues now exceed \$350 million.

This year, the group's R.J. Corman Railroad Co. is celebrating its 30th year. It began with the purchase of two Kentucky short line railroads in 1987 as federal deregulation allowed major railroads to sell off lines they no longer wanted.

Since Corman's death, the company has acquired short line railroads in Texas and South Carolina, bringing its operations to 11 railroad lines with 904 miles of track in nine states. The company owns more than 100 locomotives and 475 rail cars, and last year they hauled more than 65,000 car loads of cargo.

Those railroads include the 148-mile Central Kentucky Line that runs through Lexington, where Corman's signature red locomotives and white cross-rail fences have become a landmark at the corner of West Main Street and Oliver Lewis Way. The company's first short line, in Bardstown, includes My Old Kentucky Home Dinner Train.

Next year, R.J. Corman Railroad Group will mark the 45th anniversary of its railroad services business, which Corman began by repairing and refurbishing track for major railroads. Those operations are based at shops on the company's 1,600-acre main campus in Jessamine County and at field locations in 23 states.

The company's best-known operations are its derailment and disaster recovery units, which can dispatch teams around-the-clock to handle some of the industry's biggest breakdowns and cleanup jobs. R.J. Corman's most famous job was helping clean up Gulf Coast rail infrastructure after Hurricane Katrina in 2005. Last year, the company logged 4,560 emergency responses, including major floods in the Midwest.

The railroad group also has other businesses that serve both its short line oper-

ations and all seven of the nation's "Class 1" railroads. Those include track construction and maintenance, equipment maintenance, materials management, signaling design and construction, and railroad employee training. The company also offers railcar loading services for such major manufacturers as Toyota.

Railroads were the kings of American commerce from the Civil War until World War II, but declined after the Interstate highway system was built, leading to the rise of the long-haul trucking industry. But railroads have seen a resurgence as part of the world's multi-modal transportation network. Rail is still the most economical way to move many goods at least part of the distances they need to travel.

"While trucks and trains are competitive, there's also interconnection," said Noel Rush, the company's senior vice president for commercial development. "This is still a business you will see in 50 years."

And by reopening short lines that major railroads close, the company can provide an economic boost to small towns and rural areas with factories and warehouses that shut down when the railroad lines did, said Brian Miller, that division's president. He said the company is always looking for more short lines to buy.

"It has blossomed into a very good business for us," said April Colyer, Corman's daughter and the company's public relations director. "We're always trying to watch and adapt to the needs of customers in our industry."

100TH ANNIVERSARY OF WATT GLOBAL MEDIA

Mr. DURBIN. Mr. President, I want to take a few minutes to recognize WATT Global Media, a leading provider of business information and marketing solutions for the agribusiness industry worldwide, headquartered in Rockford, IL. More than 100 years ago, on July 6, 1917, WATT Global Media was born.

WATT Global Media's history began in 1917, when J.W. Watt and Adon Yoder purchased "Poultry Tribune," a magazine published monthly for just 50 cents for an annual subscription. Before Watt and Yoder bought the magazine, its circulation was about 5,000. In a few short years, these young entrepreneurs grew the magazine's circulation by 400 percent. Under Watt's leadership, "Poultry Tribune" quickly became "America's Leading Poultry Farm Magazine" for poultry raisers, peaking in 1940 with a circulation of more than half a million readers.

During the mid-1920s, economic changes in the poultry industry led to the creation of the commercial hatchery industry, which led the staff at "Poultry Tribune" to create "Hatchery Tribune." In 1934, Watt added "Turkey World" to its growing list of publications. WATT Global Media, originally called the Poultry Tribune Company, changed its name in 1944 to Watt Publishing Company. In that same year, the company acquired Better Farming Methods, "The business magazine for leaders who train and advise farmers." As the evolving poultry industry grew, so did Watt Publishing Company.

In 1949, Leslie Watt—the second generation of family leadership—was

named president of Watt Publishing Company and expanded the company into international markets, acquiring "Industria Avicola," a Spanish language magazine targeting the Latin American poultry industry. In 1962, "Poultry International" was created to cater to the poultry and egg industries throughout Europe, Middle East, Africa, and Asia. In the 1980s, Leslie Watt took Watt Publishing Company to China by establishing "Poultry International China Edition" and became one of the first publishers from North America to make Chinese language business-to-business magazines in the People's Republic of China.

In the 1990s, under James W. Watt—the third generation of family leadership—the company expanded its portfolio to include pet food. In 1993, the Petfood Forum was created and grew into the world's largest annual event of its kind. Overnight, Watt became the global pet food market leader for business information—what an accomplishment.

Greg Watt—the fourth generation President and CEO—modernized the company by taking it into the 21st century, expanding across multiple media channels, including online and digital platforms, live events, and magazine channels. In recognition of its global audience, the Watt Publishing Company changed its name to WATT Global Media in 2014. Today, WATT Global Media serves 180,000 professionals in the pet food, poultry, pig, and animal feed industries from over 140 countries.

I will close with this: In 1907, J.W. Watt came to this country from the Orkney Islands, just north of Scotland. He came in search of the American Dream, and boy, did he find it. Despite WATT Global Media's growth and many achievements, its proudest accomplishment is that it has been family-owned for 100 years, and this family business isn't going anywhere. I want to thank J.W. Watt, Leslie Watt, James W. Watt, and Greg Watt—four generations from the Watts family—for their service to Rockford, Illinois, America, and throughout the world. I know the good people at WATT Global Media will continue its simple guiding mission: "to improve the health and well-being of people and animals across the globe."

I hope my colleagues will join me in congratulating WATT Global Media on 100 years of accomplishments, and I wish them all the best for another century of success.

ARMS SALES NOTIFICATION

Mr. CORKER. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to

the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY
COOPERATION AGENCY,
Arlington, VA.

Hon. BOB CORKER,
Chairman, Committee on Foreign Relations,
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 17-25, concerning the Army's proposed Letter(s) of Offer and Acceptance to the Government of the Netherlands for defense articles and services estimated to cost \$34 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

GREG KAUSNER
(For J.W. Rixey, Vice Admiral,
USN, Director).

TRANSMITTAL NO. 17-25

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: The Government of the Netherlands.

(ii) Total Estimated Value:

Major Defense Equipment* \$30 million.

Other \$4 million.

Total \$34 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Foreign Military Sales (FMS) case NE-B-WFV, implemented in June 2013, was below congressional notification threshold at \$26.3M (\$20M in MDE) and included one hundred and eighty (180) AGM-114R Hellfire II Missiles and twenty-four (24) M36E8 Captive Air Training Missiles (CATM). The Netherlands has requested the case be amended to include an additional seventy (70) AGM-114R Hellfire II missiles. This amendment will push the current case above the MDE notification threshold and thus requires notification of the entire case.

Major Defense Equipment (MDE):

Two hundred fifty (250) AGM-114R Hellfire II Missiles, Twenty-four (24) M36E8 Captive Air Training Missiles (CATM).

Non-MDE includes:

Hellfire missile cutaway model, AGM-114R missile spare parts, a Launcher Test Station (LTS), LTS spares, two (2) maintenance support devices, integrated logistics support tools, M299 launcher software upgrade and testing, aircrew familiarization training, launcher test station training, unclassified publications, technical assistance, AN/AWM-101A software, CATM spare parts and related support services, and other related elements of logistics and program support.

(iv) Military Department: Army.

(v) Prior Related Cases, if any: NE-B-WFV.

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: July 11, 2017.

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Government of the Netherlands—AGM-114R Hellfire Missiles

The Government of the Netherlands has requested the possible sale of an additional seventy (70) AGM-114R Hellfire II missiles to a previously implemented case for Hellfire missiles. The original FMS case, valued at \$26.3M, included one hundred and eighty (180) AGM-114R Hellfire II Missiles and twenty-four (24) M36E8 Captive Air Training Missiles (CATM) with various support elements. Therefore, this case is for a total of two hundred fifty (250) AGM-114R Hellfire II Missiles, twenty-four (24) M36E8 CATMs, to include Hellfire missile cutaway model, AGM-114R missile spare parts, a Launcher Test Station (LTS), LTS spares, two (2) maintenance support devices, integrated logistics support tools, M299 launcher software upgrade and testing, aircrew familiarization training, launcher test station training, unclassified publications, technical assistance, AN/AWM-101A software, CATM spare parts and related support services, and other related elements of logistics and program support. The estimated total case value is \$34 million.

This proposed sale will enhance the foreign policy and national security objectives of the United States by helping to improve the security of the Netherlands which has been, and continues to be an important force for political stability and economic progress in Europe. It is vital to the U.S. national interests to assist the Netherlands to develop and maintain a strong and ready self-defense capability.

The proposed sale will improve the Netherlands' capability to meet current and future threats and will be employed on the Netherlands' AH-64D Apache helicopters. The Netherlands will use this capability to strengthen its homeland defense, deter regional threats, and provide direct support to coalition operations. The Netherlands will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of these missiles will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 17-25

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. AGM-114R: The AGM-114R is used against heavy and light armored targets, thin skinned vehicles, urban structures, bunkers, caves and personnel. The missile is Inertial Measurement Unit (IMU) based, with a variable delay fuse, improved safety and reliability. The highest level for release of the AGM-114R is SECRET. Software and firmware documentation (e.g., Data Processing, Software Requirements, Source Code, Algorithms) are not authorized for disclosure. The highest level of classified information that could be disclosed by a proposed sale or by testing of the end item is up to

and including SECRET. The highest level that must be disclosed for production, maintenance, or training is up to and including SECRET. Vulnerability data, countermeasures, vulnerability/susceptibility analyses, and threat definitions are classified SECRET or CONFIDENTIAL. Detailed information to include discussions, reports and studies of system capabilities, vulnerabilities and limitations that leads to conclusions on specific tactics or other counter-countermeasures (CCM) are not authorized for disclosure. Reverse engineering could reveal SECRET information.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapons systems effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the Government of the Netherlands can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to the furtherance of the U.S. foreign policy and national security objectives outlined in the policy justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of the Netherlands.

Ms. STABENOW. Mr. President, on June 29, 2017, the Agriculture Committee reported by voice vote the fourth authorization of the Pesticide Registration Improvement Act, more commonly known as PRIA.

For nearly 20 years, PRIA has served as an example of bipartisanship, bringing together a wide range of stakeholders in support of a commonsense fee for service programs within the EPA's Office of Pesticides Programs.

PRIA provides certainty for registrants; much needed resources to the EPA to ensure regulatory examinations related to human health and environmental safety risks are done properly; and PRIA also provides vital funds for pesticide safety training and information to our Nation's farmworkers.

Unfortunately, after several years of carefully revising and finalizing an updated Worker Protection Standard, the EPA decided last month to delay key elements of worker protections, including the much needed revisions to the Certification of Pesticide Applicators rule.

Without strong and timely farmworker protections, PRIA simply does not make sense for some stakeholders who are a part of the coalition. The funds from PRIA allocated to farmworker protection should be meaningful resources that complement strong, effective protections and should not be undermined by changes to EPA's Worker Protection Standard and the Certification of Pesticide Applicators rule that would weaken farmworker protections.

Therefore, I strongly oppose any future efforts by the EPA to delay or amend the worker protection rules that the Agency finalized in November 2015 and January 2017, respectively,

without undertaking a negotiated rule-making, which must include all relevant stakeholders, to ensure that all voices are heard.

I hope the EPA will take a cue from our recent bipartisan and consensus-based committee action on PRIA and proceed in a similar fashion should they decide that any delays or adjustments to the Worker Protection Standards or the Certification of Pesticide Applicators rule are necessary.

Should the Trump EPA dismiss the concerns of farmworkers and environmental advocates, I fear that last month's committee vote may unfortunately be the last bipartisan PRIA reauthorization that this panel is able to report out. I hope that is not the case, and I know other members of the committee share my concerns on the matter.

Once again, I want to thank Senator ROBERTS for his leadership. I am glad we were able to move forward in a bipartisan and consensus manner to reauthorize PRIA last month.

Mr. ROBERTS. Mr. President, I thank my colleague, the ranking member of the Senate Agriculture, Nutrition, and Forestry Committee, for engaging in this important discussion.

I am proud to stand before my colleagues in the U.S. Senate to discuss some of the bipartisan work that we have accomplished through regular order at the Agriculture Committee specifically with regard to H.R. 1029, the Pesticide Registration Improvement Extension Act of 2017, or PRIA 4.

PRIA, while technical in nature, is critically important with assisting both EPA in carrying out administrative functions and industry that relies upon timely, science-based pesticide registration decisions to get products on the market and in the hands of farmers, ranchers, and other consumers.

PRIA, historically, has received widespread support from a diverse coalition of stakeholders, including members of the pesticide registrant community—both agricultural and non-agricultural uses, labor, and environmental advocates, which has contributed to Congress's ability to pass reauthorizations swiftly and by unanimous consent. With the Widespread support of the PRIA coalition, as illustrated by a coalition letter addressed to our committee on June 29, 2017, which expresses support of the amendment to H.R. 1029 and urges swift action, this effort should be no different.

Our committee held a hearing earlier this year to review this issue in an open and transparent manner. As we have heard time and time again, farmers and ranchers want regulatory certainty. EPA and registrants who rely on PRIA to get new products on the market and in the hands of farmers, ranchers, and other consumers want certainty.

My colleague raises an issue that has historically been outside the scope of the technical, fee-based registration

process of PRIA. I certainly understand the concerns that have been raised by some groups with regard to certain actions EPA is considering with regard to the Worker Protection Standard and the Certification of Pesticide Applicators rules. My hope is that EPA and the relevant stakeholders can constructively discuss areas of concern related to these issues within the framework of our Federal regulatory process without jeopardizing PRIA.

Current authority for PRIA expires at the end of this fiscal year. With that deadline in mind, our recent committee action is timely and necessary to get PRIA updated.

Should PRIA's authority lapse, pesticide registration will not be available for a wide range of crops that rely on innovative and new solutions for pest protection, and a lapse will have a negative impact on the products requiring registration that are used to protect public health and ensure public safety.

It is important that we get PRIA across the finish line not only to provide certainty to the industry but to also provide new products to growers for crop protection and to consumers to protect public health, and the timely reauthorization provides resources to ensure safety education components are maintained.

I thank my colleague Senator STABENOW and other members of the Agriculture Committee for working with me on this issue together and in a bipartisan manner. I look forward to working with Senator STABENOW and the coalition in support of this legislation to get this bill across the Senate floor as quickly as possible and ultimately enacted into law.

TRIBUTE TO ROSEMARY E. RODRIGUEZ

Mr. BENNET. Mr. President, I wish to recognize a dedicated community leader, civil servant, and dear friend, Rosemary E. Rodriguez. She most recently served as my State director and senior adviser. Throughout her life, Rosemary has displayed a genuine and consistent commitment to strengthening our State and our country.

Rosemary began her career as a legal assistant at two of Denver's most prominent law firms. Also, during the early stages of her career, Rosemary began her lifelong commitment to the Latino community as she helped form the Hispanic League, an organization that strives to be a liaison between the non-Hispanic and Hispanic communities. Rosemary began her career in government in 1992, working for Mayor Wellington Webb's administration. She served in several roles during her time with the mayor, such as deputy director of the mayor's Office of Arts, Culture & Film, Denver County clerk and recorder, and director of boards and commissions.

In 2003, she was elected to the Denver City Council. Later, her peers on the council elected her as president. In

2007, she began to work on the Election Assistance Commission. In this capacity, she worked to preserve the integrity of our national elections and increase access to our most fundamental right to vote. She chaired the commission in 2008.

In 2009, Rosemary became an invaluable part of my staff as State director and did a tremendous job representing our office and connecting with communities across Colorado. When I wasn't able to attend an event, I was always confident that Rosemary would convey our team's values and perspectives on any number of issues. I also counted on her advice whether it related to women's issues, immigration reform, or other issues of importance to the Latino community. Most recently, she was elected to the Denver School Board where she continues to serve Colorado's kids.

Due to her dedication to the people of Colorado, Rosemary has received several awards including the Mi Casa Resource Center's Volunteerism Award, the Anti-Defamation League's Passing the Torch Award, and the Denver Public Library's Cesar Chavez Hall of Fame Award.

I have been honored to work with my friend Rosemary for the past 8 years. Her intellect, creativity, and compassion should serve as an example for all those who serve. I wish her the best in her future endeavors, and I fully intend to count on her advice and perspectives for years to come.

ADDITIONAL STATEMENTS

REMEMBERING TED SHANNON

• Ms. BALDWIN. Mr. President, today I wish to honor the life and legacy of Ted Shannon, whose passing marks the end of an extraordinary life spent in service to country, community, and family. Ted committed his life to the pursuit of justice and equality. Ted and his late wife Dorothy were incredible pillars who had a great influence on me as I entered a life of public service.

Ted Shannon showed up. In service to his country, he became a civil affairs officer in July of 1941 during WW II, attached to the British 8th Army during the occupation of Italy. In his subsequent post, he served as executive officer for the Supreme Headquarters Allied Expeditionary Force in Paris.

He showed up as a leader in education, whether it was in his role as a Ford Foundation higher education adviser for five Middle Eastern countries in Lebanon—the nation of his ancestors—or as a highly regarded UW-Extension faculty member and dean for more than three decades.

Ted Shannon showed up. Along with Dorothy and fellow travelers from the New Deal era, Ted supported progressive causes at all levels of government for more than half a century. I cannot recall an event, large or small, for a progressive organization where I did
