

barriers for modernization while maintaining U.S. airspace as the safest and most accessible in the world.

Again, Mr. Speaker, I want to commend everyone who has worked on this bill. There have been, I am sure, countless hours. There are some good things in this bill that we need to do. I have addressed the modernization issue. But again, it is the privatization of our air traffic control that gives me pause and that gives me great concern on some of the issues that I have mentioned here in this short period of time.

So I want to take a step back from this AIRR Act. I want to work with my colleagues, see what we can do to get it right and keep our skies safe. Once again I will say: I am the guy that wants less government. This is one of the few areas where government has done a good job, will continue to do a good job, and of those 87,000 flights a day, keep them safe.

Mr. Speaker, I yield back the balance of my time.
