

President Trump has developed; standing up for American people so they can have an investment in jobs and in their communities; standing up for the American people against Trump's budget; standing up for the American people so we can keep Medicaid; standing up for the American people so we can make sure that they have healthcare, that they have jobs, that we don't cut Medicaid and the safety net programs that allow us to have hardworking Americans supporting their families.

AWARENESS FOR TYPE 1 DIABETES

(Mr. REED asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REED. Mr. Speaker, I rise today to raise awareness for the issue of type 1 diabetes across America.

As co-chair of the Congressional Diabetes Caucus on the Republican side with my good friend, DIANA DEGETTE, on the Democratic side, this is an issue I care deeply about. We must work together to find ways to address this disease to improve the lives of families that are dealing with this each and every day.

Mr. Speaker, my family is one of these families. My son, Will, at 17 years of age, has been fighting this disease 24/7, 365 days a year since the age of 4.

This young girl, Kennedy, I had the honor to meet with and is representing my district here in the congressional workshop being put on by Juvenile Diabetes Research Foundation. She showed me the scars on her fingers where she has to poke her fingers six to seven times a day, Mr. Speaker, to control her blood sugar and monitor it on a regular basis.

She is a true inspiration to all diabetics across the Nation and should be an inspiration to each and every one of us to tackle this disease in a way that will improve lives for generations to come.

APPRENTICESHIP GRANTS BUDGET CUT

(Mr. COURTNEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COURTNEY. Mr. Speaker, last February, President Trump had CEOs from America's largest manufacturers to come and talk about progrowth tax policies. Instead of talking about taxes, what they really talked about is the real need out there, which is to close the skills gap in this country and get the job training out there so that people can get hired.

USA Today reported the next day with the headline: "U.S. factory CEOs to Trump: Jobs exist; skills don't." In the 2017 budget, the bipartisan budget, Congress listened, and we appropriated robust funding for apprenticeship pro-

grams, for youth job training programs, and for adult, older incumbent job training programs.

Incredibly, a few minutes ago, the partisan Republican budget cut apprenticeship grants to zero, from 95 million from last year to zero. Mr. Speaker, better skills means better wages and better jobs. We should be investing strongly in job training programs so that people will have a future for themselves and their families.

We should listen to the job creators in this country. We should listen to the people back home, and we should reject this Republican budget which incredibly turns the clock back so that we can fill the job openings that the Labor Department says now total almost 6 million jobs in this country. Close the skills gaps. Invest in job training.

HONORING C.J. AND DAVE DUNKLEE

(Mrs. HARTZLER asked and was given permission to address the House for 1 minute.)

Mrs. HARTZLER. Mr. Speaker, I rise today to recognize C.J. and Dave Dunklee, founders of The Healing Box Project. Mr. and Mrs. Dunklee are serving our Nation's veterans through providing guitar lessons at the Truman VA Hospital in Columbia, Missouri.

The Healing Box Project came to life at the Truman VA Hospital a couple of years ago. C.J. and Dave provide guitars, picks, and lessons to disabled veterans in order to help them ease the wounds that so many of them are facing.

These weekly lessons provide an outlet for veterans to use the joy of music to heal their souls. Weekly, they provide these lessons for up to 50 veterans. C.J. and Dave provide the fundraising through their 501(c)(3) nonprofit to pay for the supplies and lessons needed to help this project succeed.

I am thankful for their efforts to provide services to our Nation's heroes who have so graciously given service to our great country.

Mr. Speaker, it is an honor to take this opportunity to recognize C.J. and Dave for their efforts on behalf of our Nation's veterans. I am blessed to represent them in Congress and wish them continued success with this very special project.

HONORING MARYAM MIRZAKHANI

(Mr. MCNERNEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCNERNEY. Mr. Speaker, I rise today to honor the life and work of Maryam Mirzakhani. Maryam was born and raised in Iran where she was the first female on Iran's International Mathematical Olympiad team, winning gold medals in 1994 and 1995, and was the first Iranian woman elected to the National Academy of Sciences.

She moved to the United States to attend graduate school at Harvard Uni-

versity and became a 2004 research fellow of the Clay Mathematics Institute and a professor at Princeton University. In 2008, she became a professor at Stanford University. In 2014, Maryam was the first woman ever to be bestowed with the most prestigious mathematical award, the Fields Medal, for her outstanding contributions to the dynamics and geometry of Riemann surfaces and their moduli spaces.

The Fields Medals are awarded every 4 years to people aged 40 or younger. Maryam was an amazing mathematician, socially engaging, and involved in the local community. Maryam Mirzakhani died last week at the age of 40, a tragedy not only for her family and friends but for the additional beautiful mathematics she would have given the human race had she been blessed with a long career.

HONORING MONSIGNOR JOHN MCSWEENEY

(Mr. PITTENGER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTENGER. Mr. Speaker, I rise today in honor of Monsignor John McSweeney, priest of Charlotte's St. Matthew Catholic Church, the largest Catholic parish in America, who retires this week after more than 40 years of ministry.

He was actually the first priest ordained in what was then the new Charlotte Diocese back in 1974. Monsignor McSweeney is committed to the principle of servant leadership and of helping each member of his parish find their special God-given role in life and in the church.

Despite his very public role, he often reminds folks that Jesus is the star of St. Matthew, not the priest. Monsignor McSweeney has another motto: "You never say no to Jesus."

And so, still listening to Jesus at age 75, Monsignor McSweeney is retiring from America's largest Catholic parish to move on to Haiti or Jamaica to live among the poor and minister to their needs.

May God bless Monsignor McSweeney in this next phase of ministry.

AFGHAN ALL-GIRLS ROBOTICS TEAM

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute.)

Mrs. DAVIS of California. Mr. Speaker, I rise today to congratulate the all-girls robotics team from Afghanistan for taking home the silver medal at this weekend's FIRST Global Challenge.

I speak on behalf of my colleagues who travel on our annual bipartisan trip to Afghanistan when I say that these girls are the embodiment of our
