

DePaul School of Law, an M.A. in legislative affairs and health policy from George Washington University, and her B.A. from Valparaiso University.

Kim has long been recognized nationally as an expert in healthcare compliance and fraud and abuse issues, but in 2016, that recognition culminated in her receiving the Healthcare Compliance and Ethics Professional of the Year award from the Society for Corporate Compliance and Ethics and the Health Care Compliance Association.

While I am sure to speak for all of my staff and fellow Senators when I say that we will miss Kim, I think I can also say, with confidence, that we have the greatest faith in Kim. Yes, we will probably have strikes due to the absence of Kim's baked goods, and yes, our oversight and Medicaid efforts will not be the same without Kim, but this is important work we are all engaged in, and it would be wrong to bar our great country from the service of this wonderful and highly talented friend of mine.

Before I conclude, though, I would like to harken back to one of my favorite stories about Kim.

It was in the wake of the Lois Lerner debacle. Kim and her team spent more than a dozen months hashing out a highly detailed and important investigation that revealed quite a bit more than what we were initially expecting. In the end, Kim and her team interviewed more than 32 current and former IRS and Treasury employees and reviewed nearly 1.5 million pages of documents. The fruit of their labor was a staggering and included a four-part treatise on the IRS's processing of 501(c)(3) and 501(c)(4) applications for tax-exempt status. There were thousands of pages of appendices and hundreds of pages of report text.

Before the report was finalized, however, I wanted to be sure I had read every word. Aside from the hefty amount of reading, it also created problems because the text included confidential taxpayer information and only those with clearance could enter my office while I reviewed the text. Kim's humor, wit, and zealous optimism kept me alert and motivated throughout the investigation of those hundreds of pages, and while I have always cherished Kim's famous cookies, they never tasted better than they did then.

Now, I had always appreciated Kim, but in this instance, her commitment to detail and integrity really struck me. To ensure that the product coming out of the committee was a complete and accurate one, she went back to the IRS to confirm that the committee had all relevant documents. Only then did we discover the thousands of pages of missing emails which would become a critical part of the investigation. If it weren't for Kim's hard work and intellectual rigor, we would have never discovered this fact, and throughout the investigation, which was often heated and impassioned on both sides of the

aisle, Kim was fair, honest, and worked hard to keep the inquiry bipartisan, something no other committee in Congress could do.

This and many other incredible memories of Kim will be with me forever, and words can't quite say how truly grateful I am to have Kim help me make all those memories these past several years.

Our work in the Nation's Capital can get ugly sometimes. It can be partisan. We often wonder whether we can still get good people to go into public service, but then we are reminded that there are good people in this town who repeatedly answer the call to public service. Kim Brandt is one of these—and she is one of the best. The Finance Committee, the Senate, CMS, and, in honesty, the United States of America is lucky to have her in these roles, and we thank her for her hard work.

I am going to miss you, Kim.

I want to wish Kim, her beloved pup Sherlock, and her family all of the best. I feel no need to hesitate when I say that we are all proud of you and will miss you dearly.

Thank you.

CYSTINURIA AWARENESS DAY

Mrs. SHAHEEN. Mr. President, I wish to recognize June 24 as Cystinuria Awareness Day and to offer my support to the International Cystinuria Foundation as the organization continues its excellent work promoting knowledge of this disease within the research and medical communities, as well as providing resources for those affected by cystinuria.

Cystinuria is an inherited disease characterized by high concentrations of the amino acid cysteine in the urine, leading to the formation of cysteine stones in the kidneys and urinary tract. It is a rare disease that affects roughly 1 in every 7,000 people, including an estimated 130 Granite Staters. Cystinuria is a painful and often debilitating condition. Those who suffer from it can experience kidney stones as frequently as daily, causing many to lose weeks of work each year. Many sufferers use prescription painkillers to cope with the disease, and tragically, some develop substance use disorders.

Cystinuria does not discriminate, affecting people of all genders, races, ethnicities, and ages. There is not yet a cure, and the disease is frequently misdiagnosed. I sincerely hope that this day of awareness will help in advancing research into the causes of the disease as well as possible therapies and cures. Because cystinuria is a rare disease, there is an acute need for more aggressive research, including at the National Institutes of Health. In addition to supporting important funding for research, we can also do our part by also advocating for awareness for the disease. Fortunately, the Affordable Care Act protects those with cystinuria and other preexisting conditions from discrimination by health insurance companies.

Cystinuria Awareness Day is a valuable opportunity for Americans to learn about this condition and offer support to those living with it. I am grateful to the International Cystinuria Foundation for its commitment to raising awareness of the disease, advocating for research, and providing support for those suffering from cystinuria.
