

Automated vehicles are highly complex, and present a number of equally complex policy considerations. While this bill is a significant step forward in defining the federal government's role in this emerging technology, I believe there is more work to be done with respect to ensuring that NHTSA has appropriate resources to carry out the federal role in oversight and regulation, and to ensuring the privacy of consumers' data. Data sharing between government and industry holds the possibility of improving safety operations and performance, but must be a collaborative partnership, and must protect consumers' personally identifiable data.

For that reason, I have an amendment that has been made in order to the Fiscal Year 2018 Transportation, Housing, and Urban Development appropriations bill, that we will consider later today. The amendment will provide the National Highway Traffic Safety Administration with an additional \$9 million for the Salaries and Expenses account. These funds will enable the agency to expand its workforce, define new testing protocols as the technology emerges, and better partner with industry and state and local governments to conduct adequate oversight.

In addition, I continue to have concerns about the collection, use, and privacy of consumers' data. A recent report issued at the direction of myself and my colleague, Congresswoman Comstock, the Government Accountability Office found while nearly all of the major auto manufacturers now offer vehicles with connected technologies, NHTSA has not clearly defined its roles and responsibilities as they relate to the privacy of vehicle data, making it difficult for NHTSA to coordinate with other federal agencies to effectively oversee these emerging technologies.

We still have important issues to consider, including insurance, cyber-security, and data sharing. I look forward to continuing to collaborate with my colleagues to examine this evolving industry, and defining the federal government's role in promoting industry while protecting the public. I urge my colleagues to support this bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATTA) that the House suspend the rules and pass the bill, H.R. 3388, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to amend title 49, United States Code, regarding the authority of the National Highway Traffic Safety Administration over highly automated vehicles, to provide safety measures for such vehicles, and for other purposes."

A motion to reconsider was laid on the table.

MAKING SUPPLEMENTAL APPROPRIATIONS FOR DISASTER RELIEF

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the vote on the motion to suspend the rules and agree to the resolution (H. Res. 502) providing

for the concurrence by the House in the Senate amendments to H.R. 601, with an amendment, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. FRELINGHUYSEN) that the House suspend the rules and agree to the resolution.

The vote was taken by electronic device, and there were—yeas 419, nays 3, not voting 11, as follows:

GENERAL LEAVE

Mr. COLE. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. COLE. Mr. Speaker, yesterday, the Rules Committee met and reported a rule for consideration of H.R. 3354, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2018, also known as the Make America Secure and Prosperous Appropriations Act of 2018. The rule provides for 2 hours of debate equally divided and controlled by the chair and ranking member of the Appropriations Committee.

Mr. Speaker, the appropriations package in front of us is the second installment of the House's effort to pass all 12 appropriations bills on the floor for the first time since 2006. The overall package will consider the remaining eight bills, covering \$416.3 billion in total spending. It represents many months of work by the Appropriations Committee.

Today's rule covers four divisions of the bill: the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act; the Department of Homeland Security Appropriations Act; the Department of State, Foreign Operations, and Related Programs Appropriations Act; and the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act.

Together, these four divisions encompass \$168.2 billion of discretionary Federal spending. This represents a decrease of \$7.8 billion from fiscal year 2017, as Congress seeks to fulfill its obligation to the American people to be fiscally responsible stewards of the taxpayers' hard earned money.

Most importantly, it represents the next step in fulfilling the greatest responsibility we have as legislators: to fund the Federal Government and keep it open each year to provide our constituents the services they deserve while ensuring that we appropriately prioritize where and how to spend taxpayer dollars.

Mr. Speaker, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies division will provide approximately \$20 billion in appropriations, a decrease of \$870
