

safeguard a person's health and improve their dignity more basic than by providing them access to sanitation facilities for safely disposing of human waste.

There should be no confusion about what we intend for these \$15 million. We want USAID missions in countries where women and girls in rural areas lack access to safe, public latrines to identify communities for pilot projects, where local leaders want to address this problem and where a small investment can make a significant difference. Working with those leaders and utilizing the technical expertise of local or U.S.-based NGOs, we can help set an example for other communities to replicate.

VOTE EXPLANATION

• Mr. MENENDEZ. Mr. President, I was unavailable for rollcall vote No. 204, on the nomination of Heath P. Tarbert, of Maryland, to be Assistant Secretary of International Markets and Development, U.S. Treasury Department. Had I been present, I would have voted no.●

ADDITIONAL STATEMENTS

• Mr. RISCH. Mr. President, today I would like to recognize an outstanding small business located in my home State of Idaho. Dedication, hard work, and the entrepreneurial spirit are some of the guiding principles that define us as Americans. It is these traits that have enabled so many of our fellow citizens to achieve the American dream. As our workforce moves further into the 21st century, new opportunities are created every day by the American people themselves to ensure that they can achieve a better standard of life, without reliance on others. My State of Idaho knows this and is proud to serve as an incubator for many small businesses that seek to expand these values through their unique entrepreneurial spirit. As Chairman of the Senate Committee on Small Business and Entrepreneurship, it is my pleasure to recognize LiveRez as the Senate Small Business of the Month for September 2017. LiveRez is one of a good number of software companies in Idaho, which provides services to American businesses nationwide and serves as a true example of hard work in pursuit of the American dream.

LiveRez is based out of Eagle, ID, and was founded by Tracy Lotz in 2008, after years of research and development within the vacation rental sector. Tracy started his journey with vacation rentals in 1994, when he launched First Choice Vacation Properties, one of the few early websites where managers were able to advertise their vacation rentals in cyberspace. It wouldn't be until 2002 that Tracy and his nephew Jeremy would start building websites

for their clientele of professional vacation rental managers, and within a year, they were pioneering online bookings in real time. It would not be until 2005 that the Lotz's would shift from providing the service at an incremental level to designing software that would be 100 percent cloud-based. In January 2008, LiveRez was launched as the first all-in-the-cloud management system. From there, they have continued expanding and innovating with the establishment of the First Advisory Board, mobile websites, and other technical applications that enabled their software to be one of the most sought after management systems for managers not only in the United States but also around the world.

Perhaps what makes all of this success even more incredible is that Tracy was able to do all of this organically, utilizing the revenue from the company's early days to continue to grow. He did not seek out venture capital for the company, nor did he take on debt. Today Tracy and the team at LiveRez host their annual partner conference, which includes classes, tech reveals, networking, and more amenities for members of the industry.

I would like to congratulate Tracy Lotz and the employees of LiveRez on their innovation and hard work and the commitment that they have to their partners and clients. I wish the best for LiveRez, and I am confident that they will continue to provide innovative services and ideas to their growing customer base.●
