Florida’s number two industry, utilizing one-third of Florida’s available land. Without agriculture, urban developments—in fact, all developments—could not flourish. There is a simple symbiotic relationship between families and communities, and that is, if you are going to grow food, you are going to care for it. Every time you get hungry you think about your farmer, so thank a farmer today.

HONORING THE LIFE OF BUD ADAMS

Mr. YOHO. Mr. Speaker, it is fitting on National Farmers Day that I am able to rise and honor a true Florida legend, Mr. Bud Adams of Fort Pierce, Florida, and his contributions to the Florida cattle industry. He is an icon in Florida and the Nation’s cattle industry.

Mr. Adams was a pioneer, a wildlife photographer, but more than anything else, he was a true American pioneer and cattle rancher. He was a real American cowboy in Florida, and they are known in Florida as Florida crackers. He served as the president in 1958, and, for the past 80 years, you could find Mr. Adams on horseback surveying the land and the cattle that they raised. He was a strong advocate for conservation and was nationally recognized for his leadership in preserving the land for future generations.

Even more so, Mr. Adams is known for creating the Braford breed of cattle, which is a cross between the Brahman cattle and the Hereford cattle, a heat-tolerant, heavy-beef-producing cow, ideal for the Florida climate. Mr. Adams was rightfully proud of this breed and went on to help found the United Braford Breeders Association.

Additionally, Mr. Adams was a proud member of the Florida Cattlemen’s Association. He served as the president in 1958, and, for the last 59 years, he was always willing to offer a helping hand to the new Florida Cattlemen’s leadership.

Mr. Adams will always be remembered for the impact he had on the Florida cattle industry and his willingness to nurture future generations of Florida cattlemen. He will be greatly missed.

SUPPORTING THE CARE CORPS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Florida (Ms. Ros-Lehtinen) for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, I would like to encourage my colleagues to support the Care Corps Demonstration Act.

By the year 2030, there will be more than 72 million older Americans. As they age, we are going to require long-term support and services, placing a significant burden on our elder care system that is already struggling to provide and finance services to our seniors.

The Care Corps Demonstration Act, which my colleague Congresswoman MICHELLE LUJAN GRISHAM and I have introduced, will address this growing need by placing Care Corps volunteers in communities where they will provide essential services to seniors that will allow these older Americans to remain independent. In turn, these wonderful volunteers will receive assistance in paying down their educational expenses.

More importantly, Mr. Speaker, this program will help us train a new generation of healthcare providers to meet our Nation’s demand for senior care services by giving our students essential, real-world experience in the field. Mr. Speaker, this bill will create stronger communities across our Nation by bringing generations of Americans together. I encourage my colleagues to support our bill, the Care Corps Demonstration Act, of this session. The bill number, Mr. Speaker, is H.R. 3493.

So please contact my congressional office or the office of Congresswoman MICHELLE LUJAN GRISHAM to cosponsor H.R. 3493.

NATIONAL FARMERS DAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Louisiana (Mr. ABRAHAM) for 5 minutes.

Mr. ABRAHAM. Mr. Speaker, I rise today to recognize America’s farmers on National Farmers Day.

I call our American farmers the thin green line because food security is national security. We can never discount the importance of our Nation’s ability to feed itself, and we can do so only by the hard work of the men and women in the agricultural community.

In honor of National Farmers Day, I wanted to recite a poem first delivered by a radio personality, Paul Harvey, to the FFA Convention in 1978. The poem is as follows:

And on the 8th day, God looked down on Earth as it is in Heaven.

Amen.

PLEDGE OF ALLEGIANCE

from tractor back, put in another 72 hours,” so God made a farmer.

God had to have somebody willing to ride the ruts at double speed to get the hay in ahead of the rain clouds, and yet stop in mid-field and race to help when he sees the first smoke from a neighbor’s place, so God made a farmer.

God said, “I need somebody strong enough to clear trees and heave bales, yet gentle enough to tame lambs and wean pigs and tend to the pink-combed pullets, who will stop his mower for an hour to splint the broken leg of a meadow lark.”

It had to be somebody who would plow deep and straight and not cut corners; somebody to seed, weed, feed, breed, and take and disc and plow and plant and tie the fleece and strain the milk and replenish the self-feeder and finish a hard week’s work with a 5-mile drive to church; somebody who would bale a family together with the soft strong bonds of sharing, who would laugh, and then sigh, and then reply, with smiling eyes, when his son says that he wants to spend his life “doing what dad does,” so God made a farmer.

THE SPEAKER. Will the gentlewoman from Hawaii (Ms. GABBARD)
