

United States from the Paris Climate Accord.

Whereas, The Paris Climate Accord, also known as the "Paris Agreement," is a landmark international agreement reached in 2015 between 195 countries aimed at reducing carbon emissions, slowing rising global temperatures, and helping countries deal with the effects of climate change; and

Whereas, The Paris Agreement ended the strict differentiation between developed and developing countries that characterized earlier efforts to reduce greenhouse gas emissions, and replaced it with a common framework that commits all participating countries to put forward their best efforts to reduce greenhouse gas emissions; and

Whereas, The agreement reaffirmed the goal of limiting global temperature increase well below 2 degrees Celsius, while urging further efforts to limit the increase to 1.5 degrees Celsius; and

Whereas, The Intergovernmental Panel on Climate Change has concluded that the rising global temperature is very likely due to a corresponding increase in the levels of greenhouse gases in the atmosphere produced by human activity and is causing, Earth's climate to change; and

Whereas, The climate change caused by rising global temperatures will likely: increase the frequency, severity, and duration of heat waves, creating a greater risk for heat-related illnesses and deaths, specially among the elderly, very young, disabled, and poor; increase the intensity of hurricanes creating stronger peak winds and increased rainfall, increase the risk of flooding within storm-affected areas and increase the risk of drought in areas located outside storm tracks; and continue to decrease the size of polar ice sheets and land-based glaciers, causing sea levels to rise and contribute to enhanced coastal erosion, coastal flooding, and the loss of coastal wetlands; and

Whereas, Under the Paris Agreement, every participating country agreed to submit an individual plan to tackle its greenhouse gas emissions and to report regularly on its emissions and progress made in implementing and achieving its nationally determined contributions; and

Whereas, President Trump's decision to withdraw the United States from this landmark agreement will seriously weaken global efforts to avoid drastic climate change; and

Whereas, Given the devastating effects of raising global temperatures, it is critical that this country remain in the Paris Climate Accord in order to globally reduce carbon emissions, slow rising global temperatures, and help countries deal with the effects of climate change; Now, therefore, be it

Resolved by the General Assembly of the State of New Jersey:

1. This House condemns President Trump's decision to withdraw the United States from the Paris Climate Accord.

2. Copies of this resolution, as filed with the Secretary of State, shall be transmitted by the Clerk of the General Assembly to the President and Vice-President of the United States, every member of Congress elected from this State, the Governor of New Jersey, and the Commissioner of the New Jersey Department of Environmental Protection.

POM-116. A resolution adopted by the House of Representatives of the State of Colorado concerning ensuring access to reproductive health care; to the Committee on Health, Education, Labor, and Pensions.

HOUSE RESOLUTION 17-1005

Whereas, Colorado has always been committed to a quality health care system and to creating policies that meet the health

needs of women and families, including affordable reproductive health services; and

Whereas, Colorado was the first state to allow safe, legal abortion on a bipartisan basis in 1967; and

Whereas, The American College of Obstetricians and Gynecologists has stated that "[s]afe, legal abortion is a necessary component of women's health care", and health providers and associations affirm that good access to reproductive health care deeply and positively impacts women's lives and futures; and

Whereas, Reproductive health care is both safe and common. More than 90% of women have used contraception, about three in ten women will have an abortion in her lifetime, and more than half of women will have a child at some point in their lives.

Whereas, People may disagree with the decision to seek an abortion, but it is a decision that each person should make for themselves with the counsel of their health providers, their families, and their faiths; and

Whereas, Rates of maternal mortality are decreasing around the world, but increasing in the United States for women of color who face an alarming and disparate rate of pregnancy complications and maternal mortality; and

Whereas, Restrictions on the availability of reproductive health care and limits on health coverage, such as policies denying insurance coverage for reproductive health services, have a disparate impact on low-income women and women of color and their families; and

Whereas, Obstacles to obtaining the best method of contraception for each person's unique health and life circumstances remain a barrier to many; and

Whereas, Low-income women and women of color face a higher rate of unintended pregnancy, so ensuring access to contraception is a critical part of helping to address health disparities in marginalized communities; and

Whereas, An inability or difficulty to conceive is not only emotionally difficult for people looking to start a family but can be prohibitively expensive, so we must do more to help people seeking to build their families, regardless of sexual orientation or gender identity; and

Whereas, There is a continued need to address inequities in health care access and ensure culturally and linguistically appropriate training of health providers; now, therefore, be it

Resolved, by the House of Representatives of the Seventy-first General Assembly of the State of Colorado: That we, the members of the Colorado House of Representatives, find that:

(1) Colorado continues to be a state where all individuals' health remains a top priority, and Coloradans resist attempts to undermine the right to access reproductive health care;

(2) Access to comprehensive and affordable reproductive health care is critical to ensure that people have the information and services to prevent unintended pregnancies, the support to have healthy pregnancies and become parents when they are ready, and the ability to raise their children in a safe and healthy environment and to be able to care for their families with dignity;

(3) State, county, and city health departments shall promote policies to ensure access to a full range of reproductive health care, including abortion, and eliminate disparities that prevent low-income women and women of color from seeking safe, high-quality care;

(4) Both public and private health insurance should cover the full range of reproductive health care, including abortion;

(5) Facilities and professionals providing reproductive health services shall not be subjected to regulations that do not have a medical benefit and that are more burdensome than those imposed on other facilities or health care professionals that provide medically comparable procedures. Provision of services should be based on the best medical practices as developed by medical experts and supported by medical evidence.

(6) All qualified health care professionals shall be able to provide the full range of reproductive health care, including abortion, and have access to appropriate medical training. Be it further

Resolved, That copies of this Resolution be sent to President Donald J. Trump; Vice President Mike Pence; Paul Ryan, Speaker of the United States House of Representatives; Orrin Hatch, President Pro Tempore of the United States Senate; Governor John W. Hickenlooper; Dr. Larry Wolk, Executive Director, Colorado Department of Public Health and Environment; and the members of Colorado's Congressional Delegation.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. HOEVEN, from the Committee on Indian Affairs, with an amendment in the nature of a substitute:

S. 825. A bill to provide for the conveyance of certain property to the Southeast Alaska Regional Health Consortium located in Sitka, Alaska, and for other purposes (Rept. No. 115-173).

By Mr. HOEVEN, from the Committee on Indian Affairs, with amendments:
