(C) the ballast water is discharged solely for the purpose of avoiding or minimizing a pollutant from the commercial vessel of a pollutant that would violate a Federal or State law.

(8) **LOGBOOK REQUIREMENTS.**—Section 11301(b) of title 46, United States Code, is amended by adding at the end the following new paragraph:

“(13) when the commercial vessel does not carry out ballast water management requirements as applicable and pursuant to regulations promulgated and issued by the Secretary, including when a vessel fails to carry out ballast water management requirements due to an allowed safety exemption, a state-

ment about the failure to comply and the circumstances under which the failure occurred, made immediately after when practicable to do so.”.

(9) **LIMITATION OF REQUIREMENTS.**—In establishing requirements under this subsection, the Secretary may not require the installation of a ballast water management system on a commercial vessel that—

(A) carries all of its ballast water in sealed tanks that—

(i) are not subject to discharge;

(ii) have been certified by the Secretary; and

(iii) have been noted in the commercial vessel logbook; or

(B) discharges ballast water solely into a reception facility described in subsection (d).

(b) **APPLICABILITY.**—

(1) **COVERED VESSELS.**—Except as provided in paragraphs (2) and (3), subsection (a) shall apply to any commercial vessel that is designed, constructed, or adapted to carry ballast water while such commercial vessel is operating in navigable waters of the United States.

(2) **EXEMPTED VESSELS.**—Subsection (a) shall not apply to a commercial vessel—

(A) that continuously takes on and discharges ballast water in a flow-through system, if such system does not introduce aquatic nuisance species into navigable waters of the United States, as determined by the Secretary;

(B) in the National Defense Reserve Fleet that is scheduled for disposal, if the vessel does not have ballast water management systems or the ballast water management systems of the vessel are inoperable;

(C) that discharges ballast water consisting solely of water taken aboard from a public or commercial source that, at the time the water is taken aboard, meets the applicable regulations or permit requirements for such source under the Safe Drinking Water Act (42 U.S.C. 300f et seq.);

(D) in an alternative compliance program established pursuant to subsection (c);

(E) that carries all of its permanent ballast water in sealed tanks that are not subject to discharge; or

(F) uses other liquid or material as ballast and does not discharge ballast overboard.

(3) **EXEMPTION FOR GREAT LAKES AND SAINT LAWRENCE RIVER.**—

(A) **IN GENERAL.**—Subject to subparagraphs (B) through (F), subsection (a) shall not apply to a commercial vessel that operates exclusively within the Great Lakes and Saint Lawrence River and is not required to comply with the ballast water discharge standard on the day before the date of the enactment of this Act.

(B) **TERMINATION OF EXEMPTION.**—The Secretary shall terminate the exemption for a class of commercial vessels described in subparagraph (A) if the Secretary—

(i) based on testing using water from the Great Lakes, approves a ballast water management system for such class of vessels under section 5005 of this title or subpart 162.060 of title 46, Code of Federal Regulations (or similar successor regulation);

(ii) determines that such ballast water management system meets the practicability criteria described in section 5006(b)(2) with respect to such class of vessels complying with the ballast water discharge standard;

(iii) determines that requiring such class of vessels to comply with the ballast water discharge standard is operationally practicable for such class of vessels; and

(iv) in consultation with the Administrator, determines that the most probable environmental benefits, as described in subparagraph (E), resulting from a requirement that such class of vessels comply with the

ballast water discharge standard exceed the most probable economic costs, as described in subparagraph (F), resulting from such compliance.

(C) **TIMING OF DETERMINATIONS.**—

(i) **IN GENERAL.**—Not later than one year after the approval and determinations described in clauses (i), (ii), and (iii) of subparagraph (B) are made, the Secretary, in consultation with the Administrator, shall determine whether the benefits described in clause (iv) of such subparagraph exceed the costs described in such clause (iv).

(ii) **RECONSIDERATION.**—If the benefits described in subparagraph (B)(iv) do not exceed the costs described in such subparagraph for a class of commercial vessels described in subparagraph (A), the Secretary, in consultation with the Administrator, shall reconsider the determination of the Secretary under clause (i)—

(I) if a petition is received from a Governor of a Great Lakes State that—

(aa) includes new data or science not considered during such determination; and

(bb) is submitted not less than one year after such determination; or

(II) not later than five years after such determination.

(D) **COMPLIANCE DEADLINE.**—A class of commercial vessels for which the exemption under subparagraph (A) has been terminated under subparagraph (B) shall comply with the ballast water discharge standard after completion of the first scheduled dry docking of each such vessel that commences on or after the date that is three years after the date that the Secretary informs the owner or operator of such vessel of such termination.

(E) **MOST PROBABLE ENVIRONMENTAL BENEFITS DESCRIBED.**—The most probable environmental benefits resulting from a requirement that a class of commercial vessels described in subparagraph (A) comply with the ballast water discharge standard are the net environmental benefits, as determined by the Administrator—

(i) gained from the most probable reduction in risk of establishment of aquatic nuisance species in navigable waters of the United States within the Great Lakes and Saint Lawrence River resulting from compliance with subsection (a) by such class of vessels; and

(ii) as reduced by the extent to which such environmental benefits most probably would not be achieved as a result of the most probable risks of such establishment from other vectors.

(F) **MOST PROBABLE ECONOMIC COSTS DESCRIBED.**—The most probable economic costs resulting from a requirement that a class of commercial vessels described in subparagraph (A) comply with the ballast water discharge standard are the net costs and foregone revenues resulting from such compliance that most probably will be incurred, as determined by the Secretary, by the—

(i) owners and operators of such class of vessels, including the costs of installation and maintenance of ballast water management systems not passed on to customers and reductions in business activity due to lifetime reduction in cargo capacity and customer demand for cargo transportation services;

(ii) customers of such class of vessels, including reductions in business activity, shifts to other transportation modes, and loss of competitiveness as a result of the costs described in clause (i) passed on to such customers; and

(iii) employees of such owners, operators, and customers, including reductions or foregone increases in jobs, wages, and benefits resulting from costs described in clauses (i) and (ii).

(c) **ALTERNATIVE COMPLIANCE PROGRAM.**—The Secretary, in consultation with the Administrator and the Governors of the States, may issue a rule establishing one or more compliance programs that may be used by an owner or operator as an alternative to compliance with the requirements of subsection (a) for a commercial vessel that—

(1) has a maximum ballast water capacity of less than eight cubic meters; or

(2) is less than 3 years from the end of the service life of the commercial vessel, as determined by the Secretary.

(d) **RECEPTION FACILITIES.**—

(1) **IN GENERAL.**—Notwithstanding the requirements under subsection (a), an owner or operator may discharge ballast water into an onshore or offshore facility for the reception of ballast water that meets the standards established by the Administrator, in consultation with the Secretary, under paragraph (2).

(2) **ISSUANCE OF STANDARDS.**—Not later than one year after the date of the enactment of this Act, the Administrator, in consultation with the Secretary, shall publish a rule in the Federal Register that establishes reasonable and practicable standards for reception facilities to receive vessel ballast water to mitigate adverse effects of aquatic nuisance species on navigable waters of the United States.

(3) **TRANSFER STANDARDS.**—The Secretary, in coordination with the Administrator, may promulgate standards for the arrangements necessary on a vessel to transfer ballast water to a facility.

SEC. 5005. APPROVAL OF BALLAST WATER MANAGEMENT SYSTEMS.

(a) **BALLAST WATER MANAGEMENT SYSTEMS THAT RENDER ORGANISMS NONVIABLE.**—Notwithstanding chapter 5 of title 5, United States Code, part 151 of title 33, Code of Federal Regulations (or similar successor regulation), and part 162 of title 46, Code of Federal Regulations (or similar successor regulation), a ballast water management system that renders nonviable organisms in ballast water at the concentrations prescribed in the ballast water discharge standard shall be approved by the Secretary, if—

(1) such system—

(A) undergoes type approval testing at an independent laboratory designated by the Secretary under such regulations; and

(B) meets the requirements of subpart 162.060 of title 46, Code of Federal Regulations (or similar successor regulation), other than the requirements related to staining methods or measuring the concentration of living organisms; and

(2) such laboratory uses a testing method described in a final policy letter published under subsection (c)(3).

(b) **PROHIBITION ON BIOCIDES.**—The Secretary shall not approve a ballast water management system under subsection (a) or subpart 162.060 of title 46, Code of Federal Regulations (or similar successor regulations), if such system—

(1) uses a biocide or generates a biocide that is a pesticide, as defined in section 2 of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136), unless the biocide is registered under that Act or the Administrator has approved the use of the biocide in such ballast water management system; or

(2) uses or generates a biocide the discharge of which causes or contributes to a violation of a water quality standard under section 303 of the Federal Water Pollution Control Act (33 U.S.C. 1313).

(c) **APPROVAL TESTING METHODS.**—

(1) **DRAFT POLICY.**—Not later than 60 days after the date of the enactment of this Act, the Secretary, in coordination with the Administrator, shall publish a draft policy letter, based on the best available science, de-

scribing type approval testing methods and protocols for ballast water management systems that may be used in addition to the methods established in subpart 162.060 of title 46, Code of Federal Regulations (or similar successor regulation)—

(A) to measure the concentration of organisms in ballast water that are capable of reproduction; and

(B) to certify the performance of each ballast water management system under this section; and

(C) to certify laboratories to evaluate such treatment technologies.

(2) **PUBLIC COMMENT.**—The Secretary shall provide for a period of not more than 60 days for the public to comment on the draft policy letter published under paragraph (1).

(3) **FINAL POLICY.**—

(A) **IN GENERAL.**—Not later than 150 days after the date of the enactment of this Act, the Secretary, in coordination with the Administrator, shall publish a final policy letter describing type approval testing methods for ballast water management systems capable of measuring the concentration of organisms in ballast water that are capable of reproduction based on the best available science that may be used in addition to the methods established in subpart 162.060 of title 46, Code of Federal Regulations (or similar successor regulation).

(B) **REVISIONS.**—The Secretary shall revise the final policy letter published under subparagraph (A) as additional testing methods are determined by the Secretary, in coordination with the Administrator, to be capable of measuring the concentration of organisms in ballast water that are capable of reproduction.

(C) **CONSIDERATIONS.**—In developing a policy letter under this paragraph, the Secretary, in coordination with the Administrator—

(i) shall consider a testing method that uses organism grow out and most probable number statistical analysis to determine the concentration of organisms in ballast water that are capable of reproduction; and

(ii) shall not consider a testing method that relies on a staining method that measures the concentration of organisms greater than or equal to 10 micrometers and organisms less than or equal to 50 micrometers.

SEC. 5006. REVIEW AND RAISING OF BALLAST WATER DISCHARGE STANDARD.

(a) **EFFECTIVENESS REVIEWS.**—

(1) **SIX-YEAR REVIEW.**—

(A) **IN GENERAL.**—Not later than January 1, 2024, and subject to petitions for review under paragraph (3), the Administrator, in consultation with the Secretary, shall complete an effectiveness review to determine whether, based on the application of the best available technology economically achievable, the ballast water discharge standard can be revised such that ballast water discharged in the normal operation of a vessel contains—

(i) less than 1 organism that is living or has not been rendered nonviable per 10 cubic meters that is 50 or more micrometers in minimum dimension; and

(ii) less than 1 organism that is living or has not been rendered nonviable per 10 milliliters that is less than 50 micrometers in minimum dimension and more than 10 micrometers in minimum dimension; and

(iii) concentrations of indicator microbes that are less than—

(I) 1 colony-forming unit of toxigenic *Vibrio cholera* (serotypes O1 and O139) per 100 milliliters or less than 1 colony-forming unit of that microbe per gram of wet weight of zoological samples; and

(II) 126 colony-forming units of *Escherichia coli* per 100 milliliters; and

(III) 33 colony-forming units of intestinal enterococci per 100 milliliters; and

(iv) concentrations of such additional indicator microbes and of viruses as may be specified in regulations issued by the Secretary, in consultation with the Administrator and such other Federal agencies as the Secretary and the Administrator consider appropriate.

(B) **ALTERNATIVE REVISED STANDARD.**—If the Administrator finds—

(i) that the ballast water discharge standard cannot be revised to reflect the level of stringency set forth in subparagraph (A), the Administrator shall determine whether the application of the best available technology economically achievable would result in a reduction of the risk of introduction or establishment of aquatic nuisance species such that the ballast water discharge standard can be revised to be more stringent than the standard set forth in section 151.2030 or 151.1511 of title 33, Code of Federal Regulations, as in effect on the date of the enactment of this Act; or

(ii) that the best available technology economically achievable is more stringent than the standard under subparagraph (A) with respect to a class of vessels, the Administrator shall determine whether the ballast water discharge standard can be revised for that class of vessels to incorporate such more stringent standard.

(2) **TEN-YEAR REVIEWS.**—Not later than January 1, 2034, not less frequently than every 10 years thereafter, and subject to petitions for review under paragraph (3), the Administrator shall conduct an effectiveness review to determine whether the application of the best available technology economically achievable results in a reduction in the risk of the introduction or establishment of aquatic nuisance species such that the ballast water discharge standard can be revised.

(3) **STATE PETITIONS FOR REVIEW.**—

(A) **IN GENERAL.**—The Governor of a State may submit a petition requesting the Administrator to conduct a review under paragraph (1) or (2) if there is new information that could reasonably indicate the ballast water discharge standard could be made more stringent to reduce the risk of the introduction or establishment of aquatic nuisance species.

(B) **TIMING.**—A Governor may not submit a petition under subparagraph (A) during the 1-year period following the date of completion of a review under paragraph (1) or (2).

(C) **REQUIRED INFORMATION.**—A petition submitted to the Administrator under subparagraph (A) shall include—

(iii) the scientific and technical information on which the petition is based, including a description of the risk reduction that would result from the proposed ballast water discharge standard included under clause (i); and

(iv) any additional information the Administrator considers appropriate.

(D) **PUBLIC AVAILABILITY.**—Upon receiving a petition under subparagraph (A), the Administrator shall make publicly available a copy of the petition, including the information included under subparagraph (C).

(E) **TREATMENT OF MORE THAN ONE PETITION AS A SINGLE PETITION.**—The Administrator may treat more than one petition submitted under subparagraph (A) as a single such petition.

(F) **AUTHORITY TO REVIEW.**—After receiving a petition that meets the requirements of this paragraph, the Administrator, in consultation with the Secretary, may conduct a review under paragraph (1) or (2) or such other review as the Administrator, in consultation with the Secretary, determines appropriate.

(4) **AGENCY ACTION.**—In any review under this subsection in which the Administrator determines—

(A) that the ballast water discharge standard can be made more stringent, the Administrator shall—

(i) promptly publish such determination in the Federal Register and on a publically available website; and

(ii) inform the Secretary of such determination; or

(B) that the ballast water discharge standard cannot be made more stringent, the Administrator shall—

(i) promptly publish such determination, together with a detailed, written justification, in the Federal Register and on a publically available website; and

(ii) provide a copy of the documents required under clause (i) to any State that has petitioned the Administrator for the review.

(b) **PRACTICABILITY REVIEW.**—

(1) **IN GENERAL.**—If the Administrator determines under subsection (a) that the ballast water discharge standard can be made more stringent, the Secretary, in consultation with the Administrator, shall conduct a practicability review, considering the findings under such subsection, to determine whether—

(A) a ballast water management system that is capable of achieving the ballast water discharge standard as proposed to be revised is operationally practicable; and

(B) testing protocols can be practicably implemented that can assure accurate measurement of compliance with the ballast water discharge standard as proposed to be revised.

(2) **CRITERIA FOR PRACTICABILITY REVIEW.**—In conducting a practicability review under paragraph (1), the Secretary and the Administrator shall consider—

(A) improvements in ballast water management systems, including—

(i) the effectiveness and reliability of such systems in the shipboard environment;

(ii) the compatibility of such systems with the design and operation of a commercial vessel by class, type, and size;

(iii) the commercial availability of such systems; and

(iv) the safety of such systems;

(B) improvements in the capabilities to detect, quantify, and assess whether aquatic nuisance species are capable of reproduction in order to determine compliance with the ballast water discharge standard as proposed to be revised;

(C) the costs, cost-effectiveness, and effects of—

(i) a revised ballast water discharge standard; and

(ii) maintaining the existing ballast water discharge standard; and

(D) other criteria that the Secretary and the Administrator consider appropriate.

(c) **ISSUANCE OF REVISED BALLAST WATER DISCHARGE STANDARD.**—

(1) **IN GENERAL.**—The Secretary shall issue a rule to revise the ballast water discharge standard if the Secretary, in consultation with the Administrator, determines on the

basis of the practicability review under subsection (b) that—

(A) a ballast water management system that is capable of achieving the ballast water discharge standard as proposed to be revised is the best available technology, economically achievable, and operationally practicable; and

(B) testing protocols can be practicably implemented that can assure accurate measurement of compliance with the ballast water discharge standard as proposed to be revised.

(2) **STANDARD NOT REVISED.**—If the Secretary, in consultation with the Administrator, determines that the requirements of paragraph (1) have not been satisfied, the Secretary shall publish a description of how such determination was made.

(3) **REQUIREMENT.**—Any modified ballast water discharge standard issued in the rule under paragraph (1) shall be more stringent than the ballast water discharge standard it replaces.

(d) **REVISED BALLAST WATER DISCHARGE STANDARD EFFECTIVE DATE AND COMPLIANCE DEADLINE.**—

(1) **IN GENERAL.**—If the Secretary issues a rule to revise the ballast water discharge standard under subsection (c), the Secretary shall include in such rule—

(A) an effective date for the revised ballast water discharge standard that is 3 years after the date on which such rule is published in the Federal Register; and

(B) for the owner or operator of a commercial vessel that is constructed or completes a major conversion on or after the date that is 3 years after the date on which such rule is published in the Federal Register, a deadline to comply with the revised ballast water discharge standard that is the first day on which such commercial vessel operates in navigable waters of the United States.

(3) **EXTENSIONS.**—The Secretary shall establish a process for an owner or operator to submit an application to the Secretary for an extension of a compliance deadline established under paragraphs (1) and (2).

(4) **APPLICATION FOR EXTENSION.**—An owner or operator shall submit an application for an extension under paragraph (3) not less than 90 days prior to the applicable compliance deadline established under paragraph (1) or (2).

(5) **FACTORS.**—In reviewing an application under this subsection, the Secretary shall consider, with respect to the ability of an owner or operator to meet a compliance deadline—

(A) whether the ballast water management system to be installed, if applicable, is available in sufficient quantities to meet the compliance deadline;

(B) whether there is sufficient shipyard or other installation facility capacity;

(C) whether there is sufficient availability of engineering and design resources;

(D) commercial vessel characteristics, such as engine room size, layout, or a lack of installed piping;
