December 11, 2017

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

Walz

Renacci

DesJarlais

\square 1859

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

RECOGNIZING MIAMI JEWISH HEALTH SERVICES; EMPATHICARE VILLAGE

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, I would like to recognize the Miami Jewish Health Systems as they break ground on their cutting-edge memory care facility to be called the S. Donald Sussman EmpathiCare Village. This facility will serve as an essential resource to many elderly individuals in south Florida who find themselves in need of mental health services. The Sussman EmpathiCare Village will also host researchers working on cuttingedge memory care treatment.

This new facility is just the latest accomplishment in the Miami Jewish Health Systems' long tradition of service in our community. For over 75 years, this wonderful organization and its staff have provided compassionate healthcare with dignity and respect and helped those most in need in south Florida to live longer, healthier, and more enriched lives.

Mr. Speaker, I am honored that such an amazing institution is located in south Florida, and it is a pleasure to recognize that the S. Donald Sussman EmpathiCare Village is now a reality.

Thanks again to MJHS, and mazel tov on a job well done.

SUPPORTING CYBERSECURITY AND INFRASTRUCTURE SECURITY

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Mr. Speaker, earlier this evening, the House passed H.R. 3359, the Cybersecurity and Infrastructure Security Agency Act, and I would like to commend Homeland Security Committee Chairman McCAUL and Ranking Member THOMPSON for their efforts getting it through the House, along with my colleagues on the Homeland Security Committee.

This bipartisan bill makes long overdue changes to the organization of the National Protection and Programs Directorate, or NPPD, to reflect its growing operational role in cybersecurity. Despite it being notionally a headquarters component, NPPD is home to the government's premier cyber incident response teams; the 24/7 watch floor and information sharing hub; and the Federal Network Resilience Division, tasked with supporting other agencies in defending their networks. NPPD is also charged with leading asset response activities under the National Cyber Incident Response Plan.

H.R. 3359 recognizes that these activities go far beyond NPPD's original mission and raises the renamed component to an agency on par with Customs and Border Protection or the TSA.

Mr. Speaker, I hope the bill makes crystal clear that DHS is the primary agency for domestic cybersecurity in peacetime, and I encourage young people looking at cybersecurity careers to consider joining the vanguard at this new agency. I look forward to its swift passage and consideration in the Senate.

SEX AND LABOR TRAFFICKING IN LIBYA

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the auctioneer shouted: "Does anybody want to buy a worker? Here is a worker, a big strong man. He will dig.

"What is the bid? What is the bid?

"Sold to the highest bid of \$400."

Mr. Speaker, West Africans go to Libya thinking that they will get a job in Europe but, instead, are sold in Libya to labor and sex traffickers. These Africans simply seek a new life, free from terrorism, persecution, and famine; however, they become victims of modern-day slavery.

In the years following the United States' overthrow of the Libyan Government, the nation became a failed state. Sinking further into despair, the failed state became a brothel of slavery: human sex and labor trafficking. People are bound to the slave block

and sold at the marketplace of sex slavery and labor trafficking.

Mr. Speaker, slavery is a crime against humanity, and the United States must exercise caution when toppling regimes without understanding the long-term consequences like human slavery.

And that is just the way it is.

CONGRATULATING MONTCLAIR HIGH SCHOOL FOOTBALL TEAM

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, I rise today to congratulate the Montclair High School Mounties football team for winning their State championship game against the Union City Soaring Eagles.

The Mounties' senior running back, Daniel Webb, returned the championship game's opening kickoff 92 yards for a touchdown only 13 seconds after the game began. The Mounties never lost their lead. They beat Union City 35-14 and won New Jersey's North 1, Group 5 State championship. This was Montclair's third perfect season and fourth State championship in the past 6 years.

The championship is a big win for everyone in Montclair, New Jersey. For weeks, local businesses and community groups came together to support the Mounties. At the championship game, on December 1, more than 1,500 fans turned out to cheer their team on.

I ask my colleagues to join me in congratulating head coach John Fiore and the Montclair Mounties football team for their big win in a stellar year.

PREVENTING MATERNAL DEATHS

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, I rise today to speak in support of the Preventing Maternal Deaths Act. This bill would strengthen States' abilities to combat pregnancy-related and pregnancy-associated deaths.

Unfortunately, the number of these deaths in the United States has increased, according to the CDC. We also have the highest maternal mortality rate of any developed country, and we are the only country where maternal deaths continue to rise.

That is why this bill is so important: It helps States establish and support maternal mortality review committees to examine the causes of these deaths and then identify solutions that fit their community. It addresses disparities in maternal health outcomes and offers these committees the tools to collect the data they need to address and, hopefully, to eliminate—the causes of these unnecessary tragedies.

Minnesota's committee has already shown promise but would benefit from the additional resources this legislation provides.

Mr. Speaker, this bill enjoys bipartisan support and could reduce the number of unnecessary pregnancy-related and pregnancy-associated deaths. By taking this important step, we can and will save lives.

NET NEUTRALITY

(Ms. GABBARD asked and was given permission to address the House for 1 minute.)

Ms. GABBARD. Mr. Speaker, in 3 days, the internet as we know it could change forever.

On December 14, the FCC will be taking a vote on whether or not to get rid of net neutrality protections that keep the internet open, fair, and equal for everyone. Repealing these protections will allow internet service providers like Verizon, Comcast, and AT&T to control the levers of the internet—stifling access, deciding which websites you and I can visit and use, and making it virtually impossible for small businesses to compete against industry giants.

It will hurt our students, entrepreneurs, working families, and all who rely on the internet for things from education to healthcare to employment as a level playing field of opportunity.

The FCC must protect the people it is supposed to be serving, not big corporate interests, and make sure that the internet remains a place where everyone has a seat at the table.

SUPPORT YOUNG FARMERS AND VETERANS

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today in support of the Farmers of Tomorrow Act, a bill that Congresswoman CHERI BUSTOS and I recently introduced. Our bill was designed to make it easier for young farmers and veterans to purchase new land to begin a farming career.

New and beginning farmers can obtain ownership loans through USDA to buy land, but too many experience difficulty due to outdated experience requirements that do not take into account the variety of paths future farmers can take to prepare to run their operations.

The Farmers of Tomorrow Act allows new, beginning, or veteran farmers to count various experience toward the current 3-year experience requirement to make it easier to access USDA financing. This includes an honorable discharge from the United States military, successful completion of a farm management curriculum, at least 1 year as hired farm labor with management responsibilities, and more.

Access to land is essential for supporting the next generation of farmers.

This legislation will help get more Americans involved in agriculture, while strengthening rural communities. I encourage all my colleagues to support it.

TAX PROPOSAL

(Mr. KRISHNAMOORTHI asked and was given permission to address the House for 1 minute.)

Mr. KRISHNAMOORTHI. Mr. Speaker, this week the Republican leadership will reconcile the House and Senate tax proposals. In doing so, I strongly urge my colleagues to put politics aside and put working families first.

To do this, we need to enable employers and workers to invest in new skills for emerging jobs in our evolving economy. We need to spur infrastructure investment. We need to promote innovation, entrepreneurship, and new business formation. We need to ensure that every American has access to a quality education that prepares them for a successful career.

We need to do all of this without exploding the national debt. The plans before the committee do not pay for themselves. Unfortunately, they do not guarantee against cuts to Medicare, Medicaid, and Social Security either, and they do not put working families first.

For the sake of our economy and for the sake of our seniors, students, and working families, I strongly urge the conferees to produce a bill that focuses on their needs.

□ 1915

RECOGNIZING SERGEANT VINCENT SCALISE

(Ms. TENNEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TENNEY. Mr. Speaker, I rise today to recognize Sergeant Vincent Scalise, the founder of the Central New York Veterans Outreach Center in Utica, New York.

Sergeant Scalise has served our Nation in the Army National Guard for over 19 years and was deployed to Afghanistan and Iraq with the 2nd Battalion, 108th Infantry. Sergeant Scalise has also responded to multiple natural disasters and homeland security missions, and was awarded the New York National Guard's Colonel Gouverneur Morris Citizen/Soldier Award.

In 2008, Sergeant Scalise saw an opportunity in the vacant YMCA building in downtown Utica for a veterans outreach center to serve veterans and their families in times of need. His vision and hard work has created a safe and welcoming refuge for veterans and their families.

Currently, the Central New York Veterans Outreach Center administers a Federal grant to aid veterans in danger of becoming homeless, and it has a food pantry onsite for veterans and

their families, among a variety of other services. Work has begun to construct 18 onsite housing units, and the center has been awarded its fourth consecutive Federal veteran homeless prevention grant.

I commend Sergeant Scalise for his dedicated service to our country, community, and fellow veterans, and I wish the center many more years of growth and success.

HONORING ALBERT O. ORTA

(Mr. GARAMENDI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GARAMENDI. Mr. Speaker, the recent passing of the father of my district director brings me to the floor today to speak about the extraordinary career of Albert O. Orta and his selfless service to our Nation.

He began his career in the U.S. Air Force at Lackland Air Force Base in 1947, where he became an expert on radar and communications equipment. In 1949, he married Mary Louise Guerrero, which resulted in 12 children, 31 grandchildren, and 29 great-grandchildren.

Mr. Orta was a busy man, but he also served his country after leaving the U.S. Air Force. He became an expert in radar engineering and communications, working on the B-29, B-36, B-47, and B-52, as well as fighter jets F-84, F-86A, F-89, F-102, and F-106.

His outstanding accomplishments and his willingness to serve our Nation faithfully and to the best of his abilities brought him praise from President Jimmy Carter and a host of generals all around this Nation.

Mr. Speaker, I ask my colleagues and the United States House of Representatives to join me in honoring Albert O. Orta for his distinguished career and his proud service to our country.

CALLING AN ANGEL

(Mr. OLSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OLSON. Mr. Speaker, the Bible says angels come down from Heaven to end our pain.

On December 9, 2006, God called an angel home to end our pain. Her name was Chelsey Campbell. She died of cancer at age 16.

Our Lord put Chelsey in the hearts of two dear friends, Trish and Kevin Kline. They started the Snowdrop Foundation to end cancer for all kids. Kevin is a DJ on the 93Q Morning Zoo. Loyal listeners call Kevin "Gumpman." He is joined by two partners, Erica "La Reina Hermosa" Rico and Tim "Knucklehead" Tuttle.

Every Christmas, 93Q partners with Snowdrop and the Texas Children's Hospital for a radiothon. All December, stories are aired on iHeartRadio from parents and kids who are fighting cancer.
