

of vision, courage, and solid values, clearly focused not only on what is but, rather, open to the challenge of discerning and welcoming what is yet to be."

Sister Catherine, your sacrificial life was extraordinary, and you were countercultural. You will be missed. May your passionate words and deeds guide us to care for our fellow human beings. The American people are grateful for your lifetime of service.

I will later include in the RECORD a eulogy and tribute to Sister Catherine by Sister Christine Schenk, who spoke at her memorial service and whose first sentence about her reads: "Catherine's life was all about bringing glad tidings to the poor and letting the oppressed go free. She was so powerfully passionate and so dedicated to her mission of justice, who can doubt that the spirit had indeed anointed her for this work?"

CONGRATULATING PANAMA CITY BEACH FIRE CHIEF JOHN DALY ON RETIREMENT

(Mr. DUNN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNN. Madam Speaker, I rise today to congratulate Panama City Beach Fire Chief John Daly on his retirement.

Chief Daly served the people of Panama City Beach for 33 years and willingly took up the responsibility to run into the fire, putting his life on the line to save others countless times.

When he began his career with Panama City Beach Fire and Rescue in 1985, there were only seven career firefighters. Today that number has grown to 35 as our city has grown and thrived. John was promoted to chief in 2002 and has remained an outstanding leader ever since. He considers the firefighters under his watch to be family, and he knows that they will continue to do great things under the leadership of the new fire chief, Larry Couch.

Madam Speaker, please join me in saying thank you to Chief Daly, his wife, Joan, and their daughters for their years of service and sacrifice, and wish them luck as they enjoy a new chapter in life.

NATIONAL LAW ENFORCEMENT APPRECIATION DAY AND HONORING THE LIFE OF DEPUTY DANIEL MCCARTNEY

(Mr. REICHERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REICHERT. Madam Speaker, before I came to Congress, I spent 33 years as a cop. Today is National Law Enforcement Appreciation Day, a day to honor our dedicated law enforcement officers who selflessly put their lives on the line each and every day to protect our families. We not only honor

those who protect and serve us today, but we also remember those who paid the ultimate sacrifice.

Sadly, yesterday, in my community, we experienced the death, the murder, of another police officer. His name was Deputy Daniel McCartney of the Pierce County Sheriff's Department, shot and killed while responding to a burglary call. This brave man was also a Navy veteran and leaves behind a wife and three sons—4 years old, 6 years old, and 9 years old—without a father.

I ask you to join me today in praying for his family and for his colleagues in the Pierce County Sheriff's Department.

Every day, law enforcement officers are asked to stand tall in the face of danger. I know.

To paraphrase a quote from Sheriff Pastor yesterday after the death of his fallen officer, he said: Deputy McCartney ran toward trouble, ran to protect. He is a man who served with the heart of a servant, with spirit, with strength and compassion.

Please join me today in thanking our law enforcement officers across this Nation for their dedicated service.

MEDIA POSITIVE NEWS

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Madam Speaker, the media's daily barrage of negative stories have undermined the public's confidence in their reporting. The media continues to ignore positive stories about the President's effective policies.

If the media were not so biased against the President, more of the American people would know the following:

The 4.1 percent unemployment rate for the entire country is the lowest it has been in 17 years;

Latino and African-American unemployment numbers are the lowest in decades;

The stock market has broken numerous records, adding significant value to Americans' investment and retirement accounts;

The economy is growing at 3.3 percent, the fastest in years;

Consumer confidence is at a 17-year high.

The liberal media should report the facts, even if they make the President look good.

RECOGNIZING LITTLE ROCK POLICE DEPARTMENT

(Mr. HILL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HILL. Madam Speaker, I rise today on this National Law Enforcement Appreciation Day to recognize this year's Little Rock Police Department recruit class and their efforts to

fill dozens of sworn officer vacancies within the department.

Little Rock's police force has suffered a loss in numbers over the past few years, currently with 84 sworn officer vacancies. According to department data, this fall's recruit class is tied for the largest number of starting recruits since 1993.

Earlier this year, City Manager Bruce Moore announced that officers would work mandatory overtime due to the vacancies. So I thank City Manager Moore, Chief Buckner, and Mayor Mark Stodola for their leadership and efforts to address these vacancies and return this department to full strength.

I respect and appreciate the important work of our police throughout the Nation who are charged with the critical work of protecting us in our States and communities.

I wish this recruit class the very best of luck as they pursue their goal of joining the Little Rock Police Department and ensuring the safety of our citizens, our neighborhoods, and our property.

CLIMATE CHANGE IS REAL

(Mr. BEYER asked and was given permission to address the House for 1 minute.)

Mr. BEYER. Madam Speaker, I rise to claim that climate change is real, that it is manmade, and that we have a responsibility to act bravely and constructively to minimize the damage it does to humanity and to the fauna and flora of our planet.

The reality of our warming atmosphere, oceans, and continents has been established in thousands of peer-reviewed articles. This is scientific fact accepted by the governments of peoples of almost every nation in the world.

But science is always evolving, and scientists continue to work diligently to discover the facts, the processes, and the implications for all of us. Mostly, what we learn is sad and destructive.

Last Thursday, the peer-reviewed academic journal *Science* published a new study that concludes the frequency of coral bleaching has increased so much that reefs cannot recover between severe episodes.

We need to focus on just the facts of climate change and then be wise enough and bold enough to act. Every Member of Congress must bear the burden of this responsibility.

HONORING THE MEMORY OF FIREFIGHTER LIEUTENANT MATT LETOURNEAU

(Mr. MEEHAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MEEHAN. Madam Speaker, it is with a heavy heart that I rise today to honor the memory of Philadelphia firefighter Lieutenant Matt LeTourneau, who is also a long-time member of the Springfield Fire Company in Delaware County, Pennsylvania.
