

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, in honor of Rare Disease Day, I am proud to recognize Grace Herschelman, a 6-year-old from Hillsboro, Illinois, who continues to be an inspiration for thousands.

When Grace was 3 years old, she was diagnosed with infantile neuroaxonal dystrophy, a neurodegenerative disease that results in a loss of muscle strength, movement, and the ability to speak. At the time of her diagnosis, there were only 10 documented cases of INAD in the Nation, and most children with this disease do not make it to their 10th birthday.

Throughout her diagnosis and therapy treatment, Grace and her family have been a source of inspiration throughout Illinois. They have increased awareness for a rare and terminal disease and have raised more than \$175,000 for research, with donors coming from all 50 States.

Grace and her family's story is just one example of why I support increased funding for the National Institutes of Health and legislation like the 21st Century Cures Act. Thousands of Americans are afflicted with rare diseases like those that afflict Grace, and we, as a nation, must work together to ensure better treatment, cures, and hope that is prioritized and possible for these patients and their families.

EXPANSION OF CHICAGO O'HARE INTERNATIONAL AIRPORT

(Mr. KRISHNAMOORTHY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KRISHNAMOORTHY. Mr. Speaker, the city of Chicago and Chicago's airline carriers are finalizing their negotiations for an \$8.5 billion expansion of Chicago O'Hare International Airport. This will provide it with a state-of-the-art global terminal. This plan will bring more tourism, more economic activity, and more jobs to the Chicago area, while making it more necessary than ever to complete the Elgin O'Hare Western Access Project.

This project has won support from every faction: Chicago and the suburbs, Republicans and Democrats, business and labor, and even Cubs and Sox fans. It is clear why. Western Access would create nearly 20,000 jobs: 7,400 in direct construction and more than 3,000 in engineering; another 6,000 indirect jobs would be created for equipment suppliers and contractors.

Once the project is completed, our region would realize 65,000 permanent jobs: 44,000 in Cook County, and nearly half that many in DuPage.

With the O'Hare of the future in development, it is time we complete Western Access and allow our region to reap the rewards.

CONGRATULATING FAIRVIEW SOUTHDALE HOSPITAL

(Mr. PAULSEN asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, I want to recognize Fairview Southdale Hospital in Edina for recently receiving the 2018 Distinguished Hospital Award for Clinical Excellence from Healthgrades.

Fairview Southdale was also named one of the country's top 100 best hospitals for cardiac care, coronary intervention, and pulmonary care. Distinguished hospitals are determined and measured by whether they achieve outstanding outcomes in at least 21 of 23 common conditions and procedures.

Patients who are treated in these hospitals, on average, face a lower risk of death than if they were treated in hospitals without this designation. These hospitals also achieve better clinical results than 95 percent of hospitals across the country.

Mr. Speaker, the doctors, the nurses, the staffs at Fairview do incredible work, and I know they deserve this recognition, and we also know their patients are in good hands.

RECOGNIZING MONSIGNOR WILLIAM LINDER

(Ms. KAPTUR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. KAPTUR. Mr. Speaker, there are few Americans who dedicate their lives completely to rebuilding an inner-city community.

Imagine a person who seeks no personal recognition but is imbued with deep faith and a future they help guide. Imagine their drive arising from their mission to serve others.

One of these rare souls is Monsignor William Linder of Newark, New Jersey, the founder of the New Community Corporation, which celebrates its 50th anniversary this year. Monsignor Linder's adult life is a powerful and pioneering example of a modern wise man who planted a church in the public square to transform America.

As a young priest in the 1960s, he was assigned to Newark's Central Ward amidst riots and racial tension. This was a divisive and uncertain time, yet he took it upon himself to walk hand in hand with the people of Newark who desperately needed someone to believe in them and inspire a better way forward.

Linder listened to the people, and together they organized for affordable housing, civil rights, and a better way of life for all. His determination and boundless faith helped New Community achieve major revitalization.

Without question, New Community provides a reliable blueprint for rebuilding America's most neglected spaces. America is blessed, indeed, humbled, and filled with gratitude for Linder's life of service.

Thank you, Monsignor Linder. You are a good and faithful servant and living example of the commitment real progress requires.

DENICE MIRACLE—AMERICAN AIRLINES EMPLOYEE TO THE RESCUE

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, New York City lights, modeling, and starring in music videos sounds like a script from a movie. So when two young girls met a man they knew as "Drey" on Instagram, they thought they had their ticket to the spotlight. Little did they know they were about to be victims of human sex trafficking.

The 15- and 17-year-old girls headed to the airport, ready to check into their American Airlines flight, Denise Miracle, however, was working the American Airlines ticket counter when the girls approached. She noticed that the teenagers looked nervous. They had too many bags, no adult was with them, and they had one-way, first-class tickets.

Denise's training kicked in, recognizing the red flags of human trafficking. She immediately alerted law enforcement, and they came to the rescue. Thankfully, this story ends with both girls returning home safely. They were not trafficked into the scourge of human slavery, in large part, because of Denise, who saw something and said something.

We thank people like Denise Miracle for their work, for their personal involvement in rescuing these two girls from evil.

And that is just the way it is.

CONGRESS MUST CONTINUE TO WORK TO PROTECT DREAMERS

(Mr. ESPAILLAT asked and was given permission to address the House for 1 minute.)

Mr. ESPAILLAT. Mr. Speaker, earlier today, the Supreme Court rejected the Trump administration's appeal to leapfrog the judicial system in an attempt to end DACA. Today's decision is a victory for Dreamers and the entire Nation. But our work in Congress must continue until we pass the Dream Act to protect Dreamers once and for all.

This decision tells us what we have already known all along, that ending DACA would be detrimental to our community and for our economy. With the loss of revenue, if we end DACA, it means that critical public programs like Social Security and Medicaid will take a big hit. We know that the Dreamers will bring in \$460 billion in economic output over a decade.

Dreamers are our sisters, our brothers, our cousins. They are owners of grocery stores, taxi drivers, members of our Armed Forces. We cannot afford to sit idly by. Mr. Speaker, I urge you to bring a clean Dream Act to the floor.
