

Born and raised in Long Branch, New Jersey, John is a lifelong resident of the city and an active member of the community. Currently serving as Council President, John was first elected to the city council in 1990 and then ran successfully again for a council seat in 2010 where he has served ever since. In this capacity, John has made the safety and well-being of Long Branch residents a priority and continues to focus on the redevelopment of the city, serving as a board member of the Urban Enterprise Zone.

In addition to his work as a public servant, John is the Vice President of the Long Branch Free Public Library Board of Trustees, a member of the Amerigo Vespucci Society and a parishioner of Holy Trinity Church.

John is the owner of Video Life Productions, a successful video production company that he established in 1982. He and his wife Svetlana are the proud parents of John Thomas.

Mr. Speaker, I sincerely hope my colleagues will join me in congratulating John Pallone on his recognition as Man of the Year by the Amerigo Vespucci Society. He is truly deserving of this body's recognition.

SPRINGFIELD CLINIC LEADS
ILLINOIS IN OPENNOTES

HON. RODNEY DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Monday, March 5, 2018

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today in order to recognize the Springfield Clinic, one of the first multi-specialty clinics in downstate Illinois. With more than 400 physicians and advanced practitioners practicing in 80 medical specialties and sub-specialties, Springfield Clinic now proudly stands as one of Illinois' largest private multi-specialty clinics and serves nearly one million patients throughout the central Illinois region.

In 2010, as part of their "leading the way" initiative, all Springfield Clinic offices began working with the OpenNotes movement. This put them among the nation's leaders in integration of electronic health record technology, which enables clinicians to share their visit notes with patients through fully transparent medical records. This secure system encourages patients to become active participants in their health care by providing a convenient way to access and manage personal medical records, communicate directly with medical professionals, schedule appointments and prescriptions, receive email and text reminders for preventive care and upcoming appointments, and pay bills online.

This dynamic state-of-the-art system provides Springfield Clinic the necessary tools to expand patient services. However, we cannot hope to automate and streamline provider workflow unless more patients sign up for and participate in these portals. I'm proud to represent Springfield Clinic, which is on the forefront of this innovative approach to the doctor-patient relationship. Nineteen million patients are already taking advantage of their new ability to access medical information online through OpenNotes, and my hope is that this number only continues to grow both in my district and across the country. More and more medical professionals and citizens should take

advantage of this patient-centered program so we can focus on what matters most—patient care.

RECOGNIZING AND COMMENDING
CASEY JESZENKA

HON. MADELEINE Z. BORDALLO

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Monday, March 5, 2018

Ms. BORDALLO. Mr. Speaker, I rise today to recognize and commend Casey Jeszenka for his service to the people of Guam. Casey made Guam his home and joined the Pacific Islands Small Business Development Center in 2000. He has served as the director of the Pacific Islands Small Business Development Center Network for the last 16 years and will retire on March 2, 2018. Throughout his tenure, Casey has been an invaluable advocate and resource for many in our community in Guam to develop successful businesses and contribute to the local economy. I have worked closely with Casey throughout my time in Congress, and he has been a trusted advisor in the development of small businesses on Guam.

As the Network Director, Casey has been responsible for the overall management and implementation of the service functions associated with the University of Guam Pacific Islands Small Business Development Center Network (PISBDCN). His leadership at PISBDCN was instrumental to assisting clients and providing information, resources, education, technical support, and professional counseling and consultant services to local entrepreneurs and business owners. Casey worked closely with both the public and private sectors and a system of island sub-centers, overseeing their organization, program implementation, management and evaluation processes in order to further develop and enhance a comprehensive network on Guam and throughout Micronesia. Casey nurtured partnerships between PISBDCN, and the Guam Small Business Administration (SBA), the Guam Economic Development Authority (GEDA), and the University of Guam College of Agriculture's Extension Programs to make the programs of the Pacific Islands Small Business Development successful.

Prior to serving as Network Director, Casey served as Special Projects Director and Counselor from 2000 to 2002 for the Pacific Islands Small Business Development Center. Casey was responsible for planning, directing and organizing the establishment and operations of new and established Small Business Development Center (SBDC) Subcenter and Satellite programs throughout the network. He provided training to new SBDC Subcenter and Satellite personnel in accordance with the PISBDCN Standard Operating Procedures. Casey, additionally directed and supervised the SBDC Subcenter and Satellite counseling services and training programs, and trained SBDC personnel to handle these duties. He assisted in the development and tracking of goals in line with the PISBDCN mission, strategic plan and directives. also provided a comprehensive range of small business based assistance to established and prospective small business owners and other qualified clients including one-to-one client counseling. Casey imple-

mented SBDC orientation and training sessions and developed and implemented new workshops.

In addition to his roles with the Pacific Islands Small Business Development Center, Casey has also been actively involved as a member of the Pacific Asia Travel Association Micronesia Chapter's Executive Committee, a member of the Pacific Asia Travel Association Micronesia Chapter's Education Committee, as secretary of the Pacific Islands Small Business Development Center Network's Advisory Board, and as a member of the Guam Chamber of Commerce Small Business Committee.

Casey has worked diligently throughout his 18 years of service on Guam. He will be missed as a valued member of the Pacific Islands Small Business Development Center, but through his leadership and guidance, he has positioned the PISBDCN to continue its exceptional service to the people of Guam. I extend my sincere congratulations to Casey, and I join the people of Guam in commending him for his service and thanking him for his many contributions to our island community.

RECOGNIZING THE CAPITOL VISITOR CENTER AND STAFF FOR SURPASSING 20 MILLION VISITORS TO THE CVC

HON. GREGG HARPER

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Monday, March 5, 2018

Mr. HARPER. Mr. Speaker, I rise today to congratulate the staff of the U.S. Capitol Visitor Center (CVC) and recognize the CVC for surpassing its twenty-millionth visitor.

On December 2, 2008, the CVC opened to the public for the first time. By May of the following year, the CVC welcomed its one millionth visitor. During this past December, after just nine years in operation, the CVC welcomed its 20 millionth visitor.

Since its opening, the CVC has been guided by four primary goals to better serve the U.S. Congress: Security, Visitor Education, Visitor Comfort, and Functional Improvements to the U.S. Capitol.

Today, which traditionally marks the beginning of the Spring tourist season, the CVC provides a secure public environment to welcome and assist a large number of visitors. The CVC creates and presents informative programs on the workings and history of the Congress, the legislative process, and the art and architecture of the Capitol to millions of visitors each year, all while providing the amenities, comfort, convenience, and accessibility for visitors appropriate to one of the nation's most visited tourist destinations.

The CVC team welcomed 2.4 million visitors in 2017, the highest single-year total since the facility opened. Even more remarkable is that almost half of those visitors came during the Spring season between the months of March and June. As we are about to begin a new Spring tourist season, I am reminded of just how important the CVC is as we welcome our constituents to Washington, D.C.

Behind the scenes, the CVC provides modern, efficient facilities for the operational functions of the Capitol, as well as provides important work space for both the House and Senate, and improves connectivity between the Capitol and the Library of Congress.
