IN RECOGNITION OF THE 175TH ANNIVERSARY OF CARBON COUNTY, PENNSYLVANIA

HON. MATT CARTWRIGHT

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 13, 2018

Mr. CARTWRIGHT. Mr. Speaker, I rise today to honor the people of Carbon County as that county celebrates its 175th Anniversary of incorporation. On March 13, 1843, Carbon County was created by combining parts of Northampton and Monroe Counties. The County was named for the vast abundance of anthracite coal found in the region.

Carbon County consists of land originally obtained from the Delaware Tribe during the Walking Purchase of 1737. The first settlement established in the area was Gnadenhutten. Set up by twelve German monks of the Moravian order in 1745, today, the town of Lehighton stands in its place. During the Industrial Revolution, Carbon County was the home of the first railroad in America that was built on any large scale, known as "The Switchback." Carbon County is also the location of the trials and executions of the infamous Molly Maguires, a secret organization whose members were accused of targeting mine company representatives with violence during early struggles over the treatment of miners.

Carbon County spans over 500 square miles in the Pocono Mountain region of Pennsylvania. Over two-thirds of the county is state game and park land. Because of its strategic location in the Poconos, its natural beauty, and its rich history, the county attracts many

hikers, cyclists, history buffs, and people seeking adventure. With its seat located in Jim Thorpe, Carbon County has twenty-three municipalities, several unincorporated communities, and close to 64,000 residents. The county is generally considered a bellwether county for statewide elections.

It is an honor to recognize Carbon County as its residents observe the 175th Anniversary of incorporation. I take great joy in joining celebration of such an important milestone. I wish everyone in the county all the best as they continue to make history.
