

to credit to financial institutions that would otherwise not be able to access credit through their local markets and creates a reliable source of liquidity for affordable housing initiatives.

Our bipartisan bill only seeks to address those captives that were previously granted FHLB membership prior to February 19, 2016. By allowing captive insurers to continue to invest in mortgages and mortgage-related securities through the FHLB system, they can continue to provide both credit and liquidity to the market. Such sources of private capital are critical to the long-term financing of the FHLB system, and therefore, eligibility in the system should be preserved. Our legislation will achieve this purpose. I wish to turn to my friend from Wisconsin, Senator JOHNSON.

Mr. JOHNSON. Mr. President, I agree with the comments of my colleagues on the need to pass S. 2361 during the 115th Congress. The legislation is narrowly tailored such that it would provide the opportunity for reapplication or continuation of FHLB membership only for those captive entities that meet a series of criteria pertaining to the mission of their parent companies to serve the residential mortgage market. These captive members have proven track records of responsible membership, have contributed to the system, and have invested their capital in the respective FHLBs. Moreover, each and every captive that would be affected by our bill are subsidiaries of financial institutions that are aligned with the overall mission of the FHLBs.

I yield to my colleague from Wisconsin, Senator BALDWIN.

Ms. BALDWIN. Mr. President, unfortunately, including this legislation in the recently passed S. 2155 was not possible due to a number of procedural objections that could not be overcome. However, it is our understanding that the substance of our bill has the support of several FHLBs, and we intend to work with our colleagues, the administration, and FHFA to find sustainable ways for housing-focused entities such as relevant captive insurance companies to participate in the FHLB system.

WOMEN'S HEALTH

Mrs. FEINSTEIN. Mr. President, today I wish to speak on the important topic of women's health, which has been under attack by the Trump administration.

Through its policies and the actions of its officials, the Trump administration has undermined women's health at every opportunity.

In the first year of the Trump administration, we have seen attempts to block access to Planned Parenthood, restrict women's access to birth control, legislation to ban certain medical procedures, the creation of new government offices to undermine women's healthcare, and judges nominated who openly oppose women's privacy rights.

Scott Lloyd, the Director of the Office of Refugee Resettlement, ORR, is the perfect illustration of this deeply disturbing trend.

Federal court documents and extensive media reports show that Mr. Lloyd has used his official office to prevent unaccompanied minors at ORR shelters from accessing legally available reproductive healthcare.

In one case, a 17-year-old young woman, referred to as Jane Doe, was transferred to an ORR shelter after crossing the U.S.-Mexico border. While in government custody, Jane Doe discovered she was pregnant and sought access to an abortion. She satisfied all requirements under Texas law and secured her own funds to pay for the procedure. In spite of this, ORR officials repeatedly blocked her from accessing care. Jane Doe went to court and was granted approval to obtain the procedure. Nevertheless, the Trump administration's Department of Justice cruelly appealed the decision, alleging that the government has an interest in blocking her personal decision.

Since Jane Doe's case, it has been uncovered that Trump administration officials have directly intervened in other similar cases. There are reports that Mr. Lloyd has denied young women access to their lawyers. Additionally, he has implemented policies that violate young women's medical privacy rights. It is also concerning that, as someone with no medical expertise or training, Mr. Lloyd has personally pressured young women about their medical options. In court documents, Mr. Lloyd acknowledged that he has never approved a request for the procedure and even admitted that he has denied such requests in the cases of rape victims. This is shocking, particularly considering that many of the young women who come into ORR custody have fled sexual and gender-based violence in their home countries.

On top of that, some of these young women go through harrowing experiences along their journey to the United States, during which they are at risk of being trafficked, kidnapped, and raped. Blocking them from making their own determinations about their health and bodies only adds to the trauma they have already experienced.

In light of Mr. Lloyd's shocking actions, I have called on him to resign.

I find it appalling that the Trump administration believes women—undocumented or otherwise—do not have the right to control their own bodies and make their own healthcare decisions. Young women do not lose their right to make their own healthcare decisions just because they are in government custody.

ORR is responsible for protecting the well-being of the most vulnerable people: those who have been tortured, children who arrive in the country alone and without a parent, and individuals fleeing persecution.

It is imperative that the leader of this office uphold this mission, rather

than advancing his own personal, political agenda. We have an obligation to treat young women in government custody with the dignity and respect they deserve.

The Trump administration needs to stop attacking women and start recognizing their right to control their own bodies, medical decisions, and destiny.
