MUSIC MODERNIZATION ACT

SPEECH OF

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 25, 2018

Mr. SENSENBRENNER. Mr. Speaker, the Music Modernization Act, which the House is

considering is a major step forward in providing fairness for those in the music industry. This legislation updates several key provisions of U.S. copyright law regarding music licensing, including the creation of a single licensing entity to administer mechanical reproduction rights for digital music compositions, and the establishment of royalty payments for pre-1972 artists. I am proud to support it.

While this legislation is a major achievement, there are additional issues around the public performance of musical works which have been a priority for me that must be addressed. Specifically, we need to address the fact that venues such as restaurants, bars, hotels, wineries, breweries and other retail establishments cannot rely on the repertoires published by the Performing Rights Organizations to make decisions about what music to play. I've heard from many business owners in my district throughout the years that have had to decrease their use of live music as a result of a complicated and convoluted music licensing process. Currently, they face a "take it or leave it" situation: Either buy licenses from all the Performing Rights Organizations or don't play music. This not only hurts small businesses, it hurts the artists when their music isn't played.

This problem certainly isn't localized to Wisconsin. It's happening throughout the entire country, and it's up to Congress to take the necessary steps to fix it. For this reason, I introduced H.R. 3350, the Transparency in Music Licensing and Ownership Act, last year. This bill would establish a fully searchable, up-to-date, comprehensive digital database of historical and current copyright ownership and licensing information. By increasing transparency we can help ensure that when a business pays a music licensing fee, it knows exactly what it is buying. It is my hope that this and other issues can be addressed in subsequent legislation.

HONORING THE PUNAHOU SCHOOL NATIONAL SCIENCE BOWL 2018 FINALISTS

HON. COLLEEN HANABUSA

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 26, 2018

Ms. HANABUSA. Mr. Speaker, I rise today to celebrate Punahou School's win in the Hawaii Regional High School Science Bowl and for earning the honor of competing in the National Science Bowl for the third year in a row.

Created by the Department of Energy's Office of Science in 1991, the National Science Bowl is one of the largest and most prestigious academic competitions in the United States. Over 290,000 students have participated throughout the National Science Bowl's 27 years. Each year, this competition has encouraged thousands of students—in all 50 U.S. States, the District of Columbia, and Puerto Rico—to expand their understanding of mathematics and science and pursue careers in such fields. This year, 1,211 teams competed nationwide.

The team from Punahou will face the remaining 64 high school teams in the National Science Bowl Finals in Washington, D.C. this week. To the Punahou School team—Alexander Apo, Anna Kimata, Evan Liu, Ryan

Park, Dong-Woo Seo, and Coaches Tiffany Coke and Melissa Giresi—all the best in this year's competition. You are a shining example to your peers and I wish you continued success in your education and careers.

Mr. Speaker, I am honored to represent these students and their families in the United States Congress and I know all my colleagues in the House will join me in congratulating Punahou School on competing in the National Science Bowl Finals 2018.
